## Notes to the Financial Statements

SHELBY COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Shelby County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, or the Health Center Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed by warrant or in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                               | <u>Years Ended December 31,</u> |
|---|---------------------------------|
| Sheriff Escrow Fund                       | 1999 and 1998                   |
| Associate Clerk and Probate Interest Fund | 1998                            |
| Circuit Clerk and Recorder Interest Fund  | 1998                            |
| Sound Recording Equipment Fund            | 1999                            |
| Parent Education Fund                     | 1999                            |
| CDBG Fund                                 | 1998                            |

Warrants issued in excess of budgeted amounts for the Circuit Clerk and Recorder Interest Fund and the Law Library Fund in 1999.

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements did not include the following funds:

| <u>Fund</u>                                 | <u>Years Ended December 31,</u> |
|---|---------------------------------|
| Sheriff Escrow Fund                         | 1999 and 1998                   |
| Law Library Fund                            | 1999 and 1998                   |
| Children's Trust/Domestic Violence Fund     | 1999 and 1998                   |
| Associate Circuit and Probate Interest Fund | 1999 and 1998                   |
| Circuit Clerk and Recorder Interest Fund    | 1999 and 1998                   |
| Sound Recording Equipment Fund              | 1999                            |
| Parent Education Fund                       | 1999                            |
| CDBG Fund                                   | 1998                            |

In addition, the amounts presented in the published financial statements for the Health Center Fund included only those amounts which passed through the County Treasurer.

2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among

other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's and the health center's deposits at December 31, 1999 and 1998, were entirely covered by federal depositary insurance or by collateral securities held by the county's or health center's respective holding bank in the county's or health center's name, respectively.

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

SHELBY COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Shelby County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for the Surplus Property (CFDA number 12.unknown) represent the estimated fair market value of property at the time of receipt.

Of the amounts for Immunization Grants (CFDA number 93.268), \$14,948 and \$13,611 represent the original acquisition cost of other vaccines purchased by the

Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$178 and \$1,237 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$890 and \$354 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants, the Preventive Health and Health Services Block Grant, and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

The county provided no federal awards to subrecipients during the years ended December 31, 1999 and 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Shelby County, Missouri

Compliance

We have audited the compliance of Shelby County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. The county's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Shelby County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed

instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 99-2 and 99-3.

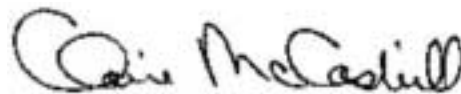

#### Internal Control Over Compliance

The management of Shelby County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted a certain matter involving the internal control over compliance and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the county's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. The reportable condition is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-2.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we do not believe that the reportable condition described above is a material weakness.

This report is intended for the information of the management of Shelby County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Auditee qualified as a low-risk auditee? \_\_\_\_\_ yes        x   no

This section includes the audit finding that *Government Auditing Standards* requires to be reported for an audit of financial statements.

The county imposed a sales tax under Section 67.547, RSMo 1994, for the purpose of establishing an enhanced 911 emergency telephone service; however, the county also has another one-half of one percent sales tax levy under this law. With this additional sales tax, the county is levying one percent, which is apparently above the statutory maximum allowed by Section 67.547. The county could have submitted this issue to the voters under Section 190.335, RSMo Cumulative Supp., which authorizes up to a one-half of one percent sales tax levy for the purpose of providing emergency services. The county needs to review the various sales taxes being imposed to determine which are valid.

### **AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

### Section III - Federal Award Findings and Questioned Costs

**99-2. Schedule of Expenditures of Federal Awards**

|                       |   |
|-----------------------|---|
| Federal Grantor:      | U.S. Department of Health and Human Services      |
| Pass-Through Grantor: | State Department of Health                        |
| Federal CFDA Number:  | 93.991  |
| Program Title:        | Preventive Health and Health Services Block Grant |
| Pass-Through Entity   |   |

Identifying Number: A0C9000113, A0C0380172, and A0CB000076  
Award Year: 1999 and 1998  
Questioned Costs: Not applicable

Federal Grantor: U.S. Department of Transportation  
Pass-Through Grantor: State Highway and Transportation Commission  
Federal CFDA Number: 20.205  
Program Title: Highway Planning and Construction  
Pass-Through Entity  
Identifying Number: BRO 102(14) and BRO 102(15)  
Award Years: 1999 and 1998  
Questioned Costs: Not applicable

Section .310(b) of Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the SEFA to the State Auditor's Office as part of the annual budget.

The county does not have a procedure in place to adequately track federal assistance for preparation of the SEFA. The county prepared a SEFA for the years ended December 31, 1999 and 1998; however, the information presented for all but one of the programs did not agree with the county's expenditure records.

Without an accurate SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

**WE RECOMMEND** the County Clerk prepare a complete and accurate schedule of expenditures of federal awards to submit to the State Auditor's Office as part of the annual budget.

#### **AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

*The County Clerk indicated she will attempt to prepare an accurate schedule of expenditures of federal awards for the year ended December 31, 2000.*

|              |                        |

| Identifying Number:   | BRO 102(14)                                 |

Award Year: 1998  
Questioned Costs: Not applicable

The county contracts with the State Highway and Transportation Commission for bridge replacement and rehabilitation under the Off-System Bridge Replacement and Rehabilitation Program. The county normally pays such expenditures as the liability is incurred and prior to the reimbursement; however, we noted one reimbursement totaling \$89,527 was held 182 days from the date of receipt until the related payment was made.

Section 6.2.2 of the Cash Management Improvement Act Agreement between the State of Missouri and the Secretary of the Treasury, United States Department of the Treasury, states that funds shall be requested such that they are received not more than two days prior to disbursement of those funds.

Non-compliance with the Cash Management Improvement Act Agreement could result in future reductions of federal funds.

**WE RECOMMEND** the County Commission establish procedures to minimize the time elapsed between the receipt of federal funds and the disbursement of such funds.

#### **AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

*The County Commission indicated the engineering firm notified the county that there was a prevailing wage rate dispute involving the contractor. The County Commission held the monies until the matter was resolved. There are procedures in place to minimize time elapsed between the receipt and disbursement of federal funds; this was an exception.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

SHELBY COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the three years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

SHELBY COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

This section represents the Summary Schedule of Prior Audit Findings, which was prepared by the county's management.

1. County Procedures

|                       |   |

| Identifying Number:   | 91PF555  |
| Award Year:           | 1997   |
| Questioned Costs:     | Not applicable                                   |

- B. During the years ended December 31, 1996 and 1995, two reimbursements from the Missouri Department of Transportation for bridge replacement and rehabilitation totaling \$76,251 were held from 74 to 104 days and one reimbursement of \$17,067 which was held 330 days before the related payments were made. In addition, one reimbursement of \$11,796 for a Community Development Block Grant project was held 18 days before the related payments were made.

Recommendation:

- B. The County Commission consult with the grantor agencies to resolve the questioned costs. In addition, the County Commission should establish procedures to minimize the time elapsed between the receipt of federal monies and disbursement of such funds.

Status:

- B. Not implemented. The County Clerk has contacted the Missouri Department of Transportation and is working to resolve this situation. See finding number 99-3.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

SHELBY COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Shelby County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated March 30, 2000. We also have audited the compliance of Shelby County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998, and have issued our report thereon dated March 30, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our review of the elected county officials referred to above. In addition, this report includes findings other than those, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These findings resulted from our audit of the special-purpose financial

statements of Shelby County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*.

|    |                          |
|----|--------------------------|
| 1. | <b>County Procedures</b> |
|----|--------------------------|

- A. Bids were not always solicited, nor was bid documentation always retained for various purchases of used equipment made by the county during the audit period. Examples of items purchased for which bids were not solicited or adequate documentation could not be located are as follows:

| <u>ITEM PURCHASED</u>  | <u>COST</u>      |
|------------------------|------------------|
| Used Ford Dump Truck   | \$ 10,000        |
| Supreme Heil Truck Pup | 12,000           |
| Ford XLT 150 Truck     | <u>6,000</u>     |
| TOTAL                  | \$ <u>28,000</u> |

Section 50.660, RSMo Cumulative Supp. 1999, requires the advertisement for bids for all purchases of \$4,500 or more, from any one person, firm, or corporation during any period of ninety days.

Bidding procedures for major purchases provide a framework for economical management of county resources and help assure the county that it receives fair value by contracting with the lowest and best bidders. In addition, competitive bidding ensures all parties are given an equal opportunity to participate in county business. Documentation of bids should include, at a minimum, a listing of vendors from whom bids were requested, a copy of the request proposal, newspaper publication notices when available, bids received, the basis and justification for awarding bids, and documentation of all discussions with vendors.

- B. During the years ended December 31, 1999 and 1998, the county paid an engineering firm approximately \$4,300 and \$2,300, respectively, to design the Emergency 911 office and the courthouse basement, respectively.

There was no evidence that at least three engineering firms were considered, no contract documenting the rights and obligations of each party, and no evidence that an estimate of the amount the county was able to spend on the project was provided to the engineering firm.

Failure to adequately plan, solicit services and document agreements related to county projects may result in misunderstandings between the parties involved and unnecessary expenditures for the county.

In addition, Section 8.291, RSMo 1994, provides that when engineering services are obtained, the qualifications of at least three firms shall be considered. Section 432.070, RSMo 1994, prohibits a county from making a contract unless it is in writing.

Condition A was similarly noted in the previous four reports.

**WE RECOMMEND** the County Commission:

- A. Solicit bids for all items in accordance with state law. Documentation of bids solicited and justification for bid awards should be maintained by the County Clerk. If bids cannot be obtained and sole source procurement is necessary, the County Commission minutes should reflect the circumstances.
- B. Consider the amount the county can afford for construction and renovation projects prior to incurring expenditures related to the projects. In addition, the County Commission should enter into written agreements for all services which specify all duties to be performed and the compensation to be paid.

### **AUDITEE'S RESPONSE**

*The County Commission indicated:*

- A. *They do make calls and comparisons for used equipment; however, the information is not always documented. The recommendation will be implemented immediately.*
- B. *The recommendation has been implemented.*

|   |
|---|
| <b>2. General Fixed Assets Records and Procedures</b> |
|---|

The County Commission or its designee is responsible for maintaining a complete detailed record of county property. A review of the county's general fixed asset records revealed the general fixed asset records are not complete. Actual or estimated historical costs, acquisition dates, and dates and methods of disposition when applicable are not included for most items on the general fixed asset records. In addition, the general fixed asset records have not been updated since 1994 and do not include sheriff department vehicles or building improvements. Property tags have not been affixed to some county property.

Adequate general fixed asset records are necessary to secure better internal control over county property, meet statutory requirements, and provide a basis for determining proper insurance coverage required on county property. Physical inventories of county property are necessary to ensure the fixed asset records are accurate, identify any unrecorded additions and deletions, detect theft of assets, and identify obsolete assets.

Effective August 28, 1999, Section 49.093, RSMo Cumulative Supp. 1999, provides the county officer of each county department shall annually inspect and inventory county property used by that department with an individual original value of \$250 or more and any property with an aggregate original value of \$1,000 or more. After the first inventory is taken, an explanation of material changes shall be attached to subsequent inventories. All remaining property not inventoried by a particular department shall be inventoried by the county clerk. The reports required by this section shall be signed by the county clerk.

**WE RECOMMEND** the County Commission establish a written policy related to the handling and accounting for general fixed assets. In addition to providing guidance on accounting and record keeping, the policy could include necessary definitions, address important dates, establish standardized forms and reports to be used, discuss procedures for the handling of asset disposition, and any other concerns associated with county property. In addition all general fixed assets should be tagged or identified as county-owned property.

### **AUDITEE'S RESPONSE**

*The County Commission indicated they will implement a general fixed asset policy by the end of December 2000.*

|  |
|--|
| <b>3. Public Administrator Controls and Procedures</b> |
|--|

The Public Administrator acts as the court appointed personal representative for wards of the Associate Circuit Division (Probate Court) and is responsible for receiving, disbursing and accounting for the assets of those individuals. Annually, the Public Administrator is required to file an annual settlement with the probate court which reflects a detailed list of assets held as well as financial activity for the year. During the two years ended December 31, 1999, the Public Administrator had responsibility for approximately thirteen wards. Of these wards, three had assets exceeding \$450,000, \$250,000, and \$150,000, respectively. During our review we noted the following concerns:

- A. One estate has a promissory note receivable entered into in 1978, which provides for annual payments of \$15,000. According to the terms of the note, missed interest payments are to be added to the remaining balance due, on which future interest payments are calculated. When the Public Administrator was assigned the case in November 1997, the balance due on the note was unknown. The Public Administrator, his attorney and the mortgager determined the value of the note to be approximately \$47,600 in November 1997.

The Public Administrator's attorney prepared an amortization schedule of the note receivable, including payment history to date as well as remaining payment dates and amounts. During our review of the amortization schedule, it was noted that the mortgager did not make the principal or interest payments in 1985. It was also noted that the full amount of interest due in 1988 was not paid. In addition, half of the

required payment due in May 1997 was made in August, with the remainder being paid in December. In each of these instances, the unpaid interest was not added to the balance of the note, resulting in an understatement of the amount receivable to the ward's assets. The October 1999 annual settlement reflects a balance due on the promissory note of approximately \$27,900. However, as a result of the situations noted above, the balance of principal due should be approximately \$66,500, resulting in an understatement of estate assets of approximately \$38,600

Failure to maintain an accurate record of transactions related to the promissory note receivable could result in the loss of assets due to the estate.

- B. The Public Administrator receives 5% of income on the estates he handles as compensation for his duties. There is not a written policy identifying the types of monies received or transactions which should be considered as income. During our review we noted the Public Administrator inconsistently charges fees on various types of transactions and does not provide calculations of his fees to the Probate Court. Inconsistencies were noted for fees assessed on the sale of stock, nursing home insurance proceeds, promissory note receivable payments, and interest earned on certificates of deposit.

Without a written policy identifying the types of income subject to fees and a consistent application of fees, there is no assurance that estates are handled equitably or that fees are properly calculated.

- C. Investment ledgers are not maintained for the estates which have a significant amount of invested funds and, as a result, some annual settlements do not accurately present investment transactions or balances.

An investment ledger would allow the Public Administrator to more easily monitor a client's investment portfolio and provide the necessary information to report on the annual settlement.

- D. On one annual settlement reviewed, twenty-four bank accounts and CD's totaling \$407,660 were not accounted for separately, but were reported as total amounts. Section 475.270(3) RSMo 1994, requires a detailed listing of the accounts in which estate funds are held and their respective balances.

**WE RECOMMEND** the Public Administrator:

- A. Ensure the balance on the promissory note is accurately stated on the annual settlement. In addition, the balance due should be calculated based upon the terms provided in the promissory note.
- B. Work with the Associate Circuit Judge to develop written guidelines that identify receipts or transactions on which fees are to be paid. Written documentation of fee

calculations should be prepared and maintained for all annual settlements and submitted to the Probate court for approval. In addition, the Associate Circuit Judge should evaluate the inconsistencies noted above and determine if reimbursement of fees is due from the Public Administrator to the estates.

- C. Maintain an investment ledger for estates having invested funds.
- D. Include on annual settlements a detailed listing of all bank accounts in which estate funds are held and their respective balances, as required by state law.

#### **AUDITEE RESPONSE**

- A. *The Associate Circuit Judge indicated he wants to discuss this issue with the Public Administrator, Attorney, and Mortgager and will decide on a balance due. The Associate Circuit Judge indicated he agrees the auditors had to compute the balance due according to the terms of the note; however, there have probably been verbal changes to the note throughout the years that will have to be considered. The Public Administrator indicated he will work with the Associate Circuit Judge to resolve this issue.*
- B. *The Associate Circuit Judge indicated he will develop some guidelines, but he looks at reasonableness of fees which is what the law requires. The Public Administrator indicated he will work with the Associate Circuit Judge to develop guidelines related to fees.*
- C. *The Public Administrator indicated he has implemented the recommendation and is maintaining a listing of certificates of deposits and other investments.*
- D. *The Public Administrator indicated he will implement the recommendation.*

|  |
|--|
| <b>4. County Collector Controls and Procedures</b> |
|--|

During the two fiscal years ended February 29, 2000, the County Collector's office collected approximately \$6.8 million in property taxes. The County Collector has a fiduciary responsibility to ensure all monies in his custody are accounted for properly. During our review of the County Collector's office we identified the following weaknesses:

- A. A change report, which reflects changes to tax records, is not generated by the County Collector. As a result, after a change is made to a tax record there is no record of the information previously in the file. This reduces control over the collection of taxes and could result in a misstatement of collections or delinquent taxes going undetected.
- B. Partial payments received by check are cashed by the County Collector and retained in the County Collector's vault until full payment is received. As of January 20, 2000, the County Collector held over \$2,000 in cash for partial payments. These

payments had not been receipted or logged in any manner. The County Collector documents the monies received by keeping the payments in separate envelopes with the taxpayers' names written on the envelope.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, all monies received should be recorded and deposited intact daily or when accumulated receipts exceed \$100.

- C. Additions and abatements of property taxes are not approved by the County Commission as they occur. The County Assessor verbally notifies the County Collector when real and personal property needs to be added or deleted from the tax books. The County Collector adds and abates at the end of his fiscal year without approval of the County Commission. Upon bringing this to the attention of the County Collector, he presented a list of additions and abatements to the County Commission for approval.

Section 137.260, RSMo 1994, requires that the tax book only be changed by the Clerk of the County Commission under order of the County Commission. For the County Commission to properly monitor additions and abatements, each should be approved by the County Commission periodically throughout the year. Failure to properly monitor additions and abatements could result in the loss of funds being detected on a timely basis.

Condition A was noted in the prior two reports.

**WE RECOMMEND** the County Collector:

- A. And County Commission review the possibility of generating periodic change reports. In addition, the change reports should be reviewed by an independent party and any unusual items investigated.
- B. Record all monies received for partial payments and deposit intact daily. The record of partial payments could be used to identify the reconciled bank balance.
- C. And County Commission ensure addition and abatement court orders be prepared by the Assessor's office, retained by the County Clerk, and periodically reconciled to the property tax books. The County Commission should review and approve all additions and abatements on a timely basis and the County Clerk should make the necessary changes to the tax books.

### **AUDITEE'S RESPONSE**

*The County Collector:*

- A. Indicated he will discuss this with the computer programmer before the 2000 tax season. The County Commission indicated they will work with the County Collector on this matter.*
- B. Has implemented the recommendation.*
- C. Will ensure the County Commission signs off on additions and abatements at the end of the year. There are not usually many additions and abatements throughout the year. The County Collector will discuss with the Assessor the possibility of providing written documentation of abatements and additions.*

This report is intended for the information of the management of Shelby County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on Prior Audit Findings

## SHELBY COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Shelby County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the three years ended December 31, 1997. Finding number 1.B is omitted since the related follow-up appears in an earlier section of this report. The prior recommendations which have not been implemented have been repeated in the current MAR.

### 1. County Procedures

- A. Bids were not always solicited nor was bid documentation always retained for various purchases made by the county.

#### Recommendation:

- A. The County Commission solicit bids for all items in accordance with state law. Documentation of bids solicited and justification for bid awards should be maintained by the County Clerk. If bids cannot be obtained and sole source procurement is necessary, the County Commission minutes should reflect the circumstances.

#### Status:

- A. Not implemented. See MAR No. 1.

### 2. County Collector's Controls and Procedures

- A. The County Collector did not document monthly bank reconciliations or reconciliations between the cash balance and the monthly statement of collections and other monies which were undistributed.
- B. Monies received were not deposited intact. Checks were deposited daily; however, some cash was deposited and some was retained as part of the County Collector's change fund.
- C. A change report which reflected changes to tax records was not generated by the County Collector.

Recommendation:

The County Collector:

- A. Perform and document monthly bank reconciliations between bank balance, cash balances and monthly statements of collections. Any unreconciled differences should be investigated and resolved in a timely manner.
- B. Maintain the change fund on an imprest basis and deposit all receipts intact. Checks for cash should not be accepted.
- C. And the County Commission review the possibility of generating periodic change reports. In addition, the change reports should be reviewed by an independent party and any unusual items investigated.

Status:

- A. Implemented.
- B. Partially implemented. The new County Collector maintains the change fund on an imprest basis and personal checks are not cashed. Receipts are deposited intact with the exception of partial payments which are held until the full amount is received. See MAR No.4.
- C. Not implemented. See MAR No. 4.

3. General Fixed Asset Records and Procedures

- A. The general fixed asset records were not complete.
- B. An independent physical inventory was not performed.
- C. The County Clerk did not ensure property tags were placed on fixed assets.

Recommendation:

The County Clerk:

- A. Record all property additions and deletions in the general fixed asset records as they occur. The County Clerk should ensure the fixed asset records include the original cost, acquisition date, and date and method of disposition for all assets.
- B. Perform an annual physical inventory of county-owned property and reconcile additions on the inventory listings to equipment purchases.

C. Ensure all general fixed assets are tagged or identified as county-owned property.

Status:

Not implemented. See MAR No. 2.

4. Sheriff's Controls and Procedures

A. Receipts were not deposited intact.

B. Transactions for which a receipt was not issued were not recorded in the cash control ledger. In addition, receipts were not posted to the cash control ledger on a timely basis.

C. Receipt slips were not issued for some monies received.

Recommendation:

The Sheriff:

A. Deposit receipts intact on a daily basis or when accumulated receipts exceed \$100.

B. Ensure the cash control register is accurate and complete and that all receipts are recorded on a timely basis.

C. Ensure that receipt slips are issued for all monies received.

Status:

Implemented.

5. Circuit Clerk's Records

The method of payment was not documented on the one-write cash control ledger.

Recommendation:

The Circuit Clerk ensure the method of payment is indicated in the accounting records and reconcile the composition of receipts to the composition of deposits.

Status:

Implemented.

6. Prosecuting Attorney's Records

The Prosecuting Attorney issued receipt slips for cash receipts only.

Recommendation:

The Prosecuting Attorney ensure official prenumbered receipt slips are issued for all monies received.

Status:

Implemented.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

# SHELBY COUNTY, MISSOURI HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

Organized in 1835, the county of Shelby was named after Isaac Shelby, Governor of Kentucky. Shelby County is a county-organized, third-class county and is part of the 41st Judicial Circuit. The county seat is Shelbyville.

Shelby County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Shelby County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| Property taxes            | \$ 375,305   | 22         | 361,132   | 21         |
| Sales and use taxes       | 455,008      | 27         | 377,419   | 21         |
| Federal and state aid     | 637,239      | 37         | 821,204   | 47         |
| Fees, interest, and other | 237,389      | 14         | 192,792   | 11         |
| Total                     | \$ 1,704,941 | 100        | 1,752,547 | 100        |

The following chart shows how Shelby County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| General county government | \$ 398,365   | 27         | 407,081   | 22         |
| Public safety             | 351,401      | 23         | 353,472   | 20         |
| Highways and roads        | 749,529      | 50         | 1,053,346 | 58         |
| Total                     | \$ 1,499,295 | 100        | 1,813,899 | 100        |

The county maintains approximately 69 county bridges and 601 miles of county roads.

The county's population was 7,906 in 1970 and 6,942 in 1990. The following chart shows the county's change in assessed valuation since 1970:

|                        |    | Year Ended December 31, |      |       |        |        |
|------------------------|----|-------------------------|------|-------|--------|--------|
|                        |    | 1999                    | 1998 | 1985* | 1980** | 1970** |
|                        |    | (in millions)           |      |       |        |        |
| Real estate            | \$ | 41.9                    | 41.0 | 34.9  | 20.4   | 14.7   |
| Personal property      |    | 18.8                    | 18.9 | 10.2  | 8.4    | 5.6    |
| Railroad and utilities |    | 6.7                     | 6.5  | 7.0   | 3.4    | 3.3    |
| Total                  | \$ | 67.4                    | 66.4 | 52.1  | 32.2   | 23.6   |

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Shelby County's property tax rates per \$100 of assessed valuations were as follows:

|                               |    | Year Ended December 31, |      |
|-------------------------------|----|-------------------------|------|
|                               |    | 1999                    | 1998 |
| General Revenue Fund          | \$ | 0.30                    | 0.30 |
| Special Road and Bridge Fund* |    | 0.35                    | 0.35 |
| Health Center Fund            |    | 0.15                    | 0.15 |

\* The county retains all tax proceeds from areas not within road districts. The county has 1 road district that receives four-fifths of the tax collections from property within this district, and the Special Road and Bridge Fund retains one-fifth.

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county bills and collects property taxes for itself and most other local governments. Taxes collected were distributed as follows:

|                                 | Year Ended February 28, |           |
|---------------------------------|-------------------------|-----------|
|                                 | 2000                    | 1999      |
| State of Missouri               | \$ 19,528               | 18,982    |
| General Revenue Fund            | 195,468                 | 188,259   |
| Special Road and Bridge Fund    | 245,970                 | 238,736   |
| Assessment Fund                 | 36,760                  | 35,631    |
| Surtax                          | 74,080                  | 71,655    |
| Health Center Fund              | 96,658                  | 93,955    |
| Nursing Home Districts Fund     | 107,908                 | 104,880   |
| School districts                | 2,280,914               | 2,202,085 |
| Ambulance district              | 161,466                 | 156,928   |
| Fire protection district        | 650                     | 583       |
| County Employee Retirement Fund | 18,288                  | 16,911    |
| Cities                          | 128,689                 | 128,211   |
| Drainage District               | 2,185                   | 2,419     |
| Other                           | 6,371                   | 5,491     |
| Commissions and Fees:           |                         |           |
| General Revenue Fund            | 49,328                  | 48,678    |
| County Collector                | 45                      | 41        |
| Total                           | \$ 3,424,308            | 3,313,445 |

Percentages of current taxes collected were as follows:

|                        | Year Ended February 28, |        |
|------------------------|-------------------------|--------|
|                        | 2000                    | 1999   |
| Real estate            | 95.7 %                  | 96.2 % |
| Personal property      | 93.3                    | 92.6   |
| Railroad and utilities | 100.0                   | 92.5   |

Shelby County also has the following sales and use taxes; rates are per \$1 of retail sales:

|               | Rate     | Expiration Date | Required Property Tax Reduction |
|---------------|----------|-----------------|---------------------------------|
| General       | \$ .0050 | none            | 50 %                            |
| General       | .0050    | none            | 0                               |
| Emergency 911 | .0050    | none            | 0                               |
| Local option  | .0150    | none            | 0                               |

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below.

| Officeholder   | 2000   | 1999   | 1998   |
|--|--------|--------|--------|
| County-Paid Officials:   |        |        |        |
| Chuck Wood, Presiding Commissioner                               | \$     | 19,584 |        |
| Gary Million, Presiding Commissioner                             |        |        | 12,730 |

| Total  | <u>42</u>                   | <u>4</u> |

\* includes one part-time employee

\*\* includes two part-time employees

In addition, the county pays a proportionate share of the salaries of other circuit court-appointed employees. Shelby County's share of the 41st Judicial Circuit's expenses is 31.15 percent.

CITY OF LAKE ANNETTE, MISSOURI

YEAR ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-63  
July 31, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

July 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**Some problems were discovered as a result of an audit conducted by our office in response to the request of petitioners from the City of Lake Annette, Missouri.**

---

In November 1990, the city contracted with an engineering firm to conduct a feasibility study and perform other services related to the development of a municipal sewer system. Subsequently, in December 1995, the city issued \$85,000 in general obligation bonds to assist in financing the system. Since that time, the city has levied a property tax to pay the bond principal and interest. Although the city has spent almost \$59,000 of the bond proceeds, as of February 2000, the city has made little tangible progress toward the development of a sewer system.

The city needs to perform a comprehensive review of this project, the alternative systems presented by the engineers, and the estimated costs of these systems; and determine if it is feasible for the city to proceed with the project. If determined to be feasible, a firm decision should be made regarding the direction of this project and city officials should commit the necessary efforts and resources to ensure its successful completion. The city should obtain the necessary technical and administrative assistance from an engineer and/or consultant to assist it in this effort.

The city does not have a formal bidding policy and instances were noted where bids were not solicited or bid documentation was not maintained. Expenditures were made to parties with whom certain city officials had business relationships. Compensation was paid to a former alderman which was not authorized by ordinance. Adequate documentation was not maintained to support various expenditures made from city funds. The city did not enter into written agreements with contractors or individuals in some instances.

The duties of City Clerk and City Treasurer have not always been segregated as required. Bank reconciliations are not properly performed or documented. City financial activity has not been properly tracked by fund since October 1999, and the city has not ensured some restricted revenues have been used for the purposes required.

The board minutes do not document whether a former alderman voted on the appointment of his wife as City Treasurer. Timesheets were not always sufficiently detailed or retained to support payroll, and all wages were not properly reported nor applicable payroll deductions withheld. Quarterly contribution and wage reports were not always accurate and submitted timely.

(over)

YELLOW SHEET

The board minutes did not adequately document matters discussed and actions taken by the board and the minutes were not always signed by the City Clerk and Mayor. In addition, the city ordinances are not complete and up-to-date.

In recent years the city has not adopted annual budgets and has not published semi-annual financial statements as required by state law. In addition, annual financial reports have not been submitted to the State Auditor's office as required.

## STATE AUDITOR'S REPORT

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

To the Honorable Mayor  
and  
Board of Aldermen  
City of Lake Annette  
Lake Annette, Missouri 64746

The State Auditor was petitioned under Section 29.230, RSMo, to audit the city of Lake Annette, Missouri. Our audit of the city included, but was not limited to, the year ended December 31, 1999. The objectives of this audit were to:

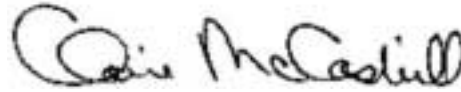

1. Perform procedures we deemed necessary to evaluate the petitioners' concerns.
2. Review compliance with certain constitutional provisions, statutes, ordinances, and attorney general's opinions as we deemed necessary or appropriate in the circumstances.
3. Review certain management practices which we believe could be improved.

Our audit was made in accordance with generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. We also reviewed board minutes, city policies and ordinances, and various city financial records.

Our audit was limited to the specific matters described above and was based on the selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention which would have been included in this report.

The accompanying History and Organization is presented for informational purposes. This information was obtained from the city and was not subjected to the auditing procedures applied in the audit of the city.

The accompanying Management Advisory Report presents our findings and recommendations arising from our audit of the city of Lake Annette, Missouri.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" being more prominent than the last name "McCaskill".

Claire McCaskill  
State Auditor

March 15, 2000 (fieldwork completion date)

The following auditors participated in the preparation of this report:

## HISTORY AND ORGANIZATION

# CITY OF LAKE ANNETTE, MISSOURI HISTORY AND ORGANIZATION

The city of Lake Annette is located in Cass County. It was incorporated as a village in 1982 and became a fourth-class city in 1994. The population of the city in 1990 was 157.

The city government consists of a mayor and a four-member board of aldermen. The four board members are elected for two-year terms. The mayor is elected for two years, presides over the board of aldermen, and votes only in case of a tie. The Mayor, Board of Aldermen, and other principal officials at December 31, 1999, were:

| <u>Elected Officials</u>           | <u>Term Expires</u> | <u>Amount of Bond</u> |
|------------------------------------|---------------------|-----------------------|
| Charles Whisenhunt, Mayor (1)      | April 2000          | \$5,000               |
| Eric Atchley, Alderman (2)         | April 2000          |                       |
| Dennis Behrens, Alderman (3)       | April 2000          |                       |
| Scott Bentz, Alderman (4)          | April 2000          |                       |
| Joe Dalton, Alderman (5)           | April 2000          |                       |
| <u>Other Principal Officials</u>   |                     |                       |
| Sherry Pink, City Clerk (6)        |                     | \$5,000               |
| Marsha Atchley, City Treasurer (7) |                     | \$5,000               |
| Tom Hansen, City Marshal (7)       |                     |                       |
| James Thompson, Jr., City Attorney |                     |                       |

The city's elected officials serve without compensation. With the exception of the City Attorney, the other principal officials currently serve without compensation. The City Attorney was paid \$1,207 during the year ended December 31, 1999. Former City Clerk Menges was paid \$2,373 during the year ended December 31, 1999. Subsequent to her resignation in October 1999, the City Clerk position became unpaid.

- (1) Appointed to replace Terry Murray who resigned in October 1999. Terry Murray served as Mayor from April 1999 to October 1999, and Dean Dwerlkotte served as Mayor from January 1999 to April 1999. In April 2000, Eric Atchley was elected to serve for one year with the term ending April 2001.
- (2) Appointed to replace Bob Rough who resigned in October 1999. In April 2000, Debbie Stark was elected to the board, but she declined to take office due to her appointment as City Clerk in February 2000. Angela Hansen was appointed to serve for one year with the term ending April 2001.
- (3) Appointed in October 1999 to replace Dean Dwerlkotte who resigned in September 1999. Dean Dwerlkotte served from April 1999 to September 1999, and Tom Hansen served from January 1999 to March 1999. In April 2000, Dennis Behrens was elected for a two year term.

- (4) Appointed to replace Joe Miller who resigned in November 1999. In April 2000, Scott Bentz was elected to serve for one year with the term ending April 2001.
- (5) Appointed in August 1999 to fill a vacant seat on the board. Ruth Gum held this position from April 1999 to August 1999, when the board determined the seat to be vacant. Mike Curtis served from January 1999 to April 1999. In April 2000, Joe Dalton was elected for a two year term.
- (6) Appointed to replace Karen Menges who resigned in October 1999. Sherry Pink subsequently resigned in January 2000, and in February 2000, Debbie Stark was appointed City Clerk.
- (7) Newly established positions, with the individuals appointed in October 1999.

Assessed valuation and tax rate information for 1999 were as follows:

#### ASSESSED VALUATION

|                   |                   |
|-------------------|-------------------|
| Real estate       | \$ 569,630        |
| Personal property | <u>186,060</u>    |
| Total             | \$ <u>755,690</u> |

#### TAX RATES PER \$100 ASSESSED VALUATION

|              |                |
|--------------|----------------|
| General      | \$ .20         |
| Debt service | <u>1.56</u>    |
| Total        | \$ <u>1.76</u> |

A summary of the financial activity for the city of Lake Annette for the year ended December 31, 1999, is presented below:

|                                     | General<br>Fund | Road<br>Fund | Sewer<br>Project<br>Fund | Sewer<br>Debt Service<br>Fund | Parks and<br>Recreation<br>Fund | Police<br>Fund |

\* \$2,861 was due from the General Fund to the Sewer Debt Service Fund at December 31, 1999. See MAR No. 3.

## MANAGEMENT ADVISORY REPORT

CITY OF LAKE ANNETTE, MISSOURI  
SUMMARY OF FINDINGS

1. Sewer Project (pages 11-12)

Although the city has expended almost \$59,000 toward the development of a sewer system, as of February 2000, little tangible progress has been made related to this project. The city needs to perform a comprehensive review of this project and determine whether it is feasible to proceed. If so, a firm decision needs to be made regarding the direction of the project and the necessary efforts and resources should be committed to ensure its successful completion.

2. Expenditures (pages 12-17)

The city does not have a formal bidding policy and instances were noted where bids were not solicited or bid documentation was not maintained. Expenditures were made to parties with whom certain city officials had business relationships. Compensation was paid to a former alderman which was not authorized by ordinance. Adequate documentation was not maintained to support various expenditures made from city funds. The city did not enter into written agreements with contractors or individuals in some instances. The minutes do not identify the disbursements approved by the board at its monthly meetings. IRS 1099-MISC forms were not prepared in all applicable instances.

3. Accounting Controls and Procedures (pages 17-19)

The duties of City Clerk and City Treasurer have not always been adequately segregated. Monthly bank reconciliations are not properly performed or documented. Since October 1999, city financial activity has not been properly tracked by fund and receipts have not been properly distributed between bank accounts. Some motor vehicle revenues have not been properly accounted for and may have been used for purposes other than street-related.

4. Budgets and Financial Reporting (pages 19-20)

In recent years the city has not adopted annual budgets and has not published semiannual financial statements as required by state law. In addition, annual financial reports have not been submitted to the State Auditor's office as required.

5. Board Minutes and Ordinances (pages 20-23)

The board minutes did not always adequately document matters discussed and actions taken by the Board of Aldermen. Board minutes were not always signed by both the City Clerk and the Mayor, and minutes were not prepared for all meetings. The city's ordinances are not complete and up-to-date, and the city has not adopted ordinances in some instances where required. The city does not have a formal policy regarding public access to city records.

6. Personnel and Payroll Matters (pages 23-25)

The board minutes do not document whether an alderman voted on the appointment of his wife as City Treasurer. Timesheets were not always sufficiently detailed or retained to support payroll, and all wages were not properly reported nor applicable payroll deductions withheld. Quarterly contribution and wage reports were not always accurate and submitted timely.

7. Street Maintenance Plan (page 25)

An annual maintenance plan for city streets has not been prepared.

CITY OF LAKE ANNETTE, MISSOURI  
MANAGEMENT ADVISORY REPORT

|           |                      |
|-----------|----------------------|
| <b>1.</b> | <b>Sewer Project</b> |
|-----------|----------------------|

In November 1990, the city contracted with an engineering firm to conduct a feasibility study, design, and perform other services related to the development of a municipal sewer system. To assist in financing the system, in April 1995, city voters approved the issuance of \$130,000 in general obligation bonds and \$300,000 in revenue bonds. Subsequently, the city issued \$85,000 in general obligation bonds in December 1995. Since that time, the city has levied a property tax to pay the bond principal and interest.

The net bond proceeds from the December 1995 issuance totaled \$80,942, and the city has spent \$58,954 from these monies. The balance of the remaining bond proceeds, plus interest income, totaled \$28,754 at December 31, 1999.

Although the city has spent a significant amount of the bond proceeds, as of February 2000, the city had made little tangible progress toward the development of a sewer system. Our review of board minutes and discussions with current and former city officials disclosed the following activities regarding the sewer project:

From December 1995 to March 1997, the city paid the engineering firm a total of \$57,102 for work performed on the feasibility study and design stages of the project. The engineer provided the city with drawings and cost estimates for various types of sewer systems. Current and former city officials indicate that the city was not satisfied with the work performed by the engineer and the estimated costs of the project, and this engineering firm was told to halt work on the project in April 1997.

Since that time, the city has received assistance from a different engineering firm in a further effort to develop this project. In January 1999, this engineering firm submitted a project proposal on behalf of the city to the Missouri Water and Wastewater Review Committee to obtain grant funding for the system. This January 1999 proposal listed four alternative systems and estimated the total cost of design, engineering, construction, and administration of the different systems would range from \$700,000 to \$1.2 million, depending on the type of system selected. In March 1999, the committee returned the project proposal to the city for additional information and suggested the city review additional alternative systems. However, as of March 2000, neither the city nor the engineering firm had resubmitted a revised proposal or any of the other requested information to the committee.

Because the board minutes were incomplete regarding discussions held and decisions made regarding the sewer system, it was difficult to determine why so little progress has been made on this project. However, it appears the high turnover of city officials in

recent years and a lack of administrative support/oversight has contributed to this situation. It should be noted that in January 1999, the city contracted with a grant consultant to assist it in pursuing grant funding and provide administrative support; however, the city decided not to renew this contract in 2000.

It appears the city needs to perform a comprehensive review of this project, the alternative systems presented by the engineers, and the estimated costs of these systems; and determine if it is feasible for the city to proceed with the project. If determined to be feasible, a firm decision should be made regarding the direction of this project and city officials should commit the necessary efforts and resources to ensure its successful completion. The city should obtain the necessary technical and administrative assistance from an engineer and/or consultant to assist it in this effort.

**WE RECOMMEND** the Board of Aldermen perform a comprehensive review of this project and the various alternatives and related costs; and determine whether it is feasible for the city to proceed with the project. If determined feasible, a firm decision should be made regarding the project and the necessary efforts and resources should be committed to the project. In addition, any necessary technical and administrative assistance should be obtained to help ensure its successful completion.

### **AUDITEE'S RESPONSE**

*The Board of Aldermen indicated the proposed sewer system is very much needed by the city and it is in the process of determining the feasibility of the project. The board anticipates that a decision will be made regarding the feasibility and future direction of the project within the next three months.*

|                        |
|------------------------|
| <b>2. Expenditures</b> |
|------------------------|

- A. The city does not have a formal written bidding policy. While it appears the city has solicited bids in some instances, it appears bids are not generally solicited when goods and services are purchased. We noted the following areas of concern related to the city's bidding procedures:
- 1) During the two years ended December 31, 1998, the city received and spent a total of \$89,560 in capital improvement sales tax distributions from Cass County to rebuild a bridge and repair roads. The city did not publicly advertise or solicit written proposals for these projects. Current and former city officials indicated that for some items and services, price quotes were solicited from several companies and contractors and some items were available from only one vendor; however, documentation of these quotes and sole source procurement situations was not maintained. Rather than soliciting bids for construction of the bridge, the city hired its existing road maintenance contractor to perform the work. Payments to this contractor for bridge work totaled \$33,645.

Other expenditures made by the city in which bids were not solicited or documentation was not maintained included \$5,514 for road rock in 1999 and 1998, \$5,425 for police equipment in 1998, \$3,098 for insurance in 1998 and 1999, \$3,000 for a jeep in 1998, and \$1,900 for a tractor in 1999.

- 2) Each year, the city solicits bids for road maintenance, snow removal, and lawn maintenance. During the two years ended December 31, 1999, the city did not publicly advertise requests for these bids. Instead, former city officials indicated that notices were posted around the city and in nearby cities. Possibly because of the manner in which these services were provided, bids were received from only two vendors. In addition, lawn maintenance bid documentation could not be located.

Formal bidding procedures for major purchases provide a framework for economical management of city resources and help ensure the city receives fair value by contracting with the lowest and best bidders. Competitive bidding also helps ensure all parties are given an equal opportunity to participate in the city's business. Bids can be handled by telephone quotation, by written quotation, or by advertised sealed bid. Various approaches are appropriate, based on dollar amount and type of purchase. Whichever approach is used, complete documentation should be maintained of all bids received and reasons noted why the bid was selected.

- B. During the three years ended December 31, 1999, expenditures were made to parties with whom certain city officials had business relationships. During this period, the city expended a total of \$54,950 to a local construction company for various services, including the road and bridge work and snow removal work noted in Part A. above. During this same period, former Alderman Rough worked on a contractual basis for this company. Although bids were solicited for some of these services and the former alderman indicated that he always abstained from voting on issues regarding this company, there was no documentation of this abstention in the board minutes.

Also, in 1997 the city hired an architectural firm to prepare a multi-year application to be submitted to the county for capital improvement sales tax funding. Although former City Clerk Menges worked at times for this firm on a contractual basis, there was no documentation to indicate the city solicited proposals for these services from any other companies or to reflect the board's discussion and approval of these services. Payments to this architectural firm totaled \$7,300 during the two years ended December 31, 1998. When the architectural firm was contacted about this matter, we were told that firm agreed to provide these services only after it was given the impression other firms would be contacted for proposals and the former City Clerk's business relationship with this firm would be disclosed to and approved by the board.

In situations where a city is considering doing business with an individual or company with whom an alderman or other city official also has a business relationship, the city should ensure other bids or proposals are obtained, the applicable official should abstain from voting on the transaction(s), and that abstention should be documented.

- C. During March 1999, former Alderman Rough was paid \$200 to repair the city's jeep. Although he indicated that a price quote for these services was obtained from a repair shop, documentation of this was not maintained.

The compensation of city officials must be set and is limited to the amount provided by ordinance. In Nodaway County v. Kidder, 129 SW 857 (Mo. 1939) the Missouri Supreme Court specifically stated, "The general rule is that the rendition of services by a public officer is deemed to be gratuitous, unless a compensation therefore is provided by statute."

- D. Documentation to support various disbursements made by the city could not be located. These expenditures included some police equipment, reimbursements to city officials and the road maintenance contractor, and payments to local retailers.

In addition, invoices totaling \$16,370 for expenditures from the 1998 capital improvement sales tax projects were not retained in city files. Although these expenditures were paid by either the county or the financial institution providing a construction loan, the city should retain documentation of such expenditures.

All disbursements should be supported by paid receipts or vendor-provided invoices to ensure the obligation was actually incurred and the disbursement represents an appropriate use of public funds.

- E. The city did not enter into written contracts for various contracted services received. For example, for the road and bridge projects funded with 1998 capital improvement sales tax distributions, the city did not enter into contracts with the construction company or the individual who performed the concrete work. In addition, while former city officials indicated there was a contract with the architect who prepared the application for funds, it could not be located in the city files.

Section 432.070, RSMo 1994, requires contracts of political subdivisions be in writing. The city should enter into written contracts for services rendered or obtained. A written contract, signed by the parties involved, should specify the services to be rendered and the manner and amount of compensation to be paid. Written contracts are necessary to ensure all parties are aware of their duties and responsibilities and to provide protection to both parties.

- F. Although there is an occasional reference to a specific invoice being approved for payment, minutes usually only make a general reference that invoices are

approved for payment. Invoices are not signed or initialed by the aldermen, and a supplementary listing of all disbursements approved for payment by the board is not prepared to accompany the minutes. Monthly financial reports were prepared until October 1999, which included a detailed listing of all expenditures by fund; however, the expenditures represented the preceding month's activities.

In addition, there was no documentation in the board minutes or financial reports that the aldermen had reviewed and approved the expenditures totaling \$89,560 from the 1998 capital improvement sales tax funds.

To adequately document the board's review and approval of all disbursements, a complete and detailed listing of bills should be prepared, signed or initialed by the aldermen to denote their approval, and retained with the official minutes. In addition, supporting documentation should be reviewed by the board before payment is made to ensure all disbursements represent valid operating costs of the city.

- G. The city did not always issue Forms 1099-MISC to individuals or unincorporated businesses which provided services to the city. Expenditures for services totaling approximately \$34,200 were paid and not reported to the Internal Revenue Service on Forms 1099-MISC during 1998 and 1999 as required.

The Internal Revenue Code (IRC) requires payments totaling \$600 or more in a year to non-employees and businesses which are not corporations be reported on Forms 1099-MISC.

- H. During a four month period in 1998, the city reimbursed a former city official \$233 for toner purchased for a copy machine owned by that former official, and kept at the house of two other former city officials. According to former officials, a lot of copying was performed for the city during this period; however, there was no documentation explaining what copying was being performed or justifying the extent of these reimbursements. In the future, the city should ensure any similar reimbursements are adequately supported by adequate documentation.

**WE RECOMMEND** the Board of Aldermen:

- A.1. Establish formal bidding policies and procedures, including documentation requirements regarding the bids or quotes received and justification for the bid selected.
- 2. Ensure requests for bids for significant expenditures are publicly advertised and bid documentation is retained.
- B. Ensure bids are solicited for all purchases where the city is considering doing business with an individual or company with whom a city official has a business relationship. In addition, any board member should abstain from voting on the

applicable transaction(s) and that action should be adequately documented in the board minutes.

- C. Refrain from compensating a city official for any services performed for the city above that provided by ordinance.
- D. Ensure all disbursements are supported by paid receipts and/or vendor-provided invoices and other supporting documentation.
- E. Ensure formal written contracts are entered into for any services obtained by the city.
- F. Ensure the approval of all disbursements is adequately documented by including a listing of all approved disbursements in the board minutes. In addition, supporting documentation should be reviewed by the board before payment is approved.
- G. Ensure that IRS Forms 1099-MISC are filed as required.
- H. Ensure all reimbursements/expenses paid from city funds are adequately documented and necessary for the operation of the city.

#### **AUDITEE'S RESPONSE**

- A.1. *The Board of Aldermen concurs and indicated a formal bidding policy will be established within the next three months.*
- 2. *The Board of Aldermen concurs and indicated this recommendation has already been implemented.*
- B-H. *The Board of Aldermen concurs and indicated these recommendations will be implemented immediately.*
- B. *The architectural firm provided the following response:*

*The architectural firm principal believes its services were engaged after a competitive process which solicited responses from the existing engineering firm to the City, and others. The City Clerk discussed with him possible other types of bidders, placing a notice in daily or weekly newspapers, and left the impression that no one bidder had any advantage over any other. The principal asserts he made clear to the City Clerk that before he could proceed with applying for the work or being awarded any work, the elected City body would have to review and approve this arrangement. He was assured that this had been done before he began work. It was his understanding that when he received funds that these had been authorized by the governing body, and that the City Clerk did not have check writing ability on behalf of the City. Due to the architectural firm's work and the firm's situation, he and the City Clerk had discussed the absolute*

*necessity of there being not even an appearance of a conflict in any actions by the firm principal or those associated with him.*

**3.**

**Accounting Controls and Procedures**

- A. The duties of City Clerk and City Treasurer have not always been segregated as required. Prior to October 1999, the City Clerk also served as the City Treasurer. She collected all receipts, maintained the city's financial records, made bank deposits, co-signed checks, and served as secretary to the board. In October 1999, the Board of Aldermen appointed a separate individual as City Treasurer; however, as of January 2000, this person had not performed any duties and the City Clerk was essentially still performing the duties of both offices. In addition, there has been no independent review of the records by an individual who is not responsible for maintaining the records.

Attorney General's Opinion No. 24, 1955 to Dodds, concluded that in a fourth-class city the holding of the positions of City Clerk and City Treasurer by the same person at the same time would be incompatible. One person holding these offices does not allow the separation of duties necessary for a proper evaluation and review of financial transactions. These procedures jeopardize the system of independent checks and balances intended by state law.

Although it appears that recently the city has segregated duties between the City Clerk and the City Treasurer, a periodic independent review of the records is still not performed.

- B. Bank reconciliations are not properly performed or documented. Monthly bank reconciliations are necessary to ensure that all accounting records balance, that transactions have been properly recorded, and that any errors or discrepancies are detected on a timely basis. Complete documentation of the reconciliations should be retained to support conclusions, any corrections made, and to facilitate independent reviews.
- C. Six individual funds have been established to account for the financial transactions of the city. These funds are held in two checking accounts and several certificates of deposit. Our review of the city's handling of these funds disclosed the following concerns:
- 1) After former City Clerk Menges resigned in October 1999, city financial activity was no longer tracked by fund. In addition, since that time all receipts have been deposited into the main checking account, instead of separating receipts between the main account and the sewer account. As a result, debt service property tax receipts totaling \$2,861 were deposited into the main account instead of the sewer account as of December 31, 1999.

A ledger properly accounting for receipts and disbursements by fund should be maintained. In addition, the debt service property tax receipts improperly deposited into the main account should be transferred to the sewer account.

- 2) During the year ended December 31, 1999, the city received \$6,370 in motor vehicle-related revenues from the state. The city credits the gasoline tax revenues to the Road Fund; however, the motor vehicle sales tax and fee increase revenues have been credited to the General Fund. Therefore, \$1,959 in motor vehicle sales tax and fee increase revenues received during the year were credited to the city's General Fund.

Article IV, Section 30 of the Missouri Constitution, requires that motor vehicle-related revenues apportioned by the state of Missouri be expended for street-related purposes. To ensure compliance with the Missouri Constitution, the city should deposit all motor vehicle-related revenues into the Road Fund and ensure these monies are used only for street-related purposes as required.

We determined that motor vehicle-related revenues credited to the General Fund exceeded street-related expenses paid from that fund by \$1,176 during the year ended December 31, 1999. As a result of this situation, revenues legally restricted for street purposes may have been used for other municipal purposes. It also appears that at least some motor vehicle-related revenues were similarly mishandled in previous years.

**WE RECOMMEND** the Board of Aldermen:

- A. Continue to ensure the duties of the City Clerk and City Treasurer are segregated and that separate individuals are appointed to those positions. In addition, the city should ensure an independent review of the records is performed on a periodic basis.
- B. Ensure formal bank reconciliations are performed and documented on a monthly basis.
- C.1. Ensure a ledger of receipts and disbursements is maintained by fund. In addition, the debt service property tax revenues improperly deposited into the main account should be transferred to the sewer account.
2. Credit all motor vehicle-related revenues to the Road Fund and ensure they are spent only for street-related purposes as required. In addition, the city should determine the amount of restricted monies in the General Fund and transfer this amount to the Road Fund. If the balance of the General Fund is not sufficient to

make the transfer at this time, it should be made when adequate funds are available.

#### **AUDITEE'S RESPONSE**

- A. *The Board of Aldermen concurs and indicated it will implement an independent review of the accounting records on a quarterly basis.*
- B. *The Board of Aldermen concurs and indicated a formal bank reconciliation will be performed within the next three months and will be performed monthly thereafter.*
- C.1. *The Board of Aldermen concurs and indicated a ledger which accounts for financial activity by fund will be established within the next three months. In addition, the board indicated that within that same period an effort will be made to bring the records up-to-date and determine the balances of the various funds. The recommended transfer will be made as soon as balances are sufficient to do so.*
- 2. *The Board of Aldermen indicated that all road monies received in recent months have been credited to the Road Fund and this will continue. In addition, the board indicated that within the next three months an effort will be made to bring the records up-to-date and determine the balances of the various funds. The recommended transfer will be made as soon as balances are sufficient to do so.*

|   |
|---|
| <b>4. Budgets and Financial Reporting</b> |
|---|

- A. The city did not adopt budgets for either of the years ending December 31, 2000 or 1999. According to former City Clerk Menges, she prepared a budget for the year ended December 31, 1999; however, it was not presented to and approved by the board. Section 67.010, RSMo 1994, requires the preparation of an annual budget which shall present a complete financial plan for the ensuing budget year.

A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific costs and revenue expectations for each area of the city operations and provide a means to effectively monitor actual costs and revenues. It will also assist in setting tax levies and informing the public about city operations and current finances.

- B. The city has not published semi-annual financial statements as required by state law. The last financial statement published by the city covered the period from January to June 1997.

Section 79.160, RSMo 1994, requires the Board of Aldermen to prepare and publish semi-annual financial statements. These financial statements are to include a statement of receipts and expenditures and indebtedness of the city for the preceding six month period. In addition, Section 79.165, RSMo 1994, states

the City Treasurer cannot legally disburse funds until the financial statement is published.

- C. The city has not filed an annual report of financial activity with the State Auditor's office as required. The last report submitted was for the year ended December 31, 1997. Section 105.145, RSMo 1994, requires the city to file a financial report with the State Auditor's office annually.

**WE RECOMMEND** the Board of Aldermen:

- A. Prepare annual budgets in accordance with state law, and make periodic comparisons between budgeted and actual revenues and expenditures.
- B. Ensure semi-annual financial statements are prepared and published in accordance with state law.
- C. File annual financial reports with the State Auditor's office as required by state law.

**AUDITEE'S RESPONSE**

- A. *The Board of Aldermen concurs and indicated it will implement this recommendation for the upcoming year.*
- B. *The Board of Aldermen concurs and indicated it will implement this recommendation for the first six months of calendar year 2000.*
- C. *The Board of Aldermen concurs and indicated it will implement this recommendation for calendar year 2000.*

|  |
|--|
| <b>5. Board Minutes and Ordinances</b> |
|--|

- A. The board generally meets once a month. Our review of the board minutes noted the following areas of concern:
  - 1) The board minutes did not adequately document matters discussed and actions taken by the board. For example, there was little documentation to support discussions held and decisions made regarding the sewer system project discussed in MAR No. 1. In addition, there was no documentation of the decisions made regarding the spending of the capital improvement sales tax distributions received from Cass County in 1998 as discussed in MAR No. 2. In addition, during August 1997, the city obtained a loan to begin the bridge project in advance of receipt of this funding from the county; however, this decision was not documented in the board minutes. Other significant decisions/items which were not properly documented in

the minutes included the purchase of a tractor and a jeep in November 1999 and June 1998, respectively, and the resignations of two board members during 1999.

In addition, the minutes did not include some information required by state statute. There were numerous instances where the minutes indicated that a decision was made but did not indicate how the individual board members voted. In addition, minutes prepared for meetings held since October 1999 did not document the members present, motions made, or votes taken.

Section 610.020, RSMo Cumulative Supp. 1999, states that the minutes shall include the date, time, place, members present, members absent, and a record of votes taken. Minutes represent the official record of board actions and decisions and it is important that they are complete and accurate.

- 2) The board minutes are prepared by the City Clerk; however, the minutes are not always signed by both the City Clerk and the Mayor. In addition, although we were informed the prior month's minutes are usually approved by the board at the next board meeting, the minutes did not always document this approval.

The board minutes should be signed by the City Clerk as preparer and by the Mayor to provide an independent attestation that the minutes are a correct record of the matters discussed and actions taken during the board's meetings. In addition, the minutes should document the board's approval of the prior month's minutes.

- 3) Minutes were not prepared for a meeting held in July 1999. To ensure compliance with open-meeting laws, minutes should be prepared for all meetings and be maintained and filed by the City Clerk. Section 610.020 RSMo Cumulative Supp. 1999, requires a journal or minutes shall be taken and retained of all open meetings of a public governmental body.

B. The city's ordinances are not complete and up-to-date. Our review noted the following:

- 1) It appears some of the city's ordinances are missing while others are old and outdated. In addition, some ordinances were not signed by the Mayor as required by state law.

Since ordinances represent legislation which has been passed by the Board of Aldermen to govern the city and its residents, it is important that the ordinances be maintained in a complete and up-to-date manner. Section 79.130, RSMo 1994, requires that no bill shall become an ordinance until

it shall have been signed by the Mayor or person exercising the duties of the Mayor's office.

- 2) Ordinances have not been adopted in some instances where required. For example, the city has not adopted ordinances to establish the compensation, duties, and terms of office of city officials or to establish the annual property tax rates as required by law.

Sections 79.270 and 79.290, RSMo 1994, require the compensation and duties of city officials and employees be set by ordinance; while Section 79.320, RSMo 1994, requires the duties and term of office of the City Clerk be fixed by ordinance. In addition, Section 94.210, RSMo 1994, requires the annual tax rates be established by ordinance.

- C. The city does not have a formal policy regarding public access to city records. A formal policy regarding access to and obtaining copies of city records would establish guidelines for the city to make the records available to the public. This policy should establish a person to contact, an address to mail such requests, and should establish a cost for providing copies of public records.

Section 610.023, RSMo Cumulative Supp. 1999, lists requirements for making city records available to the public. Section 619.026, RSMo Cumulative Supp. 1999, allows the city to charge fees for copying public records, but the fees shall not exceed the city's actual cost of document search and duplication.

**WE RECOMMEND** the Board of Aldermen:

- A.1. Ensure all significant discussions, actions taken, and information required by state law are included in the minutes.
2. Ensure all board minutes are approved by the board and signed by the Mayor and the City Clerk to attest to their completeness and accuracy. In addition, the board's approval of the prior month's minutes should be documented.
3. Ensure minutes are prepared for all meetings and properly retained.
- B. Ensure a complete and up-to-date set of ordinances is maintained. This would include passing new ordinances where appropriate and required by state law. In addition, the board should ensure all ordinances are signed by the Mayor as required by state law.
- C. Establish a formal written policy and procedures regarding public access to city records.

## **AUDITEE'S RESPONSE**

- A. *The Board of Aldermen concurs and indicated these recommendations have already been implemented.*
- B. *The Board of Aldermen concurs and indicated this recommendation will be implemented within six months.*
- C. *The Board of Aldermen concurs and indicated this recommendation will be implemented within three months.*

|   |
|---|
| <b>6. Personnel and Payroll Matters</b> |
|---|

- A. On October 12, 1999, Alderman Atchley was appointed to the board on the same date the board appointed his wife to serve as City Treasurer. The board minutes do not document whether Alderman Atchley was involved in this decision or abstained from voting on the appointment of his wife.

The hiring or appointment of a relative by a public official is prohibited. Article VII, Section 6 of the Missouri Constitution states, "Any public officer or employee in this state who by virtue of his office or employment names or appoints to public office or employment any relative within the fourth degree, by consanguinity or affinity, shall thereby forfeit his office or employment."

In April 2000, Alderman Atchley was elected Mayor of the city. Because he has been elected to a new term of office subsequent to this appointment, this issue would not affect his current term of office as Mayor.

- B. Former City Clerk Menges was generally paid on a monthly basis. Our review of the related records and reports supporting this compensation disclosed the following concerns:
  - 1) Timesheets were usually not sufficiently detailed. Most of the timesheets reviewed did not adequately identify the days worked or the time spent on specific tasks. In addition, some 1998 and 1999 timesheets were missing. Sufficiently detailed timesheets should be prepared and retained to support payments to employees.
  - 2) The city did not properly report the wages, withhold payroll taxes, or pay the employer's share of social security on the former City Clerk's November 1998 wages of \$182.

The Internal Revenue Code requires employers to report all wages on W-2 forms and withhold federal income taxes. Similarly, Chapter 143 RSMo 1994, includes requirements for reporting wages and withholding state

income taxes. State and federal laws require employers to withhold payroll taxes and pay the employer's share of social security on the compensation paid to employees.

- 3) Quarterly contribution and wage reports were not always accurate and submitted timely to the Missouri Department of Labor and Industrial Relations, Division of Employment Security. The 1999 third quarter report was submitted late, causing the city to incur a \$200 penalty. In addition, \$517 in wages paid to the former City Clerk were not reported on the 1998 contribution and wage reports.

The board should ensure that contribution and wage reports are accurate and submitted timely to avoid incurring unnecessary penalties.

Since former City Clerk Menges resigned in October 1999, the individuals serving as City Clerk have served without compensation. Although no payroll costs are currently being incurred by the city, the recommendations presented below should be implemented if any compensation is paid in the future to any city employees or officials.

**WE RECOMMEND** the Board of Aldermen:

- A. Ensure any appointments of city officials comply with the restrictions of Article VII, Section 6 of the Missouri Constitution in regard to the appointment of public officials. If a relative of a city official is considered for appointment, that official should abstain from voting on the issue and an adequate record of the abstention should be maintained.
- B.1. Ensure timesheets are sufficiently detailed and retained to support any compensation paid to city employees.
2. Ensure all payroll taxes are properly withheld and remitted for any wages or salaries paid. In addition, the board should ensure that all compensation paid to employees is properly reported, and that an amendment is filed to report the 1998 wages which were not previously reported.
3. Ensure quarterly contribution and wage reports are accurate and submitted timely. In addition, the city should file an amendment to report the 1998 wages which were not previously reported.

**AUDITEE'S RESPONSE**

- A. *The Board of Aldermen concurs and indicated this recommendation will be implemented immediately.*

- B. *The Board of Aldermen concurs and indicated these recommendations will be implemented if necessary in the future. In addition, the board indicated the necessary amendments will be prepared and filed as recommended.*

|                                   |
|-----------------------------------|
| <b>7. Street Maintenance Plan</b> |
|-----------------------------------|

An annual maintenance plan for city streets has not been prepared. A formal maintenance plan should be prepared in conjunction with the annual fiscal budget and include a description of the streets to be worked on, the type of work to be performed, an estimate of the quantity and cost of materials needed, the dates such work could begin, the amount of labor required to perform the work, and other relevant information. The plan should be included in the budget message and be approved by the board. In addition, a public hearing should be held to obtain input from the city residents.

A formal maintenance plan would serve as a useful management tool and provide greater input into the overall budgeting process. Such a plan provides a means to more effectively monitor and evaluate the progress made in the repair and maintenance of streets throughout the year.

**WE RECOMMEND** the Board of Aldermen prepare a formal maintenance plan for city streets at the beginning of the fiscal year and periodically update the plan throughout the year.

**AUDITEE'S RESPONSE**

*The Board of Aldermen concurs and indicated that this recommendation will be implemented for the upcoming year.*

This report is intended for the information of the city's management and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

\* \* \* \* \*

BENTON COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-62  
July 27, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

July 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Benton, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Benton County included additional areas of county operations, as well as the elected county officials. The following concerns were noted as part of the audit:

- The County Collector has reported a deposit in transit of \$1,358 as a reconciling item on bank reconciliations since August 1998. The County Collector indicated the deposit was apparently lost; however, follow up on the deposit had not taken place as of the end of our fieldwork (April 6, 2000). Any part of the \$1,358 not recovered will need to be repaid by the County Collector to eliminate the shortage in the bank account.
- The County Collector improperly distributed \$6,757 received from the State Department of Conservation as payments in lieu of taxes (PILT) to the General Revenue Fund. A similar improper distribution of \$6,177 in payments in lieu of taxes monies noted in our prior audit was not corrected. As a result, various political subdivisions in the county are due approximately \$12,000 with an estimated 60 percent of this amount due to local school districts.
- The county and Health Center do not have procedures in place to track federal awards for the preparation of the schedule of expenditures of federal awards (SEFA). The county's schedule of expenditures of federal awards contained numerous errors and omissions. An accurate schedule of expenditures of federal awards is necessary to ensure federal financial activity is audited and reported in accordance with federal requirements.

(over)

YELLOW SHEET

Also included in the audit are recommendations to improve the accounting controls and procedures for the County Collector, Circuit Clerk and Sheriff. The audit also suggested improvements be made in the county's budgetary and bidding procedures, as well as the use of written contracts. Several of these issues have been noted in prior audits.

**Copies of the audit are available upon request.**

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON  
THE FINANCIAL STATEMENTS**

To the County Commission  
and  
Officeholders of Benton County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Benton County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

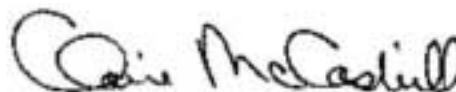

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Benton County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Benton County.

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Benton County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated April 6, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Benton County, Missouri, and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Benton County, Missouri

We have audited the special-purpose financial statements of various funds of Benton County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated April 6, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

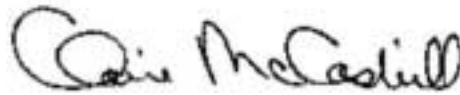

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Benton County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance which are described in the accompanying Management Advisory Report.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Benton County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material

weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting which are described in the accompanying Management Advisory Report.

This report is intended for the information of the management of Benton County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

The accompanying Notes to the Financial Statements are an integral part of this statement.

## Notes to the Financial Statements

BENTON COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Benton County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, or the Health Center Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Law Library Fund                         | 1999 and 1998                   |
| DARE Fund                                | 1999                            |
| Circuit Clerk Interest Fund              | 1998                            |
| Associate Circuit Division Interest Fund | 1998                            |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Sales Use Tax Fund                       | 1999                            |
| Prosecuting Attorney Delinquent Tax Fund | 1999                            |
| Sheriff Civil Fund                       | 1999                            |
| Law Enforcement Training Fund            | 1998                            |
| Juvenile Detention Fund                  | 1998                            |
| Sheriff Drug Fund                        | 1998                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

A deficit budget balance is presented for the Assessment Fund for the year ended December 31, 1998. However, the budget of that fund also included other resources available to finance current or future year disbursements. Such resources were sufficient to offset the deficit budget balance presented.

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements did not include the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Law Library Fund                         | 1999 and 1998                   |
| Associate Circuit Division Interest Fund | 1998                            |
| Circuit Clerk Interest Fund              | 1998                            |

2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depositary accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through

either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

Of the county's bank balance at December 31, 1999, \$2,661,445 was covered by federal depositary insurance or by collateral securities held by the county's custodial bank in the county's name; and \$31,712 was covered by collateral pledged by one bank and held in the county's name by the safekeeping department of an affiliate of the same bank holding company.

Of the county's bank balance at December 31, 1998, \$2,959,326 was covered by federal depositary insurance or by collateral securities held by the county's custodial bank in the county's name; and \$35,434 was covered by collateral pledged by one bank and held in the county's name by the safekeeping department of an affiliate of the same bank holding company.

The Health Center Board's deposits at December 31, 1999 and 1998, were entirely covered by federal depositary insurance or by collateral securities held by the board's custodial bank in the board's name.

However, because of significantly higher bank balances at certain times during the year, uninsured and uncollateralized balances for the Health Center Board existed at those times although not at year-end.

Schedule

BENTON COUNTY, MISSOURI  
SCHEDULE OF FINDINGS  
YEARS ENDED DECEMBER 31, 1999 AND 1998

This schedule includes no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Follow-up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

BENTON COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

BENTON COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Benton County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated April 6, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures, as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our review of the elected county officials referred to above. In addition, this report includes findings other than those, if any, reported in the accompanying Schedule of Findings. These findings resulted from our audit of the special-purpose financial statements of Benton County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*.

|   |
|---|
| <b>1. Budgetary Practices, Expenditures and Interest Allocation</b> |
|---|

- A. Budgets were not prepared for several county funds during the two years ended December 31, 1999.

Chapter 50, RSMo 1994 and Cum. Supp. 1999, requires the preparation of annual budgets for all funds to present a complete financial plan for the ensuing year. By preparing or obtaining budgets for all county funds, the County Commission is able to more efficiently evaluate all county financial resources.

- B. Actual expenditures exceeded budgeted amounts in the following funds:

| Fund                                | Year Ended December 31, |       |
|-------------------------------------|-------------------------|-------|
|                                     | 1999                    | 1998  |
| Law Enforcement Training            | \$ N/A                  | 3,766 |
| Sales Use Tax                       | 1,085                   | N/A   |
| Prosecuting Attorney Delinquent Tax | 1,536                   | N/A   |
| Juvenile Detention                  | N/A                     | 2,235 |
| Sheriff Drug                        | N/A                     | 4,009 |
| Sheriff Civil                       | 458                     | N/A   |

Budget progress reports are generated periodically and reviewed by the County Commission. However, it appears the county's procedures and reports are not resulting in effective monitoring of some budgets.

It was ruled in State ex rel. Strong v. Cribb, 364 Mo. 1122, 273 S.W. 2d 246 (1954) that strict compliance with the county budget law is required by county officials. If there are valid reasons which necessitate excess expenditures, budget amendments should be made following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's office.

- C. Budgets prepared for the Special Road and Bridge Fund do not include all projected receipts, disbursements and cash balances related to County Aid Road Trust (CART) monies received from the state. CART monies distributed to Special Road Districts are not reflected in the budget and some CART monies are retained in a separate unbudgeted fund. Accurate budgets are essential for the County Commission and County Clerk to evaluate county operations and project the anticipated needs for the county for the upcoming year.

- D. Section .310(b) of Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the SEFA to the State Auditor's office as a part of the annual budget. For the SEFA to adequately reflect the county's federal expenditures, it is necessary that all federal expenditures be properly reported.

The County Clerk prepares the SEFA as part of the annual county budget process. The county and the Health Center do not have procedures in place to track federal awards for the preparation of the SEFA. For the years ended December 31, 1999 and 1998, the SEFA contained numerous errors and omissions primarily due to federal grants administered by the Health Center not being included or accurately presented.

Without an accurate SEFA, federal financial activity may not be audited and reported in accordance with federal requirements which could result in future reductions of federal funds to the county.

- E. The County Commission has delegated the responsibility of bidding law enforcement related purchases made by the county to the Sheriff. The County Commission does not review the bid documentation obtained by the Sheriff for such expenditures. We noted several sheriff's department expenditures involving the purchase of four patrol vehicles, a truck, three ATVs and radio equipment for which the purchases were not bid in accordance with statutory requirements even though the prices paid appeared to be reasonable.

Section 50.660, RSMo Supp. 1999, requires the advertisement for bids for any purchases of \$4,500 or more, from any one person, firm, or corporation during any period of ninety days.

Bidding procedures for major purchases provide a framework for the economical management of county resources and help assure the county that it receives fair value by contracting with the lowest and best bidder. Competitive bidding ensures all interested parties are given an equal opportunity to participate in county business.

To show full compliance with state law, documentation of bids should include, at a minimum, a listing of vendors from whom bids were requested, a copy of the request for proposal, a newspaper publication notice when applicable, a copy of all bids received, a summary of the basis and justification for awarding the bid, documentation of all discussions with vendors, and bid specifications designed to encourage competitive bidding.

- F. The County Treasurer allocates interest earned to various funds she believes are required to retain interest earned on balances or which have a substantial month end cash balance. However, the Capital Improvement Sales Tax Fund is not included in this interest allocation process even though it generally has the second highest month end cash balance of all county funds. In addition, the Sheriff Drug Fund which includes proceeds received from the Justice Department's Federal Equitable Sharing Program was not included in the interest allocation process in 1999. This program specifically requires interest earned on these proceeds to be spent for the same restricted purposes of the program. As a result, interest is not being equitably distributed to all funds required to retain interest earned on balances or those with significant cash balances under the stated allocation policy established.

Conditions similar to A, B, and E were noted in prior reports.

**WE RECOMMEND:**

- A. The County Commission ensure budgets are prepared or obtained for all county funds in accordance with state law.
- B. The County Commission not authorize warrants in excess of budgeted expenditures. Extenuating circumstances should be fully documented and, if necessary, the budgets properly amended and filed per state law.
- C. The County Commission ensure all CART activity is appropriately included in the annual Special Road and Bridge Fund budget.
- D. The County Clerk, with the assistance of the Health Center, ensure the completeness and accuracy of the schedule of expenditures of federal awards.
- E. The County Commission ensure bids are solicited for all items in accordance with state law. Documentation of bids solicited by the Sheriff and justification for bids awarded should be reviewed by the County Commission and appropriately retained. If it is not practical to obtain bids in a specific instance, the circumstances should be thoroughly documented.
- F. The County Treasurer include the Capital Improvement Sales Tax Fund, the Sheriff Drug Fund and any other funds required to retain interest earned on balances or with significant cash balances in future monthly interest allocations.

**AUDITEE'S RESPONSE**

- A. *The Interest Fund and DARE Fund were budgeted in 2000 and we plan to budget the Law Library Fund in 2001.*
- B. *We will monitor the 2000 budgets and amend budgets if necessary.*

- C. *We will correct this problem with the 2001 Special Road and Bridge Fund budget.*
- D. *The County Clerk indicated she would prepare a complete and accurate schedule. This recommendation will be implemented for the SEFA to be submitted with the budget due in January 2001.*

*The Health Center Administrator indicated she will work with the County Clerk to ensure the expenditures for all federal grant programs the Health Center participates in are reported on the 2000 SEFA.*

- E. *We will immediately implement this recommendation.*
- F. *The County Treasurer indicated interest is now allocated to the Capital Improvement Sales Tax Fund effective April 2000 and will be allocated to the Sheriff Drug Fund immediately. She also indicated she will review to ensure all required funds or those with material cash balances are allocated interest.*

|   |
|---|
| <b>2. County Collector's Accounting Controls and Procedures</b> |
|---|

- A. Bank reconciliation's are not performed on a timely basis. As of April 6, 2000 (fieldwork completion date) bank reconciliations had not been completed for the previous four months. In addition, monthly listings of liabilities are not prepared and reconciled to cash balances. Accurate and complete bank reconciliations and identification of month-end liabilities are necessary to ensure all receipts and disbursements are properly accounted for, that cash in the bank is adequate to meet liabilities and that there is no unidentified excess or shortage in the account.
- B. Our review of those bank reconciliations completed during the audit period indicated a deposit in transit of \$1,358 had been reported as a reconciling item since August 1998. Further discussions with the County Collector indicated a \$1,358 deposit was apparently lost. Since the tax collections comprising this deposit were disbursed to the appropriate political subdivisions in September 1998, the bank account is short by \$1,358. As of April 6, 2000 (fieldwork completion date), the County Collector had not followed up on the lost deposit.

We were able to determine the taxpayers whose payments comprised that deposit, with \$1,058 representing checks and \$300 representing cash. We were able to contact three of the six taxpayers identified as paying by check to determine if the checks written had cleared the bank, with each of them indicating that his or her check had not cleared. The other taxpayers either could not recall if the check had cleared or could not be reached. Had the County Collector followed up on the lost deposit in a timely manner, it appears the taxes of each individual paying by check could have been collected with minimal difficulty. The County Collector has a fiduciary responsibility to correct the account shortage. He should attempt to obtain

replacement checks from these individuals. Any part of the \$1,358 not recovered will need to be repaid by the County Collector to eliminate the shortage in the bank account.

- C. For the two years ended February 29, 2000, the County Collector improperly distributed \$6,757 received from the State Department of Conservation as payments in lieu of taxes (PILT) to the General Revenue Fund. In addition, a similar distribution of \$6,177 of PILT monies noted in our prior audit has not been corrected. As a result, at least \$12,000 is due to various political subdivisions from the General Revenue Fund. Approximately 60 percent or \$7,200 of this \$12,000 would apparently be due to the school districts in the areas this property is located.

Article IV, Section 43 (b) of the Missouri Constitution indicates these monies are to be used "...for distribution to the appropriate political subdivisions as payment in lieu of real property taxes for privately owned land acquired by the commission after July 1, 1977..."

- D. Surtax collections are to be distributed to various political subdivisions based on percentages derived from a combination of the 1984 merchants' and manufacturers' taxes paid and the current assessed valuation for subclass 3 commercial property for each year compared to the 1985 valuation.

The 1999 and 1998 surtax collections were distributed by the County Collector using percentages calculated for distributing the 1985 collections. The County Collector does not recalculate the distribution percentages each year. Discussions with the County Assessor indicated the assessed valuations for certain political subdivisions changed significantly in proportion to other political subdivisions in the last few years.

Section 139.600, RSMo 1994, outlines the procedures to be followed to calculate the percentages for the first and each succeeding year the surtax is imposed. Since significant changes have occurred in the subclass 3 commercial property assessed valuation amounts, political subdivisions have not received the proper allocation of surtax collections.

- E. The County Collector provides property tax collection services to the city of Warsaw based upon verbal agreement. A 4 percent commission is withheld from all city tax collections and allocated 2 percent to the County Collector and 2 percent to the county's General Revenue Fund. A 7 percent additional commission paid by the taxpayer is applied to delinquent city tax collections. This additional commission is allocated 3 percent to the County Employees Retirement Fund (CERF), 2 percent to the County Collector, and 2 percent to the county's General Revenue Fund.

Section 50.332, RSMo 1994, allows county officials, with the approval of the county commission, to perform services for cities that they normally provide to the county for additional compensation. Section 432.070, RSMo 1994, requires all such contracts to be in writing. A written contract, signed by the city, the County Collector, and the County Commission should be prepared.

Additionally, while the county can negotiate for a collection fee to be withheld from gross city collections, the 7 percent additional commission assessed as a penalty for city of Warsaw delinquent taxes is in excess of the penalty authorized by state law. Section 52.290.1, RSMo 1994, provides for a 5 percent penalty to be collected from the taxpayer. Any add on fee or penalty charged to taxpayers must be based on state law or local ordinance.

F. A review of the County Collector's annual settlements indicated the following concerns:

1. The County Collector did not file annual settlements with the County Commission on a timely basis. For the year ended February 28, 1999, the annual settlement was file July 22, 1999. As of June 1, 2000 the annual settlement for the year ended February 29, 2000 had not been filed.

Section 139.160, RSMo 1994, requires the annual settlement to be filed with the County Commission by the first Monday in March. While filing the annual settlement by the statutory due date is difficult, the County Collector needs to make a greater effort to ensure his annual settlements are filed on a more timely basis.

2. For the annual settlement filed for the year ended February 28, 1999, collections reported exceeded distributions by \$53,438. The County Collector could not explain the reason for the difference. Similar though less significant differences between collection and distribution amounts have been noted in prior audits. With inaccurate reporting of collections or distributions on the annual settlement, the County Commission's ability to appropriately examine and approve it is inhibited.

Conditions similar to A, C, D, and E were noted in prior reports.

**WE RECOMMEND:**

- A. The County Collector perform monthly bank reconciliations on a timely basis, prepare monthly listings of liabilities and reconcile the listings to the reconciled bank balance.

- B. The County Collector follow up on future deposit problems in a timely manner. He should attempt to obtain replacement checks on lost tax payments and personally repay any uncollected amounts to his official bank account.
- C. The County Collector recompute the PILT distribution for amounts improperly distributed in the current and prior audit period and ensure the appropriate amounts are distributed to the appropriate political subdivisions. In addition, future PILT payments received from the Department of Conservation should be distributed in accordance with the Missouri Constitution.
- D. The County Collector ensure future distributions of surtax collections take into consideration the current years assessed valuation of subclass 3 commercial property for each political subdivision as required by state law.
- E. The County Collector and County Commission obtain a written agreement with all cities for tax collections. The contracts should specifically define the amount of penalties to be collected on delinquent city taxes and how the penalties are to be distributed. The penalty amounts should be based on applicable state law or local ordinance.
- F. The County Collector file complete and accurate annual settlements on a more timely basis.

#### **AUDITEE'S RESPONSE**

- A. *Bank reconciliations may still not be performed timely during the busy season; however, I will attempt to ensure reconciliations are done timely in the future. I will begin preparing monthly open items lists and attempt to reconcile them with the cash balance. I anticipate implementation of these procedures prior to December 31, 2000.*
- B. *I will contact the individuals that paid by check to obtain replacement checks and repay any difference. I anticipate this process to be completed prior to December 31, 2000. I will ensure if similar situations occur in the future that follow up is done in a timely manner.*
- C. *I will discuss this issue with the County Commission immediately and if the County Commission chooses to comply with the constitutional requirement, I will take corrective action and ensure future distributions are done appropriately.*
- D. *I will implement this recommendation prior to the next billing season.*
- E. *This agreement has been in place for many years and I do not plan to change it.*
- F. *I will attempt to ensure distributions equal collections for the settlement to be filed for the year ended February 29, 2000 and future settlements. Future settlements will also be filed more timely effective with the settlement due for the year ended February 28, 2001.*

|  |
|--|
| <b>3. Circuit Clerk's Accounting Controls and Procedures</b> |
|--|

The associate and probate divisions were consolidated with the circuit division on January 1, 1999. The Circuit Clerk is responsible for assessing, collecting, and distributing monies in connection with all circuit, associate and probate court proceedings. During our review of the Circuit Clerk's accounting controls and procedures the following concerns were noted:

- A. Prior to the merger, the prior Circuit Clerk maintained an open items listing which reconciled to the cash balance of the circuit account. As noted in our prior report, no such listing was maintained for the associate account. As a result, a complete open items listing which reconciles to the new circuit account balance has not been prepared since the merging of the three divisions. At February 29, 2000, the open items listing for the new circuit account was approximately \$28,000 less than the cash balance.

Monthly listings of open items are necessary to ensure monies held in trust by the Circuit Clerk are sufficient to meet liabilities. In addition, the Circuit Clerk should work to identify all cases with open items and to reconcile the open items to the cash balance. If not identified, the Circuit Clerk should dispose of the monies in accordance with state law. Various statutory provisions including Sections 50.470 through 50.490, RSMo 1994, and Sections 447.500 through 447.995, RSMo 1994, provide for the disposition of unidentified monies.

- B. The Circuit Clerk maintains an inactive account with sixty-six checks totaling \$5,267 that have been outstanding for more than one year. Several of these checks date back to early 1997.

The Circuit Clerk should adopt procedures to routinely follow up on checks outstanding for a considerable time and reissue checks if the payee can be located. If payees cannot be located, the Circuit Clerk should dispose of the monies in accordance with state law. Various statutory provisions including Sections 50.470 through 50.490, RSMo 1994, and Sections 447.500 through 447.995, RSMo 1994, provide for the disposition of unclaimed monies.

Similar conditions were noted in our prior report.

**WE RECOMMEND** the Circuit Clerk:

- A. Reconcile the monthly listing of open items to the cash balance. Any unidentified monies should be disposed of in accordance with state law.

- B. Establish procedures to investigate checks outstanding for a considerable amount of time. Any remaining unclaimed monies should be disposed of in accordance with state law.

#### **AUDITEE'S RESPONSE**

*We have been commended for our accomplishments, by your office, the circuit judge and presiding commissioner for our tenacity in resolving most of the pre-existing problems. Yes, we will take your recommendations into consideration. As you know, we have been and are currently attempting to resolve these two remaining problem areas, which were in existence prior to my administration. I believe this should be accomplished within 60 days or less.*

|  |
|--|
| <b>4. Sheriff's Accounting Controls and Procedures</b> |
|--|

The Sheriff's department collects fees, bonds, and other miscellaneous receipts to be turned over to the county. Our review of the Sheriff's controls and procedures noted the following concerns.

- A. Monthly listings of open items (liabilities) are prepared; however, the listings do not reconcile with the cash balance of the Sheriff's account. At December 31, 1999, the reconciled cash balance exceeded the open items listing for the Sheriff's account by \$462. The unidentified difference fluctuated each month and there was no documentation that the sheriff's office attempts to resolve such differences. In addition, the December 31, 1999 open items listing included nine bonds totaling \$1,281 that had been held for more than one year. These bonds should be reviewed to determine if a disbursement is necessary.

Monthly listings of open items are necessary to ensure monies held in trust by the Sheriff are sufficient to meet liabilities. In addition, the Sheriff should work to identify all open items and to reconcile the open items to the cash balance. If not identified, the Sheriff should dispose of the monies in accordance with state law. Various statutory provisions including Sections 50.470 through 50.490, RSMo 1994, and Sections 447.500 through 447.995, RSMo 1994, provide for the disposition of unidentified or unclaimed monies.

- B. Receipts are not deposited on a timely basis. Deposits were made approximately five times per month with an average deposit of \$2,371 which was composed of approximately 80 percent cash.

To safeguard receipts and reduce the risk of loss or misuse of funds, all receipts should be deposited intact daily or when accumulated receipts exceed \$100.

- C. The Sheriff's department houses prisoners for other entities in the county jail and bills and collects amounts from the various entities. Generally, the only prisoners held for other entities have been arrested by the sheriff's department on an outstanding warrant and are only held until picked up by the jurisdiction that issued the warrant. The Sheriff has not established a formal policy for follow up collection efforts for unpaid incarceration billings. A separate file is maintained with copies of each monthly set of billings; however, these copies are not marked paid when payments are received and a separate ledger tracking billings and collections is not maintained. There is no follow up on bills that are not paid after the first billing.

To adequately account for all incarceration billings due and to maximize county revenues, adequate summary records of amounts due should be maintained. In addition, the Sheriff should establish written procedures for collecting delinquent incarceration billings. Such procedures should consist of periodically identifying billings with past due balances and follow up on the payment status of these billings.

Conditions similar to A and B were noted in our prior report.

**WE RECOMMEND** the Sheriff:

- A. Reconcile the listing of open items to the cash balance monthly and dispose of any unidentified monies in accordance with state law. In addition, open items held for a considerable time should be routinely followed up on to determine if disbursement is necessary.
- B. Deposit all monies intact daily or when accumulated receipts exceed \$100.
- C. Maintain complete records which track incarceration billings and subsequent payments. In addition, establish and implement procedures for pursuing collection of delinquent incarceration billings.

**AUDITEE'S RESPONSE**

- A. *We are currently taking corrective action to correct the open items problem and will attempt to get the bonds distributed. The open items differences may have been caused by an accounting software problem. We anticipate corrective action will be completed for all problems within a few months.*
- B. *We will begin to make deposits at least 3 days a week.*
- C. *We will now mark billings as paid once payments are received and retain documentation for billings counties refuse to pay. Billings when paid are normally paid timely. There does not appear to be a need to send out second billings.*

This report is intended for the information of the management of Benton County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on Prior Audit Findings

## BENTON COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Benton County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the two years ended December 31, 1997. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the county should consider implementing these recommendations.

### 1. Circuit Clerk's Accounting Controls, Records, and Procedures

- A. The Circuit Clerk did not prepare bank reconciliations, maintain a book balance, or prepare listings of liabilities (open items) for the fee account on a monthly basis.
- B. Receipts were not always promptly recorded in the one-write receipt ledger, daily reconciliation procedures were not performed, and deposits were not always made timely.
- C. The Circuit Clerk did not always distribute checks promptly or follow up on outstanding checks timely.
- D.1. The Circuit Clerk sometimes used "white-out" over the amount initially recorded on the one-write receipt ledger. Several transactions were recorded on the one-write receipt ledger in blue ink, rather than the usual carbon.
- 2. The Circuit Clerk used checks from an old supply of unused checks and two instances where counter checks were used. The check numbers on the old checks were changed and a number was added to the counter checks to continue the official fee account checks' numerical sequence.
- E. The Circuit Clerk did not file a report of fees with the County Commission for the two years ended December 31, 1997.
- F. A listing of accrued costs owed to the court was not maintained by the Circuit Clerk and monitoring procedures related to accrued costs were not adequate.
- G. Accounting and bookkeeping duties were not adequately segregated and supervisory review was not adequately documented.
- H. The Circuit Clerk was behind in submitting criminal cost reimbursement requests to the state.

Recommendation:

The Circuit Clerk:

- A. Prepare monthly bank reconciliations and open items listings, and reconcile them to the cash balance. Any discrepancies should be investigated and resolved.
- B. Promptly record receipts to the accounting records, issue receipts slips in sequential order, deposit receipts daily or when accumulated receipts exceed \$100, and reconcile the composition of receipt slips issued to the composition of deposits.
- C. Distribute checks promptly after preparation and follow-up on old outstanding checks.
- D.1. Void and retain incorrectly written receipt slips and thoroughly document any changes to the receipt records.
  - 2. Use only prenumbered checks specific to the official fee account and account for their numerical sequence.
- E. File a monthly report of fees with the County Commission as required by state law.
- F. Maintain a complete listing of accrued costs and establish procedures to routinely follow-up and pursue timely collection.
- G. Adequately segregate duties or ensure independent, documented reviews of the records are performed.
- H. Determine any unbilled costs pertaining to 1997 and 1996 cases and bill the state now. In the future, criminal cost reimbursement forms should be submitted to the state on a more timely basis.

Status:

- A. Partially implemented. Monthly bank reconciliations are now prepared; however, a complete open items listing which reconciles to the circuit account balance has not been prepared since the merging of the circuit, associate and probate divisions. See MAR No. 3.
- B-E,  
G&H. Implemented.
- F. Partially implemented. Although the Circuit Clerk does not maintain a complete listing of accrued costs, there are now procedures in place to routinely follow-up and

pursue timely collection of amounts owed. Although not repeated in the current report, our recommendation remains as stated above.

2. Ex Officio Recorder of Deeds' Procedures

- A. The Ex Officio Recorder of Deeds contracted with an individual to microfilm old records of the offices of Circuit Clerk and Ex Officio Recorder of Deeds.
  - 1) The Ex Officio Recorder of Deeds did not solicit bids for the services.
  - 2) No written agreement was entered into with this contractor.
  - 3) Payments to the contractor were made from the Recorder's User Fees Fund even though the microfilming of Circuit Court case file documents did not appear to be an appropriate use of this fund.
- B. Receipts totaling \$522 from the Internal Revenue Service for filing federal liens were held for several months before deposit. These receipts were not recorded in the receipt ledger until approximately one month after they were deposited.

Recommendation:

- A.1. Solicit bids as required by state law.
  - 2. Enter into written agreements and require detailed invoices to support payment requests when contracting for services.
  - 3. Ensure that expenditures made from the Recorder's User Fees Fund are allowable under the law.
- B. Record receipts promptly and deposit all receipts daily or when accumulated receipts exceed \$100. In addition, tax liens should be filed timely.

Status:

- A. The Ex Officio Recorder of Deeds did not enter into any agreements that would require written contracts during the audit period. No problems were noted with the expenditures from the Recorder's User Fee Fund.
- B. Implemented.

3. Budgetary Practices and Expenditures

- A. Formal budgets were not prepared and filed with the State Auditor's office for several funds.

- B. Actual disbursements exceeded budgeted amounts for several funds.
- C. The County Commission, Health Center Board of Trustees and other county officials did not properly bid some purchases or ensure that efforts to obtain bids were adequately documented.
- D. The county purchased handguns for the Sheriff and his deputies who then reimbursed the county over a period of time. The number of handguns purchased by the Sheriff and one reserve deputy exceeded the County Commission's stated policy for the handgun program. The written agreement signed by each deputy and the Sheriff did not clearly state repayment terms.

Recommendation:

- A. The County Commission ensure budgets are prepared for all county funds and submitted to the State Auditor's office as required by state law.
- B. The County Commission and the Health Center Board of Trustees not authorize warrants in excess of budgeted expenditures. Extenuating circumstances should be fully documented and, if necessary, the budgets properly amended following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's Office, and prior to incurring the related expenditures.
- C. The County Commission and other county officials solicit bids for all items in accordance with state law. Documentation of bids solicited and justification for bid awards should be maintained. If bids are not obtained and/or sole source procurement is necessary, the County Commission minutes should thoroughly reflect the circumstances.
- D. The County Commission review handgun purchases to ensure its policies are adhered to and ensure the written agreement with the Sheriff and each deputy clearly specifies the repayment terms.

Status:

- A. Not implemented. See MAR No.1.
- B. Partially implemented. The Health Center Board did not authorize any payments in excess of budgeted expenditures during the audit period; however, the County Commission still had problems in this area. See MAR No. 1.

- C. Partially implemented. Some problems were noted with several law enforcement related purchases handled by the Sheriff's department; however, no other bidding problems were noted. See MAR No.1.
- D. Implemented. As of April 2000, approximately \$2,800 of the \$4,500 due to the county from the Sheriff and his deputies had been repaid. Written agreements are now entered into which specify the repayment terms.

4. Personnel Policies and Procedures

Records of leave, overtime worked, and compensatory time balances were not centrally maintained except for road and bridge employees and employees of the County Clerk's office.

Recommendation:

The County Commission require the County Clerk to maintain centralized leave and compensatory records for all county employees.

Status:

Implemented.

5. Property Tax System and Computer Controls

- A. The County Collector and Assessor made changes to the property tax records for additions and abatements on an ongoing basis. There was no independent, subsequent comparison of County Commission approved court-ordered additions and abatements to actual changes made to the property tax data file.
- B. The county had not established a formal disaster plan for its computer system.

Recommendation:

- A. Revise the addition/abatement process so that the County Collector and Assessor do not have the capability to make changes to computerized property tax data or ensure that independent, subsequent comparisons of these changes to tax book change orders is performed.
- B. Develop a formal contingency plan for the county's computer system.

Status:

- A. Implemented.

- B. Partially implemented. Each elected official has submitted a disaster recovery plan to the County Commission, but a formal contingency plan has not yet been developed. Although not repeated in the current report, our recommendation remains as stated above.

6. County Collector's Withholdings from Tax Collections

- A. Various errors were made in adjusting property tax collections for the effects of Proposition C and in calculating the assessment withholding from school district property tax collections. Worksheets or other documentation was not retained to support commissions and assessment withholdings on school district property tax collections
- B. The County Collector improperly withheld commissions on interest charged on current delinquent and back tax collections and mailing commissions on interest charged on current delinquent tax collections.
- C. The amount of additional commissions paid into the County Employees' Retirement Fund exceeded the amount required.

Recommendation:

- A. Recompute commissions related to these school districts and make corrections for amounts improperly distributed to the schools, General Revenue Fund, and Assessment Fund. The Collector needs to ensure future Proposition C commissions are computed properly. In addition, work sheets or other documentation to support the calculation of commissions and assessment withholdings on school district property tax collections should be retained.
- B. Discontinue the practice of withholding commissions on interest charged on current delinquent and back tax collections. In addition, the County Collector should recalculate the commissions which should have been retained from the political subdivisions tax collections. Future distributions to the various political subdivisions and the General Revenue Fund should be adjusted for the differences noted.
- C. Recalculate the distribution of additional commissions for the year ended February 28, 1998, and make the necessary adjustments for errors noted, along with differences noted above and in the previous audit report.

Status:

- A. Partially implemented. Although the County Collector continues to have errors in his Proposition C commission calculation, he now retains the worksheets used to calculate commissions and withholdings. During the last year of the audit period

only one school district's property tax collections had to be adjusted for the effects of Proposition C. Commissions and withholdings were not recomputed for the prior audit period. Although not repeated in the current report, our recommendation remains as stated above.

- B. Not implemented. This recommendation has been made to the County Collector in numerous prior reports. He has indicated both in his response to those findings and to us during the current audit that he does not intend to change this practice. This commission calculation compliance problem results in about \$750 in additional commissions annually being turned over to the General Revenue Fund. Although not repeated in the current report, our recommendations remain as stated above.
- C. Partially implemented. The County Collector made an adjustment to correct the amount incorrectly distributed to the CERF for the year ended February 28, 1997; however, he did not make any adjustments for differences previously noted in the audit for the two years ended February 28, 1996 and did not recalculate the distribution for the year ended February 28, 1998. No problems were noted with the CERF distributions made during the audit period. Although not repeated in the current report, our recommendation remains as stated above.

7. County Collector's Accounting Controls and Procedures

- A. The County Collector did not reconcile cash balances to existing liabilities.
- B. The County Collector improperly distributed \$6,177 received from the State Department of Conservation as payments in lieu of taxes (PILT) to the General Revenue Fund.
- C. Surtax collections were distributed using percentages applicable to the 1985 collections.
- D. Tax monies for the city of Warsaw were collected without a written agreement and the penalty fee charged on the delinquent city taxes might have been in excess of that authorized by state law.

Recommendation:

- A. The County Collector reconcile the amounts in his bank accounts to related liabilities and other reconciling items on a monthly basis. Any differences should be investigated and explained on the reconciliations.
- B. The County Collector recompute the PILT distribution and take the over and under payments into effect when distributing future PILT payments received from the State Department of Conservation to the appropriate political subdivisions.

- C. The County Collector recalculate distributions of surtax collections for the two years ended February 28, 1998, and ensure future distributions of surtax collections are properly computed to take into consideration the current assessed valuations for Subclass 3 commercial property of each political subdivision.
- D. The County Collector and County Commission obtain a written agreement with all cities for tax collections. The contracts should specifically define the amount of penalties to be collected on delinquent city taxes and how the penalties are to be distributed. The penalty amounts should be based on applicable state laws and city ordinance.

Status:

A–D. Not implemented. See MAR No. 2.

8. Sheriff's Accounting Controls and Procedures

- A. Formal monthly bank reconciliations had not been prepared since April 1997. Monthly listings of liabilities (open items) were prepared, but were not agreed to the reconciled bank and book balance.
- B. Receipts were not always deposited timely.
- C. Receipt slips did not indicate the method of payment and the composition of receipts was not reconciled to the composition of deposits.
- D. The Sheriff maintained custody of the Sheriff 's Department Reserve Account without statutory authority.

Recommendation:

- A. Perform formal monthly bank reconciliations, and ensure a complete and accurate open items listing is maintained and reconciled to the cash balance. In addition, reasons for discrepancies among the various accounting records should be determined and resolved during the month-end reconciliation process.
- B. Deposit receipts daily or when accumulated receipts exceed \$100.
- C. Record the method of payment on receipt slips and reconcile the composition of receipts to the composition of bank deposits.
- D. Turn over custody of the Sheriff's Department Reserve Account to the County Treasurer, and turn over all future calendar receipts to the County Treasurer.

Status:

- A. Partially implemented. Bank reconciliations are currently being performed on a timely basis; however, the reconciled balance does not agree with the open items listing. See MAR No. 4.
- B. Not implemented. See MAR No. 4.

C&D. Implemented

9. Associate Circuit Division's Open Items

Monthly listings of liabilities (open items) were prepared, but were not agreed to the reconciled bank and book balances.

Recommendation:

The Associate Circuit Division Judge ensure a complete and accurate open items listing is maintained and agreed to the reconciled bank and book balances monthly. In addition, the Associate Circuit Judge should require the Associate Circuit Division Clerk to attempt to identify the \$3,852 and disburse these monies accordingly. If such monies cannot be identified, they should be paid to the appropriate county or state fund as directed by state law.

Status:

Not implemented. The associate circuit division was merged with the circuit division in January 1999. The monies referred to above are now the responsibility of the Circuit Clerk. See MAR No. 3.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

BENTON COUNTY, MISSOURI  
HISTORY, ORGANIZATION,  
AND STATISTICAL INFORMATION

Organized in 1835, the county of Benton was named after Thomas Hart Benton, a U.S. Senator. Benton County is a county-organized, third-class county and is part of the Thirtieth Judicial Circuit. The county seat is Warsaw.

Benton County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Benton County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| Property taxes            | \$ 463,183   | 18         | 453,470   | 17         |
| Sales taxes               | 564,480      | 21         | 542,365   | 20         |
| Federal and state aid     | 1,038,369    | 39         | 1,048,196 | 40         |
| Fees, interest, and other | 573,280      | 22         | 603,230   | 23         |
| Total                     | \$ 2,639,312 | 100        | 2,647,261 | 100        |

The following chart shows how Benton County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| General county government | \$ 600,442   | 21         | 575,035   | 22         |
| Public safety             | 829,025      | 30         | 797,362   | 31         |
| Highways and roads        | 1,364,643    | 49         | 1,207,162 | 47         |
| Total                     | \$ 2,794,110 | 100        | 2,579,559 | 100        |

Additionally, Benton County has a Capital Improvement Sales Tax Fund with receipts of \$621,690 and \$595,946 in 1999 and 1998, respectively, which are used for improvements to roads and bridges, upgrading equipment, and repairs and upkeep of county buildings.

The county maintains approximately 76 county bridges and 535 miles of county roads.

The county's population was 9,695 in 1970 and 13,859 in 1990. The following chart shows the county's change in assessed valuation since 1970:

|                        |    | Year Ended December 31, |       |       |        |        |
|------------------------|----|-------------------------|-------|-------|--------|--------|
|                        |    | 1999                    | 1998  | 1985* | 1980** | 1970** |
|                        |    | (in millions)           |       |       |        |        |
| Real estate            | \$ | 98.3                    | 95.9  | 54.2  | 27.1   | 18.5   |
| Personal property      |    | 32.1                    | 29.8  | 11.0  | 7.7    | 5.5    |
| Railroad and utilities |    | 13.9                    | 11.9  | 7.8   | 6.8    | 3.5    |
| Total                  | \$ | 144.3                   | 137.6 | 73.0  | 41.6   | 27.5   |

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Benton County's property tax rates per \$100 of assessed valuations were as follows:

|                               |    | Year Ended December 31, |      |
|-------------------------------|----|-------------------------|------|
|                               |    | 1999                    | 1998 |
| General Revenue Fund          | \$ | .12                     | .14  |
| Special Road and Bridge Fund* |    | .21                     | .21  |
| Health Center Fund            |    | .40                     | .40  |

\* The county retains all tax proceeds from areas not within road districts. The county has three road districts that receive four-fifths of the tax collections from property within these districts, and the Special Road and Bridge Fund retains one-fifth. The road districts also have an additional levy approved by the voters.

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county bills and collects property taxes for itself and most other local governments. Taxes collected were distributed as follows:

|                                   | Year Ended February 28 (29), |                  |
|-----------------------------------|------------------------------|------------------|
|                                   | 2000                         | 1999             |
| State of Missouri                 | \$ 43,501                    | 42,090           |
| General Revenue Fund              | 183,781                      | 256,271          |
| Special Road and Bridge Fund      | 275,346                      | 275,471          |
| Special Road districts            | 31,226                       | 24,022           |
| Assessment Fund                   | 72,068                       | 68,250           |
| Health Center Fund                | 562,963                      | 525,753          |
| School districts                  | 4,522,312                    | 4,350,640        |
| Library district                  | 201,058                      | 196,677          |
| Ambulance district                | 260,828                      | 245,424          |
| Nursing Home districts            | 55,963                       | 54,785           |
| Junior College                    | 569,942                      | 557,721          |
| Fire districts                    | 317,433                      | 305,570          |
| Cities                            | 127,767                      | 128,512          |
| Advertising                       | 2,655                        | 2,552            |
| County Clerk                      | 736                          | 1,357            |
| Overplus Fund                     | 10,075                       | 54,646           |
| County Employees' Retirement Fund | 41,719                       | 30,704           |
| Commissions and fees:             |                              |                  |
| County Collector                  | 1,951                        | 1,935            |
| General Revenue Fund              | 119,667                      | 114,127          |
| Total                             | \$ <u>7,400,991</u>          | <u>7,236,507</u> |

Percentages of current taxes collected were as follows:

|                        | Year Ended February 28 (29), |        |
|------------------------|------------------------------|--------|
|                        | 2000                         | 1999   |
| Real estate            | 89.9 %                       | 89.3 % |
| Personal property      | 89.3                         | 89.5   |
| Railroad and utilities | 100.0                        | 100.0  |

Benton County also has the following sales taxes; rates are per \$1 of retail sales:

|                       | Rate     | Expiration | Required               |
|-----------------------|----------|------------|------------------------|
|                       |          | Date       | Property Tax Reduction |
| General               | \$ .0050 | None       | 50 %                   |
| Capital improvements* | .0050    | 2006       | None                   |

\* The capital improvements sales tax was extended for an additional five years by the voters of Benton County in April 2000.

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below.

| Officeholder   | 2000   | 1999   | 1998   |
|--|--------|--------|--------|
| County-Paid Officials:   |        |        |        |
| Rodney Meyer, Presiding Commissioner                                 | \$     | 28,400 | 16,414 |
| John Spry, Associate Commissioner                                    |        | 26,400 | 16,414 |
| Walter Schumacher Jr., Associate Commissioner                        |        | 26,400 | 16,414 |
| Glenalee Dillon, County Clerk  |        | 40,000 | 29,406 |
| Karen Woodley, Prosecuting Attorney                                  |        | 47,000 | 32,716 |
| Glenn Spencer, Sheriff   |        | 33,374 | 32,500 |
| Kathryn Dockery, County Treasurer                                    |        | 29,600 | 19,348 |
| James A. Miller, County Coroner                                      |        | 4,830  | 4,830  |
| Annabelle Kindle, Public Administrator *                             |        | 12,558 | 7,042  |
| Jesse Wininger, County Surveyor **                                   |        |        |        |
| J.D. Johnson, County Collector,<br>year ended February 28 (29), ***  | 40,409 | 32,215 |        |
| Roger Reedy, County Assessor,<br>year ended August 31, ****          |        | 39,060 | 39,060 |
| State-Paid Officials:  |        |        |        |

| Larry Burditt, Associate Circuit Judge                               |        | 87,235 | 85,158 |

\* Includes fees received from probate cases.

\*\* Compensation on a fee basis.

\*\*\* Includes \$1,951 and \$1,935, respectively, of commissions earned for collecting city property taxes.

\*\*\*\* Includes \$900 annual compensation received from the state. \$1,908 of the salary for the year ended August 31, 1998 was paid during the year ended August 31, 1999.

A breakdown of employees (excluding the elected officials) by office at December 31, 1999, is as follows:

| Office   | Number of Employees Paid by |          |
|--|-----------------------------|----------|
|  | County                      | State    |
| County Commission                              | 1                           | 0        |
| Circuit Clerk and Ex Officio Recorder of Deeds | 0                           | 5        |
| County Clerk                                   | 2 *                         | 0        |
| Prosecuting Attorney                           | 4 *                         | 0        |
| Sheriff  | 23 **                       | 0        |
| County Collector                               | 3 *                         | 0        |
| County Assessor                                | 6                           | 0        |
| Road and Bridge                                | 19 ***                      | 0        |
| Health Center                                  | 58 ****                     | 0        |
| Total  | <u>116</u>                  | <u>5</u> |

\* Includes 1 part-time employee

\*\* Includes 4 part-time employees

\*\*\* Includes 3 part-time employees

\*\*\*\* Includes 11 part-time employees

In addition, the county pays a proportionate share of the salaries of other circuit court-appointed employees. Benton County's share of the Thirtieth Judicial Circuit's expenses is 17.45 percent.

In 1995, a juvenile detention center was constructed in the city of Bolivar for the Thirtieth Judicial Circuit. The five counties in the circuit are required to pay for the cost of construction in accordance with a cooperative agreement with the Thirtieth Circuit Youth Services, Inc., a not-for-profit organization established to operate the detention center. The Bolivar Industrial Development Authority issued revenue bonds of \$830,000 on behalf of the Thirtieth Circuit Youth Services, Inc., to finance the required share of construction costs for the counties of Benton, Hickory and Webster. The Thirtieth Circuit Youth Services, Inc., makes the bond payments, but the counties are required to pay their share of the debt in accordance with the cooperative agreement. Benton County's share of the debt is 30.83 percent, and at December 31, 1999, the county's total obligation for the principal was \$221,668. The interest rate is 6 percent and payments are made semi-annually for six years, with a lump sum payment due on November 1, 2001. Benton County's share of the lump sum payment is \$208,363, and the county does not have a reserve set aside for the lump sum payment. The debt can be refinanced if the lump sum payment cannot be made.

SPECIAL REVIEW  
OF  
MISSOURI SOUTHERN STATE COLLEGE  
VENDOR REFUNDS AND PAYMENTS

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-61  
July 27, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

July 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**The following areas of concern were discovered as a result of a special review conducted by our office of the Missouri Southern State College Vendor Refunds and Payments.**

---

According to college officials, in December 1999 the internal auditor at Missouri Southern State College discovered a discrepancy in a transaction initiated by the accounts payable clerk. Subsequent review by the internal auditor and the Missouri State Auditor's Office noted additional discrepancies and identified a misappropriation of at least \$22,190 between March 1, 1999 and December 31, 1999.

Between March 1999 and December 1999, thirty-one checks totaling \$21,785 made payable to Missouri Southern State College or college checks payable to college vendors were deposited into a bank account of a local association of which the accounts payable clerk served as treasurer. In December 1999, the college became aware of some of these discrepancies and this clerk subsequently reimbursed the college \$1,560 with a check from the association's bank account, and \$1,995 with a cashiers check purchased from her personal bank account. An additional \$331 also appears to have been reimbursed to the college in April 1999 with a money order. It is not clear what the source of funds for the purchase of this money order is. In addition, a Missouri Southern State College check for \$405 was used to pay the accounts payable clerk's personal credit card bill. As a result, \$18,304 (\$21,785 less \$1,560, \$1,995, and \$331 plus \$405) is still due to the college.

Twenty-four of the thirty-one checks totaling \$13,332 represent refunds from vendors to Missouri Southern State College for returned merchandise or overpayments. Five checks totaling \$6,458 were Missouri Southern State College checks made payable to college vendors. The remaining two checks totaling \$2,195 were Missouri Southern State College checks made payable to the association based upon invoices of which \$1,995 was fictitious. These invoices appeared to be copies of valid invoices from the association that had been altered.

While the majority of the checks were not made payable to the association, they were still deposited into the association's bank account. Several of these checks contained no endorsement; however, six checks were endorsed with a stamped endorsement reading, "Missouri Southern State College, Pay To The Order Of".

(over)

YELLOW SHEET

In one instance, a vendor file name in Missouri Southern State College's computer system appears to have been changed, prior to the check being printed so the check would be made payable to the association, of which the accounts payable clerk served as treasurer. Subsequent to the check being printed, the vendor file name appears to have been changed back which helped to conceal the misappropriation. A representative from the local association into whose bank account these checks were deposited indicated the association was unaware of this matter until December 1999. The association then contacted the college concerning this matter. They also indicated the misappropriated funds from Missouri Southern State College are no longer in the association's bank account.

In addition to the checks noted above, irregularities may have occurred with other checks written to or from the college. Along with the college, we are continuing our efforts to review certain disbursement records and will notify appropriate legal authorities of any additional misappropriated funds.

Rhonda Branham became an employee of Missouri Southern State College in May 1990. She became the accounts payable clerk in October 1997 and resigned in December 1999. As accounts payable clerk she was responsible for preparing invoices for payment, entering disbursement information into the computer system, and although not authorized to do so, received refunds from vendors. The local association to whose account the college's checks were deposited, indicated she served as treasurer from July 1996 until December 1999.

Information regarding this misappropriation has been turned over to the Jasper County Prosecuting Attorney and the city of Joplin Police Department.

The college has also identified unauthorized transactions totaling \$1,284 which appear to have been initiated by the former accounts payable clerk and paid for with Missouri Southern State College funds. These transactions include purchasing supplies and equipment for personal use and establishing two unauthorized cellular phone accounts.

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

Honorable Mel Carnahan, Governor  
and  
Board of Regents  
and  
Dr. Julio S. Leon, President  
Missouri Southern State College  
Joplin, Missouri 64801

We have conducted a special review of Missouri Southern State College. The scope of our review included, but was not necessarily limited to, the period July 1, 1999 through December 31, 1999 and the two years ended June 30, 1999. The objectives of this review were to:

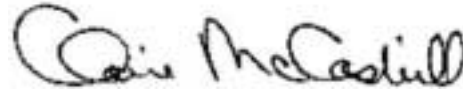

1. Investigate suspected irregularities regarding vendor refunds and payments.
2. Determine the amount of college funds misappropriated.
3. Review and evaluate certain controls and procedures regarding the collection of and accounting for vendor refunds and payments.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed the financial records and procedures of Missouri Southern State College, interviewed college personnel, and examined other records and documents as we considered necessary for the review.

Our review was limited to the specific matters described above and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings and recommendations arising from our review of Missouri Southern State College.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" being more prominent than the last name "McCaskill".

## EXECUTIVE SUMMARY

SPECIAL REVIEW OF  
MISSOURI SOUTHERN STATE COLLEGE  
VENDOR REFUNDS AND PAYMENTS  
EXECUTIVE SUMMARY

According to college officials, in December 1999 the internal auditor at Missouri Southern State College discovered a discrepancy in a transaction initiated by the accounts payable clerk. Subsequent review by the internal auditor and the Missouri State Auditor's Office noted additional discrepancies and identified a misappropriation of at least \$22,190 between March 1, 1999 and December 31, 1999.

Weaknesses in the internal control system of Missouri Southern State College allowed this misappropriation to occur. Some checks made payable to Missouri Southern State College and some college checks payable to college vendors were deposited into a bank account of a local association of which the former accounts payable clerk served as treasurer. A college check was also used to pay the accounts payable clerk's personal credit card bill. Reimbursement of \$3,886 has been received from the association or clerk. In addition, it appears unauthorized purchases of supplies and equipment for personal use, and the unauthorized establishment of two cellular phone accounts were initiated by the former accounts payable clerk.

This misappropriation could have been prevented or detected on a more timely basis if adequate oversight and reviews had been performed and if internal controls as noted in the accompanying Management Advisory Report had been established.

Rhonda Branham became an employee of Missouri Southern State College in May 1990. She became the accounts payable clerk in October 1997 and resigned in December 1999. As accounts payable clerk she was responsible for preparing invoices for payment, entering disbursement information into the computer system, and although not authorized to do so, received refunds from vendors. The local association to whose account the college's checks were deposited, indicated she served as treasurer from July 1996 until December 1999.

## MANAGEMENT ADVISORY REPORT

SPECIAL REVIEW  
OF  
MISSOURI SOUTHERN STATE COLLEGE  
VENDOR REFUNDS AND PAYMENTS

According to college officials, in December 1999 the Internal Auditor of Missouri Southern State College discovered a discrepancy in a transaction initiated by the accounts payable clerk. During a routine audit of Missouri Southern State College (MSSC), the Missouri State Auditor's Office became aware of discrepancies within the accounts payable process. This special review was performed to more fully review the circumstances of these discrepancies and to more fully determine the extent of misappropriated funds.

Following are our comments regarding the misappropriation and the related accounting controls and procedures.

|   |
|---|
| <b>1. Missing Funds and Unauthorized Transactions</b> |
|---|

- A. Between March 1999 and December 1999, thirty-one checks totaling \$21,785 made payable to MSSC or college checks payable to college vendors were deposited into a bank account of a local association of which the accounts payable clerk served as treasurer. In December 1999, the college became aware of some of these discrepancies and this clerk subsequently reimbursed the college \$1,560 with a check from the association's bank account, and \$1,995 with a cashiers check purchased from her personal bank account. An additional \$331 also appears to have been reimbursed to the college in April 1999 with a money order. It is not clear what the source of funds for the purchase of this money order is. In addition, a MSSC check for \$405 was used to pay the accounts payable clerk's personal credit card bill. As a result, \$18,304 (\$21,785 less \$1,560, \$1,995, and \$331 plus \$405) is still due to the college.

Twenty-four of the thirty-one checks totaling \$13,332 represent refunds from vendors to MSSC for returned merchandise or overpayments. Five checks totaling \$6,458 were MSSC checks made payable to college vendors. The remaining two checks totaling \$2,195 were MSSC checks made payable to the association based upon invoices of which \$1,995 was fictitious. These invoices appeared to be copies of valid invoices from the association that had been altered.

While the majority of the checks were not made payable to the association, they were still deposited into the association's bank account. Several of these checks contained no endorsement; however, six checks were endorsed with a stamped endorsement reading, "Missouri Southern State College, Pay To The Order Of".

In one instance, a vendor file name in MSSC's computer system appears to have been changed, prior to the check being printed so the check would be made

payable to the association, of which the accounts payable clerk served as treasurer. Subsequent to the check being printed, the vendor file name appears to have been changed back which helped to conceal the misappropriation. A representative from the local association into whose bank account these checks were deposited indicated the association was unaware of this matter until December 1999. The association then contacted the college concerning this matter. They also indicated the misappropriated funds from MSSC are no longer in the association's bank account.

In addition to the checks noted above, irregularities may have occurred with other checks written to or from the college. Along with the college, we are continuing our efforts to review certain disbursement records and will notify appropriate legal authorities of any additional misappropriated funds.

Information regarding this misappropriation has been turned over to the Jasper County Prosecuting Attorney and the city of Joplin Police Department.

- B. The college has also identified unauthorized transactions totaling \$1,284 which appear to have been initiated by the former accounts payable clerk and paid for with MSSC funds. These transactions include purchasing supplies and equipment for personal use and establishing two unauthorized cellular phone accounts.

Eight purchases totaling \$867 for office supplies and various computer equipment appear to be for personal use. Photocopies of open purchase orders and previously used purchase orders were used to provide documentation for these purchases. In one instance, the college President's signature was photocopied onto a copy of an invoice which gave the appearance that the invoice was approved for payment.

In addition, the former accounts payable clerk established two unauthorized cellular phone accounts for herself, and purchased two new cellular phones with MSSC funds. The college paid charges totaling \$417 for these unauthorized accounts.

These misappropriations were allowed to occur and not be detected for an extended period of time due to a lack of control procedures being in place. The following Management Advisory Report (MAR) comment addresses the needed controls.

**WE RECOMMEND** the college continue working with law enforcement authorities regarding any criminal prosecution and obtain full reimbursement of the misappropriated funds.

**AUDITEE'S RESPONSE:**

*In December 1999, the Internal Auditor at Missouri Southern State College discovered suspicious activities by the account payable clerk. Subsequent investigation by the Internal*

*Auditor and the Missouri State Auditor's Office beginning in January 2000 determined that these suspicious activities had resulted in the misappropriation of college funds. The college, along with the Missouri State Auditor's Office, presented to the Jasper County Prosecuting Attorney and representatives from the City of Joplin Police Department all information regarding the misappropriation in a joint meeting held in early May 2000. The college is continuing to work with law enforcement authorities in an effort to obtain full reimbursement of the misappropriated funds.*

## **2. Vendor Refunds and Payment Procedures and Controls**

- A. The duties of preparing invoices for payment and receiving refund checks are not adequately segregated. The accounts payable clerk is responsible for matching invoices to purchase orders, sending invoices to department heads for approval, entering the invoices into the computer system for payment, and although not authorized to do so, received refunds from vendors.

To safeguard against possible loss, theft, or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls could be improved by ensuring refunds are received and recorded by someone independent of the accounts payable process.

- B. Weaknesses exist within the college's disbursement process as follows.
1. All checks require two signatures, the treasurer and the secretary of the Board of Regents. Both signatures are applied by a check signing machine. The signature plate is stored in a safe in the vault located in the business office. The safe is left unlocked during the day, and all business office employees have access. In addition, several business office employees are allowed to run checks through the check signing machine. To decrease the potential for unauthorized disbursement by check, access to the signature plate should be limited.
  2. Signed checks are not adequately safeguarded prior to distribution. The checks are stored in the business office after being signed by the check signing machine. All office employees, including the accounts payable clerk, have access to the checks. To ensure checks are properly distributed, access to signed checks should be limited.
  3. A disbursement report showing all checks issued is generated and provided to the college Treasurer for his review. Documentation for all checks on the report that are greater than \$5,000 is reviewed. However, no one other than the accounts payable clerk reviews documentation to support checks less than \$5,000. During the two years ended June 30, 1999, there were approximately 40,000 transactions totaling over \$23

million that met the under \$5,000 criteria and therefore documentation was not reviewed by anyone other than the accounts payable clerk. This review is necessary to ensure all disbursements have been properly authorized. Had such a review been performed, some of the misappropriations noted in MAR No. 1 might have been detected.

4. The college uses an automated invoice processing system to process bills paid by the college. To receive payment, vendors must be entered in the system with a vendor number. Once vendors have been entered into the system the accounts payable clerk has the ability to change the vendor file name. In one instance noted in MAR No. 1, a vendor's file name was changed to the name of a local association for which the accounts payable clerk was treasurer. This resulted in the local association being the payee on the check and the check being deposited into the association's bank account. After the check was printed the vendor file name was apparently changed back to the original vendor name which helped to conceal the misappropriation. To decrease the potential for unauthorized disbursements, the ability to change vendor file names should be limited to someone independent of the accounts payable process.
- C. Fourteen of the twenty-four refund checks referred to in MAR No. 1 were initiated by merchandise returns of the bookstore. The bookstore submits to the business office a monthly list of items returned for credit or refunds. However, only the accounts payable clerk is responsible for comparing the items returned, to credit memos or refunds received. As a result, the misappropriation of over \$6,472 in refunds due the bookstore went undetected for several months. The comparison of items returned to credit memos and refunds received by someone independent of the accounts payable process is necessary to ensure all returns have been accounted for properly.
- D. The college has no written policies for returning merchandise and obtaining credits or refunds. Individual departments are allowed to handle their own merchandise returns. Some merchandise is returned through the college's central receiving department, while some merchandise is returned directly by the individual department who received the merchandise.

The business office relies on the individual departments to track their own returns and notify the business office if a credit memo or refund has not been received. However, many of the departments are not properly following up to ensure credits or refunds are received by the college. During our review of returned merchandise, we noted an open credit of \$572 from September 1999 that has not yet been used by the college.

To safeguard against the possible loss or misuse of funds, merchandise returned to vendors should be handled through one central location. To ensure that the college has received full credit for returned merchandise and to ensure the credit

is properly recorded, someone independent of the accounts payable process should record the credit. In addition, to ensure that procedures for returning merchandise and handling credit memos are followed, the college should establish a formal written policy.

- E. Six of the refund checks described in MAR No. 1 were endorsed with a stamp reading “Missouri Southern State College Pay To The Order Of”. The stamp may have helped to enable checks made payable to the College to be negotiated by someone else. College administrators indicated that they did not know of any legitimate purpose for the stamp. The stamp is currently stored in the vault located in the business office, and all business office employees have access to the vault. Failure to properly control the stamp could result in additional loss or misuse of funds. If there is not a need for the stamp, the college should dispose of it.

**WE RECOMMEND** the College:

- A. Adequately segregate the duties of preparing invoices for payment and receiving refund checks.
- B.1. Limit access to the signature plate.
  - 2. Ensure access to signed checks is adequately limited prior to distribution.
  - 3. Ensure documentation for expenditures is properly reviewed and approved prior to payment.
  - 4. Limit the ability to change vendor file names in the computer system to someone independent of the accounts payable process.
- C. Ensure someone independent of the accounts payable process compares the items returned by the bookstore to refunds received and investigates any problems noted in a timely manner.
- D. Establish written policies for returning merchandise and obtaining credits or refunds and establish controls to ensure these policies are enforced. The college should consider requiring all returns and refunds to be handled through a central location.
- E. Dispose of the “Missouri Southern State College Pay To The Order Of” stamp, or ensure access to the stamp is adequately limited.

**AUDITEE’S RESPONSE:**

- A. *The college agrees with the Auditor’s recommendation. An employee with no accounts payable responsibilities has been assigned to open all mail received in the business*

*office. All checks received through the mail, including refund checks, are immediately stamped with a "Missouri Southern State College For Deposit Only" stamp and forwarded to the cashier for entry into the college's general ledger system. In addition, the accounts payable clerk is no longer responsible for reconciling refunds and credit memos from vendors to the general ledger system.*

- B.1. The college agrees with the Auditor's recommendation. The signature plate is now being stored in a lockable file cabinet in the office of the Senior Vice President. The signature plate is locked in the file cabinet at all times when it is not in use. Access to the key for the file cabinet is limited to the Senior Vice President and the Treasurer.*
- 2. The college agrees with the Auditor's recommendation. The business office plans to purchase a lockable, rolling file cabinet within one month to store signed checks kept in the business office. The file will be kept locked and access to the file cabinet will be limited to those employees serving in the cashier function.*
- 3. The college agrees with the Auditor's recommendation. An employee not responsible for preparing invoices for payment will continue to review documentation for all checks \$5,000 or greater prior to payment. In addition, the employee will select several checks for less than \$5,000 and review documentation for these checks prior to payment.*
- 4. The college agrees with the Auditor's recommendation. The business office will begin working with the computer information department immediately to make programming changes that will limit the ability to change vendor file information in the general ledger system. The ability to make vendor file changes will be removed from the functions available to the accounts payable clerk and reassigned to an employee with no accounts payable responsibilities. The college plans to complete these changes within six months.*
- C. The college agrees with the Auditor's recommendation. The bookstore has recently installed a new point-of-sale computer system and has purchased a related accounting software package that will be implemented in July 2000. After this accounting software package is implemented in the bookstore, bookstore personnel (who are independent of the accounts payable function) will be responsible for reconciling merchandise returned to refunds and credit memos received.*
- D. The college agrees with the Auditor's recommendation. The college will establish written policies and procedures for returning merchandise and obtaining credits or refunds through a central college location and will also establish controls to ensure that these policies and procedures are enforced. The college will begin the process to establish these policies and procedures immediately and will fully implement the policies and procedures within one year.*
- E. Occasionally the college receives a check that should be payable to a student or another entity. For this reason, the college wishes to retain the "Missouri Southern State College Pay To The Order Of" stamp. The stamp is now being stored with the signature plate in a lockable file cabinet in the office of the Senior Vice President. The stamp is locked in the*

*file cabinet at all times when it is not in use and access to the key is limited to the Senior Vice President and the Treasurer.*

This report is intended for the information of the management of the college, and other applicable officials. However, this report is a matter of public record and its distribution is not limited.

WASHINGTON COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-60  
July 25, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

July 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Washington, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Washington County was a financial and compliance audit of various county operating funds.

The audit includes some matters upon which the county should consider and take appropriate corrective action.

**Copies of the audit are available upon request.**

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Washington County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Washington County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

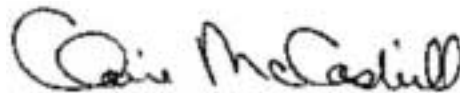

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Washington County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Washington County.

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Washington County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended

December 31, 1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated March 9, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

A handwritten signature in black ink, appearing to read "Claire McCaskill".

Claire McCaskill  
State Auditor

March 9, 2000 (fieldwork completion date)

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Washington County, Missouri

We have audited the special-purpose financial statements of various funds of Washington County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated March 9, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

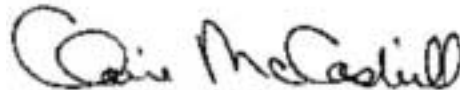

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Washington County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance, which we have reported to the management of the county in the accompanying Letter on Other Matters.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Washington County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not

necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting, which we have reported to the management of the county in the accompanying Letter on Other Matters.

This report is intended for the information of the management of Washington County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

The accompanying Notes to the Financial Statements are an integral part of this statement.

## Notes to the Financial Statements

WASHINGTON COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Washington County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, the Health Center Board, Handicapped Board, or the Senior Citizens' Service Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Sheriff's Fees Fund                      | 1999 and 1998                   |
| Domestic Violence Shelter Fund           | 1999 and 1998                   |
| Associate Circuit Division Interest Fund | 1999 and 1998                   |
| Family Access Fee Fund                   | 1999                            |
| Election Services Fund                   | 1999                            |
| Recorder's User Fee Fund                 | 1998                            |
| Industrial Development Fund              | 1998                            |
| Economic Development Tax Fund            | 1998                            |
| Landfill Fund                            | 1998                            |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Sheriff's Law Enforcement Fund           | 1999 and 1998                   |
| DARE Fund                                | 1999 and 1998                   |
| Senior Citizens' Service Fund            | 1999 and 1998                   |
| Assessment Fund                          | 1999                            |
| Prosecuting Attorney Bad Check Fund      | 1999                            |
| Prosecuting Attorney Delinquent Tax Fund | 1999                            |
| Health Center Fund                       | 1999                            |
| Law Enforcement Expense Fund             | 1998                            |
| Circuit Division Interest Fund           | 1998                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

#### D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statement for the year ended December 31, 1999, did not include the Collector's Grant Fund and the county's published financial statement for the year ended December 31, 1998, did not include the Circuit Division Interest Fund and the Associate Circuit Division Interest Fund.

## 2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The financial statements do not include the cash balances of the County Collector, who collects and distributes property taxes as an agent for various local governments. However, for the purpose of these risk disclosures, the County Collector's cash balances are included since collateral securities to cover amounts not covered by federal depository insurance are pledged to the county rather than to specific county officials.

Of the county's bank balance at December 31, 1999, \$1,169,932, was covered by federal depository insurance and \$4,345,703, was covered by collateral pledged by one bank and held in the county's name by the safekeeping department of an affiliate of the same bank holding company.

Of the county's bank balance at December 31, 1998, \$1,043,931, was covered by federal depository insurance and \$2,464,879, was covered by collateral pledged by one bank and held in the county's name by the safekeeping department of an affiliate of the same bank holding company.

The health center's deposits at December 31, 1999 were entirely covered by federal depository insurance or by collateral securities held by the health center's custodial bank in the health center's name.

Of the health center's bank balance at December 31, 1998, \$391,138 was covered by federal depository insurance or by collateral securities held by the health center's custodial bank in the health center's name and \$71,292 either was covered by collateral pledged by one bank and held in the health center's name by the safekeeping department of an affiliate of the same bank holding company or was uninsured and undercollateralized.

Furthermore, because of higher bank balances at certain times during the year, the amounts of uninsured and uncollateralized balances of the county and health center were substantially higher at those times than such amounts at year-end.

To protect the safety of county deposits, Section 110.020, RSMo 1994, requires depositaries to pledge collateral securities to secure county deposits not insured by the Federal Deposit Insurance Corporation.

The handicapped board's deposits at December 31, 1999 and 1998, were entirely covered by federal depositary insurance.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

WASHINGTON COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Washington County, Missouri, except for the programs accounted for in the Hospital Fund. Federal awards for that fund have been audited and separately reported on by other independent auditors for its years ended August 31, 1999 and 1998.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for Food Distribution (CFDA number 10.550) represent the dollar value assigned to commodities based on prices provided by the state Department of Social

Services, amounts for the Capital Assistance Program for Elderly Persons and Persons with Disabilities (CFDA number 20.513) represent the federal share of the original acquisition cost of equipment received, and amounts for Donation of Federal Surplus Personal Property (CFDA number 39.003) represent the estimated fair market value of property at the time of receipt.

The direct program amounts for Immunization Grants (CFDA number 93.268) represent the original acquisition cost of varicella (chicken pox) vaccine provided to the Health Center through the Centers for Disease Control of the U.S. Department of Health and Human Services. Of the pass-through amounts for that program, \$41,397 and \$22,484 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991) represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$2,464 and \$2,044 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

## 2. Subrecipients

The county provided no federal awards to subrecipients during the years ended December 31, 1999 and 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Washington County, Missouri

Compliance

We have audited the compliance of Washington County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. The county's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

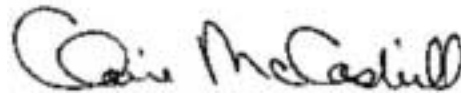

In our opinion, Washington County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998.

## Internal Control Over Compliance

The management of Washington County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information of the management of Washington County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

## **Section II - Financial Statement Findings**

This section includes no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

## **Section III - Federal Award Findings and Questioned Costs**

This section includes no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

WASHINGTON COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the three years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

WASHINGTON COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior report issued for the three years ended December 31, 1997, included no audit findings that Section .510 (a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## SECTION ON OTHER MATTERS

## WASHINGTON COUNTY, MISSOURI LETTER ON OTHER MATTERS

We have audited the special-purpose financial statements of various funds of Washington County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated March 9, 2000. We also have audited the compliance of Washington County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998, and have issued our report thereon dated March 9, 2000.

We did not review the operations of elected officials with funds other than those presented in the special-purpose financial statements. The operations of such officials will be reviewed and reported on during the state auditor's next scheduled audit of the county.

This Letter on Other Matters presents matters other than the findings, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These matters resulted from our audits of the special-purpose financial statements of Washington County and of its compliance with the types of compliance requirements applicable to each of its major federal programs but do not meet the criteria for inclusion in the written reports on compliance and on internal control over financial reporting or compliance that are required for audits performed in accordance with *Government Auditing Standards* and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Nevertheless, the county should consider these matters and take appropriate corrective action.

### 1. Schedule of Expenditures of Federal Awards

The county does not have a procedure in place to track federal awards and expenditures for the preparation of the Schedule of Federal Awards. The county's schedule contained numerous errors and omissions. For example, expenditures for some federal grants were not reported at the correct amount, and some non-monetary program amounts were not presented. Other programs reported did not include the required pass-through grantor's number.

### 2. Tax Anticipation Notes

The county had tax anticipation notes payable of \$422,000, \$472,000, and \$492,000 at December 31, 1999, 1998, and 1997, respectively, from the General Revenue Fund. The county has not had the funds to pay back the majority of the notes in one year, rather, the tax anticipation notes have been renewed annually. However, the county has not issued new notes for several years and has budgeted an additional \$50,000 payment in the 2000 budget. Section 50.070, RSMo 1994, provides that tax anticipation notes are to be payable in one year or less from the date of issuance out of current county revenues to be derived from taxes or other revenues of the county of the year in which said notes are issued.

3. County Budgets and Contracts

Disbursements were made in excess of approved budgets for some county funds and the Senior Citizens' Service Fund (See also No. 7 and No. 8). Budgets were not prepared for some special revenue funds and several misclassifications of revenues were noted. The County Commission does not have a written agreement with the Washington County Industrial Development Authority for expenditures of economic development sales tax monies which totaled \$190,000 for the two years ended December 31, 1999.

4. Personnel and Payroll Procedures

County-paid employees who handle monies are not covered by any employee bond. The Prosecuting Attorney authorized a \$500 bonus to each of his three employees in 1999 from the Prosecuting Attorney Delinquent Tax Fund.

5. Administrative Transfer

Section 50.515, RSMo 1994, authorizes the County Commission to impose an administrative service fee on the Special Road and Bridge Fund. The fee is limited to a maximum of three percent of the budget of the Special Road and Bridge Fund. However, budgeted expenditures, upon which the county calculated the transfer amount, significantly exceeded actual expenditures of the Special Road and Bridge Fund during the year ended December 31, 1999. As a result, actual transfers were \$13,604 in excess of 3 percent of actual expenditures for that year.

6. General Fixed Assets

The county does not record all necessary information on their fixed asset listings and written authorization is not obtained for disposition of assets. In addition, the county does not perform physical inventories.

7. Handicapped Board

In 1998, the Handicapped Board created a separate not-for-profit organization to provide services for the handicapped. Six of the nine Handicapped Board members became members of the separate not-for-profit organization. Section 205.970.3, RSMo 1994, indicates that the Handicapped Board may provide handicapped services themselves. The Handicapped Board president and administrator stated the reason a separate entity was formed was to be able to solicit donations from private companies and individuals. Having the same board members serve on both boards may present an appearance of a conflict of interest.

The Handicapped Board cosigned a \$100,000 loan for a not-for-profit organization to build a sheltered workshop. Currently, the Handicapped Board is making all the principal and interest loan payments totaling \$25,990 and \$27,550, respectively, for the years ended December 31, 1999 and 1998. There is no written agreement between the Handicapped

Board and the entity documenting the services to be provided and the payments to be made for the loan.

The Handicapped Board has entered into verbal agreements with various not-for-profit entities for items such as start-up projects, operating expenses and vehicle acquisition and operation. No written contracts were entered into to formalize these agreements.

The Handicapped Board accepts both bids and funding proposals for services for the developmentally disabled. The difference between these two offers of services is not clearly stated in the board's funding manual. In addition, when seeking bids and proposals, specifications are not sufficiently detailed to assure comparable responses to the board's requests.

Actual cash amounts presented on the Handicapped Fund budget did not agree to the accounting records. In addition, cash reconciliations were not prepared with the budget documents for the Handicapped Fund. Had the cash reconciliations been properly performed, the errors could have been detected.

The Handicapped Board does not record all necessary information on their fixed asset listings and physical inventories are not documented.

The Handicapped Board paid approximately \$400 for annual banquets for the board members and their guests with public funds.

Leave records are not maintained for the Handicapped Board employees.

8. Health Center

Disbursements were made in excess of approved budgets for the Health Center Fund. The amount of collateral securities pledged by depository banks at December 31, 1998 was insufficient to cover Health Center monies. The Health Center does not record all necessary information on their fixed asset listings and physical inventories are not performed. Additionally, \$300 was paid for two retirement parties.

This Letter on Other Matters is intended for the information of the management of Washington County, Missouri, and other applicable government officials. However, this letter is a matter of public record and its distribution is not limited.

REYNOLDS COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

July 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Reynolds, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

---

This audit of Reynolds County was a financial and compliance audit of various county operating funds.

The audit includes some matters upon which the county should consider and take appropriate corrective action.

**Copies of the audit are available upon request.**

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON  
THE FINANCIAL STATEMENTS**

To the County Commission  
and  
Officeholders of Reynolds County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Reynolds County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

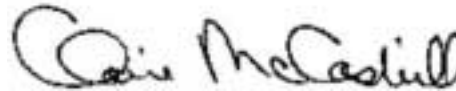

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Reynolds County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Reynolds County.

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Reynolds County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated April 18, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Reynolds County, Missouri

We have audited the special-purpose financial statements of various funds of Reynolds County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated April 18, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

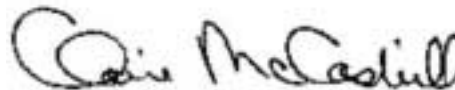

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Reynolds County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance, which we have reported to the management of the county in the accompanying Letter on Other Matters.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Reynolds County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not

necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting, which we have reported to the management of the county in the accompanying Letter on Other Matters.

This report is intended for the information of the management of Reynolds County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

## Notes to the Financial Statements

REYNOLDS COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Reynolds County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, the Health Center Board, the Senate Bill 40 Board, or the Senior Services Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Law Library Fund                         | 1999 and 1998                   |
| Children's Trust Fund                    | 1999 and 1998                   |
| Special Law Enforcement Fund             | 1999 and 1998                   |
| Emergency Grant Fund                     | 1999 and 1998                   |
| Senate Bill 40 Board Fund                | 1999 and 1998                   |
| Associate Circuit Division Interest Fund | 1999 and 1998                   |
| Sheriff's Civil Fees Fund                | 1999                            |
| Sweetwater Cemetery Trust Fund           | 1998                            |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                    | <u>Years Ended December 31,</u> |
|--------------------------------|---------------------------------|
| Circuit Clerk Interest Fund    | 1999 and 1998                   |
| General Revenue Fund           | 1999                            |
| Special Road and Bridge Fund   | 1999                            |
| Assessment Fund                | 1999                            |
| Sweetwater Cemetery Trust Fund | 1999                            |
| Senior Services Board Fund     | 1999                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements did not include the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Health Center Fund                       | 1999 and 1998                   |
| Senate Bill 40 Board Fund                | 1999 and 1998                   |
| Senior Services Board Fund               | 1999 and 1998                   |
| Circuit Clerk Interest Fund              | 1999 and 1998                   |
| Law Library Fund                         | 1999 and 1998                   |
| Associate Circuit Division Interest Fund | 1999 and 1998                   |

## 2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depositary accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The financial statements do not include the cash balances of the County Collector, who collects and distributes property taxes as an agent for various local governments. However, for the purpose of these risk disclosures, the County Collector's cash balances are included since collateral securities to cover amounts not covered by federal depositary insurance are pledged to the county rather than to specific county officials.

Of the county's bank balance at December 31, 1999, \$758,922 was covered by federal depositary insurance and \$586,497 was covered by collateral pledged by one bank and held by a correspondent bank in the name of the depositary bank's customers.

Of the county's bank balance at December 31, 1998, \$768,071 was covered by federal depositary insurance and \$571,192, was covered by collateral pledged by one bank and held by a correspondent bank in the name of the depositary bank's customers.

The Health Center Board's, the Senate Bill 40 Board's, and the Senior Services Board's deposits at December 31, 1999 and 1998, were entirely covered by federal depositary insurance.

However, because of significantly higher bank balances at certain times during the year, uninsured and uncollateralized balances existed for the Health Center Board and the Senate Bill 40 Board at those times although not at year-end.

To protect the safety of county deposits, Section 110.020, RSMo 1994, requires depositaries to pledge collateral securities to secure county deposits not insured by the Federal Deposit Insurance Corporation.

Schedule

REYNOLDS COUNTY, MISSOURI  
SCHEDULE OF FINDINGS  
YEARS ENDED DECEMBER 31, 1999 AND 1998

This schedule includes no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

REYNOLDS COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

## SECTION ON OTHER MATTERS

## REYNOLDS COUNTY, MISSOURI LETTER ON OTHER MATTERS

We have audited the special-purpose financial statements of various funds of Reynolds County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated April 18, 2000.

We did not review the operations of elected officials with funds other than those presented in the special-purpose financial statements. The operations of such officials will be reviewed and reported on during the state auditor's next scheduled audit of the county.

This Letter on Other Matters presents matters other than the findings, if any, reported in the accompanying Schedule of Findings. These matters resulted from our audit of the special-purpose financial statements of Reynolds County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*. Nevertheless, the county should consider these matters and take appropriate corrective action.

### 1. Financial Condition

Reynolds County's General Revenue Fund is experiencing a declining cash balance. During the years ended December 31, 1999 and 1998, disbursements exceeded receipts by \$28,475 and \$52,201, respectively, resulting in the General Revenue Fund cash balance decreasing from \$151,967 at January 1, 1998 to \$71,291 at December 31, 1999.

### 2. Budgets and Published Financial Statements

Formal budgets were not prepared for various county funds for the two years ended December 31, 1999. Disbursements were made in excess of approved budgets for various funds. Additionally, the county's annual published financial statements did not include the financial activity of several county funds.

### 3. County Expenditures

The county contracted with a certified professional appraiser to perform reassessment of the three lead mines at a cost of \$27,942; however proposals were not solicited. Additionally, the appraiser did not submit a formal report to the county indicating the values that were assessed.

The county does not always maintain documentation to support its decisions to not solicit bids for those purchases where it is considered impractical (i.e., sole source). Additionally, the county did not always adequately document all efforts to obtain bids for various expenditures.

The county did not retain documentation regarding the consideration of at least three engineering firms for consulting fees for bridge project BRO 090 (9) totaling \$52,614. The

county indicated that it considered three engineering firms for this project; however, the county had only one engineering firm's statement of qualifications on file.

The Sheriff's office uses a county Visa card to make various purchases. During the audit period, charges of \$689 (23 percent of total Visa expenditures) were not supported by adequate documentation. Additionally, the county has been assessed various late fees and finance charges on this account.

4. Computer Controls

Passwords are used by county employees, but are not changed on a periodic basis to ensure confidentiality.

After June 1, the County Collector makes additions and abatements to the property tax system based upon information received from the Assessor with no independent review by the County Clerk. Section 137.260 RSMo 1994, requires that the tax book only be changed by the County Clerk under order of the County Commission.

5. Personnel Policies and Procedures

The Sheriff and deputies are not required to submit invoices or expense reports to support monthly uniform allowances, and the allowances are not reported on W-2 forms. Officials or supervisors do not always sign time sheets to document approval of payroll expenditures. The Sheriff's deputies and bailiff prepare time sheets indicating five eight hour days are worked each week; however, the actual hours worked are often different than the hours recorded. Additionally, the County Clerk does not maintain adequate centralized leave records for all county employees.

6. Health Center

Receipt slips were not issued for some monies received.

The Health Center's property records have not been updated since 1997. Additionally, annual physical inventories are not conducted.

The Health Center Administrator does not sign time sheets to document approval of payroll expenditures. Documentation was not present in some employees' files indicating current salary or wage rates. Employees' leave records are not always accurately maintained. Additionally, the Health Center's policies regarding accumulation, usage, or limitation of sick leave, annual leave, and compensatory time are not formally documented.

This Letter on Other Matters is intended for the information of the management of Reynolds County, Missouri, and other applicable government officials. However, this letter is a matter of public record and its distribution is not limited.

PIKE COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-58  
July 19, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

July 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Pike, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Pike County included additional areas of county operations, as well as the elected county officials. Some of the current recommendations are similar to prior recommendations that were not implemented by county officials. The following concerns were noted as part of the audit:

- Pike County's General Revenue and Law Enforcement Sales Tax funds have been experiencing declining cash balances. These funds provide funding for most general operations of the county, and based on the county's budget for the year ended December 31, 2000, the ending cash balances of the General Revenue and Law Enforcement Sales Tax funds are projected to be a deficit of \$97,612 and \$0 respectively. The audit report suggested the County Commission take the necessary steps to improve the financial condition of the General Revenue and Law Enforcement Sales Tax funds.
- The Home Health Department bills various entities (i.e. Medicare, Medicaid, and private insurance companies) for the services provided to patients. The department did not adequately monitor unpaid billings, and, as a result, failed to receive approximately \$50,000 in Medicare reimbursements due for services provided. In addition, the billings are not always prepared in a timely manner. The audit noted that four of seven billings to private insurance companies were sent from three to five months after the service was provided. Furthermore, accounting duties are not adequately segregated and there are no documented independent reviews of the accounting records.

(over)

YELLOW SHEET

- As noted in two prior audit reports, the securities pledged by one of the county's banks at December 31, 1999, were not sufficient to cover the county funds in excess of FDIC coverage by approximately \$468,000. In addition, during January 2000 and 1999, the collateral securities pledged by the same bank were not sufficient to cover the county funds in excess of FDIC coverage by approximately \$4,700,000 and \$1,590,000, respectively. Inadequate collateral securities leave county funds unsecured and subject to loss in the event of a bank failure. For the third time it was recommended that the County Commission ensure adequate collateral securities are pledged for all county funds on deposit in excess of FDIC coverage.

As in the prior audit report, the audit again recommended that the Sheriff's Department reconcile individual balances of prisoners' monies and commissary profits to the bank account monthly and that the County Treasurer prepare complete reconciliations between the county fund ledgers and bank statements monthly and resolve any differences timely.

The audit also suggested the County Treasurer ensure the fund ledgers reflect accurate book balances, the Circuit Clerk review old bonds and old inactive cases to determine if monies can be disposed of, and that the county ensure federal monies are disbursed timely in accordance with federal law.

**Copies of the audit are available upon request.**

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Pike County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Pike County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Pike County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Pike County.

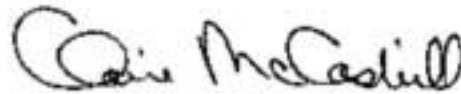

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Pike County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated March 23, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Pike County, Missouri, and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Pike County, Missouri

We have audited the special-purpose financial statements of various funds of Pike County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated March 23, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Pike County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance which are described in the accompanying Management Advisory Report.

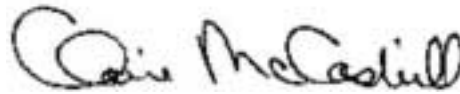

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Pike County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of

the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting which are described in the accompanying Management Advisory Report.

This report is intended for the information of the management of Pike County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

The accompanying Notes to the Financial Statements are an integral part of this statement.

## Notes to the Financial Statements

PIKE COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Pike County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed by warrant or in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting. Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Domestic Violence Fund                   | 1999 and 1998                   |
| Law Library Fund                         | 1999 and 1998                   |
| Associate Circuit Division Interest Fund | 1999 and 1998                   |
| Juvenile Assessment Fund                 | 1999 and 1998                   |
| Hospice Fund                             | 1998                            |
| Home Health Memorial Fund                | 1998                            |

Warrants issued were in excess of budgeted amounts for the Circuit Interest Fund in 1998. Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements did not include the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Circuit Interest Fund                    | 1999 and 1998                   |
| Law Library Fund                         | 1999 and 1998                   |
| Associate Circuit Division Interest Fund | 1999 and 1998                   |
| Juvenile Assessment Fund                 | 1999 and 1998                   |

2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depositary accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The financial statements do not include the cash balances of the County Collector, who collects and distributes property taxes as an agent for various local governments. However, for the purpose of these risk disclosures, the County Collector's cash balances are included since collateral securities to cover amounts not covered by federal depositary insurance are pledged to the county rather than to specific county officials.

Of the county's bank balance at December 31, 1999, \$3,593,687 was covered by federal depositary insurance or by collateral securities held by the county's custodial banks in the county's name, \$696,482 was covered by collateral pledged by one bank and held in the county's name by the safekeeping department of an affiliate of the same bank holding company, and \$468,455 was uninsured and uncollateralized.

Of the county's bank balance at December 31, 1998, \$4,316,979 was covered by federal depositary insurance or by collateral securities held by the county's custodial banks in the county's name and \$486,485 was covered by collateral pledged by one bank and held in the county's name by the safekeeping department of an affiliate of the same bank holding company.

Furthermore, because of significantly higher bank balances at certain times during the year, the amounts of uninsured and uncollateralized balances were substantially higher at those times than such amounts at year-end.

To protect the safety of county deposits, Section 110.020, RSMo 1994, requires depositaries to pledge collateral securities to secure county deposits not insured by the Federal Deposit Insurance Corporation.

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

PIKE COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Pike County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for the Donation of Federal Surplus Personal Property Program (CFDA number 39.003) represent the estimated fair market value of the property at the time of receipt.

Of the pass-through amounts for Immunization Grants (CFDA number 93.268), \$26,854 and \$25,738 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$1,598 and \$2,340 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants, the Preventive Health and Health Services Block Grant, and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

Of the federal expenditures presented in the schedule, the county provided federal awards to subrecipients as follows:

| <u>Federal<br/>CFDA Number</u> | <u>Program Title</u>  | <u>Amount Provided</u>                        |             |
|--------------------------------|---|---|-------------|
|                                |   | <u>Year Ended December 31,</u><br><u>1999</u> | <u>1998</u> |
| 14.219                         | Community Development<br>Block Grants/Small Cities<br>Program | \$ 20,252                                     | \$ 186,238  |
| 14.231                         | Emergency Shelter Grants<br>Program                           | 19,190  | 19,992      |
| 93.569                         | Community Services Block<br>Grant                             | 45,102  | 37,869      |

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

To the County Commission  
and  
Officeholders of Pike County, Missouri

Compliance

We have audited the compliance of Pike County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. The county's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Pike County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance

with OMB Circular A-133 and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

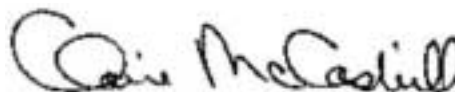

#### Internal Control Over Compliance

The management of Pike County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted a certain matter involving the internal control over compliance and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the county's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. The reportable condition is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we do not believe that the reportable condition described above is a material weakness.

This report is intended for the information of the management of Pike County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Claire McCaskill".

Schedule

PIKE COUNTY, MISSOURI  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
(INCLUDING MANAGEMENT'S PLAN FOR CORRECTIVE ACTION)  
YEARS ENDED DECEMBER 31, 1999 AND 1998

**Section I - Summary of Auditor's Results**

Financial Statements

Type of auditor's report issued: Unqualified

Internal control over financial reporting:

Material weaknesses identified?        yes    x    no

Reportable conditions identified that are  
not considered to be material weaknesses?        yes    x    none reported

Noncompliance material to the financial statements  
noted?        yes    x    no

Federal Awards

Internal control over major programs:

Material weaknesses identified?        yes    x    no

Reportable condition identified that is  
not considered to be a material weakness?    x    yes        none reported

Type of auditor's report issued on compliance for  
major programs: Unqualified

Any audit findings disclosed that are required to be  
reported in accordance with Section .510(a) of OMB  
Circular A-133?    x    yes        no

Identification of major programs:

| <u>CFDA or<br/>Other Identifying<br/>Number</u> | <u>Program Title</u>                            |
|---|---|
| 12.112  | Payments to States in Lieu of Real Estate Taxes |
| 20.205  | Highway Planning and Construction               |

Dollar threshold used to distinguish between Type A  
and Type B programs: \$300,000

Auditee qualified as a low-risk auditee?        yes   x   no

## Section II - Financial Statement Findings

This section includes no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

## Section III - Federal Award Findings and Questioned Costs

This section includes the audit finding that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

| Questioned Costs:     | Not applicable                              |

During the two years ended December 31, 1999, the county received reimbursements from the Missouri Department of Transportation for bridge replacement and rehabilitation expenditures under the Highway Planning and Construction Program - Off System Projects. The county normally pays such expenditures as the liability is incurred and prior to the reimbursement. However, we noted eleven reimbursements totaling over \$356,000 which the county held from three to ten working days before the related payment was made to the contractor.

Section 6.2.2 of the Cash Management Improvement Act Agreement between the State of Missouri and the Secretary of the Treasury, United States Department of the Treasury, states that federal funds shall be disbursed by the county within two days of receipt.

**WE RECOMMEND** the County Commission establish procedures to minimize the time elapsed between the receipt of federal monies and disbursement of such funds.

**AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

*We agree. For future reimbursements, the County Clerk will ensure these monies are disbursed within the required time period.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

PIKE COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

PIKE COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

PIKE COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Pike County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated March 23, 2000. We also have audited the compliance of Pike County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998, and have issued our report thereon dated March 23, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Because the Pike County Hospital Board, Senate Bill 40 Board, and Lincoln County Housing Authority are audited and separately reported on by other independent auditors, the related funds are not presented in the special-purpose financial statements. However, we reviewed those audit reports and the substantiating working papers for the Pike County Hospital Board for the years ended June 30, 1999 and 1998, for the Senate Bill 40 Board for the years ended December 31, 1999 and 1998, and for the Lincoln County Public Housing Authority for the years ended September 30, 1999 and 1998.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our review of the elected county officials and the county boards referred to above. In addition, this report includes findings other than those, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These findings resulted from our audit of the special-purpose financial statements of Pike County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*.

|           |                             |
|-----------|-----------------------------|
| <b>1.</b> | <b>Financial Conditions</b> |
|-----------|-----------------------------|

Pike County's General Revenue and Law Enforcement Sales Tax funds have been experiencing declining cash balances. These funds provide funding for most general operations of the county, including the activity of the Health Department, jail, and Sheriff's Office. The following chart shows receipts, disbursements, and cash balances for the two years ended December 31, 1999.

|   | General Revenue<br>Fund | Law Enforcement<br>Sales Tax Fund |
|---|-------------------------|-----------------------------------|
| Cash Balance, January 1, 1998                   | \$ 428,973              | (603)                             |
| Receipts  | 2,324,337               | 814,347                           |
| Transfers In From General Revenue Fund          | 0                       | 250,000                           |
| Disbursements                                   | (2,290,487)             | (1,007,579)                       |
| Transfers Out To Law Enforcement Sales Tax Fund | (250,000)               | 0                                 |
| Cash Balance, December 31, 1998                 | 212,823                 | 56,165                            |
| Receipts  | 2,328,420               | 748,689                           |
| Transfers In From General Revenue Fund          | 0                       | 150,000                           |
| Disbursements                                   | (2,299,702)             | (964,277)                         |
| Transfers Out To Law Enforcement Sales Tax Fund | (150,000)               | 0                                 |
| Cash Balance, December 31, 1999                 | \$ 91,541               | (9,423)                           |

In addition, based on the county's budget for the year ended December 31, 2000, the ending cash balances of the General Revenue and Law Enforcement Sales Tax funds are projected to be a deficit of \$97,612 and \$0 respectively. Contributing to the weak financial condition has been little growth in, or decreasing, receipts coupled with steady or increasing costs.

Medicare receipts at the Home Health Department have decreased from approximately \$831,000 in 1997 to approximately \$545,000 in 1999. This decrease is due to the Medicare reimbursement rate being reduced by the federal government as well as lost Medicare reimbursements due to inadequate accounts receivable monitoring procedures (see MAR

No. 6). In addition, increasing numbers of Pike County prisoners in the county jail have resulted in less space available for housing prisoners of other governments. Reimbursements for boarding of prisoners for other entities has decreased from approximately \$189,000 in 1995 when the new jail opened to approximately \$81,000 in 1999. The decrease in boarding reimbursements has contributed to required increases in the amount of General Revenue monies being transferred to the Law Enforcement Sales Tax Fund to supplement that fund's disbursements. Over the last two years \$400,000 has been transferred from the General Revenue Fund to the Law Enforcement Sales Tax Fund, compared to \$340,000 for the previous three years. An additional transfer of \$220,000 is budgeted for the year ending December 31, 2000. The General Revenue Fund's financial condition was also impacted by the required refund of over \$115,000 in local use tax monies during the current audit period which had been previously received and spent by the county.

While the county has held steady or reduced disbursements in some areas, those changes have generally not kept pace with the changes in related receipts and have been offset somewhat by increased disbursements in other areas. These include increases in salaries of county officials, totaling \$55,000 which were approved by the salary commission in 1997 and which took effect in 1999 and an increase of \$12,000 in the Prosecuting Attorney's salary which was mandated by state law.

Over the last three budget years the county has projected the General Revenue Fund to spend all expected current revenues plus the prior year's ending cash balance, effectively zero budgeting the fund and allowing much latitude to county officials for discretionary expenses. The Commission should review these budgetary controls. This should include reviewing disbursements to identify further potential reductions in discretionary expenses, ensure attempts are made to maximize all receipts, and budgeting to provide reasonable ending cash balances as a cushion against potential future financial strains.

**WE RECOMMEND** the County Commission take the necessary steps to improve the financial condition of the General Revenue and Law Enforcement Sales Tax funds.

### **AUDITEE'S RESPONSE**

*We are monitoring the financial condition on a monthly basis and will take this recommendation under further consideration.*

|                           |
|---------------------------|
| <b>2. County Deposits</b> |
|---------------------------|

The county's depository agreements require the depository banks to pledge collateral securities to cover the county's deposits. The securities pledged by one of the county's banks at December 31, 1999, were not sufficient to cover the county funds in excess of Federal Deposit Insurance Corporation (FDIC) coverage by approximately \$468,000. In addition, during January 2000 and 1999, the collateral securities pledged by the same bank were not

sufficient to cover the county funds in excess of FDIC coverage by approximately \$4,700,000 and \$1,590,000, respectively.

The county and its depository banks do not effectively monitor the balances in the accounts of the County Treasurer and County Collector to determine the sufficiency of the FDIC and collateral securities coverage. As a result, the county funds are not adequately protected.

The county should monitor its bank balances to ensure that the amounts of FDIC and collateral securities pledged are sufficient to cover all county funds. Section 110.020, RSMo 1994, requires the value of the securities pledged at all times be not less than 100 percent of the actual amount on deposit less the amount insured by the FDIC. To help ensure the securities pledged are adequate, the county should consider modifying the depository agreements to require the collateral securities pledged be sufficient to cover all county deposits. Inadequate collateral securities leave county funds unsecured and subject to loss in the event of a bank failure.

This condition was noted in our prior two audit reports.

**WE AGAIN RECOMMEND** the County Commission ensure adequate collateral securities are pledged for all county funds on deposit in excess of FDIC coverage.

### **AUDITEE'S RESPONSE**

*We agree with the recommendation and will contact the bank immediately to resolve this situation.*

**3.**

#### **County Treasurer's Reconciliations**

The County Treasurer's fund ledger is not accurate as the book balance does not take into account checks issued by the County Clerk that remain outstanding. Only checks that have cleared the bank are shown as being disbursed. In addition, the County Treasurer performs reconciliations between her fund ledger balances and the bank statement balances once every six months when the semi-annual settlement is prepared; however, differences noted are not always investigated and followed up on.

During our review, we compared bank amounts to book balances and discovered a receipt of \$4,762 and a payment of \$4,790 which were not recorded in 1999 on the fund ledger. Because these errors were similar in amount, they did not materially misstate the fund ledger balance; however, they were not discovered by the Treasurer due to lack of a complete reconciliation between the bank balances and the Treasurer's book balance.

Complete reconciliations between the bank receipts, disbursements and balances and county fund ledgers are necessary to ensure all monies have been accounted for properly. Any discrepancies noted should be investigated and resolved on a timely basis.

This condition was also noted in our prior report.

**WE AGAIN RECOMMEND** the County Treasurer prepare complete reconciliations between the county fund ledgers and bank statement balances monthly and resolve any discrepancies on a timely basis. In addition, the county fund ledgers should reflect a true book balance including any checks written by the County Clerk which remain outstanding.

**AUDITEE'S RESPONSE**

*I agree. These recommendations have now been implemented.*

|                                    |
|------------------------------------|
| <b>4. Sheriff's Inmate Account</b> |
|------------------------------------|

The Sheriff's Department receives approximately \$30,000 annually in personal monies for inmates and operates a commissary to purchase food and personal items for the prisoners. The inmate and commissary monies are maintained in the same bank account. Profits from the commissary are used to purchase recreational equipment for use by the inmates.

The total of the prisoners' monies in the Sheriff's checking account is not reconciled to the total of the recorded individual prisoner balances. Inmate balances are maintained on computer files but the balances cannot be reconciled to the total in the bank account because the account also contains the commissary monies for which no separate records are kept. To reconcile, the Sheriff's office must maintain records for the commissary account that would record sales made as well as purchases and calculate the balance of the account. Reconciliations between receipts, disbursements, and individual balances and the total in this bank account are necessary to ensure all monies received are accounted for properly and errors in recording amounts in inmate and commissary accounts are detected.

This condition was also noted in our prior report.

**WE AGAIN RECOMMEND** the Sheriff maintain records for the commissary account and reconcile the individual prisoner and commissary balances to the total of the monies in the bank account on a monthly basis.

**AUDITEE'S RESPONSE**

*I will investigate the situation. If our current resources allow, I will attempt to implement the recommendation within ninety days.*

**5.****Circuit Clerk's Procedures**

The Circuit Clerk accepts partial payments of fines and court costs and accumulates them until the entire balance has been collected. The Circuit Clerk also collects bonds on some criminal cases. Our review of the civil and criminal open-items listings noted 214 cases totaling approximately \$27,200 which were more than one year old. These older cases may contain balances insufficient to cover all fines and costs charged to the case. Also, the criminal open items noted may contain old bonds.

Regarding partial payments being held, if it appears unlikely the remaining amounts owed will be collected, a court order should be obtained to allow the balance held in the case to be prorated among the various court costs. Attorney General's Opinion No. 26, 1973 to Osborne, concluded that "If, when liability has been established, accrued costs cannot be collected in full, charges not having any statutory priority or not allocated under court rule should be prorated." Old inactive case balances increase the volume of cases which must be monitored and controlled, putting a greater burden on limited personnel resources. In addition, failure to prorate available monies when it is unlikely the balance will be collected, deprives the state and county of the use of those monies.

In addition, a review should also be made of any bonds posted by persons who failed to make the required court appearance to determine if the bonds should be forfeited and monies paid over to the county treasurer as provided by Section 479.210, RSMo 1994. For those bonds which cannot be forfeited and remain unclaimed, Section 447.595, RSMo 1994, requires bonds remaining unclaimed for one year after disposition of the case be turned over to the state's Unclaimed Property Section.

**WE RECOMMEND** the Circuit Clerk review older cases along with the Circuit Judge and determine the appropriate disposition of inactive cases. In addition, any old unclaimed bonds should be disposed of in accordance with state law.

**AUDITEE'S RESPONSE**

*I will review these older cases and talk to the Judge to determine if any of these monies can be prorated and disbursed. I also plan to talk to at least three other circuit clerks in the area to see how they are handling these cases. I will try to have implemented this recommendation within three to six months.*

**6.****Home Health Department's Records and Procedures**

- A. The Home Health Department bills various entities (ie. Medicare, Medicaid, and private insurance companies) for the services provided to patients. The majority of the department's receipts are received through the payments received from these

billings. Department receipts totaled approximately \$718,000 and \$774,000 in 1999 and 1998, respectively. Our review of the department's billing and collection procedures noted the following concerns:

1. The department did not adequately monitor unpaid billings and, as a result, failed to receive approximately \$50,000 in Medicare reimbursements due for services provided.

Billings for Medicare services are filed electronically with the Health Care Financing Administration (HCFA) and must be submitted within twelve months of the date of service. No reconciliations were performed between the department's in-house accounts receivable records and available Medicare reports to verify that all submitted claims were actually being approved and reimbursed. Due to this lack of monitoring, the department was unaware that several claims submitted for services provided in 1997 were denied by the HCFA. In 1998, when the department finally realized that these claims had actually been denied, they resubmitted them for approval; however, due to the untimely reprocessing of these claims approximately \$50,000 of their request was rejected. This loss of reimbursements has impacted the county's financial condition.

In addition, Medicare (and other) remittance advices, which document the reimbursements, are supposed to be matched with the corresponding bill when the information is posted to the department's in-house accounts receivable program used to track all patient billings and balances. However, the department has not updated the billings and related payments on this program since February 1999. Therefore, remittance advices are not being reconciled to the accounts receivable records on a timely basis and the accounts receivable balances are not accurately stated.

2. Billings are not always prepared in a timely manner. During our review of billings to private insurance companies, we noted that four of the seven billings reviewed were sent from three to five months after the service was provided.

To help ensure receipts are maximized, decrease the risk of errors or misappropriation, and provide an accurate picture of the department's financial condition, periodic reconciliations between applicable funding agency reports, bills and remittance advices should be performed, accounts receivable records should be currently maintained, and billings should be prepared in a timely manner.

- B. Accounting duties are not adequately segregated. Currently, the responsibilities of collecting, recording, and transmitting receipts, and billing for accounts receivables are assigned to one employee. There is no documented independent review of the accounting records.

To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation cannot be achieved due to limited staff, at a minimum the Home Health Administrator should periodically compare transmittals with recorded receipts. Proper supervision by the Home Health Administrator and documented reviews help ensure that financial records are properly maintained and errors are detected on a timely basis.

- C. Checks are not restrictively endorsed until they are received in the transmittal by the County Treasurer. To decrease the risk of monies being misused, checks should be restrictively endorsed immediately upon receipt.

**WE RECOMMEND** the Home Health Department:

- A. Perform periodic reconciliations between funding agency reports, bills, and remittance advices, properly maintain accounts receivable records, and prepare billings in a timely manner.
- B. Adequately segregate the record keeping duties or perform and document periodic reviews of the accounting records.
- C. Restrictively endorse checks immediately upon receipt.

**AUDITEE'S RESPONSE**

- A. *The accounts receivable problem for 1997 that resulted in the loss of \$50,000 in Medicare reimbursements was only partially due to our failure to keep accounts receivable updated. A large part of the problem was that the Providers Statistical and Reimbursement report (PS & R) from HCFA failed to show accurate data. The PS & R is a notification process that reports when an agency has different visit numbers than HCFA and which serves as a check and balance system to ensure accuracy. Other agencies have reported that their PS & R's are very inaccurate. We received no notice that this was occurring and neither did any of the other providers.*

*The fact that the loss of reimbursement has impacted the county's financial condition is true, but part of our loss for 1999 was covered with moneys from our donation account. For both 1998 & 1999 we do know what is billed and exactly what has been paid using the following procedure:*

*On a semi-annual basis, starting in December 1999, our Finance Director goes into the Medicare system and manually enters the identification number of each patient served year-to-date. This shows per screen what has been paid on every patient. She then compares that data to what we have actually received. If the system shows that something has not been paid, then we rebill. Visits are double-checked again at that time.*

*Accounts receivable postings are behind since February 1999. We knew that the system described above was a quicker and more accurate check of billed versus paid claims. The accounts receivable will be brought up to date. In the fall of 1999, the Finance Director set up a new accounts receivable system that HCFA told her needed to be done.*

*To serve as clarification as to why the accounts receivable postings fell behind from February of 1999, the accounts receivable were a primary duty of one of our secretaries until the Balanced Budget Act of 1997. The secretary was hired March 30, 1998, and this was a high priority to get the accounts receivable current. Several things happened that made us reprioritize her job. In February of 1999, HCFA mandated the implementation of the Outcome Assessment Information Set (OASIS).*

*The nurses had to collect the data (14 pages on the initial patient assessment) and turn it in within a five day window. The secretary who was working on the accounts receivable now was in charge of entering the data through the HAVEN software system to the Division of Aging. She was working on a very tight time frame. The data had to be locked in the system by day seven, which started on the day the nurse made the initial visit. The secretary no longer had time to conclude the accounts receivable postings. She had to learn a new system and keep up with it. Because OASIS data is collected at least six points, patient admission became a large job that needed one person's attention.*

*With all the Medicare cuts, we could not afford to hire additional help to normalize operations. It is important to note that home health has now become the most highly regulated industry in health care. It has taken a lot of time and money for our staff to learn, apply, and evaluate new systems that had been mandated. There have certainly been a lot of changes.*

*Regarding timeliness of private insurance billings, we realize that this is not acceptable. All private insurance billings year-to-date will be caught up by the end of the week of June 12, 2000.*

- B. Part of the accounting segregation process will be achieved by logging in all checks upon receipt in the mail. The secretary who will be in charge of this will not be the secretary who routinely does the accounting functions. Additionally, the administrator will develop into policy, internal controls to ensure proper accounting controls by periodically comparing transmittals with paid receipts.*

*The Administrator receives, on a regular basis, reports that show financial information as reflected in the general ledger. The administrator signs off on these reports, which are in the form of monthly trial balance reports. When our 2000 budget was cut by \$136,000, we then decided that it would be necessary to evaluate expense/revenue information on a weekly basis. We started this review in February of 2000, just after final budget approval.*

- C. *We have started a log-in of all money received on a daily basis. We have now implemented restrictive endorsement of checks by stamping the back of each check "Deposit Only to the County of Pike" immediately upon receipt. The secretary designated for this job is not the Finance Director.*

This report is intended for the information of the management of Pike County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on Prior Audit Findings

## PIKE COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Pike County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the two years ended December 31, 1997.

The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the county should consider implementing these recommendations.

### 1. County Expenditures

- A.1. The county received two bids for a new computer system and executed a lease/purchase agreement for hardware with the higher bidder. No documentation was maintained to support the reason for selecting the bid.
- 2. The county accepted an offer from the hardware vendor awarded the bid in A.1. to lease software for five years. Bids were not solicited for the software from any other vendor. The county began using this software in November 1996, but later learned that the software was not Y2K compatible. The vendor proposed to correct this deficiency at an extra cost to the county of more than three times the amount of the lease. The county decided to continue with the present lease through December 1999, and shop around for one that was Y2K compatible.
- B. The County Commission purchased equipment for their 911 system from two vendors but could not produce documentation showing a formal bid process.

### Recommendation:

The County Commission solicit bids for purchases in accordance with state law and ensure bid requests contain all necessary information for vendors to prepare complete and accurate bids. In addition, the County Commission should maintain complete and accurate documentation of bidding decisions. The County Commission should also consider seeking legal advice as to whether any of the additional costs related to obtaining new software and converting data can be recouped from its present software vendor.

### Status:

Partially implemented. During our review, it appeared the County Commission generally solicited bids for purchases in accordance with state law and ensured bid requests contained all necessary information for vendors to prepare complete and accurate bids. In addition, improvements in the documentation concerning bidding decisions were noted; however, documentation concerning some decisions was still lacking. The county addressed the Y2K issue during the audit period by purchasing new equipment; however, the county was not

able to recoup any of these costs from its previous software vendor. Although not repeated in our current MAR, our recommendation remains as stated above.

2. Computer System

The county did not have a formal emergency contingency plan for its computer systems.

Recommendation:

The County Commission develop a formal contingency plan for the county's computer systems.

Status:

Not implemented. However, the county indicated that there are other counties and/or organizations nearby which utilize the same computer software as Pike County. They believed that if a disaster were to occur, the county could use one of these systems. In addition, back-ups are being made by the company that provided the system and information could be recreated from those back-ups for Pike County in the event of a computer disaster. Although not repeated in the current MAR, our recommendation remains as stated above.

3. County Deposits

The county's depository banks did not meet their contractual agreement to pledge collateral securities to cover the county's deposits. As a result, the county funds were not adequately protected.

Recommendation:

The County Commission ensure adequate collateral securities are pledged for all county funds on deposit in excess of FDIC coverage.

Status:

Partially implemented. While the county's banks pledged the specific amounts of collateral securities required in the depository agreements, during January 1999, December 1999, and January 2000, one of the banks did not have sufficient collateral securities pledged to completely cover county funds. See MAR No. 2.

4. Personnel Policies and Procedures

- A. Time sheets were not always prepared by employees or maintained by the County Clerk's office. In addition, they were not always signed by the employee or the employee's supervisor.

- B. The County Clerk did not maintain centralized records of compensatory time and sick and annual leave balances for each employee. In addition, employee's annual and sick leave balances were not always correctly reported and compensatory time balances were not always calculated correctly.

Recommendation:

The County Commission:

- A. Ensure accurate and complete time sheets are prepared and maintained for all employees. The records should be prepared and signed by the employees, approved by the applicable supervisor, and filed with the County Clerk.
- B. Ensure that employee leave earned, taken and the accumulated balances are reported accurately and require the County Clerk to maintain centralized annual, sick and compensatory leave records.

Status:

A&B. Implemented.

5. Flood Control and Wildlife Refuge Distributions

Flood Control and Wildlife Refuge monies received from the federal government were not properly distributed in accordance with state law.

Recommendation:

The County Commission distribute the applicable federal monies received in accordance with Section 12.100, RSMo 1994.

Status:

Partially implemented. Wildlife Refuge and Flood Control monies were properly distributed in 1999; however, errors were noted in the distribution of Flood Control monies in January 2000. No corrections were made for the previous errors noted, but when considered with the errors made in January 2000, the accumulated differences are now insignificant. Although not repeated in the current MAR, our recommendation remains as stated above.

6. Maternal and Child Health Services Reimbursements

- A. For the year ended September 30, 1997, the Public Health Administrator submitted claims for reimbursement based upon the Medicaid-approved rates rather than upon actual costs as required by the contract. Total reimbursements exceeded actual costs by approximately \$877.

- B. The Public Health Administrator did not remit a MCH reimbursement to the County Treasurer because the Administrator was holding the check for possible return to the state pending the resolution of the cost issue discussed in part A above.

Recommendation:

The County Commission:

- A. The County Commission ensure the Public Health Department complies with the terms of the MCH contract and resolve the questioned costs with the grantor agency.
- B. Require the Public Health Administrator to remit receipts to the county treasurer daily or when accumulated receipts exceed \$100.

Status:

- A. Implemented. The county Public Health Department has resolved the questioned costs found in the prior audit. The \$877 was reimbursed to the Department of Health in January 1999. In addition, subsequent payments to the Public Health Department were based on actual costs incurred.
- B. Implemented.

7. County Treasurer's Reconciliations and Interest Allocations

- A. The County Treasurer did not perform reconciliations between the fund ledger and the bank statement balances or investigate or resolve any discrepancies in a timely manner.
- B. County Treasurer allocated interest earned on county bank accounts to various funds by a method that resulted in either too high or too low interest allocations among various funds.

Recommendation:

The County Treasurer:

- A. Prepare complete reconciliations between the county fund ledgers and bank statement balances monthly and resolve any discrepancies on a timely basis.
- B. Develop a better method to allocate interest earnings to ensure interest is allocated properly among funds.

Status:

- A. Not implemented. See MAR No. 3.
- B. Not implemented. Although not repeated in the current MAR, our recommendation remains as stated above.

8. County Collector's Procedures

- A. Incorrect unadjusted tax levies were used when computing the Proposition C ratios for some school districts.
- B. The annual settlements of the County Collector were not completed and filed timely in accordance with Section 139.160, RSMo 1994.

Recommendation:

The County Collector:

- A. Recompute commissions related to these school districts and make corrections for amounts improperly distributed to the schools and the General Revenue Fund. In addition, the Collector should ensure future Proposition C commission are computed properly.
- B. Ensure annual settlements are completed in a timely manner.

Status:

- A. Partially implemented. Proposition C commissions were computed properly for the two years ended February 28, 2000; however, corrections for previous incorrect distributions have not been made. The Collector indicated the withholding errors were discussed with the County Commission but no decision was made regarding correcting the previous errors. Although not repeated in the current MAR, our recommendation remains as stated above.
- B. Partially implemented. The annual settlement for the year ended February 28, 1999, was not completed until August 1999 and the settlement for the year ended February 28, 2000, was not completed until May 2000. Although not repeated in the current MAR, our recommendation remains as stated above.

9. Sheriff's Inmate Account

- A. The total of the prisoners' monies in the Sheriff's commissary checking account was not reconciled to the total of the individual prisoner balances.

- B. Authorization to make disbursements to inmates for refunds upon release and to vendors for commissary supplies was not properly restricted. In addition, canceled checks were not reviewed and compared to invoices for the purchase of commissary supplies and some invoices were not retained.

Recommendation:

The Sheriff:

- A. Maintain records for the commissary account and reconcile the individual prisoner and commissary balances to the total of the monies in the bank account on a monthly basis.
- B. Limit the number of individuals authorized to make disbursements from the inmate account and compare the canceled checks to the invoices for propriety. In addition, invoices should be maintained to support expenditures from the inmate account.

Status:

- A. Not implemented. See MAR No. 4.
- B. Partially implemented. Checks written by correctional officers on the inmate account are now compared to invoices by the clerk responsible for reconciling the account. In addition, invoices are maintained to support all disbursements from the account. However, the number of individuals authorized to make disbursements from the account has not been limited. Although not repeated in the current MAR, our recommendation remains as stated above.

10. County Clerk's Records and Procedures

- A. General fixed asset records were not reconciled from year to year to ensure that all additions and deletions for the period were included and that all other fixed assets were accounted for properly.
- B. General fixed assets were not numbered, tagged, or otherwise identified as county property.

Recommendation:

The County Clerk:

- A. Maintain general fixed asset records on a perpetual basis.
- B. Identify all general fixed asset items with an original cost of \$250 or more with a number, tag, or other similar device.

Status:

- A. Partially implemented. General fixed asset records are maintained on a perpetual basis and the County Clerk plans to computerize the records in the near future; however, a reconciliation is not performed from year to year. Although not repeated in the current MAR, our recommendation remains as stated above.
- B. Not implemented. The County Clerk indicated that most assets are tracked by their serial numbers, if available. Although not repeated in the current MAR, our recommendation remains as stated above.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

# PIKE COUNTY, MISSOURI HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

Organized in 1818, the county of Pike was named after Zebulon Pike, a leader of an 1818 Missouri River expedition. Pike is a county-organized, third-class county and is part of the Forty-Fifth Judicial Circuit. The county seat is Bowling Green.

Pike County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Pike County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |               | 1998      |               |
|---------------------------|--------------|---------------|-----------|---------------|
|                           | AMOUNT       | % OF<br>TOTAL | AMOUNT    | % OF<br>TOTAL |
| Property taxes            | \$ 754,736   | 18            | 724,831   | 17            |
| Sales taxes               | 1,131,501    | 26            | 1,136,387 | 27            |
| Federal and state aid     | 1,909,980    | 44            | 1,823,819 | 43            |
| Fees, interest, and other | 507,457      | 12            | 569,749   | 13            |
| Total                     | \$ 4,303,674 | 100           | 4,254,786 | 100           |

The following chart shows how Pike County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| General county government | \$ 1,013,192 | 23         | 1,013,876 | 23         |
| Public safety             | 382,344      | 9          | 467,030   | 11         |
| Public health and welfare | 1,054,166    | 24         | 1,059,581 | 24         |
| Highways and roads        | 1,948,723    | 44         | 1,822,162 | 42         |
| Total                     | \$ 4,398,425 | 100        | 4,362,649 | 100        |

The county also received approximately \$749,000 and \$814,000 for the years ended December 31, 1999 and 1998, respectively, to spend on public safety from the Law Enforcement Sales Tax Fund.

The county maintains approximately 109 county bridges and 548 miles of county roads.

The county's population was 16,928 in 1970 and 15,969 in 1990. The following chart shows the county's change in assessed valuation since 1970:

|                        | Year Ended December 31, |       |       |        |        |
|------------------------|-------------------------|-------|-------|--------|--------|
|                        | 1999                    | 1998  | 1985* | 1980** | 1970** |
|                        | (in millions)           |       |       |        |        |
| Real estate            | \$ 98.8                 | 89.1  | 82.6  | 52.0   | 40.1   |
| Personal property      | 43.6                    | 39.7  | 15.6  | 13.8   | 7.0    |
| Railroad and utilities | 41.9                    | 41.8  | 41.0  | 18.9   | 13.3   |
| Total                  | \$ 184.3                | 170.6 | 139.2 | 84.7   | 60.4   |

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Pike County's property tax rates per \$100 of assessed valuations were as follows:

|                              | Year Ended December 31, |      |
|------------------------------|-------------------------|------|
|                              | 1999                    | 1998 |
| General Revenue Fund         | \$ .25                  | .25  |
| Special Road and Bridge Fund | .29                     | .29  |
| Hospital Fund                | .22                     | .22  |
| Senate Bill 40 Board Fund    | .18                     | .18  |

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county bills and collects property taxes for itself and most other local governments. Taxes collected were distributed as follows:

| Year Ended February 28,      |              |           |
|------------------------------|--------------|-----------|
|                              | 2000         | 1999      |
| State of Missouri            | \$ 50,780    | 51,906    |
| General Revenue Fund         | 436,366      | 445,084   |
| Special Road and Bridge Fund | 488,145      | 499,236   |
| Assessment Fund              | 73,342       | 76,171    |
| Hospital Fund                | 368,055      | 376,050   |
| Senate Bill 40 Board Fund    | 301,548      | 308,584   |
| School districts             | 5,505,796    | 5,728,263 |
| Nursing Home Fund            | 5,538        | 5,207     |
| Ambulance district           | 6,965        | 6,459     |
| Fire protection districts    | 47,259       | 45,048    |
| Tax Increment District Fund  | 5,133        | 4,649     |
| Drainage district            | 14,534       | 14,507    |
| Cities                       | 78,484       | 94,252    |
| County Employees' Retirement | 24,686       | 23,490    |
| Commissions and fees:        |              |           |
| General Revenue Fund         | 110,878      | 114,251   |
| Total                        | \$ 7,517,509 | 7,793,157 |

Percentages of current taxes collected were as follows:

| Year Ended February 28, |        |        |
|-------------------------|--------|--------|
|                         | 2000   | 1999   |
| Real estate             | 82.8 % | 94.9 % |
| Personal property       | 75.8   | 93.1   |
| Railroad and utilities  | 100.0  | 98.3   |

Pike County also has the following sales taxes; rates are per \$1 of retail sales:

|                 | Rate     | Expiration Date | Required Property Tax Reduction |
|-----------------|----------|-----------------|---------------------------------|
| General         | \$ .0500 | None            | 50 %                            |
| Law Enforcement | .0500    | None            | 0                               |
| Road and Bridge | .0500    | None            | 0                               |

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below.

| Officeholder   | 2000   | 1999   | 1998   |
|--|--------|--------|--------|
| County-Paid Officials:   |        |        |        |
| Clark Pointer, Presiding Commissioner                            | \$     | 29,060 | 20,000 |
| Delbert L. Clark, Associate Commissioner                         |        | 27,060 | 20,000 |
| Harold R. Deitle, Associate Commissioner                         |        | 27,060 | 20,000 |
| Jim Ford, County Clerk   |        | 41,000 | 32,500 |
| Mark Fisher, Prosecuting Attorney                                |        | 61,500 | 43,250 |
| Jim Wells, Sheriff   |        | 38,000 | 38,000 |
| Patti Crane, County Treasurer                                    |        | 30,340 |        |
| Delores Tinsley, County Treasurer                                |        |        | 21,590 |
| Bill Sterne, County Coroner                                      |        | 6,500  | 6,500  |
| Leone Cadwallader, Public Administrator *                        |        | 16,779 | 17,707 |
| Marty Morrison, County Collector,<br>year ended February 28(29), | 41,000 |        |        |

| Total  | <u>111</u>                  | <u>5</u> |

(1) Includes a part-time assistant prosecuting attorney.

(2) Includes several part-time employees.

(3) Includes one part-time employee.

In addition, the county pays a proportionate share of the salaries of other circuit court-appointed employees. Pike County's share of the 45th Judicial Circuit's expenses is 35.6 percent.

In 1994, a new county jail was completed at a cost of approximately \$1.5 million. The county entered into a 15 year lease-purchase agreement to pay for the building. In August 1997, the county refinanced its lease-purchase agreement. As of December 31, 1999, the county still owed \$1,361,628 on the lease-purchase agreement, including \$1,075,000 in principal and \$286,628 in interest payable.

CITY OF MARSTON, MISSOURI  
YEAR ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-57  
July 19, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

July 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**Some problems were discovered as a result of an audit conducted by our office in response to the request of petitioners from the City of Marston, Missouri.**

---

The city of Marston is in poor financial condition as a result of various factors. Numerous internal control weaknesses, lax controls over expenditures, and inefficient management practices have been identified and discussed in more detail throughout our report. Because of the poor financial condition, the city has used over billings from a federal grant program to fund normal operating expenses.

The city received federal assistance from the U.S. Department of Justice under the COPS program for three additional full time officers which increased the number of city officers to four. Since March 1995, the city has received grant awards totaling \$80,007. Under the grant provisions, the city was required to provide 25 percent of the cost of employing the additional officers until the grant expires on September 30, 2000, in addition, to continuing to provide 100 percent of the cost of employing the original officer.

The city received reimbursement totaling \$64,270 for the period January 1997 through September 1999. During this time period, the city employed two or three officers (including the original officer) but included the salary of the original officer in the reimbursement request. Because the grant agreement required the city to fund 100 percent of the first officer, excess disbursements of approximately \$37,000 were claimed.

The Board of Aldermen should contact the applicable federal grantor agency to resolve this issue. In addition, the city should ensure future compliance with all federal regulations.

As noted by the city's auditor during his annual audit for the year ended December 31, 1998, loans, personal purchases, water bills and tap fees, and tractor rental fees were made to former Police Chief James Fortner and former City Collector Bridget Fortner (his wife) during the two years ended December 31, 1998.

The city's auditor identified \$4,391 in improper transactions of which \$4,060 was reimbursed to the city through salary withholdings and repayments by the Fortners. The repayments included \$1,349 from Alderman Phillips on behalf of the Fortners.

In addition, there were salary overpayments totaling \$2,815 to the Fortners during the two years ended December 31, 1998, that are not included in the above amounts. These salary overpayments and improper transactions occurred and were not detected because of the lack of authorization and review of payments by the board and the practice of signing

(over)

YELLOW SHEET

checks in advance. Although city checks required two signatures, the former Mayor routinely signed checks in advance allowing the former City Collector, Bridget Fortner, to negotiate the improper transactions and salary overpayments. The employment of Bridget and James Fortner was terminated by the city in February 1999.

For a number of years, the city has made transfers between the various funds when monies are needed to pay bills. This appears to have been a regular part of the city's operations with no consideration given to restricted monies. During the year ended December 31, 1999, transfers totaling \$35,098 were made from restricted funds (\$30,361 from the Water and Sewer Fund and \$4,737 from the Street Fund) to the General Fund. These restricted funds should not be used for general purposes. Although it appears the city paid back the restricted funds with its one cent general sales tax monies, the city should refrain from transferring restricted monies in the first place. In addition, procedures have not been established to ensure expenditures are properly allocated among the various funds benefiting from the expenditures and to ensure restricted revenues are expended only for their intended purposes.

It is essential that the city account for the various revenue sources and properly allocate expenses to the various funds. Allocation of expenses is necessary for the city to ensure the water and sewer rates are sufficient to cover the costs of providing the service without generating profits to subsidize other city services.

The city does not prepare or adopt annual budgets. Semi-annual financial statements have not been published and annual financial reports are not submitted to the State Auditor's office as required by state law.

The city has no formal bidding policy. Supporting documentation was not available for several payments to vendors. The board does not review related invoices and supporting documentation prior to signing checks. The city does not reconcile all bank accounts and does not have adequate procedures established for the petty cash fund.

Accounting and bookkeeping duties are not adequately segregated. Receipts are not recorded or deposited in a timely manner. Time sheets and leave records are not prepared and maintained on a regular basis.

Utility accounting and bookkeeping duties are not adequately segregated. Adjustments to utility accounts are not approved by the board. The number of gallons of water billed to customers is not reconciled to the number of gallons of water pumped by the city.

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

To the Honorable Mayor  
and  
Members of the Board of Aldermen  
City of Marston  
Marston, Missouri 63866

The State Auditor was petitioned under Section 29.230, RSMo, to audit the city of Marston, Missouri. Our audit of the city included, but was not limited to, the year ended December 31, 1999. The objectives of this audit were to:

1. Perform procedures we deemed necessary to evaluate the petitioners' concerns.
2. Review compliance with certain constitutional provisions, statutes, ordinances, and attorney general's opinions as we deemed necessary or appropriate in the circumstances.
3. Review certain management practices which we believe could be improved.

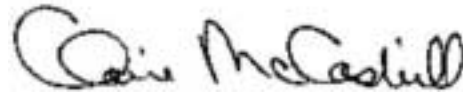

Our audit was made in accordance with generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. We also reviewed board minutes, city policies and ordinances, and various city financial records.

Our audit was limited to the specific matters described above and was based on the selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention which would have been included in this report.

The accompanying History and Organization is presented for informational purposes. This information was obtained from the city and was not subjected to the auditing procedures applied in the audit of the city.

The accompanying Management Advisory Report presents our findings and recommendations arising from our audit of the city of Marston, Missouri.

A handwritten signature in black ink, reading "Claire McCaskill". The signature is cursive and fluid, with the first name "Claire" and last name "McCaskill" clearly distinguishable.

Claire McCaskill  
State Auditor

January 14, 2000 (fieldwork completion date)

## HISTORY AND ORGANIZATION

# CITY OF MARSTON, MISSOURI HISTORY AND ORGANIZATION

The City of Marston is located in New Madrid County. The city was incorporated in 1898 as a fourth-class city. The population of the city in 1990 was 691.

The city government consists of a mayor and four-member Board of Aldermen. The four board members are elected for two-year terms. The mayor is elected for two years, presides over the board of aldermen, and votes only in case of a tie. The Mayor, Board of Aldermen, and other principal officials at December 31, 1999, were:

| <u>Elected Officials</u>                            | <u>Term Expires</u> | <u>Actual Compensation for the Year Ended December 31, 1999</u> | <u>Amount Of Bond</u> |
|---|---------------------|---|-----------------------|
| Jeff Tucker, Mayor (1)                              | April, 2000         | \$ 30   | \$                    |
| Junior Phillips, Alderman                           | April, 2001         | 120   |                       |

## MANAGEMENT ADVISORY REPORT

CITY OF MARSTON  
SUMMARY OF FINDINGS

1. Financial Condition (page 10)

The city of Marston is in poor financial condition. Because of the poor financial condition the city has used overbillings from a federal grant program to fund normal operating expenses.

2. Accounting Controls and Procedures (pages 10-12)

Accounting and bookkeeping duties are not adequately segregated. Receipts are not recorded or deposited in a timely manner. Checks were signed in advance by the previous Mayor.

3. Expenditures (pages 12-15)

The city has no formal bidding policy. Supporting documentation was not available for several payments to vendors. The board does not review related invoices and supporting documentation prior to signing checks. The city does not reconcile all bank accounts and does not have adequate procedures established for the petty cash fund.

4. Improper Transactions (pages 15-16)

Several loans, personal purchases and other improper transactions identified by the city's independent auditor were made by the former Police Chief and the former City Collector. In addition, salary overpayments totaling approximately \$2,815 were made to the former Police Chief and the former City Collector.

5. Personnel Policies and Procedures (pages 16-17)

Time sheets and leave records are not prepared and maintained on a regular basis.

6. Community Oriented Policing Services (COPS) Grant (pages 17)

The city improperly claimed and received reimbursement of approximately \$37,000 from a federal grant to which it was not entitled.

7. City Services (pages 17-19)

Utility accounting and bookkeeping duties are not adequately segregated. Adjustments to utility accounts are not approved by the board. The number of gallons of water billed to customers is not reconciled to the number of gallons of water pumped by the city. A log of miscellaneous work performed by the water and sewer department is not maintained and prenumbered billing forms are not utilized.

8. Budgets, Financial Reporting, and Minutes (pages 20-21)

The city does not prepare or adopt annual budgets. Semiannual financial statements have not been published and annual financial reports are not submitted to the State Auditor's office as required by state law.

9. Restricted Revenues (pages 21-22)

The city inappropriately transfers monies in order to pay bills without consideration of restricted use of some funds. In addition, the city does not ensure expenditures are properly allocated to the various funds of the city.

10. General Fixed Asset Records and Procedures (page 22)

The city does not maintain complete records to account for all property owned by the city. Mileage or maintenance logs are not maintained for any of the vehicles owned by the city.

11. Municipal Court (page 23)

Receipts slips are not issued for all monies received by the court. Neither the police department nor the municipal division adequately accounts for the numerical sequence and ultimate disposition of summonses issued.

CITY OF MARSTON, MISSOURI  
MANAGEMENT ADVISORY REPORT

|           |                            |
|-----------|----------------------------|
| <b>1.</b> | <b>Financial Condition</b> |
|-----------|----------------------------|

The city of Marston is in poor financial condition as a result of various factors. Numerous internal control weaknesses, lax controls over expenditures, and inefficient management practices have been identified and discussed in more detail throughout our Management Advisory Report (MAR). Because of the poor financial condition, the city has used overbillings from a federal grant program to fund normal operating expenses.

Without the continued use of the grant proceeds which have been improperly received, the city's General Fund would be operating at a deficit. The board needs to closely monitor the ongoing financial condition of the General Fund. The board should develop a plan which will allow the city to repay the overbillings and operate the General Fund with the available resources.

The Board of Aldermen needs to ensure an effective system of accounting and administrative controls are in place, including an effective financial reporting system and procedures to monitor budgeted and actual activity. The recommendations contained in the remaining MARs, if implemented will help establish these controls and procedures.

**WE RECOMMEND** the Board of Aldermen closely monitor the financial condition of the city's funds. In addition, the board should develop a plan to allow the city to repay the overbillings and operate the General Fund with the available resources.

**AUDITEE'S RESPONSE:**

*We will comply with this recommendation. We are working on a budget for the current year and will have it completed within ninety days.*

|           |   |
|-----------|---|
| <b>2.</b> | <b>Accounting Controls and Procedures</b> |
|-----------|---|

- A. The City Collector performs all accounting and record keeping duties of the city and essentially serves as City Treasurer and City Clerk as well as City Collector. While the Board of Aldermen has appointed one of its members as City Clerk, it appears that individual is not involved in the accounting or record keeping of the city records. The City Collector collects all receipts, prepares deposits, reconciles the bank accounts, and serves as secretary to the board. Neither the board nor other personnel independent of the cash custody and record-keeping functions provide adequate supervision or review of the work performed by the City Collector. A similar comment was made by the city's auditor during the previous annual audit. Attorney General's Opinion No. 24, 1995 to Dodds, concluded that in a fourth class

city the holding of the positions of City Clerk, City Treasurer, and City Collector, or any two of these three offices, by the same person at the same time would be incompatible. One person holding all of these offices does not allow the separation of duties necessary for a proper evaluation and review of financial transactions. The current procedures jeopardize the system of independent checks and balances intended by the state law.

To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls could be improved by segregating duties to the extent possible. In addition, the board should require someone independent of the cash custody and record keeping functions to perform periodic reconciliations of receipts to deposits, invoice files to checks issued, and review bank statements and bank reconciliations.

- B. Receipts are not deposited intact on a timely basis. Some receipts were held up to twelve days before being deposited. In addition, checks and money orders are not restrictively endorsed immediately upon receipt and are kept in an unsecured location.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, deposits should be made intact daily or when accumulated receipts exceed \$100. In addition, checks should be restrictively endorsed immediately upon receipt and kept in a secure location until deposited.

- C. Checks issued on the bank accounts require two signatures. Prior to February 1999, checks were occasionally signed in advance by the previous Mayor. Currently, the Mayor as well as two Aldermen are authorized to sign checks; however, none of these officials are bonded.

Signing checks in advance does not allow for proper review of the documentation to support the disbursement and diminishes the control intended by dual signatures. In addition, failure to bond all persons with access to assets exposes the city to risk of loss.

- D. Receipts are not promptly recorded from the receipt book and water and sewer billing stubs to the daily receipt ledger. Some receipt slips were not recorded on the daily receipt ledger for up to twelve days.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, all receipts should be promptly recorded on the accounting records. In addition, the original receipt slips should be reconciled to the daily receipt ledger, and any discrepancies promptly investigated.

**WE RECOMMEND** the Board of Aldermen:

- A. Provide for an adequate segregation of duties or the performance of independent reconciliations and reviews of the accounting records and procedures.
- B. Ensure all receipts are deposited intact daily or when accumulated receipts exceed \$100. In addition, all checks and money orders should be restrictively endorsed immediately upon receipt and receipts stored in a secure location.
- C. Discontinue the practice of signing checks in advance, and obtain bond coverage for all persons with access to city assets.
- D. Promptly record receipts to the daily receipt ledger, reconcile receipt slips to the ledger and promptly investigate any discrepancies.

**AUDITEE'S RESPONSE:**

- A. *We plan to hire a second person in the office to separate duties. The City Clerk/Collector position will be separate. Closer reviews will be made by Mayor of the financial statements.*
- B. *Daily receipts will be deposited intact. Checks and money orders will be stamped for deposit only immediately upon receipt.*
- C. *This practice is not one of this administration. Bond coverage for all those authorized to sign checks will be obtained.*
- D. *Receipts will be recorded daily.*

|           |                     |
|-----------|---------------------|
| <b>3.</b> | <b>Expenditures</b> |
|-----------|---------------------|

- A. The city does not have a formal bidding policy. As a result, the decision of whether to solicit bids for a particular purchase is made on an item-by-item basis. Bids were either not solicited or bid documentation was not retained in some instances, including \$19,877 for a police car, \$21,433 for trash service, \$12,302 for workers compensation insurance, and \$3,000 for a dump truck.

A formal bidding policy for major purchases based on specified dollar amounts would provide a more efficient framework for economical management of city resources and help ensure the city receives fair value by contracting with the lowest and best bidders.

Competitive bidding also helps ensure all parties are given an equal opportunity to participate in the city's business. Bids may be handled by telephone quotation, by written quotation, by sealed bid, or by advertised bid. Various approaches are appropriate, based on dollar amount and type of purchase. Whichever approach is

used, complete documentation should be maintained of all bids received and the reasons noted why the bid was selected.

- B. Vendor invoices or other supporting documentation were not retained for some expenditures. These expenditures included \$493 to Wal-Mart and \$123 to a local general store. All expenditures should be supported by paid receipts or vendor invoices to ensure the obligation was actually incurred and the expenditures represent appropriate uses of public funds.
- C. The Board of Aldermen does not review and approve the payment of city expenditures prior to the disbursement being made. Although the board minutes make a general reference that invoices are approved for payment, a listing of all disbursements is not prepared to accompany the minutes.

To adequately document the board's review and approval of all disbursements, a complete listing of bills should be prepared, signed or initialed by the board to denote its approval and retained with the official minutes. In addition, supporting documentation should be reviewed by the Board of Aldermen before payment is made to ensure all disbursements represent valid operating costs of the city.

- D. The city has charge accounts set up at several local businesses for the purchase of items such as gas, supplies, and miscellaneous items. Some of the purchases billed to the city included clothing, toys, headbands, soda, and lunch for employees. The city does not monitor the amounts charged to ensure the items are for city business only. In addition, on some occasions the city charged items on behalf of an individual or club; however, the city does not maintain adequate records to ensure that the city is reimbursed.

Procedures have not been established to govern the use of these charge accounts and to ensure the accounts are only used for business purposes. In addition, procedures have not been established to ensure the amounts charged on the behalf of others are paid in full.

Since the city of Marston is recognized as a governmental entity, it is tax exempt. It does not appear proper for the city to allow its employees or other individuals to benefit from the use of the city's tax exempt status. Doing so violates the terms of the city's sales tax exemption letter.

- E. The city did not effectively monitor the balances of several bank accounts and often issued checks when sufficient funds were not available. During the two years ended December 31, 1999, bank charges in the amount of \$325 were assessed against the city for insufficient fund checks. To prevent the city from incurring unnecessary bank charges, the city should maintain and monitor check book balances for all accounts.

- F. The city has maintained a petty cash fund of approximately \$100 for miscellaneous purchases. The fund was not operated on an imprest basis until July 1999. During the two years ended December 31, 1998, checks made payable to cash totaled at least \$1,766 which the city has indicated were used to replenish the petty cash fund. During that same time, invoices or receipts were not available to support expenditures of the fund totaling \$827 and a ledger was not maintained to document disbursements. In addition, expenditures totaling approximately \$130 were noted that did not appear to be a prudent use of public funds (items such as flowers, sodas and lunches for employees). The fund is entirely under the control of the City Collector and no independent review is made to ensure it is maintained properly.

**WE RECOMMEND** the Board of Aldermen:

- A. Establish formal bidding policies and procedures. In addition, documentation of the bidding process should be maintained in all cases.
- B. Require adequate supporting documentation for all expenditures.
- C. Review and approve all expenditures of city funds prior to the disbursements being made. In addition, the approval of disbursements should be adequately documented by including a listing of all approved disbursements in the board minutes.
- D. Establish a policy to limit the use of the charge accounts for business purposes and prohibit the practice of allowing employees to charge personal items.
- E. Maintain checkbook balances for all accounts and ensure procedures are in place to eliminate bank overdraft charges.
- F. Ensure the petty cash fund is periodically counted and reconciled to the imprest balance by an independent person. Invoices should be maintained for all petty cash expenditures and a ledger should be prepared of all petty cash transactions. In addition, the board should ensure disbursements are a necessary and prudent use of public funds.

**AUDITEE'S RESPONSE:**

- A. *A formal bidding policy will be adopted.*
- B&E. *We agree with the recommendations.*
- C. *We will attempt to follow this recommendation.*
- D. *The practice of employees charging to the city's account has been prohibited.*
- F. *This has been implemented.*

**4.****Improper Transactions**

As noted by the city's auditor during his annual audit for the year ended December 31, 1998, loans, personal purchases, water bills and tap fees, and tractor rental fees were made to former Police Chief James Fortner and former City Collector Bridget Fortner (his wife) during the two years ended December 31, 1998.

|                              |                |
|------------------------------|----------------|
| Loans and personal purchases | \$4,041        |
| Water bill                   | 50             |
| Water & sewer tap fee        | 150            |
| Tractor Rental               | <u>150</u>     |
| Total                        | <u>\$4,391</u> |

|             |                |
|-------------|----------------|
| Repaid 1997 | \$ 761         |
| Repaid 1998 | 1,394          |
| Repaid 1999 | <u>1,905</u>   |
| Total       | <u>\$4,060</u> |

The city's auditor identified \$4,391 in improper transactions of which \$4,060 was reimbursed to the city through salary withholdings and repayments by the Fortners. The repayments included \$1,349 from Alderman Phillips on behalf of the Fortners.

In addition, there were salary overpayments totaling \$2,815 to the Fortners during the two years ended December 31, 1998, that are not included in the above amounts. These salary overpayments and improper transactions occurred and were not detected because of the lack of authorization and review of payments by the board and the practice of signing checks in advance (see MAR 2.C.). Although city checks required two signatures, the former Mayor routinely signed checks in advance allowing the former City Collector, Bridget Fortner, to negotiate the improper transactions and salary overpayments. The employment of Bridget and James Fortner was terminated by the city in February 1999.

The Board of Aldermen has no statutory authority to make loans and Article VI, Section 23, of the Missouri Constitution, specifically prohibits counties, cities, or other political subdivisions of the state from granting public money or things of value to any corporation, association, or individual.

**WE RECOMMEND** the Board of Aldermen review the salary overpayments and improper transactions and work with law enforcement officials regarding any criminal prosecution and to obtain restitution of the remaining amounts due the city. In addition, the board should discontinue the practice of loaning monies to individuals and develop adequate review procedures for authorizing payroll amounts.

**AUDITEE'S RESPONSE:**

*We will attempt to recover monies due the city through prosecution if necessary.*

*Former Police Chief James Fortner and former City Collector Bridget Fortner provided the following response:*

*All of the loans, personal purchases and related transactions were approved by the city. The city had full knowledge of all of the above amounts, which were noted on our check stubs when the repayments were made.*

*The city authorized additional payments on numerous occasions without documenting the amounts in the minutes for working alone without any assistance.*

|   |
|---|
| <b>5. Personnel Policies and Procedures</b> |
|---|

- A. The City Collector, police officers, and maintenance employees do not prepare time sheets or daily activity logs on a regular basis. In addition, time sheets that were prepared were not consistently signed by the employee and do not indicate review and approval by the supervisor.

Time sheets are necessary to document hours actually worked, substantiated payroll expenditures, and provide the board with a method to monitor hours worked. The city should require all employees to prepare detailed time sheets which are reviewed and approval by a supervisor.

- B. The city does not maintain records of vacation, sick leave, and compensatory time earned, taken, or accumulated for each employee. Adequate documentation of vacation and sick leave earned, taken, and accumulated is necessary to ensure employees are properly compensated for accumulated leave and to ensure leave time used is not in excess of time accumulated.

**WE RECOMMEND** the Board of Aldermen:

- A. Require all city employees to prepare time sheets reflecting the actual time worked. In addition, time sheets should be signed by the employee and the applicable supervisor.
- B. Maintain accurate records of vacation, sick leave, and compensatory time in a manner that provides a complete record of the amount of time earned, taken, and any accumulated balances.

**AUDITEE'S RESPONSE:**

- A. *Time clock and/or time sheets are being used by all employees.*

B. *This has been implemented beginning in January 1999.*

|   |
|---|
| <b>6. Community Oriented Policing Services (COPS) Grant</b> |
|---|

The city received federal assistance from the U.S. Department of Justice under the COPS program for three additional full time officers which increased the number of city officers to four. Since March 1995, the city has received grant awards totaling \$80,007. Under the grant provisions, the city was required to provide 25 percent of the cost of employing the additional officers until the grant expires on September 30, 2000, in addition, to continuing to provide 100 percent of the cost of employing the original officer.

The city received reimbursement totaling \$64,270 for the period January 1997 through September 1999. During this time period, the city employed two or three officers (including the original officer) but included the salary of the original officer in the reimbursement request. Because the grant agreement required the city to fund 100 percent of the first officer, excess disbursements of approximately \$37,000 were claimed.

The Board of Aldermen should contact the applicable federal grantor agency to resolve this issue. In addition, the city should ensure future compliance with all federal regulations.

**WE RECOMMEND** the Board of Aldermen consult with the grantor agency to resolve this issue. In addition, the Board of Aldermen should ensure future compliance with all federal regulations and only claim reimbursement for allowable costs.

**AUDITEE'S RESPONSE:**

*We will be contacting the Department of Justice and will ensure compliance in the future.*

|                         |
|-------------------------|
| <b>7. City Services</b> |
|-------------------------|

The city provides water and sewer to approximately 300 customers. Our review of the billing and receipt process and internal controls indicated the following areas in need of improvement.

- A. The City Collector is responsible for billing, collecting, and recording all utility payments. Neither the board nor other personnel independent of the billing and collection functions provide adequate supervision or an independent review of the work performed by the City Collector.

To safeguard against possible loss or misuse of funds, internal controls should provide for reasonable assurances that all transactions are accounted for properly and assets are adequately safeguarded. An adequate system of internal controls requires

segregation of duties. The Board of Aldermen should, at a minimum, designate someone independent of the process to perform and document periodic reviews of the records and procedures.

- B. The city has a computerized billing system for the water and sewer customers. This system automatically records adjustments made to the monthly utility bills to an adjustments sheet. The City Collector made numerous adjustments for incorrect water usage amounts or leaks. While the reasons to adjust the billings may be valid, it appears most adjustments are made at the discretion of the City Collector and are not formally reviewed by the Mayor or the board.

To ensure all adjustments to water and sewer billings are proper, the Mayor or Board of Aldermen should review and approve all billing adjustments.

- C. The city does not reconcile the total gallons of water billed to customers to total gallons of water pumped. The City Collector receives water usage information for each account and the water personnel record meter readings of the city's water well, so information is available to perform such reconciliations. During the month of March 1999, the gallons of water pumped exceeded the total gallons billed by 1,754,550 gallons, or 44 percent. Over one-third of the loss is between the city's well and water tower which the city has indicated is due to flushing out the system and known leaks.

To help detect significant water loss on a timely basis and to help ensure all water usage is properly billed, the city should reconcile the total gallons of water pumped to the gallons of water billed on a monthly basis and investigate significant differences. The Public Service commission generally recommends investigation if water usage not billed exceeds 15 percent.

- D. The city receives cash, checks and money orders for the payment of utility bills. The city will issue a receipt slip for the payment only if the utility stub does not accompany the payment. In most instances, the utility stubs serve as the city's receipt slip. However, the method of payment (cash, check, money order, etc.) is not consistently recorded on the utility stub.

To ensure the proper handling and safeguarding of city monies, the method of payment should be indicated on the utility stubs and the composition of receipts should be reconciled to the amounts deposited.

- E. The city's water and sewer department performs miscellaneous services (brush hog and backhoe service, water and sewer connections) for the city businesses and residents. The water and sewer department does not keep a log of work performed nor is a prenumbered billing form utilized for the services provided.

To ensure all work performed is properly billed, a log should be prepared by the

water and sewer department. In addition, prenumbered billing forms should be utilized and accounted for by the city.

**WE RECOMMEND** the Board of Aldermen:

- A. Adequately segregate the accounting duties of the City Collector or designate someone independent of the process to perform and document periodic reviews of the records and procedures of the water and sewer billings.
- B. Ensure adjustments to water and sewer billings are reviewed and approved by the Mayor or Board of Aldermen.
- C. Compare the gallons of water pumped to the gallons of water billed on a monthly basis and investigate significant differences.
- D. Require the City Collector to record the method of payment on utility stubs and reconcile them to the amounts deposited.
- E. Require the water and sewer department to prepare a log of all work performed. In addition, prenumbered billing forms should be utilized and accounted for by the city.

**AUDITEE'S RESPONSE:**

- A. *This will be implemented when we segregate the duties of the City Clerk/City Collector.*
- B. *This will be implemented by the Mayor or the water/sewer commissioners.*
- C. *We will attempt to monitor closer when the new water system is in place.*
- D. *This has been implemented.*
- E. *This will be implemented.*

|   |
|---|
| <b>8. Budgets, Financial Reporting, and Minutes</b> |
|---|

- A. The city does not prepare and adopt annual budgets. Section 67.010, RSMo 1994, requires the preparation of an annual budget which shall present a complete financial plan for the ensuing year.

A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific cost and revenue expectations for each area of city operations. A budget can also provide a means to effectively monitor actual costs by periodically comparing budgeted amounts to actual expenditures. A complete budget should include separate revenue and

expenditure estimations by fund, and include the beginning available resources and reasonable estimates of ending available resources. The budget should also include a budget message and comparison of actual or estimated revenues and expenditures for the two preceding fiscal years.

- B. The city has not published semiannual financial statements as required by state law. Section 79.160, RSMo 1994, requires the Board of Aldermen to prepare and publish semiannual statements. These financial statements are to include a statement of receipts and expenditures and indebtedness of the city for the preceding six month period. In addition, Section 79.165, RSMo 1994, states the city cannot legally disburse funds until the financial statement is published.
- C. The city does not consistently submit annual financial reports to the State Auditor's Office as required by state law. The last financial report submitted was for the year ended December 31, 1997. Section 105.145, RSMo 1994, requires political subdivisions to file an annual report of the financial transactions of the political subdivision with the State Auditor's Office.
- D. The board minutes are prepared by the City Collector, but the minutes are not signed. The board minutes should be signed by the City Collector as preparer and by the Mayor to provide an independent attestation that the minutes are a correct record of the matters discussed and actions taken during the board's meetings.

**WE RECOMMEND** the Board of Trustees:

- A. Prepare annual budgets in compliance with state law, and make periodic comparisons between budgeted and actual revenues and expenditures.
- B. Publish semiannual financial statements as required by state law.
- C. Submit annual financial reports to the State Auditor's Office as required by state law.
- D. Ensure board minutes are signed by the preparer and Mayor or a designated member of the board to attest to their accuracy.

**AUDITEE'S RESPONSE:**

- A. *This has been done in past and will be reinstated.*
- B-D. *These will be implemented.*

|                               |
|-------------------------------|
| <b>9. Restricted Revenues</b> |
|-------------------------------|

For a number of years, the city has made transfers between the various funds when monies

are needed to pay bills. This appears to have been a regular part of the city's operations with no consideration given to restricted monies. During the year ended December 31, 1999, transfers totaling \$35,098 were made from restricted funds (\$30,361 from the Water and Sewer Fund and \$4,737 from the Street Fund) to the General Fund. These restricted funds should not be used for general purposes. Although it appears the city paid back the restricted funds with its one cent general sales tax monies, the city should refrain from transferring restricted monies in the first place. In addition, procedures have not been established to ensure expenditures are properly allocated among the various funds benefiting from the expenditures and to ensure restricted revenues are expended only for their intended purposes.

It is essential that the city account for the various revenue sources and properly allocate expenses to the various funds. Allocation of expenses is necessary for the city to ensure the water and sewer rates are sufficient to cover the costs of providing the service without generating profits to subsidize other city services. Furthermore, the uses of certain funds, such as state motor vehicle-related revenues, are limited by state law for specified purposes. Therefore, documentation and proper allocation of expenses is useful for both management and compliance purposes.

Because the city has not properly accounted for the various revenue sources and has transferred restricted monies inappropriately to various funds, it is likely current balances maintained in various city funds are not correct. The board should determine if appropriate adjustments can be determined.

**WE RECOMMEND** the Board of Aldermen discontinue transferring restricted revenues and ensure all expenditures are properly allocated to the various funds. In addition, the board should review the current balances and make corrections as necessary.

**AUDITEE'S RESPONSE:**

*Attempts will be made to eliminate the transfers and repay any applicable transfers made in the past.*

|   |
|---|
| <b>10. General Fixed Asset Records and Procedures</b> |
|---|

- A. The city does not maintain complete records to account for all property owned by the city. Property records should be maintained on a perpetual basis, accounting for property acquisitions and dispositions as they occur. The record should include a detailed description of the assets including the name, make and model numbers, and asset identification number, the physical location of the assets, and the date and method of disposition of the assets when disposed of. In addition, all property items should be identified with a tag or other similar device, and the city should conduct annual inventories.

Adequate general fixed asset records are necessary to secure better internal control

and safeguard city assets which are susceptible to loss, theft, or misuse, and provide a basis for determining proper insurance coverage required on city property.

- B. The city does not maintain mileage or maintenance logs for any of the vehicles owned by the city. Mileage logs are necessary to document appropriate use of the vehicles and to support gasoline charges. The mileage and maintenance logs should include the purpose and destination of each trip, the daily beginning and ending odometer readings, and the operation and maintenance costs. These logs should be reviewed by a supervisor to ensure vehicles and equipment are used only for city business, are being properly utilized, and help identify vehicles and equipment which should be replaced. Information on the logs should be reconciled to gasoline purchases and other maintenance charges.

**WE RECOMMEND** the Board of Aldermen:

- A. Ensure property records are maintained which include all pertinent information for each asset such as tag number, description, cost, acquisition date, location, and subsequent disposition. Additionally, the city should properly tag, number, or otherwise identify all applicable city property and conduct an annual inventory.
- B. Maintain mileage and maintenance logs for all city vehicles.

**AUDITEE'S RESPONSE:**

- A. *We will attempt to follow this recommendation.*
- B. *This will be maintained.*

|                            |
|----------------------------|
| <b>11. Municipal Court</b> |
|----------------------------|

- A. Receipt slips were not issued for some monies received. During the period March 1999 to July 1999, receipts totaling \$308 were deposited, for which receipts slips had not been issued. Failure to issue receipt slips for all monies received increases the risk that loss or misappropriation of funds will not be detected in a timely manner.
- B. Neither the police department nor the municipal division adequately accounts for the numerical sequence and ultimate disposition of summonses issued. Without a proper accounting of the numerical sequence and ultimate disposition of summonses, the police department and the municipal division cannot be assured all summonses are submitted to the court for processing.

A similar condition was noted in our prior audit report of the municipal division.

**WE RECOMMEND** the city of Marston Municipal Division:

- A. Issue receipt slips for all monies received.
- B. Work with the police department to account for the numerical sequence and ultimate disposition of all summonses.

**AUDITEE'S RESPONSE:**

*A&B. This has been implemented.*

This report is intended for the information of the city's management and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

July 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

The following audit report presents our findings and recommendations for certain municipal divisions of the Thirty-First Judicial Circuit. During our audit, we identified accounting records, controls, and certain management practices which we believe could be improved. The municipal divisions in which specific findings and recommendations were noted are listed below:

|                             |                    |

## FINANCIAL SECTION

## State Auditor's Reports

CLAIRE C. McCASKILL  
Missouri State Auditor

INDEPENDENT AUDITOR'S REPORT ON  
THE FINANCIAL STATEMENTS

Presiding Judge  
and  
Municipal Judges  
Thirty-First Judicial Circuit

We have audited the accompanying special-purpose financial statements of the various municipal divisions (other than the city of Battlefield Municipal Division as of and for the years ended June 30, 1999 and 1998) of the Thirty-First Judicial Circuit as of and for the years ended December 31, 1999 and 1998; September 30, 1999 and 1998; and June 30, 1999 and 1998, as identified by municipality and fiscal period in the table of contents. These special-purpose financial statements are the responsibility of the municipal divisions' management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

Except as discussed in paragraphs four through six, we conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of the municipal divisions of the Thirty-First Judicial Circuit and are not intended to be a complete presentation of the financial position and results of operations of the municipal divisions.

Internal controls and accounting records of the city of Republic Municipal Division were inadequate. Records accounting for the numerical sequence and ultimate disposition of each traffic ticket issued by the police department were not maintained. As a result, we were unable to satisfy ourselves by appropriate audit tests or other means as to receipts and disbursements beyond amounts recorded in the municipal division's records for the years ended December 31, 1999 and 1998.

Internal controls and accounting records of the city of Willard Municipal Division were inadequate. Receipt slips were not issued for some monies received. In addition, records accounting for the numerical sequence and ultimate disposition of each traffic ticket issued by the police department were not maintained.

As a result, we were unable to satisfy ourselves by appropriate audit tests or other means as to receipts and disbursements beyond amounts recorded in the municipal division's records for the years ended December 31, 1999 and 1998.

Internal controls and records accounting for bond refunds of the city of Springfield Municipal Division were inadequate. In addition, records accounting for the numerical sequence and ultimate disposition of each traffic ticket issued by the police department were not maintained. As a result, we were unable to satisfy ourselves by appropriate audit tests or other means as to receipts and disbursements beyond amounts recorded in the municipal division's records for the years ended June 30, 1999 and 1998.

In our opinion, except for the effects, if any, on the financial statements of the matters discussed in the preceding three paragraphs, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of the municipal divisions (other than the city of Battlefield Municipal Division as of and for the years ended June 30, 1999 and 1998) of the Thirty-First Judicial Circuit as of and for the years ended December 31, 1999 and 1998; September 30, 1999 and 1998; and June 30, 1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

We also had planned to audit the special-purpose financial statement of the city of Battlefield Municipal Division as of and for the years ended June 30, 1999 and 1998. This special-purpose financial statement is the responsibility of the municipal division's management.

As a result of internal control weaknesses, inadequate records, and evidence of fraud, we were unable to satisfy ourselves by appropriate audit tests or other means as to receipts and disbursements of fines, court costs, and bonds for the years ended June 30, 1999 and 1998.

Because of the effects of the matters discussed in the preceding paragraph, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on the special-purpose financial statement of the city of Battlefield Municipal Division as of and for the years ended June 30, 1999 and 1998.

In accordance with *Government Auditing Standards*, we also have issued our report dated February 22, 2000, on our consideration of the municipal divisions' internal controls over financial reporting and on our tests of their compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the municipal divisions' management and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

A handwritten signature in black ink, appearing to read 'Claire McCaskill', with a large, stylized initial 'C'.

**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

Presiding Judge  
and  
Municipal Judges  
Thirty-First Judicial Circuit

We have audited the special-purpose financial statements of the various municipal divisions (other than the city of Battlefield Municipal Division as of and for the years ended June 30, 1999 and 1998) of the Thirty-First Judicial Circuit as of and for the years ended December 31, 1999 and 1998; September 30, 1999 and 1998; and June 30, 1999 and 1998, and have issued our report thereon dated February 22, 2000. That report expressed a qualified opinion on the special-purpose financial statements of the municipal divisions of the city of Republic and the city of Willard as of and for the years ended December 31, 1999 and 1998, and the city of Springfield Municipal Division as of and for the years ended June 30, 1999 and 1998. Except as discussed in the report on the financial statements of the municipal divisions referred to in the preceding sentence, we conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

We also had planned to audit the special-purpose financial statement of the city of Battlefield Municipal Division as of and for the years ended June 30, 1999 and 1998, and have issued our report thereon dated February 22, 2000. In that report we did not express an opinion on the special-purpose financial statement.

Compliance

As part of obtaining reasonable assurance about whether the special-purpose financial statements of the various municipal divisions of the Thirty-First Judicial Circuit are free of material misstatement, we performed tests of the municipal divisions' compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no material instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain other instances of noncompliance which are presented in the accompanying Management Advisory Report.

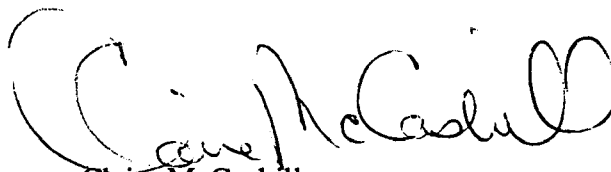

## Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of the various municipal divisions of the Thirty-First Judicial Circuit, we considered the municipal divisions' internal controls over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal controls over financial reporting. However, we noted certain matters involving the internal controls over financial reporting and their operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal controls over financial reporting that, in our judgement, could adversely affect the municipal divisions' ability to record, process, summarize, and report financial data consistent with the assertions of management in the special-purpose financial statements.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal controls over financial reporting would not necessarily disclose all matters in the internal controls that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we noted certain matters involving the internal controls over financial reporting and their operation that we consider to be material weaknesses, and these matters are presented in the accompanying Management Advisory Report.

This report is intended for the information of the management of the various municipal divisions of the Thirty-First Judicial Circuit and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

Claire McCaskill  
State Auditor

February 22, 2000 (fieldwork completion date)

The accompanying Notes to the Financial Statements are an integral part of this statement.

THIRTY-FIRST JUDICIAL CIRCUIT  
MUNICIPAL DIVISIONS  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present only selected data for the funds administered by the various municipal divisions of the Thirty-First Judicial Circuit of the state of Missouri.

Receipts, disbursements, and changes in cash are presented for each municipal division. The operating costs of each division are paid by the respective municipality, the county, or the state of Missouri, as applicable, and are not included in the financial statements.

The municipal division is responsible for cash bonds posted until case disposition allows appropriate disbursement. Bond monies relating to pending cases, whether in the custody of the city or the municipal division, are included in these financial statements.

B. Basis of Accounting

The Statements of Receipts, Disbursements, and Changes in Cash are prepared on the cash basis of accounting; accordingly, amounts are recognized when they are received or disbursed. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Fiscal Authority and Responsibility

The municipal divisions account for fines and court costs resulting from prosecution of violations of municipal ordinances before the municipal judge or received through the traffic violations bureau, as well as cash bonds posted. Municipal violations could include traffic offenses, both moving and nonmoving; parking meter and overtime parking offenses; and other violations for which amounts are received by the municipal divisions and remitted to the city treasury. The municipal divisions also may account for restitutions received and disbursed through the divisions.

2. Cash

Section 479.080, RSMo 1994, requires municipal divisions to deposit fines and court costs into the city treasury at least monthly. Some divisions maintain bank accounts into which fines and court costs are deposited and later remitted to the city treasury. Other divisions do not maintain bank accounts, transmitting fines and court costs directly to the city treasury. Escrow bank accounts for bond monies received may be maintained by the city or the municipal division.

At the financial statement dates identified in the table of contents for the years ended 1999 and 1998, all bank account balances reported for the municipal divisions of the Thirty-First Judicial Circuit were entirely covered by federal depositary insurance.

3. Disbursements to State

The municipal divisions collect various amounts that must be remitted to the state of Missouri. These amounts include 80 percent of the court costs for cases heard by an Associate Circuit Judge, the judgement for the Motorcycle Safety Trust Fund, and the surcharges for the Crime Victims' Compensation and Services to Victims Funds, the Peace Officer Standards and Training Commission Fund and the Statewide Court Automation Fund. The state's portion of these amounts are deposited into the city treasury for all municipal divisions, except the municipal divisions of the city of Battlefield and the city of Willard. Amounts remitted by the cities to the state are not included in the financial statements.

4. City of Battlefield-Missing Funds

Fines, court costs, and bonds totaling at least \$7,874 which court records indicate were received by the City of Battlefield Municipal Division but not deposited, are included in receipts and are presented as unaccountable disbursements on the financial statement for the years ended June 30, 1999 and 1998.

5. City of Springfield

Bonds posted by defendants for the city of Springfield Municipal Division are deposited directly into the municipal division bond account, and a check for the full amount of the bond is written to the defendant after the disposition of the case. These checks are sometimes endorsed by the defendant back to the municipal division to be used to pay fines and costs assessed. Amounts in excess of the fines and costs assessed are then refunded to the defendant in cash. The amounts refunded to defendants in cash could not be readily determined. The refund amount reflected in the financial statements would include the entire amount of the original check.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Current Recommendations

THIRTY-FIRST JUDICIAL CIRCUIT  
MUNICIPAL DIVISIONS  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S CURRENT RECOMMENDATIONS

We have audited the special-purpose financial statements of the various municipal divisions (other than the City of Battlefield Municipal Division as of and for the years ended June 30, 1999 and 1998) of the Thirty-First Judicial Circuit as of and for the years ended December 31, 1999 and 1998; September 30, 1999 and 1998; and June 30, 1999 and 1998, and have issued our report thereon dated February 22, 2000. That report expressed a qualified opinion on the special-purpose financial statements of the municipal divisions of the city of Republic and the city of Willard as of and for the years ended December 31, 1999 and 1998, and the city of Springfield Municipal Division as of and for the years ended June 30, 1999 and 1998.

We also had planned to audit the special-purpose financial statement of the city of Battlefield Municipal Division as of and for the years ended June 30, 1999 and 1998, and have issued our report thereon dated February 22, 2000. In that report we did not express an opinion on the special-purpose financial statement.

The following Management Advisory Report presents our findings and recommendations arising from our audit of the municipal divisions' special-purpose financial statements. During our audit, we also identified certain management practices which we believe could be improved. Our audit was not designed or intended to be a detailed study of every system, procedure, and transaction. Accordingly, the findings presented in the following report should not be considered as all-inclusive of areas where improvements may be needed.

|           |   |
|-----------|---|
| <b>1.</b> | <b>City of Ash Grove Municipal Division</b> |
|-----------|---|

- A. The duties of receiving, recording, and depositing court receipts are not adequately segregated. Currently, the Court Clerk performs all of these duties. In addition, there is no supervisory review performed of the Court Clerk's functions by an independent person. Specifically, there is no independent reconciliation between receipts and deposits.

To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurances that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving and depositing court monies from that of recording receipts. If proper segregation of duties cannot be achieved, at a minimum there should be a supervisory review of reconciliations between receipts and deposits to the city treasury.

- B. The municipal division accepts cash, checks, and money orders for fines and court costs and deposits monies directly to the city treasury. The Court Clerk does not always record the method of payment on the receipts ledger and there is no independent comparison of the composition of receipt slips issued to amounts deposited. To ensure receipts are deposited intact, the method of payment should be recorded on receipt slips, and the composition of receipt slips issued should be reconciled to the composition of monies deposited to the city treasury.

- C. The \$5 Crime Victims Compensation (CVC) fee and the \$2 Law Enforcement Training (LET) fee, are assessed on dismissed cases. Sections 595.045 and 590.140, RSMo Cumulative Supp. 1999, require these fees be charged on all court cases for violations of municipal ordinances, except for cases dismissed by the court.

Conditions similar to parts B. and C. were also noted in our prior report.

**WE RECOMMEND** the city of Ash Grove Municipal Division:

- A. Adequately segregate the duties of receiving, recording, and transmitting court monies. At a minimum, there should be a documented supervisory review of reconciliations between receipts and deposits to the city treasury.
- B. Indicate the method of payment on the receipts ledger and reconcile the composition of receipt slips to the composition of monies deposited.
- C. Assess CVC and LET fees in accordance with state law.

**AUDITEE'S RESPONSE:**

*The Court Clerk provided the following responses:*

- A. *The judge will periodically compare recorded receipts to deposits and document his review. This recommendation will be implemented immediately.*
- B. *We currently indicate the method of payment on the receipt ledger; however, this was not done on a few receipts during the course of this audit. We are currently double checking our receipt ledger to ensure the method of receipts is always indicated.*
- C. *This recommendation has been implemented.*

|  |
|--|
| <b>2. City of Battlefield Municipal Division</b> |
|--|

During our audit of the various municipal divisions of the Thirty-First Judicial Circuit, we noted a cash shortage existed in the city of Battlefield Municipal Division. A separate report was issued by the State Auditor's office on April 19, 2000, for the city of Battlefield Municipal Division and concluded that court monies totaling \$11,524 were collected by the court from July 1, 1995 through August 6, 1999, and were not deposited into the municipal division bank account. Recommendations concerning internal controls and accounting records of the city of Battlefield Municipal Division were included in that report and are not included in this report.

**3.**

**City of Fair Grove Municipal Division**

We noted the following concerns relating to deferred payments:

- A. The municipal division allows defendants to pay fines and costs over a period of time. However, a control ledger is not maintained showing the total amount due which can be reconciled to the case files. A control ledger would allow the court to monitor the amounts due to the court and could aid in the collection of amounts owed. In addition, the case files should be reconciled periodically to the control ledger.
- B. The municipal division does not require defendants to sign a deferred payment contract when they are allowed to pay fines and costs over a period of time. A written and signed payment agreement is necessary to indicate the intent of the defendant to pay fines and costs, and to aid in accounting for and collecting the amounts due to the municipal division.

**WE RECOMMEND** the city of Fair Grove Municipal Division:

- A. Maintain a control ledger which shows balances owed to the court and periodically reconcile the control ledger to the individual case files.
- B. Obtain payment agreements from each defendant.

**AUDITEE'S RESPONSE:**

*The Court Clerk provided the following responses:*

- A. *We have implemented this recommendation.*
- B. *We are currently creating a form to document deferred payment agreements. We hope to have this recommendation implemented within the next three months.*

**4.**

**City of Republic Municipal Division**

- A. Fines, court costs, and bonds are occasionally received from the defendant before the related traffic ticket is received from the police department. The clerk does not record or transmit these monies to the city until the related traffic ticket is received. At September 29, 1999, the division held \$474 of these unrecorded payments. To adequately safeguard receipts and reduce the risk of loss or misuse of funds, all receipts should be recorded immediately upon receipt, and deposits should be made daily or when accumulated receipts exceed \$100.

- B. Formal bank reconciliations have not been prepared for the municipal division's bond bank account since December 1998. In addition, a running checkbook balance is not recorded in the bond check register.

To ensure all differences between the bank and book balances are noted in a timely manner, bank reconciliations should be performed monthly and a running balance should be maintained in the check register.

- C. We noted the following concerns related to open items (liabilities):

1. The Court Clerk does not prepare monthly listings of open items (liabilities). At our request, a listing was prepared as of December 31, 1999, and reconciled to the cash balance. A monthly listing of open items is necessary to ensure accountability over open cases and to ensure monies held in trust by the municipal division are sufficient to meet liabilities.
2. The municipal division has not implemented adequate procedures to follow up on cash bonds held for over one year. As of December 31, 1999, the balance of the municipal division's bond account included bond receipts totaling approximately \$4,386 which have been held in excess of one year.  
An attempt should be made to determine the proper disposition of these monies. A review should be made of any bonds posted by persons who failed to make the required court appearance to determine if the bonds should be forfeited and monies paid over to the city treasury, as provided by Section 479.210, RSMo 1994. For those bonds which cannot be forfeited and remain unclaimed, Section 447.595, RSMo 1994, requires cash bonds remaining unclaimed for one year after disposition of the case be turned over to the state's Unclaimed Property Section.
3. Interest earned on the bond account totaling \$398 from February 1998 to December 1998 was not disbursed to the city until April 1999. In addition, interest totaling \$318 earned during 1999 is still being held by the municipal division. Accumulated interest should be periodically turned over to the City Treasurer for deposit in the city's general account .

- D. Neither the police department nor the municipal division maintains records to account for traffic tickets issued and their ultimate disposition. The police department maintains a log of tickets issued, but the tickets are not listed in numerical order, and the disposition is not indicated.

Without a proper accounting of the numerical sequence and ultimate disposition of tickets, the police department and the court cannot be assured that all tickets issued are properly submitted to the municipal division for processing. A log listing each ticket number in numerical order, the date issued, and the violator's name would ensure all tickets issued have been submitted to the court for processing, properly voided, or not prosecuted. In addition, a record should be maintained accounting for the ultimate disposition of each ticket to ensure all tickets have been accounted for properly.

- E. CVC and Peace Officer Standards and Training Commission (POSTC) fees collected by the municipal division are deposited in the city treasury. The city is responsible for

remitting the CVC and POSTC fees due to the state; however, the city has not remitted these fees to the state since August 1998.

As of December 31, 1999, at least \$10,500 of CVC collections and \$2,200 of POSTC collections for the period September 1998 through December 1999 are due to the state.

Section 595.045.3, RSMo 1994, requires 95 percent of the CVC fee be paid monthly to the state. POSTC fees should also be disbursed monthly to the state.

- F. The court does not file monthly reports with the city of all cases heard in court. Section 479.080.3, RSMo 1994, requires the Court Clerk to prepare monthly listings of all cases heard in court, including all fines and court costs collected, to be verified by the Court Clerk or the Municipal Judge, and filed with the city's governing body.
- G. The Court Clerk collects fines and court costs, and the police officers collect bond monies. These employees are not bonded. Failure to properly bond all persons with access to assets exposes the municipal division and city to risk of loss.

Conditions similar to parts A, C.1, C.2, and C.3. were also noted in our prior report.

**WE RECOMMEND** the city of Republic Municipal Division:

- A. Record monies immediately upon receipt, and deposit monies daily or when accumulated receipts exceed \$100.
- B. Prepare monthly bank reconciliations and maintain a running check register balance.
- C.1. Prepare monthly listings of open items, and reconcile the listing to the reconciled bank balance.
- 2. Dispose of unclaimed bonds in accordance with state law, and periodically review outstanding bonds to determine if the payees can be located. If payees cannot be located, the monies should be disbursed to the state's Unclaimed Property Section in accordance with state law.
- 3. Periodically disburse accumulated interest to the City Treasurer for deposit in the city's general account.
- D. Work with the police department to ensure records are maintained to account for the numerical sequence and ultimate disposition of all tickets.
- E. Ensure CVC and POSTC fees collected are remitted to the state in accordance with state law. In addition, the municipal division should request the city disburse outstanding CVC and POSTC fees to the state.
- F. Prepare monthly reports of court actions and file these with the city in accordance with state law.
- G. Request that the city consider obtaining adequate bond coverage for all persons handling court monies.

### **AUDITEE'S RESPONSE:**

*The Municipal Judge and Court Clerk provided the following responses:*

- A. This was only done temporarily. When the current clerk took over, the court did not accept payments, and the city could not input payments until the court put the case in the computer. At the time in question, the court could not put a case in the computer until it received the original ticket from the Police Department. The checks that were held were for tickets in cases where the defendant had paid prior to the court receiving the original ticket from the Police Department. This is no longer the practice in the court, and in fact has not been since the day it was mentioned as a problem by the Auditor's staff. Since that time, payments have been processed on the day received and no payments are held waiting on tickets any longer.*
- B. All bond account statements were reconciled and current as of the last visit from the Auditor's office. A running balance is now kept in the bond ledger.*
- C.1. The current clerk had never prepared an open items listing, and was unaware one was required to be kept. The court now keeps an open items listing which is updated at the end of each month.*
  - 2. Due to prior record-keeping procedures, when the current staff took over at the court, they were unable to determine what money in the account belonged to whom. The court is currently in the process of attempting to locate the persons who are owed money. When those attempts are exhausted, unclaimed funds will be remitted to the state as suggested and required. This is an ongoing project that is time and labor intensive as some of the bonds date back over 12 years. Due to the small staff of the court, this may take some time to resolve, but will be corrected with due diligence. We hope to have this account cleaned up by the end of the summer.*
  - 3. Interest will now be distributed quarterly to the city.*
- D. The court can produce reports, by ticket number, for any given time period after January 1, 1999, and any range of tickets. This report lists all tickets received in a given time period, by ticket number. Tickets that are never received by the court are of course, not included, as the court has no control whatsoever over those tickets. The court is unaware of what type of internal controls the police department has for monitoring the tickets in their charge, but the court feels it is inappropriate to hold the court accountable in an audit report for issues related to a completely different agency. We agree to discuss this issue with the police department, and hope to have this matter resolved within 60 days.*
- E. Due to problems with a previous clerk, personnel changes, and computer software changes, apparently payments were being sent to an incorrect address and returned. Additionally, a computer software problem caused over 1/3 of the courts 1999 cases to post incorrect fees for POSTC and LET funds. Currently, City Hall is working with their independent auditor and the court to determine the correct amounts to distribute to the State. We hope to have this resolved within the next thirty days.*
- F. The court had previously offered these reports to the city's Director of Finance and Administration but they were declined due to a lack of storage space. The court was*

*unaware it was statutorily required to do this, and will comply from this point forward as suggested. Our first monthly report will be for June, 2000.*

- G. *The Court Clerk is now bonded by Old Republic Insurance Company. The court has no knowledge or control over bonding of police officers, but will forward this concern to the appropriate persons at the Police Department for their consideration.*

|  |
|--|
| <b>5. City of Springfield Municipal Division</b> |
|--|

- A. Fine and court cost monies are occasionally received from the defendant before the related traffic ticket is received from the city prosecutor. The division does not record or deposit these monies until the related traffic ticket is received. At September 14, 1999, the division held \$4,481 of these unrecorded payments. To adequately safeguard receipts and reduce the risk of loss or misuse of funds, all receipts should be recorded immediately upon receipt, and deposits should be made daily or when accumulated receipts exceed \$100.
- B. The police department does not maintain records to account for all traffic tickets. The police department maintains a log of ticket books assigned to officers; however, records are not maintained for each ticket issued. In addition, ticket books are not always assigned in numerical order.

Without proper accounting of the numerical sequence and disposition of traffic tickets, the police department and the court cannot be assured that all tickets issued were properly submitted to the court for processing. A log listing the ticket books assigned to the officers, each ticket number, the date issued, and violator's name would help ensure all tickets issued are properly submitted to the court for processing, properly voided, or not prosecuted. In addition, a record should be maintained of the ultimate disposition of each ticket to ensure all tickets have been accounted for properly.

- C. We noted the following concerns relating to bonds:
1. Refund checks for the full amount of the bond are prepared immediately after court, and the Court Clerk refunds the full amount of the bond to the defendant. If the bond refund check is to be applied to the fines and court costs, the defendant endorses the check over to the court and receives any refund in cash. This procedure of cashing bond refund checks does not allow fines and court costs to be deposited intact.  
  
To ensure fines and court costs are deposited intact, the court should discontinue the practice of cashing bond refund checks. To accomplish this, the court should issue the refund checks only for the amount of the difference between the fines and court costs due and the total bond posted. The amounts applied toward the fines and court costs should be separately transferred from the bond account to the city treasury.
  2. Bond forms issued by the police department serve as the receipt slip to the defendant; however, these bond forms are not prenumbered. To properly account

for all bond receipts, prenumbered receipt slips or bond forms should be issued for all bonds and the numerical sequence should be accounted for properly.

- D. Defendants who pay fines and court costs over a period of time are required to sign an agreement noting the amount due and the date by which fines and court costs will be paid. We noted several instances in which the defendant was delinquent in making a payment, and a warrant had not been issued.

Adequate procedures are necessary to ensure proper and timely follow-up action is taken on amounts due the municipal division.

Conditions similar to parts A and B. were also noted in our prior report.

**WE RECOMMEND** the city of Springfield Municipal Division:

- A. Record receipts immediately upon receipt and deposit receipts daily or when accumulated receipts exceed \$100.
- B. Work with the police department to ensure traffic ticket books are assigned to officers in numerical order and records are maintained to account for the numerical sequence and ultimate disposition of all traffic tickets.
- C.1. Issue separate checks to defendants for the amounts of the bond refunds and to the city for the amount of fines and court costs after case disposition is determined. In addition, the practice of cashing bond refund checks out of other court collections should be discontinued.
2. Work with the police department to ensure prenumbered receipt slips or bond forms are issued for all bond monies received and account for the numerical sequence.
- D. Ensure appropriate action is taken on all cases with balances due the municipal division.

**AUDITEE'S RESPONSE:**

*The Chief Municipal Judge and Court Administrator provided the following responses:*

- A. *Springfield Municipal Court began logging mail-in receipts manually September 20, 1999. We are working toward developing a program that will work with our current system. We hope to have the automated system implemented within the calendar year 2001.*
- B. *We will notify the police department of the auditor's recommendation and encourage them to comply.*
- C.1. *Effective June 6, 2000, the court will issue the refund checks for the amount of the difference between the fines and court costs due and the total bond posted. The amounts applied toward the fines and court costs will be separately transferred from the bond account to the city treasury.*
2. *We will notify the police department of the auditor's recommendation and encourage them to comply.*

- D. *A new program was implemented March 1, 2000, that ensures appropriate action is taken on all cases with balances due the municipal division.*

|  |
|--|
| <b>6. City of Strafford Municipal Division</b> |
|--|

The municipal division allows defendants to pay fines and costs over a period of time. A control ledger accounting for the balances due from defendants has not been established. In addition, the municipal division does not always require defendants to sign a deferred payment contract when they are allowed to pay fines and costs over a period of time. The Court Clerk prepared a receivable listing from case files as of September 1999 totaling over \$11,000.

A control ledger would assist the court in determining the correct balance due from each defendant and could aid in subsequent collection efforts. In addition, a written and signed payment agreement is necessary to indicate the intent of the defendant to pay fines and costs, and to aid in accounting for the collecting amounts due to the municipal division. The court files documenting the partial payment agreements should be reconciled to the control ledger periodically to ensure all partial payments received and amounts due the court are properly recorded.

**WE RECOMMEND** the city of Strafford Municipal Division establish a control ledger for amounts due from defendants and periodically reconcile it to court orders permitting partial payments.

**AUDITEE'S RESPONSE:**

*The City Clerk indicated that this recommendation has been implemented.*

|   |
|---|
| <b>7. City of Walnut Grove Municipal Division</b> |
|---|

The court issues rediform receipt slips for monies rather than official prenumbered receipt slips. As a result, receipt slips are not specifically printed for the court which reduces the assurance that all receipt books are accounted for properly. To adequately account for all receipts, official prenumbered receipt slips should be issued for all monies received and reconciled to bank deposits.

A similar condition was also noted in our prior report.

**WE RECOMMEND** the city of Walnut Grove Municipal Division issue official prenumbered receipt slips for all monies received and reconcile receipts to bank deposits.

**AUDITEE'S RESPONSE:**

*The City Clerk/Court Clerk indicated that it is not economically feasible for the court to implement this recommendation. The cost was checked into and provided to the board and they feel like it would be a waste of taxpayer dollars.*

- A. The following concerns were noted regarding receipts:
1. The municipal division accepts cash, checks, and money orders for the payment of fines, court costs, and bonds. The method of payment received was not consistently recorded on receipt slips. To ensure receipts are deposited intact, the method of payment (cash, check, or money order) should be indicated on the receipt slips and the composition of monies received should be reconciled to the composition of monies deposited.
  2. Some fines and court cost receipts are not deposited on a timely basis. Receipts are deposited approximately weekly. To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, receipts should be deposited daily or when accumulated receipts exceed \$100.
  3. Receipt slips were not issued for some monies received, and voided receipt slips are not always retained. To adequately account for all monies received, prenumbered receipt slips should be issued for all monies received. Also, to help properly account for the numerical sequence of receipt slips, voided receipt slips should be retained.
- B. We noted the following concerns related to the court costs and other fees assessed by the municipal division:
1. The court charges a \$10 fine for each seat belt violation and also assesses \$20 in court costs and fees. Section 307.178.5, RSMo Cumulative Supp. 1999, states a fine not to exceed \$10 may be imposed and no court costs shall be imposed on any person for a seat belt law violation.
  2. CVC and POSTC fees collected by the municipal division are disbursed to the city monthly. The city is responsible for remitting the CVC and POSTC fees due to the state; however, the city was not remitting CVC and POSTC collected on amended charges. Section 595.045.3, RSMo 1994, requires 95 percent of the CVC fee to be paid monthly to the state. POSTC fees should also be disbursed monthly to the state.
- C. Neither the police department nor the municipal division maintains records to account for the numerical sequence and ultimate disposition of traffic tickets issued. The police department maintains a log of ticket books assigned to officers; however, records accounting for each ticket issued are not maintained.

Without a proper accounting for the numerical sequence and ultimate disposition of tickets, the police department and the municipal division cannot be assured all tickets issued are properly submitted to the court for processing. A log listing each ticket issued in numerical sequence, the date issued, and the violator's name would help ensure all tickets issued were properly submitted to the court for processing, properly voided, or not prosecuted.

In addition, a record of the ultimate disposition of each ticket should be maintained to ensure all tickets have been accounted for properly.

- D. The city has established a formal schedule of fines and court costs to be collected on tickets paid to the Court Clerk; however, the fines and court costs are not always collected consistently. During our review, fines and court costs collected for eight of the thirty-seven cases tested did not agree to the schedule.

To ensure fine and costs amounts are properly charged, the Court Clerk should collect amounts at the Violations Bureau that are in agreement with the fine and cost schedule.

Conditions similar to parts A.2. and A.3. were also noted in our prior report.

**WE RECOMMEND** the city of Willard Municipal Division:

- A.1. Indicate the method of payment on receipt slips and reconcile total cash, checks, and money orders received to bank deposits.
- 2. Deposit receipts daily or when accumulated receipts exceed \$100.
- 3. Issue prenumbered receipt slips for all monies received and retain all voided receipt slips.
- B.1. Assess fines for seatbelt violations in accordance with state law.
- 2. Ensure CVC and POSTC fees collected are remitted to the state in accordance with state law. In addition, the municipal division should determine the amount of CVC and POSTC collected on amended charges and make the appropriate payment to the state.
- C. Work with the police department to ensure records are maintained to account for the numerical sequence and ultimate disposition of all tickets issued.
- D. Collect fines and costs paid in accordance with the established fines and costs scheduled.

**AUDITEE'S RESPONSE:**

*The city's Chief Financial Officer and Court Clerk provided the following responses:*

*A.1,3,  
B.1,C*

*& D. This has now been implemented.*

*A.2. We now deposit daily.*

*B.2. The city has determined all CVC and POSTC fees due to the state and remitted these fees. All CVC and POSTC fees on amended charges are now included with our regular monthly remittance.*

This report is intended for the information of the management of the various municipal divisions of the Thirty-First Judicial Circuit and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on State Auditor's Prior Recommendations

THIRTY-FIRST JUDICIAL CIRCUIT  
MUNICIPAL DIVISIONS  
FOLLOW UP ON STATE AUDITOR'S PRIOR RECOMMENDATIONS

This section reports follow-up action taken by the municipal divisions of the Thirty-First Judicial Circuit on recommendations made in the Management Advisory Report (MAR) of our report issued for the two years ended 1995 and 1994, and our report for the city of Republic, Missouri for the year ended March 31, 1997. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR.

THIRTY-FIRST JUDICIAL CIRCUIT  
MUNICIPAL DIVISIONS  
TWO YEARS ENDED 1995 AND 1994

1. City of Ash Grove Municipal Division

- A.1. The method of payment was not always indicated on receipt slips.
- 2. Receipts were not always deposited intact.
- 3. Receipts were not always deposited on a timely basis.
- B. The court assessed the \$5 Crime Victims Compensation (CVC) fee and \$2 Law Enforcement Training (LET) fee on dismissed cases and the \$2 LET fee on nonmoving violations.

Recommendations:

The city of Ash Grove Municipal Division:

- A.1. Indicate the method of payment on all receipt slips issued and reconcile totals h , checks, a n d money orders receive d to b a n k deposit s.
- 2. Deposit all monies intact. In addition, the city should discontinue cashing personal checks with official receipts and maintain the change fund at a constant amount.
- 3. Deposit receipts daily or when accumulated receipts exceed \$100.
- B. Discontinue charging the \$5 CVC and \$2 LET fees on dismissed cases and the \$2 LET fee on nonmoving traffic violations, as required by state law.

Status:

A.1. Not implemented. See MAR No. 1.

A.2

&3. Implemented

B. Based on statutory changes effective July 1, 1997, LET fees are to be collected on all cases including nonmoving traffic violations. CVC and LET fees are still charged on dismissed cases. See MAR No. 1.

2. City of Battlefield Municipal Division

During our audit of the various municipal divisions of the Thirty-First Judicial Circuit, we noted a cash shortage existed in the city of Battlefield Municipal Division.

A separate report was issued by the State Auditor's office on April 19, 2000 for the city of Battlefield Municipal Division and concluded that monies totaling at least \$11,524 were collected by the court from July 1, 1995 through August 6, 1999, and were not deposited into the municipal division bank account. The follow-up actions taken by the city of Battlefield Municipal Division were included in that report and are not included in this report.

3. City of Fair Grove Municipal Division

A. Court costs were not distributed in accordance with state law.

B. The TVB schedule of court costs did not include a listing of all offenses that may be paid prior to the court date.

Recommendations:

The city of Fair Grove Municipal Division:

A. Remit court costs to the state and county in accordance with state law.

B. Establish a schedule of offenses and the related fines and court costs which may be collected at the TVB, and prominently post this schedule at the TVB.

Status:

A&B. Implemented.

4. City of Republic Municipal Division

A.1. Receipts were not deposited on a timely basis.

2. Receipts were not deposited intact. Personal checks were cashed from official receipts, and restitution payments were disbursed in cash.

3. Receipts were not issued for cash bonds received from the police department.

4. The court issued rediform receipt slips for monies received.

- B.1. Some bond monies were held in cash pending court disposition and refunded in cash.
- 2. Bond forms were not prenumbered.
- 3. Bonds were not transmitted to the municipal division on a timely basis.
- 4. Monthly open items (liabilities) were not prepared.

Recommendation:

The city of Republic Municipal Division:

- A.1. Deposit receipts daily or when accumulated receipts exceed \$100.
- 2. Deposit receipts intact and reconcile total receipt slips issued to bank deposits. In addition, all restitution disbursements should be made by check, and the court should discontinue cashing personal checks with official receipts.
- 3. Issue prenumbered receipt slips to the police department for cash bonds.
- 4. Issue official prenumbered receipt slips for all monies received and account for the numerical sequence.
- B.1. Deposit all bonds into the bond bank account. Subsequent disbursements of the bonds should be made by check.
- 2. Request the police department to issue prenumbered receipt slips or bond forms for all bond monies received and account for the numerical sequence.
- 3. Request the police department to transmit bond receipts daily or when accumulated receipts exceed \$100.
- 4. Prepare monthly listings of open items (liabilities) and reconcile these listings to monies held in trust.

Status:

A.1&

B.4 Not implemented. See MAR No. 4.

A.2-4,

B.1-3. Implemented.

5. City of Springfield Municipal Division

- A. The police department did not maintain records to account for all traffic tickets, and ticket books were not always assigned to officers in numerical order.

- B.1. Bond monies received from the police department before the related traffic ticket was received from the city prosecutor were not recorded or deposited until the ticket was received.
- 2. The method of bond payments received was not always recorded correctly on daily receipt reports.
- 3. Procedures have not been implemented to routinely follow up on bonds remaining on hand over one year.
- C. The court assessed the \$5 CVC fee and \$2 LET fee on dismissed cases and nonmoving violations.

Recommendations:

The city of Springfield Municipal Division:

- A. Work with the police department to ensure traffic ticket books are assigned to officers in numerical order and records are maintained to account for the numerical sequence and ultimate disposition of all traffic tickets.
- B.1. Record all bonds immediately upon receipt and deposit all bond receipts daily.
- 2. Correctly indicate the method of payment on daily receipt reports and reconcile the composition of daily receipt reports to the composition of bank deposits.
- 3. Attempt to locate those defendants who have a cash bond due them and remit the bond amount. Bonds remaining unclaimed should be disposed of in accordance with state law. Procedures should be established to routinely follow up on cash bonds remaining on hand over one year.
- C. Discontinue charging the \$5 CVC and \$2 LET fees on dismissed cases and nonmoving traffic violations, as required by state law.

Status:

A &

- B.1. Not implemented. See MAR No. 5.

B.2&

- B.3. Implemented.

- C. Implemented. CVC and LET fees are no longer charged on dismissed cases. Based upon statutory changes effective July 1, 1997, LET fees are to be collected on all cases including nonmoving traffic violations.

6. City of Strafford Municipal Division

- A. The Court Clerk did not prepare monthly reports of all cases heard in court.

- B.1. The court issued rediform receipt slips and the receipts were not consecutively numbered.
- 2. Checks and money orders were not restrictively endorsed until deposits were prepared.
- C. Neither the municipal division nor the police department maintained records to account for all traffic tickets and complaint forms.
- D.1. Court costs for cases heard by the Associate Circuit Judge were not assessed or distributed in accordance with state law.
- 2. The Peace Officer Standards and Training Commission (POSTC) fee was not turned over to the state on a monthly basis.
- 3. The court did not disburse the state's portion of the CVC fees or the statewide court automation fees to the state director of revenue on a monthly basis.
- 4. The court did not charge CVC, LET or POSTC fees on nontraffic ordinance violations.
- E. The filing system for traffic tickets was inadequate.

Recommendations:

The city of Strafford Municipal Division:

- A. Prepare monthly reports of court actions, including fines and costs collected, and file these with the city governing body in accordance with state law.
- B.1. Issue official prenumbered receipt slips for all monies received and account for the numerical sequence.
- 2. Restrictively endorse all checks and money orders immediately upon receipt.
- C. Work with the police department to ensure traffic ticket books and complaint forms are assigned to officers in numerical order and records are maintained to account for the numerical sequence and ultimate disposition of all traffic tickets and complaint forms.
- D.1. Collect \$15 court costs on cases heard by the Associate Circuit Judge and remit court costs to the state and county in accordance with state law.
- 2. Determine the amount of POSTC fees due to the state and remit this amount to the state. Future disbursements should be made monthly in accordance with state law.
- 3. Remit CVC and court automation fees to the state monthly in accordance with state law.
- 4. Collect CVC, LET, and POSTC fees on nontraffic ordinance violations in accordance with state law.
- E. Maintain files of all traffic tickets and case information in accessible order.

Status:

A-C,  
D.2-4,  
& E. Implemented.

D.1. Cases are no longer heard by an Associate Circuit Judge.

7. City of Walnut Grove Municipal Division

A.1. Checks and money orders were not always restrictively endorsed immediately upon receipt.

2. The court issued rediform receipt slips for monies received, and the receipts were not consecutively numbered.

B. A schedule listing all of the offenses that may be paid at the Traffic Violations Bureau (TVB) and the corresponding fines and costs to be assessed had not been established or posted.

Recommendations:

The city of Walnut Grove Municipal Division:

A.1. Restrictively endorse all checks and money orders immediately upon receipt.

2. Issue official prenumbered receipt slips for all monies received and account for the numerical sequence.

B. Establish a schedule of offenses and the related fines and court costs which may be collected at the TVB and prominently post this schedule at the TVB.

Status:

A.1  
& B. Implemented.

A.2. Not implemented. See MAR No. 7.

8. City of Willard Municipal Division

A.1. Receipts were not always deposited intact. Personal checks were cashed for city employees from official receipts.

2. Receipts were not deposited on a timely basis.

3. Receipt slips were not issued for some monies received.

4. Checks and money orders were not restrictively endorsed until deposits were prepared.

- B. Tickets dismissed or not prosecuted were not always signed by the Prosecuting Attorney or the Municipal Judge.
- C. The court did not charge the \$2 LET, the \$5 CVC fee, or the \$1 POSTC fee in accordance with state law.

Recommendations:

The city of Willard Municipal Division:

- A.1. Deposit receipts intact and reconcile total receipt slips issued to bank deposits. In addition, the court should discontinue cashing personal check with official receipts.
  - 2. Deposit receipts daily or when accumulated receipts exceed \$100.
  - 3. Issue official prenumbered receipt slips for all monies received and account for the numerical sequence.
  - 4. Restrictively endorse all checks and money orders immediately upon receipt.
- B. Require the Prosecuting Attorney's or Municipals Judges's signature on all tickets that are not prosecuted or dismissed.
- C. Collect the CVC, LET, and POSTC fees in accordance with state law.

Status:

- A.1. Partially implemented. Personal checks are no longer cashed; however, receipts are not deposited intact and total receipts are not reconciled to bank deposits. See MAR No. 8.
- A.2-3. Not implemented. See MAR No. 8.
- A.4,  
B&C. Implemented.

CITY OF REPUBLIC, MISSOURI  
YEAR ENDED MARCH 31, 1997

Municipal Court

- A. Fines and court costs of \$263 were not deposited into the city treasury.
- B.1. Receipt slips were not issued immediately upon receipt. In addition, \$451 in checks and money orders dating back to January 1993 had not been recorded or deposited.
  - 2. Fines and court costs were not transmitted to the city on a timely basis.
- C. Duties of receiving and transmitting or depositing monies were not adequately segregated from recording transactions.

- D.1. Bond forms issued by the police department were not prenumbered, and the Court Clerk did not issue receipt slips for bond monies received.
- 2. Some bond monies were held in cash depending court disposition and were refunded in cash. The checks for the bond account were not prenumbered.
- 3. Monthly listing of open items (liabilities) were not prepared.
- 4. The court had not implemented adequate procedures to follow up on bonds held for over one year.
- 5. Interest earned on the bond bank account had not been periodically distributed to the city.
- E. The court did not have adequate procedures to collect amounts owed to the court.
- F. The Municipal Judge did not review the docket sheets for the cases handled through the TVB.

Recommendations:

The city of Republic Municipal Division:

- A. Review the situation with the Board of Aldermen and legal counsel and take necessary action to recover the missing funds.
- B.1. Issue receipt slips for fines and court costs immediately upon receipt. In addition, the court should follow up on the \$451 in old receipts and determine the proper disposition.
- 2. Transmit receipts to the City Collector daily or when accumulated receipts exceed \$100.
- C. Adequately segregate the duties of receiving, recording, and transmitting or depositing court receipts. At a minimum, there should be a documented supervisory review of the reconciliation between receipts and transmittals or deposits.
- D.1. Request the police department to issue prenumbered receipt slips or bond forms for all bond monies received. In addition, the Court Clerk should issued prenumbered receipt slips for all bond monies received, including amounts received from the police department.
- 2. Deposit all bonds into the bond bank account and make subsequent disbursements by prenumbered check.
- 3. Prepare listings of open items (liabilities) monthly and reconcile these listings to monies held in the bond bank account.
- 4. Follow up on all bonds held for more than one year and dispose of bonds in accordance with state law.
- 5. Distribute interest earned on the bond bank account periodically to the city.
- E. Establish procedures to maximize the collection of fines and court costs owed to the court.

F. Ensure all TVB cases are reviewed by the Municipal Judge.

Status:

A. The City Administrator indicated that the Board of Aldermen discussed the situation and decided not to pursue any action to recover the missing funds because of the immaterial dollar amount.

B.1. Partially implemented. A portion of the monies were remitted back to the defendant and the remainder sent to the State Unclaimed Property Fund; however, receipt slips are not issued immediately upon receipt. See MAR No. 3.

C -

D.2,

E&F. Implemented.

B.2,

D.3-

D.5. Not implemented. See MAR No. 4.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

THIRTY-FIRST JUDICIAL CIRCUIT  
MUNICIPAL DIVISIONS  
HISTORY AND ORGANIZATION

Organization

The Thirty-First Judicial Circuit is composed of Greene county. The Honorable Henry W. Westbrooke Jr. serves as Presiding Judge. There are eight municipal divisions within the Thirty-First Judicial Circuit.

The municipal divisions are governed by Chapter 479, RSMo 1994, and by Supreme Court Rule No. 37 titled "Ordinance Violations and Traffic Violations Bureau (TVB)." Section 479.050, RSMo 1994, provides that each municipal division may establish a TVB in which fines and costs are collected at times other than during court and transmitted to the city treasury.

Operating Costs

The operating costs and court salaries of each municipal division are paid by the respective municipality, the county, or the State of Missouri, as applicable.

Municipal Division Organization, Personnel, and Caseload Information

1. City of Ash Grove

Organization

The City Clerk serves as the Court Clerk and is responsible for recording transactions as well as handling collections and disbursements. Fines, court costs, and bonds are deposited directly into the city treasury. Court is held once a month. A TVB has been established to receive payment of fines and court costs at times other than during court.

Personnel

Municipal Judge  
City Clerk/Court Clerk

2. City of Battlefield

Organization

The Court Clerk is responsible for recording transactions as well as handling collections and disbursements. Fines, court costs, and bonds are deposited into a court bank account and are transmitted by check to the city treasury and state periodically. Court is held once a month. A TVB has been established to receive payment of fines and court costs at times other than during court.

### Personnel

Municipal Judge

## 3. City of Fair Grove

### Organization

The Court Clerk, assisted by the City Clerk, is responsible for recording transactions as well as handling collections and disbursements. Fines, court costs, and bonds are deposited directly into the city treasury daily. Court is held every other month. A TVB has been established to receive payment of fines and court costs at times other than during court. An Associate Circuit Judge of Greene County serves as a judge of this municipality.

## 4. City of Republic

### Organization

The Court Clerk is responsible for recording transactions as well as handling collections and disbursements. Fines and court costs are deposited directly into the city treasury. Bond monies are deposited into a separate municipal division bank account pending disposition. Court is held four times a month. A TVB has been established to receive payment of fines and court costs at times other than during court.

### Personnel

Municipal Judge  
Court Clerk

AUDIT OF  
THE DEPARTMENT OF NATURAL RESOURCES  
AIR POLLUTION CONTROL PROGRAM  
NEW SOURCE REVIEW UNIT

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-55  
July 17, 2000

*Establishing a pre-screening unit to process applications for air quality construction permits will enhance timeliness of processing and improve customer service*

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

July 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**Reorganizing the New Source Review Unit of the Air Pollution Control Program and creating additional improvements and enhancements will improve timeliness of processing air quality permit applications and improve customer service.**

---

At the request of the Director, Department of Natural Resources (DNR), the State Auditor's Office audited the department's Air Pollution Control Program's (APCP) New Source Review Unit's (NSRU) procedures and practices for issuing construction permits. The purpose of the audit was to determine if the New Source Review Unit was processing construction permit applications and issuing permits in a timely manner. The impetus for the request and the audit was the desire to address concerns raised by the industries regulated by the Air Pollution Control Program.

We examined construction permit application statistics for the nine month period January 1999 to October 1999, and in conjunction with an agreement that the two month period September 1999 and October 1999 would be representative, we reviewed all applications processed during that period.

We determined that the New Source Review Unit had made good progress in addressing the concerns of the regulated industry by establishing a task force to review their own policies and procedures, developing Internet capability, and revising construction permit applications and instructions to make them user-friendly.

We concluded that by reorganizing the functions of the New Source Review Unit and making additional enhancements, the New Source Review Unit would perform more effectively and be more responsive to its customers. Our recommendations addressed the following areas:

- ❑ A prescreening unit should be established to screen out the incomplete applications and to ensure that technical engineers are devoting their time to applications that can be processed.
- ❑ Accounting duties currently performed by engineers should be transferred to the accounting department.
- ❑ Non-professional staff should be hired to review the less complicated applications.
- ❑ Improvements could be made in several aspects of processing the applications during the various review stages to include obtaining supervisory approval before placing the application on hold awaiting comments from the industry.

(over)

YELLOW SHEET

- ❑ Improvements could be made in managing fees and interest for processing construction permit applications.
- ❑ Better financial and management reports are needed to assist executives in decision-making.
- ❑ Improvements could be made in the website to make it more user-friendly, and additional industries should be evaluated to determine applicability of the permit-by-rule concept to ease the application burden for these industries.

The Department of Natural Resources agreed with most of the recommendations and provided acceptable implementation plans.

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

Honorable Mel Carnahan, Governor  
Members of the General Assembly  
Members of the Air Conservation Commission  
Director, Department of Natural Resources  
Director, Air Pollution Control Program

At the request of the Department of Natural Resources (DNR), we audited the Air Pollution Control Program's (APCP) New Source Review Unit (NSRU). DNR requested a review of the NSRU as a result of concerns expressed to the DNR and the Governor's office from various industry groups and business associations located in the state of Missouri.

The objective of our audit was to determine whether construction permit applications were processed, and reviewed, and issued in accordance with Missouri statutes and the Code of State Regulations, and to determine whether the NSRU was responsive to the needs of businesses that are required to have construction permits.

We determined that the NSRU had made good progress in addressing the concerns of the regulated industry by establishing a task force to review their own policies and procedures, developing Internet capability, and revising construction permit applications and instructions to make them user-friendly.

We concluded that the NSRU could improve its organizational structure, process flow of construction permit applications, assessment and collection of fees, and management information reporting system as well as develop other enhancements to more efficiently and effectively issue construction permits and meet the needs of businesses requiring construction permits.

The Department of Natural Resources agreed with most of the recommendations and provided acceptable implementation plans. We will follow-up on these plans until the recommendations are implemented.

Claire McCaskill  
State Auditor

March 10, 2000 (fieldwork completion date)

The following auditors participated in the preparation of this report:

|                     |                        |
|---------------------|------------------------|
| Director of Audits: | William D. Miller, CIA |
| Audit Manager:      | John Birdno, CPA       |
| In-Charge Auditor:  | Gary Boehmer, CPA      |
| Audit Staff:        | Robyn Lamb             |
|                     | Brian Benter           |

## **RESULTS AND RECOMMENDATIONS**

### **1. Organization of the New Source Review Unit (NSRU)**

Construction permit processing times and workload management within the NSRU could be improved by reorganizing functions. Engineers responsible for reviewing construction permit applications are frequently distracted from their tasks because (i) applications are not complete, (ii) letters from industry seeking advice as to whether a construction permit is required are processed as permit applications, and (iii) engineers are performing accounting functions such as billing and follow-up. The NSRU could improve timeliness of processing construction permit applications, improve staffing levels, and enhance customer satisfaction by establishing a unit to pre-screen permit applications, reassigning accounting functions to the accounting department, and hiring program specialists to review the less complex permits.

#### **The NSRU is responsible for processing permits for new construction.**

The NSRU is an integral part of the Air Pollution Control Program (APCP) and was established to ensure that emissions of air pollutants by businesses involved in new construction do not exceed the safe levels established by federal and state law. The NSRU derives its authority from Section 643.075 RSMo and 10 CSR 10-6.060 of the Code of State Regulations. The NSRU is staffed with a section chief, unit chief, staff engineers, and support staff. It also uses the assistance of a construction permit action tracking system to record the activity on each permit application received. *(See Appendix IV, page 31, for a flowchart of the process flow of the permit application process).*

#### **Processing of Construction Permits in the NSRU**

After interviewing program and operating officials, testing the processing of applications, reviewing industry questionnaire results, and benchmarking with other states, we determined construction permits could be processed more timely.

#### **Processing of Incomplete Permit Applications**

Construction permit applications are assigned to engineers when received. Engineers are required to complete a checklist to ensure the permit application is complete including the receipt of the appropriate filing fee before subjecting the permit application to the technical review phase. We noted permit applications that were either incomplete or did not contain proper information, thus requiring engineers to spend additional time contacting the applicant to correct information in the application or request more data.

Applications  
are not  
complete

A checklist was required for 57 projects received during the test months of September and October 1999. The applications for 11 of these projects (19%) were either incomplete or did not contain enough information. As a result, the processing of these

permits was suspended for a total of 813 days, or an average of 74 days, awaiting additional information. The range for these projects was from 5 to 288 days. This required the engineers to make numerous inquiries to the applicants and follow-up to attempt to get a permit into the technical processing phase. Of the total time it takes from receipt of an application to issuance of the permit, it takes from 17 to 31 percent of the total permit processing days, depending upon the type of permit, to get an application ready for technical review. *(See Appendix III, page 28, for charts on processing times).*

We noted a particular problem with Section 5 and 6 construction permit applications (these are categorized in the CSR as De Minimis<sup>1</sup> and minor construction projects). We determined that, it takes 2.6 hours of engineer time to review the application for those requiring no permits. Also, it takes an average of 56.5 days to send the “no permit required” letter to the applicant. The lengthy time to notify industry can mostly be attributed to the need to acquire more information. In our 2-month sample, 38 of the 113 applications (34 percent of the total applications) were De Minimis requests.

### **Processing of Permit Determination Letters**

For the period January 1, 1999 through October 31, 1999, the NSRU received 154 letters from entities seeking advice as to whether a construction permit was required. Only 58 letters (37.7%) resulted in the decision that a permit was required and 96 letters (62.3%) resulted in a permit not being required. Based on our review of engineer time charges, we noted it takes approximately 1.1 hours of engineer time to review each letter, but it takes approximately 30 days to complete the letter review process and either notify the applicant that a permit is not required or that a formal permit application needs to be submitted. The lengthy time to notify the applicant results from the need to gather more information from the applicant and follow-up to ensure the information is submitted. In the 2-month sample, 25 of the 113 applications (22 percent of the total applications) were request letters seeking advice as to whether a construction permit was required.

Most letter requests do not require permits

We concluded that by establishing a pre-screening unit in the NSRU, engineer time would be saved and could be used for the more complex tasks. Additionally, since RSMo Section 643.075 prescribes that the NSRU will process permits within 90 days (Class B) or 184 days (Class A); NSRU would be in a better position for meeting that deadline if only complete applications were sent to the engineers. We envision that a pre-screening unit would receive all letters and applications, review them to see what action is needed, and contact the applicant as necessary to obtain any additional information needed before sending the application to the engineers for technical review. This unit would also be able to respond if a construction permit is not required and notify the applicant accordingly. The goal of the unit would be to make sure the engineers only get applications for permits, and that these applications are complete and ready for technical review.

---

<sup>1</sup> De Minimis is categorized as less than a minor construction project

We noted that the states of Kansas, Iowa, Nebraska, and Arkansas use pre-screening units.

### **NSRU Accounting Procedure**

Engineers are responsible for performing accounting functions they are not trained to do. Nor, should they be expected to perform these functions. These functions include determining billing amounts, sending bills for filing and processing fees, and following up on bills that have not been paid. We noted that basic accounting controls are not established and there is no assurance that NSRU is receiving the fees that are due. NSRU does not have a formal accounting system for billings, matching receipts against billings, maintaining appropriate accounts receivable records, or for properly accounting for refunds of filing and process review fees. Instead of pre-numbered billing invoices, the NSRU sends bills by letter.

Transfer  
accounting  
functions

The NSRU does not have formal accounts receivable records to track the billing and subsequent receipt of fees. As a result, the NSRU cannot readily determine the total amounts due from applicants. Fees received and transmitted to the state treasury are not reconciled to fees received and processed through the Permit Action Tracking System (PATs). Therefore, there is less assurance that the numbers in the PATs are accurate.

These additional duties detract from the primary mission of the engineers, which is to make technical reviews and decisions on the need for construction permits. The billing, accounts receivable, and follow-up functions are more appropriately performed and managed by an accounting section and we recommend that all of these accounting duties be transferred to the DNR accounting office. The engineers would be required to track billable time and notify the accounting section who would proceed to ensure that the bills are sent, formal accounts receivable are established, fees are obtained, and refunds, when warranted, are mailed.

### **NSRU Staffing Levels**

The NSRU is having difficulty in attracting and retaining engineers. Currently, excluding the section and unit chiefs' positions, the NSRU is authorized a total of 11 engineer positions of which only 7 are filled. Two of the four remaining vacant positions have never been filled. This has an impact on the NSRU's ability to process permit applications on a timely basis. According to the NSRU's backlog report at November 15, 1999, a total of 55 construction permit applications took over twice the time originally planned to process. The inability of the NSRU to fill the vacant engineer positions with qualified engineers has contributed to processing delays.

Seek  
alternatives to  
fill staffing  
needs

The NSRU has taken steps to fill the vacant positions, however, the salary levels available for engineers are lower than the salaries offered in the private sector. As a result, it is difficult to obtain the necessary qualified engineers. Based on discussions

with the NSRU's section chief and unit chief, engineer salaries in the private sector are approximately \$10,000 to \$15,000 higher than comparable annual state salaries for engineers. The NSRU needs to request increases in engineer salaries to a level competitive with private industry to enable it to attract and retain qualified engineer personnel. Further, for those times when the section is experiencing excessive work loads, external engineering consulting firms should be used to relieve the excess workload.

We analyzed the NSRU's workload and determined that 215 projects were in process at October 31, 1999 of which 191 (89%) were De Minimis or lesser type projects. These 191 projects, although required by statute to be completed in 90 days or less, had been in process an average of 5 months or more. These requests may be able to be handled by non-engineer employees. Some of the excess time is due to the various projects being placed on hold awaiting additional information from the applicant. If a pre-screening unit were established, many of these applications would not reach the engineers. Some of the excess time occurs because these type permits receive lower priority attention from the engineers.

Our review of other states' procedures noted that the state of Nebraska uses Program Specialists (non-engineer employees) to review permit applications with engineer oversight. The NSRU executives need to conduct a detailed analysis of their workload and determine what duties and functions could be performed by non-engineer personnel. Once this has been determined, the number of necessary engineer and non-engineer positions should be determined and filled.

## **Recommendations**

- A. Establish a pre-screening unit to ensure engineers are only given permit applications that are complete and ready for the engineers' technical reviews.
- B. Transfer accounting functions to DNR's accounting office.
- C. Request salary increases for engineers at or near private sector levels.
- D. Analyze current workloads to determine the:
  - 1. duties and functions that could be performed by non-engineer employees,
  - 2. number of engineer and non-engineer personnel needed to perform the NSRU functions, and recruit and hire staff accordingly.

## **Department of Natural Resources Comments**

*DNR agreed with all four recommendations stating that a new unit will be established and staffed with non-engineers to check applications for administrative completeness. They advised that engineers would still receive some applications that will require additional technical*

*information. DNR agreed to transfer accounting functions to the Air Pollution Control Program accounting office. DNR agreed to pursue alternatives for increasing salaries for engineer staff, especially non-registered engineer staff. DNR advised that the new unit to be established would handle workload analysis functions. (Full text comments are included as Appendix VI, page 34 ).*

#### **State Auditor Comments**

The responses to the recommendations are acceptable, and we will follow up on the implementation plans.

## **2. Construction Permit Application Process Flow**

The construction permit review process has delays that can be avoided. These delays occur in all stages of the review process, and increase the time that companies have to wait for their construction permits. We attributed the cause for these delays to staff and management not having or taking the time to reevaluate how the work is performed. As a result, a small amount of processing fees had to be forfeited because the applications were not processed on time, and the vulnerability for more forfeiture exists. Additionally, one third of the respondents to our questionnaire believed that the permit process took too long.

### **Processing of Construction Permits in the NSRU**

We reviewed permit applications that were completed during September and October 1999. We analyzed the applications from their entry to the NSRU and identified specific areas where delays in processing were occurring and assessed whether these delays were avoidable.

#### **Processing of Permit Application at the Receptionist**

The receptionist within the APCP receives a permit application with a check for the filing fee and sends the application and the filing fee to the Administration Section to have the fee processed and deposited. As a result, the application is not processed until after the filing fee is accepted and recorded. The NSRU can improve timeliness by separating the checks for filing fees from the applications and allowing simultaneous processing of the application and the filing fee.

Separate  
checks from  
applications

#### **Construction Permit Applications Assignment Timeframe**

The number of days from the time an application is received until it is assigned to an engineer for review is sometimes excessive. The standard timeframe, according to the construction permit review procedures manual is 3 days. As noted in Appendix III, as much as 28 percent of the total number of processing days for a project is spent waiting to get the project assigned to an engineer depending on the specific type of project.

Review delays  
in assignments

It took from 1 to 17 days to assign complete applications to engineers, and 34 out of 113 projects reviewed (30%) took longer than 3 days to get assigned to an engineer. These 34 projects ranged from 4 to 17 days averaging in excess of 5 days each.

The causes for these delays can be attributed to:

- ❑ Lower priority applications (De Minimis and minor) being delayed.
- ❑ Lack of staff to accomplish reviews of all applications ready for review.
- ❑ Staff attempting to process incomplete applications which impacts on their ability to accept a new application for review.

### **Completeness Checklist**

The application checklist is the management tool for ensuring that permit applications are complete. The engineer completes the checklist before technical review of the application can begin. According to 10 CSR 10-6.060, the standard for completing the checklist is 30 days.

In our review of 113 projects, 8 (7%) exceeded 30 days for the completeness check. The range of days for the completeness checklist for these cases ranged from 31 to 139 days. *(See Appendix II, page 25, for statutory and regulatory guidance regarding a completed application).*

Based on discussions with NSRU personnel, these particular projects were not assigned a high priority and thus were allowed to exceed the 30-day limit due to more important projects being worked on at the time. The underlying causes for delay make all applications vulnerable to these types of time slippages.

### **Request for Additional Information**

Delays occurred during technical review because additional information was needed or because the applicant requested a delay in processing. Some delays were of sufficient length to consider canceling the project. Examples follow.

A De Minimis project application was put on hold for 210 days. The applicant called and asked the NSRU to place the application on hold. Two months later, the NSRU tried to call the applicant, but the applicant could not be reached by phone and a letter was sent to determine if the applicant wanted to proceed with the application. The applicant called 2 weeks later and the application was placed on hold for another 30 days. A week later the application was assigned to a new engineer. The application stayed on hold for an additional 4 months until the applicant finally brought in new information.

Long delays in  
completing  
applications

Another De Minimis project application was placed on hold for 339 days. The NSRU requested more information from the applicant. Three months later a follow up letter was sent, and the response stated that the application would be modified. Seven months later, after no further input from the applicant, the NSRU sent a letter requesting the modifications. The new information finally arrived and the fees were received and the permit subsequently was issued in October 1999.

An application requesting an amendment to a permit was placed on hold for 316 days. The NSRU sent a technical request letter to the applicant. A response was not received to this request and a second technical request letter was sent 10 months later. Information and fees were finally received and a permit issued in October 1999.

Our review of the 113 projects in our 2-month sample indicated a total of 32 projects were put on hold for a total of 1,760 days with delays ranging from a low of 1 day to a high of 361 days and an average of 55 days for each project.

These examples exemplify the difficulties encountered when the applicant does not respond properly or timely, and when the NSRU does not follow-up. More timely follow-up may have brought these projects to a conclusion sooner.

The process of placing applications in a hold status is designed to ensure that the 90-day processing time requirement outlined in the statutes is not breached, which in turn would allow the NSRU to bill the applicant for fees because the days the project is in hold status are not counted toward the 90-day requirement. In our opinion, when projects are in a hold status as long as these were, the best action would be to cancel the project and bill the applicant for the processing fees that were incurred up to the point of cancellation.

### **Placing Applications on Hold**

Technical review engineers can place an application on hold during the technical review for whatever reasons they feel necessary. Some of these reasons concern requesting additional information. In the survey responses we received, 20 percent of the respondents said that the engineers requested unnecessary information from them. Additionally, 34 percent of the respondents said that the permit application process took longer than reasonably necessary.

|                                    |
|------------------------------------|
| Require<br>supervisory<br>approval |
|------------------------------------|

When an application is placed on hold, the engineer moves on to another application until the applicant responds. Since there may be other alternatives to solving the engineer's problem, we believe supervisory approval is needed before any application is placed on hold. Supervisors are more experienced, may have encountered the same or similar problem before, and are in the position to make the best decision for the circumstance, and to make the decision necessary to keep the process moving.

### **Construction Permits Mail Outs**

10 CSR 10-6.060 (13)-(16) states that permits will be issued no later than 3 calendar days after receipt of the processing fees. The NSRU did not issue the permits within 3 calendar days for 14 of the 113 projects (12%) included in our 2-month review. The number of days to issue a permit on the 14 cases ranged from 4 to 7 days. Based on discussions with the unit chief, these delays are caused by a lack of secretarial help. *(See Appendix II, page 25, regarding the statutory and regulatory guidance on this issue).*

## **Executive Review Procedures**

Executive review is the last stage in permit processing before a decision is made to issue a permit. Our 2-month test disclosed that executive review time accounted for 23 percent to 40 percent of the total processing times for the various types of permit applications. *(See Appendix III, page 30, for charts showing processing times)*. The average time in executive review for the various type of permit applications exceeded the standard time frames allowed per the NSRU's construction permit review procedure manual. The average times noted for each type of permit application excludes the number of days when the applications were placed on hold awaiting payment of fees.

Improve  
executive  
review times

| Type of Permit Application | Standard Days | Average processing days |
|----------------------------|---------------|-------------------------|
| Unified Major Permits      | 24            | 30                      |
| Amendments to Permits      | 5             | 16                      |
| De Minimis                 | 24            | 27                      |

Executive level staff advised us that the amount of time permits are in executive review can be attributed to the applications competing for priority with other duties and to a lack of adequate secretarial help, and the return of the construction permit applications back to the engineers for further work or information when necessary. In our opinion, some of the executive review time could be reduced or eliminated by changing procedures. Currently, the Section Chief approves Section 4 permit relocation letters while section 5 & 6 De Minimis permits are approved by the Director of the Air Pollution Control Program. In our opinion, the NSRU unit chief could be delegated the authority to approve applications for De Minimis and minor projects, relocation projects, and amendments to existing permits.

## **Construction Permit Processing Fees**

Our review of the 113 projects during the 2-month test period noted 2 projects where the processing days exceeded the mandatory standard times and resulted in forfeiture of processing fees.

One of the projects was a De Minimis Section 5 application. It took 145 days to issue the permit. The project was in technical review for 69 days and executive review for 68 days. A De Minimis Section 5 permit has a mandatory 90 days for processing. In our opinion, the executive review time was the major contributor to this loss of fees. The standard time for executive review is 24 days for De Minimis projects. The NSRU lost \$475 in review fees on this project.

Processing  
fees were  
forfeited

The other permit application was for a Section 4 Relocate to a New Site. It took 45 days to issue the permit. This project was in technical review for 32 days and executive review for 9 days. A Section 4 Relocate to a New Site has a mandatory 21 days for processing. The NSRU lost \$175 in review fees on this project.

The vulnerability for forfeiture of fees is prevalent for all applications. Forfeiting fees is the ultimate outcome of the compilation of missed deadlines in the various phases of processing permits.

## **Conclusion**

We determined that the process flow of applications through the NSRU could improve. Many of the delays and causes for delays in processing the permit applications can be attributed to the issues discussed in Result 1 of this report. Our recommendations to establish a pre-screening unit and hire non-engineering personnel, if implemented, would alleviate most of the delays discussed above. Without the implementation of this recommendation, supervisors will have to devote more attention to the assignment of application reviews and the activities of the individual engineers to ensure that the time spent on the reviews is appropriate. Additionally, the process flow can be improved by implementing the following recommendations.

## **Recommendations**

- A. Separate the fee check from the application and send the application immediately to the permitting section to begin processing. The check and a photocopy of the front page of the application could be sent to administration to be processed simultaneously.
- B. Review the time it takes to assign projects to engineers and ensure projects are assigned on a timely basis.
- C. Monitor the processing times in all phases of the application review process and, take action to ensure standard time frames are met.
- D. Develop maximum time standards for projects placed on hold after which the applications would be canceled.
- E. Ensure that follow-up action is timely for projects placed on hold awaiting additional information.
- F. Require supervisory approval before placing any project on hold.
- G. Delegate the authority to approve permits for the lower priority applications to the Unit Chief.
- H. Establish a warning system for executives to ensure that their reviews are complete before fees are forfeited.

## **Department of Natural Resources Comments**

*DNR agreed with five of the eight recommendations, provided acceptable alternative corrective action to two recommendations, and disagreed with one recommendation. DNR agreed to separate fee checks from applications to enhance simultaneous processing of fee payments and permit application review. DNR agreed to reevaluate the time it takes to assign projects to engineers. DNR agreed to improve monitoring of the processing times within each step of the permit review process. Rather than agree to immediately establish maximum time standards for projects placed on hold, DNR suggested that a rule change and legal support are needed and stated that until such time this can be pursued they will establish a new step called Inactive Status for those permit applications put on hold for a longer time. DNR agreed to follow-up on applications placed on hold and shorten the timeframe for projects placed on hold from 30 to 10 days. DNR agreed to initiate a process where projects placed on hold will be reviewed weekly by the NSRU Chief, and to improve documentation of projects placed on hold in lieu of our recommendation to require supervisory approval before placing projects on hold. DNR did not agree with our recommendation to delegate the authority for approval of lower priority permits to the Unit Chief citing the need for coordination beyond the unit chief level before permits are approved. DNR agreed to evaluate the capability to establish a warning system for executives within their automated system. (Full text comments are included in Appendix VI, page 34).*

## **State Auditor Comments**

The response to the recommendations is satisfactory. We agree with the alternatives suggested for the recommendations to which DNR agreed in part. We will follow-up on the implementation plans.

### **3. NSRU Staff Could Improve Management of Fees that Are Received for Construction Permits**

Better procedures and supervisory oversight are needed to ensure that engineers properly recognize their financial responsibilities when processing permit applications. Our review determined that some fees were not collected when they should have been, some refunds were due but not made, and some bills for fees were generated when they should not have been. We attributed the cause for these conditions to a lack of procedures and lack of attentiveness in performing the financial aspects of permit processing.

#### **Fees and interest should be billed and collected when appropriate**

We determined that there were at least two circumstances where fees were due but not collected. First, according to CSR 10-6.060 (10)(A)3 and 5, permit applications that are denied or withdrawn after submittal shall be charged fees at the same rate as processed permits. The NSRU was not billing and collecting these fees when applications were withdrawn. In our 2-month sample of 113 permit applications, 4 permit applications were either withdrawn or denied, and fees in the amount of \$313 were not collected. Second, we noted in one case, that interest had not been charged when the fee payment was paid after the 90-day period for payment as prescribed in CSR 10-6.060 (12) (A) 15.

Not all fees  
were collected

#### **The NSRU staff needs to refund fees**

The NSRU staff received application fees for some permits that did not require application fees. These usually occurred for amendments to permits or permits for relocation. We did not find any procedures to require NSRU staff to refund these fees or to apply them to the processing fees when the permit review is completed. We found one instance in our sample of 113 projects where a refund of a \$100 fee should have been made. We also noted, during our review of fees received from January to June 1999, six instances where filing fees had been received when they were not required and they were not refunded. In another instance the fees were applied to the permit processing fees when the permit was completed. In our opinion either applying the fees to pending permit processing fees or refunding the fees to the applicant would be equitable restitution to the applicant.

Fees should be  
refunded

According to 10 CSR 10-6.060 (12)(A) 9C, if permit applications are not reviewed and completed within the required timeframe, the applicant is not required to pay the processing fees. In our 2-month sample of 113 permit applications, we found 5 instances where the processing days to complete the projects exceeded the regulatory number of processing days. In each instance, the company was billed for the processing fees and we did not find any evidence that these fees were refunded. The total for these five projects was \$1,950.

## **Recommendations**

- A. Establish procedures and appropriate supervisory review for
  - 1.) assessing fees for permit applications that are either withdrawn or denied,
  - 2.) refunding or applying fees to pending processing fees when fees are received for permits that do not require them, and
  - 3.) refunding fees to applicants when they are improperly billed for permit processing days in excess of regulatory timeframes.
- B. Discontinue billing applicants for processing fees when NSRU does not meet regulatory timeframes.

## **Department of Natural Resources Comments**

*DNR agreed to transfer the function of assessing fees for permit applications that are either withdrawn or denied to the APCP Administration Section. DNR also stated that a change in state law might be needed to enforce collection of the fees and they will pursue legislation if necessary. DNR agreed to develop a standard procedure for refunding fees that will include transferring some of the responsibilities to the accounting group. DNR agreed to discontinue billing applicants for processing fees when NSRU does not meet regulatory time frames. They stated that billing processes would improve with the transfer of accounting functions as previously agreed. (Full text comments are included in Appendix VI, page 34).*

## **State Auditor Comments**

The response and implementation plan is acceptable. We will follow-up on the implementation plan.

#### 4. **Financial and Management Reporting Information System**

New management reports are needed to determine the overall timeliness of the permit application review process and to determine whether the fees collected are substantially covering the cost of operations for the NSRU. Management reports that are currently available are prepared only to follow specific projects or to determine workload activity by engineer. Engineers record their time spent on permit reviews through the time accounting system but this time is not reconciled to the hours recorded on the billable hours form maintained in the Permit Tracking System project file (PATS). As a result, managers are not able to determine whether appropriate hours have been recorded on the Permit Tracking System (PATS). Responsible personnel advised that they did not plan to make the PATS system and the timekeeping system comparable. The PATS is not used to its full potential and is missing important information or not being used correctly. Improvements are needed in the various reporting systems for management to determine the time spent in the various stages of the review process as well as to determine whether all time charged to the respective projects agrees with the time recorded on the individual time sheets.

##### **Permit Processing Management Reports**

Various management reports are prepared at different time intervals to track the activity of each permit application project and the workload for each individual engineer. These reports are used for assignment of projects and to determine the status of each project before the statutory deadline is met to issue the construction permit. However, management reports designed to determine the actual time involved in processing the permit application within each program review step are not prepared. These reports would provide significant information regarding the actual processing times and help determine the cost of operating the NSRU. Presently, without this type of information, management cannot adequately evaluate the effectiveness and efficiency of the NSRU in issuing permits.

|   |
|---|
| Better<br>management<br>reports are<br>needed |
|---|

##### **NSRU Permit Fees Worksheet**

The times recorded by the engineers on the Permit Tracking System forms in each project file are not and cannot be reconciled to the times recorded on the time sheets submitted by each engineer. A job cost reporting system is needed to track the actual hours charged to the various projects and to reconcile these charges to actual time recorded on the time accounting system.

Our review of the months of September and October 1999, determined that approximately only 65 percent of the engineers' actual time spent on the job is charged to the actual job task code of permit application reviews. There is no determination made as to how much time should be recorded to the job task code and what percent of the time should be devoted to other activities that are not related to permit application review. Process review fees are charged based upon the engineers' actual time spent on the project at an hourly rate of \$50 per hour. However, it cannot be determined whether all the time spent processing applications is actually

|   |
|---|
| Costs by<br>project need to<br>be reported in<br>the time<br>system |
|---|

billed. The job cost reporting system should ensure that the time actually spent on a project is charged to the respective job task code and that the process review fee charged each project is properly billed. Because the NSRU does not have a job cost system we could not determine if billable hours were correct and whether applicants were billed the proper amounts.

### **Permit Tracking System**

During our review of permit applications, we were able to make an assessment of the PATS system and identified enhancements and shortcomings that if corrected would make it a better system. A discussion of these follows.

- ❑ The PATS form does not indicate whether a filing fee has been received. This information is necessary to indicate that the filing fee has been received before the application is processed.
- ❑ The PATS form does not document the processing steps or assign responsibility for the project from the time the application is received until the time the project is assigned to an engineer. Our review of 113 projects for the two test months indicated a total of 379 days of elapsed time or an average of 3 ½ days before these projects were assigned to an engineer. During that average 3 ½ day period, the PATS system does not track who has the application. The PATS should be modified to document all processing steps and assign responsibility for each project from the time of receipt until assignment to an engineer.
- ❑ The engineers do not update PATS accurately or timely. During our review of the two test months, we noted instances where engineers requested information but did not document the request on the PATS, and instances where the application was placed in hold status but not clearly documented. Also, there was not a clear distinction as to whether work was being performed on the completeness checklist or the technical review, and there were instances of unrecorded activity.
- ❑ The finalized PATS reports are frequently missing from a completed project folder. In our review of 113 file folders, 61 (54%) did not have a final PATS report in the completed folder. Most completed folders have either missing, inaccurate, or incomplete PATS reports. The PATS reports document the total time used in the processing of each permit and provide a basis for review by management. A copy of the report should be included in each completed folder to properly document the amount of time used for each project.

### **Processing Fees**

Time charged for process review fees includes only the engineer's time and does not include the hours of actual staff time devoted to each project. Process review fees are charged at the rate of \$50 per hour based on the actual hours charged to the project by the review engineer. This rate is more than the hourly rates paid to the engineers and was designed to recover the other costs of the review process. The requirements of state law and code of state regulations provide for the

billing of actual staff time necessary to complete the application but not to exceed the rate of \$50 per hour. Section 643.075.7(2) RSMo states that upon completion of the department's evaluation of the application, but before receiving a construction permit, the applicant shall reimburse the department for all reasonable costs incurred by the department whether or not a construction permit is issued by the department or withdrawn by the applicant. The commission shall, by rule, set the hourly charge, not to exceed fifty dollars per hour, for review of each construction permit application. Because the actual hours used by each person to complete and review the permit applications are not recorded or tracked in any manner, it cannot be readily determined whether this rate is sufficient to cover the actual cost incurred by the department.

|                     |
|---------------------|
| Compute total costs |
|---------------------|

Management personnel indicated that this statutory fee was passed around 1994, but actions have not been taken since this time to provide information to the legislature on what the actual costs are for processing a permit application. Detailed studies of actual processing times and hours charged by the various staff employees and management personnel for each type of application are needed to determine whether the \$50 per hour engineer review process fee is still appropriate. If this fee is determined to be no longer appropriate, legislative changes should be requested to increase/adjust the process review fee to cover the cost of the review with future increases to account for changes in the consumer price index.

### **Recommendations**

- A. Develop more detailed reports of actual hours used on each permit application, current status of each permit application, and the number of days used to process the application in each review stage.
- B. Develop a job cost reporting system to track the time charged to each permit application to the time actually charged on the time sheets.
- C. Ensure the PATS reports add sections to track the filing fee and the steps between the time the application is logged in until the time it is assigned to an engineer.
- D. Ensure the completed folders contain a final PATS report.
- E. Instruct engineers to exercise greater care in the timely, accurate recording of entries to the PATS system.
- F. Study the actual staff time, engineer's time, and management review time for each permit application to determine the actual and required number of hours necessary to process a permit application.
- G. Request legislation to change the statutory maximum billing rate if the actual cost of operation for each permit application exceeds the current statutory billing rate of \$50 per hour for process review time.

- H. Develop a system to determine the appropriate billing rates for each of the different classifications of employees that actually work on the permit review process.

### **Department of Natural Resources Comments**

*DNR agreed with five of the eight recommendations, proposed alternatives to two recommendations and disagreed with one recommendation. DNR agreed to assess rather than develop changes to the system to provide more detailed reports of actual hours used on each permit application, current status of each permit application, and number of days used to process the application in each review stage. DNR agreed to assess developing a job cost reporting system to track the time charged to each permit application to time actually charged on time sheets. This would require relating the current timekeeping system to the management reporting system. DNR agreed to ensure that the PATS reports track filing fees and the time between steps in the application process by evaluating additional steps to be added to the Check Application group. DNR did not agree to ensure that completed project folders contain a final PATS report opting to rely on the electronic summary version maintained on the automated system. DNR agreed to better train engineers and oversee engineers to ensure the PATS system is properly updated. DNR agreed to strive for more accurate tracking of staff time, engineer's time, and management time and will be in a better position to do so when previous recommendations are implemented. DNR agreed to recommend possible legislation for the next General Assembly regarding the adequacy of the \$50 per hour billing rate. DNR agreed to pursue an interpretation of the statute in order to implement or determine if they can implement a system to determine appropriate billing rates for each of the different classifications of employees that actually work on the permit review process. (Full text comments are included in Appendix VI, page 34).*

### **State Auditor Comments**

DNR has been responsive to the recommendations and we accept their response. For those recommendations where they partially agreed and indicated internal discussions will determine future action, we recognize that there are some technical system type changes that may be required. Since the issues discussed in the report relating to these recommendations identified a need for better management reports, we would hope that DNR's internal assessment would weigh heavily toward finding a way to improve the management reports as we suggested. We will follow-up on the implementation plans.

## **5. Steps Taken by the APCP**

The APCP has responded favorably to concerns expressed by the industry and taken steps to enhance the operations of the NSRU. Three years ago, the APCP formed a workgroup to address specific industry complaints about the length of time it takes to process permits. The “Construction Permit Streamlining Workgroup” was organized to develop recommendations to improve the operations of the construction permitting process and included members from APCP and representatives from the industries the APCP regulates. The workgroup issued a report with recommendations for improvement, and the APCP has been developing plans and procedures to address many of the recommendations. Some improvements are in the final review stages. These actions demonstrate the desire of the APCP to work with the industry to ease their burden while maintaining the arms length relationship necessary between the regulator and regulated. Additional enhancements can also be made.

APCP  
responds to  
industry

### **Procedure Changes**

The amount of time to issue a construction permit was of major concern to members of the workgroup and they focused on the amount of time the permit applications were in executive review. Improvement was made by delegating approval authority for the construction permits to the APCP instead of having them approved by the Director of the Division of Environmental Quality.

A new construction permit application, along with detailed instructions and supplemental information has been developed and is currently in executive review. This package was sent to members and associations in the regulated industry for comments, and APCP staff are evaluating the comments and preparing the new application for distribution. While we are unable to evaluate the new construction permit application package at this time, we believe the NSRU is to be commended on their efforts to improve the overall permit process.

The APCP participated in providing information to the industry through the Internet and the development of a construction permit web site. This allowed industry to access information about the permit process through the Internet.

### **Additional Enhancements**

Some additional enhancements would help the industry better understand the permit application process and help the NSRU process applications more efficiently. These include better use of the electronic media, development of a lessons learned package, follow up on the permit-by-rule recommendations made by the Construction Permit Streamlining Workgroup, and development of standard uniform modeling procedures that, if implemented, would strengthen associations with industry and reduce the amount of time and cost to process construction permits.

## **The APCP Web Site**

We visited the construction permit web page to gain information about the construction permit program. We were not able to obtain information directly from the page that would be helpful in determining whether a construction permit was required.

There is not any mention of, or direct link from, the construction permit page to the state statute that is applicable to construction permits. Providing access to the relevant statute is important for industries to gain a better insight into construction permit laws. By offering a direct link to the actual statute, industries could immediately go to the relevant statute without leaving the construction permit page. If this is not possible, listing the state statutes web site and mentioning the relevant statute on the construction permit page would present the industries with access to the statutes if needed.

There is a link to applicable state regulations, but it is indirect and difficult to locate without looking through all aspects of the APCP's page. Providing easy access to the relevant state regulations is important for industries to gain a better insight into construction permit rules. Currently, from the APCP page, you must access "Other Environmental Links", then "Federally Approved Rule", then "Chapter 6" to get to the relevant regulations. "Other Environmental Links" is not within the construction permit information. By providing a direct link from the construction permit page, web users would be able to locate the applicable regulations without searching through other links.

On-line access to the construction permit application, instructions or supplemental information process is needed. Providing this information on-line would allow industries to gain insight into whether a permit is required or not and what information is necessary when submitting a permit application. It would also enable industries to download the permit application instead of contacting the NSRU by phone or mail for an application. Based on our survey of 100 companies that submitted a permit application during the period January 1, 1999 through October 31, 1999 as noted in Appendix V, 56 of those responding indicated they would like to see the application package along with instructions available through the Internet. We contacted five surrounding states for various information concerning construction-permitting processes. We asked for a copy of their construction permit applications and instructions. Four out of the five states instructed us to visit their web sites to download the appropriate information.

## **Development of a Lessons-Learned Package**

A lessons-learned package would include a summary of the more common problems encountered with processing permit applications and permit determinations and possible solutions to prevent or reduce their occurrence. In addition, commonly asked questions and answers should be developed and made available on the NSRU web sight and other information distribution channels to provide ready access to industry. Providing such information should help reduce the amount of requests for information by the engineers after an application has been submitted, and improve the quality of permit determinations and applications being received.

## **Implementation of Permit-by-Rule Concept**

The workgroup study recommended that a permit-by-rule concept be explored with various industries. Permit-by-rule is an exemption for common industries that agree to conditions set formally by rule. The study recommended that actual rule language be developed through cooperative efforts between the industries and APCP staff. The study listed industries that were likely candidates for permit-by-rule. These included printers, grain elevators, concrete batch plants, asphalt plants, sand and gravel operations, and the wood products industry.

## **Modeling Procedures**

Most of the construction permits issued by the NSRU contain specific requirements and procedures referred to as modeling procedures to be followed by the respective permit holder as a condition of receiving the permit. The engineers, based on the information submitted with the permit applications, determine these modeling procedures. Many of the industries have expressed concerns that the modeling procedures imposed by the engineers are different and unpredictable for similar or identical industry operations and that there is inconsistency between the engineers as to the required specific modeling procedures.

The engineers do not have a standard modeling procedures manual for the various industries that would provide standard guidance and requirements when modeling is required. Standard modeling requirements are necessary to ensure consistent treatment of similar industries and situations by the engineers and to provide industry with specific requirements that can be expected when applying for a construction permit.

## **Recommendations**

- A. Develop a more informative and detailed web site for the construction permit process including placing the permit application and instructions on the web site. Specific information should be provided to enable businesses to be able to determine when permits are not needed.
- B. Develop a lessons-learned package for distribution to industry to improve information and the quality of permit applications.
- C. Conduct focused reviews on the industries outlined in the “Construction Permit Streamlining Workgroup” final report to determine the feasibility of establishing permits by rule.
- D. Develop standard modeling procedures and requirements for the various types of industries.

## **Department of Natural Resources Comments**

*DNR agreed with all four recommendations. They agreed to improve the web site and develop a lessons-learned package for industry to improve information and the quality of permit applications. DNR agreed to seek out additional partnerships with the industry to develop permits by rule. DNR also agreed to develop standard modeling procedures and requirements for the various types of industries. They are currently working with the limestone industry and will expand to others. (Full text comments are included in Appendix VI, page 34).*

## **State Auditor Comments**

The response is acceptable and we will follow-up on their implementation plans.

### **OBJECTIVE, SCOPE AND METHODOLOGY**

#### **Objective**

The objective of the audit was to determine whether construction permit applications were processed, reviewed, and issued in accordance with the Missouri statutes and the Code of State Regulations, and to determine whether the Air Pollution Control Program was responsive to their customers.

#### **Scope and Methodology**

We reviewed applicable state statutes, code of state regulations, the minutes of the Air Conservation Commission, the construction permit review procedure manual, correspondence files, personnel procedures, and permit practices followed by local permitting authorities. We interviewed applicable employees, discussed concerns with various industry groups and business associations, and solicited information from other states regarding their construction permit procedures.

We selected the months of September and October 1999 to review all construction permit applications and other projects completed during these 2 months, with the exception of local permits issued by the local permitting agencies. This 2-month review was discussed with executives of the APCP, who agreed that this period would be representative of annual activity in the program.

We selected all letter requests seeking a determination of the need to file an application, all closed projects, and all applications with no permits required for the period January 1, 1999 through October 31, 1999. We reviewed all projects received from January 1, 1999 through June 30, 1999 for applicable filing fees. We also sent survey questionnaires to 100 randomly selected businesses that filed a permit application during the period January 1, 1999 through October 31, 1999. The various types of applications reviewed for the months of September 1999 and October 1999 included the following:

## APPENDIX I

### 2-Month Workload

| Project Type                               | Sept. 1999 | Oct. 1999 | Totals | % of Total |
|--|------------|-----------|--------|------------|
| Applicability Determinations               | 9          | 16        | 25     | 22%        |
| Banking, Sales Tax Exemptions              | 1          | 0         | 1      | 1%         |
| Corrections, Amendments, Temporary & Pilot | 9          | 8         | 17     | 15%        |
| Sec 4: Relocate Approved Site              | 8          | 6         | 14     | 12%        |
| Sec 4: Relocate to New Site                | 10         | 6         | 16     | 14%        |
| Sec 5 & 6: De Minimis & Minor              | 19         | 19        | 38     | 34%        |
| Sec 7, 8 & 9: Major Source Review          | 0          | 2         | 2      | 2%         |
| Totals                                     | 56         | 57        | 113    | 100%       |

We did not examine the various types of construction projects that were not reviewed by engineers. These projects included Installation/Source Name Changes and Inter-program Coordination Tasks. Also, we did not examine Local Permits. The local offices process these projects, and the NSRU only reviews and comments on the permits.

### Applicability Determinations and Section 5 & 6 permits January 1999 – October 1999

| Type of Applicability Determination | Number | Permit Required | No Permit Required |
|-------------------------------------|--------|-----------------|--------------------|
| Letters                             | 154    | 58              | 96                 |
| Applications                        | 5      | 0               | 5                  |
| Incomplete Applications             | 2      | 0               | 2                  |
| Totals                              | 161    | 58              | 103                |
|                                     |        |                 |                    |
| Section 5 & 6                       | 303    | 257             | 46                 |

The audit was made in accordance with applicable generally accepted government auditing standards and included such tests of the procedures and records as were deemed appropriate under the circumstances.

## **APPENDIX II**

### **STATUTES AND CODE OF STATE REGULATIONS**

The construction permit application process is governed in accordance with Section 643.075 of the RSMo and 10 CSR 10-6.060 of the Code of State Regulations. Section 643.075 prescribes that it shall be unlawful for any person to commence construction of any air contaminant source in this state without a permit if such source is of a class fixed by regulation of the commission that requires a permit. Every source required to obtain a construction permit shall make application to the department and shall submit such plans and specifications as prescribed by rule. The director shall promptly investigate each application, and if he determines that the source meets and will meet the requirements of sections 643.010 to 643.190 and the rules promulgated pursuant thereto, he shall issue a construction permit with such conditions as he deems necessary to ensure that the source will meet these requirements. If the director determines that the source does not meet or will not meet the requirements and the rules, he shall deny the construction permit.

Section 643.075 prescribes that before issuing a construction permit to build or modify an air contaminant source the director shall determine if the ambient air quality standards in the vicinity of the source are being exceeded and shall determine the impact on the ambient air quality standards from the source. The director may deny a construction permit if the source will appreciably affect the air quality or the air quality standards are substantially not being met. The director may require the applicant as a condition to the issuance of the construction permit to provide and maintain such facilities or to conduct such tests as are necessary to determine the nature, extent, quantity or degree of air contaminants discharged into the ambient air from the proposed source.

Section 643.075 prescribes that the director shall act within 30 days after a request for approval of an application for a construction permit. The director shall render a decision to approve or deny a construction permit within 90 days of receipt of a complete application for a class B source and within 184 days of receipt of a complete application for a class A source. The director shall promptly notify the applicant in writing of his action and if the construction permit is denied, state the reasons therefore. Any aggrieved person may appeal any permit decision made under this section, including failure to render a decision within the time period established in this section. A notice of appeal shall be filed with the commission within thirty days of the director's action or within thirty days from the date by which the decision should have been rendered if the director has failed to act.

Section 643.075 prescribes that there shall be a \$100 filing fee payable to the state of Missouri with each application before a construction permit shall be issued. No manufacturing or processing plant or operating location or other air contaminant source shall be required to pay more than one filing fee with a construction permit application. Upon completion of the

## APPENDIX II

department's evaluation of the application, but before receiving a construction permit, the applicant shall reimburse the department for all reasonable costs incurred by the department whether or not a construction permit is issued by the department or withdrawn by the applicant. If the department fails to approve or deny a construction permit within the time period specified in this section, the applicant shall not be required to reimburse the department for the review of the construction permit application. The commission shall, by rule, set the hourly charge, not to exceed the actual cost thereof and not to exceed \$50 per hour, for review of each construction permit application. The commission may exempt any person from payment of the hourly fees under this subdivision, or may reduce such fees, upon an appeal filed with the commission by such person stating that the fee will create an unreasonable economic hardship upon such person.

Section 643.075 prescribes that if the fees or any portion of the fees imposed by this section are not paid within 90 days from the date of billing there shall be imposed interest upon the unpaid amount at the rate of ten percent per annum from the date of billing until payment is actually made. A construction permit application for a portable facility may include any site at which the portable facility is expected to be used; however, a separate site permit application shall be required when the portable facility is used or expected to be used at any site which is not included in a previously approved construction permit application. Upon receipt of the application, the applicant shall be notified by the department of hourly fees and requirements put forth in this subdivision. Applicants who withdraw their application before the department completes its evaluation shall reimburse the department for costs incurred in the evaluation.

10 CSR 10-6.060 of the code of state regulations defines sources that are required to obtain permits to construct. It establishes requirements to be met prior to construction or modification of any of these sources. The rule also establishes permit fees and public notice requirements for certain sources and incorporates a means for unifying the processing of construction and operating permit issuance. The rule shall apply to installations throughout Missouri with the potential to emit any pollutant in an amount equal to or greater than the De Minimis levels. The rule describes the various exempt emissions units and the requirements for the different levels of permits. These different levels consist of temporary installations and pilot plants permits (Section 3), portable equipment permits (Section 4) for relocation to a new site or to an approved site De Minimis and minor permits (Sections 5 & 6), and major permits (Section 7, 8, or 9).

10 CSR 10-6.060 (10) addresses permit amendments and fees. Failure to submit the filing fee constitutes an incomplete permit application. Upon the determination that a complete application for a permit or a permit amendment has been received, a fee for permit processing in the amount of \$50 per hour of actual staff time will begin to accrue. The applicant shall submit fees for the processing of the permit application within 90 calendar days of the final review determination, whether the permit is approved, denied, withdrawn or not needed. After the 90 calendar days, the unpaid processing fees shall have interest imposed upon the unpaid amount at the rate of ten percent per annum from the date of billing until payment is made.

## APPENDIX II

Failure to submit the processing fees after the 90 calendar days will result in the permit being denied (revoked for portable installation location amendments) and the rejection of any future permit applications by the same applicant until the processing fees plus interest have been paid. Partially processed permits that are withdrawn after submittal shall be charged at the same processing fee rate of \$50 per hour of actual staff time.

10 CSR 10-6.060 prescribes that in order for an application to be complete, an application must include a completed application form and, to the extent not called for by the form, other information as required in the rule. Nothing shall prevent the permitting authority from requesting additional information that is reasonably necessary to process the application. The permitting authority shall maintain a checklist to be used for the completeness determination. A copy of the checklist identifying the application's deficiencies shall be provided to the applicant along with the notice of incompleteness. In requesting additional information, the permitting authority shall establish a reasonable deadline for a response. The review period will be extended by the amount of time necessary to collect the required information. An applicant shall submit an application package consisting of the standard application form and emissions information for construction permit application. The permitting authority may impose those conditions in a permit as may be necessary to accomplish the purposes of this rule, any applicable requirements, or the Air Conservation Law, Chapter 643 of the RSMo, and are no less stringent than any applicable requirements.

10 CSR 10-6.060 (13)-(16) prescribes that after making a final determination whether the permit should be approved, approved with conditions, or denied, the permitting authority shall notify the applicant in writing of the final determination and the total permit processing fees due. If payment of processing fees has not been received from the applicant 80 calendar days after the final determination, the permitting authority shall issue in writing to the applicant a final notice of payment due. No later than 3 calendar days after receipt of the whole amount of the fee due, the permitting authority will send the applicant a notice of payment received. The permit will also be issued at this time, provided the final determination was for approval and the permit processing fee was timely received.

## APPENDIX III

### WORKLOAD INFORMATION

#### Permit Applications in 1998 & 1999

|           | Applications in 1998 |           |          |                | Applications in 1999 |           |          |                |
|-----------|----------------------|-----------|----------|----------------|----------------------|-----------|----------|----------------|
| Month     | Received             | Completed | Issued * | Sect. 4 Issued | Received             | Completed | Issued * | Sect. 4 Issued |
| January   | 34                   | 59        | 37       | 8              | 47                   | 51        | 28       | 6              |
| February  | 55                   | 31        | 22       | 4              | 54                   | 53        | 23       | 15             |
| March     | 54                   | 50        | 21       | 14             | 90                   | 64        | 34       | 11             |

### PERCENT OF DAYS IN APPLICATION PROCESSING ON CONSTRUCTION PROJECTS REVIEWED FOR SEPTEMBER 1999 AND OCTOBER 1999

**(Unified): Major Reviews**

**Relocations**

**Deminimis and Minor**

**Relocations**

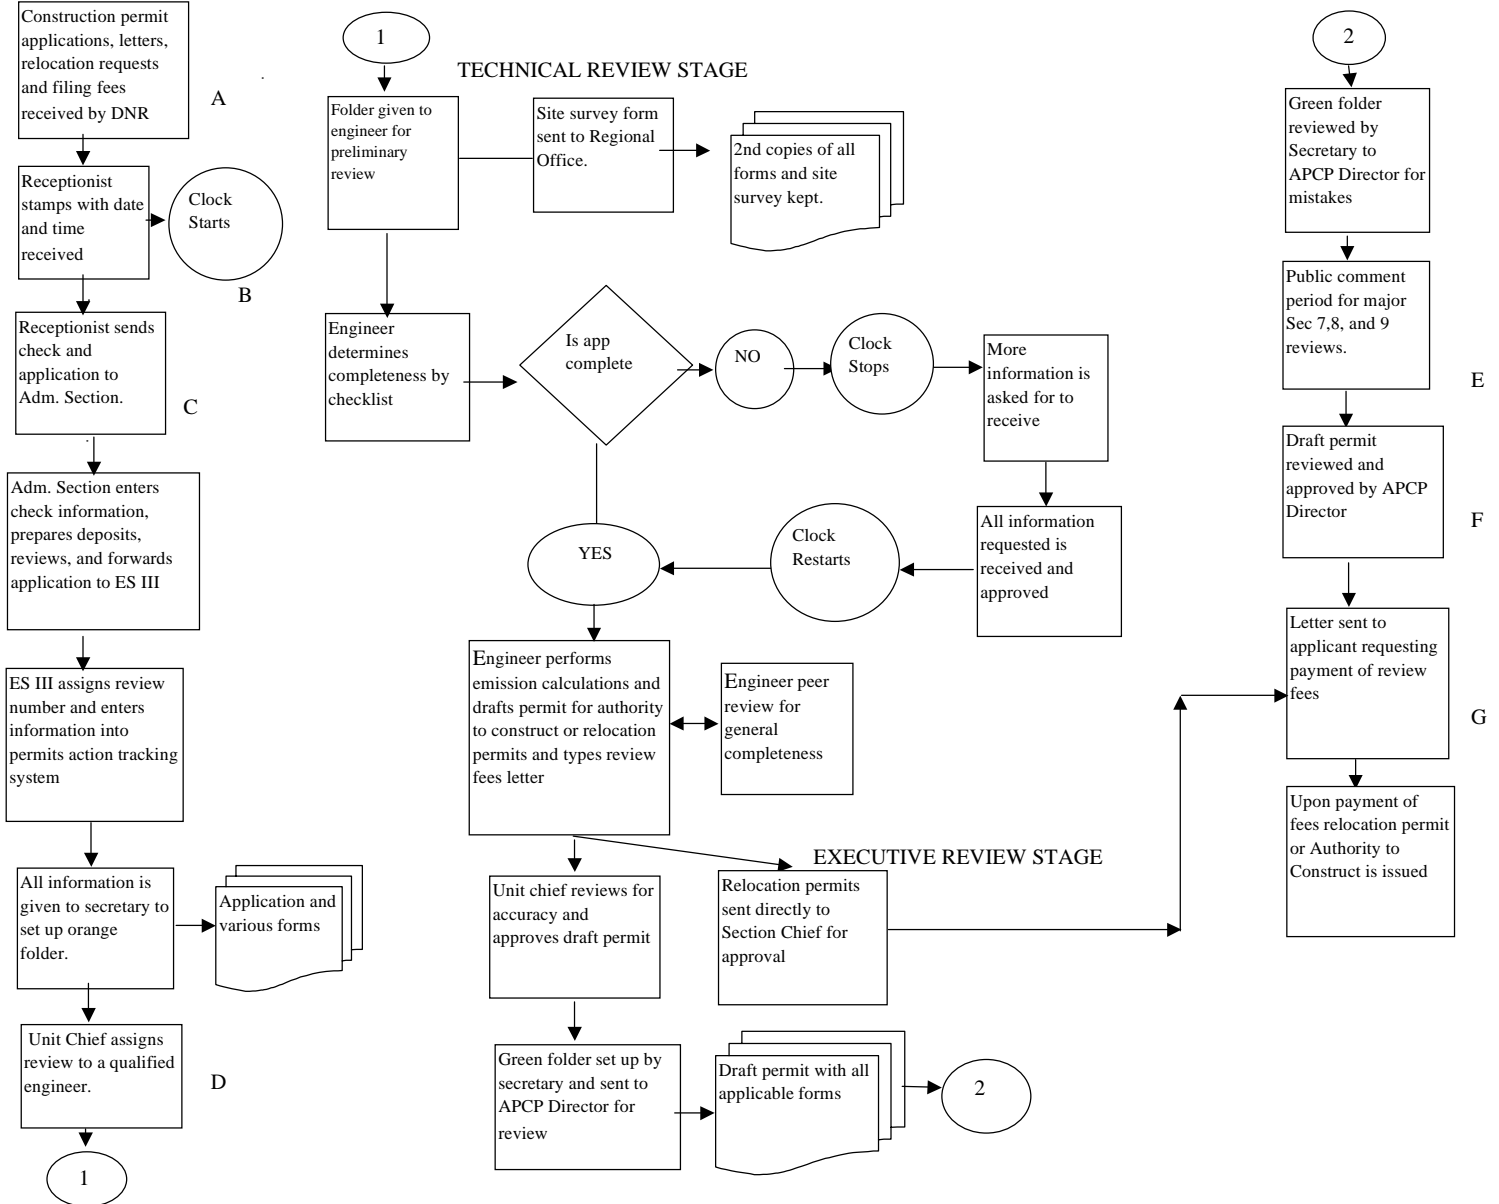

**Applicability Determinations**

## APPENDIX IV

### FLOWCHART OF PERMIT APPLICATION PROCESS

- A Filing fee of \$100 is not charged for applicability determination letters and Section 4 relocations.
- B DNR has 30 calendar days to determine completeness of the construction permit application.
- C If no check is received for a certain type of application or applicability determination letter, then the application or letter goes directly to the ES III to enter into the Permit Action Tracking System (PATs).
- D Secretary types letter to company telling that the application has been received and has been assigned to a certain engineer for review.
- E This process is statutory and requires public notice through advertisements and public hearings with time for comments.
- F The application stage did go all the way up to the Director of Environmental Quality to be approved and signed. The process was changed in June 1998 to allow program approval of permits.
- G The applicant is given 90 days to pay the review fees before interest is charged. An 80 day second fee notice is sent if not paid.

## APPENDIX V

### SUMMARY OF SURVEY QUESTIONNAIRE RESULTS

A survey questionnaire was sent to 100 different companies that submitted a permit application during the period January 1, 1999 through October 31, 1999. The results of this survey are as follows:

| Question   | Yes | No | % Yes |
|--|-----|----|-------|
| Enough information available to determine whether a permit was needed?   | 58  | 13 | 81    |
| Permit application package complete and easy to understand?  | 53  | 16 | 77    |
| Instructions accompanying the application detailed and easy to follow?   | 54  | 15 | 78    |
| Did DNR permit reviewer require any unnecessary information?   | 14  | 54 | 21    |
| Did you receive or need assistance from the Technical Assistance Program?  | 27  | 44 | 38    |
| Were the persons who assisted helpful, knowledgeable, and polite?  | 26  | 1  | 96    |
| Is the permit application process too complicated?   | 31  | 35 | 47    |
| Could the application process be standardized for many of the types of construction projects performed?          | 30  | 34 | 47    |
| Did the permit application process take longer than reasonably necessary?  | 25  | 48 | 34    |
| Was the permit to construct issued in a timely manner?   | 51  | 19 | 73    |
| Do you have ready access to the construction permit application package?   | 65  | 9  | 88    |
| Would you like application package and instructions to be on Internet?   | 56  | 16 | 78    |
| Is the \$100 construction permit filing fee charged reasonable?  | 65  | 9  | 88    |
| Is the review fee of \$50 per hour charged reasonable?   | 51  | 22 | 70    |
| Was an air quality analysis performed on your construction permit? Necessary?                                    | 17  | 44 | 28    |
| Has your company applied for more than one construction permit?  | 55  | 19 | 74    |
| Has the permit application process been consistent with your construction needs?                                 | 38  | 15 | 72    |
| Was an on-site inspection or survey performed on the construction project before the permit was actually issued? | 41  | 33 | 55    |

| Question  | Always | Sometimes | Never |
|---|--------|-----------|-------|
| Was the engineer who reviewed your permit knowledgeable and helpful?            | 42     | 17        |       |
| Did the construction permit unit appear responsive to your needs and questions? | 41     | 19        | 1     |

## **APPENDIX V**

An analysis of the responses indicates that the NSRU has received generally favorable customer service ratings from the respondents. The NSRU is rated in the above-75-percentile in key customer service questions (enough information available, application package easy to understand, instructions understandable, and ready access to permit package).

Respondents expressed an interest in having information available on the Internet. Over one third of the respondents believed the permit process took too long, and nearly half the respondents believed that the permit process was too complicated, and also, believed that some standardization in the application process could be accomplished for some industries. These would be areas that NSRU should strive for improvement.

## APPENDIX VI

STATE OF MISSOURI  
DEPARTMENT OF NATURAL RESOURCES  
OFFICE OF THE DIRECTOR  
P.O. Box 176 Jefferson City, MO 65102-0176

JUL 11 2000

The Honorable Claire McCaskill  
Missouri State Auditor  
State Capitol Building, Room 224  
Jefferson City, MO 65102

Dear Auditor McCaskill:

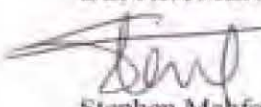

I would like to thank you for completing the performance audit entitled, *The Department of Natural Resources Air Pollution Control Program New Source Review Unit* on our permitting function in the Air Pollution Control Program within the Division of Environmental Quality. When I contacted you to complete this performance audit, we were hoping for a product that would help us improve the operations of our Air Pollution Control Program. We would also like to replicate this assessment into our other programs. We are very pleased with the results of this audit and are in the process of implementing most of your recommendations. I am enclosing the Department of Natural Resources responses to the issues identified in the audit.

The working relationship developed between our two staffs during this audit was excellent. I believe that this audit establishes a model for performance auditing that could be useful for all state agencies. I appreciate your willingness to work with my staff in presenting the findings professionally and objectively.

Thank you for your assistance in performing this audit for the needed function for the Department of Natural Resources.

Sincerely,

DEPARTMENT OF NATURAL RESOURCES

  
Stephen Mahfood  
Director

SM/ghh

## DNR Responses to draft State Auditor Report of NSRU in 2000

**1.Reorganizing the New Source Review Unit (NSRU) Would Enhance Construction Permit Processing**

| <b>Recommendations</b>   | <b>Response</b> | <b>Comment</b>   |
|--|-----------------|--|
| A. Establish a pre-screening unit to ensure engineers are only given permit applications that are complete and ready for the engineers' technical reviews. | Agree           | The APCP will staff the new unit with non-engineers who will only be checking for administrative completeness. The review engineers will still get applications where additional technical information is needed. The new unit will also conduct some permitting functions such as review of portable sources. Positions for this unit are in process of re-allocation and will be subject to the Office of Administration approval. The new unit is expected to be approved no later than November 1, 2000 and established immediately upon approval. |
| B. Transfer accounting functions to DNR's accounting office  | Agree           | APCP will be transferring this function to the APCP accounting office, rather than the DNR's. The APCP believes permits will be processed faster at a program level. Hence, activity functions will be transferred to APCP Administration Section as soon as possible, but no later than January 1, 2001.  |

## DNR Responses to draft State Auditor Report of NSRU in 2000

| Recommendations   | Response | Comment  |
|---|----------|--|
| C. Request salary increases for engineers at or near private sector levels.   | Agree    | The DNR is supportive of the Governor's initiative, COMAP. In addition, the Division of Environmental Quality (DEQ) is looking for ways to promote non-registered engineers above the entry-level positions. The APCP will recommend options to the DEQ as soon as possible, but no later than November 1, 2000. |
| D.1. Analyze current workloads to determine the duties and functions that could be performed by non-engineer employees.   | Agree    | The new Unit (mentioned in a previous recommendation) will include additional non-engineering permitting duties. The duties and functions identified through this analysis will be moved to this Unit. These non-engineering duties will be performed as soon as the new unit is established.                    |
| D.2. Analyze current workloads to determine the number of engineer and non-engineer personnel needed to perform the NSRU functions, and recruit and hire staff accordingly. | Agree    | As mentioned previously, some of the NSRU's functions will be transferred to the new unit as soon as the new unit is established.  |

## DNR Responses to draft State Auditor Report of NSRU in 2000

2. **The Process Flow of Construction Permit Applications Can Be Improved**

| Recommendations   | Response | Comment   |
|---|----------|---|
| A. Separate the fee check from the application and send the application immediately to the permitting section to begin processing. The check and a photocopy of the front page of the application could be sent to administration to be processed simultaneously. | Agree    | The implementation of this recommendation will occur as soon as possible, but no later than November 1, 2000.   |
| B. Review the time it takes to assign projects to engineers and ensure projects are assigned on a timely basis.   | Agree    | The APCP will re-evaluate the number of planned days assigned to each processing step (these are non-regulatory timeframes). This re-evaluation will be one of the first tasks of the new Unit and will be addressed as soon as the Unit is established (refer to recommendation 1.A.). |

## DNR Responses to draft State Auditor Report of NSRU in 2000

| Recommendations  | Response | Comment  |
|--|----------|--|
| C. Monitor the processing times in all phases of the application review process and, take action to ensure standard time frames are met. | Agree    | The <u>current</u> procedure ensures regulatory deadlines are met with a success rate of 99%. The APCP will improve the current processing time monitoring procedures to minimize deviation within each planned step and correct the 1% of projects that exceed the regulatory timeframes. The improved monitoring will occur as soon as possible, but no later than November 1, 2000. A report of the results of the improved monitoring will be available July 1, 2001 (approximately eight months of data). |

## DNR Responses to draft State Auditor Report of NSRU in 2000

| Recommendations   | Response      | Comment  |
|---|---------------|--|
| D. Develop maximum time standards for projects placed on hold after which the applications would be canceled. | Agree in Part | <p>The APCP will work with applicants to ensure that applicants are still actively pursuing their permits. The state statute does not place a deadline on an applicant's ability to supply information. Thus, many projects are placed on hold until extensive modeling or monitoring is conducted. Often the applicant fails to respond for business reasons unknown to APCP. Projects on hold take longer to complete, but are still within the statutory timeframes (because the statute deals with the permitting authority's actions, not the applicants). Because this recommendation requires legal support and possibly a rule revision, we expect to complete implementation within 12 months, July 1, 2001. Since this change may have a negative affect on customer satisfaction, the APCP recommends that at this time we include a step called "inactive status" in PATS until we work through these issues. "Inactive Status" will begin as soon as possible, but not later than November 1, 2001.</p> |

## APPENDIX VI

### DNR Responses to draft State Auditor Report of NSRU in 2000

| Recommendations  | Response | Comment  |
|--|----------|--|
| E. Ensure that follow-up action is timely for projects placed on hold awaiting additional information. | Agree    | In addition, the APCP will shorten the length of time a project is placed on hold, from 30 days to 10 days. This recommendation should reduce the amount of time an application is awaiting additional information, or “on hold” (see attached pie charts). APCP will implement these changes as soon as possible, but no later than November 1, 2000. |

## DNR Responses to draft State Auditor Report of NSRU in 2000

| Recommendations   | Response      | Comment   |
|---|---------------|---|
| F. Require supervisory approval before placing any project on hold. | Agree in Part | <p>The APCP has established that projects may be placed “on hold” only if additional information is necessary or if the applicant wants to delay processing for their own reasons. Unit Chief approval of each of the “on hold” requests will slow down permit processing due to the number of projects being processed. Instead, the APCP will initiate a process where the NSRU Chief reviews the projects “on hold” during the weekly unit meetings. Documentation for projects “on hold” will be recorded in the permit file as well as in PATS. This information will be available to the NSRU Chief for review. The APCP alternative will be implemented as soon as possible, but no later than November 1, 2000.</p> |

## DNR Responses to draft State Auditor Report of NSRU in 2000

| Recommendations   | Response | Comment  |
|---|----------|--|
| G. Delegate the authority to approve permits for the lower priority applications to the Unit Chief                | Disagree | The signature authority in the statute resides with the Department Director. The signature authority has been delegated two management levels down. It is necessary that multi-media coordination occur on permits. The lowest level of management where multi-media coordination occurs at a peer level is the level at which the permit signature is currently delegated, the APCP Program Director. |
| H. Establish a warning system for executives to ensure that their reviews are complete before fees are forfeited. | Agree    | The APCP will evaluate the PATS's capabilities provide weekly reports that anticipate action. The results of this evaluation will be available as soon as possible, but no later than November 1, 2000. If additional resources are necessary in order to establish an early warning system, then those resources will pursued and should be available no later than July 1, 2001.                     |

## DNR Responses to draft State Auditor Report of NSRU in 2000

3. **NSRU Staff Could Improve Management of Fees that Are Received for Construction Permits**

| Recommendations  | Response | Comment   |
|--|----------|---|
| A.1.) Establish procedures and appropriate supervisory review for assessing fees for permit applications that are either withdrawn or denied.  | Agree    | The APCP will transfer this function to the APCP Administration Section. While the APCP attempts to collect fees, there is no enforceable mechanism to assess these fees. A change in state law may be necessary. The Department will assess the need for legislation and pursue accordingly. |
| A.2.) Establish procedures and appropriate supervisory review for refunding or applying fees to pending processing fees when fees are received for permits that do not require them.           | Agree    | The APCP will improve this action by developing a standard procedure for refunding fees that will include the transfer of some responsibilities to the APCP accounting group. These actions will occur as soon as possible, but no later than January 1, 2001.                                |
| A.3.) Establish procedures and appropriate supervisory review for refunding fees to applicants when they are improperly billed for permit processing days in excess of regulatory time frames. | Agree    | Same as above.  |

## DNR Responses to draft State Auditor Report of NSRU in 2000

| Recommendations   | Response | Comment  |
|---|----------|--|
| B. Discontinue billing applicants for processing fees when NSRU does not meet regulatory time frames. | Agree    | The APCP's practice is to forgo the engineering fees whenever the timeframe is not met. However, the billing process will improve with the transfer of accounting functions, as noted in previous recommendations. |

## DNR Responses to draft State Auditor Report of NSRU in 2000

4. **Financial and Management Reporting Information Systems Could Be Improved**

| Recommendations   | Response      | Comment  |
|---|---------------|--|
| A. Develop more detailed reports of actual hours used on each permit application, current status of each permit application, and the number of days used to process the application in each review stage. | Agree in Part | The APCP will assess the following issues before committing to any changes in the current procedures: cost benefit and SAM II system capabilities. The resources to study this recommendation will be pursued. Internal recommendations will be prepared as soon as possible, but no later than July 1, 2001.  |
| B. Develop a job cost reporting system to track the time charged to each permit application to the time actually charged on the time sheets.  | Agree         | This recommendation could require several years to develop. The computer system will have to be tied into our existing efforts. APCP estimates a cost of \$100,000 to include this in our permit integration efforts. Internal recommendations to develop and implement this system will be pursued as soon as possible, but no later than January 1, 2001 |

## DNR Responses to draft State Auditor Report of NSRU in 2000

| Recommendations   | Response | Comment   |
|---|----------|---|
| C. Ensure the PATS reports add sections to track the filing fee and the steps between the time the application is logged in until the time it is assigned to an engineer. | Agree    | The APCP currently tracks these steps under “Check Application”. Currently this group contains two steps. The first entry is at the program level, which is entered by the permit section staff. The second entry is at the Unit staff level. The APCP will evaluate adding more steps to the “Check Application” group as soon as possible, but no later than November 1, 2000. If additional resources are indicated by the evaluation, then those resources will be available as soon as the new Unit is established (refer to recommendation 1.A.). |
| D. Ensure the completed folders contain a final PATS report.  | Disagree | The APCP believes the electronic version of the PATS report is sufficient. The electronic version summarizes the permitting activities. The inclusion of a final printed PATS report in the permit file would not serve any useful purpose.   |

## DNR Responses to draft State Auditor Report of NSRU in 2000

| Recommendations  | Response      | Comment  |
|--|---------------|--|
| E. Instruct engineers to exercise greater care in the timely, accurate recording of entries to the PATS system.  | Agree         | APCP is committing to more training and oversight to accomplish this recommendation. The APCP will immediately add periodic reminders during unit meetings. The additional training will be developed and oversight procedures implemented as soon as possible, but no later than January 1, 2001. |
| F. Study the actual staff time, engineers' time, and management review time for each permit application to determine the actual and required number of hours necessary to process a permit application.              | Agree in Part | APCP will continue to strive for accurate tracking in permit processing. Coupled with previous recommendations, the APCP will be in a better position to address this. See recommendation 4.A.   |
| G. Request legislation to change the statutory maximum billing rate if the actual cost of operation for each permit application exceeds the current statutory billing rate of \$50 per hour for process review time. | Agree         | The APCP will recommend possible legislation for the next session of the General Assembly.   |

## DNR Responses to draft State Auditor Report of NSRU in 2000

| Recommendations  | Response | Comment   |
|--|----------|---|
| H. Develop a system to determine the appropriate billing rates for each of the different classifications of employees that actually work on the permit review process. | Agree    | We have interpreted the law as it is presented in the permit rule. APCP will evaluate this recommendation. This proposal is a more complicated billing system than our current method. A legal request for statute interpretation will be prepared as soon as possible, but not later than January 1, 2001. |

## DNR Responses to draft State Auditor Report of NSRU in 2000

5. The APCP Has Taken Positive Steps to Assist Industry

| Recommendations  | Response | Comment   |
|--|----------|---|
| A. Develop a more informative and detailed web site for the construction permit process including placing the permit application and instructions on the web site. Specific information should be provided to enable businesses to be able to determine when permits are not needed. | Agree    | The APCP will pursue the recommendation no later than January 1, 2001.  |
| B. Develop a lessons-learned package for distribution to industry to improve information and the quality of permit applications.   | Agree    | The APCP will pursue this recommendation as soon as possible, but no later than July 1, 2001.   |
| C. Conduct focused reviews on the industries outlined in the "Construction Permit Streamlining Workgroup" final report to determine the feasibility of establishing permits by rule.   | Agree    | The time to implement this recommendation subject to availability and interest of industrial associations. The APCP will seek out additional partnerships to develop "permits by rule." This recommendation will be initiated as soon as possible, but no later than January 1, 2001. |
| D. Develop standard modeling procedures and requirements for the various types of industries.  | Agree    | The APCP is currently working with the limestone producers association to develop procedures for modeling and permitting. The resources and staff will be re-allocated for this recommendation as soon as possible, but no later than July 1, 2001.                                   |

MONROE COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-54  
July 5, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

July 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Monroe, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Monroe County was a financial and compliance audit of various county operating funds. The following concern was noted as part of the audit:

- As noted in the prior audit report, the county does not have adequate procedures in place to prepare a complete and accurate Schedule of Expenditures of Federal Awards (SEFA). The county's SEFA contained errors and omissions. An accurate SEFA is necessary to ensure federal financial activity is audited and reported in accordance with federal requirements.

The audit also includes some other matters upon which the county should consider and take appropriate corrective action.

**Copies of the audit are available upon request.**

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Monroe County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Monroe County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

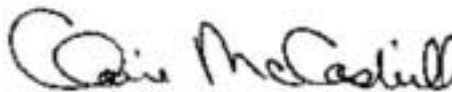

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Monroe County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Monroe County.

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Monroe County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated February 15, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Monroe County, Missouri

We have audited the special-purpose financial statements of various funds of Monroe County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated February 15, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

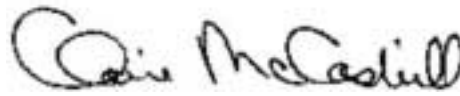

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Monroe County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance, which we have reported to the management of the county in the accompanying Letter on Other Matters.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Monroe County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the

design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting, which we have reported to the management of the county in the accompanying Letter on Other Matters.

This report is intended for the information of the management of Monroe County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, reading "Claire McCaskill". The signature is written in a cursive, flowing style.

The accompanying Notes to the Financial Statements are an integral part of this statement.

## Notes to the Financial Statements

MONROE COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Monroe County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, the Health Center Board or the Handicapped Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| DARE Program Fund                        | 1999 and 1998                   |
| Associate Circuit Division Interest Fund | 1998                            |
| Local Emergency Planning Grant Fund      | 1999 and 1998                   |
| Election Services Fund                   | 1999                            |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                        | <u>Years Ended December 31,</u> |
|------------------------------------|---------------------------------|
| Law Enforcement Training Fund      | 1999                            |
| Prosecuting Attorney Training Fund | 1998                            |
| Domestic Violence Fund             | 1998                            |
| Circuit Clerk Interest Fund        | 1999                            |
| Sheriff's Civil Fees Fund          | 1999                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements did not include the following funds:

| <u>Fund</u>                            | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Handicapped Board Fund                 | 1999 and 1998                   |
| DARE Program Fund                      | 1999 and 1998                   |
| Local Emergency Planning Grant<br>Fund | 1999 and 1998                   |
| Health Center Fund                     | 1999 and 1998                   |

2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

Cash includes both deposits and investments. In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of deposits and investments. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions. Investments are securities and other assets acquired primarily for the purpose of obtaining income or profit.

### Deposits

The financial statements do not include the cash balances of the County Collector, who collects and distributes property taxes as an agent for various local governments. However, for the purpose of these risk disclosures, the County Collector's cash balances are included since collateral securities to cover amounts not covered by federal depositary insurance are pledged to the county rather than to specific county officials.

At December 31, 1999, the reported amount of the county's deposits was \$3,663,508 and the bank balance was \$3,748,229. Of the bank balance, \$1,564,961 was covered by federal depositary insurance or by collateral securities held by the county's custodial bank in the county's name, and \$2,183,268 was covered by collateral pledged by one bank and held in the county's name by the trust department of an affiliate of the same bank holding company.

At December 31, 1998, the reported amount of the county's deposits was \$3,705,231 and the bank balance was \$3,786,509. Of the bank balance, \$1,539,213 was covered by federal depositary insurance or by collateral securities held by the county's custodial bank in the county's name, and \$2,247,296 was covered by collateral pledged by one bank and held in the county's name by the trust department of an affiliate of the same bank holding company.

Of the health center's bank balance at December 31, 1999, \$302,341 was covered by federal depositary insurance or by collateral securities held by the health center's custodial bank in the health center's name and \$20,696 was covered by collateral pledged by one bank and held in the health center's name by the trust department of an affiliate of the same bank holding company.

Of the health center's bank balance at December 31, 1998, \$258,634 was covered by federal depositary insurance or by collateral securities held by the health center's custodial bank in the health center's name and \$18,326 was covered by collateral pledged by one bank and held in the health center's name by the trust department of an affiliate of the same bank holding company.

The Handicapped Board's deposits at December 31, 1999 and 1998, were entirely covered by federal depositary insurance.

### Investments

The only investment of the various funds at December 31, 1999 and 1998, was a repurchase agreement with reported amounts of \$2,841,000 and \$2,881,000 which approximated fair value.

This investment represents uninsured and unregistered investments for which the securities were held by the dealer bank's trust department or agent in the county's name.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

MONROE COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Monroe County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for the National Criminal History Improvement Program (CFDA number 16.554) represent the original acquisition cost of equipment received.

Of the pass-through amounts for Immunization Grants (CFDA number 93.268), \$19,708 and \$9,856 represent the original acquisition cost of vaccines purchased by

the Centers for Disease Control of the U.S. Department of Health and Human Services, but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991) represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$1,173 and \$896 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

The county provided no federal awards to subrecipients during the years ended December 31, 1999 and 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Monroe County, Missouri

Compliance

We have audited the compliance of Monroe County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998. The county's major federal program is identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Monroe County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the years ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed an instance

of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

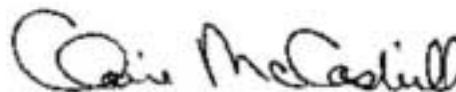

#### Internal Control Over Compliance

The management of Monroe County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted a certain matter involving the internal control over compliance and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the county's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. The reportable condition is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we do not believe that the reportable condition described above is a material weakness.

This report is intended for the information of the management of Monroe County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

Claire McCaskill  
State Auditor

February 15, 2000 (fieldwork completion date)

| Identifying Numbers:  | BRO-069                                  |
| Award Years:          | 1999 and 1998                            |
| Questioned Costs:     | Not applicable                           |

Section .310(b) of Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the SEFA to the State Auditor's Office as a part of the annual budget. For the SEFA to adequately reflect the county's federal expenditures, it is necessary that all federal expenditures be properly reported.

The county does not have adequate procedures in place to track federal awards for the preparation of the SEFA. For the years ended December 31, 1999 and 1998, the county's SEFA contained numerous errors and omissions. For example, expenditures relating to several federal grants were not included on the schedules. Other programs reported did not include the required CFDA number or pass-through grantor's number. In addition, some non-federal programs were included and other programs were reported incorrectly. In total, expenditures were understated by approximately \$175,000 for 1999 and expenditures were overstated by approximately \$8,000 for 1998.

Without an accurate SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

**WE RECOMMEND** the County Clerk prepare a complete and accurate schedule of expenditures of federal awards.

**AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

*The County Clerk provided the following response:*

*We will try to prepare a complete and accurate SEFA beginning with the budget filed in January 2001.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

MONROE COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

MONROE COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

This section represents the Summary Schedule of Prior Audit Findings, which was prepared by the county's management.

4.D. Schedule of Federal Financial Assistance

|                       |  |
|-----------------------|--|
| Federal Grantor:      | U.S. Department of Transportation        |
| Pass-Through Grantor: | Department of Highway and Transportation |
| Federal CFDA Number:  | 20.205                                   |
| Program Title:        | Highway Planning and Construction        |
| Pass-Through Entity   |  |
| Identifying Numbers:  | BRO-069                                  |
| Award Years:          | 1996                                     |
| Questioned Costs:     | Not applicable                           |

|                       |                                     |
|-----------------------|-------------------------------------|
| Federal Grantor:      | Federal Emergency Management Agency |
| Pass-Through Grantor: | Department of Public Safety         |
| Federal CFDA Number:  | 83.516                              |
| Program Title:        | Disaster Assistance                 |
| Pass-Through Entity   |                                     |
| Identifying Numbers:  | FEMA-995-DR-MO                      |
| Award Years:          | 1996                                |
| Questioned Costs:     | Not applicable                      |

The county's Schedule of Federal Financial Assistance contained errors and omissions. Expenditures from the Highway Planning and Construction Program were overstated by \$218,102 for 1996 and the Federal Emergency Management Assistance program was understated by \$10,300 for 1996.

Recommendation:

The County Commission and the County Clerk ensure all federal financial expenditure amounts are properly recorded on the schedule of federal financial assistance.

Status:

Not implemented. See finding number 99-1.

## SECTION ON OTHER MATTERS

## MONROE COUNTY, MISSOURI LETTER ON OTHER MATTERS

We have audited the special-purpose financial statements of various funds of Monroe County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated February 15, 2000. We also have audited the compliance of Monroe County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998, and have issued our report thereon dated February 15, 2000.

We did not review the operations of elected officials with funds other than those presented in the special-purpose financial statements. The operations of such officials will be reviewed and reported on during the state auditor's next scheduled audit of the county.

This Letter on Other Matters presents matters other than the findings, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These matters resulted from our audit of the special-purpose financial statements of Monroe County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*. Nevertheless, the county should consider these matters and take appropriate corrective action.

### 1. Personnel Policies and Procedures

Employees do not always record actual hours worked or leave or compensatory time taken on their time sheets. Officials or supervisors do not always sign time sheets to document approval of payroll expenditures. The Sheriff and the salaried deputies do not prepare time sheets and do not submit leave records to the County Clerk.

### 2. Sheriff Expenditures

The County Sheriff uses a county MasterCard for expenditures incurred to transport prisoners, attend seminars and conferences, and purchase supplies and equipment. The Mastercard bills are not always submitted to the County Clerk in a timely manner and the county has incurred late fees and finance charges on these expenditures.

### 3. County Treasurer's Banking Procedures

As of December 31, 1999, the County Treasurer maintained six checking accounts, eight money market accounts, and three certificates of deposit. A large number of accounts creates additional record keeping and increases the likelihood that errors will occur in recording transactions.

4. Health Center

The postage petty cash fund is not maintained on an imprest basis or at a constant amount. Some donations received by the Health Center are not receipted and are placed directly in the postage petty cash fund.

Receipt slips are not appropriately controlled. A voided receipt slip was not retained and three receipt slips were unaccounted for.

The Health Center's financial statements were not published as required by Sections 50.800 and 50.810.

5. Handicapped Board

Expenses of the Handicapped Board were sometimes charged on the Administrator's personal credit card. As a result, personal and business expenses were not always distinguishable and errors were sometimes made. We noted finance charges were sometimes paid by the board and in one instance, a personal expenditure was paid by the board and was not reimbursed for several months.

The Handicapped Board's financial statements were not published as required by Sections 50.800 and 50.810. Budget estimates prepared by the Handicapped Board did not appear reasonable as disbursements were overestimated resulting in a zero projected ending balance.

This Letter on Other Matters is intended for the information of the management of Monroe County, Missouri, and other applicable government officials. However, this letter is a matter of public record and its distribution is not limited.

OFFICE OF ATTORNEY GENERAL

FOUR YEARS ENDED JUNE 30, 1999

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

June 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**The following findings were noted as a result of an audit conducted by our office of the Office of the Attorney General.**

-----  
Formal written contracts are rarely prepared to document agreements for outside legal and other professional services, but instead the Attorney General's office generally uses an engagement letter to document such arrangements. However, twenty-two payments were noted totaling over \$199,000 for such services, which the Attorney General's office was unable to produce an engagement letter.

Eleven payments were noted which included charges which were either not addressed in the engagement letters or were not in accordance with the letters. In all of these instances, the rates billed for associates and paralegals were not included in the engagement letters, and in four instances, the rates billed for partners were higher than the rates quoted in the letters. While the Attorney General's Office has established billing policies and procedures for outside counsel in a billing policies and procedures manual, we noted many instances where supporting documentation was not in accordance with this manual.

Without written agreements, it is difficult to determine whether all charges billed are proper. In addition, written agreements are necessary to ensure all parties are aware of their duties and to clarify all compensation allowed.

According to staff of the Attorney General's office, outside legal counsel is hired when there is a conflict of interest for the office or when the case is very complex and requires specialized services. The Attorney General's office could not provide us with documentation regarding the reasons for hiring outside legal counsel for particular cases or the method of selecting these attorneys, including the case involving the tobacco litigation. There was no documentation to support how the lead attorney was selected to represent Missouri in this case.

Considering the extent of services obtained from outside legal counsel, it appears this information should be documented to support the propriety of the decision-making process.

Other items noted in the report included:

- The duties surrounding the establishment and handling of restitution amounts due are not adequately segregated and procedures for monitoring the collection of these receivables are not adequate.

(over)

YELLOW SHEET

- The Attorney General's Office does not require some employees to prepare monthly time sheets, and the timekeeping system is cumbersome and does not provide useful information. A written personnel policy has not been established and written job descriptions have not been created.
- The Attorney General's Office does not ensure the costs of commercial flights are compared to the costs of using state planes for out-of-state air travel.
- It was noted that some computer equipment purchased with federal funds for the Medicaid Fraud Control Unit was being used by employees in other sections. According to the federal program regulations, equipment purchased with funds pursuant to this program should not be used for any purpose other than investigating and prosecuting Medicaid fraud.
- The Attorney General's office has established several bank accounts outside the state treasury. It appears the monies deposited in some of these accounts are state funds and should be maintained by the State Treasurer's office. In addition, a formal written depository contract has not been entered into with the bank where the accounts are maintained.

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON  
THE FINANCIAL STATEMENTS**

Honorable Jeremiah W. (Jay) Nixon, Attorney General  
Jefferson City, Missouri 65102

We have audited the accompanying special-purpose financial statements of the various funds of the Office of Attorney General as of and for the years ended June 30, 1999, 1998, 1997, and 1996, as identified in the table of contents. These special-purpose financial statements are the responsibility of the office's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, transfers, and changes in cash and investments of the General Revenue Fund-Federal, Court Costs Fund, Antitrust Revolving Fund, Merchandising Practices Revolving Fund, Merchandising Practices Restitution Account, Tort Victims' Compensation Fund, Health Spa Regulatory Fund, Inmate Incarceration Reimbursement Act Revolving Fund, and Multi-State Consumer Fraud Accounts; the receipts of the General Revenue Fund-State; and the appropriations and expenditures of the various funds of the Office of Attorney General and are not intended to be a complete presentation of the financial position and results of operations of the various funds of the office.

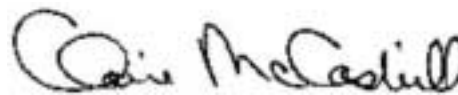

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, transfers, and changes in cash and investments of the General Revenue Fund-Federal, Court Costs Fund, Antitrust Revolving Fund, Merchandising Practices Revolving Fund, Merchandising Practices Restitution Account, Tort Victims' Compensation Fund, Health Spa Regulatory Fund, Inmate Incarceration Reimbursement Act Revolving Fund, and Multi-State Consumer Fraud Accounts; the receipts of the General Revenue Fund-State; and the appropriations and expenditures of the various funds of the Office of Attorney General as of and for the years ended June 30, 1999, 1998, 1997, and 1996, in conformity with the comprehensive bases of accounting discussed in Note 1, which are bases of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated October 1, 1999, on our consideration of the office's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

Our audit was made for the purpose of forming an opinion on the special-purpose financial statements, taken as a whole, that are referred to in the first paragraph. The accompanying financial information listed as supplementary data in the table of contents is presented for purposes of additional analysis. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated in all material respects in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the office's management and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

An integral part of the office's funding comes from federal awards. Those federal awards are reported on in the State of Missouri Single Audit Report issued by the State Auditor's office. The single audit is conducted in accordance with the provisions of Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

Claire McCaskill

**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

Honorable Jeremiah W. (Jay) Nixon, Attorney General  
Jefferson City, Missouri 65102

We have audited the special-purpose financial statements of the Office of Attorney General as of and for the years ended June 30, 1999, 1998, 1997, and 1996, and have issued our report thereon dated October 1, 1999. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the special-purpose financial statements of the Office of Attorney General are free of material misstatement, we performed tests of the office's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no material instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain other instances of noncompliance which are presented in the accompanying Management Advisory Report.

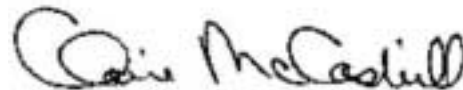

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of the Office of Attorney General, we considered the office's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the office's ability to record, process, summarize, and report financial data consistent with the assertions of management in the special-purpose financial statements.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses, and these matters are presented in the accompanying Management Advisory Report.

This report is intended for the information of the management of the Office of Attorney General and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

## Notes to the Financial Statements and Supplementary Data

OFFICE OF ATTORNEY GENERAL  
NOTES TO THE FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Notes to the Financial Statements:

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present only selected data for each fund of the Office of Attorney General.

Receipts, disbursements, transfers, and changes in cash and investments are presented in Exhibit A for the General Revenue Fund-Federal, Court Costs Fund, Antitrust Revolving Fund, Merchandising Practices Revolving Fund, Merchandising Practices Restitution Account, Tort Victims' Compensation Fund, Health Spa Regulatory Fund, Inmate Incarceration Reimbursement Act Revolving Fund, and Multi-State Consumer Fraud Accounts. Except for the Merchandising Practices Restitution Account and Multi-State Consumer Fraud Accounts, appropriations from these funds are expended by or for the office for restricted purposes. Appropriations are not made from the Merchandising Practices Restitution Account and Multi-State Consumer Fraud Accounts. These accounts are controlled entirely by the office and are expended by or for the office for restricted purposes.

The "Total (Memorandum Only)" column is presented as additional analytical data. Because this column does not identify the restrictions that exist by fund, it should be read only with reference to the details of each fund.

Receipts are presented in Exhibit B for the General Revenue Fund-State. Receipts include monies the office collects during its normal activities and remits to the fund. These amounts are not necessarily related to appropriations.

Appropriations, presented in Exhibit C, are not separate accounting entities. They do not record the assets, liabilities, and equities of the related funds but are used only to account for and control the office's expenditures from amounts appropriated by the General Assembly.

Expenditures presented for each appropriation may not reflect the total cost of the related activity. Other direct and indirect costs provided by the office and other state agencies are not allocated to the applicable fund or program.

B. Basis of Accounting

The Statements of Receipts, Disbursements, Transfers, and Changes in Cash and Investments, Exhibit A, prepared on the cash basis of accounting, present amounts when they are received or disbursed.

The Statement of Receipts, Exhibit B, also prepared on the cash basis of accounting, presents amounts when received.

The Statements of Appropriations and Expenditures, Exhibit C, is presented on the state's legal budgetary basis of accounting which recognizes expenditures on the encumbrance method. Expenditures include amounts payable or encumbered at June 30 and paid during the lapse period, which ends August 31 for regular appropriations and December 31 for capital improvement appropriations. The authority to expend appropriations ends with the close of the lapse period. However, the General Assembly may authorize reappropriation of the unexpended balances of capital improvement appropriations for the following year. The General Assembly also may authorize biennial capital improvement appropriations, for which the unexpended balances at June 30 of the first year of the two-year period are reappropriated for expenditure during the second year.

The cash basis of accounting and the budgetary basis of accounting differ from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

#### C. Fiscal Authority and Responsibility

The office administers transactions in the funds listed below. The state treasurer as fund custodian and the Office of Administration provide administrative control over fund resources within the authority prescribed by the General Assembly, except for the Merchandising Practices Restitution Account and Multi-State Consumer Fraud Accounts, which are controlled entirely by the office.

General Revenue Fund-Federal: The office administers a program financed partially by federal monies which are maintained in the state treasury in the Office of Attorney General's Federal Account. These federal funds may be received in advance, at the time related expenditures are made, or as reimbursements. Appropriations from this fund authorize the disbursement of the office's federal funds.

Court Costs Fund: This fund was established by Section 27.080, RSMo 1994, for the receipt of deposits and the payment of court costs incurred in any litigation in which it is the duty of the office to defend, prosecute, or appear. The fund consists of monies transferred by the General Assembly from the state's General Revenue Fund and refunds of any deposits or court costs. Expenditures are authorized by appropriation and balances remaining in the fund are perpetually maintained for the purpose of the fund.

Antitrust Revolving Fund: This fund was established by Section 416.081, RSMo 1994, to pay costs incurred by the office in the investigation, prosecution, and enforcement of state and federal antitrust related laws. Transfers made by the General Assembly from the state's General Revenue Fund, 10 percent of any settlements, and all court costs recovered pursuant to litigation are deposited into this fund. Balances remaining in the fund are perpetually maintained for the purpose of the fund.

Merchandising Practices Revolving Fund: This fund was established by Section 407.140, RSMo 1994, to pay costs incurred by the office in the investigation, prosecution, and enforcement of state merchandising practices laws, and to provide funds for consumer education and advocacy programs. Transfers made by the General Assembly from the state's General Revenue Fund, 10 percent of any court-ordered restitution, court costs recovered, and any unclaimed restitutions, are deposited into this fund. Balances remaining in the fund are perpetually maintained for the purpose of the fund.

Merchandising Practices Restitution Account: This bank account was established by the office to receive any restitution awarded by the courts for violation of state merchandising practices laws. Payments from the account provide restitution to parties who can present proof they were affected by the violations. Restitutions remaining unclaimed are transferred to the Merchandising Practices Revolving Fund.

Tort Victims' Compensation Fund: This fund was established by Section 537.675, RSMo 1994. Monies deposited into this fund represent 50 percent of any final judgement awarding punitive damages, after the deduction of attorney's fees and expenses. No disbursements may be made from the fund until procedures for disbursements are established by the General Assembly.

Health Spa Regulatory Fund: This fund was established by Section 407.327, RSMo 1994, for the receipt of health spa registration fees. Monies in the fund are to be used solely for the administration of Sections 407.235 to 407.340, RSMo 1994, relating to the regulation of health spas.

Inmate Incarceration Reimbursement Act Revolving Fund: This fund was established by Section 217.841, RSMo Cumulative Supp. 1999. Monies deposited into this fund represent 20 percent of the reimbursements recovered for the cost of care of prisoners in a state correctional facility, and are considered investigative costs. Expenditures are authorized by appropriation and balances remaining in the fund are perpetually maintained for the purpose of the fund

Multi-State Consumer Fraud Accounts: These bank accounts were established by the office in fiscal year 1999 to receive funds related to five multi-state consumer fraud cases. Some of these funds are to be distributed according to instructions from the claim

administrator(s) and other funds are to be used to pay litigation expenses and costs related to certain programs.

General Revenue Fund-State: The office receives appropriations from this fund and does not maintain a proprietary interest in the fund. Appropriations from the fund are used for the basic operation of the office, including those programs and services that have no other funding source. These appropriations may also be used to initially fund or to provide matching funds or support for programs paid wholly or partially from other sources.

Gaming Commission Fund: Appropriations from this fund authorize disbursements for legal services related to the Missouri Gaming Commission.

Natural Resources Protection Fund-Water Pollution Permit Fee Subaccount: Appropriations from this fund authorize disbursements for legal services related to the enforcement of water pollution laws.

Solid Waste Management Special Revenue Fund: Appropriations from this fund authorize disbursements for legal services related to the enforcement of solid waste management laws.

Petroleum Storage Tank Insurance Fund: Appropriations from this fund authorize disbursements for legal services related to the administration of this fund, which provides insurance for the owner or operator of an underground petroleum storage tank.

Motor Vehicle Commission Fund: Appropriations from this fund authorize disbursements for legal services related to the Missouri Motor Vehicle Commission.

Natural Resources Protection Fund-Air Pollution Permit Fee Subaccount: Appropriations from this fund authorize disbursements for legal services related to the enforcement of air pollution laws.

Soil and Water Sales Tax Fund: Appropriations from this fund authorize disbursements for legal services related to soil and water conservation.

Workers' Compensation Fund: Appropriations from this fund authorize expenditures related to the defense of workers' compensation cases.

Workers' Compensation-Second Injury Fund: Appropriations from this fund authorize expenditures related to the defense of second injury cases.

Lottery Enterprise Fund: Appropriations from this fund authorize disbursements for legal services related to the State Lottery Commission.

Hazardous Waste Fund: Appropriations from this fund authorize disbursements for legal services related to hazardous waste management laws.

Safe Drinking Water Fund: Appropriations from this fund authorize disbursements for legal services related to the enforcement of safe drinking water laws.

Hazardous Waste Remedial Fund: Appropriations from this fund authorize disbursements for legal services related to the enforcement of hazardous waste laws.

Mined Land Reclamation Fund: Appropriations from this fund authorize disbursements for legal services related to the enforcement of land reclamation laws.

ADA Compliance Fund: Appropriations from this fund authorize disbursements for legal services related to the Americans with Disabilities laws.

D. Employee Fringe Benefits

In addition to the social security system, employees are covered by the Missouri State Employees' Retirement System (MOSERS) (a noncontributory plan) and may participate in the state's health care, optional life insurance, deferred compensation, and cafeteria plans. The optional life insurance and cafeteria plans involve only employee contributions or payroll reductions. Also, the deferred compensation plan involves employee payroll deferrals and, beginning January 1, 1996, a monthly state matching contribution for each participating employee.

The state's required contributions for employee fringe benefits are paid from the same funds as the related payrolls. Those contributions are for MOSERS (retirement, basic life insurance, and long-term disability benefits); social security and medicare taxes; health care premiums; and the deferred compensation plan match.

Employee fringe benefits in the financial statements at Exhibit A are the transfers from the General Revenue Fund-Federal, Antitrust Revolving Fund, Merchandising Practices Revolving Fund, and Inmate Incarceration Reimbursement Act Revolving Fund for costs related to salaries paid from those funds. Transfers related to salaries are not appropriated by agency and thus are not presented in the financial statement at Exhibit C.

2. Transfers to General Revenue Fund-State

These transfer out amounts for the years ended June 30, 1999 and 1998, represent these funds' proportional share of fiscal year 1997, 1996, and 1995 refunds required by Article X, Section 18 of the Missouri Constitution.

3. Cash

- A. The balances of the General Revenue Fund-Federal, Court Costs Fund, Antitrust Revolving Fund, Tort Victims' Compensation Fund, Health Spa Regulatory Fund, and Inmate Incarceration Reimbursement Act Revolving Fund are pooled with other state funds and invested by the state treasurer.
- B. Merchandising Practices Revolving Fund: The Merchandising Practices Revolving Fund cash balances include \$2,437,022, \$2,286,822, \$2,050,751, and \$1,741,512 at June 30, 1999, 1998, 1997, and 1996, respectively, which are pooled and invested by the Missouri State Treasurer. In addition, the office has two bank accounts outside the state treasury with funding provided by the Merchandising Practices Revolving Fund. These accounts are in the custody of the office. The office's deposits (maintained in non-interest checking accounts with carrying amounts equal to the bank balances) of \$1,561, \$1,604, \$92, and \$625 at June 30, 1999, 1998, 1997, and 1996, respectively, were entirely covered by federal depository insurance.
- C. Merchandising Practices Restitution Account: Amounts in the Merchandising Practices Restitution Account represent cash which is in the custody of the office. The office's deposits are composed of the following:

|                                  |    | June 30,           |                 |                    |                 |                    |                 |                    |                 |
|----------------------------------|----|--------------------|-----------------|--------------------|-----------------|--------------------|-----------------|--------------------|-----------------|
|                                  |    | 1999               |                 | 1998               |                 | 1997               |                 | 1996               |                 |
|                                  |    | Carrying<br>Amount | Bank<br>Balance | Carrying<br>Amount | Bank<br>Balance | Carrying<br>Amount | Bank<br>Balance | Carrying<br>Amount | Bank<br>Balance |
| Interest bearing<br>NOW accounts | \$ | 1,554,001          | 1,596,578       | 117,457            | 129,314         | 139,389            | 158,129         | 383,257            | 439,762         |

The office's deposits at June 30, 1999, 1998, 1997, and 1996, were entirely covered by federal depository insurance or by collateral securities held by the custodial bank in the office's name.

- D. Multi-State Consumer Fraud Accounts: Amounts in these accounts represent cash which is in the custody of the office. The office's deposits consisted of interest bearing accounts with the carrying amount equal to the bank balance of \$1,558,363 at June 30, 1999, and were entirely covered by federal depository insurance or by collateral securities held by the custodial bank in the office's name.
4. Reconciliation of Total Disbursements to Appropriated Expenditures

Disbursements on Exhibit A reconcile to appropriated expenditures on Exhibit C as follows:

| General Revenue Fund - Federal |                   |                |                |                |
|--------------------------------|-------------------|----------------|----------------|----------------|
| Year Ended June 30,            |                   |                |                |                |
|                                | 1999              | 1998           | 1997           | 1996           |
| DISBURSEMENTS PER EXHIBIT A    | \$ 611,954        | 689,951        | 828,496        | 913,420        |
| Employee fringe benefits       | (109,054)         | (109,627)      | (159,218)      | (147,026)      |

5. Other Collections

The Environmental Protection Division helps ensure Missouri's environmental laws are enforced. The division obtains civil penalties and recovers costs and damages pertaining to related cases. The monies collected are turned over directly to other entities such as the Department of Natural Resources and to various counties for deposit into the school fund. The office collected and turned over approximately \$7,257,000, \$3,835,000, \$2,606,000, and \$3,839,000 in such monies to these entities during the years ended June 30, 1999, 1998, 1997, and 1996, respectively.

The Governmental Affairs Division houses the office's financial services unit. This unit pursues recoveries of monies due the Office of Attorney General and other state agencies/departments, including amounts due on defaults on student loans and economic development loans; delinquent audit and lottery commission fees; penalties owed the Ethics Commission, and collections in bankruptcy court. This unit collected and turned over to other entities amounts totaling in excess of \$1 million during the four years ended June 30, 1999.

The monies noted above which were received and turned over directly to other departments/entities are not included in the financial statements of the office.

Note to the Supplementary Data:

6. General Fixed Assets

General fixed assets, which are recorded as expenditures when acquired, are capitalized at cost in the General Fixed Assets Account Group and are not depreciated.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Current Recommendations

OFFICE OF ATTORNEY GENERAL  
SUMMARY OF FINDINGS

1. Professional Services (pages 36-39)

Formal written contracts are rarely prepared for legal and other professional services. Some payments were not in accordance with engagement letters or Office of Attorney General (AGO) policies and procedures. Documentation is not maintained of the reasons for hiring contract attorneys for specific cases, or the method used to select the attorneys. The AGO has not established procedures to track costs per case.

2. Accounts Receivable (pages 39-40)

The duties surrounding the establishment and handling of restitution receivables are not adequately segregated and procedures for monitoring these receivables are not adequate.

3. Personnel Records and Policies (pages 41-42)

The AGO does not require some employees to prepare time sheets, and the timekeeping system is cumbersome and does not provide useful information. A written personnel policy has not been established and written job descriptions have not been created.

4. Plane Flights (pages 42-43)

The AGO does not ensure the costs of commercial flights are compared to the costs of using state planes for out-of-state air travel.

5. Fixed Assets (pages 43-45)

A physical inventory is not performed annually. When a physical inventory is taken, it is performed by the same individual who is also responsible for the recordkeeping of these assets. The adjustments to the inventory records are not reviewed and/or approved by management. Some equipment purchased with federal funds for the Medicaid Fraud Control Unit is being used by employees in other sections.

6. Bank Accounts (pages 45-46)

The AGO is maintaining some state funds in bank accounts outside the state treasury.

OFFICE OF ATTORNEY GENERAL  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S CURRENT RECOMMENDATIONS

We have audited the special-purpose financial statements of the Office of Attorney General as of and for the years ended June 30, 1999, 1998, 1997, and 1996, and have issued our report thereon dated October 1, 1999.

The following Management Advisory Report presents our findings and recommendations arising from our audit of the office's special-purpose financial statements. During our audit, we also identified certain management practices which we believe could be improved. Our audit was not designed or intended to be a detailed study of every system, procedure, and transaction. Accordingly, the findings presented in the following report should not be considered as all-inclusive of areas where improvements may be needed.

|                                 |
|---------------------------------|
| <b>1. Professional Services</b> |
|---------------------------------|

The Office of Attorney General (AGO) has contracted for legal and other professional services which included attorneys for inmate litigation, criminal cases, complex consumer protection/antitrust cases, cases involving constitutionality issues, etc.; and professionals for consulting services, expert witness testimony, court reporting, etc. In addition, the AGO utilizes various services such as court reporting, medical record reviews, rehabilitation evaluations, and private investigations/surveillances to defend the Second Injury Fund (SIF). The invoices for these SIF expenses are approved by the AGO, but are paid by the Department of Labor and Industrial Relations-Division of Workers' Compensation (DWC). Also, additional payments were made to outside counsel from the State Legal Expense Fund through an Office of Administration (OA) appropriation, but based on the approval of the AGO.

According to disbursement records, the AGO paid approximately \$1,365,000 during the four years ended June 30, 1999, from its appropriations for legal services and other professional and technical services. During that same period, the DWC and OA paid over \$1.2 million and \$3.1 million, respectively, for legal and other professional and technical services, based upon approval by the AGO. Our review of these contracted services disclosed the following concerns:

- A. Formal written contracts are rarely prepared to document these service agreements, but instead the AGO generally uses an engagement letter to document such arrangements. However, we noted twenty-two payments totaling over \$199,000 for which the AGO was unable to produce an engagement letter.

If there was an engagement letter, it usually indicated the specific case or type of case involved and the rate of compensation. However, the letters did not always address all pertinent issues, such as the rate of compensation for associates and paralegals, and rates of compensation for other professional and technical services. In addition, the letters did

not always address the types of expenses that would be reimbursed and documentation which needed to be submitted for other professional and technical services.

We noted eleven payments totaling approximately \$494,000, which included charges which were either not addressed in the engagement letters or were not in accordance with the letters. In all eleven instances, the rates billed for associates and paralegals were not included in the engagement letters. In four of these instances, the rates billed for partners were higher than the rates quoted in the letters. In addition, while the AGO has established billing policies and procedures for outside counsel in a billing policies and procedures manual, we noted many instances where supporting documentation was not in accordance with this manual.

Without written agreements, it is difficult to determine whether all charges billed are proper. In addition, written agreements are necessary to ensure all parties are aware of their duties and to clarify all compensation allowed. The AGO should ensure that payments for outside counsel and other professional services are in accordance with the agreements, that the agreements address all pertinent issues, and that adequate supporting documentation is submitted in accordance with AGO policies and procedures.

- B. According to AGO officials, outside legal counsel is hired when there is a conflict of interest for the office or when the case is very complex and requires specialized services. The AGO could not provide us with documentation regarding the reasons for hiring outside legal counsel for particular cases or the method of selecting these attorneys. We requested this information for sixteen cases reviewed. Considering the extent of payments to these outside legal counsel, it appears this information should be documented to support the propriety of the decision-making process.

In addition, no documentation could be produced to support how the lead attorney was selected to represent Missouri in the tobacco litigation. At this time, it appears this lead attorney and those other attorneys working with him on the tobacco litigation will receive a substantial amount of compensation from a separate fund (separate from monies to be distributed to the states) established by the tobacco companies.

- C. The AGO has not established procedures to track the costs per case. During the four years ended June 30, 1999, the office spent over \$57 million in personal service and expense and equipment costs to operate the office. As noted above, additional outside legal costs were paid from the State Legal Expense Fund and were not included in these amounts.

The Consumer Protection Division routinely receives reimbursement for the cost of the investigation and/or prosecution of consumer protection and antitrust cases. According to the chief counsel for this division, these costs are estimated and not supported by detailed documentation. Although many times the actual reimbursement is a negotiated amount in

such cases, it appears the AGO should know the actual costs incurred to arrive at a reasonable settlement. We also noted that in March 1999, the AGO submitted a bill for in-house litigation expenses related to the multi-state tobacco case. According to office records, the case costs of \$1,188,635 were based "upon contemporaneous time records as well as good faith estimates."

A system which charges costs to the various cases would support the appropriate reimbursement of investigation and/or prosecution costs, and assist in determining a reasonable settlement, if the amount is negotiated. By not tracking the costs per case, the office has little assurance that its estimates are a reflection of the true costs. In addition, tracking costs per case could prove useful in monitoring the cost effectiveness of overall office performance and in determining which cases should be litigated and when out of court settlements should be considered.

Similar conditions were also noted in the prior report.

**WE AGAIN RECOMMEND** the AGO:

- A. Ensure all legal and other professional services are supported by written agreements signed by both parties. The invoices should be reviewed for compliance with the written agreements and office policies.
- B. Document the rationale for hiring outside legal counsel and the method of selecting the attorney for the applicable case.
- C. Develop a system which accumulates costs per case.

**AUDITEE'S RESPONSE**

- A. *The AGO routinely uses engagement letters when employing outside legal services. These letters set out with specificity the individuals who are authorized to work for the state and their rate of pay. Other terms and conditions of the engagement are set out in detail in the office's "billing policy" handbook, attached and incorporated by reference in each engagement letter. The billing policy addresses the types of expenses that are reimbursable and the documentation necessary to receive reimbursement. Each engagement letter is an offer, which once accepted, is as binding and enforceable as a contract. Therefore, we will continue to use this legally binding method. The AGO has begun using engagement letters when retaining other professional services as well.*

*The audit identified a handful of instances in the last three years when the services of outside legal counsel were engaged without a formal engagement letter. We believe that in each case identified by the Auditor the AGO had an ongoing relationship with the attorney and simply relied on a previous engagement letter rather than generating a new letter for each*

case. The AGO has instituted new procedures to assure that in every case where outside counsel is employed an engagement letter is on file.

At times the AGO has agreed to modify the terms of an engagement letter or the billing policy. For instance, an initial engagement letter will often authorize only a particular individual to work on a case, but as the case develops work by other attorneys or paralegals may be approved. The AGO will immediately implement a system of documenting in writing any agreed modification to the terms of an engagement letter or the billing policy and will update the billing policy to minimize the need for modifications in the future.

- B. As indicated by the Auditor, the AGO employs outside counsel in cases of conflict of interest or when particular expertise is required. Outside counsel are chosen based on the rate they charge, their willingness to adhere to policies of the AGO and their abilities. The specific rationale behind hiring attorneys in an individual case is work product and is privileged information. When possible, the AGO will use retention letters to indicate whether counsel have been hired due to a conflict or for their expertise.
- C. The AGO will assure that a system is in place to track the costs of cases where reimbursement for costs of investigation and/or prosecution is available. The AGO continues to believe that tracking costs per case in cases where reimbursement is not available would be tremendously burdensome and would provide little or no useful information. It is important to note that unlike private litigants whose motivation for litigation is often financial, the state often litigates to further public policies that cannot easily be quantified monetarily.

## **2.**

### **Accounts Receivable**

The Consumer Protection Division (CPD) represents the state in securities fraud, antitrust matters, and in violations of the state consumer protection laws. These prosecutions often result in imprisonment, and fines for offenders, and restitution for the consumers. During the four years ended June 30, 1999, AGO records indicated approximately \$3 million was received as restitution for other parties. A review of the AGO's handling of these restitutions disclosed the following concerns:

- A. The AGO maintains a bank account for the deposit of restitution assessed by the courts for violations of merchandising practices laws. Restitution payments are received by the assistant attorneys general, the same individuals who set up the payment plans and establish the receivable amounts. The fiscal office is not notified of restitutions due until the first payment is received.

To safeguard against possible loss or misuse of funds, receipt duties should be segregated from the establishment of the receivable. Internal control could be improved by having the

fiscal office informed when the receivable is established. In addition, the fiscal office should receive the money and then notify the applicable assistant attorney general of the amount(s) received.

- B. The AGO's procedures for monitoring restitutions receivable are not adequate. The CPD enters restitution receivable into the office's computer enforcement case file system. The payments received are entered into the enforcement system by the fiscal office when they are transmitted from the CPD. The payment information is maintained in a file separate from the receivable records.

During the prior audit, the chief counsel of the CPD periodically requested a report of the uncollected restitution which was generated by merging the receivable and payment files. However, because of questions concerning the reliability of this report, he ceased requesting this report during the current audit period. Thus, the office could not provide us with a current accounts receivable balance for restitution monies. According to the chief counsel of the CPD, the receivable balance is currently being monitored on a case-by case basis by the assistant attorney general assigned the case.

To ensure all restitution due is collected and that restitution collections and disbursements are recorded to the proper case, adequate account receivable information should be maintained. A control ledger accounting for all amounts owed, payments received, and balances due should be established. The control ledger should be periodically reconciled to the detailed enforcement system file. All receivable balances should be recorded into the enforcement system.

Similar conditions were also noted in the prior report.

**WE AGAIN RECOMMEND** the AGO:

- A. Establish procedures whereby all monies are initially received by the fiscal office rather than the assistant attorneys general. The fiscal office should then notify the appropriate assistant attorney general of the receipt.
- B. Maintain a restitution control account summarizing accounts receivable and perform periodic reconciliations between the control account and the detailed records.

**AUDITEE'S RESPONSE**

*The AGO is reviewing internal procedures regarding the receipt and establishment of receivables for the Consumer Protection Division. The AGO requires that any checks received are logged by an independent employee as they arrive. While this system adequately safeguards the receipts process, the AGO is evaluating the establishment of the receivables to see if improvements can be made in this area.*

**3.****Personnel Records and Policies**

During the four years ended June 30, 1999, the AGO expended over \$42 million for employee salaries and wages. Our review of personnel policies and procedures disclosed the following concerns:

- A.1. The AGO does not require some employees (those who are not hourly employees or attorneys) to prepare time sheets to account for all hours worked and leave taken during the month. For these employees, daily attendance records are prepared by the various receptionists, who record which employees are in when they take attendance. The daily attendance records are based on observations of the receptionists at a particular time each day. Employees not present when attendance is taken are marked as taking leave. The employees are responsible for submitting leave slips to the fiscal office, where leave taken is posted to the accumulated leave records. Semiannually, the fiscal office sends copies of the leave records to each employee and requests they verify their accuracy.

Monthly time sheets should be required for these employees to adequately account for all time worked and leave taken. In addition, such time sheets would help ensure the accuracy of the accumulated leave records. As a result of the current situation, it is more likely errors will occur in the accurate maintenance of leave records. We noted a couple of instances where the records incorrectly reflected negative leave balances for the applicable employees and it took several months to correct the accumulated leave records.

2. In addition to the daily attendance records, attorneys fill out a weekly time record which identifies the hours worked each day. These records do not identify the case the attorney worked on or the nature of the work performed. The information from these time records is entered by division secretaries into the office's computerized time system. The computerized time system records are not reviewed or approved by the attorney's supervisor, or reconciled to the attendance or leave records. AGO personnel indicated the computerized system is used to accumulate information about the total hours worked by individual attorneys by the various divisions. This system appears to provide little useful information while expending both employee and computer time.

A system which charges time to the various cases, as well as training, leave, and administrative functions, could prove very valuable in monitoring the cost effectiveness of individual employees as well as overall office performance and costs. In addition, accurate time records are necessary to document work performed and leave taken, and to support payroll expenditures.

- B. A written personnel policy addressing issues such as hours of work, overtime, leave used for family illness, carryover of leave from other state agencies for new employees, etc., has not been established. Also, the office has not created written job descriptions for its employees. To ensure employees are treated equitably, and that they meet minimum

education and experience requirements, written personnel policies and job descriptions should be adopted.

Similar conditions were also noted in the prior report.

**WE AGAIN RECOMMEND** the AGO:

- A. Require the applicable employees to prepare monthly time sheets that document actual hours worked and leave taken, and submit these to their supervisor and the fiscal office for review and approval. In addition, the AGO should implement a timekeeping system which supports hours worked and work performed, and use this data to monitor performance and costs.
- B. Adopt a written personnel policy and job descriptions.

**AUDITEE'S RESPONSE**

- A. *The AGO requires employees who are not attorneys and not employed on an hourly basis to document leave taken by preparing leave slips. Those employees also account on leave slips extra hours worked for purposes of compensatory time. In addition, independent third parties are responsible for documenting daily attendance. Leave slips submitted by employees are compared to independently created attendance records to assure accuracy. The Auditor has suggested that these employees maintain monthly time sheets. While monthly time sheets are used by many offices, the Auditor could point to no state personnel policy that requires their use. The AGO believes that its two-pronged approach to attendance documentation provides adequate safeguards and allows us to identify attendance problems more accurately.*

*As in recommendation #1, the Auditor again recommends that attorney time be documented by case. We respectfully disagree and refer to our response to recommendation 1(C). The AGO does require attorneys to document total hours worked each day. These daily time records are an important management tool as they allow us to monitor individual and division workloads.*

- B. *The AGO makes every effort to inform its employees of personnel policies and of their individual job assignments.*

**4.**

**Plane Flights**

The AGO routinely flies to various in-state and sometimes out-of-state locations using the flight services of the Office of Administration (OA), or a local flying service. During the year ended June 30, 1999, three out-of-state flights were taken in OA planes at a cost totaling over \$7,000. We

noted the office does not ensure the cost of commercial flights is compared to the costs of using OA planes for out-of-state air travel. It appears cost savings may have been realized for at least two of these flights had commercial flights been taken rather than using the OA planes.

To ensure the most economical use of state resources, the office should prepare and retain documentation comparing the costs of commercial flights to the costs of using OA planes. This information should be retained with the flight information. If the higher cost alternative is chosen, the circumstances and justification for the decision should be documented.

**WE RECOMMEND** the AGO ensure a comparison of the costs of commercial flights to the costs of using OA planes for out-of-state flights is documented and retained.

### **AUDITEE'S RESPONSE**

*The AGO conducts a cost comparison between commercial flights and the flight services of the Office of Administration. The commercial flights in each of the instances noted would have required an overnight stay for the return trip the following day. Thus, the comparison included personnel time, hotel costs, meals and incidental expenses associated with the overnight stay rather than a same day return utilizing the flight services of the Office of Administration.*

|                        |
|------------------------|
| <b>5. Fixed Assets</b> |
|------------------------|

At June 30, 1999, the AGO was responsible for approximately \$4.4 million in general fixed assets. These fixed assets are maintained in AGO offices in Kansas City, Springfield, St. Louis, and Cape Girardeau, plus various locations in Jefferson City. Our review of the office's property records indicated the following areas where improvements are needed:

- A. A physical inventory is not performed annually as required by 15 CSR 40-2.031. A physical inventory was started during the summer of 1999; however, according to AGO personnel, the previous fixed assets inventory was started in 1996 and completed in 1997.

Adequate controls and procedures over general fixed assets are necessary to protect the state's investment in fixed assets. Such controls are especially important when fixed assets are maintained at various locations. Annual physical inventories should be conducted and reconciled to the fixed asset records.

- B. When a physical inventory is taken, the inventory is performed by the fiscal officer, the individual who is also responsible for the record keeping of these assets. To provide internal control and to properly safeguard assets from theft or misuse, the annual physical inventory should be performed by an individual(s) independent of the custodial and record keeping functions.

- C. The adjustments to the inventory records are not reviewed and/or approved by management. The variances or discrepancies which cause adjustments to the inventory record may be the result of a breakdown or weakness in the system, errors in recording information, or irregularities by employees. Management should review adjustments to inventory records to properly safeguard assets.
- D. We noted some computer equipment purchased with federal funds for the Medicaid Fraud Control Unit (MFCU) is being used by AGO employees in other sections. It appears likely that other types of furniture and equipment purchased with these funds is also not being used by MFCU employees. Office records indicate that federal funds were used to purchase furniture and equipment for twenty-three MFCU positions. However, this unit has never been fully staffed, and there have never been more than nineteen employees in this unit.

According to the federal program regulations, equipment purchased with funds pursuant to this program should not be used for any purpose other than investigating and prosecuting Medicaid fraud. Therefore, the office should ensure that only MFCU employees use equipment purchased with these federal funds.

**WE RECOMMEND** the AGO:

- A. Conduct an annual physical inventory of general fixed assets and reconcile the physical inventory to the fixed asset records.
- B. Ensure an individual independent of the record keeping function performs the physical inventory.
- C. Ensure the adjustments to the fixed asset records are reviewed and approved by management.
- D. Ensure the equipment purchased with federal funds for the MFCU is not used for any purpose other than investigating and prosecuting Medicaid fraud.

**AUDITEE'S RESPONSE**

*The AGO will immediately implement the recommendation to perform a physical inventory on an annual basis. Additionally, the AGO will ensure a separation of duties between persons performing the inventory and employees reconciling the physical inventory records including appropriate management level personnel to approve adjustments, if any, to the records.*

*Furniture and equipment purchased with federal funds provided to the Medicaid Fraud Control Unit have been assigned to office personnel consistent with federal regulations (see 45 C.F.R. Section 92.32) or, in some limited instances, to prevent the assets from setting idle.*

## **AUDITOR'S COMMENT**

- 5.D. The federal regulation the AGO refers to in its response allows equipment to be replaced which is no longer needed for a program. However, it appears at least some of the equipment items in question were never used by employees of the MFCU, nor were they needed by that unit based on its actual staffing levels. Considering the restrictions placed on the applicable federal funds, the AGO should ensure any future equipment purchases from these funds are made at a level consistent with the actual needs of the MFCU and that the items are used only by personnel of that unit.

|                         |
|-------------------------|
| <b>6. Bank Accounts</b> |
|-------------------------|

The AGO has established several checking accounts outside the state treasury. The Merchandising Practices Restitution Account was established several years ago to receive any restitution awarded by the courts for the violation of state merchandising practices laws. Payments from this account provide restitution to parties affected by the violations. During fiscal year 1999, the office established five additional checking accounts outside the state treasury to receive funds related to multi-state consumer fraud cases. Our review of these bank accounts disclosed the following concerns:

- A. Some of the monies deposited into the Multi-State Consumer Fraud Accounts appear to be state funds. For example, during fiscal year 1999, the AGO received \$54,000 to create an educational program related to consumer rights and responsibilities regarding bankruptcy, and \$158,333 for smoking cessation programs. As of June 30, 1999, no disbursements had been made from these two accounts.

It appears the AGO does not have statutory authority to maintain state funds outside the state treasury. Article IV, Section 15, of the Missouri Constitution and Section 30.170, RSMo 1994, require the state treasurer to be the custodian of all state funds and receive and disburse such funds.

As a result, any state monies being maintained by the AGO should be turned over to the State Treasurer's office (STO). If the AGO believes it is necessary to maintain these monies outside the state treasury, legislative authority should be sought.

- B. The AGO does not have a formal written depository contract with the bank where the accounts are maintained. A depository contract should be prepared to formally establish this banking agreement and to clarify the services to be received. The contract provisions might include, but not be limited to, costs of the checking accounts, types of accounts available, interest to be paid, and the pledging of sufficient and acceptable collateral securities.

Depository agreements help ensure banking services to be provided are adequately documented and also ensure any monies over which the AGO is responsible are adequately protected.

**WE RECOMMEND** the AGO:

- A. Review the monies currently being held by the AGO outside the state treasury and take action to turn any state monies over to the STO, unless legislative authority is obtained allowing these monies to be maintained outside the state treasury.
- B. Enter into a written depository agreement with the bank where the office's accounts are maintained.

**AUDITEE'S RESPONSE**

- A. *As the Auditor points out, funds that are held for reimbursement to particular individuals or groups, such as those held in the Merchandising Practices Restitution Account, are the property of those individuals and are not state funds. Turning those funds over to the state treasury before attempting to refund them to individual consumers would be an unconstitutional government taking of private money.*

*The Auditor questions whether two deposits were state funds or private funds. The first deposit questioned by the Auditor has been determined to be money directed to a specific group of recipients pursuant to a court order in a multi-state case. While we understand the confusion, the AGO has determined that those funds must be used in accordance with the court order directing them to a specific group of individuals.*

*The second deposit was being held in escrow by the AGO until a determination could be made as to whether these were individual funds or money belonging to the state. As the Auditor points out, no disbursements have been made from that fund. The AGO has determined that money to be state funds and will remit the entire amount to the state treasury.*

- B. *The AGO will implement the recommendation to establish a formal written depository contract with banking institutions in the event an account must be established outside of the state treasury. Whenever possible the AGO will enter into depository contracts for existing accounts.*

This report is intended for the information of the management of the Office of Attorney General and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on State Auditor's Prior Recommendations

OFFICE OF ATTORNEY GENERAL  
FOLLOW-UP ON STATE AUDITOR'S PRIOR RECOMMENDATIONS

This section reports follow-up action taken by the Office of Attorney General on recommendations made in the Management Advisory Report (MAR) of our report issued for the three years ended June 30, 1995. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the office should consider implementing these recommendations.

1. Contracted Professional Services

- A. Formal written contracts were rarely used for contracted legal and other professional services. If there was an agreement it usually consisted of a letter, and the letters did not always address all pertinent issues. In addition, some payments were for charges which were not in accordance with the letters and supporting documentation in some instances was not in accordance the AGO's billing policies and procedures manual.
- B. The AGO did not maintain documentation supporting why contract attorneys were hired for particular cases or the method of selecting such attorneys.
- C. The AGO did not have procedures to track the costs per case.

Recommendation:

The AGO:

- A. Ensure all legal and professional services are supported by written agreements signed by both parties. In addition, invoices should be reviewed for compliance with the written agreements and office policies. Payments should also be in accordance with the agreements and office policies.
- B. Document the rationale for hiring contract attorneys and the method of selecting the attorney for the applicable case.
- C. Develop a system which accumulates costs per case.

Status:

Not implemented. See MAR No. 1.

2. Case and Cost Management

- A. Both the AGO and the Department of Labor and Industrial Relations-Division of Workers' Compensation (DWC) maintained computer databases for Second Injury Fund (SIF) cases. These two databases were not integrated, and data was duplicated between the two systems. In addition, the AGO system did not provide reliable information about when a case was closed. In December 1994, the AGO requested on-line access to DWC claims information; however, the DWC had not taken action concerning this request.
- B. There was little evidence the AGO utilized the SIF databases to monitor the related case activity.
- C. State law did not allow the AGO to utilize a medical doctor of its choice to examine claimants.
- D.1. The AGO utilized various court-related services to defend the SIF. The AGO did not have written agreements identifying the service to be provided and the compensation. In addition, the criteria for the selection of vendors was not documented.
- 2. Some invoices did not contain adequate detail.

Recommendation:

The AGO:

- A. Continue to work to consolidate its SIF database with the DWC.
- B. Develop performance measures for monitoring the SIF. These measures could include caseload by attorney; trends in payouts and filings with projections for the future; and tracking open cases versus actionable cases to determine backload status.
- C. Promote legislation to allow the office to have medical doctors of its choice examine claimants.
- D. Ensure services are supported by written agreements, signed by both parties. In addition, invoices should be reviewed for compliance with the written agreement or contract terms. The criteria for the vendor selection should be documented.

Status:

- A. Not implemented. Although not repeated in the current MAR, our recommendation remains as stated above.
- B. Not implemented. It appears performance measures as recommended in the prior audit have not been established; however, the AGO is working on improving its database to

include information such as depositions and reports by doctors and other expert witnesses. The office is also working with DWC to track activity on a monthly basis. Although not repeated in the current MAR, our recommendation remains as stated above.

- C. Not implemented. The AGO has not been successful in persuading the General Assembly to pass legislation allowing it to have medical doctors of its choice examine claimants. Although not repeated in the current MAR, our recommendation remains as stated above.
- D. Not implemented. See MAR No. 1.

3. Personnel Records and Policies

- A. The AGO did not require salaried employees to maintain records of actual hours worked. While attorneys prepared time sheets identifying work performed in predetermined increments, these records did not indicate the case name(s) and/or case number(s) worked on.
- B. A written personnel policy was not maintained. In addition, the office did not have written job descriptions for its employees.
- C. Some employees were allowed to accumulate annual leave in excess of the established limit.

Recommendation:

The AGO:

- A. Require all employees to maintain time sheets of actual hours worked and leave taken, and submit them to their supervisor and the fiscal office for review and approval. The AGO should implement a timekeeping system that supports hours worked and work performed, and use this data to monitor performance.
- B. Adopt a written personnel policy and job descriptions.
- C. Adhere to leave policies applied to other state employees.

Status:

A&B. Not implemented. See MAR No. 3.

- C. During the current audit, we noted no accumulated annual leave balances above the established limit.

4. Accounting Controls and Procedures

- A. Restitution payments assessed by the courts for violations of merchandising practices laws were received by the assistant attorneys general who established the payment plans and established the receivable amounts. The fiscal office was not notified of restitutions due until the first payment was received.
- B. The AGO's procedures for monitoring restitution receivable were inadequate.
- C. Some receipts are not deposited on a timely basis.

Recommendation:

The AGO:

- A. Establish procedures whereby all monies are initially received by the fiscal office rather than assistant attorneys general. The fiscal office should then notify the appropriate assistant attorney general of the receipt.
- B. Maintain a restitution control account summarizing amounts receivable and perform periodic reconciliations between the control account and the detail records.
- C. Make deposits daily or when receipts on hand exceed \$100.

Status:

A&B. Not implemented. See MAR No. 2.

C. Implemented.

5. Expenditure Policies and Procedures

The AGO did not always ensure supporting documentation related to expense and equipment charges was adequate, properly authorized, and reviewed for reasonableness and propriety. In addition, expense claims did not always include documentation required by the Office of Administration (OA) travel regulations.

Recommendation:

The AGO ensure adequate supporting documentation is obtained and is in compliance with OA travel regulations, if applicable. All disbursements should be authorized by an appropriate party and reviewed for reasonableness and propriety.

Status:

Partially implemented. We noted improvement in the level of supporting documentation for disbursements; however, we still noted some instances where supporting documentation was not adequate. Although not repeated in the current MAR, our recommendation remains as stated above.

6. Vehicle Usage

- A. It appears some pool vehicles were not fully utilized. The AGO had not conducted a usage study to determine the number of vehicles needed, nor were procedures adequate to ensure state-owned vehicles were used instead of reimbursing employees for use of personal vehicles.
- B. Some vehicle usage logs were missing and many of the logs failed to indicate the purpose of the trip.

Recommendation:

The AGO:

- A. Perform a usage study to determine the optimum number of vehicles for the various offices. In addition, the AGO should establish a policy requiring the use of state-owned vehicles whenever possible.
- B. Ensure all appropriate information is recorded on the usage logs. The AGO should periodically review the usage log files to ensure vehicles are used only for official state business.

Status:

- A. Not implemented. A usage study was not performed as recommended and the number of state-owned vehicle under the control of the AGO was not reduced compared to the prior audit. However, we noted improvement in the utilization of vehicles. Although not repeated in the current MAR, our recommendation remains as stated above.
- B. Partially implemented. We saw some improvement in the retention of the vehicle usage logs and the recording of usage information; however, the trip mileage was not always recorded. Although not repeated in the current MAR, our recommendation remains as stated above.

7. Tort Victims' Compensation Fund

Receipts for the Tort Victims' Compensation Fund from 1988 through 1995 were only \$30,576 and it was questionable whether any significant amounts would be received. In addition, there was no statutory mechanism for disbursing the monies in this fund.

Recommendation:

The AGO evaluate the potential for significant collections of punitive damages. If significant collections appear unlikely, the AGO should support legislation to abolish the fund.

Status:

The Tort Victims' Compensation Fund was not abolished; however, significant collections were received and deposited into this fund in fiscal years 1999 and 1998. There is still no mechanism for disbursing funds. Although not repeated in the current MAR, the AGO should continue to support legislation to either establish a mechanism for disbursing the monies in this fund or to abolish the fund.

8. Court Costs Fund

State law established this fund as a revolving fund, indicating the legislature's intent that the fund be self-sustaining. However, the majority of expenditures from the Court Costs Fund did not meet the legislative restrictions on the use of the fund and the fund has relied primarily on annual transfers from the state's General Revenue Fund for revenues.

Recommendation:

The AGO seek legislation to abolish this fund and pay any court costs from a General Revenue Fund appropriation.

Status:

Not implemented. No legislative change has been made to abolish this fund and we again noted expenditures which do not appear to meet the legislative restrictions of this fund. The AGO limited such disbursements to those for court reporting services. Although not repeated in the current MAR, our recommendation remains as stated above.

9. Health Spa Registration

The AGO did not have procedures to ensure health spas were registered and bonded as required by state law.

Recommendation:

The AGO develop procedures to ensure health spas are registered and bonded as required by state law.

Status:

Not implemented. It appears no significant procedural changes were made related to the AGO's effort to monitor this area and it appears some problems may still exist. Although not repeated in the current MAR, our recommendation remains as stated above.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

## OFFICE OF ATTORNEY GENERAL HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

The Office of Attorney General was created in 1806, when Missouri was still a territory. The Missouri Constitution of 1820 provided for an appointed attorney general. It remained an appointed position until 1865, when a new constitution provided for an attorney general elected by the people.

The Attorney General's office is located in Jefferson City. There are branch offices in Kansas City, St. Louis, Springfield, and Cape Girardeau.

The office is organized into seven divisions: Litigation, Criminal Appeals, Consumer Protection, Governmental Affairs, Labor, Environmental Protection, and Public Safety. Each division is headed by a chief counsel who is responsible for the operations of the division.

Litigation Division: This division is responsible for representing all state agencies, officers and employees in civil litigation matters in state and federal courts. Cases include damage claims that implicate the Legal Expense Fund, construction and contract cases, civil rights cases, malpractice claims, class actions, personnel matters, and constitutional law issues. The attorneys in this division also advise the other divisions in matters involving litigation.

Criminal Appeals Division: This division represents the state in felony criminal cases appealed to the Missouri Supreme Court or the Missouri Court of Appeals, or reviewed by the U.S. Supreme Court.

Consumer Protection Division: This division handles fraud investigations and litigation. Attorneys in this division represent Missouri consumers as a group in cases of consumer fraud, securities fraud, and antitrust matters. Also, these attorneys are active in discovering businesses that commit merchandising practices fraud in connection with the sale and advertising of products or services. This division includes an investigative staff that assists attorneys in investigations involving violations of the state's Merchandising Practices Act.

Governmental Affairs Division: This division represents state elected officials, state departments and agencies in administrative hearings and state and federal court cases. Clients include the governor, lieutenant governor, secretary of state, state auditor, state treasurer, Office of Administration, and various state departments. Attorneys also represent licensing boards, such as Healing Arts and Accountancy, and state regulatory agencies, such as the Lottery Commission. In addition, the division provides day-to-day advice to state clients and represents the public in regulatory actions before the Public Service Commission, and handles civil actions to force compliance with the terms of charitable trusts and disciplinary actions against licensed professionals. The division also includes the financial services unit, which represents state agencies in collections and bankruptcies.

Labor Division: This division provides general counsel and litigation services for the Missouri Department of Labor and Industrial Relations and its officers and agencies. The division also represents the state in prevailing wage disputes, crime victims' claims, and workers' compensation cases of state employees,

including claims involving the Second Injury Fund.

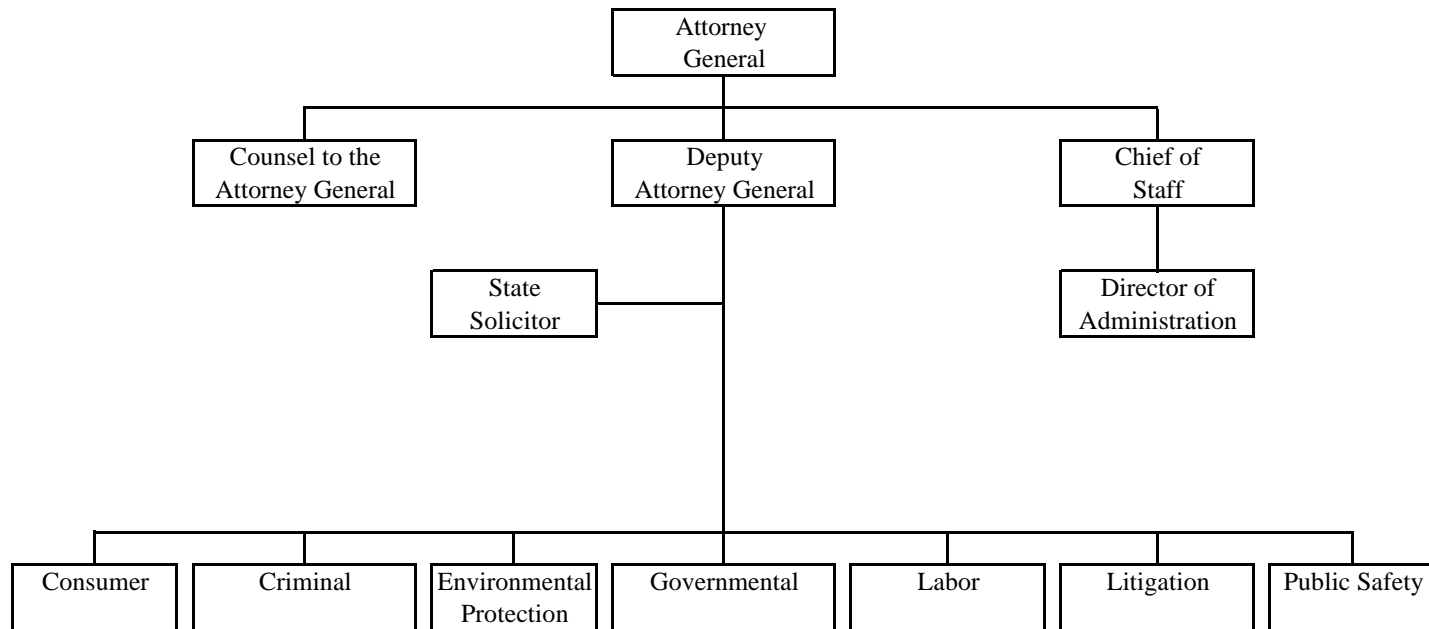

Environmental Protection Division: This division represents the Department of Natural Resources (DNR), including its constituent boards and commissions that regulate the use of Missouri's air, land and waters. Enforcement litigation is filed primarily in state courts to seek preliminary and permanent injunctive relief to assure compliance with state environment laws. The division also pursues civil penalties and recovers DNR response costs and natural resource damages.

Public Safety Division: The Public Safety Division handles criminal prosecutions at the trial level. The Special Prosecution Unit assists local prosecuting attorneys in serious or difficult trials, including homicide cases and grand jury proceedings. The attorneys work closely with local prosecutors to help keep them informed of developments in criminal law, and handle extraditions and detainer actions. The Meth Prosecution Unit specializes in handling criminal cases involving the manufacture, sale or possession of methamphetamine. The Workers' Compensation Fraud Unit prosecutes fraud or misconduct involving workers' compensation, and the Medicaid Fraud Control Unit prosecutes cases involving fraud of the state Medicaid program by health professionals, or abuse or neglect of Medicaid recipients by caregivers. The Public Corruption Unit investigates allegations of misconduct by public officials. In addition, attorneys in the division also enforce the new sexual violent predator law and serve as legal counsel for the Department of Public Safety, Highway Patrol, Water Patrol, and other state law enforcement agencies, and represent those agencies in all civil litigation in which they are a party.

On January 11, 1993, Jeremiah W. (Jay) Nixon was inaugurated as the state's fortieth Attorney General. He was reelected in November 1996, and his present term will expire in January 2001.

At June 30, 1999, the Office of Attorney General employed approximately 300 full-time and 9 part-time employees. An organization chart follows:

MISSOURI GAMING COMMISSION

THREE YEARS ENDED JUNE 30, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-52  
June 27, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

June 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**The following problems were discovered as a result of an audit conducted by our office of the Missouri Gaming Commission.**

Our audit has identified circumstances that raise questions about the state's "loss limit" per excursion. Our questions about the "loss limit" were raised when we observed the entrances to one of the boats for a gaming excursion and noted some individuals were allowed to enter the gaming excursion carrying containers of gambling tokens. Individuals entering a gaming excursion are given a "scrip" or electronic card which allows an individual to buy chips or tokens up to \$500 per gaming excursion, the buy in limit.

**Allowing individuals with a \$500 scrip or electronic card to also bring tokens onto a gaming excursion appears to have the effect of raising the buy in limit to \$500 plus the amount of the tokens or chips carried onto the boat, which appears to be a violation of the state's \$500 loss or buy in limit.**

The State Auditor's Office recommends the Missouri Gaming Commission discontinue the practice of allowing individuals to enter a gaming excursion with tokens and chips from previous gaming excursions to improve enforcement of the \$500 loss limit. In addition, we recommend the Missouri Gaming Commission request the legislature provide additional guidance regarding how the \$500 loss limit should be interpreted and enforced.

As part of our review of the Missouri Gaming Commission, we visited five of the boat operations to review procedures. A review of the gaming device (slot machines) inventory listing was performed along with testing the computer chips in several slot machines. Our review noted the following areas in need of improvement.

- For four of the boats visited, we noted several slot machines where the serial number of the slot machine per the gaming device inventory listing did not agree to the actual serial number on the slot machine. In addition, we noted on one boat an instance where the Missouri Gaming Commission property tag number per the gaming device inventory listing did not agree to the actual property tag number on the slot machine. Complete and accurate gaming device inventory listings are necessary to ensure only properly tested machines are on the gaming floor.

(over)

YELLOW SHEET

- When we were testing the computer chips in the slot machines, we noted one instance where the main computer processing board was not properly sealed to the slot machine with evidence tape. State regulations require evidence tape to be affixed by an authorized commission agent and must include the date, signature, and identification number of the agent. The Missouri Gaming Commission should ensure the processing board and computer chips are properly sealed into the slot machine to reduce the risks of tampering with the computer chips. These computer chips control the game payout percentage.

The Missouri Gaming Commission licenses companies that supply the gaming boat operators with equipment and equipment maintenance services and the licensure fees are paid by the company receiving the license. Our review noted the following needs improvement:

- Investigations for supplier licenses are not completed on a timely basis. The Missouri Gaming Commission will issue a temporary supplier license if preliminary background investigations have been successfully completed and the supplier is licensed in another state. Applications for supplier licenses have been accepted since 1993 and the Missouri Gaming Commission has issued twelve permanent supplier licenses. However, there are still nine suppliers that hold temporary supplier licenses whose application dates ranged from November 1993 to July 1996. This appears to be an excessive amount of time for a supplier to be under review.

## FINANCIAL SECTION

## State Auditor's Reports

] **CLAIRE C. McCASKILL**  
**Missouri State Auditor**

Honorable Mel Carnahan, Governor  
and  
Missouri Gaming Commission  
and  
C.E. (Mel) Fisher, Executive Director  
Missouri Gaming Commission

We have audited the accompanying special-purpose financial statements of the various funds of the Missouri Gaming Commission as of and for the years ended June 30, 1999, 1998, and 1997, as identified in the table of contents. These special-purpose financial statements are the responsibility of the commission's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash and investments of the Gaming Commission Fund, Gaming Commission Bingo Fund, and Missouri Breeders Fund, and the appropriations and expenditures of the various funds of the Missouri Gaming Commission and are not intended to be a complete presentation of the financial position and results of operations of the various funds of the Missouri Gaming Commission.

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash and investments of the Gaming Commission Fund, Gaming Commission Bingo Fund, and Missouri

Breeders Fund, and the appropriations and expenditures of the various funds of the Missouri Gaming Commission as of and for the years ended June 30, 1999, 1998, and 1997, in conformity with the comprehensive bases of accounting discussed in Note 1, which are bases of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated September 10, 1999, on our consideration of the commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

Our audit was made for the purpose of forming an opinion on the special-purpose financial statements, taken as a whole, that are referred to in the first paragraph. The accompanying financial information listed as supplementary data in the table of contents is presented for purposes of additional analysis. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated in all material respects in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the commission's management and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

Claire McCaskill  
State Auditor

September 10, 1999 (fieldwork completion date)

The following auditors participated in the preparation of this report:

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

Honorable Mel Carnahan, Governor  
and  
Missouri Gaming Commission  
and  
C.E. (Mel) Fisher, Executive Director  
Missouri Gaming Commission

We have audited the special-purpose financial statements of the various funds of the Missouri Gaming Commission as of and for the years ended June 30, 1999, 1998, and 1997, and have issued our report thereon dated September 10, 1999. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the special-purpose financial statements of the Missouri Gaming Commission are free of material misstatement, we performed tests of the commission's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no material instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain other instances of noncompliance which are presented in the accompanying Management Advisory Report.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of the Missouri Gaming Commission, we considered the commission's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions

involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the commission's ability to record, process, summarize, and report financial data consistent with the assertions of management in the special-purpose financial statements.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses, and these matters are presented in the accompanying Management Advisory Report.

This report is intended for the information of the management of the Missouri Gaming Commission and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, reading "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" and last name "McCaskill" clearly distinguishable.

Claire McCaskill  
State Auditor

September 10, 1999 (fieldwork completion date)

## Notes to the Financial Statements and Supplementary Data

MISSOURI GAMING COMMISSION  
NOTES TO THE FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Notes to the Financial Statements:

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements presents only selected data for each fund of the Missouri Gaming Commission.

Receipts, disbursements, and changes in cash and investments are presented in Exhibit A for the Gaming Commission Fund, Gaming Commission Bingo Fund, and Missouri Breeders Fund. Appropriations from these funds are expended by or for the commission and other state agencies (See Note 3) for restricted purposes.

Appropriations, presented in Exhibit B, are not separate accounting entities. They do not record the assets, liabilities, and equities of the related funds but are used only to account for and control the commission's expenditures from amounts appropriated by the General Assembly.

Expenditures presented for each appropriation may not reflect the total cost of the related activity. Other direct and indirect costs provided by the commission and other state agencies are not allocated to the applicable fund or program.

B. Basis of Accounting

The Statements of Receipts, Disbursements, and Changes in Cash and Investments, Exhibit A, prepared on the cash basis of accounting, presents amounts when they are received or disbursed.

The Statement of Appropriations and Expenditures, Exhibit B, is presented on the state's legal budgetary basis of accounting which recognizes expenditures on the encumbrance method. Expenditures include amounts payable or encumbered at June 30 and paid during the lapse period, which ends August 31 for regular appropriations and December 31 for capital improvement appropriations. The authority to expend appropriations ends with the close of the lapse period. However, the General Assembly may authorize reappropriation of the unexpended balances of capital improvement appropriations for the following year. The General Assembly also may authorize biennial capital improvement appropriations, for which the unexpended balances at June 30 of the first year of the two-year period are reappropriated for expenditure during the second year.

The cash basis of accounting and the budgetary basis of accounting differ from generally accepted accounting principles, which require revenues to be recognized

when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Fiscal Authority and Responsibility

The commission administers transactions in the funds listed below. The state treasurer as fund custodian and the Office of Administration provide administrative control over fund resources within the authority prescribed by the General Assembly.

Gaming Commission Fund: As provided by Section 313.835, RSMo 1994, this fund receives license fees, penalties, administrative fees, reimbursements for services provided, and admission fees authorized under Sections 313.800 to 313.850, RSMo 1994. Appropriations from this fund authorize disbursements for administrative costs incurred by the Missouri Gaming Commission. In addition, appropriations of up to \$500,000 per year may be used to provide matching funds to cities and counties that have demonstrated a need for funding community neighborhood organization programs for the homeless and to deter gang-related violence and crimes.

Gaming Commission Bingo Fund: As provided by Section 313.008, RSMo 1994, this fund receives license fees, penalties, and administrative fees authorized under Section 313.005 to 313.085, RSMo 1994. Appropriations from this fund authorize disbursements for administrative costs incurred by the Missouri Gaming Commission relating to the regulation of bingo operations.

Missouri Breeders Fund: As provided by Section 313.720, RSMo Cumulative Supp. 1999, this fund receives registration fees, gifts or bequests, and such funds as the General Assembly authorized under Section 313.720. Appropriations from this fund authorize disbursements for administrative costs incurred by the Missouri Gaming Commission and incentives for breeders and owners of Missouri bred horses.

D. Employee Fringe Benefits

Missouri State Highway Patrol employees assigned to the Missouri Gaming Commission and paid from the Gaming Commission Fund are covered by the Highway Employee's and Highway Patrol Retirement System (HEHPRS) (a noncontributory plan) and the social security system and may participate in the Missouri Highway and Transportation Department and Missouri State Highway Patrol's medical benefit and life insurance plan and the state's deferred compensation and cafeteria plans. All other commission employees are covered by the Missouri State Employees' Retirement System (MOSERS) (a noncontributory plan) and the social security system and may participate in the state's health care, optional life insurance, deferred compensation, and cafeteria plans. The optional life insurance and cafeteria plans involve only employee contributions or payroll reductions. Also, the deferred compensation plan involves employee payroll deferrals and a monthly state matching contribution for each participating employee.

The state's required contributions for employee fringe benefits are paid from the same funds as the related payrolls. Those contributions are for MOSERS or HEHPRS (retirement, basic life insurance, and long-term disability benefits); social security and medicare taxes; health care premiums; and the deferred compensation plan match.

Transfers related to salaries are not appropriated by agency and thus are not presented in the financial statement at Exhibit B.

2. Cash and Investments

The balances of the Gaming Commission Fund, Gaming Commission Bingo Fund, and Missouri Breeders Fund are pooled with other state funds and invested by the state treasurer.

3. Appropriations Exercised by Other State Agencies

Various state agencies receive direct appropriations from the Gaming Commission Fund, Gaming Commission Bingo Fund, and Missouri Breeders Fund to pay costs incurred for the purposes of those funds. These appropriations were exercised by the following agencies:

| Agency  | Year Ended June 30, |           |           |
|---|---------------------|-----------|-----------|
|   | 1999                | 1998      | 1997      |
| Gaming Commission Fund:                                     |                     |           |           |
| Attorney General's Office                                   | \$ 81,308           | 69,248    | 60,717    |
| Department of Public Safety - Missouri State Highway Patrol | 1,097,185           | 615,371   | 732,268   |
| State Auditor's Office                                      | 13,394              | 16,732    | 36,462    |
| Department of Social Services - Division of Youth Services  | 487,974             | 437,431   | 491,584   |
| Office of Administration                                    | 265,858             | 267,477   | 0         |
| Total Gaming Commission Fund                                | \$ 1,945,719        | 1,406,259 | 1,321,031 |
| Gaming Commission Bingo Fund:                               |                     |           |           |
| Department of Public Safety - Missouri State Highway Patrol | \$ 9,106            | 9,484     | 8,211     |
| Office of Administration                                    | 5,871               | 7,950     | 0         |
| Total Gaming Commission Bingo Fund                          | \$ 14,977           | 17,434    | 8,211     |
| Missouri Breeders Fund:                                     |                     |           |           |
| Office of Administration                                    | \$ 172              | 212       | 0         |
| Total Missouri Breeders Fund                                | \$ 172              | 212       | 0         |

4. Transfers of Gaming Commission Fund Remaining Net Proceeds

Prior to fiscal year 1999, the remaining net proceeds in the Gaming Commission Fund were transferred to the Veterans= Commission Capital Improvement Trust Fund, except that the first \$500,000 of these proceeds were appropriated to the Department of Social Services, Division of Youth Services, to provide matching funds to cities and counties that had demonstrated a need for funding community neighborhood organization programs for the homeless and to deter gang-related violence and crimes.

Beginning with fiscal year 1999, the remaining net proceeds of \$3,000,000 are transferred each to the Veterans= Commission Capital Improvement Trust Fund, Missouri National Guard Trust Fund, and Missouri College Guarantee Fund. After these transfers, any remaining net proceeds, subject to appropriation, are transferred to the Early Childhood Development Education and Care Fund, except that the first \$500,000 which is appropriated to the Department of Social Services, Division of Youth Services, to provide matching funds to cities and counties that have demonstrated a need for funding community neighborhood organization programs for the homeless and to deter gang-related violence and crimes.

The transfer made to the Veterans' Commission Capital Improvement Trust Fund in fiscal year 1999 included \$35,905,493 of remaining net proceeds collected during fiscal year 1998 and therefore, distributed pursuant to the laws effective for fiscal year 1998 collections. The other \$3,000,000 was pursuant to the laws applicable to fiscal year 1999 collections.

The transfers presented in the financial statements were made pursuant to the provisions in Section 313.835, RSMo Cumulative Supp. 1999.

5. Transfers to the General Revenue Fund - State

During fiscal year 1998, \$121,788 was transferred from the Gaming Commission Bingo Fund to the General Revenue Fund - State as required by Section 33.080, RSMo 1994 representing the unexpended balance in the Gaming Commission Bingo Fund.

6. Reconciliation of Total Disbursements to Appropriated Expenditures

Disbursements on Exhibit A reconcile to appropriated expenditures on Exhibit B as follows:

| Year Ended June 30,         |                        |                       |                        |
|-----------------------------|------------------------|-----------------------|------------------------|
| 1999                        |                        |                       |                        |
| Gaming                      |                        |                       |                        |
|                             | Gaming Commission Fund | Commission Bingo Fund | Missouri Breeders Fund |
| DISBURSEMENTS PER EXHIBIT A | \$ 12,278,730          | 44,779                | 1,500                  |

Notes to the Supplementary Data:

7. General Fixed Assets

General fixed assets, which are recorded as expenditures when acquired, are capitalized at cost in the General Fixed Assets Account Group and are not depreciated. The commission's general fixed assets are equipment and furniture.

8. Distributions

Distributions represent distributions of receipts for the fiscal year, a portion of which is disbursed after the end of the fiscal year.

9. Reconciliation of Gaming Commission Fund Receipts to Distributions to the Gaming Commission Fund

Receipts on Exhibit A reconcile to distributions on Schedule 3 as follows:

|   | Year Ended June 30,  |                   |                   |

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Current Recommendations

MISSOURI GAMING COMMISSION  
SUMMARY OF FINDINGS

1. Auditing and Monitoring Procedures (pages 29-32)

The Missouri Gaming Commission (MGC) did not adequately monitor the Daily Tax Remittals. Credit claim forms are not resolved on a timely basis. The MGC's compliance auditors did not document its review of licensees to ensure minimum internal control standard variations and deviations were corrected.

2. License Billings (pages 32-34)

Billings were not prepared and sent on a timely basis for several different types of licenses. The numerical sequence of licenses could not be verified.

3. Supplier Licensing (pages 34-35)

The MGC did not bill a supplier for licensing renewal and suppliers investigations are not completed on a timely basis.

4. Boat Visits (pages 35-36)

Some MGC property tags are on a removable portion of the slot machine. Some serial numbers on the gaming device inventory listing were inaccurate and one slot machine was not properly sealed.

5. \$500 Loss Limit (pages 36-38)

The statutes as currently written do not define what constitutes a \$500 loss. Because of this lack of guidance or clarity in the law, the MGC has chosen to enforce a \$500 buy in limit. Allowing patrons to bring tokens and chips onto a gambling excursion appears to be a violation of the \$500 loss or buy in limit.

MISSOURI GAMING COMMISSION  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S CURRENT RECOMMENDATIONS

We have audited the special-purpose financial statements of the Missouri Gaming Commission as of and for the years ended June 30, 1999, 1998, and 1997, and have issued our report thereon dated September 10, 1999.

The following Management Advisory Report presents our findings and recommendations arising from our audit of the commission's special-purpose financial statements. During our audit, we also identified certain management practices which we believe could be improved. Our audit was not designed or intended to be a detailed study of every system, procedure, and transaction. Accordingly, the findings presented in the following report should not be considered as all-inclusive of areas where improvements may be needed.

|           |   |
|-----------|---|
| <b>1.</b> | <b>Auditing and Monitoring Procedures</b> |
|-----------|---|

The gaming boat operators are required to submit a Daily Tax Remittal form which includes information regarding the adjusted gross receipts (AGR) and admissions to the Missouri Gaming Commission (MGC) for daily gaming operations. The Daily Tax Remittal is used to determine the gaming and admissions taxes. The MGC compliance audit section is responsible for monitoring Daily Tax Remittals and gaming boat operators' gaming tax accounts to ensure the proper amount of gaming and admissions taxes are paid. Our review noted the following areas in need of improvement:

- A. The MGC did not adequately monitor the admissions information on the Daily Tax Remittals resulting in a \$109,474 overpayment of admission taxes for a gaming boat operator. The gaming boat operator had overstated admissions for approximately a year and a half due to problems with the computerized ticketing system. The computerized ticketing system was indicating a higher admissions total than the turnstile readings total. For example, during the days of July 1 through July 6, 1996 the computerized ticketing system indicated 2,743 more admissions than the turnstiles readings. While the MGC reviews the admission tickets sold total and turnstiles total shown on the Daily Tax Remittal and ensures the admission tax is paid based on the higher of the two totals, the MGC did not investigate the large differences being reported between tickets sold and the turnstiles total. The MGC is refunding admission taxes to the gaming boat operator for overpayment of admission taxes.

It appears that an adequate review of the admissions numbers reported on the Daily Tax Remittals should have detected a problem with the computerized ticketing system and prompted an investigation into the problem to resolve the admissions problem and to ensure the correct amount of admission taxes was being paid.

- B. The MGC did not adequately monitor Daily Tax Remittals to ensure gaming boat operators applied credit adjustments of \$40,191 for gaming taxes after the gaming boat operator incurred a negative AGR on a gaming day. A negative AGR occurs when gaming boat operators pay out more in winnings than was received. The gaming boat operators are allowed a credit to gaming taxes owed within the same gaming week for the negative AGR as an offset against a positive AGR. If the credit is not taken in this time period, the gaming boat operator must file a Claim for Refund or Credit Form (credit claim form) with the MGC to be allowed to apply the credit, in accordance with 11 CSR 45-11.110. The credit claim form process (as discussed in C. below) requires additional time and work by the MGC and the Attorney General before the credit can be allowed.

We noted three instances where a gaming boat operator failed to apply for a negative AGR credit against gaming taxes owed within the gaming week and also neglected to file a credit claim form. In addition, we noted three instances where the gaming boat operator did file a credit claim form and is waiting on approval to apply the credit. For one of these instances where a credit claim form had been filed, the credit claim form had been misplaced and the credit amount was not included in the gaming boat operator's final close-out computation until we brought this to the attention of the MGC.

Ensuring the negative AGR credit is applied within the gaming week when possible would be more efficient for the MGC and the gaming boat operators.

- C. Currently, credit claim forms are each reviewed by a hearing officer at the MGC. The MGC's position on the credit claim forms is presented by the Attorney General's office to the hearing officer. As of September 9, 1999, approximately 100 credit claim forms from various gaming boat operators were held by the MGC. The total value of these credit claim forms to the gaming boat operators is approximately \$507,000. Some of these credit claim forms have been on file at the MGC since December 1996. Many of the credit claim forms are due to gaming tax computation errors. Allowing credit claim forms to accumulate and not be resolved on a timely basis appears to be an unreasonable burden on the gaming boat operators and causes the MGC to devote a significant amount of resources to monitor these issues.
- D. The MGC's compliance auditors could not provide documentation that adequate follow up audit procedures were performed to ensure corrective action was taken by licensees in response to minimum internal control standard (MICS) variations or deviations noted in the independent certified public accountant audits. In addition, the MGC did not require one licensee to have a quarterly MICS audit. Instead, the MICS audit for the licensee was performed annually. MGC regulation 11 CSR 45-8.060 requires each licensee to be audited quarterly by an independent certified public accountant.

The MICS was established by the MGC to ensure procedures are adequate for the handling of cash due to the high volume of cash handled by a gaming boat operator and to ensure adjusted gross receipts are properly recorded. To ensure the licensees are adhering to the MICS established by the MGC, the MGC's compliance auditors should follow up on the variations or deviations noted in the independent certified public accountant audit reports and document these follow up reviews.

**WE RECOMMEND** the MGC:

- A. Properly monitor admissions information to ensure admission taxes paid are reasonable.
- B. Properly monitor negative AGR to ensure gaming boat operators are adjusting a subsequent day's AGR for the negative AGR amount to prevent overpayment of gaming taxes and to help avoid the credit claim form process.
- C. Process credit claim forms on a timely basis. In addition, we recommend the MGC work with the Attorney General's office to resolve credit claims forms in a timely manner.
- D.1. Ensure all licensees have a quarterly MICS audit.
- 2. Require its compliance auditors to perform and document follow up procedures for the minimum internal control standards variations or deviations noted in the independent certified public accountant audit reports of licensees to ensure corrective actions are taken.

**AUDITEE'S RESPONSE**

- A. *Agree. It should be noted the responsibility for paying the proper amount of taxes lies with the licensees. The state's interests are protected in that the admission tax is based on the higher of the admission tickets total or the turnstiles total.*

*The Commission, however, has taken the following steps to ensure the licensees compute and pay the proper tax:*

- 1. *Assigned specific staff to the Daily Tax Remittal review process.*
- 2. *Implemented standardized automated worksheets which calculate the figures on the Daily Tax Remittals.*
- B. *Agree. Again, it is the licensee's responsibility to monitor and identify instances where a credit adjustment relating to a negative AGR day is appropriate. The dedicated staff as mentioned above will now permit the Commission to monitor the negative AGR on a daily basis and assist the licensees in paying the proper tax.*

C. *Agree. The Commission began referring credit claims to the Attorney General in 1999. The need for an adjudicative process was informally suggested during a previous audit. Due to the large number of credit claims submitted by licensees and the need to establish a more formal process, the present procedure was implemented. The present process is open to public scrutiny, before an independent hearing officer and with a written record. The Commission has increased the number of hearing officers and assigned a specific staff person to process claims. It should be noted that a number of claims were delayed pending litigation before the Missouri Supreme Court, which was eventually decided in the MGC's favor.*

D.1.  
& 2. *Agree.*

|                            |
|----------------------------|
| <b>2. License Billings</b> |
|----------------------------|

The MGC licenses gaming boat employees who are employed in gaming related activities and these licensure fees are paid by the gaming boat operator. The MGC has made some improvements in the procedures regarding the billing of licensing fees since our last report.

A. As part of our review we determined billings were not prepared and sent on a timely basis. Our review noted the following areas in need of improvement:

! For seventeen of the fifty-six (30%) Level I occupational (gambling boats) licenses reviewed, billings were not prepared and sent on a timely basis. Six of these licenses were in fiscal year 1997, nine in fiscal year 1998, and two in fiscal year 1999. These Level I billings were sent out approximately two months to one year after the employee's license date.

! For six of the forty-seven (13%) Level II occupational (gambling boats) licenses reviewed, billings were not prepared and sent on a timely basis. These Level II billings were sent out approximately two to eight months after the employee's license date. The untimely billings were for application fees and the initial prorated portion of license fees. Four of the six untimely billings were made in the last year of the audit period.

! For twelve of the thirty-eight Level II occupational (suppliers) licenses reviewed, billings were not prepared and sent out timely. Five of these licenses were in fiscal year 1997, four in fiscal year 1998, and three in fiscal year 1999. These Level II supplier license billings were sent out approximately five weeks to ten months after the supplier's license date. The only fees that are billed to Level II suppliers is the initial prorated portion of their licensing fees.

- B. As part of our review of MGC's licensing system, we attempted to verify the numerical sequence of license numbers assigned for the various types of licenses. Our review noted the following areas in need of improvement:

! In August 1998, the MGC changed the procedure for assigning Level II occupational license numbers. Prior to that time, license numbers were assigned based on the gaming boat operator at which an individual was employed and each gaming boat operator had their own sequence of license numbers. In August 1998, the MGC converted all existing license numbers to a new sequence of license numbers in the Missouri Occupational Licensing Enforcement System (MOLES). Currently, all Level II occupational employees are issued licenses from this sequence. However, during the reassignment of license numbers, we noted 105 license numbers were missing. We selected 10 out of the 105 missing license numbers and requested the MGC to provide documentation regarding those 10 license numbers. The MGC was able to document eight out of ten missing license numbers resulted from an individual being issued another number by mistake, with the old license number being deleted. However, MGC was unable to document what happened to the other two license numbers.

! The MGC issues licenses to all organizations which hold bingo events and these licenses are maintained in the Bingo Organization licensing database. During our test of bingo organization licenses we noted four missing license numbers. Although the MGC indicated four bingo organizations had been issued two license numbers and the MGC had probably deleted the second license number, the MGC had no documentation supporting this explanation.

To adequately monitor license billings and to maximize licensing revenues, the numerical sequence of license numbers issued should be accounted for properly. Documentation should be maintained for voided and missing license numbers. Documentation could include the review performed by the MGC over voided and missing license numbers and the results of the review.

**WE RECOMMEND** the MGC:

- A. Ensure billings for all types of licenses are prepared and sent on a timely basis.
- B. Ensure the completeness of the MOLES and the Bingo Organization licensing database by accounting for the numerical sequence of license numbers issued and maintain documentation of voided and missing license numbers.

**AUDITEE'S RESPONSE**

- A. *Agree. The problem involved in ensuring timely billings has been staffing and information technology programs and support. Additional clerical staff have been hired, and two*

*additional information technology positions have been authorized in the fiscal year 2001 budget. The priority is to design and implement a system to eliminate the problems identified in this audit.*

*To put this issue in perspective, it should be noted that during this audit period the Commission collected revenues in excess of \$4.1 million for the following types of licenses;*

*22,358 Level Two Licenses/riverboats (issued)  
45,123 Level Two Licenses/riverboats (renewed)  
200 Level Two Licenses/suppliers (issued)  
408 Level Two Licenses/suppliers (renewed)  
152 Level One Licenses (issued)  
695 Level One Licenses (renewed)*

*As previously stated, during this audit period, the Commission implemented a new licensing system. MOLES caused a delay in billings due to conversion, however, the Commission did properly collect all revenue due to the state.*

- B. Agree. A system will be implemented in fiscal year 2001 which will provide for automatic on-line documentation of voided and/or missing license numbers. Until the fiscal year 2001 licensing system is implemented, the Commission will ensure that manual documentation is carefully maintained.*

|                              |
|------------------------------|
| <b>3. Supplier Licensing</b> |
|------------------------------|

The MGC licenses companies that supply the gaming boat operators with equipment and equipment maintenance services, and the licensure fees are paid by the company receiving the license. Our review noted the following areas in need of improvement:

- A. During our review of supplier licenses, we traced payments made on several licenses per the applicant's database system to revenue transmittal documentation. However, we noted a \$5,000 payment for annual license fees posted to a supplier license did not trace to revenue transmittal documentation and did not appear to have been paid. After we brought this to the attention of the MGC, the MGC billed the supplier for the supplier annual license fees of \$5,000. The MGC notified the supplier that the \$5,000 is due unless the supplier can provide documentation that payment had been made to the MGC. The MGC does not reconcile payments made by suppliers to the applicant's database system. Performing a reconciliation between payments received and payments posted to the applicant's database system would ensure accuracy of the applicant's database system and ensure suppliers have paid their appropriate fees.
- B. Investigations for supplier licenses are not completed on a timely basis. The MGC will issue a temporary supplier license if preliminary background investigations have been successfully completed and the supplier is licensed in another state.

Applications for supplier licenses have been accepted since 1993, and the MGC has issued twelve permanent supplier licenses. However, there are still nine suppliers that hold temporary supplier licenses whose application dates ranged from November 1993 to July 1996. This appears to be an excessive amount of time for a supplier to be under review.

Supplier licenses investigations should be completed on a timely basis to ensure the interests of the public are adequately safeguarded.

Condition B. was also noted in our prior report.

**WE RECOMMEND** the MGC:

- A. Perform a reconciliation of payments received from suppliers to payments posted to the supplier database to ensure suppliers have paid their appropriate fees.
- B. Complete license investigations on the nine temporary suppliers and ensure future supplier investigations are completed on a timely basis.

**AUDITEE'S RESPONSE**

- A. *Agree. The Commission has implemented this recommendation. The annual fee in question on this audit has since been collected.*
- B. *Supplier investigations have been completed by the Commission as timely as possible considering the manpower available to the Commission. Several major unanticipated investigations have delayed the completion of supplier license investigations.*

|                       |
|-----------------------|
| <b>4. Boat Visits</b> |
|-----------------------|

As part of our review of the MGC, we visited five of the boat operations to review procedures. A review of the gaming device (slot machines) inventory listing was performed along with testing the computer chips in several slot machines. Our review noted the following areas in need of improvement:

- A. While performing an inventory of slot machines on one boat, we noted the MGC property tag was incorrect for a slot machine. We located the property tag we were looking for on the slot machine next to the slot machine being tested. The MGC property tag had been placed on a removable portion of the slot machine. The MGC should require the MGC property tag be placed on a section of the slot machine that can not be removed to help ensure the accuracy of the gaming device inventory list and to ensure only properly tested machines are on the gaming floor.

- B. For four of the boats visited, we noted several slot machines where the serial number of the slot machine per the gaming device inventory listing did not agree to the actual serial number on the slot machine. In addition, we noted on one boat an instance (excluding item indicated in A. above) where the MGC property tag number per the gaming device inventory listing did not agree to the actual property tag number on the slot machine. Complete and accurate gaming device inventory listings are necessary to ensure only properly tested machines are on the gaming floor.
- C. When we were testing the computer chips in the slot machines, we noted one instance where the motherboard was not properly sealed to the slot machine with evidence tape. 11 CSR 45-5.210 (J) requires evidence tape to be affixed by an authorized commission agent and must include the date, signature, and identification number of the agent. The MGC requires the Missouri State Highway Patrol officers to put evidence tape over the computer chips after being put in the motherboard. Then the motherboard is sealed with security tape when put into the slot machine. The MGC should ensure the motherboard is properly sealed into the slot machine to reduce the risks of tampering with the computer chips.

**WE RECOMMEND** the MGC:

- A. Require the MGC property tag be placed on a part of the slot machine that is not removable.
- B. Ensure serial numbers and property tag numbers are accurately included on the gaming device inventory listings.
- C. Ensure the motherboard is properly sealed into the slot machines.

**AUDITEE'S RESPONSE**

A. *Agree. Procedures have been implemented by the Patrol and Commission Enforcement staff to prevent a reoccurrence.*

B&C. *Agree.*

|           |                         |
|-----------|-------------------------|
| <b>5.</b> | <b>\$500 Loss Limit</b> |
|-----------|-------------------------|

Section 313.805 (3) RSMo 1994 indicates AThe commission shall regulate the wagering structure for gambling excursions including providing a maximum loss of \$500 per individual player per gambling excursion.@ The statutes as currently written do not define what constitutes a \$500 loss. Because of this lack of guidance or clarity in the law, the MGC has chosen to enforce a \$500 buy in limit. Our review has identified circumstances that raise questions about the state=s \$500 loss or buy in limit per excursion.

The amount that an individual can lose for each excursion is only limited by the amount of winnings during an excursion or consecutive excursions, the amount of tokens or chips an individual is allowed to carry onto a boat at the start of a visit, and the \$500 buy in limit per excursion. Our questions about the Aloss limit<sup>®</sup> were raised when we observed the entrances to one of the boats for a gaming excursion and noted some individuals were allowed to enter the gaming excursion carrying containers of gambling tokens. Individuals entering a gaming excursion are given a Ascrip<sup>®</sup> or electronic card which allows an individual to buy chips or tokens up to \$500 per gaming excursion, the buy in limit. Allowing individuals with a \$500 scrip or electronic card to also bring tokens onto a gaming excursion appears to have the effect of raising the buy in limit to \$500 plus the amount of the tokens or chips carried onto the boat.

The MGC has indicated that to more strictly enforce the \$500 loss limit per gambling excursion, the MGC would have to require all individuals to cash in their tokens or chips at the end of a gambling excursion even if that individual remained on the boat for the next excursion. The MGC believes such a procedure would be difficult to enforce and could have a negative impact on gaming revenues particularly when the boats have large numbers of patrons. The MGC also indicated that although requiring individuals leaving the boats to cash in their tokens or chips would have a lesser detrimental effect, it still would likely reduce the state's gaming revenues.

Allowing individuals to enter a gaming excursion with tokens or chips from previous gaming excursions appears to be a violation of the state's \$500 loss or buy in limit. It appears, at a minimum, the MGC could improve its enforcement of the \$500 loss limit by requiring all patrons to cash in their tokens or chips as they leave the boat without going so far as to require all patrons who remain on the boat for the next excursion to do so.

**WE RECOMMEND** the MGC discontinue the practice of allowing individuals to enter a gaming excursion with tokens or chips from previous gaming excursions to improve enforcement of the \$500 loss limit. In addition, we recommend the MGC request the legislature provide additional guidance regarding how the \$500 loss limit should be interpreted and enforced.

### **AUDITEE'S RESPONSE**

*Disagree. Given the difficulties of enforcing the \$500 loss limit statute as currently written which does not define what constitutes a loss, the Commission selected the present method of enforcement. The MGC views the loss limit as a restriction on a patron's net loss during the total number of gambling excursions they attend. The Auditor's interpretation of the loss limit suggests it is a restriction on the amount a patron can lose in the aggregate, instead of a net loss.*

*The practical implications of these differing views are substantial and could result in a substantial decline of tax revenue and make it extremely difficult for Missouri casinos to operate in the highly competitive environment created by casinos in adjoining states. The MGC considered adopting an*

*enforcement plan in the early days of excursion riverboat gambling similar to that suggested by the Auditor, but rejected it as unworkable.*

*While the Auditor's interpretation of the statute may be correct, it is simply another view of a vague statute that fails to define its most important term. The MGC has chosen to take a practical view of enforcement of this statute which, incidentally has no penalty provisions for violation. The net effect of the Commission's decision has permitted millions of patrons to enjoy the casino experience, provided thousands of jobs and generated substantial revenues.*

*The Auditor's review should serve as an incentive for the legislature to examine the loss limit language and establish a more understandable public policy statement. This examination should occur in conjunction with the recommendation contained in MGC's statutorily mandated fiscal year 1999 annual report, which suggested that the Legislature consider whether the loss limit is achieving its intended public policy objective.*

This report is intended for the information of the management of the Missouri Gaming Commission and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-up on State Auditor's Prior Recommendations

MISSOURI GAMING COMMISSION  
FOLLOW-UP ON STATE AUDITOR'S PRIOR RECOMMENDATIONS

This section reports follow-up action taken by the Missouri Gaming Commission on recommendations made in the Management Advisory Report (MAR) of our report issued for the two years ended June 30, 1996. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the commission should consider implementing these recommendations.

1. Payroll

During fiscal years 1995 and 1996, over \$38,000 of Gaming Commission Fund monies were used to pay salaries and fringe benefits for Missouri Gaming Commission (MGC), Division of Gaming employees that performed work for the MGC, Division of Bingo. Prior to August 28, 1996, Section 313.835, RSMo 1994 indicates the sole purpose of the Gaming Commission Fund was to fund the administrative costs of the commission relating to excursion gambling boat operations. Therefore, using these funds to pay fiscal years 1995 and 1996 expenditures of the Division of Bingo appears to have been in violation of state law.

Recommendation:

The MGC:

- A. Ensure the Gaming Division's appropriations from the Gaming Commission Fund are only used for the purposes authorized by state law.
2. Ensure funding changes are authorized by state law before funding changes are made.
3. Reimburse the Gaming Commission Fund for approximately \$38,000 expended for the Bingo Division.

Status:

A&B. Implemented.

- C. Not implemented. The MGC contacted the Office of Budget and Planning regarding the \$38,000 reimbursement but no appropriation for reimbursement was enacted. Although not repeated in the current report, our recommendation remains as stated above.

2. Auditing and Monitoring Procedures

1. The MGC's compliance auditors had not developed procedures to ensure all individuals that sign gaming reports were listed on its licensing system as possessing occupational licenses issued by the commission. In addition, the MGC's database on licenses contained inaccurate information regarding employment status of certain licensees.

2. The MGC's compliance auditors did not provide documentation that adequate follow up audit procedures were performed to ensure corrective action was taken by licensees in response to minimum internal control standard variations or deviations noted in the independent certified public accountant audits of the licensees.
- C. Complete itemized documentation was not obtained from a gaming operator to support a \$20,864 gaming tax credit issued.

Recommendation:

- A.1. Review signatures and license numbers on gaming reports to ensure only licensed individuals participate in gaming operations.
2. Require the licensee's name and number be clearly printed or typed along with the licensee's signature on all gaming reports submitted to the division.
2. Require its compliance auditors to perform and document follow up procedures for the minimum internal control standards variations or deviations noted in the independent certified public accountant audit reports of licensees to ensure corrective actions are taken by the licensees.
3. Obtain complete and detailed documentation to support completely and adequately all approved credits.

Status:

- A.1. Partially implemented. We did not note any instances of an inactive employee signing gaming reports. However, the license number of the employee is not always indicated on the gaming reports. Although not repeated in the current report, our recommendation remains as stated above.
- A.2. Not implemented. The licensee's name and number are not printed or typed on gaming reports submitted to the division. Although not repeated in the current report, our recommendation remains as stated above.
- B. Partially implemented. The MGC indicated the CPA reports are reviewed and procedures modified to address problem areas for the next time the MGC performs an audit on the gaming boat operator. However, there is no documentation supporting this statement. See MAR No. 1.
- C. Implemented.

3. Supplier Licensing and Investigations

1. Although the MGC authorized gaming suppliers to begin operating in Missouri in 1994, the MGC waited until 1996, to bill and collect from suppliers \$235,000 for current and past license fees.

2. Supplier license investigations were not completed on a timely basis.

Recommendation:

The MGC:

1. Bill suppliers licenses on a timely basis.
2. Complete license investigations on a timely basis.

Status:

- A. Partially implemented. The MGC has improved procedures to bill suppliers on a timely basis. However, we noted areas in need of improvement. See MAR No. 2 and 3.
- B. Not implemented. See MAR No. 3.

4. License Billings

Although the MGC's accounting personnel had made numerous license billing adjustments and corrections, our review of Level II occupational license billings detected several uncorrected billing errors.

Recommendation:

The MGC:

1. Perform thorough reviews of license billings prior to mailing the billings.
2. Adjust future license billings to correct billing errors and omissions noted during our audit.
3. Promulgate regulations on a timely basis.

Status:

Implemented.

5. Enforcement Billings

Fringe benefits totaling over \$34,000 for enforcement overtime costs were not billed to the gaming boat operators. Fringe benefits for enforcement overtime costs were billed on only three invoices prepared by the MGC. Furthermore, the MGC had not billed gaming boats for deferred compensation incentive payments for MSHP employees that performed enforcement duties for the MGC.

Recommendation:

The MGC:

- A. Monitor expenditures from the MGC's appropriations and transfers for employee benefits to ensure the expenditures and transfers are proper and reasonable.
- B. Ensure all enforcement and investigation costs attributable to gaming boats are billed to the gaming boat operators.

Status:

Implemented.

6. Transfers to Veterans' Commission Capital Improvement Trust Fund

The transfer of \$7.5 million of the remaining July 1, 1995 balance of the Gaming Commission Fund was not made until March 1996. The remaining July 1, 1996 balance of \$23.5 million was not transferred to the Veterans' Commission Capital Improvement Trust Fund until July 1997. Although the statute did not establish a specific date for these transfers to be made, it certainly appears these transfers could be made in a more timely manner which could also impact planning considerations for the Veterans' Commission.

Recommendation:

The Office of Administration transfer the unencumbered balance of the Gaming Commission Fund to the Veterans' Commission Capital Improvement Trust Fund in a timely manner.

Status:

Implemented.

7. Access to Records

During the initial fieldwork phase of this audit by the State Auditor's Office (SAO), the general counsel of the MGC indicated that access to certain records would not be allowed, although the State Auditor's Office had been permitted full access to all applicable records and areas in the prior audit. The withheld records hindered the effective and efficient completion of the audit of the MGC.

Recommendation:

The MGC in the future promptly provide all records necessary to allow the operations of the commission to be audited in an efficient and effective manner.

Status:

Implemented.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

## MISSOURI GAMING COMMISSION HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

The Missouri Gaming Commission was established in 1993 by the Eighty-Seventh General Assembly, as specified by Chapter 313, RSMo.

Section 313.822, RSMo 1994, provides that a tax be imposed on the adjusted gross receipts (the gross receipts from licensed gambling games and devices less the winnings paid to wagerers) at the rate of twenty percent. This section allows the home dock city or county to receive ten percent of the adjusted gross receipts tax and the remainder to be deposited in the state treasury to the credit of the "Gaming Proceeds for Education Fund." Furthermore, Article III, Section 39(d) of the Missouri Constitution requires all state revenues derived from gaming activities be appropriated solely for public institutions of elementary, secondary, and higher education.

Section 313.820, RSMo 1994, provides that an excursion boat licensee shall pay to the commission an admission fee of two dollars for each person embarking on an excursion with a ticket of admission. One dollar shall be paid to the home dock city and county while the other dollar, per Section 313.835, RSMo 1994, shall be deposited in the state treasury to the credit of the "Gaming Commission Fund". This fund is for the purpose of funding the administrative costs of the commission relating to excursion gambling boat operations, subject to appropriation. This fund also includes revenues received by the commission for license fees, penalties, administrative fees, and reimbursement by any excursion gambling boat operators for services provided by the commission.

The commission performs all duties and has all powers and responsibilities conferred and imposed upon it relating to the licensing and regulation of excursion gambling boats and the lawful operation of the game of bingo under Chapter 313, RSMo 1994. Effective August 28, 1996, the Missouri Gaming Commission became responsible for regulating horse racing under Chapter 313, RSMo Cumulative Supp. 1999. Within the commission there is a Division of Gaming and a Division of Bingo. The Executive Director of the Missouri Gaming Commission is hired by the commission. Mr. Tom Irwin served as the Executive Director of the Missouri Gaming Commission from November 15, 1993 through November 14, 1997. Mel Fisher began serving as the Acting Executive Director on November 15, 1997, until being named Executive Director on August 26, 1998.

The Missouri Gaming Commission consists of five members appointed by the governor, with the advice and consent of the Senate. Terms of members are for three years on a staggered basis. No person shall serve as a member more than six years. The chairman is appointed by the governor.

At June 30, 1999, members of the Missouri Gaming Commission were:\*

Julian Seeherman, Chairman  
Lynne Nikolaisen  
Robert Smith  
Lewis Ullery

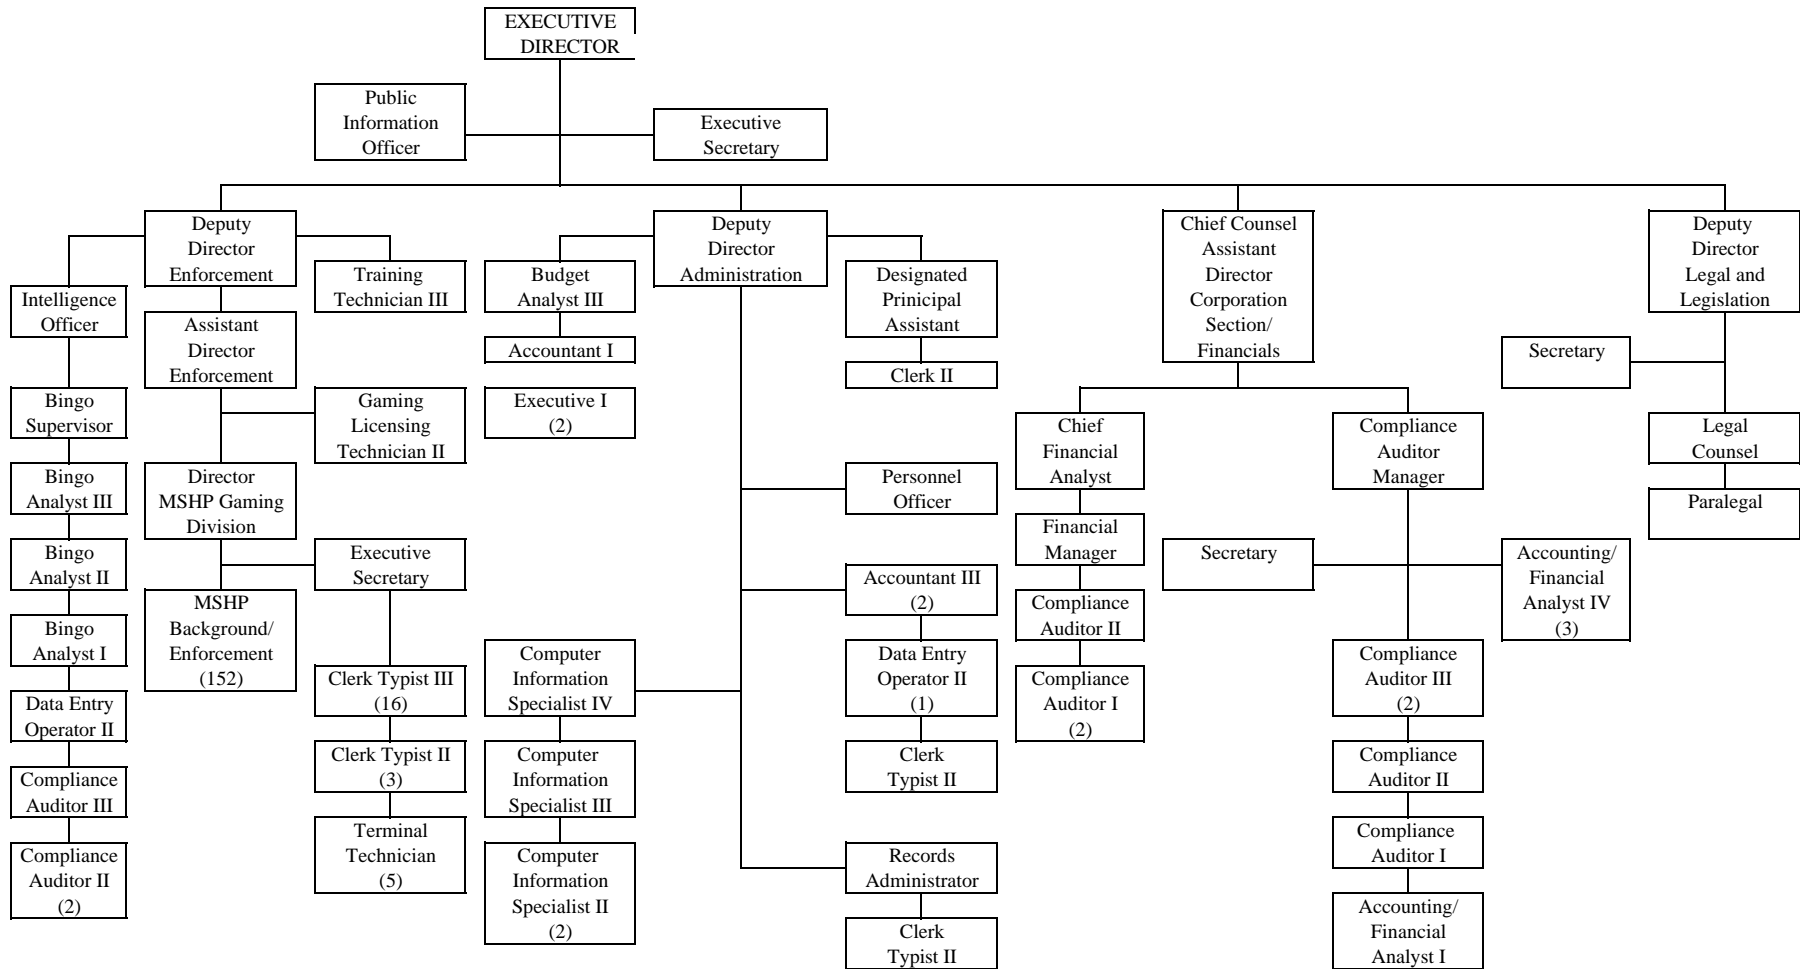

Term Expires  
April 2000  
April 2002  
April 2002  
April 2001

\* At June 30, 1999 there were only four members of the Missouri Gaming Commission and no individual has been appointed to be the fifth member.

At June 30, 1999, the Missouri Gaming Commission had 171 employees. An organization chart follows.

AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

June 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**The following report is our review of the Non-Teacher School Employee Retirement System of Missouri.**

**There were no audit findings regarding this retirement system.**

-----  
The State Auditor is required by state law to review the audits of the Non-Teacher School Employee Retirement System of Missouri. The system's Board of Trustees has contracted with private certified public accounting firms to perform annual financial audits of the retirement system.

The Non-Teacher School Employee Retirement System of Missouri was created October 13, 1965, and is governed by Chapter 169 of the Revised Statutes of Missouri. This system is a mandatory cost-sharing multiple employer retirement system for all public school district employees in Missouri (except the school districts of St. Louis and Kansas City) and community college district employees (except the Community College of St. Louis) who work 20 or more hours per week on a regular basis and who are not contributing members of the Public School Retirement System. The system also includes non-certificated employees of the Non-Teacher School Employee Retirement System and the Public School Retirement System. A summary of the retirement, death, and disability benefits provided to members is included in our report.

**Copies of this audit are available upon request.**

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

Honorable Mel Carnahan, Governor  
and  
Board of Trustees  
and  
Joel Walters, Executive Director  
Non-Teacher School Employee Retirement System  
of Missouri  
Jefferson City, Missouri 65102

The State Auditor is required under Section 169.020.22, RSMo Cumulative Supp. 1999, to review the audit of the records and accounts of the Non-Teacher School Employee Retirement System of Missouri. The Board had engaged KPMG, LLP to perform the annual financial audits of the system for the years ended June 30, 1999 and 1998, and Evers and Company, Certified Public Accountants (CPAs), L.L.C., to perform the annual financial audit of the system for the year ended June 30, 1997. We reviewed the reports and substantiating workpapers of the CPA firms. The scope of our review included, but was not necessarily limited to, the period of July 1, 1996 to June 30, 1999. The objectives of this review were to:

1. Review certain financial activity and related procedures, and examine compliance with certain constitutional provisions, statutes, administrative rules, and attorney general's opinions.
2. Examine certain management practices.

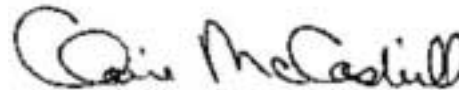

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed the system's board minutes, various contracts, and other pertinent policies, and discussed various system procedures with applicable personnel.

As a part of our review, we assessed the system's management controls to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to management controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation.

Our review was limited to the specific matters described above and was based on selective tests and procedures considered appropriate in the circumstances. Had we perform additional procedures, other information might have come to our attention which would have been included in this report.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This background information was obtained from the system's management and was not subjected to the procedures applied in our review of the Non-Teacher School Employee Retirement System of Missouri.

The accompanying Management Advisory Report presents our findings and recommendations arising from our review of the Non-Teacher School Employee Retirement System of Missouri.

A handwritten signature in black ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Recommendations

NON-TEACHER SCHOOL EMPLOYEE  
RETIREMENT SYSTEM OF MISSOURI  
MANAGEMENT ADVISORY REPORT-  
STATE AUDITOR'S RECOMMENDATIONS

In addition to our review of the reports and substantiating working papers of KPMG, LLP, and Evers and Company, CPAs, L.L.C., we included those procedures which we considered necessary in the circumstances.

We reviewed probable compliance with certain constitutional provisions, statutes, administrative rules, and attorney general's opinions as we deemed necessary or appropriate. This review was not intended to provide assurance of full compliance with all regulatory provisions and, thus, did not include all regulatory provisions which may apply. Nevertheless, our review disclosed no conditions that represent significant violations.

The period of review for the purpose stated above included, but was not necessarily limited to, the three years ended June 30, 1999.

This report is intended for the information of the system's management and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

# NON-TEACHER SCHOOL EMPLOYEE RETIREMENT SYSTEM OF MISSOURI HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

The Non-Teacher School Employee Retirement System of Missouri (NTRS) was created October 13, 1965, under an act of the 73<sup>rd</sup> General Assembly, commenced actual operations on November 1, 1965, and is governed by Chapter 169 of the Revised Statutes of Missouri. The NTRS is a mandatory cost-sharing multiple employer retirement system for all public school district employees in Missouri (except the school districts of St. Louis and Kansas City) and community college district employees (except the Community College of St. Louis) who work 20 or more hours per week on a regular basis and who are not contributing members of the Public School Retirement System (PSRS). The system also includes non-certificated employees of the NTRS and the PSRS. The NTRS is a defined benefit plan providing service retirement, death, and disability benefits to its members.

The responsibility for the operation and administration of the retirement system is vested in the PSRS Board of Trustees, sitting as the governing board for NTRS. The Board consists of three elected PSRS members, one elected NTRS member, and three persons appointed by the Governor. The members from the PSRS and NTRS are elected from the active and retired members of the retirement systems. Two elected trustees are seated each even-numbered calendar year to serve four-year terms. Two governor-appointed trustees are seated in even numbered years that coincide with Presidential elections. The third governor-appointed trustee is seated in even numbered years which do not coincide with Presidential elections. The Board of Trustees as of June 30, 1999, were as follows:

| <u>Name</u>        | <u>Position</u> | <u>Membership</u>     | <u>Term Expires</u> |
|--------------------|-----------------|-----------------------|---------------------|
| Laurel S. Cochenet | Member          | Appointed *           | June 30, 2000       |
| Louetta Floyd      | Member          | Elected (PSRS)        | June 30, 2000       |
| Wayne Wheeler      | Member          | Elected (PSRS)        | June 30, 2000       |
| Veronica Hambacker | Chair           | Elected (PSRS)        | June 30, 2002       |
| Nancy Gaines       | Member          | Elected (NTRS)        | June 30, 2002       |
| William J. Wasson  | Member          | Appointed (Retired) * | June 30, 2002       |
| Lynn Harmon        | Member          | Appointed             | June 30, 2002       |

\* Appointed by the state Board of Education in accordance with superseded Section 169.020.2, RSMo Cumulative Supp. 1997. Upon expiration of these terms, the Governor will appoint the replacement members in accordance with Section 169.020.2, RSMo Cumulative Supp. 1999.

M. Steve Yoakum served as Executive Director to the board until April 1997. Joel Walters was appointed April 16, 1997. The Executive Director is responsible for employment of the retirement office staff, routine operation of the system, and advising the board on all matters pertaining to the system.

The Segal Company, of Englewood, Colorado, served the board as actuarial consultants prior to June 17, 1997. The Board of Trustees appointed Gabriel, Roeder, Smith & Company, of Rolling

Meadows, Illinois, as actuarial consultants on June 17, 1997. As of June 30, 1999, the following investment managers held investments for the NTRS: BlackRock Financial Management, Inc., of New York, New York; NISA Investment Advisors, of St. Louis, Missouri; Sovran Capital Management, of Richmond, Virginia; State Street Global Advisors, of Boston, Massachusetts; Wellington Management Company, of Boston, Massachusetts; Alliance Capital Management, of Minneapolis, Minnesota; Barrow, Hanley, Mewhinny, & Strauss, of Dallas, Texas; Brinson Partners, Inc., of Chicago, Illinois; Dimensional Fund Advisors, of Santa Monica, California; DSI International Management, Inc., of Norwalk, Connecticut; TCW Asset Management Company, of Los Angeles, California; Thomson, Horstmann & Bryant, Inc., of Saddle Brook, New Jersey; Bank of Ireland Asset Management, of Dublin, Ireland; INVESCO Global Asset Management, Inc., of Atlanta, Georgia; and Oechsle International Advisors, of Boston, Massachusetts. State Street Bank and Trust Company, of Boston, Massachusetts serves as the system's master custodian. Strategic Investment Solutions, Inc., of San Francisco, California serves as the system's investment consultant. Thompson Coburn, Attorneys at Law, of St. Louis, Missouri serves as the system's general counsel. KPMG, LLP serves as the fund's independent auditor.

As of June 30, 1999, there were 41,599 active members, 10,057 inactive members, and 12,461 retired members and beneficiaries receiving benefits.

As of June 30, 1999, membership, required contributions, and benefits provided under the NTRS are generally as follows:

#### Eligibility

NTRS membership is automatic, regardless of position, for all persons not covered by the PSRS who are regularly employed for 20 or more hours a week by the public school districts in Missouri (except the St. Louis and the Kansas City school districts), public junior college districts (except the Community College District of St. Louis) in Missouri, and the Board of Trustees of the retirement system. Prior to August 28, 1997, certificated part-time employees whose service would qualify them for membership in the NTRS could elect instead to become members of PSRS. Effective August 28, 1997, part-time certificated employees working twenty or more hours per week automatically become a PSRS member, or have the option of being a member of the NTRS. Members working in covered employment are considered active members and members not working in covered employment are considered inactive members.

#### Employee Contributions

Active members contributed 4.5 percent of gross salary for the year ended June 30, 1999 and 4.3 percent of gross salary for the years ended June 30, 1998 and 1997 to the NTRS. The contributions are deducted and remitted by the employer, and are credited by NTRS to individual member accounts. Since July 1, 1989, member contributions have been tax-deferred for federal and state income tax purposes.

Interest, at a rate set each year by the Board of Trustees, is credited to individual member accounts each June 30 based on the previous June 30 balance. The rate credited on June 30, 1999, 1998, and 1997 was six percent.

Member contributions plus interest are fully refundable upon termination of service or death. All credit and benefit rights are forfeited upon voluntary withdrawal or automatic termination of membership. Voluntary withdrawal is available to members who cease covered employment. Automatic termination occurs when a non-vested member is absent from covered employment for five consecutive school years. A member may, upon returning to covered employment, reinstate the credit forfeited through termination of a previous membership by repaying the money withdrawn plus interest.

### Employer Participation

The employers served by NTRS withhold members' contributions from salary payments and match those contributions. Employer contributions and investment earnings on those funds are placed by NTRS in a general reserve account to pay monthly benefits to retirees and to beneficiaries of deceased members. Employers are responsible for remitting contributions promptly and for furnishing contribution information and new member records to NTRS. Employers also provide needed data when members apply for benefits or refunds of contributions upon termination of employment. Unlike employee contributions noted above, employer contributions are not refunded to the employer upon a member's voluntary withdrawal from the system, termination of service, or death.

### Service Retirement Benefits

Service retirement benefits are payable to members who have terminated covered employment and who have met certain eligibility requirements. All service retirement benefits are based on a formula which multiplies final average salary by the applicable formula factor, by the years of creditable service and, in the case of early retirement, by an age reduction factor. Final average salary is obtained by dividing the total compensation payable to a member for the highest five consecutive years of service by sixty; the applicable factor is determined by the type of retirement eligibility; total credit is the amount accumulated at retirement for covered service and purchased credit; and the age factor, where applicable, is determined by the age at retirement. Effective August 28, 1997, the board may set a maximum percentage increase in annual compensation from one year to the next in the final average salary period. The board set a twenty percent cap on the increase in annual compensation in the final average salary period effective July 1, 1997 using the 1997-1998 school year as the base period and the 1998-1999 school year as the first year of applicability.

### NORMAL RETIREMENT

Prior to July 1, 1998, a member could retire with benefits calculated under the standard (.0135) formula factor at age sixty with five years of credit, at age fifty-five with twenty-five years of credit, or at any age with thirty years of credit. A special provision in effect until July 1, 1998 allowed members under age fifty-five, with twenty-five, but less than thirty years of credit to retire with benefits calculated under a modified formula factor ranging from .0125 to .0133 (based on years of credit) but with no age reduction factor applied.

Effective July 1, 1998, a member may retire with benefits calculated under the standard (.0145) formula factor at age sixty with five years of credit, at age fifty-five with twenty-

five years of credit, or at any age with thirty years of credit. A special provision in effect until July 1, 2000 allows members under age fifty-five with twenty five, but less than thirty years of credit to retire with benefits calculated under a modified formula factor ranging from .0135 to .0143 (based on years of credit) but with no age reduction factor applied.

#### EARLY RETIREMENT

Prior to July 1, 1998, a member could retire with benefits calculated under the standard (.0135) formula with an age reduction factor applied, at age fifty-five with five years of credit.

Effective July 1, 1998, a member may retire with benefits calculated under the standard (.0145) formula with an age reduction factor applied, at age fifty-five with five years of credit.

#### PAYMENT OPTIONS

A retiring member may elect to receive the maximum benefits payable under the Single Life option, or may elect to receive a reduced benefit under one of three Joint-and-Survivor options or under one of two Term-Certain options, to provide survivor benefit coverage in varying degrees after the retiree's death.

#### ACCELERATED PAYMENT PLAN

The Accelerated Payment Plan (APP) is an early retirement option for NTRS members. The plan, which became effective February 1, 1999, allows members to accelerate the payment of their benefit until age 62. When the member reaches the minimum Social Security eligibility age of 62, the benefit will be reduced, even if the member does not apply for their Social Security benefit at that time. In most cases, the APP allows a member to maintain a fairly level income throughout retirement. The member is allowed to choose any survivor plan in conjunction with the APP.

#### Cost-of-Living Adjustments

Each year during which the board determines that the cost-of-living index has increased, the retirement allowance of each retired member, who has been retired for more than three years, shall be increased by up to five percent of the benefit payable, effective in the following January. The total of such increases may not exceed 75 percent.

#### Disability Retirement Benefits

Disability retirement benefits are payable to eligible members who because of permanent disability are unable to earn a livelihood in any occupation. The disability retirement benefit is calculated at 90 percent of the normal service retirement benefit.

### Withdrawal Benefit

If a member ceases to be a public school employee, or if the membership is otherwise terminated, he receives his accumulated contributions with interest. If a member ceases to be a public school employee after five or more years of creditable service, the member may elect to leave his contributions in the system and claim a retirement allowance any time after he reaches the minimum age for voluntary retirement.

### Death and Survivor Benefits

When a member dies before retirement, the designated beneficiary becomes eligible for a lump sum refund of the member's contributions and interest. In lieu of a lump sum refund, beneficiaries with an insurable interest and eligible beneficiaries of disability retirees may elect to receive monthly benefits under the Option 2 retirement plan. Such benefits are payable when the member would have been eligible for early or normal retirement.

### Reciprocity

Vested members in the system who have vested credit in another Missouri system having a reciprocity agreement may transfer such credit to this system. The funds transferred are used to establish additional credit in this system based on actuarial reserve calculations. Likewise, members leaving the system may have funds transferred to another Missouri system under certain conditions. A vested member of any of the Missouri systems may buy credit in the vested system for non-vested services in any of the other Missouri systems, not to exceed the credit in the non-vested system.

### Temporary Early Retirement Window

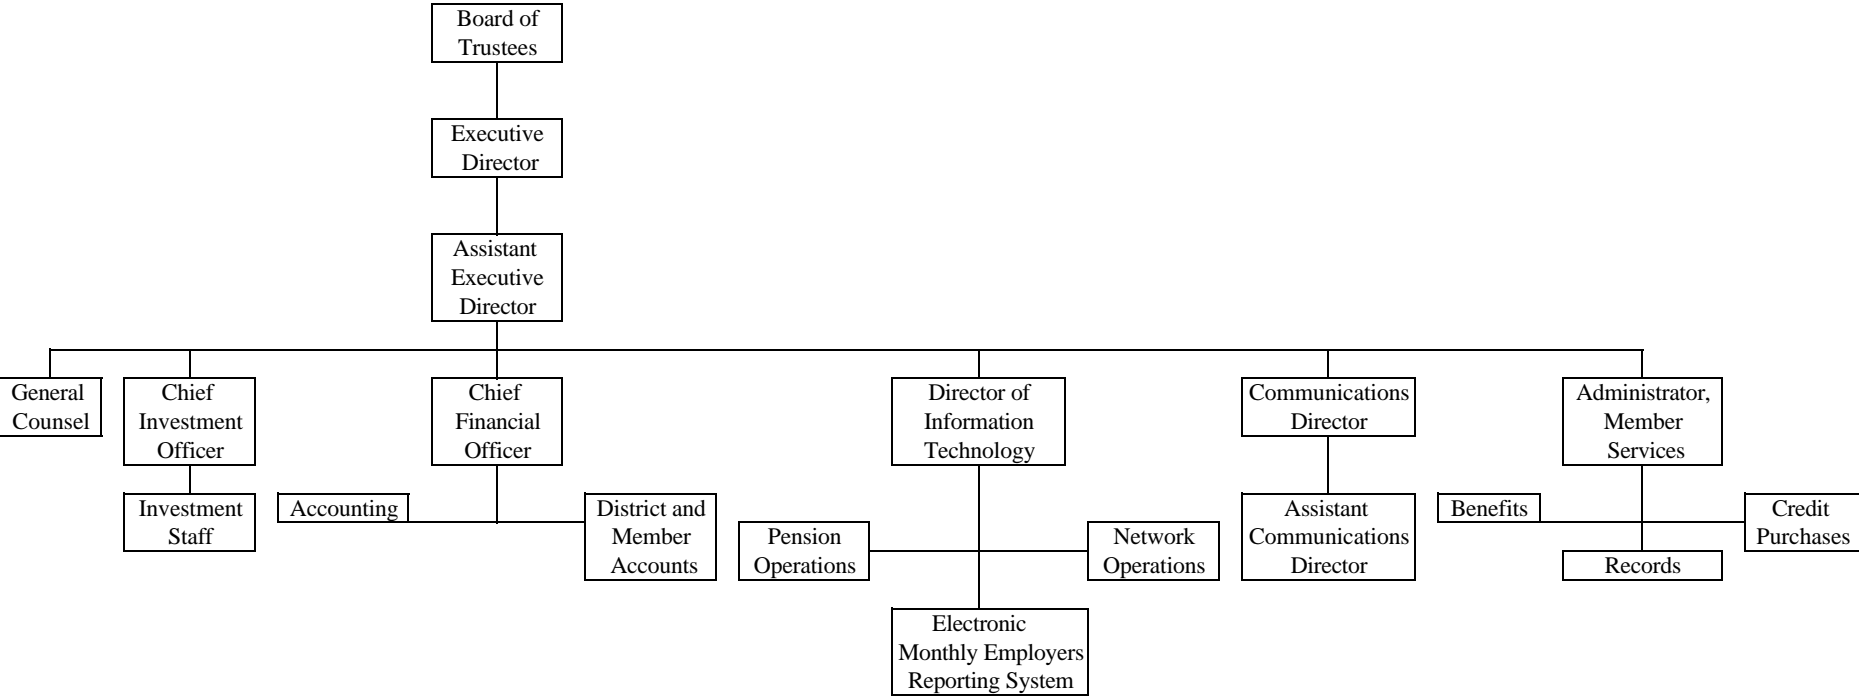

During the two-year period from July 1, 1996 through July 1, 1998, members under age fifty-five with at least twenty-five, but less than thirty years of service had the opportunity to retire under a modified benefit formula, with no benefit reduction because of age. Benefits for those who retired under the modified plan were calculated using the following formula factors in lieu of the standard 1.35 percent factor: for twenty five years of service, 1.25 percent; for twenty-six years, 1.27 percent; for twenty-seven years, 1.29 percent; for twenty-eight years, 1.31 percent; and for twenty-nine years 1.33 percent.

During the two-year period from July 1, 1998 through July 1, 2000, members under age fifty-five with at least twenty-five, but less than thirty years of service will have the opportunity to retire under a modified benefit formula, with no benefit reduction because of age. Benefits for those who retire under the modified plan will be calculated using the following formula factors in lieu of the standard 1.45 percent factor: for twenty five years of service, 1.35 percent; for twenty-six years, 1.37 percent; for twenty-seven years, 1.39 percent; for twenty-eight years, 1.41 percent; and for twenty-nine years 1.43 percent.

An organization chart follows. At June 30, 1999, the NTRS had no employees. On January 1, 1997, all existing NTRS employees were transferred to the PSRS and the PSRS assumed responsibility for all administrative duties related to the operations of the NTRS.

AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

June 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**The following report is our review of the Public School Retirement System of Missouri.**

**There were no audit findings regarding this retirement system.**

-----  
The State Auditor is required by state law to review the audits of the Public School Retirement System of Missouri. The system's Board of Trustees has contracted with private certified public accounting firms to perform annual financial audits of the retirement system.

The Public School Retirement System of Missouri was created August 1, 1945, and is governed by Chapter 169 of the Revised Statutes of Missouri. This system is a mandatory cost-sharing multiple employer retirement system for all full-time certificated employees and certain part-time certificated employees of all public school districts in Missouri (except the school districts of St. Louis and Kansas City) and all public community colleges. The system also includes certificated employees of Public School Retirement System, Non-Teacher School Employee Retirement System, Missouri State Teachers Association, Missouri State High School Activities Association, and certain state teachers who elected to remain covered by Public School Retirement System under legislation enacted in 1986, 1987, and 1989. A summary of the retirement, death, and disability benefits provided to members is included in our report.

*Copies of this audit are available upon request.*

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

Honorable Mel Carnahan, Governor  
and  
Board of Trustees  
and  
Joel Walters, Executive Director  
Public School Retirement System of Missouri  
Jefferson City, Missouri 65102

The State Auditor is required under Section 169.020.22, RSMo Cumulative Supp. 1999, to review the audit of the records and accounts of the Public School Retirement System of Missouri. The Board had engaged KPMG, LLP to perform the annual financial audits of the system for the years ended June 30, 1999 and 1998, and Evers and Company, Certified Public Accountants (CPAs), L.L.C. to perform the annual financial audit of the system for the year ended June 30, 1997. We reviewed the reports and substantiating workpapers of the CPA firms. The scope of our review included, but was not necessarily limited to, the period of July 1, 1996 to June 30, 1999. The objectives of this review were to:

1. Review certain financial activity and related procedures, and examine compliance with certain constitutional provisions, statutes, administrative rules, and attorney general's opinions.
2. Examine certain management practices.

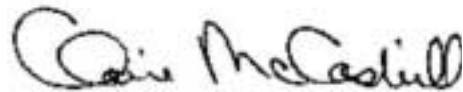

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed the system's board minutes, various contracts, and other pertinent policies, and discussed various system procedures with applicable personnel.

As a part of our review, we assessed the system's management controls to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to management controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation.

Our review was limited to the specific matters described above and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention, which would have been included in this report.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This background information was obtained from the system's management and was not subjected to the procedures applied in our review of the Public School Retirement System of Missouri.

The accompanying Management Advisory Report presents our findings and recommendations arising from our review of the Public School Retirement System of Missouri.

A handwritten signature in black ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" being more prominent than the last name "McCaskill".

Claire McCaskill  
State Auditor

April 10, 2000 (fieldwork completion date)

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Recommendations

PUBLIC SCHOOL RETIREMENT SYSTEM OF MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S RECOMMENDATIONS

In addition to our review of the reports and substantiating working papers of KPMG, LLP, and Evers and Company, CPAs, L.L.C., we included those procedures which we considered necessary in the circumstances.

We reviewed probable compliance with certain constitutional provisions, statutes, administrative rules, and attorney general's opinions, as we deemed necessary or appropriate. This review was not intended to provide assurance of full compliance with all regulatory provisions and, thus, did not include all regulatory provisions, which may apply. Nevertheless, our review disclosed no conditions that represent significant violations.

The period of review for the purpose stated above included, but was not necessarily limited to, the three years ended June 30, 1999.

This report is intended for the information of the system's management and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

## PUBLIC SCHOOL RETIREMENT SYSTEM OF MISSOURI HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

The Public School Retirement System of Missouri (PSRS) was created August 1, 1945, under an act of the 63<sup>rd</sup> General Assembly, commenced actual operations on July 1, 1946, and is governed by Chapter 169 of the Revised Statutes of Missouri. The PSRS is a mandatory cost-sharing multiple employer retirement system for all full-time certificated employees and certain part-time certificated employees of all public school districts in Missouri (except the school districts of St. Louis and Kansas City) and all public community colleges. The system also includes certificated employees of PSRS, Non-Teacher School Employee Retirement System (NTRS), Missouri State Teachers Association, Missouri State High School Activities Association, and certain state teachers who elected to remain covered by PSRS under legislation enacted in 1986, 1987, and 1989. The PSRS is a defined benefit plan providing service retirement, death, and disability benefits to its members.

The responsibility for the operation and administration of the retirement system is vested in the PSRS Board of Trustees, consisting of three elected PSRS members, one elected NTRS member, and three persons appointed by the Governor. The members from the PSRS and NTRS are elected from the active and retired members of the retirement systems. Two elected trustees are seated each even-numbered calendar year to serve four-year terms. Two governor-appointed trustees are seated in even numbered years that coincide with Presidential elections. The third governor-appointed trustee is seated in even numbered years which do not coincide with Presidential elections. The Board of Trustees as of June 30, 1999, were as follows:

| <u>Name</u>        | <u>Position</u> | <u>Membership</u>     | <u>Term Expires</u> |
|--------------------|-----------------|-----------------------|---------------------|
| Laurel S. Cochenet | Member          | Appointed *           | June 30, 2000       |
| Louetta Floyd      | Member          | Elected (PSRS)        | June 30, 2000       |
| Wayne Wheeler      | Member          | Elected (PSRS)        | June 30, 2000       |
| Veronica Hambacker | Chair           | Elected (PSRS)        | June 30, 2002       |
| Nancy Gaines       | Member          | Elected (NTRS)        | June 30, 2002       |
| William J. Wasson  | Member          | Appointed (Retired) * | June 30, 2002       |
| Lynn Harmon        | Member          | Appointed             | June 30, 2002       |

\* Appointed by the state Board of Education in accordance with superseded Section 169.020.2, RSMo Cumulative Supp. 1997. Upon expiration of these terms, the Governor will appoint the replacement members in accordance with Section 169.020.2, RSMo Cumulative Supp. 1999.

M. Steve Yoakum served as Executive Director to the board until April 1997. Joel Walters was appointed April 16, 1997. The Executive Director is responsible for employment of the retirement office staff, routine operation of the system, and advising the board on all matters pertaining to the system.

The Segal Company , of Englewood, Colorado, served the board as actuarial consultants prior to June 17, 1997. The Board of Trustees appointed Gabriel, Roeder, Smith & Company, of Rolling Meadows, Illinois, as actuarial consultants on June 17, 1997. As of June 30, 1999, the following investment managers held investments for the PSRS: BlackRock Financial Management, Inc., of New York, New York; NISA Investment Advisors, of St. Louis, Missouri; Sovran Capital Management, of Richmond, Virginia; State Street Global Advisors, of Boston, Massachusetts; Wellington Management Company, of Boston, Massachusetts; Alliance Capital Management, of Minneapolis, Minnesota; Barrow, Hanley, Mewhinny, & Strauss, of Dallas, Texas; Brinson Partners, Inc., of Chicago, Illinois; Dimensional Fund Advisors, of Santa Monica, California; DSI International Management, Inc., of Norwalk, Connecticut; TCW Asset Management Company, of Los Angeles, California; Thomson, Horstmann & Bryant, Inc., of Saddle Brook, New Jersey; Bank of Ireland Asset Management, of Dublin, Ireland; INVESCO Global Asset Management, Inc., of Atlanta, Georgia; and Oechsle International Advisors, of Boston, Massachusetts. State Street Bank and Trust Company, of Boston, Massachusetts serves as the system's master custodian. Strategic Investment Solutions, Inc., of San Francisco, California serves as the system's investment consultant. Thompson Coburn, Attorneys at Law, of St. Louis, Missouri serves as the system's general counsel. KPMG, LLP serves as the fund's independent auditor.

As of June 30, 1999, there were 70,092 active members, 7,277 inactive members, and 25,748 retired members and beneficiaries receiving benefits.

As of June 30, 1999, membership, required contributions, and benefits provided under the PSRS are generally as follows:

#### Eligibility

PSRS membership is automatic, regardless of position, for certificated, full-time employees of public school districts in Missouri (except the St. Louis and the Kansas City school districts), public junior college districts in Missouri, and of PSRS. Prior to August 28, 1997, certificated part-time employees whose service would qualify them for membership in the NTRS could elect instead to become members of PSRS. Effective August 28, 1997, part-time certified employees working twenty or more hours per week automatically become a PSRS member, or have the option of being a member of the NTRS. Members working in covered employment are considered active members and members not working in covered employment are considered inactive members.

#### Employee Contributions

Active members contributed 10.5 percent of gross salary for the years ended June 30, 1999, 1998, and 1997 to the PSRS. The contributions are deducted and remitted by the employer, and are credited by PSRS to individual member accounts. Since July 1, 1989, member contributions have been tax-deferred for federal and state income tax purposes.

Interest, at a rate set each year by the Board of Trustees, is credited to individual member accounts each June 30 based on the previous June 30 balance. The rate credited on June 30, 1999, 1998, and 1997 was six percent.

Member contributions plus interest are fully refundable upon termination of service or death. All credit and benefit rights are forfeited upon voluntary withdrawal or automatic termination of membership. Voluntary withdrawal is available to members who cease covered employment. Automatic termination occurs when a non-vested member is absent from covered employment for five consecutive school years. A member may, upon returning to covered employment, reinstate the credit forfeited through termination of a previous membership by repaying the money withdrawn plus interest.

### Employer Participation

The employers served by PSRS withhold members' contributions from salary payments and match those contributions. Employer contributions and investment earnings on those funds are placed by PSRS in a general reserve account to pay monthly benefits to retirees and to beneficiaries of deceased members. Employers are responsible for remitting contributions promptly and for furnishing contribution information and new member records to PSRS. Employers also provide needed data when members apply for benefits or refunds of contributions upon termination of employment. Unlike employee contributions noted above, employer contributions are not refunded to the employer upon a member's voluntary withdrawal from the system, termination of service, or death.

### Service Retirement Benefits

Service retirement benefits are payable to members who have terminated covered employment and who have met certain eligibility requirements. All service retirement benefits are based on a formula which multiplies final average salary by the applicable formula factor, by the years of creditable service and, in the case of early retirement, by an age reduction factor. Prior to July 1, 1999, final average salary was obtained by dividing the total compensation payable to a member for the highest five consecutive years of service by sixty. Effective July 1, 1999, final average salary is obtained by dividing the total salaries for the three highest consecutive years of service by thirty-six. The applicable factor is determined by the type of retirement eligibility; total credit is the amount accumulated at retirement for covered service and purchased credit; and the age factor, where applicable, is determined by the age at retirement. Effective August 28, 1997, the board may set a maximum percentage increase in annual compensation from one year to the next in the final average salary period. The board set a twenty percent cap on the increase in annual compensation in the final average salary period effective July 1, 1997, using the 1997-1998 school year as the base period and the 1998-1999 school year as the first year of applicability.

### NORMAL RETIREMENT

Prior to July 1, 1998, a member could retire with benefits calculated under the standard (.023) formula factor at age sixty with five years of credit, at age fifty-five with twenty-five years of credit, or at any age with thirty years of credit. A special provision in effect

until July 1, 1998 allowed members under age fifty-five, with twenty-five , but less than thirty years of credit to retire with benefits calculated under a modified formula factor ranging from .020 to .022 (based on years of credit) but with no age reduction factor applied.

Effective July 1, 1998, a member may retire with benefits calculated under the standard (.025) formula factor at age sixty with five years of credit, at any age with thirty years of credit, or when a combination of age and service credit equals eighty. A special provision in effect until July 1, 2000 allows members under age fifty-five with twenty-five, but less than thirty years of credit to retire with benefits calculated under a modified formula factor ranging from .022 to .024 (based on years of credit) but with no age reduction factor applied.

#### EARLY RETIREMENT

Prior to July 1, 1998, a member could retire with benefits calculated under the standard (.023) formula with an age reduction factor applied, at age fifty-five with five years of credit or at any age with twenty-five years of credit.

Effective July 1, 1998, a member may retire with benefits calculated under the standard (.025) formula with an age reduction factor applied, at age fifty-five with five years of credit or at any age with twenty-five years of credit.

#### PAYMENT OPTIONS

A retiring member may elect to receive the maximum benefits payable under the Single Life option, or may elect to receive a reduced benefit under one of three Joint-and-Survivor options or under one of two Term-Certain options, to provide survivor benefit coverage in varying degrees after the retiree's death.

Certain benefit minimums apply to normal or early retirement with fifteen or more years of credit. The minimums for fifteen but fewer than twenty-five years of credit are reduced if a Joint-and-Survivor or a Term-Certain option is elected and/or if an age factor is applicable because of early retirement. The minimums for twenty-five or more years of credit are reduced only if a Joint-and-Survivor or a Term-Certain option is elected.

#### Cost-of-Living Adjustments

Each year during which the board determines that the cost-of-living index has increased, the retirement allowance of each retired member, who has been retired more than three years, shall be increased by up to five percent of the benefit payable, effective in the following January. The total of such increases may not exceed seventy-five percent.

### Disability Retirement Benefits

Disability retirement benefits are payable to eligible members who because of permanent disability are unable to earn a livelihood in any occupation. In most instances, the disability retirement benefit is calculated at 50 percent of the member's salary for the last full year of creditable service.

### Withdrawal Benefit

If a member ceases to be a public school employee, or if the membership is otherwise terminated, he receives his accumulated contributions with interest. If a member ceases to be a public school employee after five or more years of creditable service, the member may elect to leave his contributions in the system and claim a retirement allowance any time after he reaches the minimum age for voluntary retirement.

### Death and Survivor Benefits

The retirement system provides a death benefit of \$5,000 for beneficiaries of retired members deceased on or after July 1, 1999.

The designated beneficiary of a member who dies before retirement is eligible for a lump sum refund of the member's contributions and interest. If the beneficiary is an eligible dependent and the member dies while in covered employment with at least two years of credit for such service, or while eligible for disability retirement benefits, monthly survivor benefits based on a percentage of the member's salary for the last full year of covered service can be elected instead of the contribution refund.

In lieu of a lump sum refund or monthly survivor benefits, survivors with an insurable interest and eligible beneficiaries of disability retirees may elect to receive monthly benefits under the Option 2 retirement plan. Such benefits are payable when the member would have been eligible for early or normal retirement.

### Reciprocity

Vested members in the system who have vested credit in another Missouri system having a reciprocity agreement may transfer such credit to this system. The funds transferred are used to establish additional credit in this system based on actuarial reserve calculations. Likewise, members leaving the system may have funds transferred to another Missouri system under certain conditions. A vested member of any of the Missouri systems may buy credit in the vested system for non-vested services in any of the other Missouri systems, not to exceed the credit in the non-vested system.

### Temporary Early Retirement Window

During the two-year period from July 1, 1996 through July 1, 1998, members under age fifty-five with at least twenty-five, but less than thirty years of service had the opportunity to retire under a

modified benefit formula, with no benefit reduction because of age. Benefits for those who retired under the modified plan were calculated using the following formula factors in lieu of the standard 2.3 percent factor: for twenty five years of service, 2.0 percent; for twenty-six years, 2.05 percent; for twenty-seven years, 2.1 percent; for twenty-eight years, 2.15 percent; and for twenty-nine years 2.2 percent.

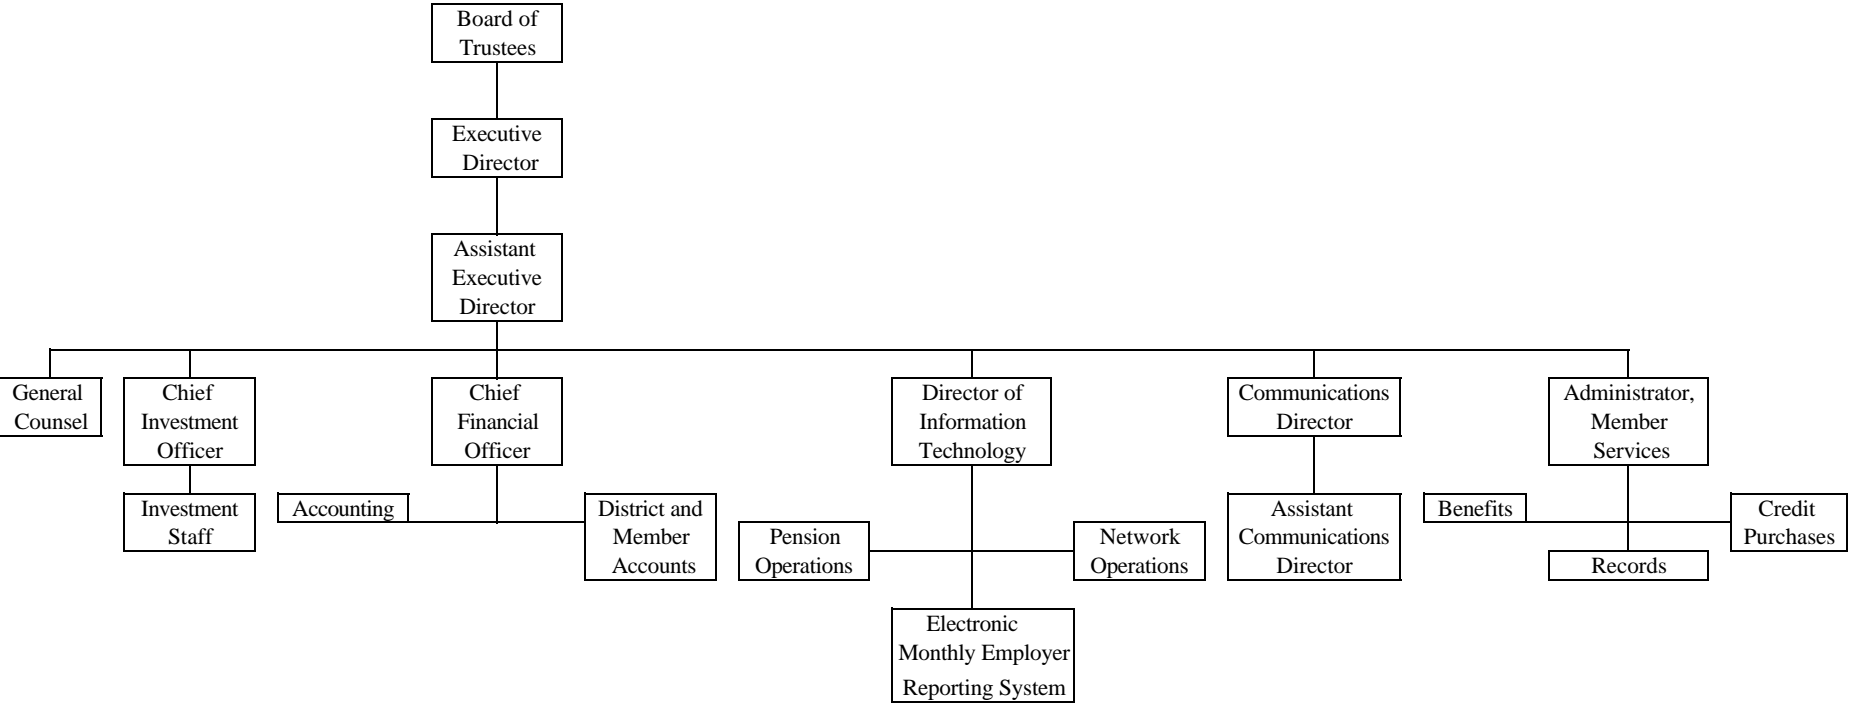

During the two-year period from July 1, 1998 through July 1, 2000, members under age fifty-five with at least twenty-five, but less than thirty years of service will have the opportunity to retire under a modified benefit formula, with no benefit reduction because of age. Benefits for those who retired under the modified plan will be calculated using the following formula factors in lieu of the standard 2.5 percent factor: for twenty five years of service, 2.2 percent; for twenty-six years, 2.25 percent; for twenty-seven years, 2.3 percent; for twenty-eight years, 2.35 percent; and for twenty-nine years 2.4 percent.

#### Minimum Benefit

Present and future retirees with at least fifteen years of creditable service, whose retirement benefits calculated under Normal Retirement - Option 1 Single Life are below certain amounts set by state law, are eligible to instead receive a minimum benefit based on the person's years of service. The minimum benefits established by law are reduced if the retiree elected to receive benefits under an option that actuarially reduced the monthly payment amount such as early retirement age or survivor benefits.

An organization chart follows. At June 30, 1999, the PSRS had 68 employees.

PUBLIC SCHOOL RETIREMENT SYSTEM OF MISSOURI  
ORGANIZATION CHART  
JUNE 30, 1999

DENT COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-49  
June 21, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

June 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Dent, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

---

This audit of Dent County was a financial and compliance audit of various county operating funds. The following concerns were noted as part of the audit:

- As reported in our prior audit report, the County Clerk has not established procedures to ensure all receipts and disbursements are properly recorded on the county's computerized financial records and included in the County Treasurer's semi-annual settlement totals which are used to prepare county budgets. The cash balances on the budgeted documents are sometimes inaccurate and inconsistent. While the ending cash balance should agree to the County Treasurer's December semi-annual settlement, these amounts often differed.
- Also as noted in our prior report, the County Treasurer has not maintained perpetual cash balances in fund ledgers. The December 31, 1999, bank reconciliation for the general checking account contained numerous errors and the corrected reconciled bank balance exceeded the cash balances on the County Treasurer's semi-annual settlements by more than \$7,000.

The audit also includes some other matters upon which the county should consider and take appropriate corrective action.

**Copies of the audit are available upon request.**

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON  
THE FINANCIAL STATEMENTS**

To the County Commission  
and  
Officeholders of Dent County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Dent County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

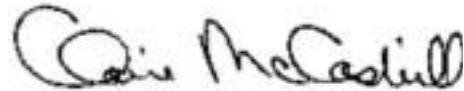

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Dent County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Dent County.

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Dent County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated February 24, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Dent County, Missouri

We have audited the special-purpose financial statements of various funds of Dent County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated February 24, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Dent County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance, which we have reported to the management of the county in the accompanying Letter on Other Matters.

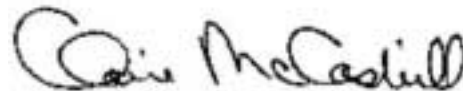

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Dent County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. However, we noted a certain matter involving the internal control over financial

reporting and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the county's ability to record, process, summarize, and report financial data consistent with the assertions of management in the special-purpose financial statements. The reportable condition is described in the accompanying Schedule of Findings as finding number 99-1.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we consider the reportable condition described above, finding number 99-1, to be a material weakness. We also noted other matters involving the internal control over financial reporting, which we have reported to the management of the county in the accompanying Letter on Other Matters.

This report is intended for the information of the management of Dent County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

Claire McCaskill  
State Auditor

The accompanying Notes to the Financial Statements are an integral part of this statement.

## Notes to the Financial Statements

DENT COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Dent County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, the Health Center Board, or the Developmental Disabilities Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                         | <u>Years Ended December 31,</u> |
|-------------------------------------|---------------------------------|
| Law Enforcement Training Fund       | 1999 and 1998                   |
| Prosecuting Attorney Bad Check Fund | 1999 and 1998                   |
| Recorder's User Fee Fund            | 1999 and 1998                   |
| Circuit Division Interest Fund      | 1999 and 1998                   |
| Miscellaneous Grant Fund            | 1999                            |
| Prosecuting Attorney Training Fund  | 1998                            |

|                                  |      |
|----------------------------------|------|
| Prosecuting Attorney Special Law |      |
| Enforcement Fund                 | 1998 |
| Health Center Fund               | 1998 |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

#### D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

The county's published financial statements for the years ended December 31, 1999 and 1998, included all funds presented in the accompanying financial statements, except for the receipts and disbursements of the Health Center Fund and the Dent County Developmental Disabilities Board Fund. The amounts presented in the published financial statements for these two funds were only the amounts the County Treasurer received and remitted to the boards.

## 2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's, Health Center Board's and Developmental Disabilities Board's deposits at December 31, 1999 and 1998, were entirely covered by federal depository insurance or by collateral securities held by the county's custodial bank in the county's name.

Schedule

DENT COUNTY, MISSOURI  
SCHEDULE OF FINDINGS  
YEARS ENDED DECEMBER 31, 1999 AND 1998

This schedule includes the audit finding that *Government Auditing Standards* requires to be reported for an audit of financial statements.

|              |   |
|--------------|---|
| <b>99-1.</b> | <b>Reconciliation of County Records</b> |
|--------------|---|

The audited reconciled cash balances presented in the financial statements do not agree to the cash balances presented on the County Treasurer's semi-annual settlements or the county's budget documents, and those records do not agree with each other. The County Clerk uses the county's computerized financial records to prepare county budgets, but does not reconcile those records to the County Treasurer's manual fund ledgers and semi-annual settlements. Our review revealed the following areas of concern:

- A. The general checking account includes activity of the General Revenue Fund, the Special Road and Bridge Fund, the Assessment Fund, and the 911 Emergency Fund. A semi-annual settlement was prepared for each fund, however, perpetual cash balances of funds are not maintained in the County Treasurer's fund ledgers. The County Treasurer ran calculator tapes of the receipt and disbursement amounts recorded on his manual fund ledgers every six months to prepare his semi-annual settlements. However, the December 31, 1999 bank reconciliation for the general checking account contained numerous errors and the corrected reconciled bank balance exceeded the cash balances on the County Treasurer's semi-annual settlements by more than \$7,000.

Maintaining perpetual cash balances on fund ledgers would allow the County Treasurer to know how much money should be in each account at all times and would enable the County Treasurer to verify the accuracy of the ending cash balances reported on each semi-annual settlement.

- B. The County Clerk has not established procedures to ensure all receipts and disbursements are properly recorded on the county's computerized financial records and included in the County Treasurer's semi-annual settlement totals which are used to prepare county budgets. As a result, cash balances on the budgeted documents are sometimes inaccurate and inconsistent.

The County Clerk obtains the beginning cash balance of each fund from the County Treasurer's semi-annual settlement for December 31 of the prior year. For each budget, the County Clerk adds the beginning cash balance of the fund to the receipt total from the computerized financial records and subtracts the disbursement total from the computerized financial records to determine the fund's cash balance at December 31. While the cash balance should agree to the County Treasurer's semi-annual settlement amounts, these amounts often differed.

**WE RECOMMEND:**

- A. The County Treasurer maintain perpetual cash balances in fund ledgers and adjust the county's records to correct unidentified differences between cash balances of the County Treasurer's records and the reconciled bank balances.
- B. The County Clerk reconcile the county's computerized financial records with the County Treasurer's receipt and disbursement records on a monthly basis and ensure the totals on the County Treasurer's semi-annual settlements agree to the totals on the county's computerized financial records.

**AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

- A. *The County Treasurer indicated he will implement the recommendation by January 2001. He indicated the county has contacted their computer consultant and it is anticipated this problem will be reviewed and resolved.*
- B. *The County Clerk indicated he will implement the recommendation by January 2001. He indicated he has contacted their computer consultant to review the computer program and the recommendation will be implemented.*

## Follow-Up on Prior Audit Findings

## DENT COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Dent County, Missouri, on a certain finding in our prior audit report issued for the two years ended December 31, 1997. The finding is the one that *Government Auditing Standards* requires to be reported for an audit of financial statements.

### Accounting Controls and Procedures

The cash balances presented on the County Treasurer's semi-annual settlements of the county's budget documents did not agree. The County Clerk did not reconcile the county's computerized records or budgets with the County Treasurer's manual fund ledger's and semi-annual settlements. The County Treasurer had not adjusted for voided checks on a timely basis.

### Recommendation

- A. The County Treasurer maintain perpetual cash balances in fund ledgers, prepare formal bank reconciliations monthly, and adjust the county's receipt records to correct unidentified differences between cash balances per the County Treasurer's records and reconciled bank balances.
- B. The County Clerk reconcile the county's computerized financial records with the County Treasurer's receipt slips, county commission orders, and disbursement records on a monthly basis and ensure the totals on the County Treasurer's semi-annual settlements agree to the totals on the county's computerized financial records.
- C. The County Treasurer ensure voided checks are receipted and the amounts added to the cash balances on a timely basis.

### Status

- A. Partially implemented. Monthly bank reconciliations are now prepared. See Finding Number 99-1.
- B. Not implemented. See Finding Number 99-1.
- C. Implemented.

## SECTION ON OTHER MATTERS

## DENT COUNTY, MISSOURI LETTER ON OTHER MATTERS

We have audited the special-purpose financial statements of various funds of Dent County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated February 24, 2000.

We did not review the operations of elected officials with funds other than those presented in the special-purpose financial statements. The operations of such officials will be reviewed and reported on during the state auditor's next scheduled audit of the county.

This Letter on Other Matters presents matters other than the findings, if any, reported in the accompanying Schedule of Findings. These matters resulted from our audit of the special-purpose financial statements of Dent County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*. Nevertheless, the county should consider these matters and take appropriate corrective action.

1.     Budgets

Actual expenditure amounts exceeded approved budget amounts in some funds for the two years ended December 31, 1999. If there are valid reasons which necessitate excess disbursements, amendments should be made following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's office.

2.     Schedule of Expenditures of Federal Awards

The county is required by OMB Circular A-133 to prepare a schedule of expenditures of federal awards (SEFA). The SEFA schedule is used to determine the single audit requirements of the county. The county's SEFA contained numerous errors and omissions for the two years ended December 31, 1999. The SEFA should be accurately prepared to ensure all federal awards are properly reported.

3.     Circuit Clerk Expenditure

We noted a \$286 expenditure from the Circuit Clerk Interest Fund in 1998 by the former Circuit Clerk for the purchase of 1,000 pens. The name of the former Circuit Clerk and his office title was written on each pen. This expenditure does not appear to be a prudent use of county funds. In May 2000 the former Circuit Clerk reimbursed the county the \$286.

This Letter on Other Matters is intended for the information of the management of Dent County, Missouri, and other applicable government officials. However, this letter is a matter of public record and its distribution is not limited.

REVIEW OF THE  
MOUNT VERNON VETERANS=HOME

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-48  
June 21, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

June 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**The following areas of concern were discovered as a result of a review conducted by our office of the Mount Vernon Veterans' Home.**

-----  
*The Mount Vernon Veterans' Home nursing-care facility provides care to Missouri veterans who are unable to support or adequately care for themselves. Residents of the facility are provided room, board, medication, therapy, personal care, and recreational and religious activities. To qualify for admission, applicants must be honorably discharged veterans of the U.S. Armed forces, residents of the state of Missouri for at least thirty days prior to the date of application for admission, and in need of nursing care for a chronic disability of physical ailment.*

*The cost of care is shared by the resident (based on the ability to pay), and the Federal Veterans' Administration, and the State of Missouri. Standards of care are established by the Federal Veterans' Administration, and the home is inspected annually to ensure compliance with these standards.*

The facility conducts background checks prior to hiring its direct-care staff. This includes contacting the Missouri State Highway Patrol, the employee's former employer, and checking the Division of Agings' Employee Disqualification List. Documentation to support the background check with the Missouri State Highway Patrol and the employee's former employer is maintained; however, there is no documentation that the Division of Aging was contacted. Adequate documentation is necessary to ensure that only appropriate employees are hired for all direct-care positions.

In addition, the facility should consider expanding their background checks to include contacting the Department of Mental Health who maintains a listing of persons who have been administratively determined to have abused or neglected a Department of Mental Health client, and the Division of Family Services who maintains the Central Registry of Child Abuse and Neglect which contains information related to instances of actual or alleged child abuse.

The facility receives money from various resources and deposits it into bank accounts such as the Residents' Cash Fund account or the Assistance League Fund account. Money received by the facility on behalf of the residents (e.g., social security, pensions, etc.) is deposited into the Residents' Cash Fund account and is used for residents' monthly payments for room and board. Personal spending money of the residents can also be deposited into this account. Nominal amounts of cash can be obtained from the facility's cashier and deducted from this account. Collections from the vending machines and donations are deposited into the Assistance League Fund account.

This money is used by the Assistance League, a not-for-profit organization, to purchase goods and services for the benefit of all residents. During our review of the facility's procedures for handling transactions from these accounts we noted the following weaknesses:

- Prenumbered receipt slips are not always issued for monies received for the Assistance League Fund.
- The Facility has adopted a policy whereby interest income of the Residents' Cash Fund account is to be expended for the benefit of all residents with the approval of the facility's resident council and administrative personnel. In order for residents to use the Residents' Cash Fund account, they are required to sign a form that states they will not receive interest earned on their monies. Interest is not credited to each individual resident's account. Interest earned on resident funds amounted to \$2,819 and \$3,760 for the years ended June 30, 1999 and 1998, respectively. Donation of interest income by the residents should be voluntary and should not be made a condition of using the Residents' Cash Fund. The accounts of those residents who do not wish to donate their interest income should be credited with the interest earned on their monies.

On June 30, 1999, the Mount Vernon Veterans' Home controlled fixed assets totaling approximately \$557,000. Supervisory approval is not required for any dispositions or adjustments to the fixed asset listing. The lack of adequate procedures on dispositions and adjustments made to the asset balances results in a loss of control over inventory records.

Duties of recording and handling supply inventories are not adequately segregated. Physical counts of inventories are taken by the same employee responsible for the custody and record keeping of these inventories. In addition, no supervisory approval is required for adjustments to the inventory listing.

## STATE AUDITOR'S REPORT

**CLAIRE C. McCASKILL**  
Missouri State Auditor

Honorable Mel Carnahan, Governor  
and  
Gary Kempker, Director  
Department of Public Safety  
and  
Missouri Veterans=Commission  
and  
Don Long, Administrator  
Mount Vernon Veterans=Home  
Mount Vernon, Missouri 65712

We have conducted a special review of the Mount Vernon Veterans=Home. The scope of our review included, but was not necessarily limited to, the two years ended June 30, 1999. The objectives of this review were to:

1. Review certain management practices and financial information for compliance with applicable constitutional provisions, statutes, regulations, and administrative rules.
2. Review the efficiency and effectiveness of certain management practices.
3. Review certain revenues received and certain expenditures made by the Mount Vernon Veterans=Home.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed the facility=s revenues, expenditures, contracts, rules, regulations, and other pertinent procedures and documents, and interviewed facility personnel.

As part of our review, we assessed the facility=s management controls to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to management controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our review was limited to the specific matters described above and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the facility's management and was not subjected to the procedures applied in the review of the Mount Vernon Veterans Home.

The accompanying Management Advisory Report presents our findings and recommendations arising from our review of the Mount Vernon Veterans Home.

Claire McCaskill  
State Auditor

December 2, 1999 (fieldwork completion date)

The following auditors participated in the preparation of this report:

|                     |                        |

## MANAGEMENT ADVISORY REPORT SECTION

REVIEW OF THE  
MOUNT VERNON VETERANS= HOME  
SUMMARY OF FINDINGS

1. Expenditures and Payroll Matters (pages 6-7)

The facility does not have procedures in place to verify the propriety of meal and laundry costs. Time sheets are not always approved by supervisors and new employee background check information is not adequately documented.

2. Residents= Cash and Assistance League Funds (pages 7-9)

Receipt slips are not issued for all monies received. The facility administrator is authorized to sign checks but is not adequately bonded. Interest earned on residents= monies held in the Residents= Cash Fund is not credited to each individual=s account. The facility does not have a written depositary agreement with their bank.

3. Fixed Asset Records and Procedures (page 9)

Supervisory approval is not required for dispositions or adjustments to the fixed asset listing.

4. Inventory Records and Procedures (pages 9-10)

The duties of recording and handling inventories are not adequately segregated. Inventory requisitions are not always documented resulting in inaccurate perpetual inventory records.

REVIEW OF THE  
MOUNT VERNON VETERANS= HOME  
MANAGEMENT ADVISORY REPORT

|           |   |
|-----------|---|
| <b>1.</b> | <b>Expenditures and Payroll Matters</b> |
|-----------|---|

- A. The facility paid approximately \$594,657 and \$606,122 for resident meals and \$187,064 and \$158,773 for laundry service to the Missouri Rehabilitation Center (MRC) during the years ended June 30, 1999 and 1998, respectively. An invoice is received from MRC which indicates the number of meals provided along with an invoice for laundry service that indicates the weight of items laundered. The facility does not have procedures in place to verify the accuracy of the number of meals charged or the weight of the items laundered. Such verification is necessary to ensure charges are accurate and valid.
- B. Although employees do prepare time sheets, they are not always approved by supervisors. Detailed time records approved by each employee=s supervisor are necessary to ensure payments for salaries are accurate. In addition, proper documentation helps ensure compliance with the Fair Labor Standards Act which requires that the employees maintain accurate records of actual time worked and ensures the facility is paying the appropriate compensation.
- C. The facility conducts background checks prior to hiring its direct-care staff. This includes contacting the Missouri State Highway Patrol (MSHP), the employee=s former employer, and checking the Division of Agings= Employee Disqualification List (EDL). Documentation to support the background check with the MSHP and the employee=s former employer is maintained; however, there is no documentation that the Division of Aging was contacted. Adequate documentation is necessary to ensure that only appropriate employees are hired for all direct-care positions.

In addition, the facility should consider expanding their background checks to include contacting the Department of Mental Health (DMH) who maintains a listing of persons who have been administratively determined to have abused or neglected a DMH client, and the Division of Family Services who maintains the Central Registry of Child Abuse and Neglect which contains information relating to instances of actual or alleged child abuse.

**WE RECOMMEND** the facility:

- A. Develop procedures to ensure the validity or propriety of meal and laundry expenditures.
- B. Ensure all time sheets are properly approved by supervisors.

- C. Ensure that all employee background check information is adequately documented, and consider expanding employee background checks to include the Department of Mental Health Employee Disqualification List and the Central Registry of Child Abuse and Neglect.

**AUDITEE'S RESPONSE:**

- A. *The facility is developing and implementing a policy and procedure to insure the meal count and laundry weights are verified by the facility staff at random times throughout the year. The procedure will verify the information provided by the Missouri Rehabilitation Center is accurate prior to processing the monthly bills. This procedure should be in place and fully functioning by October 1, 2000.*
- B. *An electronic timekeeping system has been installed in the facility to use and electronic time cards have been issued to all employees. Procedures are being developed for the supervisors to approve these electronic records. The procedure will be implemented prior to January 1, 2001.*
- C. *The Division of Aging Nurse Aide registry (which references to the division's EDL) is being checked on all employees prior to working at the facility and the Department of Public Safety completes criminal background checks immediately after employment. The Director of Nursing now formally notes in the upper right hand corner of the employee application the date and results of the Nurse Aide registry response. Both of these procedures are in compliance with current Missouri Nursing Home Regulations and RSMo 660.315 - 660.420 and are currently in place and working in this facility.*

|   |
|---|
| <b>2. Residents= Cash and Assistance League Funds</b> |
|---|

The facility receives money from various resources and deposits it into bank accounts such as the Residents= Cash Fund (RCF) account or the Assistance League Fund (ALF) account. Money received by the facility on behalf of the residents (e.g., social security, pensions, etc.) is deposited into the RCF account and is used for residents= monthly payments for room and board. Personal spending money of the residents can also be deposited into this account. Nominal amounts of cash can be obtained from the facility=s cashier and deducted from this account. Collections from the vending machines and donations are deposited into the ALF account. This money is used by the Assistance League, a not-for-profit organization, to purchase goods and services for the benefit of all residents. During our review of the facility=s procedures for handling transactions from these accounts, we noted the following weaknesses:

- A. Prenumbered receipt slips are not always issued for monies received for the ALF. Issuing and accounting for the numerical sequence of prenumbered receipt slips provides assurance that all monies received have been accounted for and properly recorded.

- B. Disbursements are made from ALF by means of checks signed by either the ALF treasurer or the Veterans= Home Administrator. The treasurer is covered by a \$60,000 bond, however, the administrator is not bonded.

To properly safeguard assets, all individuals with the authority to sign checks or who have access to cash should be adequately bonded.

- C. The facility has adopted a policy whereby interest income of the RCF account is to be expended for the benefit of all residents with the approval of the facility's resident council and administrative personnel. In order for residents to use the RCF account, they are required to sign a form that states they will not receive interest earned on their monies. Interest is not credited to each individual residents account. Interest earned on resident funds amounted to \$2,819 and \$3,760 for the years ended June 30, 1999 and 1998, respectively. Donation of interest income by the residents should be voluntary and should not be made a condition of using the RCF. The accounts of those residents who do not wish to donate their interest income should be credited with the interest earned on their monies.
- D. At June 30, 1999, the facility maintained \$565,529 in checking accounts, money market accounts, and certificates of deposit at primarily one bank. The facility does not have a written depositary agreement with this bank.

Written depositary agreements should be established with each depositary bank selected, outlining the services to be provided by the bank, the charges for the services, and the collateral to be pledged to secure the deposits.

**WE RECOMMEND** the facility:

- A. Issue prenumbered receipt slips for all monies received and account for their numerical sequence.
- B. Consider obtaining bond coverage for all individuals who are authorized to sign checks or who have access to cash.
- C. Revise their policy to allow residents to voluntarily donate their interest income to the RCF. The accounts of the residents who choose not to donate their interest should be credited with the interest earned on their accounts.
- D. Written depositary agreements should be obtained from each depositary bank which specifies the services to be provided and any applicable costs for these services.

**AUDITEE'S RESPONSE:**

- A. *Prenumbered printed receipts have been ordered for the Resident's Cash Fund and these receipts will be issued for all cash and checks received into this fund. A copy of each receipt will remain in the bound books for review and reconciliation of this account. This will be implemented not later than January 1, 2001.*

- B. *Surety bond coverage has been obtained for all employees to handle this fund through the State Risk Management Department in the amount of \$2,500,000 for all seven Missouri Veterans Homes. This amount is equal to one and one-half the amount of the total funds handled by employees. This bond will be in place prior to July 1, 2000.*
- C. *The policy is being changed to allow all residents who deposit money into the Resident Cash Fund to receive interest on all amounts over \$50. The facility has ordered new software to facilitate proper calculation of interest to each resident in this fund and will be implemented not later than January 1, 2001.*
- D. *Although bids were solicited and obtained prior to depositing funds of the Assistance League, no formal agreement was obtained. We are in the process of developing this agreement with the current banking institution and should be completed by November 1, 2000.*

|           |   |
|-----------|---|
| <b>3.</b> | <b>Fixed Asset Records and Procedures</b> |
|-----------|---|

At June 30, 1999, the Mount Vernon Veterans= Home controlled fixed assets totaling approximately \$557,000. Supervisory approval is not required for any dispositions or adjustments to the fixed asset listing. The lack of adequate procedures on dispositions and adjustments made to asset balances results in a loss of control over inventory records

**WE RECOMMEND** the facility require supervisory review and approval for all dispositions or adjustments made to fixed asset balances.

**AUDITEE'S RESPONSE:**

*Fixed assets are currently being transferred to the states=automated accounting system (SAM II) and should be completed by December 1, 2000. The facility Administrator currently reviews and approves disposition of all fixed assets and/or adjustments made to the fixed asset balance sheet. New procedures will be developed after reviewing the new reports and procedures for handling fixed assets under this accounting system.*

|           |   |
|-----------|---|
| <b>4.</b> | <b>Inventory Records and Procedures</b> |
|-----------|---|

- A. Duties of recording and handling supply inventories are not adequately segregated. Physical counts of inventories are taken by the same employee responsible for the custody and record keeping of these inventories. In addition, no supervisory approval is required for adjustments to the inventory listing.

Proper internal control requires physical inventories be conducted by persons who do not have record keeping or custodial duties. In addition, to ensure all adjustments to the inventory listing are valid, someone independent of record keeping and custody of inventory should review and approve all adjustments to the inventory listing.

- B. Inventory requisitions are not always adequately documented to indicate applicable changes in the inventory balances, and as a result perpetual inventory records are not always accurate. In our review of inventory items, four of the eleven items reviewed had perpetual inventory balances different from the quantity actually on hand. Accurate inventory records are necessary to properly account for and safeguard the inventories.

**WE RECOMMEND** the facility:

- A. Adequately segregate the duties of record keeping, handling, and performing physical counts of inventory items and require supervisory review and approval of adjustments made to inventory balances.
- B. Maintain complete and accurate inventory records and document requisitions to indicate applicable changes in the inventory balances.

**AUDITEE'S RESPONSE:**

- A. *Duties have been segregated from record keeping to the actual inventory. Two non-involved employees completed the 1999 inventory and the Administrator approved this inventory. The inventory will be completed annually and documented for facility records by two employees who are not involved in purchasing and/or accounting. This will be completed by July 1, 2000.*
- B. *New software has been ordered to assist the purchasing department in maintaining accurate monthly inventories. This will allow for entry and removal of all items in our inventory. This software will be in place and functioning by January 1, 2001.*

This report is intended for the information of the management of the Mount Vernon Veterans=Home and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

## MOUNT VERNON VETERANS' HOME HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

The Mount Vernon Veterans= Home originated from an executive order by the governor in 1982 authorizing the conversion of one wing of the Missouri Rehabilitation Center to a skilled-nursing care facility. Actual operations began in May 1983.

The Missouri Veterans' Commission operates six homes for veterans of the state. The homes are located in St. James, Mount Vernon, Mexico, Cape Girardeau, St. Louis, and Cameron. A seventh home in Warrensburg is under construction. Members of the Missouri Veterans=Commission, as of June 30, 1999, were:

| <u>Members</u>                    | <u>Term Expires</u> |
|-----------------------------------|---------------------|
| J.N. (Jack) Matthews, Chairman    | November 2, 1999    |
| Carl H. Niewoehner, Vice Chairman | November 2, 2001    |
| Deborah I. Halter                 | November 2, 2000    |
| Reginald L. Bassa                 | November 2, 2000    |

At June 30, 1999, there was one vacancy on the Commission.

The nursing-care facility provides care to Missouri veterans who are unable to support or adequately care for themselves. Residents of the facility are provided room, board, medication, therapy, personal care, and recreational and religious activities. To qualify for admission, applicants must be honorably discharged veterans of the U. S. Armed Forces, residents of the state of Missouri for at least thirty days prior to the date of application for admission, and in need of nursing care for a chronic disability or physical ailment.

The cost of care is shared by the resident (based on the ability to pay), the Federal Veterans=Administration, and the State of Missouri. Standards of care are established by the Federal Veterans=Administration, and the home is inspected annually to ensure compliance with these standards.

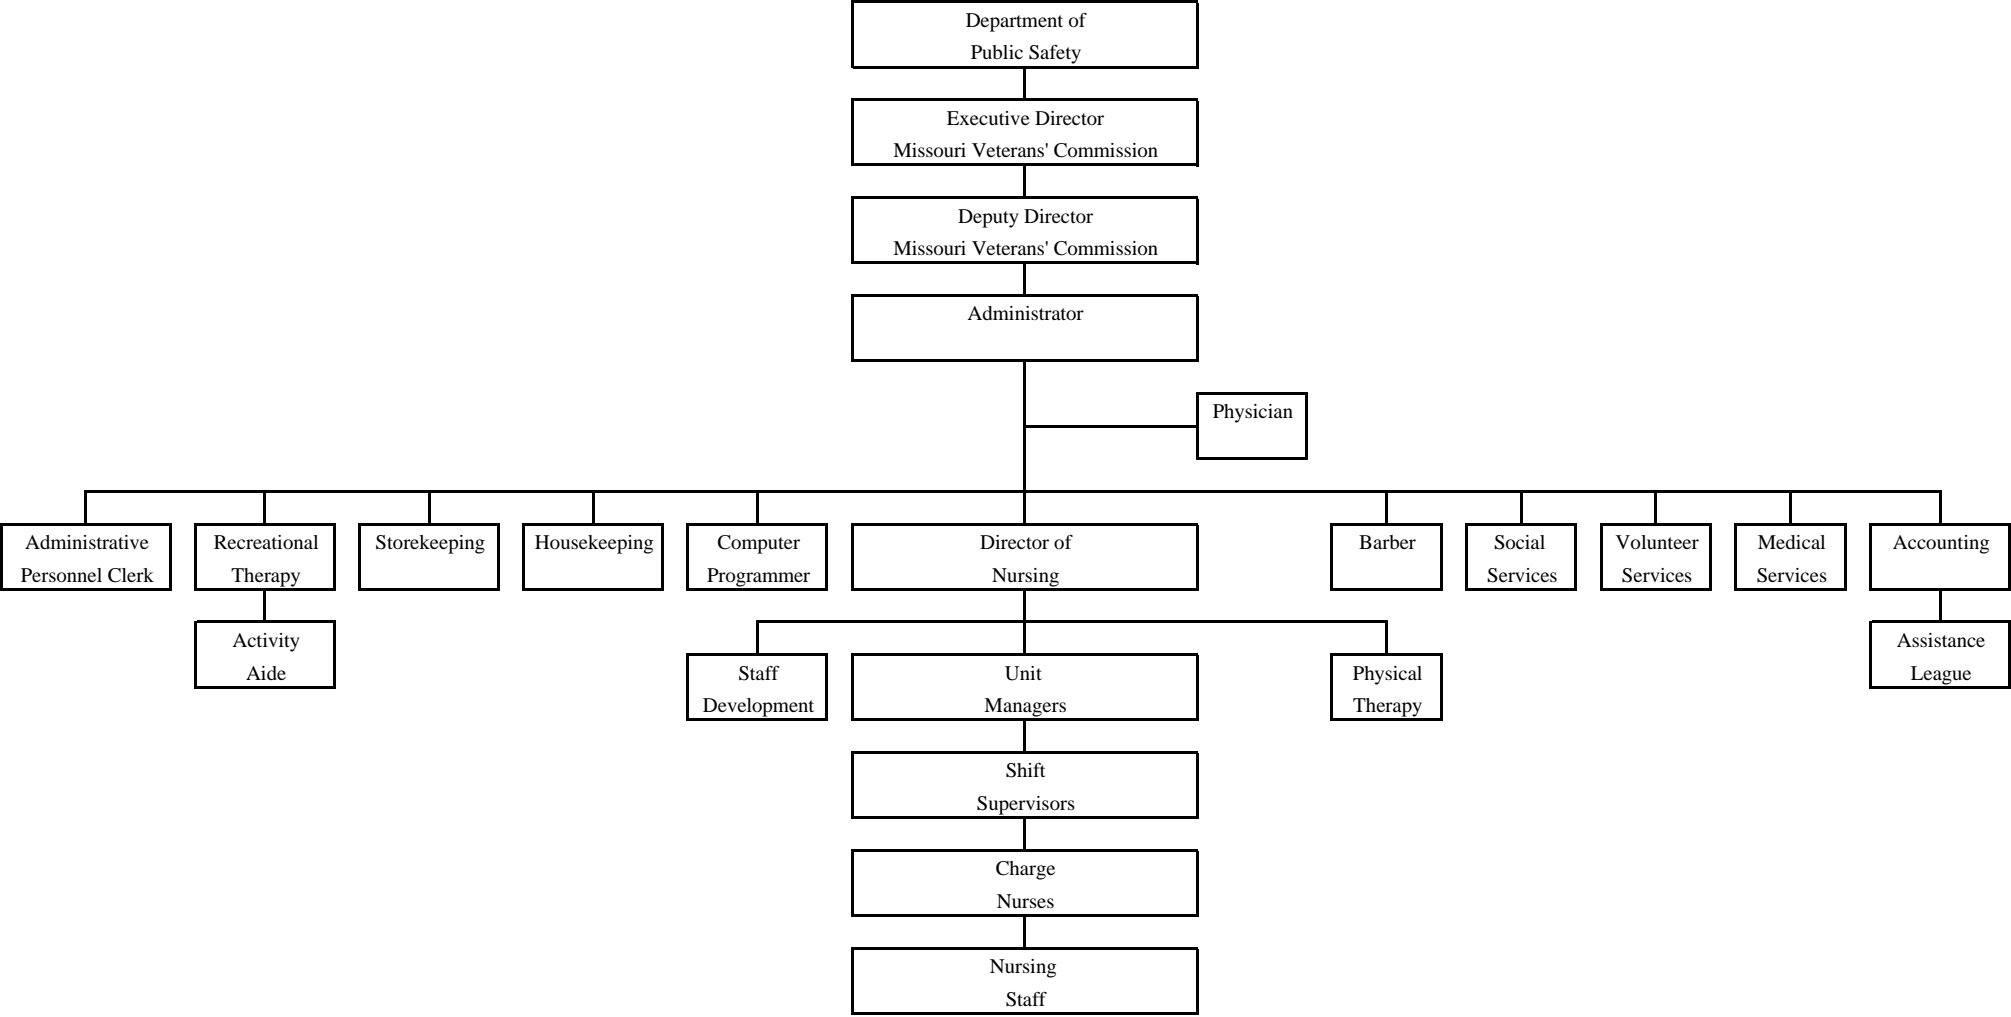

The Mount Vernon Veterans=Home Assistance League, a not-for-profit corporation, was formed to receive donations to be spent for the benefit of all residents of the facility.

At June 30, 1999, the Mount Vernon Veterans' Home had eighty-nine employees. These employees were assigned to various administrative and service sections. Martha Bartelsmeyer served as the Administrator of the facility until her resignation in March 1998. Becky Collette served as Interim Administrator. Don Long became Administrator in April 1998. Statistical data and an organization chart follow:

REVIEW OF THE  
DEPARTMENT OF CORRECTIONS  
MARYVILLE TREATMENT CENTER

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-47  
June 19, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

June 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**The following problems were discovered as a result of a review conducted by our office of the Department of Corrections, Maryville Treatment Center.**

-----  
*The Maryville Treatment Center which opened in December 1996, is located in northwestern Missouri and is a minimum security treatment facility. The facility occupies 11 acres on the site of the former Mount Alverno convent and school. The facility originally opened with 225 inmate beds. Phase two of the facility was completed during May 1998, and the facility now has a capacity of 525 male inmates who have a history of alcohol and drug abuse. Inmates are expected to follow a rigid and demanding schedule of activities to prepare them for a successful and sober transition to the community.*

In July 1997, the Department of Corrections, Division of Offender Rehabilitative Services entered into a contract with Northwest Missouri State University to provide adult basic education and substance abuse treatment to Maryville Treatment Center inmates. Contract expenditures totaled approximately \$1,375,000 and \$1,112,000 for the fiscal years ended June 30, 1999, and 1998, respectively. Several individuals are employed full-time by the university to provide the education and treatment program services. These individuals work out of office space maintained at the Maryville Treatment Center. The university accumulates the program costs and bills the Maryville Treatment Center monthly. We reviewed the contract terms, monthly billings, and supporting documentation, and noted some concerns.

A review of the Maryville Treatment Center business office files pertaining to the university invoices for September 1998 and March 1999 revealed that the treatment center staff is approving significant monthly payments (now exceeding \$100,000/month) without obtaining all appropriate supporting documentation. Such approvals were provided even though discrepancies existed between much of the supporting documentation initially obtained and the itemized expenditure entries. The discrepancies were resolved once we obtained the actual invoices and other documentation from the university. Without careful review procedures in place, inappropriate billings and/or errors could occur and go undetected.

The State Auditor's Office recommends that the Maryville Treatment Center work with the university to obtain and/or review all supporting documentation and resolve any questions or discrepancies prior to approving the university invoices for payment.

(over)

YELLOW SHEET

Since October 1995, the Maryville Treatment Center has utilized the same private vendor to provide and service vending machines at the facility. Commissions paid to the treatment center by the vending company did not comply with their agreement and resulted in an underpayment of \$1,873 from October 1995 through September 1999. Although monthly commission statements provided the necessary details to monitor payments, the errors had not been detected by treatment center staff. Once we brought this to their attention, the vending company was contacted and the treatment center subsequently received \$1,873 in additional commissions in December 1999.

## STATE AUDITOR'S REPORT

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

Honorable Mel Carnahan, Governor  
and  
Dora Schriro, Director  
Department of Corrections  
and  
William D. Burgess, III, Superintendent  
Maryville Treatment Center

We have conducted a review of the Department of Corrections, Maryville Treatment Center. The scope of our review included, but was not necessarily limited to, the years ended June 30, 1999 and 1998. The objectives of this review were to:

1. Review certain management practices and financial information for compliance with applicable constitutional provisions, statutes, regulations and administrative rules.
2. Review the efficiency and effectiveness of certain management practices.
3. Review certain revenues received and certain expenditures made by the treatment center.

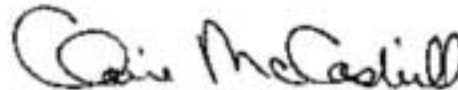

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed the treatment center's revenues, expenditures, contracts, applicable legal provisions, rules and regulations, and other pertinent procedures and documents, and interviewed treatment center and other state personnel.

As a part of our review, we assessed the treatment center's management controls to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to management controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our review was limited to the specific matters described above and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the treatment center's management and the Statewide Accounting for Missouri (SAM) system and was not subjected to the procedures applied in the review of the Department of Corrections, Maryville Treatment Center.

The accompanying Management Advisory Report presents our findings and recommendations arising from our review of the Department of Corrections, Maryville Treatment Center.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

October 28, 1999 (fieldwork completion date)

## MANAGEMENT ADVISORY REPORT SECTION

REVIEW OF THE  
DEPARTMENT OF CORRECTIONS  
MARYVILLE TREATMENT CENTER  
SUMMARY OF FINDINGS

1. Education and Treatment Contract with Northwest Missouri State University (pages 6-7)

The Maryville Treatment Center approves monthly invoices submitted by the university for payment without obtaining or reviewing sufficient supporting documentation.

2. Vending Machine Commissions (pages 7-9)

Commissions paid to the facility by the vending machine company did not comply with their agreement and resulted in an approximate underpayment of \$1,873 from October 1995 through September 1999. In addition, approximately \$170 is due from the personnel club account to the inmate canteen fund as a result of an incorrect allocation of some vending commissions.

REVIEW OF THE  
DEPARTMENT OF CORRECTIONS  
MARYVILLE TREATMENT CENTER  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S RECOMMENDATIONS

|   |
|---|
| <b>1. Education and Treatment Contract with<br/>Northwest Missouri State University</b> |
|---|

In July 1997, the Department of Corrections (DOC), Division of Offender Rehabilitative Services entered into a contract with Northwest Missouri State University to provide adult basic education and substance abuse treatment to Maryville Treatment Center (MTC) inmates. The original one-year contract contained renewal options for up to four years. The contract services are being provided through an integrated education/treatment correctional community program referred to as treatment, recovery, achievement, integrity, learning, and success (TRAILS). Contract expenditures totaled approximately \$1,375,000 and \$1,112,000 for the fiscal years ended June 30, 1999, and 1998, respectively. There are several individuals employed full-time by the university to provide the TRAILS program services. These individuals work out of office space maintained at the MTC. The university treats the TRAILS program as if it were another department of the university and accumulates the related costs throughout the month. We reviewed the contract terms, monthly billings, and supporting documentation, and noted some concerns.

The contract terms require the university to provide a monthly invoice containing itemized expenditures and appropriate backup documentation. Each month the MTC receives an invoice accompanied by an itemized listing of all program expenses, including a payroll report. No supporting documentation is provided for the non-payroll expense entries such as travel costs (motel, mileage, meals), educational and data processing supplies, postage, telephone, furniture/equipment, publications/books, etc. When the MTC business office receives the university's invoice, one of the employees goes to the TRAILS office (university offices on-site at the MTC) to obtain copies of university purchase orders and/or invoices that are available. For some expenditure items the MTC obtains no documentation to assist in its review and approval process. However, the MTC does not resolve discrepancies between the documentation received and amounts billed or follow-up on those billed items for which no documentation is received. Original invoices, expense reports, and other supporting documentation are filed and retained by the university.

We obtained the MTC business office files pertaining to the university invoices for September 1998 and March 1999, and reviewed the itemized listings of program expenses, payroll report, and other documentation the MTC had obtained. For numerous expense entries, the only support was a university purchase order and we noted many instances where the purchase order did not agree to the amount on the itemized listing. These discrepancies were resolved once we obtained the actual invoice copies from the university. Each month a significant amount is billed for photocopy costs. MTC personnel indicated the university

charges a set fee per copy for copies made at the TRAILS office and at the university copy center. Until October 1999, no reports regarding the copies made and billing calculation were provided to the MTC. As a result of our inquiries, the TRAILS offices recently accumulated copy information from August 1997 to September 1999, and submitted it to the MTC as support for copy costs charged on past billings. No support was available for copies made at the university copy center since such records are only maintained for a short period. During the course of this contract with the university, the MTC has approved payment for photocopy costs totaling approximately \$40,500 without any supporting documentation. While the university's recent report provides support for approximately \$21,800 in photocopy costs for copies made at the TRAILS office, \$18,700 relates to copies apparently made at the university copy center. In addition, each month's billing generally contains an expenditure entry related to supply items purchased at the university store. The TRAILS office prepares a purchase requisition for the necessary supplies and this amount is billed to the MTC. It was necessary to review purchase orders, information regarding items on back order, and actual invoices to determine the amounts billed by the university and approved by the MTC were accurate.

As a result, the MTC is approving significant monthly payments (now exceeding \$100,000/month) without obtaining all appropriate supporting documentation or resolving discrepancies between the supporting documentation that was obtained and the itemized expenditure entries. A careful review of supporting documentation (invoices, expense reports, university copy records, etc) is necessary to substantiate the validity, propriety, and reasonableness of amounts claimed by the university for monthly program expenses. Without such procedures in place, inappropriate billings and/or errors could occur and go undetected.

**WE RECOMMEND** the MTC work with the university to obtain and/or review all supporting documentation and resolve any questions or discrepancies prior to approving the university invoices for payment.

### **AUDITEE'S RESPONSE**

*The Maryville Treatment Center's administration is in agreement that supporting documentation for all TRAILS Program expenditures is necessary prior to approval being granted for payment. Effective beginning with the July 2000 billing, the Maryville Treatment Center's administration will require that billings from Northwest Missouri State University include copies of all purchase orders and their corresponding invoices. Supporting documentation shall be required prior to processing and approving payment by the Maryville Treatment Center.*

|                                       |
|---------------------------------------|
| <b>2. Vending Machine Commissions</b> |
|---------------------------------------|

Since October 1995, the MTC has utilized the same private vendor to provide and service vending machines at the facility. Each month the vendor provides a commissions statement and remits two checks (one payable to the facility's personnel club account and one payable

to the inmate canteen fund) to the MTC. The vending company's February 1997 bid proposal on file at the MTC indicates the vendor is to remit commissions based on a percentage of total gross sales. Vending machine commissions paid to the MTC from October 1995 through September 1999 totaled approximately \$22,552. Our review of the vending arrangement at the MTC and compliance with related departmental policy determined some concerns.

The above mentioned bid proposal indicates that the MTC will receive commissions monthly at a rate of 28.5 percent on total gross sales of all products vended. Both the MTC and vendor personnel indicated the commission percentage has been the same since October 1995. We reviewed commissions from October 1995 through September 1999 and noted that the vendor was not remitting the proper amounts. With the exception of one vending machine for a six month period, commissions were being paid at 28 percent rather than the agreed upon 28.5 percent. It was also noted that the vendor was not paying any commissions on a sandwich machine since its placement in the visitation area in July 1998. After we brought this matter to the MTC's attention, the MTC contacted the vendor and subsequently received \$1,873 in commissions in December 1999. We reviewed the vendor's recalculations for the period October 1995 through September 1999, and it appears the total amount now paid to the MTC for past commission errors is materially correct.

The Department of Corrections Procedure No. D4-4.4, Section III. C. provides that in all institutions the income from vending machines located in areas accessible to both staff and offenders or the public are to be allocated 40 percent to an authorized employee organization or activity and 60 percent to the inmate canteen fund, while all income from vending machines located in institutional areas accessible to employees only may be retained by the authorized employee organization or for an authorized activity. The MTC relies upon the vendor to determine this allocation of commissions between employee and inmate funds. Our review revealed errors in the vendor's allocations. For fifteen months within the period of our review, the commissions from some machines in areas accessible to both staff and offenders or the public (visitation areas) were not designated on the statement by the vendor and the entire commission was paid to the personnel club fund in error, rather than prorated between personnel and inmate funds. As discussed above, while the vendor's total payment to the MTC for past commission errors was corrected in December 1999, a combination of errors in the allocation between employee and inmate funds since January 1997 (when inmate machines were installed) and in the vendor's December 1999 payments for past commission errors, results in approximately \$170 due from the personnel club funds to the inmate canteen fund as of September 1999.

None of the errors noted above had been detected by the MTC business office, although monthly commission statements provided the necessary details to monitor commissions and allocations. In addition to not adequately reviewing the vendor's monthly commission statements, the MTC also has no procedures in place to verify reported sales on which commissions are based. Thorough reviews are necessary to ensure the propriety of commissions received and compliance with bid proposal terms.

**WE RECOMMEND** the MTC establish procedures to verify the reported sales, implement a review procedure that will ensure compliance with contract terms, check the accuracy of commission statements and amounts remitted, and ensure allocations between funds are correct.

**AUDITEE'S RESPONSE**

*Following a review of this finding, the Maryville Treatment Center's administration is in agreement with the State Auditor's recommendation. In March 1997, the Maryville Treatment Center's Business Office accepted a written bid proposal for vending services. Since the audit was conducted at the Maryville Treatment Center, the Business Office has obtained monthly documentation from the vendor. This documentation now enables the Business Office to accurately calculate the 28.5% commission to be distributed to the Employee Personnel Club and Inmate Canteen funds. Presently, Business Office personnel review commission printouts prepared by the vendor to ensure the accuracy of the monies distributed to each of the two funds. On December 22, 1999, the vendor paid \$1,872.90 of the reported approximate \$1,873 underpayment due the Maryville Treatment Center. The \$170 due to the Inmate Canteen fund from the Personnel Club was paid on April 26, 2000.*

This report is intended for the information of the management of the Maryville Treatment Center and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

DEPARTMENT OF CORRECTIONS  
MARYVILLE TREATMENT CENTER  
HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

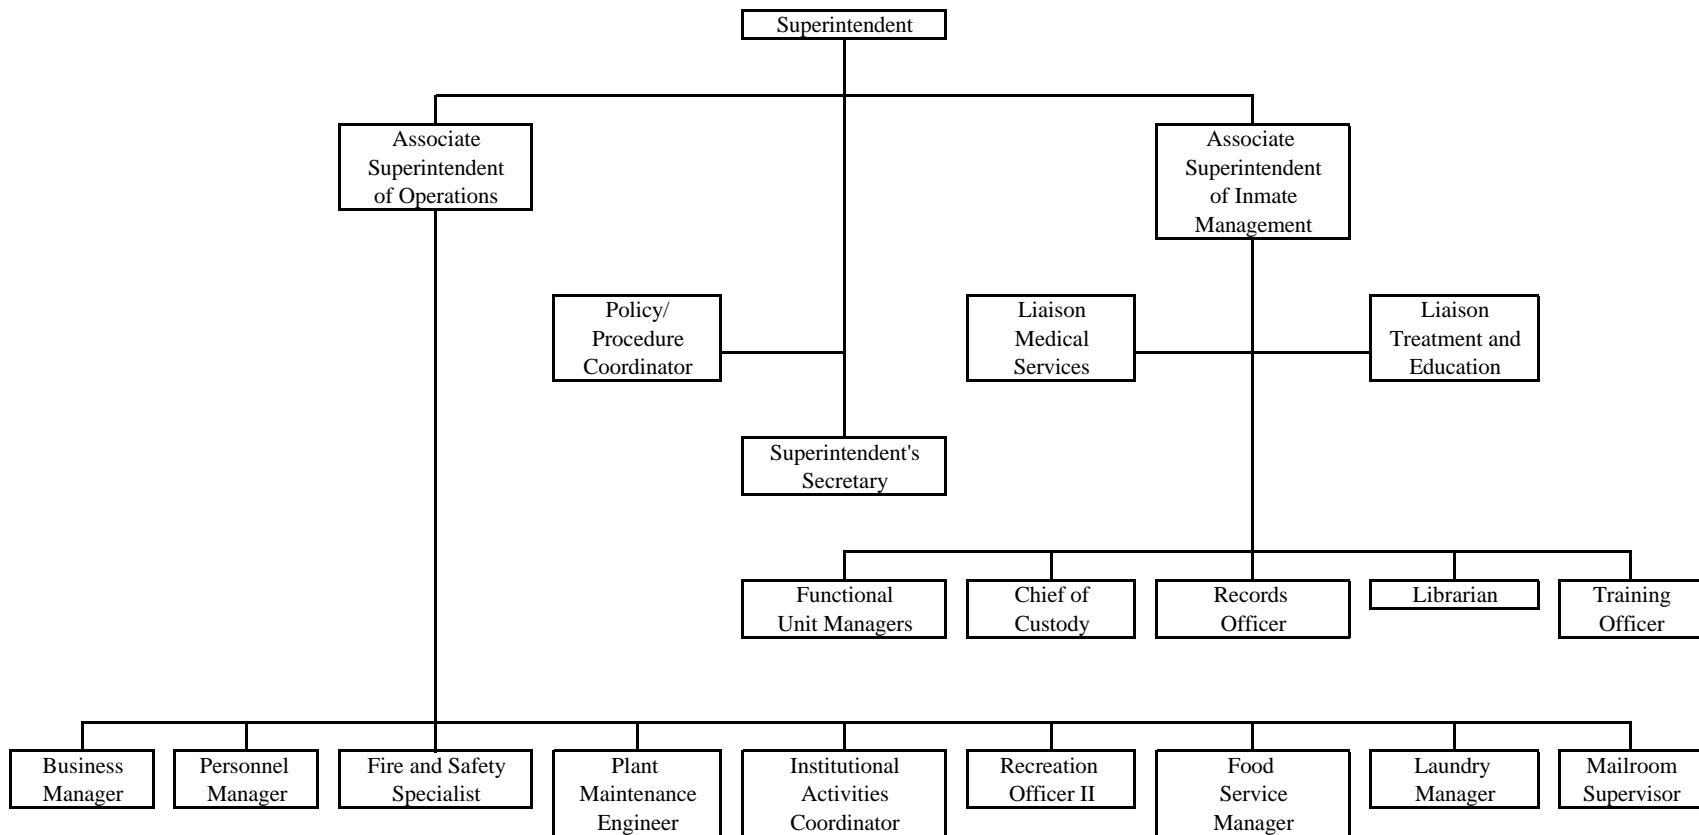

The Maryville Treatment Center (MTC), which opened in December 1996, is located in northwestern Missouri and is a minimum security treatment facility. The facility occupies 11 acres on the site of the former Mount Alverno convent and school. The facility originally opened with 225 inmate beds. Phase two of the facility was completed during May 1998, and the facility now has a capacity of 525 male inmates who have a history of alcohol and drug abuse. Inmates are expected to follow a rigid and demanding schedule of activities to prepare them for a successful and sober transition to the community.

The administration of the MTC consists of one superintendent and two associate superintendents. The associate superintendent of operations is responsible for inmate food services, recreation, institutional activities, facilities maintenance, fire and safety, and laundry, as well as the operation of the business office, mailroom, and personnel office. The associate superintendent of inmate management is responsible for inmate custody and classification and acts as a liaison between the Department of Corrections and Northwest Missouri State University personnel working at the facility.

The Department of Corrections has entered into an inter-agency agreement with the Northwest Missouri State University. Through this agreement the university provides adult basic education and drug and alcohol treatment to the facility's 525 inmates. This treatment program is overseen by an oversight committee which is composed of university personnel from the psychology, sociology, and criminal justice departments, and has received a provisional certification from the Department of Mental Health, Division of Alcohol and Drug Abuse. The adult basic education program is operated in cooperation with the Maryville School District, and is certified by the Department of Elementary and Secondary Education.

The MTC employed approximately 247 employees assigned to various administrative, service, and security functions as of June 30, 1999. Northwest Missouri State University had approximately 37 employees assigned to the education and treatment functions at the facility as of June 30, 1999. William Burgess serves as the facility superintendent. An organization chart follows.

Note: The appropriations presented above are used to account for and control the facility's expenditures from amounts appropriated to the facility by the General Assembly. The facility administers transactions from the appropriations presented above. However, the state treasurer as fund custodian and the Office of Administration provide administrative control over the fund resources within the authority prescribed by the General Assembly. This does not represent all expenditures of the facility. Some expenditures relating to individual facilities are charged to department-wide appropriations and not identified by facility (including some purchases of food inventory, computer equipment, and paper products). Expenditures charged to department-wide appropriations that are identified to MTC are noted in Appendix B.

REVIEW OF THE  
HIGHWAY RECIPROCITY COMMISSION

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-46  
June 19, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

June 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**The following areas of concern were discovered as a result of a review conducted by our office of the Highway Reciprocity Commission.**

---

Under the International Fuel Tax Agreement (IFTA), the Highway Reciprocity Commission (HRC) is responsible for collecting and distributing motor fuel taxes from Missouri based licensees. Under the agreement, each Missouri based over the road carrier is required to hold an IFTA license, file quarterly fuel tax returns, and remit the applicable taxes.

The IFTA agreement states that if the commission exercises its right to require that a bond be posted, the bond should be at least twice the estimated average tax liability. Of the 23 carriers we reviewed which were required to post a bond, eight failed to post a sufficient bond.

As a result of an internal audit, the HRC has established a procedure of completing and filing a reinstatement checklist when reinstating revoked carriers. Although the HRC has established this procedure, we noted that a reinstatement checklist was either not completed at all, or was incomplete for some carriers we reviewed.

Our review of the "IFTA Carriers With A Bond" report revealed that the HRC is holding 27 cash bonds, totaling \$13,500, for accounts that have been closed. Bonds are not automatically refunded when an account is closed. In addition, the HRC is holding bond monies for 36 non-renewed accounts totaling \$18,000.

The HRC mails other jurisdictions a monthly letter notifying the respective jurisdiction of the net amount of fuel taxes due to or from the State of Missouri related to IFTA transactions. Reimbursements received remain in the commission's holding account until the reimbursement documentation has been processed. As of December 1999, reimbursements of approximately \$1 million, dating as far back as March 1998, remained in the holding account.

If the additional registration fees for temporary permits are not received within 20 days of billing, the HRC places the carrier on the Missouri Highway Patrol Bulletin until the fees are paid or for a period of three years. If unpaid for three years these accounts are considered uncollectible, and are written off. The employee responsible for determining which accounts are to be written off is the same employee that bills the carriers and receipts monies.

Concerns were also noted with the edit function of the HRC's computerized receipt system and with the inability of the system to generate a change report.

## STATE AUDITOR'S REPORT

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

Honorable Mel Carnahan, Governor  
and  
The Highway Reciprocity Commission  
Jefferson City, Missouri 65109

We have conducted a review of the Highway Reciprocity Commission (HRC). The scope of our review included, but was not necessarily limited to, the three fiscal years ended June 30, 1999. The objectives of this review were to review certain internal control procedures, compliance issues, and management practices to determine the propriety, efficiency and effectiveness of those procedures and practices, and to review selected financial transactions of the HRC.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed the agency's revenues, expenditures, agreements and other pertinent records, procedures and documents and interviewed various agency personnel.

As part of our review, we assessed the agency's management controls to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to management controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk. In order to assess control risk, we performed tests of controls to obtain evidence regarding the effectiveness of the design and operation of certain policies and procedures.

Our review was limited to the specific matters described above and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the Commission's management and was not subjected to the procedures applied in the review of the Highway Reciprocity Commission.

In order to assess control risk, we performed tests of controls to obtain evidence regarding the effectiveness of the design and operation of certain policies and procedures.

Our review was limited to the specific matters described above and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the Commission's management and was not subjected to the procedures applied in the review of the Highway Reciprocity Commission.

## MANAGEMENT ADVISORY REPORT SECTION

REVIEW OF THE HIGHWAY RECIPROCITY COMMISSION  
SUMMARY OF FINDINGS

1. International Fuel Tax Agreement (pages 6-8)

Some bonds posted by carriers were not sufficient. A reinstatement checklist is not always properly completed when reinstating revoked carriers. The Highway Reciprocity Commission (HRC) is holding cash bonds for accounts that have been closed or not renewed.

2. Fuel Tax Reimbursements and Overpayments (pages 8-10)

A subsidiary accounts receivable ledger is not maintained for reimbursements due from other jurisdictions. Reimbursements received from other jurisdictions are not processed in a timely manner and as of December 14, 1999, reimbursements of approximately \$1 million dating as far back as March 1998 remained in the holding account. Tax overpayments are not applied to past due tax liabilities.

3. International Registration Plan Monies (pages 10-11)

Duties related to accounts receivable are not adequately segregated.

4. Documentation of Receipts (pages 11-12)

Each time receipt information is accessed on the HRC's receipt system, the receipt date is automatically changed. A change report is not generated which reflects changes made to the receipt system.

REVIEW OF THE  
HIGHWAY RECIPROCITY COMMISSION  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S RECOMMENDATIONS

|           |   |
|-----------|---|
| <b>1.</b> | <b>International Fuel Tax Agreement</b> |
|-----------|---|

Under the International Fuel Tax Agreement (IFTA), the Highway Reciprocity Commission (HRC) is responsible for collecting and distributing motor fuel taxes from Missouri based IFTA licensees. Under the IFTA agreement, each Missouri based over the road carrier is required to hold an IFTA license, file quarterly fuel tax returns, and remit the applicable taxes. All IFTA monies received by the HRC, except IFTA bonds, are deposited to the HRC holding bank account maintained by the HRC. IFTA monies due to other jurisdictions are transferred to the IFTA bank account (maintained by the HRC) for distribution and monies due to the state of Missouri are transferred to the state treasury. Refunds to carriers for overpayment of taxes are also paid from the IFTA bank account. IFTA cash bonds filed with the HRC are held in a separate bond bank account maintained by the HRC.

The HRC has the authority to revoke the IFTA license for those licensees that fail to file timely returns or remit the applicable taxes. To reinstate a revoked IFTA license, the carrier is required to file all past due tax returns and remit the applicable taxes and penalties due. The agreement also grants the commission the authority to require that a bond be posted, in order to reinstate a revoked IFTA license. Our review of IFTA transactions and procedures revealed the following concerns:

- A. The IFTA agreement states that if the commission exercises its right to require that a bond be posted, the bond should be at least twice the estimated average tax liability. The HRC requires bonds to be posted.

Of the twenty five accounts we reviewed, twenty three carriers should have posted a bond. Two carriers reviewed received a bond waiver from the HRC. Of the twenty-three carriers required to post a bond, eight failed to post a sufficient bond.

By failing to require sufficient bonds, the HRC increases the risk of not having sufficient funds to cover the future tax liabilities of repeat non-filers. In addition, the HRC is not in compliance with the IFTA agreement.

- B. As a result of an internal audit, the HRC has established a procedure of completing and filing a reinstatement checklist when reinstating revoked carriers. Although the HRC has established this procedure, we noted that for 18 out of 24 carriers reviewed, a reinstatement checklist was either not completed at all, or was incomplete.

By failing to complete the reinstatement checklist, the HRC has less assurance that all the necessary steps are performed when reinstating carriers.

- C. During our review of the “IFTA Carriers With A Bond” report we noted the following.
1. The report revealed that the HRC is holding 27 cash bonds, totaling \$13,500, for accounts that have been closed. Bonds are not automatically refunded when an account is closed. The HRC requires the IFTA licensee to request a refund. There is no documentation these carriers have been notified that a bond is no longer required and that a refund can be requested. In addition, we determined that the HRC is holding bond monies for 36 non-renewed accounts, totaling \$18,000. Of these 36 account holders, only 5 were notified they could request a refund of bond monies.
  2. The report indicated the HRC had “no current fleet data on file” for numerous carriers. We looked at the 1997 report to determine which carriers had no fleet data on file and what their status was (e.g. active, revoked, etc.) prior to July 1, 1996. The 1997 report revealed that current fleet data was unavailable for 92 carriers that had posted a bond. Seventeen of the twenty-five accounts we reviewed, totaling \$8,560, were closed or non-renewed, prior to July 1, 1996. The closing and non-renewal of these accounts dated back as far as 1994. The other 8 accounts were reinstated in 1999 and we were unable to determine their status in 1997.

Continuing to track bonds for carriers who are closed or non-renewed results in an unnecessary administrative burden. Bonds for closed or non-renewed accounts should be applied to any unpaid taxes, the carrier should be notified, and bonds should be refunded.

Conditions A and B were similarly noted in a Department of Revenue Internal Audit dated March 14, 1996.

**WE RECOMMEND** the Highway Reciprocity Commission:

- A. Collect bond amounts in compliance with the International Fuel Tax agreement.
- B. Follow its established procedure of completing a reinstatement checklist when reinstating an IFTA license.
- C. Contact the carriers and refund bonds on closed or non-renewed accounts.

## **AUDITEE'S RESPONSE**

### *The Highway Reciprocity Commission:*

- A. *Agrees with this recommendation, however, "compliance" with the IFTA agreement may not be the correct word. In the June 1998 peer review of Missouri, the IFTA peer review committee indicated no bonding problems since the IFTA agreement states that bonds are optional in the first place. However, HRC will review the policy on bond requirements to ensure future carrier bonds are equal to the carrier's projected outstanding tax liability per the recommendations. This review will be completed by August 1, 2000.*
- B. *Agrees with this recommendation. However, it was not totally implemented internally. HRC will re-evaluate the procedures for completing the reinstatement checklist prior to July 1, 2000.*
- C. *Agrees with this recommendation. This recommendation was implemented as of March 2000.*

|  |
|--|
| <b>2. Fuel Tax Reimbursements and Overpayments</b> |
|--|

Each Missouri IFTA licensee is required to file quarterly fuel tax returns. Completed returns are processed by the Highway Reciprocity Commission (HRC), which involves the HRC's computer system recalculating the taxes due. Taxes collected are deposited in an HRC bank account and then distributed to the various applicable jurisdictions. Our review of fuel tax procedures revealed the following:

- A. Every month, the HRC mails other jurisdictions a letter notifying the respective jurisdiction of the net amount due to or from the State of Missouri related to IFTA transactions. When reimbursements are received from the various jurisdictions the monies are receipted onto the system and deposited in the HRC's holding bank account. When the monies are identified they are transferred to the IFTA account. We noted the following weaknesses in accounting for these monies:
  - 1) A subsidiary accounts receivable ledger is not maintained for reimbursement requests mailed to other jurisdictions. In addition, procedures do not exist to ensure reimbursements are received.

Failure to maintain adequate accounts receivable records increases the likelihood that accounts receivable will not be collected and that loss or misappropriation of monies received will not be detected on a timely basis.

- 2) Reimbursements received from the various jurisdictions are not processed in a timely manner. Reimbursements received appear as unidentified on the Daily Unidentified Miscellaneous Monies Report (report) and remain in the holding account until the reimbursement documentation has been processed. As of December 14, 1999, reimbursements of approximately \$1 million, dating as far back as March 1998, remained in the holding account.

The HRC uses the reimbursement requests to identify the monies on this report. Reimbursement requests, which were in no particular order, were located in a box that had been placed in a storage room. Reimbursement requests totaling approximately \$247,000 were located which agreed to the report, but had not been processed. Letters could not be located for the remaining items on the report. In addition, there were reimbursement letters located in the box totaling approximately \$433,000 which were not included on the report. HRC personnel indicated that some jurisdictions will submit an amount that is reduced by the amount Missouri owes that jurisdiction. As a result, some of the letters may pertain to amounts on the report; however, these cannot be processed due to the jurisdiction submitting an amount that was less than the amount requested.

Failure to timely process monies received results in the monies not being used effectively and increases the risk that loss or misappropriation of funds will not be detected on a timely basis.

- B. The HRC revokes a Missouri carrier's IFTA license and estimates the taxes due when a carrier fails to timely file quarterly tax returns and pay taxes due. If a carrier with a revoked license remits a subsequent quarter's tax return which results in an overpayment, the overpayment is not applied towards the past due estimated tax liability. If the taxpayer has indicated that overpayments are to be refunded, the refund is held by the HRC until the taxpayer files and pays the past due tax liability. However, if the taxpayer does not indicate that overpayments are to be refunded, a credit is applied to the account, which may be used to offset future tax liabilities.

Failure to apply overpayments to past due tax liabilities increases the possibility that past due tax revenues will not be collected. In addition, crediting overpayments to past due liabilities could relieve the administrative burden of continuing to track these amounts.

**WE RECOMMEND** the Highway Reciprocity Commission:

- A.1. Maintain accounts receivable ledgers for all monies due and establish procedures for following up on past due accounts receivable balances.
2. Determine the status of unidentified monies and maintain all documentation so that refund reimbursements can be processed and identified in a timely manner.

- B. Apply overpayments to past due tax liabilities.

**AUDITEE'S RESPONSE**

*The Highway Reciprocity Commission:*

- A.1. *Agrees with this recommendation. An accounts receivable aging ledger was established in January 2000. Member jurisdictions are notified monthly of monies due Missouri from its transmittal. The member jurisdiction transmittals are entered into the ledger. Payments are recorded as received noting the date, amount and check number. If the amount is "netted" on the member jurisdiction transmittal, the amount is also entered into the ledger.*

*Procedures for collection of past due accounts will be re-evaluated prior to September 1, 2000.*

2. *Agrees with this recommendation. All outstanding monies were processed as of February 29, 2000.*

- B. *Agrees with this recommendation. Overpayments are now applied to past due tax liabilities on a monthly basis.*

|  |
|--|
| <b>3. International Registration Plan Monies</b> |
|--|

Under the International Registration Plan (IRP) agreement, the HRC is responsible for collecting and disbursing vehicle registration fees from Missouri based carriers. Fees are computed for each jurisdiction in which the carrier travels by using established fee schedules. The total registration fee is collected by the HRC and deposited to the HRC holding bank account. IRP monies due to other jurisdictions are transferred to the IRP bank account (maintained by the HRC) for distribution. Monies due to the state of Missouri are transferred to the state treasury. The IRP agreement explicitly states that registration renewal applications must be completed and returned to the HRC postmarked no later than October 1 and payment of registration fees must be postmarked no later than December 1.

After the renewal application has been processed, the carrier can incur additional registration fees by adding vehicles to its fleet. When a carrier adds a vehicle to its fleet, a temporary permit for the vehicle may be obtained, which is valid for 45 days. Upon receipt of the required registration documents, the HRC bills the carrier for the additional registration fees. If the additional fees are not received within 20 days of billing, the HRC places the carrier on the Missouri Highway Patrol Bulletin until the fees are paid or for a period of three years.

Each year the HRC reviews the Missouri Highway Patrol Bulletin to determine which carriers have remained on the bulletin for a period of three years. The accounts of those carriers that have

remained unpaid for three years are considered uncollectible, and are written off. The employee responsible for determining which accounts are to be written off is the same employee that bills the carriers and receipts monies.

Proper internal controls over revenues require that the responsibilities of billing, receiving, recording, and writing off uncollectible accounts be properly segregated. By failing to segregate these duties, and properly reviewing and approving the write off of uncollectible accounts, the HRC has ineffective controls over its accounts receivables which increases the risk that the loss or misuse of funds will not be detected in a timely manner.

**WE RECOMMEND** the Highway Reciprocity Commission segregate the duties of billing, receiving, recording, and disbursing monies, as well as the write off of uncollectible accounts.

#### **AUDITEE'S RESPONSE**

*The Highway Reciprocity Commission agrees with this recommendation. Although duties are currently segregated to the extent that budget restraints will allow. Uncollectible accounts will be reviewed by the accounting supervisor prior to being written off.*

|                                     |
|-------------------------------------|
| <b>4. Documentation of Receipts</b> |
|-------------------------------------|

All monies received by the HRC are recorded onto the agency's receipt system. When the monies are recorded, the system automatically assigns the transaction a receipt key number. Built into the receipt system is an edit function which allows information recorded on the receipt system to be changed.

- A. The edit function can be easily accessed by typing in the original assigned receipt key number on the edit function screen. Each time the receipt information is accessed, the system automatically changes the receipt date to the current date.

For proper accountability of monies received, the receipt date recorded on the receipt system should be the date the monies were actually received. Automatically changing the receipt date could make reconciliations more difficult and time consuming, reduces the audit trail for those transactions, and increases the possibility that loss or misappropriation of monies received will not be detected in a timely manner. Changes to the receipt date should be initiated only when necessary and reflected on a change report.

- B. The account clerks receipting the monies have receipt edit function capabilities and when the edit function is accessed, any information on the original receipt can be changed including the carrier's name, the account number, and the amount. A change report is not generated which reflects the changes made. As a result, after a change has been made, there is no record of the information that was previously in the file.

Failure to generate a change report reduces control over the receipt function and increases the possibility that loss or misappropriation of monies received will not be detected in a timely manner.

**WE RECOMMEND** the Highway Reciprocity Commission ensure that change reports are generated and reviewed by someone independent of the receipting function. In addition, the system should be modified so the receipt date is not automatically changed when receipt information is accessed.

**AUDITEE'S RESPONSE**

*The Highway Reciprocity Commission agrees with these recommendations. The legacy computer system currently in use at HRC does not allow for proper tracking of modifications to account information. HRC is currently evaluating a new computer system that would have this tracking function as well as other security features.*

This report is intended for the information of the management of the Highway Reciprocity Commission and other government officials. However, this report is a matter of public record and its distribution is not limited.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

## HIGHWAY RECIPROCITY COMMISSION HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

The Missouri Highway Reciprocity Commission (HRC) was created in 1958 to negotiate and enter into reciprocal agreements or arrangements with other states, the District of Columbia, territories and possessions of the United States and foreign countries concerning motor vehicle registration fees. From its inception, the Highway Reciprocity Commission became a member of the Uniform Proration Agreement. On November 2, 1959, Missouri was one of the first jurisdictions to join the multi-state agreement. On September 13, 1973, Missouri was one of the original four states initiating the International Registration Plan (IRP) in accordance with Sections 301.273 through 301.279, RSMo. As to those jurisdictions and provinces with whom Missouri has no agreement, Section 301.271, RSMo, provides for a “mirror type” agreement. Beginning in the calendar year 1990, the HRC assumed administrative responsibility for the International Fuel Tax Agreement (IFTA) in accordance with Section 142.617, RSMo.

Currently, the Commission administers two federal mandates; the International Registration Plan (IRP) and the International Fuel Tax Agreement (IFTA).

In accordance with the Omnibus State Reorganization Act of 1974, the HRC was transferred to the Department of Revenue under a Type II transfer. On July 1, 1975, the Department of Revenue’s Division of Administration assumed the responsibility for keeping the Commission’s records on operations, payroll and property control.

The Commission is composed of the Governor, Attorney General, Director of the Missouri Department of Transportation, Director of Revenue, Superintendent of the Missouri State Highway Patrol, and Director of the Division of Motor Carrier and Railroad Safety in the Department of Economic Development, and/or its appointed delegates. The Commission elects a chairperson and other officers that it deems necessary, fixes the time and place of its meetings and determines its own procedures. By statute, the secretary (executive director is the current title) has charge of the office of the commission and its employees and is the custodian of its records.

As of December 1999, the Commission consisted of:

### Members

Mel Carnahan, Governor  
Jay Nixon, Attorney General  
Steve Waters, Director, Motor Carrier  
& Railroad Safety, Department of  
Economic Development  
Weldon Wilhoit, Superintendent  
Missouri State Highway Patrol  
Henry Hungerbeeler, Director  
Department of Transportation  
Quentin Wilson, Chairman, Director of Revenue

### Delegates

Chris Sifford, Governor’s Office  
Mark Long, Assistant Attorney General  
  
Captain Dwight Hartung, MSHP  
Bill Wilson, Administrator, Motor  
Carrier Service, MoDOT

Larry Thomason serves as the Executive Director. As of December 1999, the HRC employed 33 personnel.

CITY OF MOUNT VERNON, MISSOURI

YEAR ENDED JUNE 30, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-45  
June 15, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

June 2000

**Some problems were discovered as a result of an audit conducted by our office in response to the request of petitioners from the City of Mount Vernon, Missouri.**

---

The city does not have a formal bidding policy. As a result, the decision of whether to solicit bids for a particular purchase is made on an item-by-item basis. Bids were either not solicited or bid documentation was not retained for \$53,154 for property and liability insurance; \$17,703 for fuel; \$44,482 for water and sewer supplies; and \$4,500 for a backhoe lease. Some board minutes did not contain documentation of the justification for accepting a bid other than the lowest bid or of sole source procurement situations and the city did not solicit proposals for auditing services.

Formal bidding procedures provide a framework for the economical management of city resources and help ensure the city receives fair value by contracting with the lowest and best bidders. Competitive bidding also helps ensure all parties are given an equal opportunity to participate in the city's business.

The city purchased property for \$187,000 without obtaining an independent appraisal.

The city uses the Electric Fund to help finance other city operations. During the year ended June 30, 1999, the city transferred \$400,000 from the Electric Fund to the city's General Fund. Transfers totaling \$212,150, \$100,000, and \$200,000 were also made during the years ended June 30, 1998, 1997, and 1996, respectively. In addition, \$250,000 has been budgeted as a transfer for the year ended June 30, 2000. Transfers from the Electric Fund to the General Fund have been a regular part of the city's budgeting and funding process for many years. In addition, the taxi driver's salary of \$21,000 plus fringe benefits were paid from the Electric Fund.

The Electric Fund, Water Fund, and Sewer Fund are separate accounting entities designed to account for specific city activities. Utility revenues should be used to fund the operations of the respective utilities only.

The city has not performed periodic formal reviews of the electric, water, and sewer rates. City ordinance requires the water and sewer rates to be set at an amount adequate to generate revenues to cover the costs of operation, maintenance, and replacement of the system; however, there is no documentation to indicate the city periodically reviews water or sewer rates to ensure these costs are adequately covered without generating excess revenues.

(over)

YELLOW SHEET

The city has not consistently enforced the ordinance requiring property owners to share the cost of replacing sidewalks.

Procedures have not been established for the enforcement of the building codes ordinance, and inspections are not adequately documented. The position of Building Inspector has not been established by ordinance.

Improvements are needed in the preparation of city budgets. The city approved expenditures in excess of budgeted amounts. Annual financial reports are not submitted to the State Auditor's office as required by state law.

Accounting duties are not adequately segregated, and receipt slips are not issued for some monies received by the municipal court.

CITY OF MOUNT VERNON, MISSOURI

**CLAIRE C. McCASKILL**  
Missouri State Auditor

To the Honorable Mayor  
and  
Members of the Board of Aldermen  
City of Mount Vernon  
Mount Vernon, Missouri 65712

The State Auditor was petitioned under Section 29.230, RSMo, to audit the city of Mount Vernon, Missouri. The city had engaged Compere & Robinette, P.C., Certified Public Accountants, (CPA firm) to perform a financial audit of the city for the year ended June 30, 1999. To minimize any duplication of effort, we reviewed the report and substantiating working papers of the CPA firm. Our audit of the city included, but was not limited to, the year ended June 30, 1999. The objectives of this audit were to:

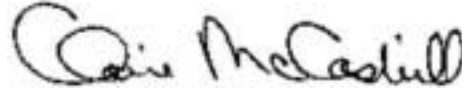

1. Perform procedures we deemed necessary to evaluate the petitioners' concerns.
2. Review compliance with certain constitutional provisions, statutes, ordinances, and attorney general's opinions as we deemed necessary or appropriate in the circumstances.
3. Review certain management practices which we believe could be improved.

Our audit was made in accordance with generally accepted auditing standards and included such procedures as we deemed necessary in the circumstances. We also reviewed board minutes, city policies and ordinances, and various city financial records.

Our audit was limited to the specific matters described above and was based on the selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention which would have been included in this report.

The accompanying History and Organization is presented for informational purposes. This information was obtained from the city and was not subjected to auditing procedures applied in the audit of the city.

The accompanying Management Advisory Report presents our findings and recommendations arising from our audit of the city of Mount Vernon, Missouri.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

February 14, 2000 (fieldwork completion date)

The following auditors participated in the preparation of this report:

## HISTORY AND ORGANIZATION

# CITY OF MOUNT VERNON, MISSOURI HISTORY AND ORGANIZATION

The city of Mount Vernon is located in Lawrence County. The city was incorporated in 1848 as a fourth-class city. The population of the city in 1990 was 3,791.

The city government consists of a mayor and eight-member board of aldermen. The eight board members are elected for two-year terms. The mayor is elected for a two-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor, Board of Aldermen, and other principal officials at June 30, 1999, were:

| <u>Elected Officials</u>                       | <u>Term Expires</u> | <u>Actual Compensation for the Year Ended June 30, 1999</u> | <u>Bond Amount</u> |
|--|---------------------|---|--------------------|

- (1) Replaced William Weber who resigned in October 1998. Neal resigned in August 1999 and was replaced by Robert Walster. Robert was reelected in April 2000.
- (2) Reelected in April 2000.
- (3) Norman Jones was elected in April 2000 to replace Rex Reese.
- (4) Replaced Steve Barnes who resigned in October 1998. Dave Eden was elected in April 2000.

- (5) Resigned in August 1999 and was replaced by Robert Steffke. William Weber was elected in April 2000 to complete the last year of the term.
- (6) Retired in October 1999 and was replaced by Charles R. Walker.
- (7) Melvin Owens also worked for the Water Department. Compensation includes \$31,890 for duties related to the Water Department. Appointed temporary full-time Fire Chief in December 1999.

Assessed valuation and tax rate information for 1999 are as follows:

|                     |                     |
|---------------------|---------------------|
| ASSESSED VALUATION  |                     |
| Real estate *       | \$23,346,170        |
| Personal property * | <u>13,344,050</u>   |
| Total               | <u>\$36,690,220</u> |

\* The city does not levy property taxes.

The city had the following sales taxes; rates are per \$1 of retail sales:

|                      | <u>Rate</u> | <u>Expiration</u><br><u>Date</u> |
|----------------------|-------------|----------------------------------|

| Capital improvements | .005        | None                             |

## MANAGEMENT ADVISORY REPORT

CITY OF MOUNT VERNON, MISSOURI  
SUMMARY OF FINDINGS

1. Expenditures (pages 9-12)

The city does not have a formal bidding policy. The city purchased property for \$187,000 without obtaining an independent appraisal. During 1995, the city paid more than \$19,000 to a construction company owned by an alderman's father. The board does not adequately review and document approval of disbursements and interfund transfers. Some expenditures did not represent a prudent use of public funds.

2. City Utilities (pages 12-14)

Electric Fund revenues have been used to support general city operations. The city has not performed periodic formal reviews of the electric, water, and sewer rates.

3. Controls and Procedures (pages 14-16)

Accounting duties are not adequately segregated. Improvement is needed in controls over receipts. Board minutes are not signed by the City Clerk and the Mayor.

4. Sidewalk Replacement Program (page 16)

The city has not consistently enforced the ordinance requiring property owners to share the cost of replacing sidewalks.

5. Taxi Service (page 17)

The taxi service has not been established by ordinance and is heavily subsidized by the Electric and General Funds.

6. Building Code (pages 17-18)

Procedures have not been established for the enforcement of the building codes ordinance, and inspections are not adequately documented. The position of Building Inspector has not been established by ordinance.

7. City Contracts (pages 18-19)

The city does not solicit proposals for their depository banking services, and the city does not have an agreement with its depository bank. In addition, the city does not have a current contract with the City Attorney, and invoices for legal services are not sufficiently detailed.

8. Budgets and Financial Reporting (pages 19-21)

Improvements are needed in the preparation of city budgets. The city approved expenditures in excess of budgeted amounts. Annual financial reports are not submitted to the State Auditor's office as required by state law.

9. City Property Records (pages 21-22)

The city does not maintain complete records to account for all property owned by the city.

10. Municipal Division (pages 22-23)

Accounting duties are not adequately segregated, and receipt slips are not issued for some monies received.

CITY OF MOUNT VERNON, MISSOURI  
MANAGEMENT ADVISORY REPORT

|           |                     |
|-----------|---------------------|
| <b>1.</b> | <b>Expenditures</b> |
|-----------|---------------------|

A. The city does not have a formal bidding policy. As a result, the decision of whether to solicit bids for a particular purchase is made on an item-by-item basis:

1. Although it appears the city did solicit bids for some purchases, bids were either not solicited or bid documentation was not retained for \$53,154 for property and liability insurance; \$17,703 for fuel; \$44,482 for water and sewer supplies; and \$4,500 for a backhoe lease. Some board minutes did not contain documentation of the justification for accepting a bid other than the lowest bid or of sole source procurement situations and the city did not solicit proposals for auditing services.
2. In October 1999, the city purchased a computer from the new city administrator for \$1,500. Bids were not solicited for the purchase. Section 105.454, RSMo 1999 Supp., prohibits financial transactions between a city and an officer or employee of that city that involve more than \$500 per transaction or \$1,500 per year, unless there has been public notice to solicit proposals and (except for real property) competitive bidding, provided that the bid or offer was the lowest received.

Formal bidding procedures provide a framework for the economical management of city resources and help ensure the city receives fair value by contracting with the lowest and best bidders. Competitive bidding also helps ensure all parties are given an equal opportunity to participate in the city's business. Bids can be handled by telephone quotation, by written quotation, by sealed bid, or by advertised sealed bid. Various approaches are appropriate, based on dollar amount and type of purchase. Whichever approach is used, complete documentation should be maintained of all bids received and the reasons noted why the bid was selected. The bidding policy should also address procedures for opening sealed bids.

- B. In January 1998, the city purchased 22.1 acres of land for the site of the future Missouri Veterans Home for \$187,850. The city purchased the property without obtaining an independent appraisal. As a result, there is less assurance the price paid for the property was reasonable or represented the fair value of the property.
- C. During 1995, the city paid \$19,413, for excavating work enlarging a lake, to a construction company owned by former Alderman Rob Miller's father. Bids could not be located at city hall and board minutes contained no documentation of discussions concerning this transaction. Former Alderman Rob Miller provided bid documentation to the State Auditor's Office related to the project.

City officials should avoid any type of involvement in city decisions that relate to themselves or businesses which their families have an interest in. Discussions and decisions concerning transactions where a potential conflict of interest exists should be completely documented and retained by the city to provide assurance that no city official or relative has profited improperly.

- D. The City Clerk provides the board monthly listings of bills to be paid. Although board minutes make a general reference that the listing of bills is approved for payment, the listings are not signed or initialed by the board members and retained with the official board minutes. In addition, the listings do not indicate from which funds payments are made and do not include some routine monthly payments. Invoices are retained in monthly files, but these invoices are not reviewed by the board members.

To adequately document the board's review and approval of all disbursements, complete listings of bills should be signed or initialed by the board members to denote their approval and retained with the official minutes. The listings should indicate the funds from which individual payments are made. In addition, supporting documentation should be reviewed by the board members before payment is made to ensure all disbursements represent valid operating costs of the city.

- E. The Treasurer periodically transfers capital improvement sales tax monies from the Special Sales Tax Fund to various other funds to reimburse those funds for capital asset purchases. There is no documentation to indicate the board reviews these transactions.

All interfund transfers should be reviewed by the board, and approval should be adequately documented.

- F. Some expenditures did not represent a prudent use of public funds. Expenditures related to employee Christmas parties totaled \$579 in December 1998 and \$700 in December 1999. The city also paid \$774 each of those years for Christmas hams for employees, Planning and Zoning board members, and volunteer firemen. In addition, the city incurred expenditures totaling \$763 in October 1999 for a retirement gift and luncheon for the former city administrator.

The city's residents have placed a fiduciary trust in their public officials to expend public funds in a necessary and prudent manner. The above expenses do not appear to represent a necessary and prudent use of public funds.

**WE RECOMMEND** the Board of Aldermen:

- A. Establish formal bidding policies and procedures, including documentation requirements regarding the bids or quotes received and justification for the bid selected and procedures for opening sealed bids. In addition, the board should

refrain from entering into transactions with city officials or related parties unless such transactions are properly bid and adequately documented in board minutes.

- B. Obtain an independent appraisal for any property being considered for purchase.
- C. Avoid transactions that represent actual conflicts of interest or the appearance of conflicts of interest. Such matters and transactions should be completely documented and retained in city records so the public has assurance that no city official has benefited improperly.
- D. Ensure listings of bills include all disbursements and indicate from which funds payments are made. Approval should be adequately documented by retaining a signed copy of the listing of bills with the board minutes. In addition, the board should review all invoices.
- E. Review and adequately document approval of all interfund transfers.
- F. Ensure expenditures are a prudent use of public funds.

**AUDITEE'S RESPONSE:**

- A.1. *The city has no formal written policy. The City Administrator is preparing a bid policy and procedure for board consideration.*
- 2. *No policy was in effect. The City Administrator requires access to a computer. The administrator reimbursed the city when the statutory requirement was brought to his attention. He had used his personal computer since his date of hiring, without charge, and agreed to continue to do so until equipment is available. The city's computer consultant plans to submit a proposal in June, estimated at \$1,500, plus the cost of a monitor, printer and software.*
- B. *This recommendation will be incorporated into the above referenced purchasing and procurement policy.*
- C. *Former board members advise this was the only bid received and that Board Member Rob Miller abstained from voting on the matter to avoid conflict. The recommendation is so noted.*
- D. *This recommendation has been adopted by the City Clerk and was formally approved by the board at its May 9 meeting. A cut-off date for the receipt of invoice submittals, and the review and signature by the City Clerk, City Administrator (or his designee), and representatives of the board on a three months alternating basis has been adopted. The approved list will then be prepared and disseminated in the monthly board agenda packet on the Friday prior to the monthly meeting for further review by the Mayor and board prior to the meeting.*

- E. *The recommendation is so noted. Interfund transfers hereafter require board approval.*
- F. *A nominal token of appreciation is a common practice among municipalities at Christmas time. This practice builds morale and camaraderie among employees and is considered a prudent and appropriate use of public funds. The recommendation is so noted.*

|                          |
|--------------------------|
| <b>2. City Utilities</b> |
|--------------------------|

- A. The city uses the Electric Fund to help finance other city operations. During the year ended June 30, 1999, the city transferred \$400,000 from the Electric Fund to the city's General Fund. Transfers totaling \$212,150, \$100,000, and \$200,000 were also made during the years ended June 30, 1998, 1997, and 1996, respectively. In addition, \$250,000 has been budgeted as a transfer for the year ended June 30, 2000. Transfers from the Electric Fund to the General Fund have been a regular part of the city's budgeting and funding process for many years. In addition, the taxi driver's salary of \$21,000 plus fringe benefits were paid from the Electric Fund.

The Electric Fund, Water Fund, and Sewer Fund are separate accounting entities designed to account for specific city activities. Utility revenues should be used to fund the operations of the respective utilities only. Rates for electric, water, and sewer services should be set to cover the costs of producing and delivering services, repaying bonds, and repairing and replacing equipment. These services should not generate profits to fund other services provided by the city. Funding for the general city operations should not come from utility user fees.

The existing utility rate structure has allowed the city to, in effect, levy an additional tax without a vote of the citizens. Property taxes, sales taxes and other fees can be established or increased; but, these require a vote of the citizens. It appears the city has established a higher than necessary electric rate structure in lieu of increasing general revenues or reducing services provided by the city.

It is prudent to set rates in excess of immediate operating needs to fund future costs of replacing and repairing infrastructure. However, any surpluses should stay in the related fund instead of being transferred to fund general city operations.

- B. The city has not performed periodic formal reviews of the electric, water, and sewer rates. City ordinance requires the water and sewer rates to be set at an amount adequate to generate revenues to cover the costs of operation, maintenance, and replacement of the system; however, there is no documentation to indicate the city periodically reviews water or sewer rates to ensure these costs are adequately covered without generating excess revenues. During the year ended June 30, 1999, the Electric and Water Funds generated net incomes of

\$587,491 and \$84,404, respectively, while the Sewer Fund incurred a net loss of \$306,474.

Electric, water, and sewer fees are user charges which should cover the cost of providing the related services. The city should perform periodic detailed reviews of the costs of providing these services and set rates appropriately. Section 67.042, RSMo 1994, provides that fees may be increased if supported by a statement of the costs necessary to maintain the funding of such service. Preparation of a statement of costs would allow the city to determine the rates necessary to support current and future operations as well as providing documentation to customers of the rationale behind the rates.

**WE RECOMMEND** the Board of Aldermen discontinue subsidizing general city operations with utility funds and perform periodic reviews of the costs to maintain utility services, and establish rates to ensure revenues are adequate to operate, maintain and replace the utilities. In addition, a statement of the costs to maintain funding of the service should be prepared, as required by state law, before enacting any rate increase.

**AUDITEES RESPONSE:**

- A. *The State Auditor's opinion is so noted (see legal opinion provided by the city's attorney, below). The City Administrator responded that he traditionally requires a true accounting of all receipts and expenditures by separate utility funds so that he can have a handle on operations at all times.*
- B. *The City Administrator has solicited proposals for engineering services and at its May 9 meeting the board approved the continuation of general engineering services by Turner Consulting of Baxter Springs, KS, a second general engineering firm of Archer Total Project Management of Springfield, MO and Finley Engineering of Lamar, MO for electrical engineering services. Proposals for needs assessments and rate studies will be sought for each of the municipal utilities. Statements of costs required to maintain adequate funding for each of the utilities will be prepared in accordance with statute prior to the adoption of any rate increase.*

*The City Attorney provided the following opinion for Part A:*

- A. *It is my opinion that the contract for electrical services with Empire District Electric Company, the transfer from the Electric Fund to the General Fund, and the use from the General Fund for expenditures is legal. I do not find any Missouri Constitutional provision, any State statute, or any court case that prohibit this activity.*

*The City of Mount Vernon, Missouri has been purchasing electrical services from Empire District Electric Company under contract since on or before August 19, 1959. The contract has been renewed, from time to time, with the latest renewal*

*under Ordinance No. 7.36 wherein the City contracted with Empire District Electric Company for electrical service for a period of twenty (20) years from and after March 8, 1988.*

*The City has, from time to time, transferred funds from the Electric Fund to the General Fund and thereafter made expenditures from the General Fund. The Missouri Appellate Courts have consistently held that municipal charges are not taxes; and, therefore, levying utility charges and raising utility would not be prohibited by the "Hancock Amendment". Moreover, Section 67.050, RSMo., specifically provides that "during the budget year, any political subdivision may transfer any unencumbered balance or portion thereof from the expenditure authorization of one department, office, commission, or other classification, to another, subject to such limitations as may be provided by law or charter.*

### **AUDITOR'S COMMENT:**

The Board of Aldermen, as elected representatives, has the responsibility to submit tax increases to a vote of the people.

The net result of the city's current practice is that the citizens of Mount Vernon are paying higher than necessary utility rates to subsidize general city operations. The rate structure includes hidden taxes. As noted above, the city transferred \$400,000 from the Electric Fund to the General Fund during the year ended June 30, 1999 (approximately 13 percent of the Electric Fund's revenue). The \$400,000 transfer represents approximately 24 percent of the General Fund's operating funds for the year ended June 30, 1999. While it is common for municipal governments to provide for a gross receipts tax on utility operations, it does not appear reasonable to expect the utilities to provide a major source of funding for the general city operations.

|                                   |
|-----------------------------------|
| <b>3. Controls and Procedures</b> |
|-----------------------------------|

- A. Accounting duties are not adequately segregated. The Treasurer prepares deposits, records transactions, has the authority to sign checks (only one signature is required), and reconciles bank statements. A similar weakness was noted with DARE monies. One officer is responsible for receiving, recording, depositing, preparing and signing checks, and reconciling bank statements for the DARE Account. In both of these situations, no supervisory or independent reviews are performed.

To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating cash custody and record-keeping functions. If a proper segregation of duties cannot be achieved, at a minimum, there should be an independent review

of the reconciliations between receipts and deposits, and an independent review of bank statements and bank reconciliations.

B. The following problems were noted related to receipts:

1. Monies are not deposited in a timely manner. Deposits (excluding utility deposits) are only made approximately once or twice per week. Golf course monies were sometimes held several months before being deposited.
2. Monies are not deposited intact. The City Collector occasionally cashes personal checks for employees or other individuals from utility receipts.
3. Checks and money orders are not restrictively endorsed immediately upon receipt. The endorsement is applied by the Treasurer when the deposit is prepared.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, receipts should be deposited intact daily or when accumulated receipts exceed \$100. In addition, checks and money orders should be restrictively endorsed immediately upon receipt.

C. Board minutes prepared by the City Clerk are not signed. The board minutes should be signed by the City Clerk as preparer and by the Mayor to provide an independent attestation that the minutes are a correct record of the matters discussed and actions taken during the board's meetings.

**WE RECOMMEND** the Board of Aldermen:

- A. Adequately segregate duties. If duties cannot be adequately segregated, at a minimum, there should be an independent review of the reconciliations between receipts and deposits and an independent review of bank statements and bank reconciliations.
- B. Deposit receipts intact daily or when accumulated receipts exceed \$100, and restrictively endorse checks and money orders immediately upon receipt.
- C. Ensure board minutes are signed by the City Clerk as preparer and by the Mayor to attest to their completeness and accuracy.

**AUDITEE'S RESPONSE:**

- A. *The process for segregating cash custody and record keeping is being amended to improve internal controls, along with an independent review of each category mentioned in the auditor's report. The board approved a recommendation by the Administrator that requires two signatures on all drafts, including provisions for the office of Mayor to serve*

*as first alternate and the City Administrator to serve as second alternate. Presently, the Mayor serves as an officer of a local bank but has never involved himself in financial matters of the city since his appointment. Because of the Mayor's local bank affiliation, the Administrator will serve as the alternate signatory as long as this affiliation exists.*

- B. Receipts in excess of \$100 are now deposited daily. All monies are otherwise locked in the city vault at the close of the day's business. The city collector no longer cashes personal drafts. Checks and money orders are being restrictively endorsed immediately upon receipt as recommended and the treasurer endorses the document when the deposit is prepared.*
- C. There was a period of time in which the board minutes were not signed by the Mayor and City Clerk. The City Clerk has resumed the practice of having documents appropriately executed before they are filed as a permanent record document.*

|  |
|--|
| <b>4. Sidewalk Replacement Program</b> |
|--|

In August 1998, the board authorized the replacement of sidewalks beginning around the town square and extending from the square to the elementary school and the new high school as funds permit. The board adopted an ordinance, as provided for by Sections 88.804 and 88.806, RSMo 1994, requiring property owners to pay one half the costs of replacing the sidewalks. The ordinance provided for payments to be made on an installment basis and for liens to be filed against any properties for which the special assessment was not paid.

As of February 14, 2000, the city had billed 28 property owners a total of \$30,186 for sidewalk replacements. Nine of those property owners have not made any payments and have not requested an installment plan. The city has not taken any action to collect the unpaid assessments which were dated between April 1999 and September 1999 and total \$8,627. To ensure the equitable treatment of all citizens, the board should consistently enforce city ordinances. Unpaid assessments should be followed up and any exceptions should be approved by the board and properly documented.

**WE RECOMMEND** the Board of Aldermen ensure the consistent enforcement of city ordinances and follow up on the unpaid assessments.

**AUDITEE'S RESPONSE:**

*Business owners expressed concerns regarding cracks that led to payments being held in abeyance until the situation was investigated. After the Winter period of freeze and thaw, it was determined that the cracks were superficial rather than structural. Second notices were sent out and collections are now being pursued.*

**5.****Taxi Service**

The city provides a taxi service which city officials indicate is intended primarily for the use of the elderly and disabled. The city charges 25 cents per person for a one-way trip, regardless of the distance. The taxi service has not been established by ordinance.

During the year ended June 30, 1999, revenues generated by the taxi service totaled only \$3,327 while operating expenses totaled \$26,102. This resulted in a \$22,775 operating loss which was subsidized by the Electric Fund, as discussed in MAR No. 2, and the General Fund. The operating loss is due largely to the minimal fees charged. In December 1999, the board reviewed the financial condition of the taxi service and voted to continue to charge only 25 cents per ride.

If the board considers this a desirable city-provided service, an ordinance should be adopted defining the rates and users. The board should continue to monitor the financial condition of the taxi service to ensure providing this service is in the best interest of the citizens.

**WE RECOMMEND** the Board of Aldermen continue to monitor the financial condition of the taxi service. If this is considered a desirable city-provided service, the board should adopt an ordinance defining the rates and users.

**AUDITEE'S RESPONSE:**

*The city taxi service continues to be provided as a public mandate as was evidenced by two lengthy discussions at board meetings in recent months. This service was established formally by ordinance adopted May 9, 2000 in accordance with the recommendation that both the use and a rate structure be defined.*

**6.****Building Code**

- A. The city passed a building code ordinance in 1969 establishing minimum building standards (foundation and structural) for the city and granting inspection authority to the City Building Inspector. However, procedures have not been established for the enforcement of the building codes. The Public Works Director stated that foundation and structural inspections are not performed. The city has also established minimum standards related to electrical, plumbing, and sewer work. The Public Works Director indicated inspections are performed to ensure compliance with these standards. However, no documentation is maintained of the inspections performed.

The city should review the building codes ordinances. If it is the city's desire to maintain these minimum building standards, procedures should be established for enforcement and documentation.

- B. Although the building codes ordinance refers to the position of Building Inspector, this position has not been established by ordinance. Currently, the Director of Public Works oversees building inspections. The city should establish the duties, compensation, and qualifications for the position of Building Inspector by ordinance.

**WE RECOMMEND** the Board of Aldermen:

- A. Review the building code and establish procedures for enforcement and documentation.
- B. Establish the position of Building Inspector by ordinance.

**AUDITEE'S RESPONSE:**

- A. *A complete revision of the zoning ordinance and subdivision regulations, including a building code update were intended to follow the completion of the Comprehensive Plan. To expedite this process, the Administrator is seeking proposals for presentation to the Board of Aldermen at its June 13 meeting.*
- B. *During the zoning code revision process the city will determine the need to create by ordinance a part-time or full-time Building Inspector, or a combined position of Building Inspector/Code Enforcement Officer, complete with duties, qualifications, and responsibilities.*

|                          |
|--------------------------|
| <b>7. City Contracts</b> |
|--------------------------|

- A. While it appears bids are solicited for the investment of some of the city's excess funds, the city does not periodically solicit bids for its depositary banking services. The current Mayor serves on the board of the city's depositary bank. In addition, the city does not have a written agreement with its depositary bank.

To ensure the city is receiving competitive banking services and to avoid an actual or apparent conflict of interest, the city should periodically seek depositary banking proposals from area banks. A written depositary contract helps both the bank and the city understand and comply with the requirements of any banking arrangement.

- B. The city annually appoints a local attorney to serve as City Attorney. The same attorney has served in this position since 1974. At that time, the city entered into a written agreement with the attorney, defining the services to be rendered and compensation to be paid for legal services. The original contract has not been updated, and invoices are not sufficiently detailed to allow the city to determine the hourly rates billed by the attorney.

The city should enter into a current written agreement with the City Attorney and should require invoices to be sufficiently detailed.

Section 432.070, RSMo 1994, requires contracts for political subdivisions to be in writing. The city should enter into written contracts for services rendered or obtained. A written contract, signed by the parties involved, should specify the services to be rendered and the manner and amount of compensation to be paid. Written contracts are necessary to ensure all parties are aware of their duties and responsibilities and to provide protection to both parties.

**WE RECOMMEND** the Board of Aldermen:

- A. Periodically seek proposals or competitively bid the city's depository banking services and enter into a written agreement with the depository bank.
- B. Enter into a current contract with the City Attorney and require invoices for legal services to be sufficiently detailed.

**AUDITEE'S RESPONSE:**

- A. *The City Administrator has been assembling information from various sources for depository banking services and proposes to solicit competitive proposals in the near future for such services, including municipal investments. A written agreement for a minimum period of three years is being considered. The city's mayor has, since assuming public office, excused himself from all involvement with municipal finance. This function is overseen by the city administrator and clerk with assistance from the treasurer and oversight by an independent audit firm.*
- B. *The city is pursuing a contract for legal services and now requires detailed invoices for services rendered. The city also requires a detailed itemization from its consulting engineer and for other professional services. The City Administrator is currently preparing bid specifications for comprehensive general liability and workers compensation insurance needs that will be advertised for competitive bid by May 17. If the possibility of lower group health insurance premiums presents itself in light of the city's loss experience, the city will consider competitive bid solicitation for this insurance coverage likewise.*

|   |
|---|
| <b>8. Budgets and Financial Reporting</b> |
|---|

- A. The budgets prepared by the city for the years ended June 30, 2000 and 1999, did not comply with state law or were otherwise insufficient as follows:

1. Although the board minutes make general references that the annual budgets were adopted, the budgets are not retained with the official minutes and are not signed by the board to denote approval.
2. Budgets were not prepared for the DARE and Community Development Block Grants (CDBG) funds. Section 67.010, RSMo 1994, indicates the annual budget shall present a complete financial plan for the city.
3. The budgets did not reflect beginning and projected ending fund balances and did not include budget messages or general budget summaries, describing the important features of the budget and major changes from the preceding years.

Sections 67.010 through 67.040, RSMo 1994, set specific guidelines as to the format and approval of the annual operating budget. A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific cost and revenue expectations for each area of city operations. A complete budget should include appropriate revenue and expenditure estimations by classification, and include beginning and estimated ending fund balances. To adequately document the board's approval, budgets should be signed or initialed by the board and retained with the official minutes.

- B. During the two years ended June 30, 1999 and 1998, expenditures of the General Fund exceeded budgeted amounts by \$105,812 and \$484,311, respectively. The city failed to adequately budget grant expenditures, land purchase, and capital expenditures.

Section 67.040, RSMo 1994, indicates a political subdivision shall not increase the total amount authorized for expenditure from any fund, unless the governing body adopts a resolution documenting the reasons making the increase necessary and approves or adopts a resolution or ordinance to authorize the expenditures. A similar comment was made by the city's auditor during their annual audit.

- C. The city recently submitted its annual financial reports to the State Auditor's Office for the first time since 1988. Section 105.145, RSMo 1994, requires political subdivisions to file a financial report with the State Auditor's Office annually.

**WE RECOMMEND** the Board of Aldermen:

- A. Sign or initial budgets and retain them with the official minutes. In addition, the board should ensure annual budgets include all relevant information required by state law.

- B. Periodically compare year-to-date expenditures with budgeted amounts to monitor the city finances and to ensure expenditures do not exceed budgeted amounts.
- C. Submit annual financial reports to the State Auditor's Office as required by state law.

**AUDITEE'S RESPONSE:**

- A. *The next fiscal budget will be prepared in accordance with statute by the City Administrator in accordance with generally accepted accounting practices, held open for public comment prior to adoption, executed and retained with the official minutes record of the city.*
- B. *The city has adopted the preparation of bimonthly financial reports for the purposes of monitoring income and expenses. With the adoption of the FY 2000-2001 budget, the city hopes to have in place a year-to-date report to further ensure that expenditures do not exceed budgeted amounts. The city concurs with the recommendation to document by resolution any need to increase budgeted expenditures subsequent to the adoption of the annual budget.*
- C. *The city began the submittal of its annual financial reports to the Office of State Auditor in 1999 and intends to continue this practice annually.*

|                                 |
|---------------------------------|
| <b>9. City Property Records</b> |
|---------------------------------|

The city has not prepared and maintained permanent, detailed property records for general fixed assets, including the cost of land, buildings, equipment, and furniture owned by the city.

Property records for general fixed assets are necessary to ensure accountability for all items purchased and owned and for determining the proper amount of insurance coverage.

To develop appropriate records and procedures for general fixed assets, the city needs to undertake a comprehensive review of all property owned by the city. Assets should be counted, tagged for specific identification, and recorded by description and serial number in a detailed property ledger at historical cost or estimated historical cost if the original cost is not available. The city should properly record all fixed asset transactions and ensure the accuracy of the recorded fixed assets. Periodically, the city should take physical counts of its assets and compare to the detailed records.

**WE RECOMMEND** the Board of Aldermen establish property records for general fixed assets that include all pertinent information for each asset, such as tag number, description, cost, acquisition date, location, and subsequent disposition. In addition, annual physical inventories should be performed.

**AUDITEE'S RESPONSE:**

*The city proposes to establish a property records system for all general fixed assets after the beginning of the 2000-2001 fiscal year and maintain a running inventory as recommended. Much of this information is found in insurance documentation, is now being updated in preparation of specifications for bid solicitation and admittedly needs to be more easily accessible and kept current.*

|                               |
|-------------------------------|
| <b>10. Municipal Division</b> |
|-------------------------------|

- A. Accounting duties are not adequately segregated. The Court Clerk performs all of the duties related to the collection and disbursement of fines, court costs, and bonds. Neither the Judge nor other personnel provide independent reviews of the work performed by the Court Clerk.

To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, depositing, and transmitting court monies from recording receipts. If proper segregation of duties cannot be achieved, at a minimum, there should be an independent review of the reconciliation between receipts, deposits, and transmittals and an independent review of bank statements and bank reconciliations.

- B. Receipt slips are not issued for some monies received. For example, the Court Clerk does not issue receipt slips to the county sheriff's department for cash bonds turned over to the court. To adequately account for all receipts, prenumbered receipt slips should be issued for all monies received.

Similar conditions were also noted in our prior audit report of the municipal court.

**WE AGAIN RECOMMEND** the city of Mount Vernon Municipal Division:

- A. Adequately segregate the accounting duties of the Court Clerk to the extent possible. At a minimum, there should be a documented independent review of the reconciliations between receipts and deposits and of bank statements and bank reconciliations.
- B. Issue prenumbered receipt slips for all monies received.

**AUDITEE'S RESPONSE:**

- A. *The city proposes a documented independent review of the reconciliations between receipts, deposits, transmittals and an independent review of bank statements and bank reconciliations by the city treasurer.*
- B. *The clerk has instituted the practice of issuing numbered receipts for all monies received.*

This report is intended for the information of the city's management and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

CITY OF OLYMPIAN VILLAGE, MISSOURI

YEAR ENDED JUNE 30, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-44  
June 8, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

June 2000

**Some problems were discovered as a result of an audit conducted by our office in response to the request of petitioners from the City of Olympian Village, Missouri.**

---

Inadequate oversight and monitoring by the Board of Aldermen, inadequate records and procedures, significant employee turnover, accounting errors, and improper uses of restricted monies have all contributed to a serious financial situation for the city.

The city does not have written agreements with companies or individuals providing services and does not have formal written bidding policies and procedures. Supporting documentation was not maintained for numerous disbursements. The board minutes do not specifically reflect approval of monthly expenditures and the board and Mayor generally do not review and approve individual invoices for payment.

Various payments for audit services, sewer work, police supplies, insurance, car repairs, legal services, pole barn construction, and a new sludge bed had no invoice or other documentation to support the payments. Payments reviewed totaling approximately \$71,000, had no invoice maintained by the city. In addition, other invoices were not adequately detailed to support the work performed.

As of December 31, 1999, state withholding taxes totaling \$2,832 for the two quarters ended September 30, 1999 still had not been paid and federal withholding taxes totaling approximately \$43,300 for the period January 1998 through November 1999 were owed to the IRS. Approximately 82% of these monies is due from the General and Police Funds, 16% from the Road Fund, and 2% from the Sewer Fund.

The city did not prepare or retain budgets for fiscal years 2000 and 1999. The city did not submit annual financial reports for the fiscal years ended June 30, 1999 and 1998, to the State Auditor's Office and semi-annual financial statements were not prepared and published or posted.

The city installed a sewer system and sewage treatment plant in 1983, which was funded through federal and state grants and the issuance of sewer system revenue bonds. The final payment on the revenue bonds was made in the Spring of 1998. Our review noted the following concerns:

- The city does not have a current repair and replacement plan for the sewer system and treatment plant and has not estimated related future costs.
- The total cash balance of the various sewer funds has decreased from approximately \$132,000 at July 1, 1996 to approximately \$4,500 at June 30, 1999.
- Of the \$132,000 balance at July 1, 1996, approximately \$122,000 represented monies set aside in repair and replacement accounts. As of June 30, 1999, only \$1,116 remained in the repair and replacement accounts. These monies which were set aside for long-term repair and replacement needs were apparently used to also fund normal sewer system operating costs and sewer bond payments, as well as a road bond payment.

(over)

YELLOW SHEET

- The City Collector prepares sewer billings, collects related receipts, and maintains sewer subsidiary accounts receivable records. These duties should be segregated to allow for a system of checks and balances. If proper segregation of duties cannot be achieved, at a minimum, there should be an independent review of the Collector's records.

The city has not formally established a policy regarding public access to city records. A formal policy regarding access to and copies of city records would establish reasonable guidelines for the city to make the records available to the public. This policy should establish a person to contact and an address to mail requests for access to records.

In 1998, a public hearing was not held prior to establishing the property tax rates and an ordinance was not prepared to document the approved tax rates to be levied. State law requires a public hearing be held on proposed rates of tax prior to the board's approval of the rate.

The city receives federal financial assistance from the U.S. Department of Justice under the COPS Universal Hiring program to hire law enforcement officers. In April 1997, the city received a grant award of \$254,347 to hire five full-time officers. Under the grant provisions, the city is required to provide 25 percent of the cost of employing the officers until the grant expires in April 2001. The city began hiring officers in October 1997.

Documentation to support the calculation of amounts claimed on monthly reimbursement requests was not maintained and the city claimed more costs than allowable. For program expenses from October 1997 through December 1999, the city requested and received \$214,291 in grant reimbursements. However, based on the grant budget, payroll records, and documented fringe benefits, the federal share of allowable salary and fringe benefit expenditures was only approximately \$150,265 for that period.

The city should request reimbursement for only actual, allowable expenses incurred, less the required amount of matching funds, and should ensure adequate documentation is retained to support amounts claimed. The Board of Aldermen should contact the federal grantor agency to resolve these issues.

The city has not established a complete financial accounting system. The City Clerk, the Mayor, and the Collector have access to monies, but are not bonded and the City Clerk also serves as the City Treasurer. The Board of Aldermen has not established a formal policy on vacation leave, sick leave, and compensatory time and time records are not adequately reviewed or maintained. The city does not perform bank reconciliations and the city's accounting records had numerous errors and lacked detailed information.

A formal maintenance plan for city streets has not been prepared. The city spent \$147,000 of its road bond proceeds in September 1997 to pave several city streets. In October 1999, the city also spent \$120,000 of capital improvement sales tax money allocated to it by Jefferson County to pave additional streets. This paving work was performed without a master plan for future street work in the city and a public hearing was not held to obtain input from city residents. In addition, the city had no documented reasons for choosing these streets rather than other streets in the city which are in poor condition.

The city does not maintain fixed asset records or take an annual physical inventory of all city-owned property.

The city failed to deposit \$39,505 in property tax receipts into the Road Bond Debt Service Fund. The city has not developed a policy regarding allowable uses of the parks property tax and has used the money for items other than funding parks.

The Court Clerk's duties are not adequately segregated, court receipts are not deposited to the city's general bank account on a timely basis, and the Court Clerk does not perform bank reconciliations on the Judicial Education Fund and the Bond accounts. Checks and money orders are not restrictively endorsed until the deposit is prepared. Neither the police department nor the court maintains adequate records to account for all traffic tickets and summonses issued by the police department.

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

To the Honorable Mayor  
and  
Board of Aldermen  
City of Olympian Village  
DeSoto, Missouri 63020

The State Auditor was petitioned under Section 29.230, RSMo, to audit the city of Olympian Village, Missouri. Our audit of the city included, but was not limited to, the year ended June 30, 1999. The objectives of this audit were to:

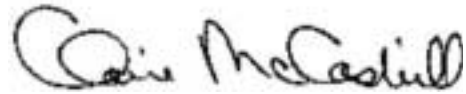

1. Perform procedures we deemed necessary to evaluate the petitioners' concerns.
2. Review compliance with certain constitutional provisions, statutes, ordinances, and attorney general's opinions as we deemed necessary or appropriate in the circumstances.
3. Review certain management practices which we believe could be improved.

Our audit was made in accordance with generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. We also reviewed board minutes, city policies and ordinances, and various city financial records.

Our audit was limited to the specific matters described above and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention which would have been included in this report.

The accompanying History and Organization is presented for informational purposes. This information was obtained from the city and was not subjected to the auditing procedures applied in the audit of the city.

The accompanying Management Advisory Report presents our findings and recommendations arising from our audit of the city of Olympian Village, Missouri.

A handwritten signature in black ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

February 15, 2000 (fieldwork completion date)

## HISTORY AND ORGANIZATION

# CITY OF OLYMPIAN VILLAGE, MISSOURI

## HISTORY AND ORGANIZATION

The city of Olympian Village is located in Jefferson County. The city was incorporated in 1965 as a fourth-class city. The population of the city in 1990 was 752.

The city government consists of a mayor and four-member board of aldermen. The four board members are elected in staggered elections for two-year terms. The mayor is elected for a two year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor, Board of Aldermen, and other principal officials at June 30, 1999, were:

| <u>Elected Officials</u>                 | <u>Term Expires</u> | <u>Actual Compensation for the Year Ended June 30, 1999</u> |
|--|---------------------|---|
| Darrel Marler, Mayor (1)                 | April, 2000         | \$ 0  |
| Don Cage, Alderman (2)                   | April, 2000         | 0   |
| Doug Routh, Alderman (3)                 | April, 2000         | 0   |
| Buford Cook, Alderman                    | April, 2001         | 0   |
| Ron Heim, Alderman (4)                   | April, 2001         | 0   |
| <u>Other Principal Officials</u>         |                     |   |
| Rae Jean Pitts, City Clerk/Treasurer (5) |                     | \$ 3,285  |
| Rebecca Bullock, Collector (6)           |                     | 0   |
| William Johnson, Municipal Judge         |                     | 1,100   |
| Evelyn Haithcoat, Court Clerk            |                     | 3,200   |
| John Lasater, Prosecuting Attorney       |                     | 600   |
| Robert Burcham, City Attorney            |                     | 210   |
| Mark Naucke, Police Lieutenant           |                     | 23,341  |

- (1) Darrell Marler resigned as mayor in December 1999 and was replaced by Doug Routh. Doug Routh resigned in March 2000 and was replaced by Ron Heim until the April 2000 election, at which time he resumed his aldermanic duties. Raymond Paul was elected Mayor in April 2000.
- (2) Dan Turner was elected in April 2000 to fill the seat formerly held by Don Cage.
- (3) Doug Routh was appointed to replace Darrel Marler as mayor in December 1999 and served until his resignation in March 2000. In April 2000, he was re-elected to his former aldermanic seat.

- (4) Ron Heim was appointed to replace Ken Reese in June 1999.
- (5) Jennifer Smetzer replaced Janice Finochiaro in November 1998. Rae Jean Pitts replaced Jennifer Smetzer in March 1999. Julie Turner replaced Rae Jean Pitts in December 1999.
- (6) Rebecca Bullock resigned as Collector in February 2000 and was replaced by Donna Trent.

The city employed approximately eight full and part-time employees at June 30, 1999. In January 2000, the city disbanded the police department, reducing the number of employees to three.

Assessed valuation and tax rate information for the tax year 1998 is as follows:

ASSESSED VALUATION

|                   |                            |
|-------------------|----------------------------|
| Real estate       | \$ 1,998,354               |
| Personal property | <u>826,181</u>             |
| Total             | \$ <u><u>2,824,535</u></u> |

TAX RATES PER \$100 ASSESSED VALUATION

|                        |                    |

## MANAGEMENT ADVISORY REPORT

CITY OF OLYMPIAN VILLAGE, MISSOURI  
SUMMARY OF FINDINGS

1. Financial Oversight and Monitoring (pages 9-10)

The Board of Aldermen has not provided adequate oversight and monitoring of city operations. Records and procedures are inadequate, employee turnover has been significant, accounting errors and improper uses of restricted monies have occurred and the city is in a serious financial situation.

2. Expenditures (pages 10-12)

The city does not have written agreements with companies or individuals providing services and does not have formal written bidding policies and procedures. Supporting documentation was not maintained for numerous disbursements. The board minutes do not specifically reflect approval of monthly expenditures and the board and Mayor generally do not review and approve individual invoices for payment. Federal and state payroll taxes were not paid on a timely basis and some taxes totaling \$46,132 have not been paid.

3. Budgets and Financial Reports (pages 13-14)

The city did not prepare or retain budgets for fiscal years 2000 and 1999. The city did not submit annual financial reports for the fiscal years ended June 30, 1999 and 1998, to the State Auditor's Office and semi-annual financial statements were not prepared and published or posted.

4. Sewer Operations (pages 14-16)

The city has not updated its sewer system repair and replacement plan, has not estimated related future costs, and has not maintained adequate funding in its repair and replacement accounts. The total cash balance of the sewer funds has decreased significantly in the last three years and restricted sewer monies have been used to pay expenses of other funds. The City Collector's duties are not properly segregated or independently reviewed and the city does not reconcile the sewer accounts monthly.

5. Minutes, Meetings, and Ordinances (pages 16-18)

The board minutes are not signed to indicate approval. The board does not always post notices of meetings and adequate meeting records are not maintained. The city does not have a formal written policy regarding public access to city records. The board did not hold a public hearing on the proposed property tax rate for 1998, and did not prepare or approve an ordinance establishing the approved tax levies as required by state law. Salaries of city officials and employees were not set by ordinance. Various city records were missing.

6. Community Oriented Policing Services (COPS) Grant (pages 19-20)

Documentation to support the calculation of amounts claimed on monthly reimbursement requests was not maintained and during the period of October 1997 through December 1999, the city over claimed approximately \$64,026 from the COPS grant. The city incorrectly reported disbursements from the COPS program on the quarterly financial status reports filed with the federal government.

7. Accounting Controls, Records, and Procedures (pages 20-22)

The city has not established a complete financial accounting system. The City Clerk, the Mayor, and the Collector have access to monies, but are not bonded and the City Clerk also serves as the City Treasurer. The Board of Aldermen has not established a formal policy on vacation leave, sick leave, and compensatory time and time records are not adequately reviewed or maintained. The city does not perform bank reconciliations and the city's accounting records have numerous errors and lack detailed information.

8. Street Maintenance Plan (pages 22-23)

The city does not have a formal maintenance plan for city streets.

9. Property Records (pages 23-24)

The city does not maintain fixed asset records or take an annual physical inventory of all city-owned property.

10. Restricted Property Tax Revenue (pages 24-25)

The city failed to deposit \$39,505 in property tax receipts into the Road Bond Debt Service Fund. The city has not developed a policy regarding allowable uses of the parks property tax and has used the money for items other than funding parks.

11. Municipal Court Division (pages 25-28)

The Court Clerk's duties are not adequately segregated, court receipts are not deposited to the city's general bank account on a timely basis, and the Court Clerk does not perform bank reconciliations on the Judicial Education Fund and the Bond accounts. Checks and money orders are not restrictively endorsed until the deposit is prepared. The Court Clerk's petty cash fund is not maintained on an imprest basis. Bond receipts are not deposited to the court's bank account on a timely basis, bond receipt slips are hand numbered when issued and monthly listings of open items (liabilities) are not regularly prepared and reconciled. Neither the police department nor the court maintains adequate records to account for all traffic tickets and summonses issued by the police department.

CITY OF OLYMPIAN VILLAGE, MISSOURI  
MANAGEMENT ADVISORY REPORT

|           |   |
|-----------|---|
| <b>1.</b> | <b>Financial Oversight and Monitoring</b> |
|-----------|---|

Inadequate oversight and monitoring by the Board of Aldermen, inadequate records and procedures, significant employee turnover, accounting errors, and improper uses of restricted monies have all contributed to a serious financial situation for the city.

Due to inadequate cash balances in some funds throughout the last two years, the city has at times paid bills from whichever funds had money available. As noted elsewhere in this report, the city has used restricted park tax monies and restricted sewer monies for payment of expenditures of the General, Police, Road, and Road Bond Debt Service Funds. A significant amount of money is due to the state and federal governments for unpaid payroll taxes and excess reimbursements claimed on the city's COPS grant; and monies are owed to the Road Bond Debt Service Fund from the General Fund, Parks and Building Fund, and Road Fund due to an error in depositing property tax receipts in fiscal year 1998. Correcting these issues will further strain the various operating funds of the city.

Inadequate records and procedures, some of which were similarly noted in our prior report dated March 18, 1991, have inhibited the board's ability to effectively monitor and manage the city and have resulted in or contributed to the problems noted above. These weaknesses included the absence of budgets and other financial reports, the lack of bank reconciliations, numerous errors and inadequate detail in accounting records, the lack of supporting documentation for numerous disbursements, and inadequate segregation of accounting duties or review of work performed.

The Board of Aldermen should review disbursements, reducing discretionary spending as much as possible, and ensure adequate revenues exist to fund the necessary core city services. These plans should be formalized in a detailed annual budget. In addition, the board should ensure adequate accounting records and an effective system of accounting and administrative controls are in place, including an effective financial reporting system and procedures to frequently monitor budgeted and actual activity. The specific recommendations contained in the following MARs, if implemented, will help establish these records, controls, and procedures. The weaknesses noted throughout our report must be corrected to achieve the required level of accountability, to more effectively use the city's resources, and to reestablish the public's confidence in its city government.

**WE RECOMMEND** the Board of Alderman review the current financial condition of the city's funds and consider the various alternatives of reducing disbursements and/or increasing receipts. In addition, the board should ensure adequate budgets and financial records are prepared and maintained in the future, and adequate controls and procedures are in place to properly oversee city operations.

## **AUDITEE'S RESPONSE**

*We agree. We have already begun reviewing the financial condition and will continue to do so.*

|                        |
|------------------------|
| <b>2. Expenditures</b> |
|------------------------|

- A. The city does not have formal written agreements with several companies or individuals providing services. The following disbursements were made without written contracts:

|                      |          |
|----------------------|----------|
| Sewer operator       | \$22,537 |
| Sewer repair service | 11,673   |
| Dispatch service     | 1,990    |
| Municipal judge      | 1,100    |
| City attorney        | 210      |
| City prosecutor      | 1,550    |
| Accounting services  | 7,938    |
| Legal services       | 9,868    |

The Mayor stated that the city had signed an agreement with the sewer operator for the fiscal year ended June 30, 1999 but the documentation could not be located. The city pays the sewer operator a monthly fee to operate the sewer plant and a separate grinder pump overhaul fee for each grinder pump he overhauls. The city has initiated a contract with the sewer operator for fiscal year 2000.

Section 432.070, RSMo 1994, requires political subdivisions' contracts be in writing. Formal written agreements are necessary to document each party's duties and responsibilities.

- B. The city does not have a formal bidding policy. As a result, the decision of whether to solicit bids for a particular purchase is made on an item-by-item basis. Although it appears the city did solicit bids for some purchases, bids were either not solicited or bid documentation was not retained for the following expenditures:

|                               |           |
|-------------------------------|-----------|
| Grinder pump station/supplies | \$ 10,706 |
| Diesel parts and service      | 8,376     |
| Road shed construction        | 14,954    |
| Fence for road shed           | 5,915     |
| Sewer plant mixer - rebuild   | 3,600     |
| Paving streets                | 266,700   |
| Backhoe                       | 17,400    |

Formal bidding procedures for major purchases provide a framework for economical management of city resources and help ensure the city receives fair value by contracting with the lowest and best bidders. Competitive bidding also helps ensure all parties are given equal opportunity to participate in the city's business. Bids can be handled by telephone quotation, by written quotation, by sealed bid, or by advertised sealed bid. Various approaches are appropriate, based on dollar amount and type of purchase. Whichever approach is used, complete documentation should be maintained of all bids received and reasons noted why the winning bid was selected.

- C. Supporting documentation was not maintained for numerous disbursements made by the city. Various payments for audit services, sewer work, police supplies, insurance, car repairs, legal services, pole barn construction, and a new sludge bed had no invoice or other documentation to support the payments. Payments reviewed totaling approximately \$71,000, had no invoice maintained by the city. In addition, other invoices were not adequately detailed to support the work performed.

All disbursements should be supported by paid receipts and/or complete vendor-provided invoices to ensure the obligation was actually incurred and the disbursement represents an appropriate use of public funds. The city should require detailed invoices for all services which include the number of hours worked by day, the work performed, and the hourly rate charged.

- D. Although there is an occasional reference to a specific expenditure being approved for payment, the board minutes usually only make a general reference that expenditures are approved for payment. The board and the Mayor generally do not review and approve individual invoices for payment and a supplementary listing of all disbursements is not prepared to accompany the minutes. In addition, there is no independent reconciliation of the invoices and actual checks written.

To adequately document the board's review and approval of all disbursements, a complete and detailed listing of bills should be prepared, signed or initialed by the board to denote their approval, and retained with the official minutes. In addition, supporting documentation should be reviewed by the board or someone independent of the disbursement process before payment is made to ensure all disbursements represent valid operating costs of the city.

- E. The city failed to remit required payroll taxes timely and failed to pay some months entirely. The city uses a local Certified Public Accountant (CPA) to calculate payroll and the related payroll taxes. The CPA notifies the city of the amounts of payroll taxes from each fund to remit to the Internal Revenue Service (IRS) and Missouri Department of Revenue (DOR). The CPA also prepares and submits the quarterly withholding reports to the IRS and DOR.

The city's normal policy is to deposit federal payroll taxes with a local bank monthly for transmission to the IRS and to remit state payroll taxes directly to the DOR quarterly. For the period January 1998 through November 1999, numerous payments of taxes were paid late or not paid at all. Payments of quarterly taxes to the DOR were made ten weeks to six months after the quarter to which the payments related, or not at all. In addition, payments of federal taxes were sporadic and were made for only eleven of the twenty-three months in that period.

As of December 31, 1999, state withholding taxes totaling \$2,832 for the two quarters ended September 30, 1999 still had not been paid and federal withholding taxes totaling approximately \$43,300 for the period January 1998 through November 1999 were owed to the IRS. Approximately 82% of these monies is due from the General and Police Funds, 16% from the Road Fund, and 2% from the Sewer Fund.

Good business practices, and federal and state regulations, require the city to make timely deposits of tax withholdings to avoid unnecessary penalties and interest.

Conditions A, B, and C were also noted in our prior report.

**WE RECOMMEND** the Board of Aldermen:

- A. Enter into written agreements for all services.
- B. Establish a formal bidding policy regarding the procurement of goods and services. Such a policy should require that competitive bids be solicited through advertising for any purchases over an established amount and that quotation bids be solicited for purchases over a lesser amount. In addition, complete documentation of the bidding process should be maintained, including bid specifications and bid forms, all bids received, and documentation of the justification for selecting and rejecting bids.
- C. Ensure all disbursements are supported by paid receipts and/or vendor-provided invoices which contain an adequate description of the goods or services received.
- D. Approve all invoices prior to payment and ensure the approval of all disbursements is adequately documented by including a listing of all approved disbursements in the board minutes.
- E. Ensure the required payroll tax deposits are made in a timely manner.

**AUDITEE'S RESPONSE**

- A. *We agree and will try to implement this recommendation for currently contracted services within two months.*

*B. We agree and have already begun working on a bid policy. We will ensure that bid documentation is retained.*

*C&D. We agree and will implement immediately.*

*E. We agree and have already begun paying back taxes to the IRS and DOR.*

|   |
|---|
| <b>3. Budgets and Financial Reports</b> |
|---|

- A. The city did not prepare a budget for the fiscal year ended June 30, 1999. In addition, while board minutes indicate a budget was adopted for the fiscal year ended June 30, 2000, the city could not locate a copy of the budget. Section 67.010, RSMo 1994, requires the preparation of an annual budget which shall present a complete financial plan for the ensuing budget year. Section 67.080, RSMo 1994, provides that no expenditure of public monies shall be made unless it is authorized in the budget. The failure to prepare budgets has been a significant contributing factor to many of the city's problems.

Sections 67.010 to 67.080, RSMo 1994, set specific guidelines for the format, approval, and amendments of the annual operating budget. A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific cost and revenue expectations for each area of city operations and provide a means to effectively monitor actual costs and revenues. It will also assist in setting tax levies and informing the public about the city's operations and current finances. A complete budget should include separate receipt and disbursement estimations by fund, and include the beginning available resources and reasonable estimates of the ending available resources. The budget should also include a budget message and comparisons of actual receipts and disbursements for the two preceding years.

This condition was also noted in our prior report.

- B. The city did not submit annual financial reports for the fiscal years ended June 30, 1999, and 1998, to the State Auditor's office pursuant to Section 105.145, RSMo 1994. The city should take care to ensure the annual reports required by state law are submitted to the State Auditor's office.
- C. The city has not published semi-annual financial statements as required by state law. The city published financial statements for the three months ended September 30, 1998 on April 1, 1999. The city has not published any other financial statements for the 1999 and 1998 fiscal years.

Section 79.160, RSMo 1994, requires the Board of Aldermen to prepare and publish semi-annually, a full and detailed account of the receipts, expenditures, and indebtedness of the city. Complete and accurate financial statements are necessary to keep the citizens informed of the financial activity and condition of the city. In addition, Section 79.165, RSMo 1994, states the City Treasurer cannot legally disburse funds until the financial statement is published.

**WE RECOMMEND** the Board of Aldermen:

- A. Prepare and adopt annual budgets as required by state law.
- B. Ensure that annual financial reports are filed with the State Auditor's office.
- C. Ensure semi-annual financial statements are published or posted in accordance with state law.

**AUDITEE'S RESPONSE**

- A. *We agree and will prepare a budget for the next fiscal year starting July 1, 2000.*
- B. *We agree and will comply for the next fiscal year.*
- C. *We agree and have now published financial statements for the six months ended December 31, 1999.*

|                            |
|----------------------------|
| <b>4. Sewer Operations</b> |
|----------------------------|

The city installed a sewer system and sewage treatment plant in 1983, which was funded through federal and state grants and the issuance of sewer system revenue bonds. The final payment on the revenue bonds was made in the Spring of 1998. Our review noted the following concerns:

- A. The city does not have a current repair and replacement plan for the sewer system and treatment plant and has not estimated related future costs.

As required by the initial grants and revenue bond covenants, in 1983 the city adopted ordinance No. 123. That ordinance required the establishment of several specific restricted accounts for the operation, maintenance, repair and replacement of the system and for the payment of bond principal and interest. The ordinance also established the methodology for annually establishing the monthly user fees and the required contributions to the above accounts based on a 20 year repair and replacement schedule, which was also part of the ordinance and which was to be updated as needed. Sewer user fees have remained unchanged for many years.

During the past two years the city has spent a significant amount of money set aside for replacement and repair, to replace a sludge bed and repair a sewer plant mixer and numerous grinder pumps. The city does not know whether significant additional repairs will be needed in the next few years. As of June 30, 1999 the city had used most of its repair and replacement monies and had virtually no funds set aside for such future costs. In addition, with the city's current financial condition, it is unclear when the city will be able to repay the Sewer Fund for general and road expenses paid from these restricted monies (see Part B. below).

The city needs to update its repair and replacement plan and ensure adequate funding is set aside to carry out the plan, including possibly raising fees or planning for an additional bond issue. An updated repair and replacement plan, with anticipated timetables and estimated costs, would serve as a useful management tool and provide greater input into the overall budgeting process. Such a plan provides a means to continually and more effectively monitor and evaluate adequacy of funding and the progress made in the repair and replacement of sewer system components throughout the year.

- B. The total cash balance of the various sewer funds has decreased from approximately \$132,000 at July 1, 1996 to approximately \$4,500 at June 30, 1999.

During fiscal years 1997 and 1998, sewer expenses (including bond principal and interest payments) exceeded receipts by approximately \$22,000 and \$55,000, respectively, and sewer expenses for both 1999 and 1998 were significantly higher than in 1997. In addition, during fiscal year 1999, approximately \$49,000 of restricted sewer monies, including proceeds of a \$29,000 certificate of deposit, were transferred to the General Fund and Road Fund to pay operating expenses and debt service on a general obligation road bond. Also, some expenses of other funds were paid directly out of the restricted sewer accounts.

Of the \$132,000 balance at July 1, 1996, approximately \$122,000 represented monies set aside in repair and replacement accounts. As of June 30, 1999, only \$1,116 remained in the repair and replacement accounts. These monies which were set aside for long-term repair and replacement needs, as noted in part A, were apparently used to also fund normal sewer system operating costs and sewer bond payments, as well as the road bond payment noted above.

The Board of Aldermen should ensure that restricted sewer monies are spent only on their intended purpose. The board needs to repay the sewer funds for any monies used to pay the expenses of other funds or which were inappropriately transferred to other funds. The board needs to set sewer rates at a level to ensure monthly receipts are sufficient to pay required current operating costs, as well as any amounts needed for future repairs as identified in the repair and replacement plan discussed in part A above.

- C.1. The City Collector prepares sewer billings, collects related receipts, and maintains sewer subsidiary accounts receivable records. These duties should be segregated to allow for a system of checks and balances. If proper segregation of duties cannot be achieved, at a minimum, there should be an independent review of the Collector's records.
- 2. The city does not reconcile beginning accounts receivable plus monthly billings, less total utility payments and adjustments, to the ending accounts receivable. The individual customer account balances could then be totaled and agreed to the ending accounts receivable balance. This would help to ensure all amounts have been properly recorded to individual customer account records and that delinquent balances are accurate.

Conditions similar to C.1. and 2. were noted in our prior report.

**WE RECOMMEND** the Board of Aldermen:

- A. Prepare a repair and replacement plan for the city sewer system and periodically update the plan. The board should review the progress made in the repair and replacement of sewer system components to make appropriate decisions on future projects and to ensure adequate funding exists to carry out the plan.
- B. Repay the sewer funds for any sewer monies spent for unrelated purposes. The board should review and set rates to provide an adequate level of funding to operate, maintain, and repair the system.
- C.1. Segregate the duties of the City Collector and/or establish a periodic review of the Collector's accounting records by an independent person.
- 2. Require the City Collector to maintain records documenting beginning accounts receivable, plus billings, less payments and adjustments, and ending accounts receivable and periodically reconcile the individual customer accounts receivable balances to the ending accounts receivable balance.

**AUDITEE'S RESPONSE**

- A. *We agree; however, this will be a major project that cannot be performed immediately.*
- B. *We agree and will develop a plan to implement this recommendation in the future.*
- C. *We agree and will look into adopting a plan to address these issues at our next meeting.*

- A. The board minutes are prepared by the City Clerk; however, they are not signed by the Mayor, the Clerk, or any of the board members.

The board minutes should be signed by the Clerk, and the Mayor, or a designated member of the board, to provide an independent attestation that the minutes are a complete and correct record of the matters discussed and actions taken during the board meetings.

- B. The city holds its regular meetings on the third Monday of each month. However, notices of the date and time of the board meetings and agendas were not published or publicly posted as required by law.

Section 610.020, RSMo 1994, requires all public governmental bodies to give advance notice of their meetings. This notice is to include the time, date, and place of the meeting, as well as the tentative agenda. The notice is required to be posted at the principal office of the city or the building in which the meeting is to be held.

- C. The board meeting minutes did not always include sufficient detail of matters discussed, actions taken, and votes recorded. For example, in September, 1998, an individual was suspended with pay from the police force, but the minutes did not include any documentation of this action. In addition, minutes could not be located for January 1999.

Section 610.020, RSMo, requires minutes of meetings be taken and retained by all governmental bodies and to include the date, time, place, members present, members absent, and a record of votes taken. Complete and accurate minutes of the board's meetings are necessary to retain a record of the business conducted and to provide an official record of board actions and decisions. If a scheduled meeting is not held, minutes of the next regular meeting should so indicate.

- D. The city has not formally established a policy regarding public access to city records. A formal policy regarding access to and copies of city records would establish reasonable guidelines for the city to make the records available to the public. This policy should establish a person to contact and an address to mail requests for access to records. Section 610.023, RSMo 1994, lists requirements of making city records available to the public.

- E. In 1998, a public hearing was not held prior to establishing the property tax rates and an ordinance was not prepared to document the approved tax rates to be levied. Section 67.110, RSMo 1994, requires a public hearing be held on proposed rates of tax prior to the board's approval of the rate. Also, Section 94.210, RSMo 1994, states the Board of Aldermen shall fix the annual rate of tax levy by ordinance for each tax year.

- F. Salaries of city officials and employees are set during open board meetings, but are not set by ordinance.

Section 79.270, RSMo, requires the Board of Aldermen to fix the salaries of all city officials and employees by ordinance.

This concern was noted in our prior report.

- G. Various city records were missing, including ordinances, invoices, bank statements, canceled checks, bids, and bond covenants.

Retention of city records is essential to establishing accountability for city financial activity and in demonstrating compliance with state law. Effective control of records requires all documents and records be safeguarded against loss due to fire or theft, be accessible to the appropriate city officials/employees, and upon reasonable request, be accessible to the public.

**WE RECOMMEND** the Board of Aldermen:

- A. Ensure all board minutes are properly signed to attest to their accuracy.
- B. Ensure notices of the board meetings are posted in accordance with state law.
- C. Ensure complete and accurate minutes of the board's meetings are maintained, all significant discussions, actions taken, and information required by state law are included, and canceled meetings are noted.
- D. Establish formal written policies and procedures regarding public access to and/or copies of city records.
- E. Hold a public hearing on proposed property tax rates as required by state law and establish the annual tax rates by ordinance.
- F. Fix the salaries of all city officials and employees by ordinance.
- G. Ensure all records of the city are properly retained and available for review.

**AUDITEE'S RESPONSE**

- A. *We agree and have already implemented this recommendation.*
- B. *We agree and have already begun posting notices of the meetings. We will implement posting the agendas for the future.*

*C&G. We agree and will implement immediately.*

*D. We agree and will devise a plan to address this as soon as possible.*

*E. We agree and will implement the recommendation when setting the next tax rates.*

*F. We agree and will devise a plan to address this recommendation in the future.*

|   |
|---|
| <b>6. Community Oriented Policing Services (COPS) Grant</b> |
|---|

The city receives federal financial assistance from the U.S. Department of Justice under the COPS Universal Hiring program to hire law enforcement officers. In April 1997, the city received a grant award of \$254,347 to hire five full-time officers. Under the grant provisions, the city is required to provide 25 percent of the cost of employing the officers until the grant expires in April 2001. The city began hiring officers in October 1997.

- A. Documentation to support the calculation of amounts claimed on monthly reimbursement requests was not maintained and the city claimed more costs than allowable. For program expenses from October 1997 through December 1999, the city requested and received \$214,291 in grant reimbursements. However, based on the grant budget, payroll records, and documented fringe benefits, the federal share of allowable salary and fringe benefit expenditures was only approximately \$150,265 for that period. This amount does not include some approved fringe benefit categories for which the city could not document expenditures. Therefore, it appears the city owes approximately \$64,026 to the Department of Justice for excess reimbursements received through December 1999.

Without documentation to identify the amounts claimed on the monthly reimbursement requests, it is not clear how the expenditures claimed were calculated. Part of the excess appears to be a result of police officers being paid salaries greater than those approved in the grant agreement. Any salary or fringe benefits in excess of that approved in the grant agreement must be paid entirely by the city. In addition, as noted at MAR No. 7, the city did not always maintain timesheets or other records to support salary amounts paid.

The city should request reimbursement for only actual, allowable expenses incurred, less the required amount of matching funds, and should ensure adequate documentation is retained to support amounts claimed. The Board of Aldermen should contact the federal grantor agency to resolve these issues.

- B. The grant requires the city to submit quarterly reports identifying the monies spent and how much was paid with local funds. The city incorrectly reported expenditures on these reports and the reports did not always agree to expenditures shown on the monthly reimbursement requests. According to the Mayor, he prepared the quarterly reports by calculating and reporting qualified police salaries and benefits; however, he indicated he did not retain documentation of his calculations. The city should prepare accurate quarterly reports of qualified expenses as required by the grant agreement and retain applicable supporting documentation.

**WE RECOMMEND** the Board of Aldermen:

- A. Ensure reimbursement is requested for only allowable actual expenditures per the COPS budget. The city should recalculate and correct prior reimbursement claims and repay any excess reimbursements received.
- B. Prepare accurate quarterly financial reports for the COPS grant and retain documentation to support the reported expenditures.

**AUDITEE'S RESPONSE**

- A. *We agree. We have suspended this grant indefinitely. We have contacted the federal program administrator regarding these grant monies.*
- B. *We agree with this recommendation and will retain appropriate documentation for any future grants.*

|  |
|--|
| <b>7. Accounting Controls, Records, and Procedures</b> |
|--|

- A. The city has not established a complete financial accounting system. An income report is prepared by the City Collector for the various monies received and the City Clerk records deposits, checks issued and cash balances in various check registers. But receipts and disbursements are not classified and monthly summary reports are not prepared of receipt and disbursement categories.

Summaries showing revenue sources and expenditure types should be prepared for each fund on a monthly basis and should be used for comparison to budgeted amounts and overall review of city operations.

Complete, organized, and timely accounting records are necessary to provide accurate and timely financial information to city officials upon which effective management decisions may be made.

- B. The city has one person that serves as the City Clerk and the City Treasurer. The duties of this official include maintaining disbursement records, preparing and signing checks, and receiving bank statements.

Neither the board nor other personnel independent of the cash custody and the record-keeping functions provide adequate supervision or review of the work performed by the City Clerk.

Attorney General's Opinion No. 24, 1955 to Dodds, concluded that in a fourth-class city the holding of the positions of City Clerk, City Treasurer, and City Collector, or any two of these three offices, by the same person at the same time would be incompatible.

Holding two of these offices does not allow the separation of duties necessary for a proper evaluation and review of financial transactions. The current procedures jeopardize the system of independent checks and balances intended by state law.

This condition was also noted in our prior report.

- C. The City Clerk, the Mayor, and a designated alderman are authorized to sign checks. Although dual signatures are required on each check, they are not bonded. The City Collector receive city funds; however she is also not bonded. Failure to properly bond individuals who have access to funds exposes the city to risk of loss.

- D.1. The city has not established a formal policy for vacation, sick leave, and compensatory time. The Mayor had been unofficially tracking leave balances at the rate of two hours earned per week for vacation leave and one hour per week for sick leave, less any leave taken. However, the Mayor's records for leave taken were not supported by timesheets prepared by employees.

A written leave policy for all employees is necessary to properly compensate for leave earned and taken, to ensure equitable treatment among employees, and to prevent potential misunderstandings.

2. Time records are not adequately reviewed or maintained. Time records were informally kept by city employees, but were not submitted to the Mayor or the board for review and approval. In addition, when asked, the city could not locate the October 1998 time records. To ensure the propriety of salary expenditures and leave taken and earned, adequate time records, signed by employees and reviewed and approved by supervisors, should be maintained.

- E. The city does not perform periodic bank account reconciliations. The city relied upon its accounting firm to perform bank account reconciliations on a three month cycle; however the accounting firm had not performed such reconciliations since December 31, 1998.

We performed bank reconciliations as of June 30, 1999 and noted numerous errors and omissions made in recording transactions to the city's check registers. The city incorrectly recorded several deposits to the wrong account and did not record some deposits at all.

In addition, the city failed to record in the check registers many bank charges as well as many checks issued. The entries for some checks did not reflect adequately detailed information such as the payee, check number, check date, and/or purpose. Because of bookkeeping errors, the city overdrew its account and incurred bank charges totaling \$509.

The city should take more care to ensure transactions are recorded completely and accurately. Monthly bank account reconciliations should be prepared to ensure that all accounting records balance, transactions have been properly recorded, and any errors or discrepancies are detected on a timely basis. Complete documentation of the reconciliation should be retained to support conclusions and any corrections made to facilitate independent reviews.

**WE RECOMMEND** the Board of Aldermen:

- A. Ensure that a complete financial accounting system is established including summaries documenting monthly revenue sources and expenditure types. This information should be used to compare to budget estimates and monitor city operations.
- B. Provide for an adequate segregation of duties. If this is not possible, at a minimum, procedures for adequate independent review of accounting records should be established.
- C. Consider obtaining bond coverage for all individuals handling city monies.
- D.1. Establish a written policy and centralized records regarding vacation, sick leave, and compensatory time.
  - 2. Require all employees to complete a time sheet. Time sheets should be submitted to a supervisor for approval, and maintained on file.
- E. Ensure monthly bank reconciliations are performed and any differences resolved.

**AUDITEE'S RESPONSE**

- A. *We agree and will devise a plan to implement this in the future.*
- B. *We agree and will establish oversight as soon as possible.*
- C&E. *We agree and have already implemented these recommendations.*

- D.1. *We agree and will devise a plan to address these issues.*
2. *We agree and will implement a formal time activity sheet immediately.*

|                                   |
|-----------------------------------|
| <b>8. Street Maintenance Plan</b> |
|-----------------------------------|

A formal maintenance plan for city streets has not been prepared. The city spent \$147,000 of its road bond proceeds in September 1997 to pave several city streets. In October 1999, the city also spent \$120,000 of capital improvement sales tax money allocated to it by Jefferson County to pave additional streets. This paving work was performed without a master plan for future street work in the city and a public hearing was not held to obtain input from city residents. In addition, the city had no documented reasons for choosing these streets rather than other streets in the city which are in poor condition.

A maintenance plan should be prepared in conjunction with the annual budget and include a description of the streets to be worked on, the type of work to be performed, an estimate of the quantity and cost of materials needed, the dates such work could begin, the amount of labor required to perform the work, and other relevant information. The plan should be referred to in the budget message and be approved by the board. In addition, a public hearing should be held to obtain input for the plan from city residents.

A formal maintenance plan would serve as a useful management tool and provide greater input into the overall budgeting process. Such a plan provides a means to more effectively monitor and evaluate the progress made in the repair and maintenance of streets throughout the year.

**WE RECOMMEND** the Board of Aldermen prepare a formal maintenance plan for city streets at the beginning of the fiscal year and periodically update the plan throughout the fiscal year. In addition, the board should review the progress made in the repair and maintenance of streets to make appropriate decisions on future projects.

**AUDITEE'S RESPONSE**

*We agree and will research a master road plan for consideration with the next budget for the fiscal year beginning on July 1, 2000.*

|                            |
|----------------------------|
| <b>9. Property Records</b> |
|----------------------------|

The city has not prepared and maintained permanent, detailed property records for general fixed assets, including the cost of land, buildings, equipment, and furniture owned by the city. In addition,

the city has not prepared and maintained permanent, detailed property records for the sewer system. Also, annual physical inventories are not performed.

Property records for general fixed assets are necessary to ensure accountability for all items purchased and owned and for determining the proper amount of insurance coverage.

To develop appropriate records and procedures for general fixed assets and the fixed assets of the sewer system, the city needs to undertake a comprehensive review of all property owned by the city. Assets should be counted, tagged for specific identification, and recorded by description and serial number in a detailed property ledger at historical cost or estimated historical cost if the original cost is not available. The city should properly record all fixed asset transactions, and ensure the accuracy of the recorded fixed assets. Periodically, the city should take physical counts of its assets and compare them to the detailed records.

This concern was noted in our prior report.

**WE RECOMMEND** the Board of Aldermen establish property records for general fixed assets and the fixed assets of the sewer system that include all pertinent information for each asset, such as tag number, description, cost, acquisition date, location, and subsequent disposition. In addition, annual physical inventories should be performed.

#### **AUDITEE'S RESPONSE**

*We agree and have already asked our city employees to establish such records.*

**10.**

#### **Restricted Property Tax Revenue**

- A. In 1997, the board began levying a tax for the Road Bond Debt Service Fund. The city also levies taxes for the General Fund, Parks and Building Fund, and Road Fund. Until July 1998, the city did not allocate any of the property tax receipts to the Road Bond Debt Service Fund.

Property tax receipts totaling \$39,505 were collected for the Road Bond Debt Service Fund, but deposited as follows:

| Fund                    | Amount           |
|-------------------------|------------------|
| General Fund            | \$ 19,355        |
| Parks and Building Fund | 10,075           |
| Road Fund               | 10,075           |
| Total                   | \$ <u>39,505</u> |

Road Bond Debt Service Fund tax receipts are restricted for use in servicing the debt of bonds the city has issued. Because \$30,405 of the debt service payments were made from the Road Fund, the General Fund and Parks and Building Fund need to repay the Road Fund and Road Bond Debt Service Fund. Property tax receipts were deposited in the proper funds beginning in July 1998.

- B. The city received \$3,555 and \$3,424 in park property tax receipts during the fiscal years ended June 30, 1999 and 1998, respectively. While it appears this special purpose tax has been levied by the city for a number of years, the city does not have a copy of an original ballot, an ordinance, or a formal policy defining the allowable uses of these monies.

The monies generated by this tax have been used by the city for expenditures unrelated to parks. In addition, the city does not appear to have any developed park property. According to the city's financial statements, in fiscal year 1998 the city spent \$6,008 in park tax revenues for police wages, payroll taxes, legal and accounting services, insurance, and city hall operating expenses and transferred an additional \$8,062 to the General Fund. There were no expenditures during fiscal year 1999. Sections 90.010 and 90.500, RSMo 1994 both allow the city to establish a property tax for the establishment and maintenance of public parks. While it is unclear under which authorizing section of state law this property tax was established, the property taxes are restricted to be used to establish and maintain public parks.

The city should develop a policy regarding the type of allowable expenses to be paid from this fund and ensure the policy is in compliance with state law. In addition, the \$14,070 spent for or transferred to, the General Fund should be returned to the Park Fund and used for the purpose levied.

**WE RECOMMEND** the Board of Aldermen:

- A. Transfer \$19,355 to the Road Fund from the General Fund and transfer \$9,100 to the Road Bond Debt Service Fund and \$975 to the Road Fund from the Parks and Building Fund.

- B. Develop a policy to ensure any restricted revenues are used only for the purposes intended and in compliance with state law. The city should transfer \$14,070 to the Park Fund from the General Fund.

**AUDITEE'S RESPONSE**

- A. *We agree and will devise a plan to repay these amounts; however, we cannot commit to a timetable for repayment.*
- B. *We agree and will adopt a policy as soon as possible to ensure the money is paid back.*

|                                     |
|-------------------------------------|
| <b>11. Municipal Court Division</b> |
|-------------------------------------|

- A. The duties of receiving, recording, and depositing monies collected by the municipal division are not adequately segregated. Currently, the Court Clerk performs all these duties. To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls could be improved by segregating the duties of receiving monies from that of recording receipts and depositing court monies. If proper segregation of duties cannot be achieved, at a minimum, there should be an independent review of the Court Clerk's accounting records.
- B. Fine and court cost receipts are not deposited into the city's bank account on a timely basis. Deposits are made approximately once a month and average in excess of \$4,000. To adequately safeguard receipts and reduce the risk of loss or misuse of funds, deposits should be made daily or when accumulated receipts exceed \$100.
- C. No bank reconciliations are performed on the two bank accounts (Judicial Education Fund and Bond) in the custody of the Court Clerk.

Monthly reconciliations should be prepared to ensure that all accounting records balance, transactions have been properly recorded, and any errors or discrepancies are detected on a timely basis. Complete documentation of the reconciliation should be retained to support any corrections made and to facilitate independent reviews.

- D. Checks and money orders are not restrictively endorsed until the deposit is prepared. To reduce the potential for loss, theft, or misuse of funds, checks and money orders should be restrictively endorsed immediately upon receipt.
- E. The Court Clerk maintains a petty cash fund for small expenditures such as postage. The petty cash fund is not maintained on an imprest basis, but is replenished in varying amounts by the city whenever it gets low. The amount replenished is not based on amounts spent

from the fund. As a result, the fund balance changes each time the fund is replenished and accountability is more difficult to maintain.

F. During our review, we noted the following concerns relating to bonds:

- 1) Bond receipts are not deposited to the court's bank account on a timely basis. Our review noted instances where bond receipts in excess of \$100 were held over one month before being deposited. To adequately safeguard bond receipts and reduce the risk of loss or misuse of funds, deposits should be made daily or when accumulated receipts exceed \$100.
- 2) Prenumbered receipt slips are not issued for bond monies. The receipt slips issued are not specifically printed for the court and are hand numbered prior to use. To properly account for all receipts and ensure they are properly deposited, official prenumbered receipt slips should be issued for all monies received, reconciled to the composition of monies received and deposited, and the numerical sequence accounted for properly.
- 3) Monthly listings of open items (liabilities) are not prepared and reconciled to the balance of the bond account.

To ensure that receipts and disbursements are properly handled and monies held in trust by the municipal court division are sufficient to meet liabilities, open-items listings should be prepared monthly and reconciled to the cash balance.

G. Neither the police department nor the court accounts for the numerical sequence or the ultimate disposition of traffic tickets and summonses issued. The Court Clerk logs the tickets and summonses as she receives them from the police department, however, she does not review for missing tickets and summonses. Accounting for the numerical sequence of the tickets and summonses would ensure all tickets and summonses issued were properly submitted to the court for processing, properly voided, or not prosecuted. A record of the ultimate disposition of each ticket and summonses should also be maintained to ensure all tickets and summonses have been accounted for properly.

Conditions similar to parts A, B, D, F.1., and G. were also noted in our prior audit report on the municipal division.

**WE RECOMMEND** the Municipal Division:

- A. Properly segregate duties between available employees and/or establish a periodic review of municipal division records by an independent person.
- B. Deposit monies daily or when accumulated receipts exceed \$100.

- C. Perform monthly bank reconciliations.
- D. Restrictively endorse checks and money orders immediately upon receipt.
- E. Maintain the petty cash fund on an imprest basis.
- F.1. Ensure bond receipts are deposited daily or when accumulated receipts exceed \$100.
  - 2. Issue prenumbered receipt slips for all monies collected, account for their numerical sequence, and reconcile the composition of monies collected and deposited to the receipt slips.
  - 3. Prepare and retain a monthly open-items listing and reconcile this listing to the bond account.
- G. Work with the police department to account for the numerical sequence of traffic tickets and summonses issued.

### **AUDITEE'S RESPONSE**

*The Municipal Judge and Court Clerk responded as follows:*

- A. *The City Clerk already checks ledger receipts on money taken in at the court, as well as before and after court. The City Prosecutor has agreed to make periodic reviews of municipal records.*
- B. *The Court Clerk will now make deposits at least once a week if money collected exceeds \$100.*
- C. *The Court Clerk will now make monthly reconciliations of the Court bank accounts.*
- D. *Checks received by the Court are now immediately endorsed by the Court Clerk, and the Court Clerk will continue to do so.*
- E. *Petty cash has now been set at a flat amount and any money disbursed by the Court Clerk has receipts for any said disbursement. The Court Clerk will reimburse back to the established petty cash level when needed.*
- F.1. *Bonds will be deposited within 3 days of the receipt date on the envelope.*
  - 2. *The Court Clerk has now purchased, and in the future will purchase only, prenumbered receipt books for bond monies collected.*

3. *The Court Clerk now has an open-items listing on the bonds received. The Court Clerk will reconcile the bond account with the open bonds.*
- G. *The Court Clerk will request in writing, from the Police Chief, an accounting of any tickets that are missing out of sequence.*

This report is intended for the information of the management of city of Olympian Village and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

June 2000

The following audit report presents our findings and recommendations for certain municipal divisions of the Twenty-First Judicial Circuit. During our audit, we identified accounting records, controls, and certain management practices which we believe could be improved. The municipal divisions in which specific findings and recommendations were noted are listed below:

|                            |                    |

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON  
THE FINANCIAL STATEMENTS**

Presiding Judge  
and  
Municipal Judges  
Twenty-First Judicial Circuit

We have audited the accompanying special-purpose financial statements of the various municipal divisions of the Twenty-First Judicial Circuit as of and for the years ended June 30, 1999 and 1998, as identified by municipality and fiscal period in the table of contents. These special-purpose financial statements are the responsibility of the municipal divisions' management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

Except as discussed in the fourth paragraph, we conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of the municipal divisions of the Twenty-First Judicial Circuit and are not intended to be a complete presentation of the financial position and results of operations of the municipal divisions.

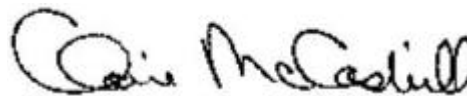

Internal controls and accounting records of the city of Velda City Municipal Division were inadequate. The municipal division did not adequately account for bond monies held in trust. As a result, we were unable to satisfy ourselves by appropriate audit tests or other means as to receipts and disbursements beyond amounts recorded in the municipal division's records for the years ended June 30, 1999 and 1998.

In our opinion, except for the effects, if any, on the financial statements of the matters discussed in the preceding paragraph, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of the municipal divisions of the Twenty-First Judicial Circuit as of and for the years ended June 30, 1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated February 24, 2000, on our consideration of the municipal divisions' internal controls over financial reporting and on our tests of their compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the municipal divisions' management and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

A handwritten signature in black ink, appearing to read "Claire McCaskill". The signature is written in a cursive, flowing style.

Claire McCaskill  
State Auditor

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

Presiding Judge  
and  
Municipal Judges  
Twenty-First Judicial Circuit

We have audited the special-purpose financial statements of the various municipal divisions of the Twenty-First Judicial Circuit as of and for the years ended June 30, 1999 and 1998, and have issued our report thereon dated February 24, 2000. That report expressed a qualified opinion on the special-purpose financial statements of the city of Velda City Municipal Division for the applicable fiscal periods. Except as discussed in the report on the financial statements of the municipal divisions referred to in the preceding sentence, we conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the special-purpose financial statements of the various municipal divisions of the Twenty-First Judicial Circuit are free of material misstatement, we performed tests of the municipal divisions' compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no material instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain other instances of noncompliance which are presented in the accompanying Management Advisory Report.

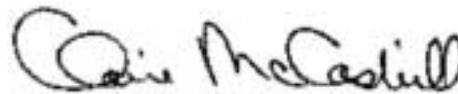

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of the various municipal divisions of the Twenty-First Judicial Circuit, we considered the municipal divisions' internal controls over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide

assurance on the internal controls over financial reporting. However, we noted certain matters involving the internal controls over financial reporting and their operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal controls over financial reporting that, in our judgment, could adversely affect the municipal divisions' ability to record, process, summarize, and report financial data consistent with the assertions of management in the special-purpose financial statements.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal controls over financial reporting would not necessarily disclose all matters in the internal controls that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we noted certain matters involving the internal controls over financial reporting and their operation that we consider to be material weaknesses, and these matters are presented in the accompanying Management Advisory Report.

This report is intended for the information of the management of the various municipal divisions of the Twenty-First Judicial Circuit and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

## Notes to the Financial Statements

TWENTY-FIRST JUDICIAL CIRCUIT  
MUNICIPAL DIVISIONS  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present only selected data for the funds administered by six municipal divisions of the Twenty-First Judicial Circuit of the state of Missouri. The remaining municipal divisions of the Twenty-First Judicial Circuit are reported on separately.

Receipts, disbursements, and changes in cash are presented for each municipal division. The operating costs of each division are paid by the respective municipality and are not included in these financial statements.

The municipal division is responsible for cash bonds posted until case disposition allows appropriate disbursement. Bond monies relating to pending cases, whether in the custody of the city or the municipal division, are included in these financial statements.

B. Basis of Accounting

The Statements of Receipts, Disbursements, and Changes in Cash are prepared on the cash basis of accounting; accordingly, amounts are recognized when they are received or disbursed. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Fiscal Authority and Responsibility

The municipal divisions account for fines and court costs resulting from prosecution of violations of municipal ordinances before the municipal judge or received through the traffic violations bureau, as well as cash bonds posted. Municipal violations could include traffic offenses, both moving and nonmoving; parking meter and overtime parking offenses; and other violations for which amounts are received by the municipal divisions and remitted to the city treasury. The municipal divisions also may account for restitutions received and disbursed through the divisions.

2. Cash

Section 479.080, RSMo 1994, requires municipal divisions to deposit fines and court costs into the city treasury at least monthly. The divisions do not maintain bank accounts, transmitting fines and court costs directly to the city treasury. Escrow bank accounts for bond monies received may be maintained by the city or the municipal division.

At June 30, 1999 and 1998, all bank account balances reported for the municipal divisions of the Twenty-First Judicial Circuit were entirely covered by federal depositary insurance.

However, because of significantly higher bank balances at certain times during the year ended June 30, 1999, uninsured and uncollateralized balances existed at those times although not at year end for the city of Velda City Municipal Division.

To protect the safety of deposits, Section 110.020, RSMo 1994, requires depositaries to pledge collateral securities to secure deposits not insured by the Federal Deposit Insurance Corporation.

3. Disbursements to State

The municipal divisions collect various amounts that must be remitted to the state of Missouri. These amounts include the surcharges for the Crime Victims' Compensation and Services to Victims Funds, and the Peace Officer Standards and Training Commission Fund. The state's portions of these amounts are deposited into the city treasury for all municipal divisions. Amounts remitted by the cities to the state are not included in the financial statements.

4. Village of Bel-Nor

The village of Bellerive Acres contracts with the village of Bel-Nor Municipal Division to collect all monies for its court. The receipts and disbursements of the village of Bellerive Acres Municipal Division are included in the village of Bel-Nor Municipal Division's financial statements.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Current Recommendations

TWENTY-FIRST JUDICIAL CIRCUIT  
MUNICIPAL DIVISIONS  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S CURRENT RECOMMENDATIONS

We have audited the special-purpose financial statements of the various municipal divisions of the Twenty-First Judicial Circuit as of and for the years ended June 30, 1999 and 1998, and have issued our report thereon dated February 24, 2000. That report expressed a qualified opinion on the special-purpose financial statements of the city of Velda City Municipal Division for the applicable fiscal periods.

The following Management Advisory Report presents our findings and recommendations arising from our audit of the municipal divisions' special-purpose financial statements. During our audit, we also identified certain management practices which we believe could be improved. Our audit was not designed or intended to be a detailed study of every system, procedure, and transaction. Accordingly, the findings presented in the following report should not be considered as all-inclusive of areas where improvements may be needed.

|           |  |
|-----------|--|
| <b>1.</b> | <b>Village of Bel-Nor Municipal Division</b> |
|-----------|--|

- A. The municipal division has not implemented procedures to follow up on bonds held for more than one year. An attempt should be made to determine the proper disposition of these monies. A review should be made of any bonds posted by persons who failed to make the required court appearance to determine if the bonds should be forfeited and monies paid over to the village treasury as provided by Section 479.210, RSMo 1994. For those bonds which cannot be forfeited and remain unclaimed, Sections 447.500 through 447.595, RSMo 1994, which relate to unclaimed property, should be used to disburse these monies.

- B. Monies collected for fine and court cost receipts are not deposited on a timely basis. Deposits are generally made once a week and average in excess of \$1,200. To adequately safeguard receipts and reduce the risk of loss or misuse of funds, deposits should be made intact daily or when accumulated receipts exceed \$100.

This condition was noted in our prior report.

- C. The duties of receiving, recording, depositing, and disbursing fine, court cost, and bond monies collected by the municipal division are not adequately segregated. Currently, the Court Clerk performs all of these duties. The village's accounting service prepares the monthly bank reconciliation for the bond account. To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Since this is an office of one employee and proper segregation of duties cannot be achieved, at a minimum,

there should be a documented independent comparison of receipt slips issued to amounts deposited.

This condition was noted in our prior report.

- D. The municipal division does not file a monthly report with the village of all cases heard in court. Section 479.080.3, RSMo 1994, requires the Court Clerk to prepare monthly reports of all cases heard in court, including fines and court costs collected, to be verified by the Court Clerk or Municipal Judge and filed with the Village Clerk.
- E. The municipal division did not always forward records of convictions on traffic offenses to the Missouri State Highway Patrol (MSHP). Three of nineteen applicable items reviewed were not sent to the MSHP as required. Section 302.225, RSMo Cum. Supp. 1999, requires records of “any pleas or findings of guilty” on traffic violations under the laws of the state, county, or municipal ordinance to be forwarded to the MSHP within ten days of the conviction date.

**WE RECOMMEND** the village of Bel-Nor Municipal Division:

- A. Follow up on all bonds held for more than one year and dispose of bonds in accordance with state law. Procedures should be established to routinely follow-up on cash bonds remaining on hand over a period of time.
- B. Deposit receipts daily or when accumulated receipts exceed \$100.
- C. Establish a documented review of municipal division records by an independent person.
- D. Prepare monthly reports of court actions and file these with the village in accordance with state law.
- E. Forward all records of convictions on traffic offenses to the MSHP within ten days as required by state law.

### **AUDITEE'S RESPONSE**

*The Municipal Judge and Court Clerk responded as follows:*

- A. *Since the time of the auditor’s visit, the Court Clerk has followed up on bonds held for more than a year by requesting the form from the State Treasurer’s Office in an attempt to dispose of said monies. A review has now been made of bonds posted by persons who failed to make the required court appearance and these have been turned over to the village treasury. The Court Clerk will review outstanding bonds monthly for those not disbursed.*

- B. *In an attempt to see that the deposits are made in a more timely manner, the Court Clerk will monitor receipts more frequently to determine if there are monies in excess of \$100.*
- C. *The receipt numbers of fines and court costs collected are now agreed and balanced to an income report showing the receipt numbers and amounts collected. There is also now a monthly bond deposit report which shows the receipt number with the date received, deposit date and amount posted. We will speak with the city about having an independent person to spot check income and receipts.*
- D. *The Court Clerk will immediately begin filing with the village an income report of the amounts of fines and court costs collected, along with the usual docket of all cases heard in court which will be verified by the Municipal Judge and filed with the Village Clerk.*
- E. *The Court Clerk does try to forward all convictions on traffic violations to the MSHP. The Court Clerk will now check weekly for convictions which need to be forwarded to MSHP.*

|           |  |
|-----------|--|
| <b>2.</b> | <b>City of Charlack Municipal Division</b> |
|-----------|--|

- A. Monthly listings of bond open items (liabilities) are not prepared. The municipal division did not maintain a bond ledger prior to 1997. Open items identified from the bond ledger at June 30, 1999 totaled \$3,507 less than the balance in the bond account. However, bonds prior to 1997 were not in the bond ledger and thus any open bonds prior to 1997 have not been included in that total. A monthly listing of open items is necessary to ensure proper accountability over open cases and to ensure monies held in trust by the city are sufficient to meet liabilities.

An attempt should be made to identify and determine the proper disposition of these excess monies. For those bonds which remain unclaimed, Section 447.595, RSMo 1994, requires bonds remaining unclaimed for one year after disposition of the case be turned over to the state's Unclaimed Property Section.

This condition was noted in our prior report.

- B. Monies collected are not deposited intact on a timely basis. Deposits are generally made once a week and average in excess of \$3,000. In addition, personal checks are sometimes cashed for the Court Clerk from official court receipts. To adequately safeguard receipts and reduce the risk of loss or misuse of funds, deposits should be made intact daily or when accumulated receipts exceed \$100.

This condition was noted in our prior report.

- C. The municipal division accepts cash, checks, and money orders for the payment of fines and court costs. While receipt slips issued by the court indicate the method of payment received, no reconciliation is performed between the composition of receipt slips issued by the court and deposits. To ensure receipts are deposited intact, the composition of receipt slips issued should be reconciled to the composition of monies deposited.

A similar condition was noted in our prior report.

- D. The duties of receiving, recording, and depositing monies collected by the municipal division are not adequately segregated. Currently, the Court Clerk performs all of these duties. To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Since this is an office of one employee and proper segregation of duties cannot be achieved, at a minimum, there should be a documented independent comparison of receipt slips issued to amounts deposited.

This condition was noted in our prior report.

- E. Neither the police department nor the municipal division account for all traffic tickets and summonses issued and their ultimate disposition. The Court Clerk prepares a monthly log of traffic tickets and summonses issued; however, no one reviews this information for missing numbers. Without a proper accounting of the numerical sequence and dispositions of traffic tickets and summonses issued, the police department and the municipal division cannot be assured all traffic tickets and summonses issued were properly submitted to the municipal division for processing, voided, or not prosecuted. A record of the ultimate disposition of each item should also be maintained to ensure all traffic tickets and summonses have been accounted for properly.

This condition was noted in our prior report.

- F. During our review, we noted the following concerns with the collection of fees:

- 1) Law Enforcement Training (LET) fees are not assessed on non-moving violations. Section 590.140, RSMo Cum. Supp. 1999, requires these fees be charged on all violations except for dismissed cases.

A similar condition was noted in our prior report.

- 2) Peace Officer Standards and Training Commission (POSTC) fees were not assessed or collected. Section 590.140, RSMo Cum. Supp. 1999, requires these fees to be charged on all court cases for violations of municipal ordinances, except for cases dismissed by the court.

**WE RECOMMEND** the city of Charlack Municipal Division:

- A. Prepare monthly listings of open items and reconcile the listing to monies held in trust. The municipal division should attempt to identify to whom the \$3,507 belongs, and disburse the funds appropriately. If this cannot be determined, the unidentified bond monies should be turned over to the state's Unclaimed Property Section in accordance with state law.
- B. Deposit receipts intact daily or when accumulated receipts exceed \$100. In addition, the court should discontinue cashing personal checks with official receipts.
- C. Reconcile the composition of receipt slips issued to the composition of deposits.
- D. Establish a documented periodic review of municipal division records by an independent person.
- E. Work with the police department to ensure the numerical sequence and ultimate disposition of all traffic tickets and summonses issued are accounted for properly.
- F. Assess and collect LET and POSTC fees in accordance with state law.

**AUDITEE'S RESPONSE**

*The Court Clerk responded as follows:*

- A. *This recommendation will be implemented for June 2000.*
- B. *This recommendation will not be fully implemented. I do not have time to deposit more often. However, I will cease cashing personal checks.*
- C. *This recommendation will be implemented immediately.*
- D. *This recommendation will be discussed with the city.*
- E. *I prepare the monthly report of tickets issued, but it is the police department's responsibility to follow up on missing tickets.*
- F. *These recommendations have now been implemented.*

|   |
|---|
| <b>3. City of Normandy Municipal Division</b> |
|---|

- A. The police department accepts cash for bonds. The Court Clerk does not issue receipt slips for bond monies transmitted from the police department. To document the monies have been transmitted, a receipt slip should be issued for each transmittal of bond monies.
- B. Monies collected are not deposited/transmitted intact on a timely basis. Transmittals of fine and court cost monies are generally made one to two times a week and average in excess of \$2,000, and deposits of bond monies are generally made once a week and average in excess of \$650. To adequately safeguard receipts and reduce the risk of loss or misuse of funds, deposits/transmittals should be made intact daily or when accumulated receipts exceed \$100.

This condition was noted in our prior report.

- C. The duties of receiving, recording, depositing/transmitting and disbursing fines, court costs, and bond monies collected by the municipal division are not adequately segregated. Currently, the Court Clerk performs all of these duties. The City Treasurer reviews the bank reconciliation prepared by the Court Clerk. To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Since this is an office of one employee and proper segregation of duties cannot be achieved, at a minimum, there should be a documented independent comparison of receipt slips issued to amounts deposited/transmitted.

This condition was noted in our prior report.

- D. Between February 1997 and September 1999, the city of Normandy overpaid the Kathy J. Weinman Shelter approximately \$1,362 in domestic violence fees. The report provided to the city by the court, which is used to compute the domestic violence fee to be disbursed, incorrectly included this fee each time a payment was made rather than once per case. Thus, if partial payments were made on a case, more fees for domestic violence were reported than actually collected. The city should contact the shelter to make arrangements to adjust future domestic violence payments for the amount overpaid. Other court costs and fees were calculated correctly.
- E. Neither the police department nor the municipal division account for all tickets issued and their ultimate disposition. The Court Clerk prepares a monthly log of tickets issued; however, no one reviews this information for missing ticket numbers. Without a proper accounting of the numerical sequence and dispositions of tickets issued, the police department and the municipal division cannot be assured all tickets issued were properly submitted to the municipal division for processing, voided, or not prosecuted. A record of the ultimate disposition of each ticket should also be maintained to ensure all tickets have been accounted for properly.

- F. The municipal division did not always forward records of convictions on traffic offenses to the Missouri State Highway Patrol (MSHP). Nine of twenty-seven applicable items reviewed were not sent to the MSHP as required. Section 302.225, RSMo Cum. Supp. 1999, requires records of “any pleas or findings of guilty” on traffic violations under laws of the state, county, or municipal ordinances to be forwarded to the MSHP within ten days of the conviction date.

**WE RECOMMEND** the city of Normandy Municipal Division:

- A. Issue prenumbered receipt slips to the police department for all bond monies received from the police department.
- B. Transmit/deposit receipts intact daily or when accumulated receipts exceed \$100.
- C. Establish a documented periodic review of municipal division records by an independent person.
- D. Correct the reports of domestic violence fees, notify the city of the errors, and ensure that the city contacts the shelter to make arrangements to adjust future domestic violence payments for the overpayment of \$1,362.
- E. Work with the police department to ensure the numerical sequence and ultimate disposition of all tickets issued are accounted for properly.
- F. Forward all records of convictions on traffic offenses to the MSHP within ten days as required by state law.

**AUDITEE'S RESPONSE**

*The Court Clerk responded as follows:*

- A. *I have now begun initialing and dating the initial bond receipt slips upon removing the bonds from the bond lockbox.*
- B. *Unfortunately, I do not have the time to make a daily deposit without slighting other duties just as important.*
- C. *I have implemented a program where the Finance Director checks my amount of cash and checks received against my receipt book and verifies this with the deposit. This procedure was started in January 2000.*

- D. *I have sent letters to our City Attorney in regards to this error, to which he recommended that we wait for the conclusion of the audit. Upon conclusion of the audit, we will take action to recoup the funds.*
- E. *We have been unable to do a proper accounting of the tickets due to a lack of manpower. If additional staff becomes available, this will be corrected.*
- F. *This procedure has been corrected as of the February 2000 court date.*

|   |
|---|
| <b>4. City of Overland Municipal Division</b> |
|---|

- A. The municipal division accepts cash, checks, and money orders for fines and court costs. Prenumbered receipt slips issued by the court do not always indicate the method of payment received. In addition, no one accounts for the numerical sequence of receipt slips issued. To ensure receipts are transmitted intact, the method of payment received should be indicated on the receipt slips. The numerical sequence of receipt slips issued should be accounted for properly and the composition of receipt slips issued should be reconciled to the composition of monies transmitted.

This condition was noted in our prior report.

- B. The Prosecuting Attorney does not initial or sign the case file to document his approval of an amendment of a ticket. To ensure the proper disposition of all cases has been entered in the court records, the Prosecuting Attorney should sign all amended case files.

**WE RECOMMEND** the city of Overland Municipal Division:

- A. Record the method of payment on all receipt slips issued and ensure someone at the city accounts for the numerical sequence of receipt slips issued, reconciles the composition of receipts to the composition of monies transmitted, and documents the composition on the receipt slip prepared by the city.
- B. Require the Prosecuting Attorney's signature on amended cases.

**AUDITEE'S RESPONSE**

*The Municipal Judge and Assistant Court Clerk responded as follows:*

*A&B. These recommendations have now been implemented.*

A. During our review, we noted the following concerns relating to bonds:

- 1) The Court Clerk does not maintain a complete bond ledger and does not prepare monthly listings of open items (liabilities). Numerous bond receipts and disbursements were not recorded on the bond ledger. On June 30, 1999, the reconciled cash balance of the bond account was \$40,420.

A bond ledger indicating date and amount of receipt and date of disbursement is necessary to ensure proper accountability over bonds. A monthly listing of open items is necessary to ensure monies held in trust by the municipal court division are sufficient to meet liabilities. In addition, a review should be made of any bonds posted by persons who failed to make the required court appearance to determine if the bonds should be forfeited and monies paid over to the city treasury as provided by Section 479.210, RSMo 1994. For those bonds which cannot be forfeited and remain unclaimed, Sections 447.500 through 447.595, RSMo 1994, which relate to unclaimed property, should be used to disburse these monies.

This condition was noted in our prior report.

- 2) Formal bank reconciliations are not prepared for the city's bond account and a checkbook balance is not maintained. To ensure all differences between the bank and book balances are noted in a timely manner, formal bank reconciliations should be performed monthly and a balance should be maintained in the checkbook register.
- 3) The amounts remitted to the city from the bond account could not be identified by defendant. The Court Clerk prepares a Treasurer's warrant which lists the bonds to be forfeited or applied; however, copies of these warrants could not be located. To adequately account for all monies turned over to the city, appropriate detail should be retained to support that amount.

B. The duties of receiving, recording, and depositing monies collected by the municipal division are not adequately segregated. Currently, the Court Clerk performs all of these duties. In addition, the composition of receipt slips issued is not reconciled to the composition of monies deposited. To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Since this is an office of one employee and proper segregation cannot be achieved, at a minimum, there should be a documented independent comparison of receipt slips issued to amounts deposited.

This condition was noted in our prior report.

- C. Neither the police department nor the municipal division account for all tickets issued and their ultimate disposition. The Court Clerk records the tickets issued on a computer; however, no one reviews this information for missing ticket numbers. Without a proper accounting of the numerical sequence and dispositions of tickets issued, the police department and the municipal division cannot be assured all tickets issued were properly submitted to the municipal division for processing, voided, or not prosecuted. A record of the ultimate disposition of each ticket should also be maintained to ensure all tickets have been accounted for properly.
- D. Crime Victims Compensation (CVC) and Post Officer Standards and Training Commission (POSTC) fees were not distributed to the state between July 1997 and December 1998. The Court Clerk indicated that she had calculated the amount of fees owed to the state each month; however, the City Treasurer did not issue a check for such fees. Copies of the fee reports were not maintained for these months; thus, the amount due to the state could not be readily determined.

In addition, our prior report noted the city had not distributed any of the CVC funds to the state Department of Revenue (DOR) from September 1996 to June 1997. As a result, \$11,000 was due from the city to the DOR for CVC fees collected during that period. Currently, this amount still has not been paid to the DOR.

Section 595.045, RSMo Cum. Supp. 1999, requires CVC fees to be distributed at least monthly to the state. POSTC fees should also be disbursed monthly to the state.

- E. The municipal division did not always forward required records of convictions on traffic offenses to the Missouri State Highway Patrol (MSHP). Twenty of twenty-two applicable items reviewed were not sent to the MSHP as required. Section 302.225, RSMo 1994, requires records of “any pleas or findings of guilty” on traffic violations under the laws of the state, county, or municipal ordinance to be forwarded to the MSHP within ten days of the conviction date.

**WE RECOMMEND** the city of Velda City Municipal Division:

- A.1. Maintain a bond ledger and prepare monthly listings of open items and reconcile the listing to the balance in the bank account. In addition, the municipal court division should forfeit any bonds for persons who failed to make the required court appearance, and attempt to locate those defendants who have a bond due back to them and remit the bond amount. Any bond monies remaining unclaimed should be remitted to the state in accordance with state law.

2. Request the city perform and document monthly bank reconciliations for the bond account. In addition, a balance should be maintained in the checkbook.
  3. Maintain documentation to support disbursements of bonds forfeited and applied.
- B. Establish a documented periodic review of municipal division records by an independent person, including a reconciliation of the composition of receipt slips issued to the composition of monies deposited.
  - C. Work with the police department to ensure the numerical sequence and ultimate disposition of all tickets issued are accounted for properly.
  - D. Ensure CVC and POSTC fees collected are remitted to the state in accordance with state law. In addition, the municipal division should determine the amount of unremitted fees due to the state and make the appropriate payment.
  - E. Ensure all records of convictions on traffic offenses are forwarded to the MSHP as required by state law.

### **AUDITEE'S RESPONSE**

*The Court Clerk responded as follows:*

- A. *I am now going to enter each bond into the computer when received, including the defendant's name and surety name if there is one. When the checks are issued, they will have the defendant's name or surety's name. When reconciled at the end of the month, the balance will show what is actually in the bank account up-to-date. The Treasurer and I will make sure that the bank account and checkbook balance. There will also now be a bond ledger with the defendant and surety name, address, amount of bond, date received, date released, court date, check number, and a balance. I will also keep a copy of the listing of bonds to be applied and forfeited. These changes will be implemented immediately.*
- B. *The City Treasurer has started, and will continue, to reconcile the receipts to the deposit slip on an occasional basis.*
- C. *The Police Department and I have agreed on a new system to keep up with the tickets. The Chief of Police will initial off on a list of issued tickets that has all the tickets that are assigned to each officer. The list will indicate the date the ticket was turned in. The tickets' sequence is twenty-five and this will show any missing tickets.*
- D. *Records are going to be pulled to show what is owed and this amount will be paid. We will address this immediately.*

- E. *The computer was updated to REJIS and every transaction will be sent online to MSHP. This has already been implemented.*

|   |
|---|
| <b>6. City of Vinita Park Municipal Court</b> |
|---|

A. During our review, we noted the following concerns with bonds:

- 1) Monthly listings of open items (liabilities) are not reconciled to the available cash balance. At June 30, 1999, the open items listing totaled \$1,536 less than the balance of bonds in the bond account. We noted the following errors in preparation of this reconciliation:

- \* The Court Clerk disbursed \$500 more to the city than shown on the monthly report of bonds forfeited and applied for December 1997.
- \* The Court Clerk failed to disburse \$2,711 to the city shown on the monthly report of bonds forfeited and applied for February 1998.
- \* The Court Clerk disbursed \$875 in bonds during the audit period which were not removed from the open items list.

After adjustment for the above errors, the open items listing totaled \$200 less than the balance in the bond account. The Court Clerk should disburse monies to the city and make adjustments to her open items listing to correct the errors noted above. In addition, the \$200 difference should be investigated and the excess funds disbursed appropriately.

Monthly listings of open items should be reconciled to monies held in trust by the city to ensure proper accountability over open cases and ensure monies held in trust by the court are sufficient to meet liabilities.

This condition was noted in our prior report.

- 2) Bonds forfeited or applied to fines and court costs are not remitted to the city on a timely basis. The Court Clerk prepares a monthly report of bonds to be forfeited or applied to fines and court costs. Although the Court Clerk prepared a report for every month, only five disbursements were made to the city from January 1, 1998 to June 30, 1999.

This condition was noted in our prior report.

- 3) The municipal division has not implemented procedures to follow up on bonds held for over one year. As of June 30, 1999, the balance of the city's bond escrow account included bond receipts totaling approximately \$1,900 which have been held in excess of one year.

An attempt should be made to determine the proper disposition of these monies. A review should be made of any bonds posted by persons who failed to make the required court appearance to determine if the bonds should be forfeited and monies paid over to the city treasury as provided by Section 479.210, RSMo 1994. For those bonds which cannot be forfeited and remain unclaimed, Sections 447.500 through 447.595, RSMo 1994, which relate to unclaimed property, should be used to disburse these monies.

- 4) The municipal division accepts cash, checks, and money orders for bonds, and the police department accepts cash and money orders for bonds. Receipt slips issued by the police department do not indicate the method of payments received. In addition, no one accounts for the numerical sequence of the receipt slips issued by the court and no reconciliation is performed between the composition of receipt slips issued by the court and police department, and monies transmitted to the city or the municipal division.

To ensure receipts are transmitted intact, the method of payment received should be indicated on the receipt slips and the numerical sequence of receipt slips should be accounted for properly. Furthermore, the composition of receipt slips issued should be reconciled to the composition of monies transmitted.

This condition was noted in our prior report.

- B. Monies collected are not transmitted on a timely basis. Transmittals are generally made once a week and average in excess of \$1,900. To adequately safeguard receipts and reduce the risk of loss or misuse of funds, transmittals should be made intact daily or when accumulated receipts exceed \$100.

This condition was also noted in our prior report.

**WE RECOMMEND** the city of Vinita Park Municipal Division:

- A.1. Reconcile monthly listings of open items to monies held in trust by the city. In addition, the \$200 difference should be investigated and the excess funds disbursed appropriately.
2. Disburse bonds forfeited and applied to the city monthly as required by state law.

3. Follow-up on all bonds held for more than one year and dispose of bonds in accordance with state law. Procedures should be established to routinely follow up on cash bonds remaining on hand over a period of time.
  4. Record the method of payment on all receipt slips issued and ensure someone at the city accounts for the numerical sequence of receipt slips issued and reconciles the composition of receipt slips to the composition of monies transmitted.
- B. Transmit receipts daily or when accumulated receipts exceed \$100.

### **AUDITEE'S RESPONSE**

*The Municipal Judge and Court Clerk responded as follows:*

- A.1. *This was taken care of when the auditors were here. We will disburse any extra monies after all information is entered into our new computer system.*
2. *The bonds are now remitted on a timely basis and we will ensure they are remitted monthly in the future. This was not done during the time period noted due to problems with the reconciliation and the computer. Reconciliations were done in bulk and the checks were being turned over for three or four months at a time trying to catch up.*
  3. *Bonds held over one year's time are due to the clientele we have in our court. Defendants pay on a case for a long period of time during which they keep their bond in effect, whether it takes two months or two years. We will continue to monitor old bonds.*
  4. *The Court Clerk marks the receipt if payment is by check and notes the check number on the receipt. This may sometimes be overlooked, but we try to remember. However, we do not mark when it is a money order but will start to do this. Also, the Police Department will be marking receipt numbers on envelopes so they are receipted by the court in the correct order. We will also discuss the issue of an independent reconciliation with the city.*
- B. *We agree with this recommendation and will discuss with the city about depositing more than once a week.*

This report is intended for the information of the management of the various municipal divisions of the Twenty-First Judicial Circuit and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on State Auditor's Prior Recommendations

TWENTY-FIRST JUDICIAL CIRCUIT  
MUNICIPAL DIVISIONS  
FOLLOW-UP ON STATE AUDITOR'S PRIOR RECOMMENDATIONS

This section reports follow-up action taken by the municipal divisions of the Twenty-First Judicial Circuit on recommendations made in the Management Advisory Report (MAR) of our reports issued on the Twenty-First Judicial Circuit Municipal Divisions issued for the years ended June 30, 1995, 1994, and 1993, and our report on the city of Velda City for the year ended June 30, 1997. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the municipal divisions should consider implementing these recommendations.

TWENTY-FIRST JUDICIAL CIRCUIT  
MUNICIPAL DIVISIONS

1. Village of Bel-Nor Municipal Division

- A.1. A separate bond account was not maintained. All bond monies were deposited into the General Revenue Account for the village, and the village did not keep track of the balance of bond money held.
- 2. The Court Clerk did not maintain a bond ledger and did not prepare a monthly listing of open items (liabilities).
- B. Receipts of fines and court costs were not deposited on a timely basis.
- C. The duties of receiving, recording, and depositing monies collected by the municipal division were not adequately segregated.

Recommendation:

- A.1. Maintain a separate bank account for the deposit of bond monies.
- 2. Maintain a bond ledger, prepare a monthly listing of open items, and reconcile these listings to monies held in trust.
- B. Deposit receipts daily or when accumulated receipts exceed \$100.
- C. Adequately segregate duties between available employees and/or establish a documented periodic review of municipal division records by an independent person.

Status:

A.1.  
& 2. Implemented.

B&C. Not implemented. See MAR No. 1.

2. City of Charlack Municipal Division

A.1. Fines and court costs collected by the police department, totaling \$548, were not receipted by the Court Clerk or transmitted to the City Clerk for deposit.

2. Checks and money orders were not restrictively endorsed until deposits were prepared.

3. Receipts were not transmitted intact on a timely basis.

4. Receipt slips issued by the municipal division did not always indicate the method of payments received. In addition, the composition of the receipt slips issued was not reconciled to the composition of transmittals.

5. The Court Clerk did not issue receipt slips to the police department for fine and cost monies transmitted from the police department.

B.1. The police department receipt log did not indicate the method of payment received.

2. Some monies received by the police department were not posted to the receipt log.

C.1. Monthly listings of bond open items (liabilities) were not prepared after March 1995.

2. The Court Clerk did not prepare formal bank reconciliations for the municipal division's bond bank account.

3. Bond receipts were not deposited on a timely basis.

4. The balance in the municipal division's bond account included bond receipts totaling \$877 which had been held in excess of one year.

5. The duties of receiving, recording, and depositing bond monies collected by the municipal division were not adequately segregated.

D. Neither the police department nor the municipal division maintained adequate records to account for city summonses issued.

E.1. The \$5 ILC fee was not collected on alcohol-related offenses.

2. CVC fees were collected on all violations, including nonmoving traffic violations. LET fees were collected on dismissed cases.
- F. Four of sixty-three case files (6 percent) selected for review could not be located.

Recommendation:

- A.1. Along with the city, review the situation and take necessary actions to obtain restitution of at least \$548.
  2. Restrictively endorse checks and money orders immediately upon receipt.
  3. Transmit all receipts intact to the City Clerk daily or whenever accumulated receipts exceed \$100.
  4. Indicate the method of payment on all receipt slips issued and reconcile total cash, checks, and money orders received to transmittals to the city.
  5. Issue prenumbered receipt slips to the police department for all fine and cost monies received from the police department.
- B. Request the police department to issue prenumbered receipt slips for all monies received and account for their numerical sequence. The receipt slips should indicate the method of payment and should be reconciled by an independent person to monies deposited or transmitted.
- C.1. Prepare monthly listings of open items and reconcile these listings to monies held in trust.
2. Perform monthly bank reconciliations.
  3. Deposit bond receipts daily or when accumulated receipts exceed \$100.
  4. Review all cases with open bonds to determine whether the bonds should be forfeited, applied or refunded. Any bonds in which the defendant cannot be located, should be disbursed to the state's Unclaimed Property Section in accordance with state law.
  5. Adequately segregate the duties between available employees and/or establish a documented periodic review of municipal division records by an independent person.
- D. Work with the police department to ensure records are maintained to account for the numerical sequence of all city summonses issued.
- E.1. Assess the ILC fee in accordance with state law.

2. Assess and remit the CVC and LET fees in accordance with state law.
- F. Retain all case records in accordance with Supreme Court Administrative Rule 8.

Status:

A.1. Implemented. The former Court Clerk was ordered to pay restitution.

A.2.,

B., C.2.,

E.1.,

& F. Implemented.

A.3.,

C.1.,

C.3.,

C.5.,

& D. Not implemented. See MAR No. 2.

A.4. Partially implemented. The Court Clerk indicates the method of payment on receipt slips issued; however, no one reconciles the composition of receipt slips issued to the composition of transmittals. See MAR No. 2.

A.5. Partially implemented. The Court Clerk does not issue a prenumbered receipt slip to the police department; however, she does initial their receipt slip to indicate her receipt of the monies.

C.4. Partially implemented. The Court Clerk disbursed some monies to the Unclaimed Property Section as recommended; however, there are additional monies which need to be disbursed. While not repeated in the current MAR, the municipal division should consider fully implementing this recommendation.

E.2. Partially implemented. The Court Clerk assesses and collects CVC in accordance with state law; however, additional problems were noted with the LET fee. See MAR No. 2.

3. City of Normandy Municipal Division

A.1. The duties of receiving, recording, and transmitting monies collected by the municipal division were not adequately segregated.

2. Receipts were not transmitted to the city on a timely basis.

3. Checks and money orders were not restrictively endorsed immediately upon receipt.

- B.1. The \$5 ILC fee was not collected on alcohol-related offenses.
- 2. The CVC and LET fees were not collected on city ordinance violations.

Recommendation:

- A.1. Adequately segregate duties between available employees and/or establish a documented periodic review of municipal division records by an independent person.
  - 2. Transmit receipts intact daily or when accumulated receipts exceed \$100.
  - 3. Restrictively endorse all checks and money orders immediately upon receipt.
- B.1. Assess the ILC fee in accordance with state law.
  - 2. Assess and remit CVC and LET fees in accordance with state law.

Status:

- A.1.&
- A.2. Not implemented. See MAR No. 3.
- A.3.,
- & B. Implemented.

4. City of Overland Municipal Division

- A. Receipt slips issued by the court did not always indicate the method of payments received.
- B. Neither the police department nor the court accounted for the numerical sequence of traffic tickets or non-traffic summonses issued.
- C. The Municipal Judge did not sign the docket after dispositions were recorded.

Recommendation:

- A. Record the method of payment on all receipt slips issued and ensure someone at the city reconciles the composition of receipt slips issued to the composition of monies transmitted and documents the composition on the receipt slip prepared by the city.
- B. Work with police department to account for the numerical sequence of traffic tickets and non-traffic summonses issued and investigate any gaps in the numerical sequence.

- C. Require the judge's signature on the court dockets.

Status:

- A. Not implemented. See MAR No. 4.

B&C. Implemented.

5. City of Vinita Park Municipal Division

- A.1. Monthly listings of open items (liabilities) were not always prepared. The total of the list of open bonds was \$9,909 less than the balance of bonds in the bank account.
- 2. Bonds forfeited or applied to fines and court costs were not transferred from the bond account to the city general revenue account on a timely basis.
- 3. Receipt slips issued by the Court Clerk for bonds did not indicate the method of payments received.
- B. Receipts were not transmitted to the city on a timely basis.
- C. Checks and money orders were not restrictively endorsed until the bank deposits were prepared.
- D. The City Treasurer did not disburse CVC monies to the state on a timely basis and had not disbursed some fees at all.
- E. The Municipal Judge did not sign the docket after dispositions were recorded.
- F. The Municipal Judge had not issued a court order to formally establish the TVB.
- G. The court did not file with the city a monthly report of all cases heard in court.

Recommendation:

- A.1. Prepare monthly listings of open items and reconcile this listing to the balance in the bank account. In addition, the \$9,909 difference should be investigated and the excess funds disbursed appropriately.
- 2. Request the City Treasurer to make timely transfers from the bond account to the general revenue account.

3. Record the method of payment on all receipt slips issued and reconcile the composition of receipt slips to the composition of monies transmitted to the city.
- B. Transmit receipts to the city daily or when accumulated receipts exceed \$100.
- C. Restrictively endorse all checks and money orders immediately upon receipt.
- D. Request the City Treasurer properly remit CVC fees to the state in accordance with state law.
- E. Require the judge's signature on the court dockets.
- F. Issue a court order to formally establish the TVB.
- G. Prepare monthly reports of court actions and file these with the city in accordance with state law.

Status:

- A.1. Partially implemented. The Court Clerk prepares a monthly open items listing; however she does not reconcile the listing to the balance in the bank account. See MAR No. 6.
- A.2.,  
& B. Not implemented. See MAR No. 6.
- A.3. Partially implemented. The municipal division indicates the method of payment on all receipt slips; however, the composition of receipt slips is not reconciled to the composition of monies transmitted to the city. See MAR No. 6.
- C-G. Implemented.

## CITY OF VELDA CITY

Municipal Court

- A.1. The municipal division did not periodically reconcile the police department's records of bonds collected with monies turned over to the municipal court division. In a few instances the bond amount on the police department receipt slip did not agree to the municipal division's records.
2. The Court Clerk did not maintain a complete bond ledger and did not prepare monthly listings of open items (liabilities). The balance included bond receipts totaling \$13,356 which had been held in excess of one year.

3. Bond monies collected by the police department were not transmitted to the municipal division on a timely basis.
- B.1. Receipt slips issued by the municipal court division were not reconciled to the deposits.
  2. Checks and money orders were not restrictively endorsed immediately upon receipt.
  3. The duties of receiving, recording, and depositing bond, fine, and court cost monies collected by the municipal division were not adequately segregated.
  4. Receipts of fines and court costs were not deposited intact. Personal checks were frequently cashed for the former Mayor from municipal division receipts.
- C. The municipal division did not report cases paid through the Traffic Violation Bureau (TVB) on the court docket.
- D. The Municipal Judge did not sign the court docket after case dispositions were recorded.
- E. Court case records were not always filed in an organized manner. Fifty-one case files requested for review could not be located by the Court Clerk.
- F. The TVB schedule did not include all offenses that may be paid prior to the court date and the corresponding fine amount.

Recommendation:

- A.1. Reconcile bond monies received by the police department to the municipal court division's records.
  2. Maintain a bond ledger and prepare monthly listings of open items and reconcile the listing to the balance in the bank account. In addition, the municipal court division should forfeit any bonds for persons who failed to make the required court appearance, and attempt to locate those defendants who have a bond due back to them and remit the bond amount. Any bond monies remaining unclaimed should be remitted to the state in accordance with state law.
  3. Ensure bond receipts are transmitted to the court intact daily or when accumulated receipts exceed \$100.
- B.1. Reconcile the amount and composition of monies received per receipt slips issued to monies deposited to the bank.
  2. Restrictively endorse all checks and money orders immediately upon receipt.

3. Adequately segregate the duties between available employees and/or establish a documented periodic review of receipt records by an independent person.
  4. Deposit all monies received intact.
- C. Include all cases on the court docket as required by state law.
  - D. Require the Municipal Judge to review all court dockets for propriety and sign the dockets.
  - E. Retain all municipal court division records in accordance with Supreme Court Administrative Rule 8.
  - F. Establish a schedule of all offenses and the related fines and court costs which may be collected at the TVB.

Status:

A.1.,  
 A.3.,  
 B.2.,  
 B.4.,  
 C., E.,  
 & F. Implemented.

A.2.,  
 B.1.,  
 & B.3. Not implemented. See MAR No. 5.

- D. Partially implemented. The Municipal Judge reviews and signs the trial docket; however, he does not review or sign the final court docket. While not repeated in the current MAR, the municipal division should consider fully implementing this recommendation.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

TWENTY-FIRST JUDICIAL CIRCUIT  
MUNICIPAL DIVISIONS  
HISTORY, ORGANIZATION,  
AND STATISTICAL INFORMATION

Organization

The Twenty-First Judicial Circuit is composed of St. Louis County. The Honorable Robert S. Cohen serves as Presiding Judge. This report includes six of the eighty-four municipal divisions within the Twenty-First Judicial Circuit.

The municipal divisions are governed by Chapter 479, RSMo 1994, and by Supreme Court Rule No. 37 entitled "Ordinance Violations and Traffic Violations Bureau (TVB)." Section 479.050, RSMo 1994, provides that each municipal division may establish a TVB in which fines and costs are collected at times other than during court and transmitted to the city treasury.

Operating Costs

The operating costs and court salaries of each municipal division are paid by the respective municipality.

Municipal Division Organization, Personnel, and Caseload Information

1. Village of Bel-Nor

Organization

The Court Clerk is responsible for recording transactions as well as handling collections. The Village Clerk receives payments of fines, costs, and bonds when the Court Clerk is not present. The Court Clerk and the police department collect bond monies. The police department places bond monies in a locked box. The Court Clerk retrieves these monies from the locked box daily. Fines, court costs, and bond monies collected are deposited by the Court Clerk into the village treasury approximately weekly. Bond monies are held in the village treasury pending disposition. Court is held once a month. A TVB receives payments of fines and court costs at times other than during court. As indicated in Note 4 to the Financial Statements, village of Bel-Nor Municipal Division personnel also handle municipal court activity for the village of Bellerive Acres. In doing so, they perform the same functions as noted above.

Personnel

Municipal Judge  
Court Clerk

Sean O'Hagen  
Diana Krosnicki

4. City of Overland

Organization

The Court Clerk, Assistant Court Clerk, and other clerks are responsible for recording transactions as well as handling collections. The police department collects bond monies and places these monies in a locked safe. The Court Clerk retrieves bond monies from the locked safe daily. Fines, court costs, and bond monies collected are transmitted by the Court Clerk to the city cashier's office for deposit into the city treasury daily. Bond monies are held in the city treasury pending disposition. Court is held five times a month. A TVB receives payments of fines and court costs at times other than during court.

5. City of Velda City

Organization

The Court Clerk is responsible for recording transactions as well as handling collections. The City Clerk receives payments of fines, costs, and bonds when the Court Clerk is not present. The Court Clerk and the police department collect bond monies. The police department places bond monies in a locked box. The Chief of Police retrieves bond monies from the locked box daily and

transmits these monies to the Court Clerk. Fines, court costs, and bond monies collected are deposited by the Court Clerk into the city treasury daily. Bond monies are held in the city treasury pending disposition. Court is held twice a month. A TVB receives payments of fines and costs at times other than during court.

CITY OF CLARK, MISSOURI

YEAR ENDED JUNE 30, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-42  
June 6, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

June 2000

**Some problems were discovered as a result of an audit conducted by our office in response to the request of petitioners from the City of Clark, Missouri.**

---

Former Mayor Clark was elected in April 1998 to serve a two year term, but she resigned in June 1998. At that time, Alderman Roberts was appointed mayor and Jason Baillargeon was appointed to fill the alderman position. These positions were not place on the April 1999 ballot.

According to state law, if a vacancy occurs in an elective office, the mayor and the board of aldermen are required to appoint a successor who serves until the next regular municipal election, which would have been April 1999. The winning candidate at that election then serves the remainder of the unexpired term, in this instance, until April 2000. The board of aldermen should ensure that any future vacant offices are filled in compliance with state law.

In addition, the Collector's official salary for the term beginning April 2000 was increased after the filing date. Voting the salary increase after the filing date to run for office has expired, gives the appearance of preferential treatment. The city should amend any elected officials salary and benefits prior to the last filing date for election to provide the most current information for those contemplating running for office; however, the salary and benefit increase should not take effect until the new term begins as required by state law.

The Board of Aldermen held several closed meetings during 1998 and 1999; however, minutes of these meetings were not prepared. Although minutes are not specifically required by law, minutes constitute the record of proceedings of the board. Failure to maintain minutes results in an inadequate record of city transactions, proceedings, and decisions. In addition, minutes help show that the closed discussions or business related to the specific reason announced for closing the meeting pursuant to Missouri's Sunshine Law.

A tentative agenda is prepared and posted for each board meeting; however, the agenda is usually in a standard form and does not disclose any specific information to be discussed for the upcoming meeting. To adequately inform the residents of the business to be discussed during the board meeting and to ensure compliance with the Sunshine Law, the tentative agenda should summarize the topics to be discussed during the meeting.

(over)

YELLOW SHEET

The city has a standard document request form regarding public access to city records, but the form does not provide citizens with a name and address where requests should be sent.

The city provides water, sewer and trash services to approximately 135 customers. Water meters are read around the twenty-fifth of the month and customers are billed on the first day of the next month. Payments are due by the fifteenth of the month.

In October 1998 the board approved an increase in water rates. According to city officials, the increase was to provide an increase in employees' salary and to maintain a surplus to repair the waterlines. However, the board did not prepare a statement of costs to maintain the water system as required when increasing the rates. Water and sewer fees are user charges which should cover the cost of providing the related services. The city should perform periodic detailed reviews of the costs of providing these services and set rates appropriately.

The City Clerk also serves as the City Treasurer contrary to an Attorney General Opinion. Money was deposited to and disbursed from the wrong funds. Deposits are not made on a timely basis and a detailed record of monies received is not maintained. The city does not have a formal bidding policy, and does not adequately document its review and approval of expenditures.

Budgets did not include some information required by state law and budgets were not periodically compared to actual revenues and expenditures. As a result, actual expenditures exceeded budgeted amounts. In addition, the city did not publish financial statements or submit annual financial reports to the State Auditor's office on a timely basis.

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

To the Honorable Mayor  
And  
Members of the Board of Aldermen  
City of Clark  
Clark, Missouri 65243

The State Auditor was petitioned under Section 29.230, RSMo, to audit the city of Clark, Missouri. The city had engaged William E. Wooldridge, Jr., Certified Public Accountant (CPA), to perform a financial audit of the city for the year ended June 30, 1999. To minimize any duplication of effort, we reviewed the report and substantiating working papers of the CPA. Our audit of the city included, but was not limited to, the year ended June 30, 1999. The objectives of this audit were to:

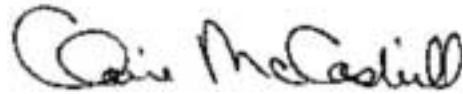

1. Perform procedures we deemed necessary to evaluate the petitioners' concerns.
2. Review compliance with certain constitutional provisions, statutes, ordinances, and attorney general's opinions as we deemed necessary or appropriate in the circumstances.
3. Review certain management practices which we believe could be improved.

Our audit was made in accordance with generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. We also reviewed board minutes, city policies and ordinances, and various city financial records.

Our audit was limited to the specific matters described above and was based on the selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention which would have been included in this report.

The accompanying History and Organization is presented for informational purposes. This information was obtained from the city and was not subjected to the auditing procedures applied during our audit of the city.

The accompanying Management Advisory Report presents our findings and recommendations arising from our audit of the city of Clark, Missouri

A handwritten signature in black ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

February 24, 2000 (fieldwork completion date)

## HISTORY AND ORGANIZATION

# CITY OF CLARK, MISSOURI HISTORY AND ORGANIZATION

The city of Clark is located in Randolph County. The city was incorporated in 1928 as a fourth-class city. The population of the city in 1990 was 257.

The city government consists of a mayor and four-member board of aldermen. The four board members are elected in staggered elections for two-year terms. The mayor is elected for a two-year term, presides over the board of aldermen, and votes only in case of a tie. The Mayor, Board of Aldermen, and other principal officials at June 30, 1999 were:

| <u>Elected Officials</u>                        | <u>Term Expires</u> | <u>Actual Compensation for The Year Ended June 30, 1999</u> |
|---|---------------------|---|
| Donnie Roberts, Mayor (1)                       | April, 2000         | \$ 0  |
| Randy Richards, Alderman (2)                    | April, 2000         | 0   |
| Homer Colley, Alderman                          | April, 2001         | 0   |
| Pam Barnes, Alderwoman                          | April, 2001         | 0   |
| Jason Baillergeon, Alderman (3)                 | April, 2000         | 0   |
| Sadie Roberts, Collector (4)                    | April, 2000         | 2,040   |
| <u>Other Principal Officials</u>                |                     |   |
| Mark Hibbs, Financial Advisor (5)               |                     | 4,500   |
| Lori Clark, City Clerk (6)                      |                     | 675   |
| Louis Beckfield, Waterworks/Waste Water Manager |                     | 7,185   |
| Mark Richards, Police Officer (7)               |                     | 3,240   |

The elected officials, appointed officials, and the employees are covered by a \$300,000 public official liability bond for each wrongful act.

- (1) Don Palmer was elected in April 2000, but resigned April 25, 2000. A replacement has not yet been named.
- (2) James Reed was elected in April 2000.
- (3) Resigned in January, 2000. This position is currently vacant.
- (4) Reelected in April 2000.
- (5) Mark Hibbs was appointed City Clerk in August 1999 to replace Lori Clark who resigned.
- (6) Lori Clark was appointed City Clerk in August, 1998 after Mike Bargar resigned.

(7) Resigned in February, 2000. A replacement has not yet been made.

Assessed valuation and tax rate information are as follows:

ASSESSED VALUATION

## MANAGEMENT ADVISORY REPORT

CITY OF CLARK, MISSOURI  
SUMMARY OF FINDINGS

1. City Transactions (pages 9-10)

The City Clerk also serves as the City Treasurer contrary to an Attorney General Opinion. Money was deposited to and disbursed from the wrong funds. Deposits are not made on a timely basis and a detailed record of monies received is not maintained. The city does not have a formal bidding policy, and does not adequately document its review and approval of expenditures.

2. City Utilities (pages 11-12)

The City did not prepare a statement of costs when it increased water rates. Utility accounts receivables are not balanced with billings and collections on a monthly basis. The listing of refundable water deposits is not totaled and reconciled to total water deposits.

3. Budgets and Financial Reporting (pages 12-14)

Budgets did not include some information required by state law and budgets were not periodically compared to actual revenues and expenditures. As a result, actual expenditures exceeded budgeted amounts. In addition, the city did not publish financial statements or submit annual financial reports to the State Auditor's office on a timely basis.

4. Ordinances, Board Minutes, and Records (pages 14-16)

The city ordinances are not complete and up-to-date. The city does not have ordinances to establish compensation and duties of elected officials and to document the approved tax levy for each year. Board minutes were not always signed and there were no minutes prepared for closed meetings. The tentative agenda does not disclose the specific information to be discussed for the upcoming meeting. The city's standard document request form does not include the name and address of the custodian of records.

5. City Property (pages 16-17)

The city does not prepare and maintain permanent, detailed property records for city assets and does not maintain and review complete vehicle logs.

6. Elected Officials' Compensation and Appointments (pages 17-18)

Vacant elective offices were not filled in accordance with state law. In addition, the Collector's official salary for the term beginning in April 2000 was increased after the filing date.

7. Traffic Violations (page 18)

The numerical sequence of traffic tickets was not properly accounted for.

CITY OF CLARK, MISSOURI  
MANAGEMENT ADVISORY REPORT

|           |                          |
|-----------|--------------------------|
| <b>1.</b> | <b>City Transactions</b> |
|-----------|--------------------------|

- A. Presently, the City Clerk also serves as the City Treasurer. In August, 1999, the financial advisor who was doing the duties of a City Treasurer took over the duties of the City Clerk. His duties include recording receipts, preparing checks, recording disbursements, reconciling bank accounts, and preparing the board minutes. The board reviews the disbursements once a month and signs the checks.

Attorney General's Opinion No. 24, 1955 to Dodds, concluded that in a fourth class city the holding of the positions of City Clerk, City Treasurer, and City Collector, or any two of these three offices by the same person at the same time would be incompatible.

- B. Money was deposited in and disbursed from the wrong fund. In 1994, the prior collector pled guilty to felony stealing and paid restitution of \$5,707 to the City. This money was placed in the street fund. Since the money that was stolen was water billings and additional salary payments from the general fund, this money should have been deposited to those funds. We also noted two receipts totaling \$153 and \$167 which were placed in the water fund, but should have been placed in the general and street funds, respectively. In addition, we noted three disbursements totaling approximately \$1,000 that were disbursed from the general fund in error. Since these disbursements were for water supplies and the waterworks manager's salary, it appears these disbursements should have been made from the water fund.
- C. Deposits are made only two or three times a month. To adequately safeguard receipts and reduce the risk of loss or misuse of funds, deposits should be made on a daily basis or when accumulated receipts exceed \$100.

In addition, a detailed record of monies received by day (with details such as date of payment, method of payment, payor, amount, and type of receipt) is not maintained and reconciled to monies deposited. A detailed record of monies received is necessary to ensure all receipts are accounted for properly and deposited.

- D. Although the city had few large purchases during the last few years, the City does not have a formal bidding policy. As a result, the decision of whether to solicit bids for a particular purchase is made on an item-by-item basis.

Formal bidding procedures provide a framework for the economical management of city resources and help ensure the city receives fair value by contracting with

the lowest and best bidders. Competitive bidding also helps ensure all parties are given an equal opportunity to participate in the city's business. Bids can be handled by telephone quotation, by written quotation, be sealed bid, or by advertised sealed bid. Various approaches are appropriate, based on dollar amount and type of purchase. Whichever approach is used, complete documentation should be maintained of all bids received and reasons noted why the bid was selected.

- E. The board does not adequately document its review and approval of expenditures made by the city. Board minutes indicate each month that the Board reviewed the bills to be paid. However, the invoices are not signed or initialed by the board and a supplementary listing of all disbursements approved for payment by the board is not kept with the minutes.

To adequately document the board's review and approval of all disbursements, a complete and detailed listing of bills should be prepared, signed, or initialed by the board to denote its approval, and retained with the official minutes.

**WE RECOMMEND** the Board of Aldermen:

- A. Consider appointing separate individuals to the positions of City Clerk and City Treasurer. If this is not possible, at a minimum, procedures for an adequate, documented independent review of the record keeping functions should be established.
- B. Ensure that all deposits and disbursements are made to/from the proper fund, and make appropriate transfers.
- C. Ensure monies are deposited daily or when accumulated receipts exceed \$100. Detailed receipt records should be maintained and reconciled to bank deposits.
- D. Establish formal bidding policies and procedures, including documentation of requirements regarding the bids or quotes received and justification for the bid selected.
- E. Ensure the approval of all disbursements is adequately documented by including a listing of all approved disbursements in the board minutes.

**AUDITEE'S RESPONSE**

A,B.

D&E. *We will attempt to implement these recommendations before July 1, 2000.*

C. *Since there is no bank within city limits, daily deposits may not be feasible at this time. We will begin depositing at least twice weekly.*

The city provides water, sewer and trash services to approximately 135 customers. Water meters are read around the twenty-fifth of the month and customers are billed on the first day of the next month. Payments are due by the fifteenth of the month.

- A. In October 1998 the board approved an increase in water rates. According to city officials, the increase was to provide an increase in employees' salary and to maintain a surplus to repair the waterlines. However, the board did not prepare a statement of costs to maintain the water system as required when increasing the rates. Section 67.042, RSMo 1994, provides that fees may be increased if supported by a statement of the costs necessary to maintain the funding of such service.

Water and sewer fees are user charges which should cover the cost of providing the related services. The city should perform periodic detailed reviews of the costs of providing these services and set rates appropriately. Preparation of a statement of costs would allow the city to determine the rates necessary to support current and future operations as well as providing documentation to customers of the rationale behind the rates.

- B. The water and sewer accounts receivable ledger is not balanced monthly. Month-end water and sewer account receivable balances are not reconciled to the beginning accounts receivable balance, billings, collections and other adjustments for that month. A reconciliation of receivable with billings, collections and other adjustments should be performed or reviewed by someone independent of the water and sewer accounting system every month to ensure all amounts have been accounted for appropriately.

The lack of reconciliations represents a weakness in the internal controls of the water and sewer billing and collection system. Reconciliations are needed to help ensure accuracy of the billing, collection, and reconciliation processes.

- C. City residents are required to pay a refundable deposit for water service. The City Collector maintains a listing of deposits received, disbursed, and remaining balances by water customer, however, this listing does not have a grand total. In addition, the water deposits are placed in the water fund and are not accounted for separately. Periodic reconciliations of the water deposits to the control account are necessary to ensure all funds are accounted for and that funds held in trust are sufficient to meet liabilities.

**WE RECOMMEND** the Board of Aldermen:

- A. Perform and document periodic reviews of the costs to maintain utility services, and establish rates to ensure the costs of operation, maintenance, and replacement of the city's water and sewer system are covered.
- B. Ensure beginning and ending accounts receivable balances are reconciled on a monthly basis using the billing, collections, and billing adjustments during that month. Any differences which cannot be accounted for should be immediately investigated.
- C. Ensure the listing of water deposits received, disbursed, and balances is reconciled to the control account of water deposits held on a periodic basis.

**AUDITEE'S RESPONSE**

- A. *We prepared a statement of costs to support the rate increase but did not realize this statement needed to be retained.*

*B&C. We will attempt to implement these recommendations before July 1, 2000.*

|   |
|---|
| <b>3. Budgets and Financial Reporting</b> |
|---|

- A. The budgets for the years ended June 30, 2000, 1999, and 1998 do not include a budget message or general budget summaries describing the important features of the budgets and major changes from the preceding years. They also do not include a statement of estimated or actual revenues and expenditures for the two preceding budget years, or the beginning and estimated ending available resources. In addition, the Board of Aldermen does not periodically compare actual revenues and expenditures to the budgeted amounts. The board receives a monthly report of actual receipts and disbursements which includes year-to-date totals; however, this report does not include a comparison to amounts budgeted.

Section 67.010, RSMo 1994, requires each political subdivision of the state to prepare an annual budget with a budget message and comparisons of actual revenues and expenditures for the two preceding fiscal years. Prior year comparisons of actual revenues and expenditures need to be included to help ensure accurate amounts are budgeted. A budget should include appropriate revenue and expenditure estimations by classification, and include the beginning available resources and reasonable estimates of the ending available resources. A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific cost expectations for each area.

- B. The city approved expenditures in excess of the budgeted amounts for the general fund in the amounts of \$3,148 and \$2,185 for the years ended June 30, 1999 and 1998, respectively.

Section 67.040, RSMo 1994, indicates a political subdivision shall not increase the total amount authorized for expenditures from any fund, unless the governing body adopts a resolution documenting the reasons making the increase necessary and approves or adopts a resolution or ordinance to authorize the expenditures. The board should ensure any budget amendments are properly authorized and adequately documented.

- C. The city has not published financial statements. Section 79.160, RSMo 1994, requires the board of aldermen to prepare and publish semi-annual financial statements. These financial statements are to include a statement of receipts and expenditures and indebtedness of the city for the preceding six month period. In addition, Section 79.165, RSMo 1994, states the city cannot legally disburse funds until the financial statement is published.
- D. Section 105.145, RSMo 1994, requires the city to file a financial report with the State Auditor's office annually. The financial report is to be filed within four months after the end of the city's fiscal year or six months after the end of the fiscal year if an audit report prepared by a certified public accountant (CPA) is filed. However, the 1998 CPA audit report was not filed until November 16, 1999.

The city should ensure the annual financial reports required to be filed with the State Auditor's office pursuant to Section 105.145, RSMo 1994, are done on a timely basis.

**WE RECOMMEND** the Board of Aldermen:

- A. Prepare budgets that contain all information as required by state law. We also recommend the board periodically compare actual revenues and expenditures with budgeted amounts to help monitor city finances and ensure actual expenditures do not exceed budgeted amounts.
- B. Ensure actual expenditures do not exceed budgeted amounts. If circumstances require expenditures in excess of amounts budgeted, a formal resolution should be adopted authorizing the additional expenditures and documenting the reasons for such.
- C. Publish semiannual financial statements as required by state law.
- D. File annual financial reports with the State Auditor's office as required by state law.

## **AUDITEE'S RESPONSE**

*We plan to implement these recommendations before our next fiscal year.*

|  |
|--|
| <b>4. Ordinances, Board Minutes, and Records</b> |
|--|

A. Our review of the city ordinances disclosed the following concerns:

1. The city's ordinances are not complete and up-to-date. It appears some of the city's ordinances are missing while others are old and outdated. For example, ordinances 101 through 104 are missing and ordinance 1141B relates to an out-dated contract. In addition, ordinance 1132A relates to a contract that requires the city to pay \$75 for each dog the city brings to the Humane Society. The owner is then supposed to pay the city \$100 and get a receipt to pick up their dog from the Humane Society. However, according to the city, most owners will go straight to the Humane Society, pay the fee and pick up their dog. Also in one instance, the city received \$50 (instead of \$100) from an owner and had paid \$147 to the Humane Society for animal control expenses for nine dogs.
2. The city has not adopted ordinances to establish the compensation and duties of the city's elected officials and the City Clerk. Sections 79.270 and 79.290, RSMo 1994, require the compensation and duties of city officials and employees to be set by ordinance.
3. The city has not prepared ordinances to document the approved tax levy for each year. Section 94.210, RSMo 1994, requires the board of aldermen to fix the annual rate of tax levy by ordinance for each tax year.

Since ordinances represent legislation which has been passed by the Board of Aldermen to govern the city and its residents, it is important that the ordinances be maintained in a complete, well organized, and up-to-date manner. Such items as duties and compensation of city officials and the annual tax levy should be set forth in the ordinances to give the taxpayers information on how the city is to be governed.

- B. Board minutes are prepared by the City Clerk, but are not always signed. The board minutes should be signed by the City Clerk as preparer and by the Mayor to provide an independent attestation that the minutes are a correct record of the matters discussed and actions taken during the board's meetings.
- C. The Board of Aldermen held several closed meetings during 1998 and 1999; however, minutes of these meetings were not prepared.

Although minutes are not specifically required by law, minutes constitute the record of proceedings of the board. Failure to maintain minutes results in an inadequate record of city transactions, proceedings, and decisions. In addition, minutes help show that the closed discussions or business related to the specific reason announced for closing the meeting pursuant to the Sunshine Law, Chapter 610, RSMo 1994.

- D. A tentative agenda is prepared and posted for each board meeting; however, the agenda is usually in a standard form and does not disclose any specific information to be discussed for the upcoming meeting.

To adequately inform the residents of the business to be discussed during the board meeting and to ensure compliance with the Sunshine Law, the tentative agenda should summarize the topics to be discussed during the meeting.

- E. The city has a standard document request form regarding public access to city records, but the form does not provide citizens with a name and address where requests should be sent.

Section 610.023, RSMo Cumulative Supp. 1999 indicates that each public governmental body is to appoint a custodian who is to be responsible for the maintenance of that body's records and established guidelines for making city records available to the public. To ensure compliance with state law, the city's policy should indicate the location of city records, the persons responsible for maintaining each record, and detailed instructions for citizens to request access to public records and how the city will handle these requests.

**WE RECOMMEND** the Board of Aldermen:

- A. Ensure a complete and up-to-date set of ordinances is maintained. This would include passing new ordinances where appropriate and required.
- B. Ensure the board minutes are signed by the Mayor and the City Clerk to attest to their completeness and accuracy.
- C. Ensure minutes are maintained to document the matters discussed in the closed meetings.
- D. Require the tentative agenda to summarize the topics to be discussed during the board meeting.
- E. Include the name and address of the custodian of records on the standard document request form.

## **AUDITEE'S RESPONSE**

A. *We will attempt to implement this recommendation but believe this will take some time to complete.*

B-E. *We will attempt to implement these recommendations before July 1, 2000.*

|                         |
|-------------------------|
| <b>5. City Property</b> |
|-------------------------|

- A. The city had not prepared and maintained permanent, detailed property records for general fixed assets, including the cost of land, buildings, equipment, and furniture owned by the city. In addition, the city had not prepared and maintained permanent, detailed property records for the water and sewer system. Also, annual physical inventories are not performed. At our request, the City did prepare an inventory list for general fixed assets including the water and sewer system.

Property records for general fixed assets are necessary to ensure accountability for all items purchased and owned and for determining the proper amount of insurance coverage.

To develop appropriate records and procedures for general fixed assets and the fixed assets of the water and sewer system, the city needs to undertake a comprehensive review of all property owned by the city. Assets should be counted, tagged for specific identification, and recorded by description and serial number in a detailed property ledger at historical cost or estimated historical cost if the original cost is not available. The city should properly record all fixed asset transactions, and ensure the accuracy of the recorded fixed assets. Periodically, the city should take physical counts of its assets and compare to the detailed records.

- B. The city has one patrol car and one tractor. The police officer began keeping a gasoline log and a daily activity log for the patrol car in July 1999. However, the board did not review these logs and there were no reconciliations to actual gasoline purchases. The logs were incomplete, and some of the daily activity logs were missing. A usage log is not maintained for the tractor.

Logs are necessary to document appropriate use of the vehicles and to support gasoline charges. The logs should include the purpose and destination of each trip, the daily beginning and ending odometer readings, and the operation and maintenance costs. These logs should be reviewed by a supervisor to ensure all mileage is recorded, the vehicles are being properly utilized, and help identify vehicles which should be replaced. Information on the logs should be reconciled to fuel purchases and other maintenance charges.

**WE RECOMMEND** the Board of Aldermen:

- A. Maintain property records for general fixed assets and the fixed assets of the water and sewer system that include all pertinent information for each asset, such as tag number, description, cost, acquisition date, location, and subsequent disposition. In addition, annual physical inventories should be performed.
- B. Maintain complete and accurate mileage, usage, and maintenance logs for each vehicle. The logs should be reviewed by a supervisor periodically for completeness and reasonableness.

**AUDITEE'S RESPONSE**

*We will attempt to implement these recommendations before July 1, 2000.*

|  |
|--|
| <b>6. Elected Officials' Compensation and Appointments</b> |
|--|

- A. Former Mayor Clark was elected in April 1998 to serve a two year term, but she resigned in June 1998. At that time, Alderman Roberts was appointed mayor and Jason Baillargeon was appointed to fill the alderman position. These positions were not placed on the April 1999 ballot.

According to Section 79.280, RSMo Cumulative Supp. 1999, if a vacancy occurs in an elective office, the mayor and the board of aldermen are required to appoint a successor who serves until the next regular municipal election, which would have been April 1999. The winning candidate at that election then serves the remainder of the unexpired term, in this instance, until April 2000.

The board of aldermen should ensure that any future vacant offices are filled in compliance with state law.

- B. On March 10, 2000, the Board of Aldermen voted to raise the salary of the Collector from \$170 to \$250 monthly. The Collector position was up for election in April 2000, and the last filing date for this election was January 18, 2000. The current Collector was the only one who filed for this position. This increase in salary could have influenced additional citizens to run for this position.

Voting the salary increase after the filing date to run for office has expired, gives the appearance of preferential treatment. The city should amend any elected officials salary and benefits prior to the last filing date for election to provide the most current information for those contemplating running for office; however, the salary and benefit increase should not take effect until the new term begins as required by Section 79.270, RSMo 1994.

**WE RECOMMEND** the Board of Aldermen

- A. Ensure vacant elective offices are filled in compliance with state law.
- B. Set any salaries and benefits for elected officials prior to the last filing date for that office.

**AUDITEE'S RESPONSE**

*We will implement these recommendations immediately.*

|                              |
|------------------------------|
| <b>7. Traffic Violations</b> |
|------------------------------|

The City of Clark issues traffic tickets, and the court cases for the city are heard at the Randolph County Courthouse by the Associate Circuit Judge. The Randolph County Associate Court receives the payment of fines and court costs and then remits the fines to the City of Clark.

The City does not maintain adequate records to account for all traffic tickets issued by the police department. Specifically, the numerical sequence of tickets issued is not accounted for and compared to the listings of cases disposed of by the Associate Court.

Without a proper accounting of the numerical sequence and ultimate disposition of traffic tickets, the city cannot be assured that all tickets issued were properly submitted to the court for processing. A complete log listing each ticket number, the date issued, and violator's name would ensure all tickets issued were properly submitted to the court for processing, properly voided, or not prosecuted. In addition, this listing should be compared to the monthly listing of cases disposed of by the Associate Court to ensure all tickets have been accounted for properly.

**WE RECOMMEND** the Board of Aldermen ensure records are maintained to account for the numerical sequence and ultimate disposition of traffic tickets.

**AUDITEE'S RESPONSE**

*We will comply with this recommendation if we employ a police officer again in the future.*

SPECIAL REVIEW OF THE  
CITY OF BELLFLOWER, MISSOURI

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-41  
June 5, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

June 2000

**The following problems were discovered as a result of a special review conducted by our office of the City of Bellflower, Missouri in response to the request of the Governor.**

-----

From January 1998 through February 2000, more than \$11,000 was misappropriated from the city. Some water, sewer and trash receipts, water meter and sewer deposits, and various miscellaneous receipts which had been turned over to the city treasurer, were not deposited in the bank accounts. Amounts shown on the monthly financial reports reflected more receipts than were deposited, and a larger cash balance than was in the bank account. In addition, various bank records and copies of deposit slips were missing. This helped to conceal the cash shortage.

Nancy Fischer, who served as city treasurer since January 1998, resigned in February 2000.

The city clerk collects most city receipts, except for court monies, and transmits them to the city treasurer. A receipt slip is prepared by the city clerk and signed by the city treasurer which documents the amount of cash and checks turned over and the type of collections (utility payments, property taxes, water meter and sewer deposits, etc). The city treasurer then prepares a deposit slip and deposits the monies into the various bank accounts.

From January 1, 1998, through February 29, 2000, receipt slips showed monies totaling \$11,187 were turned over to the city treasurer, but were not deposited.

The former city treasurer has found and/or repaid \$1,142 of these undeposited monies to the Missouri State Highway Patrol during the course of its investigation. These monies are currently held by the Missouri State Highway Patrol. In addition, the city found a money order for \$147 at city hall which has subsequently been deposited. As a result, a net amount of \$9,898 is still missing.

Monthly financial reports prepared by the treasurer reflected more receipts than were deposited and a larger cash balance than was in the bank account. In addition, various bank records and copies of deposit slips are missing. This helped to conceal the cash shortage.

(over)

YELLOW SHEET

The shortage was undetected for a length of time due to several internal controls weaknesses, including inadequate segregation of duties and lack of independent review, as discussed later in this report.

Information gathered during our review has been turned over to the Missouri State Highway Patrol.

Accounting duties were not adequately segregated. The city treasurer made deposits, prepared and signed the checks, reconciled the bank statements and prepared the monthly reports. There was no reconciliation between the monies turned over to the treasurer and the amounts deposited, or warrants approved by the board and the actual payments. In addition, there was not an independent review of the bank reconciliations, or monthly financial reports.

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

Honorable Mel Carnahan  
Governor of Missouri  
and  
The Honorable Mayor  
and  
Members of the Board of Aldermen  
City of Bellflower  
Bellflower, MO 63333

By his authority under Section 26.060, RSMo, Governor Carnahan requested the State Auditor's Office perform a review of the City of Bellflower, Missouri. In response to this request, the Missouri State Auditor's Office conducted a review of the city. The objectives of this review were to:

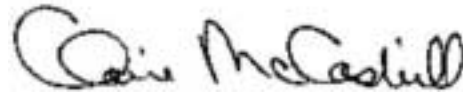

1. Investigate suspected irregularities in the handling and depositing of various city receipts.
2. Determine the amount of funds misappropriated from the city.
3. Review and evaluate certain controls and procedures regarding collection of and accounting for various city receipts.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard we reviewed the financial records and procedures of the city and interviewed personnel of the city.

Our review was limited to the specific matters described above and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings and recommendations arising from our review of the city of Bellflower.

A handwritten signature in black ink, reading "Claire McCaskill". The signature is cursive and fluid, with the first name "Claire" and last name "McCaskill" clearly distinguishable.

Claire McCaskill  
State Auditor

May 12, 2000 (fieldwork completion date)

The following auditor participated in the preparation of this report:

Director of Audits: Karen Laves, CPA

## EXECUTIVE SUMMARY

SPECIAL REVIEW OF THE  
CITY OF BELLFLOWER, MISSOURI  
EXECUTIVE SUMMARY

From January 1998 through February 2000, more than \$11,000 was misappropriated from the city. Some water, sewer and trash receipts, water meter and sewer deposits, and various miscellaneous receipts which had been turned over to the city Treasurer, were not deposited in the bank accounts. Amounts shown on the monthly financial reports reflected more receipts than were deposited, and a larger cash balance than was in the bank account. In addition, various bank records and copies of deposit slips were missing. This helped to conceal the cash shortage.

Nancy Fischer, who served as city Treasurer since January 1998, resigned in February 2000.

## MANAGEMENT ADVISORY REPORT

SPECIAL REVIEW OF THE  
CITY OF BELLFLOWER, MISSOURI  
MANAGEMENT ADVISORY REPORT

The Missouri State Highway Patrol contacted the State Auditor's Office on February 28, 2000, concerning possible irregularities regarding city financial records. Based on this contact, the State Auditor's Office performed a preliminary review of certain records of the city of Bellflower. Based on the results of this preliminary review, Governor Mel Carnahan, by his authority under Section 26.060, RSMo, requested in March 2000 the State Auditor's Office perform a special review of the city of Bellflower, Missouri. Following are our comments regarding the city's policies and procedures.

|           |                              |
|-----------|------------------------------|
| <b>1.</b> | <b>Missing Cash Receipts</b> |
|-----------|------------------------------|

The city clerk collects most city receipts, except for court monies, and transmits them to the city treasurer. A receipt slip is prepared by the city clerk and signed by the city treasurer which documents the amount of cash and checks turned over and the type of collections (utility payments, property taxes, water meter and sewer deposits, etc). The city treasurer then prepares a deposit slip and deposits the monies into the various bank accounts.

From January 1, 1998, through February 29, 2000, receipt slips showed monies totaling \$11,187 were turned over to the city treasurer, but were not deposited as shown below:

|                                    |                 |
|------------------------------------|-----------------|
| Year ended December 31, 1998       | \$5,470         |
| Year ended December 31, 1999       | 5,207           |
| Two months ended February 29, 2000 | <u>510</u>      |
| Total Undeposited Monies           | <u>\$11,187</u> |

The former city treasurer has found and/or repaid \$1,142 of these undeposited monies to the Missouri State Highway Patrol during the course of its investigation. These monies are currently held by the Missouri State Highway Patrol. In addition, the city found a money order for \$147 at city hall which has subsequently been deposited. As a result, a net amount of \$9,898 is still missing.

Monthly financial reports prepared by the treasurer reflected more receipts than were deposited and a larger cash balance than was in the bank account. In addition, various bank records and copies of deposit slips are missing. This helped to conceal the cash shortage.

The shortage was undetected for a length of time due to several internal control weaknesses, including inadequate segregation of duties and lack of independent review, as discussed later in this report.

Information gathered during our review has been turned over to the Missouri State Highway Patrol.

**WE RECOMMEND** the city continue to work with law enforcement officials regarding any criminal prosecution and to obtain restitution of the missing funds.

**AUDITEE'S RESPONSE:**

*We initially found irregularities in several funds and contacted the Missouri State Highway Patrol. We will continue to work with law enforcement until the matter is fully resolved.*

|  |
|--|
| <b>2. Accounting Controls and Procedures</b> |
|--|

- A. Accounting duties were not adequately segregated. The city treasurer made deposits, prepared and signed the checks, reconciled the bank statements and prepared the monthly reports. There was no reconciliation between the monies turned over to the treasurer and the amounts deposited, or warrants approved by the board and the actual payments. In addition, there was not an independent review of the bank reconciliations, or monthly financial reports.

To ensure monies are properly recorded and handled, the duties of depositing and disbursing monies need to be segregated from reconciling the accounts and preparing monthly financial reports. At a minimum, there should be a reconciliation of receipts to deposits, and approved warrants to checks, as well as an independent review of bank reconciliations and monthly reports.

- B. The city maintains twelve bank accounts. Except for separate accounts for the Water and Sewer Bond Reserve accounts, it appears many accounts could be consolidated. In addition to the time required to reconcile this number of accounts, an increased number of checks are written and deposits are made. Currently, a large number of checks are written to transfer monies and allocate expenditures among the various funds. Depositing procedures are also complicated when a single check is written for payment into various funds.

Consolidating bank accounts would help simplify the city's records and reduce the number of accounts that must be monitored and controlled. Accordingly, the time required to reconcile accounts, write checks and make deposits would be reduced.

- C. Financial statements were not published or submitted to the State Auditor's office, as required by state law, for 1998 or 1999. Section 79.160, RSMo 1994, requires the Board of Aldermen to prepare and publish semi-annual financial statements. Section 105.145 RSMo 1994, requires political subdivisions to file an annual report of the financial transactions of the political subdivision with the State Auditor's office.

STATE OF MISSOURI

SINGLE AUDIT

YEAR ENDED JUNE 30, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-40  
May 26, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

May 2000

**The State Auditor's Office has completed an audit of the federal grant programs administered by the State of Missouri. The state is required by the federal Single Audit Act and the U.S. Office of Management and Budget, Circular A-133 to have this audit conducted each year for the benefit of the federal agencies that provide federal grant funds to the state agencies. Federal grant funds expended by state agencies totaled \$5.02 billion during the year ended June 30, 1999. The Single Audit noted problems in several different areas related to federal grant funding. In total, the audit questioned the use of \$1,739,510 because the state did not comply with federal requirements. The federal government's share of the questioned costs was \$1,218,147. The following findings are especially noteworthy.**

---

- The Department of Social Services is responsible for determining if payments to service providers are in accordance with state regulations and the state's Medicaid plan. During fiscal year 1999, total expenditures (state and federal share) for inpatient and outpatient hospital services were approximately \$1 billion. The department has not completed reviews of hospital cost reports in a timely manner, which limits the state's ability to make timely rate policy decisions under the federal Medicaid program. Although there are about 150 hospitals in the state that receive Medicaid funding, the Department of Social Services had only performed 18 final cost report settlements during the year ended June 30, 1999.
- The audit noted various problems in the eligibility of recipients of Food Stamps, Temporary Assistance for Needy Families (TANF), and Medicaid as follows:

To help support and encourage clients to obtain employment, the Department of Social Services, Division of Family Services (DFS) has available a day care vendor program that pays part or all of the cost of child care. Under this program, persons wishing to provide day care to Division of Family Services clients are able to register with the Division of Family Services and become eligible to receive direct, state payment for part or all day care provided to children of clients. One of our audit concerns was whether Division of Family Services adequately considered the income it paid to day care vendors who were themselves clients receiving Food Stamp and/or Temporary Assistance for Needy Families benefits when reviewing the vendors eligibility for these benefits. We matched benefit and day care vendor payments and found some recipients had not properly reported their income from providing child day care services and may have received Food Stamp and Temporary Assistance for Needy Families benefits that they were not eligible to receive.

(over)

YELLOW SHEET

Some recipients of state retirement system payments did not properly report their income and received Food Stamp and Temporary Assistance for Needy Families benefits that they may not have been eligible to receive.

Although federal regulations do not allow individuals to receive benefits in more than one state at the same time, the audit noted some recipients who were receiving benefits in Missouri and Kansas at the same time.

Some inmates were incorrectly receiving benefits, which is not allowed by federal regulation and state law.

Some recipients had not correctly reported the value of their automobiles and, as a result, had received benefits they were not entitled to.

Medicaid benefits were paid on behalf of some recipients after they had died.

The Department of Social Services is suppose to have a case file for each recipient of benefits. However, the department's local offices could not locate 23 case files we requested during our audit. Most of these missing files related to the St. Louis City and St. Louis County offices.

Some children received benefits after they became too old under federal regulations to qualify for benefits.

- The Department of Social Services (DSS), through the Division of Aging (DA), provides eligible clients with in-home personal care services. The department's in-home vendor contracts, as well as state law, prohibits vendors from employing persons listed on the Division of Aging Employee Disqualification Listing (EDL). We matched persons on the division's Employee Disqualification Listing to 1998 employment records of in-home health care providers and noted nine instances in which a person on the disqualification listing was providing these services to the elderly under contract with the Department of Social Services.

## INTRODUCTORY SECTION

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

LETTER OF TRANSMITTAL

Honorable Mel Carnahan, Governor  
and  
Members of the General Assembly

I am pleased to submit the report on the Single Audit of the state of Missouri, covering the fiscal year ended June 30, 1999.

The United States Congress passed the Single Audit Act of 1996 to establish new requirements for audits of states, local governments and non-profit organizations with respect to federal award programs. The Office of Management and Budget (OMB) revised Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* to prescribe policies, procedures, and guidelines to implement the new Single Audit Act.

The Single Audit conducted by my office meets the requirements of the Single Audit Act of 1996 and covers expenditures of federal awards totaling \$5.02 billion by the state during the year.

The following charts and graphs provide summary information related to the expenditure of federal awards for the state of Missouri.

A handwritten signature in cursive script that reads "Claire McCaskill".

Claire McCaskill  
State Auditor

STATE OF MISSOURI  
SUMMARY OF TYPE A PROGRAMS AND TOTAL EXPENDITURES OF FEDERAL AWARDS  
YEAR ENDED JUNE 30, 1999

| CFDA<br>Number | Federal Program Name  | Federal Grantor Agency          | Federal Awards<br>Expended |
|----------------|---|---------------------------------|----------------------------|
| 10.550         | Food Distribution   | Agriculture                     | \$ 15,556,696              |

## STATE AUDITOR'S REPORTS

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND ON INTERNAL  
CONTROL OVER FINANCIAL REPORTING**

Honorable Mel Carnahan, Governor  
and  
Members of the General Assembly

We have audited the general purpose financial statements of the state of Missouri as of and for the year ended June 30, 1999, and have issued our report thereon dated December 23, 1999. We did not audit the financial statements of the Missouri Department of Transportation, which statements constitute 2 percent and 7 percent, respectively, of the assets and revenues of the special revenue funds; 59 percent and 98 percent, respectively, of the assets and revenues of the capital projects funds; 18 percent of the general fixed asset account group; and 7 percent of the long-term debt account group. We did not audit the financial statements of the Missouri State Lottery, which statements constitute 48 percent and 94 percent, respectively, of the assets and revenues of the enterprise funds. We did not audit the financial statements of the Missouri Consolidated Health Care Plan, Missouri State Employees' Insurance Plan, and the Missouri Department of Transportation Self Insurance Plan, which statements constitute 44 percent and 55 percent, respectively, of the assets and operating revenues of the internal service funds. We did not audit the financial statements of the Missouri State Employees' Deferred Compensation Plan, which statements constitute 50 percent and 28 percent, respectively, of the assets and revenues of the expendable trust funds. We did not audit the financial statements of the pension trust funds, which statements constitute 80 percent of the assets of the agency and trust funds. We did not audit the financial statements of the colleges and universities and the component units, which statements constitute 28 percent of the assets for all fund types and account groups. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to these amounts, is based on the reports of the other auditors. Our report expressed a qualified opinion on the general purpose financial statements because we were not allowed access to tax returns and related source documents for income taxes. Except as discussed in the preceding sentence, we conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

## Compliance

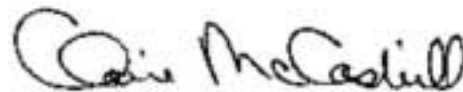

As part of obtaining reasonable assurance about whether the state of Missouri's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

## Internal Control Over Financial Reporting

In planning and performing our audit, we considered the state of Missouri's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal controls over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

The State Auditor's office regularly issues management reports on the various programs, agencies, divisions, and departments of the state of Missouri. The conditions mentioned in those management reports were considered in determining the nature, timing, and extent of the audit tests to be applied in our audit of the general purpose financial statements. Our reports of these conditions do not modify our report dated December 23, 1999, on the general purpose financial statements.

This report is intended for the information of the management of the state of Missouri and federal awarding agencies. However, this report is a matter of public record and its distribution is not limited.

Claire McCaskill  
State Auditor

December 23, 1999 (fieldwork completion date)

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM, INTERNAL CONTROL  
OVER COMPLIANCE, AND SUPPLEMENTARY SCHEDULE OF EXPENDITURES OF  
FEDERAL AWARDS IN ACCORDANCE WITH OMB CIRCULAR A-133

Honorable Mel Carnahan, Governor  
and  
Members of the General Assembly

Compliance

We have audited the compliance of the state of Missouri with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 1999. The state's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the state's management. Our responsibility is to express an opinion on the state's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the state's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the state's compliance with those requirements.

In our opinion, the state of Missouri complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 1999. However, the results of our audit procedures disclosed instances of noncompliance with those requirements that are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items 99-2 to 99-15.

### Internal Control Over Compliance

The management of the state of Missouri is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to the federal programs. In planning and performing our audit, we considered the state's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgement, could adversely affect the state's ability to administer a major federal program in accordance with applicable requirements of laws, regulations, contracts and grants. Reportable conditions are described in the accompanying schedule of findings and questioned costs as items 99-2 and 99-4 to 99-15.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, of the reportable conditions described above, we consider item 99-12 to be a material weaknesses.

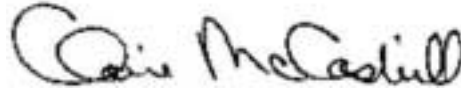

### Schedule of Expenditures of Federal Awards

We have audited the general purpose financial statements of the state of Missouri as of and for the year ended June 30, 1999, and have issued our report thereon dated December 23, 1999. That report expressed a qualified opinion on the general purpose financial statements because we were not allowed access to tax returns and related source documents for income taxes. Except as discussed in the preceding sentence, we conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Our audit was performed for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the general purpose financial statements. The state of Missouri has excluded federal award expenditures of public universities from the accompanying Schedule of Expenditures of Federal Awards. The information in the Schedule of Expenditures of Federal Awards has been subjected to the auditing procedures applied in the audit of the general purpose

financial statements and, in our opinion, except for the exclusion of federal award expenditures of public universities, is fairly stated, in all material respects, in relation to the general purpose financial statements taken as a whole.

This report is intended solely for the information of the state's management, federal awarding agencies and pass-through entities, and other applicable government officials. However this report is a matter of public record and its distribution is not limited.

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this statement.

STATE OF MISSOURI  
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

1. Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards of the state of Missouri has been prepared to comply with U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. The circular requires a schedule of expenditures of federal awards showing total expenditures for each federal financial assistance program as identified in the catalog of federal domestic assistance (CFDA), and identification of federal financial assistance programs which have not been assigned a CFDA number.

The accompanying schedule includes all federal financial assistance programs administered by the state of Missouri, except for those accounted for in the college and university fund type of the general purpose financial statements of the state of Missouri for the year ended June 30, 1999. Federal financial assistance provided to entities accounted for in the college and university fund type has been excluded from this audit.

B. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards is presented in accordance with OMB Circular A-133, which defines federal financial assistance as, "... assistance that non-federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations and other assistance, but does not include amounts received as reimbursement for services rendered to individuals."

The schedule presents both Type A and B federal assistance programs administered by the state of Missouri. OMB Circular A-133 establishes the formula for determining the level of expenditures or disbursements to be used in defining Type A and B federal financial assistance programs. For the state of Missouri, Type A programs are those which exceed \$14 million in disbursements, expenditures, or distributions for the year ended June 30, 1999. The determination of major and nonmajor programs is based on the risk-based approach outlined in OMB Circular A-133.

C. Basis of Accounting

The expenditures for each of the federal financial assistance programs are presented on the accounting basis as required by the federal agency which awarded the assistance. Most programs are presented on a cash basis, which recognizes expenditures of federal awards when disbursed in cash. However, some are presented on a modified accrual basis, which recognizes expenditures of federal awards when the related liability is incurred.

The major programs for which expenditures of federal awards are presented on the modified accrual basis are as follows:

17.246 Employment and Training Assistance - Dislocated Workers  
17.250 Job Training Partnership Act  
20.205 Highway Planning and Construction  
84.032 Federal Family Education Loans  
84.181 Special Education - Grants for Infants and Families with Disabilities

2. Special Supplemental Nutrition Program for Women, Infants and Children (WIC) Program Rebates

During the year ended June 30, 1999, the state received cash rebates from two infant formula manufacturers, totaling \$23,862,695 on sales of formula to participants in the WIC Program (CFDA No. 10.557). Rebate contracts with infant formula manufacturers are authorized by 7 CFR 246.16(m) as a cost containment measure. Rebates represent a reduction of expenditures previously incurred for WIC food benefit costs. The state was able to extend program benefits to more persons than could have been served this fiscal year in the absence of the rebate contract.

3. Unemployment Insurance Expenditures from the State Unemployment Compensation Fund

Expenditures reported for the Unemployment Insurance program (CFDA No. 17.225) include unemployment benefit payments from the State Unemployment Compensation Fund totaling \$281,452,340. Reimbursements to other states from the State Unemployment Compensation Fund for benefits paid by those states totaling \$15,429,345 have also been included in the Unemployment Insurance program expenditure totals. Reimbursements to the State Unemployment Compensation Fund from other states for benefits paid by the State of Missouri totaling \$4,515,191 have been excluded from the Unemployment Insurance program expenditure totals.

4. Nonmonetary Assistance

The Department of Health distributes vaccines to local health agencies and other health care professionals under the Immunization Grants program (CFDA No. 93.268). During the year ended June 30, 1999, distributions were valued at the cost of the vaccines paid by the federal government and totaled \$5,688,713.

The State Agency for Surplus Property distributes federal surplus property to eligible donees under the Donation of Federal Surplus Personal Property program. During the year ended June 30, 1999, property distributions totaled \$12,318,182, valued at the historical cost as assigned by the federal government, which is substantially in excess of the property's fair market value. The amount of expenditures presented on the Schedule of Expenditures of Federal Awards is 23.3 percent of the historical cost, which approximates the fair market value of the property at the time of distribution as determined by the General Services Administration.

The Department of Public Safety distributes excess Department of Defense equipment to state and local law enforcement agencies under the Department of Defense Surplus Property program. During the year ended June 30, 1999, property distributions totaled \$837,332, valued at the historical cost as assigned by the federal government, which is substantially in excess of the property's fair market value. The amount of expenditures presented on the Schedule of Expenditures of Federal Awards is 23.3 percent of the historical cost, which approximates the fair market value of the property at the time of distribution.

### DEPARTMENT OF HIGHER EDUCATION

|              |                                    |
|--------------|------------------------------------|
| <b>99-1.</b> | <b>Default Aversion Assistance</b> |
|--------------|------------------------------------|

|                  |                                       |
|------------------|---------------------------------------|
| Federal Agency:  | Department of Education (USDE)        |
| Federal Program: | 84.032 Federal Family Education Loans |
| State Agency:    | Department of Higher Education (DHE)  |

The Department of Higher Education (DHE) contracts with a loan program servicer to maintain records, process loans and claims, and collect on defaulted loans guaranteed through the Federal Family Education Loans (FFEL) program. Under the terms of the contract, the loan program servicer is also responsible for providing preclaims assistance on loans that are between 50 to 70 days delinquent. The DHE contracts with another company to provide supplemental preclaims assistance (SPA) on loans that are at least 120 days delinquent. Prior to the reauthorization of the Higher Education Act (HEA), effective October 7, 1998, the DHE received a SPA fee on delinquent loans that were cured in accordance with 34 Code of Federal Regulation (CFR) Part 682.404.

The reauthorization of the HEA replaced preclaims assistance and SPA with a single activity, default aversion assistance. Default aversion assistance consists of the activities of a guaranty agency that are designed to prevent defaults by borrowers who are at least 60 days delinquent. The default aversion activities are similar to activities previously performed for preclaims assistance and SPA. Final regulations governing default aversion activities were issued by the USDE on October 29, 1999, with an effective date of July 1, 2000.

- A. The reauthorization legislation eliminated the SPA fee but allowed the DHE to receive default aversion fees for performing default aversion activities on delinquent loans in response to a lender's request for default aversion assistance. The DHE, in conjunction with its loan servicer, developed a default aversion billing process to implement the new legislation retroactive to October 7, 1998.

The DHE has experienced some difficulties in implementing the default aversion billing

process. Prior to the issuance of its final regulations on October 29, 1999, the USDE twice issued preliminary guidance to guaranty agencies that changed the method for calculating default aversion fees. The DHE attempted to revise its billing processes to implement the new guidance but made errors that caused some loans to be billed more than once. According to the final regulations issued by the USDE, a guaranty agency may bill for a default aversion fee only once for each loan.

To ensure default aversion fees are not under or over billed, the DHE should consult with the USDE and ensure they are properly calculating the fees. In addition, they should ensure no duplicate billing occurs.

- B. The final regulations issued by the USDE on October 29, 1999, also included a prohibition against conflicts stating that any outside entity with whom a guaranty agency contracts may not perform default aversion activities and hold or service a loan, or collect on a defaulted loan within three years of the claim payment date. Although the DHE has entered into a contract with an entity other than its loan servicing contractor to perform default aversion activities, as of December 22, 1999, the DHE had not assigned accounts to the new contractor. The DHE's loan servicer is continuing to provide preclaims assistance until the new contract is implemented.

Allowing the loan servicer to continue providing preclaims assistance while servicing and collecting on the same loans appears to violate the prohibition against conflicts. According to USDE personnel, because the DHE elected to retroactively implement the default aversion fee billings, the DHE should implement all of the default aversion activities rules including the prohibition against allowing a single entity to perform default aversion assistance and service or collect on the same loans. As of June 30, 1999, the loan program servicer did not perform collection activities on the loans for which it provided default aversion activities because those loans did not have time to default. However, the DHE has not established procedures to ensure that the loan program servicer does not perform collection activities on those loans in the future.

To ensure the collection of all default aversion fees, the DHE should contact the USDE to determine if the DHE is eligible to receive default aversion fees when the loan program servicer performs some of the default aversion assistance activities.

**WE RECOMMEND** the DHE:

- A. Consult with the USDE and establish procedures to ensure default aversion billings are accurate and complete. In addition, adjustments should be made to correct the duplicate billings.
- B. Resolve the issue concerning the prohibition against conflicts with the USDE.

**AUDITEE'S RESPONSE**

- A. *We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.*
- B. *We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.*

DEPARTMENT OF SOCIAL SERVICES - DIVISION OF AGING

|   |
|---|
| <b>99-2. In-Home Service Vendors Employing Disqualified Workers</b> |
|---|

Federal Agency: Department of Health and Human Services  
Federal Program: 93.778 Medical Assistance Program  
State Agency: Department of Social Services (DSS)  
Questioned Costs: \$17,286

The DSS through the Division of Aging (DA) provides eligible clients with in-home personal care services. The DSS in-home vendor contracts, as well as state law, prohibit vendors from employing persons listed on the DA Employee Disqualification Listing (EDL). Persons listed in the EDL have been determined to have abused or neglected DA clients, misappropriated funds of those clients, or defrauded the program by billing for undelivered services. There are approximately 700 persons on the DA EDL.

We matched persons on the DA EDL to 1998 employment information records and noted nine instances in which a person listed in the DA EDL worked for an in-home health provider under contract with the DSS. The DA obtained vendor service records related to services performed by these nine persons, and identified estimated total recoverable costs of \$28,695. We are questioning the federal share (60.24 percent) of these costs, which is \$17,286. As of November 23, 1999, the DA had sent recoupment letters to the vendors.

The DA manually checks quarterly employment data for 25 percent of the persons listed in the DA EDL, however, this process failed to detect the instances noted above. The DA should develop an automated process to match the EDL to employment records to identify all disqualified persons working for in-home providers.

**WE RECOMMEND** the DSS resolve the questioned costs with the grantor agency. In addition, the DSS should develop an automated system to identify all disqualified persons working for in-home service vendors and continue to seek recoupment for any services performed by disqualified persons.

**AUDITEE'S RESPONSE**

*We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.*

DEPARTMENT OF SOCIAL SERVICES -  
DIVISION OF CHILD SUPPORT ENFORCEMENT

**99-3.**

**Expenditures**

|                   |  |
|-------------------|--|
| Federal Agency:   | Department of Health and Human Services                                      |
| Federal Program:  | 93.563 Child Support Enforcement   |
| State Agency:     | Department of Social Services - Division of Child Support Enforcement (DCSE) |
| Questioned Costs: | \$755,911  |

- A. During our review of expenditures charged to the Child Support Enforcement (CSE) grant, we noted the DCSE included costs associated with the Parents Fair Share (PFS) program. The state uses this program to help non-custodial parents (NCPs) obtain skills which will allow them to meet child support financial obligations. Upon discussion with DCSE management about whether or not costs for this program were allowable under the CSE grant, we learned the federal Office of Child Support Enforcement (OSCE) had issued a draft report dated December 8, 1999, which questioned these costs. The draft report identified \$1,112,636 (federal share \$734,340) in PFS program costs which had been inappropriately charged to the CSE grant for the period January 1, 1998 through March 31, 1999. These costs were considered unallowable because 45 CFR 304.23(d) prohibits CSE grant expenditures for education and training programs and educational services except short-term training for a state's CSE staff. Additionally, the draft report indicated Section 466(a)(15) of the Social Security Act does not require any state CSE program to establish, provide, or administer work activity programs for NCPs. The OCSE draft report recommended PFS program costs no longer be charged to the CSE grant and the federal share of the identified unallowed PFS program costs be reimbursed to the federal government as well as the federal share of any other PFS program costs charged to the CSE grant after March 1999.

The DCSE continued to charge PFS program costs to the CSE grant until September 30, 1999; however, the additional amount of questioned costs was not determined. The OCSE addressed computation and resolution of these additional questioned costs in the recommendations to the DCSE.

- B. In the draft report referred to in part A. above, the OCSE also noted some personnel and other administrative costs of the Missouri Department of Health (DOH) to provide birth record information to the DCSE were inappropriately charged to the CSE grant. The DCSE reimbursed the DOH for costs associated with providing this information under an

agreement between the two agencies. The OCSE draft report identified \$32,684 (federal share \$21,571) in DOH costs which had been inappropriately charged to the CSE grant during the period January 1, 1998 through March 31, 1999. These costs were considered unallowable because OCSE Action Transmittal 94-06 indicates costs other than for access to a state's birth record database and a reasonable and necessary fee for copies of voluntary acknowledgments and birth records are not allowable charges to the CSE grant unless the database of birth records is maintained by the CSE agency. The OCSE recommended payments to the DOH be discontinued beyond normal birth certificate and acknowledgment copying costs and the federal share of the identified unallowed costs be reimbursed to the federal government as well as the federal share of any other unallowed DOH costs charged to the CSE grant for prior periods.

**WE RECOMMEND** the DCSE resolve the questioned costs with the grantor agency. In addition, we recommend the DCSE establish procedures to ensure costs charged to the Child Support Enforcement grant are allowable for federal reimbursement.

**AUDITEE'S RESPONSE**

*We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.*

DEPARTMENT OF SOCIAL SERVICES -  
DIVISION OF FAMILY SERVICES

**99-4.**

**Eligibility-Unreported Income**

|                  |   |                         |
|------------------|---|-------------------------|
| Federal Agency:  | Department of Agriculture and Department of Health and Human Services |                         |
|                  |   | <u>Questioned Costs</u> |
| Federal Program: | 10.551 Food Stamps  | \$174,699               |
|                  | 93.558 Temporary Assistance for Needy Families                        | 57,088                  |
| State Agency:    | Department of Social Services - Division of Family Services (DFS)     |                         |

- A. To help support and encourage clients to obtain employment, the DFS has available a child day care vendor program that pays part or all of the cost of child care. Under the child care vendor program, persons wishing to provide such child day care to DFS clients are able to register with DFS and become eligible to receive direct, state payment for part or all day care provided to children of clients. Those vendors can also provide day care services for others who may not be participating in the DFS supported programs.

One of our audit concerns was whether DFS adequately considered the income it paid to day care vendors who were themselves also clients receiving Food Stamps and/or

Temporary Assistance for Needy Families (TANF) benefits when reviewing their eligibility in making initial application or reapplication for benefits.

To test the effectiveness of DFS procedures for determining client or applicant earned income, we performed a match of computer records of TANF and Food Stamp clients as of April 1999 with computer records of DFS paid child day care vendors. The match identified 4,495 TANF and/or Food Stamp clients who also received DFS state paid child day care vendor payments. The 4,495 clients would receive approximately \$1.5 million in state day care vendor payments each month. We selected 61 of these 4,495 cases for further review to determine if the clients' day care vendor income had been properly considered in determining eligibility. The DFS could not locate 8 of the 61 case files we requested. Of the 53 cases we did review, 26 (49 percent) clients had not reported their state paid child day care vendor income, nor did the DFS discover its own payments to 24 of those same clients. These 26 cases resulted in unreported income in the amount of \$33,790 for the month of April 1999. The following table provides greater detail on the 26 cases with unreported income:

| Case No. |     | State Paid Child Day Care Income not Reported for April 1999 | Assistance Amount for April 1999 |              | As of 8/30/99 Number of Months of Unreported State Paid Child Day Care Income (4) | Total Assistance Amount Questioned Through August 30, 1999 |               | Client Also Received Medicaid Coverage During Period of Unreported Income (1) | TANF and Food Stamp Case Status As of 8/30/99 |
|----------|-----|--|----------------------------------|--------------|---|--|---------------|---|---|
|          |     |  | TANF                             | Food Stamp   |   | TANF   | Food Stamp    |   |   |

- (1) Clients were also receiving Medicaid coverage during the period in question; however, we did not determine how the unreported income would effect their Medicaid benefits.
- (2) DFS determined the client did not report their child day care income at the time the case expired. No recoupment claim has been filed.
- (3) DFS determined the client did not report their child day care vendor income and benefits were reduced. However, no recoupment claim had been filed as of 11/30/99.
- (4) We were only able to obtain TANF and Food Stamp benefit payment history from 1/96 through 9/99 and 2/96 through 9/99, respectively. Client monthly benefits often varied over time.

In addition, we noted three cases where the caseworker determined that the recipient had received an overpayment, but no recoupment claim was filed. A recoupment claim should be filed on all overpayments.

If the above income reporting and DFS income determination process error rate remained constant throughout the population of 4,495 cases of day care vendors who were also TANF and Food Stamp recipients, Food Stamp and TANF benefits totaling over \$720,000 may be questionable.

It should be noted that the amounts noted above do not include child day care income that the client/vendor may be receiving from their private pay customers. The unreported income directly affects the clients' eligibility and the amount of their monthly assistance payments. Thus, the unreported income may easily result in lower or zero monthly assistance payments.

Based on the results documented in the above table, these 26 cases received approximately \$48,606 in Food Stamp benefits and approximately \$27,347 in TANF benefits from April 1, 1999 through August 30, 1999 that they may not have been eligible to receive. These benefits are questionable and should be investigated. We are questioning the federal portion of the TANF amount which is \$16,682 and \$48,606 in Food Stamp assistance.

It appears DFS often fails to properly access its own records of child day care vendor income paid to Food Stamp and TANF applicants while making initial or continuing eligibility determinations.

- B. To test the effectiveness of the DFS procedures for properly determining unearned income, we performed a match of TANF and Food Stamp clients as of April 1999 with retirement and disability benefit recipients of the Missouri State Employee Retirement System (MOSERS). The match identified 128 TANF and/or Food Stamp clients who were also receiving MOSERS retirement or disability payments. We reviewed DFS computer records and TANF and Food Stamp case files to determine if the 128 individuals were properly reporting their retirement and disability benefits to the DFS. Of the 128 individuals, 49 (38 percent) had not properly reported their retirement or disability benefits to the DFS caseworkers, resulting in unreported income of \$9,425 for the month of April 1999.

Twenty-seven of the 49 clients did not report any retirement or disability benefits and 22 incorrectly reported their retirement or disability benefits. The following tables provide greater detail for the 49 cases reviewed:

### UNREPORTED RETIREMENT OR DISABILITY INCOME

| Case No. | Unreported MOSERS income for April 1999 | Assistance Amount for April 1999 |              | As of 9/30/99 Number of Months of Questioned Assistance Payments(1) | Total Assistance Amount Questioned Through September 30, 1999 |               | Case Status As of 9/30/99 |

|          | \$   | <u>1,821</u> | \$ <u>1,004</u>                     | <u>1,150</u>  |   | <u>31,472</u>  | <u>34,355</u> |                              |

- (1) We were only able to obtain TANF and Food Stamp benefit payment history from 1/96 through 9/99 and 2/96 through 9/99, respectively. Client monthly benefits often varied over time.

Based on the results documented in the two tables above, these 49 cases received approximately \$126,093 in Food Stamp benefits and approximately \$66,240 in TANF benefits from April 1, 1999 through September 30, 1999 that they may not have been eligible to receive. These benefits are questionable and should be investigated. We are questioning the federal portion of the TANF amount which is \$40,406 and \$126,093 in Food Stamp assistance.

The DFS needs to take steps to enhance the accuracy and effectiveness of its review of the unearned income of client applicants for initial or continuing eligibility determinations.

C. For the 22 MOSERS clients (noted in part B above) that underreported their retirement or disability benefits, we also noted various errors made by caseworkers including apparent failure to perform adequate verification of the client's income. Examples of the various errors noted were:

- 1) A client properly reported the retirement or disability benefit on the October 1998 Food Stamp application; however, on the reapplication dated March 1999, the retirement benefit was not reported. The caseworker failed to review the file and to ensure the MOSERS benefit already noted in the case record was properly considered when setting the Food Stamp benefit amount. This caused the Food Stamp benefit payment to exceed the proper amount allowable. A similar error also appeared to have been made on the client's Social Security income at the same time.
- 2) A client's Food Stamp application dated June 1998 did not consider the retirement benefit in the assistance payment calculation even though the case file contained a copy of the client's retirement payment check stub from May 1998. The caseworker failed to properly include the income in making the assistance payment calculation.
- 3) A client's case file included a copy of the client's retirement check; however, the net income from the check was used in the benefit calculation instead of the required gross income. Similarly, net income was also used on another case which included a summary of disability benefits which clearly indicated the gross income received. In both instances the caseworker failed to appropriately use gross income in the assistance payment calculation. Failure to use the correct income often results in overpayment of assistance benefits.
- 4) We noted several clients who had properly reported their MOSERS benefits, but failed to report cost of living increases that would permit assistance payments to be recalculated. MOSERS recipients receive a cost of living increase once each year on their retirement anniversary date.

The DFS requires each TANF and Food Stamp applicant to sign a "Notification of Fraud Provisions" statement. This form states that a client has ten days to report changes in income. However, based on the results noted above, it appears the DFS does not have adequate procedures in place to properly identify and respond to client's changing income. As a result, the DFS appears to have made numerous TANF and Food Stamp overpayments to clients.

DFS procedures need to be improved to help ensure all client income is reported and properly considered in determining assistance payments.

**WE RECOMMEND** the DFS resolve the questioned costs with the grantor agency. In addition, the DFS should investigate the cases noted above and establish recoupment claims where appropriate. Further, the DFS should:

- A. Ensure caseworkers consider DFS records of state paid child day care income paid to Food Stamp and TANF applicants when making eligibility determinations.
- B. Establish a periodic match with the MOSERS to help ensure Food Stamp and TANF recipients report all unearned income.
- C. Ensure caseworkers verify earned and unearned income and properly consider gross income in determining client eligibility and in setting assistance payment amounts.

**AUDITEE'S RESPONSE**

- A. *We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.*
- B. *We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.*
- C. *We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.*

| <b>99-5. Independent Living Expenditures and Eligibility</b> |
|--|

|                   |   |
|-------------------|---|
| Federal Agency:   | Department of Health and Human Services                           |
| Federal Program:  | 93.674 Independent Living   |
| State Agency:     | Department of Social Services - Division of Family Services (DFS) |
| Questioned Costs: | \$86,555  |

Because children raised under the state's foster care program often need assistance in making the transition from being dependent children to independent adults, the DFS uses Title IV-E Independent Living (IL) monies to assist foster youth in becoming independent. Under 42 USC Section 677 (a), youth ages 16 to 21 who are in foster care or were in foster care after age 16 are eligible to receive IL services to prepare them to live independently. The state may use federal IL monies to provide training in daily living skills, provide educational or vocational counseling, enable youth to seek a high school diploma or college degree, etc. However, section 477 (e) (3) of Title IV-E of the Social Security Act specifies that IL monies may not be used to provide room or

board. In addition, the state's matching contribution is required to follow the specific requirements established for the Independent Living Program (ILP). Thus, state monies used as matching contribution for the ILP cannot be used to provide room or board.

- A. We determined the DFS had expenditures totaling \$115,415 for room or board expenses paid from the ILP. The expenditures were for supervised apartment living or group home living. Based on \$115,415 inappropriately paid from the ILP, we have questioned the federal share of \$85,407 (74 percent).
- B. To ensure only Title IV-E eligible clients received ILP services in compliance with grant requirements, we performed a test of eligibility. We obtained a listing of all youth who received ILP services during state fiscal year 1999. The listing identified a total 976 clients and we selected 40 for review. Of the 40 cases, we found 8 (20 percent) were not eligible for ILP services. The following table provides greater detail on these eight cases:

| Case No. | Month Youth<br>is Eligible<br>for Independent<br>Living Services | Reason Youth Not<br>Eligible During 1999 | Inappropriate<br>Payments From<br>Independent<br>Living Program |
|----------|--|--|---|
| 1        | na   | A  | \$ 266  |
| 2        | 08/00  | B  | 5   |
| 3        | 09/99  | B  | 114   |
| 4        | 02/99  | C  | 554   |
| 5        | 01/99  | C  | 79  |
| 6        | 12/00  | B  | 49  |
| 7        | na   | A  | 456   |
| 8        | 05/99  | C  | 28  |
|          |  |  | <u>\$ 1,551</u>   |

- A Adopted before the age of 16 and was not in the Foster Care program; therefore, was not eligible.
- B Will not turn age 16 until after FY 1999.
- C Turned age 16 during FY 1999; therefore, was eligible only part of 1999.

Based on the results documented in the above table, these 8 clients received at least \$1,551 in federal ILP benefits they were not eligible for and we are questioning the federal share of \$1,148 (74 percent).

In addition to the federally funded ILP services, the state provides ILP services to youth ages 13 to 15 at state expense. DFS employees are required to code these costs to the appropriate state fund as they are incurred. We noted numerous coding errors by DFS employees which resulted in ineligible clients receiving federal ILP monies. Six of the above eight errors were due to coding errors. In some of these cases, it appeared the DFS employee erroneously coded one or two payments on the case to the federal ILP funds and correctly coded the other payments to the state fund. However, in other cases

the ineligible child received all benefits from the federal ILP funds. It appears in these cases the DFS employee was not correctly determining when the child was age eligible to receive federal ILP monies. We believe these errors could be reduced or eliminated if the DFS computer system program was revised to provide better coding information to DFS employees.

Based on the errors noted in parts A and B above, the DFS needs to revise its procedures to ensure federal ILP service funds are only used for eligible clients.

**WE RECOMMEND** the DFS resolve the questioned costs with the grantor agency. In addition, the DFS should:

- A. Ensure that expenditures of the federal ILP are for allowable cost and in compliance with federal requirements or limitations.
- B. Ensure it uses effective procedures to determine whether clients have reached the age eligibility limit that would allow them to receive federal ILP services. In addition, the DFS should also consider computer system changes that would help improve coding accuracy.

**AUDITEE'S RESPONSE**

- A. *We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.*
- B. *We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.*

| <b>99-6.</b> | <b>Eligibility - Child Care Services</b> |
|--------------|--|

|                  |   |                         |
|------------------|---|-------------------------|
| Federal Agency:  | Department of Health and Human Services                         |                         |
|                  |   | <u>Questioned Costs</u> |
| Federal Program: | 93.575 Child Care and Development Block Grant                   | \$2,019                 |
|                  | 93.596 Child Care Mandatory and Matching Funds                  |                         |
|                  | of the Child Care and Development Fund                          | 2,019                   |
| State Agency:    | Department of Social Services-Division of Family Services (DFS) |                         |

The Child Care Development Fund (CCDF) monies are used to pay for child care services for low income working families. Under 45 CFR 98.20(1), children are eligible to receive CCDF services if under age 13 or under age 19 when physically or mentally incapable of caring for themselves or are under court supervision. Once a child reaches any one of these applicable limitations, they are no longer eligible to receive CCDF benefits.

To attempt to comply with the above age limitation rules, the DFS prepares a monthly computer report that identifies CCDF clients reaching age 13 who are expected to no longer be eligible for the benefits. The report is compiled by using the birth date of the child and is sent to the local DFS offices for any necessary case actions, such as closing the case.

A. We obtained a computer file of all the CCDF clients who received child care services during fiscal year 1999. We identified 2,089 clients on the computer file that were age 13 or older and still receiving child care services. We selected 40 of these cases for further review to determine if the client was eligible for the services received. The DFS was unable to locate 8 of the 40 case files requested, in one case the child's birth date was recorded wrong, and we found 8 more cases which the client was not properly identified (See part B below). Of the 23 cases tested, we determined that 12 of the clients were not eligible for CCDF services. The following table provides greater detail on these 12 cases:

| Case Number | Birth Date   | Date Client Became Ineligible | As of 10/99 # of Ineligible Months Paid From CCDF | Total Amount Inappropriately Paid From CCDF | Case Status |
|-------------|--------------|-------------------------------|---|---|-------------|
| 1           | 08/28/85     | 08/28/98                      | 7   | \$ 1,049                                    | Closed 3/99 |
| 2           | (1) 09/27/83 | 09/27/96                      | 6   | 720   | Closed 3/99 |
| 3           | (1) 07/03/85 | 07/03/98                      | 6   | 720   | Closed 3/99 |
| 4           | 04/10/86     | 04/10/99                      | 5   | 533   | Closed 9/99 |
| 5           | 10/03/85     | 10/03/98                      | 6   | 257   | Closed 4/99 |
| 6           | (2) 11/02/83 | 11/02/96                      | 13  | 1,965                                       | Closed 3/99 |
| 7           | 03/30/86     | 03/30/99                      | 1   | 117   | Closed 4/99 |

| 10          | 01/23/85     | 01/23/98                      | 12  | 1,709                                       | Closed 1/99 |
| 11          | 02/16/86     | 02/16/99                      | 6   | 911   | Closed 8/99 |
| 12          | 12/11/85     | 12/11/98                      | 9   | 1,626                                       | Closed 9/99 |
|             |              |                               |   | <u>\$ 10,355</u>                            |             |

- (1) Client received child care benefits from 10/98 to 3/99.
- (2) Client received child care benefits from 3/98 to 3/99.
- (3) Client received child care benefits for 6/99 & 7/99.

Based on the results shown above, these 12 clients received at least \$10,355 in CCDF benefits they were not eligible to receive. Four of these clients did not start receiving benefits until after they turned 13 and were not eligible.

If the above ineligibility error rate remains constant throughout the population of 2,089 cases of children over age 13 receiving CCDF child care payments, the estimated number of clients ineligible for benefits is approximately 627. For the year ended June 30, 1999, the average child care benefit paid per ineligible client was approximately \$863, and 627 clients would receive up to \$541,000 in projected ineligible benefits.

We did not attempt to determine the total amount of incorrect CCDF benefits paid in other fiscal periods for each of the 12 cases. However, for the period tested above we determined that \$10,355 in CCDF benefits are questionable and should be investigated. We are questioning the federal portion of the amount which is \$4,038.

The DFS needs to improve its efforts to ensure the CCDF paid child care services program rules are complied with.

- B. We determined that 8 of the 32 cases (25 percent) discussed above were incorrectly entered into the CCDF database by the caseworker.

In all 8 cases, the head of household's name and other information was entered in place of the child's (or client's) name. These test results suggest that many of the 2,089 CCDF client case files could have similar data entry errors. Considering this information is used to prepare the computer generated report the DFS uses to identify clients who are reaching the age limits for CCDF paid child care, we believe many of the errors noted in part A above are caused by the data entry errors. The DFS needs to improve procedures to ensure client information is correctly entered into the CCDF database.

**WE RECOMMEND** the DFS resolve the questioned costs with the grantor agency. In addition the DFS should:

- A. Review the case errors noted above and initiate recoupment claims for any inappropriate CCDF benefits.
- B. Improve procedures to ensure client information is correctly entered into the DFS CCDF database.

**AUDITEE'S RESPONSE**

- A. *We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.*
- B. *We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.*

**99-7.**

**Eligibility - Kansas Match**

|                  |   |                         |
|------------------|---|-------------------------|
| Federal Agency:  | Department of Agriculture and Department of Health and Human Services | <u>Questioned Costs</u> |
| Federal Program: | 10.551 Food Stamps  | \$ 9,229                |

|               |  |        |
|---------------|--|--------|
|               | 93.778 Medical Assistance Program              | 30,008 |
|               | 93.558 Temporary Assistance for Needy Families | 9,638  |
| State Agency: | Department of Social Services                  |        |

The Department of Agriculture regulation 7 CFR 273.3 (a) does not allow anyone to participate in the Food Stamp program in more than one state in any one month. TANF and Medicaid recipients are also required by Section 208.040, RSMo 1994, and 42 CFR 435.403 to be residents of this state to participate in the program. As a result, no individual may receive Food Stamp, TANF, and/or Medicaid benefits in more than one state at the same time.

- A. In an attempt to comply with these residential limitations, DFS participates in an interstate public assistance data exchange with bordering states. This data exchange allows the Missouri DFS caseworkers to access the bordering states' Food Stamp and public assistance case information files. When an individual applies for Food Stamp or public assistance benefits in Missouri, the caseworker should access the bordering states' case files to ensure the applicant is not receiving benefits in any of those states.

To test the effectiveness of these procedures, we performed a match of the DFS computer records of TANF and Food Stamp clients during April 1999 against computer records of TANF and Food Stamp clients in Kansas during April 1999. The Kansas information was provided by the Kansas Department of Social and Rehabilitation Services (DSRS). The match identified 23 cases that had received Food Stamp and/or TANF benefits in both Missouri and Kansas at the same time. Of the 23 cases, we found 3 that received benefits in both states for 16 to 23 months, and 18 that had received benefits in both states for two or more months. The following table provides greater detail on these 23 cases.

| Case No. |     | As of 8/99 | Total Food Stamp  |                   | Total TANF        |                   | Missouri    | Kansas      |
|----------|-----|------------|-------------------|-------------------|-------------------|-------------------|-------------|-------------|

|          |     | 5-TANF     |                   |                   | 639               | 2,660             | Active      | Closed      |
| 22       | (A) | 2          | 250               | 212               | na                | na                | Closed      | Active      |
| 23       | (A) | 4          | 419               | 572               | na                | na                | Active      | Active      |
|          |     |            | \$ 9,229          | \$ 14,845         | \$ 15,805         | \$ 18,741         |             |             |

(A) The individual or individuals on the case were the same in both Missouri and Kansas.

(B) The case individuals were not the same in both states.

Based on the results documented in the above table, these 23 cases received \$9,229 in Food Stamp benefits and \$15,805 in TANF benefits from April 1, 1999 through August 31, 1999, from Missouri that they do not appear to have been eligible to receive. These benefits are questionable and should be investigated. We are questioning the federal portion of the TANF amount which is \$9,638 and \$9,229 in Food Stamp assistance.

It appears the DFS needs to improve its efforts to prevent and/or identify client frauds involving benefits from multiple states.

- B. Clients who receive Food Stamps or TANF benefits often also qualify for health care coverage under the Medicaid program. Medicaid coverage can take two different forms, one being based on the traditional direct fee for services paid to the health care provider, and the other being based on the HMO model whereby a monthly fee is paid to a care

provider who provides all needed services at no additional charge. The Medicaid HMO model monthly fee is called a capitation payment.

Through our match of Missouri and Kansas client records, we determined that 31 of the individuals who were listed on a Food Stamp or TANF case also had a capitation payment made on their behalf in both states for the same period. The details of these 31 cases are noted in the following table:

| Case No. | As of 5/99 Number of<br>Months of Questioned<br>Capitation<br>Payments | Total Capitation<br>Benefits Paid<br>In Missouri | Total Capitation<br>Benefits Paid<br>In Kansas | Missouri Case<br>Status As Of<br>7/99 | Kansas Case<br>Status As Of<br>7/99 |
|----------|--|--|--|---------------------------------------|-------------------------------------|

| 29       | 3  | 213  | 69   | Active                                | Closed                              |
| 30       | 3  | 219  | 66   | Active                                | Closed                              |
| 31       | 6  | 423  | 162  | Active                                | Active                              |
|          | <u>165</u>   | <u>\$ 13,615</u>                                 | <u>\$ 6,207</u>                                |                                       |                                     |

Based on the results documented in the above table, these 31 individuals received approximately \$13,615 in capitation payments on their behalf, which they were not eligible to receive. We are questioning the federal portion of the Missouri payments, \$8,202.

In two other instances an individual was receiving capitation payments in Missouri and apparently had an active fee for service Medicaid case in Kansas.

We also noted two instances where an individual was receiving capitation payments in Kansas and at the same time direct fee for service payments in Missouri. This resulted in Medicaid direct fee for service payments totaling over \$36,200 in Missouri while capitation payments were being paid in Kansas. We are questioning the federal share (\$21,806) of these payments. These two instances are not reflected in the above table, which provides greater detail on the 31 individuals receiving capitation payments in both states at the same time.

- C. Based on the results of our audit work discussed in parts A and B above, the DFS needs to improve procedures to help ensure Missouri clients do not receive Food Stamps or other public assistance benefits in more than one state at the same time. According to the Kansas DSRS, they would welcome the opportunity to work more closely with the Missouri DFS to prevent clients receiving benefits in both states at the same time. In addition, during our discussions with officials of the Kansas DSRS we learned that the U.S. Department of Health and Human Services Administration For Children and Families (ACF) encourages states to participate in interstate matches conducted through the Public Assistance Recipient Information System (PARIS).

Information provided by the ACF indicates at least 16 states participate in the PARIS project and stand to reap significant program benefits. PARIS participants submit electronic files to be matched with information from all other participating states. In addition, plans call for the future inclusion of federal benefit and earnings information to be provided and included in the PARIS matches. Kansas is currently a PARIS participating state and we encourage the Missouri DFS to also participate in the program as well. Ultimately, DFS participation in the PARIS project should allow the verification of public assistance client reporting of income and benefit circumstances and provide a more accurate determination of program eligibility and payment amounts.

**WE RECOMMEND** the DFS resolve the questioned costs with the grantor agency. In addition the DFS should:

- A. Investigate the questioned payments for Food Stamps and TANF and establish recoupment claims where appropriate.
- B. Investigate the questioned payments for Medicaid and establish recoupment claims where appropriate.
- C. Arrange to participate in the PARIS interstate match program, and enhance its procedures to ensure bordering state public assistance information is reviewed during the application process.

## **AUDITEE'S RESPONSE**

- A. *We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.*
- B. *We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.*
- C. *We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.*

#### **Eligibility-Benefits Provided to Inmates**

|                  |  |                         |
|------------------|--|-------------------------|
| Federal Agency:  | Department of Agriculture and Department of Health and Human Services                                    |                         |
|                  |  | <u>Questioned Costs</u> |
| Federal Program: | 10.551 Food Stamps   | \$ 11,251               |
|                  | 93.558 Temporary Assistance for Needy Families   | 4,976                   |
|                  | 93.778 Medical Assistance Program  | 913                     |
| State Agency:    | Department of Social Services - Division of Family Services (DFS),<br>Division of Medical Services (DMS) |                         |

Section 208.010, RSMo 1994, prohibits public assistance benefit payments to any inmate of a public institution. Similarly, 7 CFR 273.1(e) states that residents of an institution which provides them with a majority of their meals (over 50% of three meals daily) as a part of the institution's normal services are not eligible for participation in the Food Stamp program. In addition, the Balanced Budget Act of 1997 included an amendment to the Food Stamp Act of 1977, effective August 5, 1998, that requires states to establish a system to ensure no one detained in a federal, state, or local penal, correctional, or other detention facility is participating in the Food Stamp program.

To comply with these requirements, the DFS performs a monthly computer match between its clients and inmates held by the Missouri Department of Correction (DOC). The names of any clients identified by the match are forwarded to the appropriate local DFS office for review and corrective action. The local office is allowed ten days to take corrective action on the case. During those ten days the caseworker is to determine if the match information is correct before taking action. Appropriate action can include termination of benefits if the client was the only member on the case or reduction of benefits if the client was one of several members.

Each local DFS office is also required by DFS policy to perform a match with the local jail or law enforcement agency once each month. The local office is to obtain the local incarceration data and perform necessary procedures to ensure no incarcerated individual is receiving Food Stamp or assistance benefits.

- A. To test the effectiveness of the state level DFS/DOC matches, we performed a match of computer records of TANF and Food Stamp clients for April 1999 against computer records of inmates in the custody of the DOC as of the same date. The match identified 189 current TANF and/or Food Stamp clients who were also incarcerated in the DOC. We selected 60 of those clients for more detailed review and determined that 24 (40 percent) had received two or more months of assistance payments while incarcerated. For the 24 clients, benefits totaling \$18,607 were received and spent, and additional Food Stamp benefits of \$802 were inappropriately issued and available for spending but were subsequently withdrawn because they had not yet been spent as of October 6, 1999.

For the cases discussed above, we also reviewed Medicaid information to determine if the individual was receiving Medicaid benefits while they were incarcerated. We determined that four of the cases had received approximately \$1,515 in Medicaid benefits while they were incarcerated. We are questioning the federal share of \$913.

When an individual is incarcerated the benefit case can be effected in two ways. If the individual is the only member on the case, all benefits should immediately be stopped. If the incarcerated individual is a member of a family case, the case should be reviewed for appropriate changes related to the loss of that member's count in the case. The following table provides greater details on the 24 cases that received two or more months of benefits while incarcerated:

| Case No. | Incarceration Date | Release Date | As of 9/30/99<br># of Ineligible Months<br>Benefits Received<br>While Incarcerated | Total Amount of Food Stamp Benefits Received<br>While Incarcerated | Total Amount of TANF Benefits Received<br>While Incarcerated | Total Amount of Medicaid Benefits Received<br>While Incarcerated |   |
|----------|--------------------|--------------|--|--|--|--|---|

|          |                    |              | <u>108</u>   | <u>\$ 11,251</u>   | <u>\$ 8,158</u>  | <u>\$ 1,515</u>  |   |

A Inmate is still incarcerated as of September 1999.

B The DFS case is still active as of September 30, 1999.

(1) The case includes only the incarcerated individual.

Based on the results shown above, we are questioning \$11,251 in Food Stamp benefits, \$4,976 as the federal share (61 percent) of \$8,158 in TANF benefits, and \$913 as the federal share (60.24 percent) in Medicaid benefits received through September 30, 1999.

In related concerns, we also noted that some one applied for assistance payments by mail in the name of one of the clients noted above and received those assistance payments while the client was incarcerated. In another instance, one of the clients noted above received

assistance payments while on work release during the day even though the client was provided two hot meals and a sack lunch by the DOC. In still another instance, someone applied for and received assistance payments using the incarcerated persons' identification card.

It appears the DFS is not acting on the DOC prisoner matches within the required ten days. Prisoners received monthly assistance payments they were not eligible for because the DFS did not act on the DOC matches in a timely manner.

- B. To test the effectiveness of the DFS procedures for identifying inmate/clients at the local offices, we contacted 40 of the 114 county jails in Missouri to inquire whether the local DFS office requested inmate information monthly. Of the 40 county jails contacted 14 (35 percent) told us they were not providing the local DFS office with inmate information. Personnel in those 14 DFS offices confirmed that inmate information is not requested and that they only work with the information provided from the state level DOC matches.

Because incarcerated individuals are not eligible for Food Stamp or other public assistance benefits, and to be in compliance with the Balanced Budget Act of 1997, the DFS should ensure that matches are properly performed at the local office level.

**WE RECOMMEND** the DFS resolve the questioned costs with the grantor agency. In addition, the DFS should investigate the cases noted above and establish recoupment claims where appropriate. The DFS should also enhance its procedures to ensure all inmates in the custody of the state DOC or local law enforcement facilities are identified and appropriate benefit changes processed in a timely manner.

### **AUDITEE'S RESPONSE**

*We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.*

**99-9.**

#### **Eligibility - Personal Property Match**

|                  |   |                         |
|------------------|---|-------------------------|
| Federal Agency:  | Department of Agriculture and Department of Health and Human Services |                         |
|                  |   | <u>Questioned Costs</u> |
| Federal Program: | 10.551 Food Stamps  | \$ 29,477               |
|                  | 93.558 Temporary Assistance for Needy Families                        | 15,124                  |
| State Agency:    | Department of Social Services - Division of Family Services (DFS)     |                         |

There are various state and federal rules that establish limitations on the value of assets a Missouri resident is allowed to own and still be eligible for benefits under the Food Stamp and TANF programs. There also are other rules and family conditions that interact with the general guidelines

that set maximum values allowed for automobiles while allowing a client to remain eligible for benefits. For example, a family that includes a disabled person may exclude the value of a vehicle in establishing eligibility if it is used to transport the disabled person. Similarly, the value is excluded if a vehicle is used more than half of the time for producing income. Under TANF rules a client is generally allowed one vehicle no matter its value, as long as the other non-exempt resources do not exceed \$1,000.

The rules that guide the DFS in handling vehicle value consideration when determining client eligibility include federal regulation 7 CFR 273.8, the Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA) of 1996, and state regulation 13 CSR 40-2.310.

To comply with the above resource limitations, the DFS requires individuals to report all assets on their benefit application and sign a “Notification of Fraud Provisions” statement that states all changes in assets will be reported by the client within ten days.

To test the effectiveness of these procedures, we performed a match of computer records of TANF and Food Stamp clients as of April 1999 against records of registered vehicles as of April 1999 obtained from the Missouri Department of Revenue (DOR). The match was initially limited to 1996 or newer vehicle registrations that matched exactly with client names and locations. That match identified 1,935 suspect client vehicles registered with the DOR. We selected 33 cases, representing 63 of the 1,935 vehicles identified, for further review to determine if the client had properly reported personal property to the DFS. We determined that 13 of the 33 (39%) had not properly reported their vehicles and similar personal property.

To help ensure we used a fair approach in this review, we obtained numerous client personal property assessment forms from local assessment offices. We found clients often reported more personal property assets on these forms than they reported to the DFS on assistance applications.

Improperly reported or unreported personal property directly effects the clients’ eligibility. As a result clients have an incentive to not report assets. The following table provides greater detail on the assets not properly reported:

| Case No. | Vehicles Reported by Client in the Case File | Vehicles Registered to the Client per the Department of Revenue | Purchase Date per DOR | As of 11/30/99 Number of Months of Questionable Assistance Payments | Case Status as of 11/30/99 | Total Questionable Food Stamp Benefits | Total Questionable TANF Benefits |

| 6        | 1987 Ford Escort                             | 1987 Ford Escort  | 04/30/95              | 3   | Closed                     | 685                                    | na                               |
|          |  | 1997 Chevy  | 03/17/97              |   |                            |  |                                  |
| 7        | 1976 Dodge Truck (2)                         | 1997 Saturn   | 06/18/97              | 9   | Closed                     | 2,595                                  | na                               |
|          |  | 1996 Pontiac  | 08/29/98              |   |                            |  |                                  |

From the information in the table above, it appears \$29,477 in Food Stamp benefits and \$24,794 in TANF benefits were paid to recipients whose assets exceeded the eligibility limitations. We are questioning the federal portion of these amounts which are \$29,477 for Food Stamps and \$15,124 for TANF.

Some cases noted above are of particular concern. For example, case 4 shows the client purchased and registered two new 1998 Cadillacs ten days apart in August 1998. Both continue to be licensed to the clients and only one shows a bank lien. We had planned to review the details of this case, however, the DFS was unable to locate the case file for this client. It seems highly questionable that a person able to qualify for TANF benefits would also have the income to allow them to purchase one luxury automobile outright and make payments for another.

Similarly, cases 2, 8, and 13 are notable because of the failure to report multiple vehicles, including in two instances late model all terrain vehicles and a motor home or camper trailer. Several clients improperly reported an old low value vehicle to the DFS workers when they did not and had never owned such a vehicle. This may have been done to reduce possible worker interest in vehicles the

(1) License is currently expired; however it appears vehicle is still owned by client.

(2) We were unable to determine why the client reported this vehicle which he/she does not appear to own.

(3) Local office could not locate the current portion of the case file. The archive case file indicated the client was not disabled. Thus, only one vehicle appears exempt under TANF rules.

(4) The client told DFS the car belonged to her mother.

client actually owned. Each of these instances suggests that the DFS policy allowing caseworkers to generally accept client vehicle or assets ownership statements without further checking is not adequate.

As noted above the DFS requires each TANF and Food Stamp applicant to sign a “Notification of Fraud Provisions” statement. This is used to notify clients there are penalties for false statements and informs them they have 10 days to report changes in assets. However, based on these findings it appears the DFS does not have adequate procedures in place to identify and respond to client’s existing or changing assets. As a result, the DFS appears to have made TANF and Food Stamp payments to several ineligible clients. Several of the cases were no longer receiving benefits. However, we found no claims filed by the DFS to recoup inappropriate benefits paid.

The DFS should review the above active cases to determine if the assistance benefits need to be terminated and consider what policy and procedure changes are needed to reduce the problems caused by clients who under report personal property assets.

**WE RECOMMEND** the DFS resolve the questioned costs with the grantor agency. In addition, the DFS should investigate the cases noted above and establish recoupment claims where appropriate. Also, the DFS should seriously consider policy and procedure changes to reduce client under reporting of assets.

#### **AUDITEE'S RESPONSE**

*We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.*

**99-10.**

#### **Reporting Compliance**

Federal Agency: Department of Health and Human Services  
Federal Program: 93.558 Temporary Assistance for Needy Families  
State Agency: Department of Social Services - Division of Family Services (DFS)

The DFS uses TANF monies to provide time-limited assistance to needy families with children. The Department of Health and Human Services (HHS) regulations 42 United States Code (USC) 611 (a) require the state to prepare quarterly reports of TANF data. The quarterly report, the Emergency TANF Data Report (ACF-198), contains data maintained at the local office level and the state level.

We could not perform audit procedures to ensure the ACF-198 was prepared in accordance with federal requirements for fiscal year 1999 because supporting documentation and quarterly reports were not retained by the DFS. Therefore, we can not determine that the DFS was in compliance with federal requirements.

To obtain the local office data, each month the DFS sends randomly selected caseworkers a case questionnaire that is completed and returned to the central office. The central office loads the

resulting data into its computer system used to prepare the quarterly electronic report. Once the report is received by HHS, the local office questionnaires are destroyed.

In addition, the DFS does not maintain complete copies of the quarterly electronic reports that are submitted to HHS. As a result, the DFS does not have complete copies of the quarterly data reports and an adequate audit review is not possible.

**WE RECOMMEND** the DFS retain copies of all reports submitted to the federal awarding agencies and all related supporting documentation necessary to allow adequate audit review of the procedures and the accuracy of the ACF-198 quarterly report, in compliance with federal requirements.

### **AUDITEE'S RESPONSE**

*We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.*

**99-11.**

#### **Unlocated Case Files**

Federal Agency: Department of Agriculture and Department of Health and Human Services  
Federal Program: 10.551 Food Stamps  
93.558 Temporary Assistance for Needy Families  
93.575 Child Care and Development Block Grant  
93.596 Child Care Mandatory and Matching Funds  
of the Child Care and Development Fund  
State Agency: Department of Social Services - Division of Family Services (DFS)

The DFS local offices reported they could not locate 23 of 383 (over 6%) case files that we requested for detailed case review. Fifteen case files could not be located at the St. Louis City office and six at the St. Louis County office. The remaining two were from Jackson and Howell Counties. The cases involved clients receiving Food Stamps, TANF, and/or Child Care benefits and each was actively receiving benefits and/or services during the audit period. It should be noted that although county officials indicated the file was available, the case file from Howell County was never received by us even though DSS officials sent two letters and we made two telephone calls to the county office requesting the case file.

Without case files, adequate documentation is not available to verify the eligibility of the DFS clients and the appropriateness of benefits paid. Proper retention of all records, including case files, is necessary to ensure the validity of transactions, support grant expenditures, and provide an adequate audit trail.

**WE RECOMMEND** the DFS review case file keeping procedures in the local DFS offices to ensure all case files are appropriately retained and available for DFS case action or audit review.

**AUDITEE'S RESPONSE**

*We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.*

DEPARTMENT OF SOCIAL SERVICES -  
DIVISION OF MEDICAL SERVICES

|  |
|--|
| <b>99-12.                      Surveillance Utilization and Review System (SURS)</b> |
|--|

Federal Agency:            Department of Health and Human Services  
Federal Program:           93.778 Medical Assistance Program  
State Agency:              Department of Social Services - Division of Medical Services (DMS)  
Questioned Costs:        \$3,577

The DMS operates a Surveillance Utilization Review Subsystem (SURS), which is the principal unit responsible for identifying recipient and provider abuse of the Medicaid program. 42 CFR 456.22 requires the DMS to have procedures for an ongoing post-payment review, on a sample basis, of the need for and the quality and timeliness of Medicaid services.

Although the SURS unit does review claims based on referrals and exception parameters, the SURS unit does not perform a post-payment review of a representative sample of Medicaid claims. We selected a sample of 60 of the approximately 27 million fee for service claims paid during fiscal year 1999 and with the assistance of the SURS unit medical staff reviewed the claims for medical necessity, quality of care, and timeliness of services provided. The providers for these services were contacted by the SURS unit to submit documentation supporting the medical necessity of the billed services. The following problems were noted:

1.        The services provided for one of the claims were not medically necessary.
2.        The services for another claim were deficient under quality of care standards.
3.        Eight claims were not supported by documentation submitted or no documentation was submitted by the service provider. For three of these eight claims, medical necessity, quality of care and timeliness of the service could not be determined. The other five claims were determined to be medically necessary; however, quality and timeliness of care could not be determined.
4.        Two claims tested had incorrect billing codes.

The total dollar value of the twelve unsupported or deficient claims noted was \$5,938 (federal share \$3,577). Without compliance with federal requirements for testing a representative sample of Medicaid claims, the DMS cannot be assured that misutilization practices of recipients and providers are being adequately identified.

**WE RECOMMEND** the DMS resolve the questioned costs with the grantor agency. In addition, the DMS should establish procedures to comply with federal regulations.

### **AUDITEE'S RESPONSE**

*We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.*

**99-13.**

#### **Ineligible Payments**

Federal Agency: Department of Health and Human Services  
Federal Program: 93.778 Medical Assistance Program  
State Agency: Department of Social Services - Division of Medical Services (DMS)  
Questioned Costs: \$8,377

The DMS performs a monthly match of Medicaid recipients with death records provided by the Department of Health - Bureau of Vital Records (BVR). It would not be unusual for claims to be paid after a recipient's death because the BVR records may not be updated for several weeks after a death has occurred. When claims have been paid after a recipient's death, the DMS will take action to recoup the overpayments. To test the effectiveness of these procedures, we matched Managed Care Plus (MC+) recipient and mental health services claims paid during the year ended June 30, 1999, with computer records of deaths reported in Missouri since 1990 obtained from the BVR. We noted the following concerns:

- A. The MC+ match identified 330 Medicaid recipients by social security number with BVR records of a deceased individual. However, 102 records were errors due to incorrect social security numbers in the BVR records or other reasons. We noted 213 recipients for whom the DMS properly either recouped money that had been paid out after the date of death, or did not pay a claim after the date of death. However, we also identified 15 recipients who had claims paid for service periods after their date of death but no recoupment had been made. The total amount of claims paid for these recipients was \$9,098 (federal share \$5,481). In addition, 3 of these 15 recipients were still incorrectly listed as being eligible for Medicaid benefits as of October 1999, even though they had died in January 1995, May 1998, and July 1998.

- B. The mental health services match identified 106 Medicaid recipients by social security number with BVR records of a deceased individual. However, 34 records were errors due to incorrect social security numbers in the BVR records or other reasons. We noted 37 recipients for whom the DMS properly either recouped money that had been paid out after the date of death, or did not pay a claim for service periods after the date of death. However, we identified 35 recipients who had claims paid for service periods after their date of death but no recoupment had been made. The total amount of claims paid for these recipients was \$4,808 (federal share \$2,896).

The DMS needs to improve procedures to ensure recoupments are made when a deceased recipient is identified. Based on work performed, the DMS paid \$13,906 for managed care claims and mental health services claims for the benefit of deceased recipients which were not recouped, and we question the federal share of this amount, \$8,377.

**WE RECOMMEND** the DMS resolve the questioned costs with the grantor agency. In addition, the DMS should seek reimbursement from providers for the overpayments and improve procedures to ensure recoupments are made and eligibility codes are updated when a deceased recipient is identified.

#### **AUDITEE'S RESPONSE**

*We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.*

**99-14.**

#### **Private Duty Nursing Program**

Federal Agency: Department of Health and Human Services  
Federal Program: 93.778 Medical Assistance Program  
State Agency: Department of Social Services - Division of Medical Services (DMS)

Private duty nursing (PDN) is individual and continuous care provided in the home by a registered nurse or licensed practical nurse generally through a home health agency (HHA) according to an individualized plan of care approved by a physician. HHAs are licensed and certified by the Department of Health (DOH). The DOH does not review PDN service records during the survey inspection of HHAs. PDN services are provided primarily to children under the age of 21 through the Healthy Children and Youth program (HCY), recipients at least 21 years old under the Physical Disability Waiver (PDW), and to recipients diagnosed with HIV/AIDS under the AIDS Waiver program. Expenditures through the medicaid program (state and federal share) for private duty nursing services during the year ended June 30, 1999, totaled approximately \$757,000. We reviewed the interagency agreements between the DMS and the Department of Health for these programs. During our review, we noted the following concerns:

- A. Under the HCY and PDW programs, the DOH is responsible for providing case management, which includes prior authorization for medical necessity. However, the agreements do not specifically assign responsibility for reviewing recipient records at the home health agency for compliance with program guidelines.

The Medicaid manual requires all PDN services to be authorized before services are initiated and be delivered strictly according to the prior authorization request and the plan of care (POC). The DMS does not perform any procedures to ensure PDN claims are adequately supported and comply with the POC. The DMS relies on work performed by the DOH to determine medical necessity and the appropriateness of the services provided. The DOH performs a review of HHA records upon renewal of a care plan; however, this review is not always documented. Also, neither the DMS nor the DOH perform procedures to ascertain if services were actually provided. As a result, there is little assurance PDN services provided to HCY and PDW recipients and paid for by the Medicaid program were delivered in accordance with the care plan.

- B. The AIDS waiver agreement requires the DOH to provide oversight, management, and monitoring activities, including overseeing the development of a written plan of care prior to the authorization or reimbursement for services. The agreement also requires the DMS to review a random sample of recipients for compliance with the program's guidelines and requires the DOH to review a statistical sample of care plans. For the period July 1, 1998 to February 28, 1999, the DMS and the DOH conducted a joint test in March 1999 covering records for 24 of the 71 AIDS Waiver program recipients. The test focused on case management records. Provider records were not examined as part of the review.

This joint test noted significant deficiencies. The 24 test items were evaluated for 41 attributes covering 6 broad categories: level of care determination, plan of care, plan approval, client choice statements, prior authorization, and home visits. The test disclosed at least one instance where the reviewer questioned whether the recipient was eligible for the AIDS waiver. Deficiencies were noted in the plan of care for 22 of the 24 recipients. At least 2 documentation deficiencies were noted for each of the 24 recipients tested, with one recipient's documentation having 18 deficiencies.

The DMS sent a summary of all findings from the joint review to the DOH. In response, the DOH submitted a list of quality improvement and assurance efforts to address the findings. The efforts focused primarily on providing training and on-site review of case documentation. However, even with the significant case management deficiencies noted the DMS did not further evaluate the provider records related to these services which may have resulted in recoupment for inadequately supported or ineligible expenditures made.

**WE RECOMMEND** the DMS:

- A. Establish procedures to ensure private duty nursing service claims under the HCY and PDW programs are adequately supported and the services delivered.
- B. Further review the deficiencies noted in the AIDS Waiver program test performed and recoup the payments for services which were not supported by adequate documentation or for which the recipient was ineligible.

### **AUDITEE'S RESPONSE**

*We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.*

**99-15.**

### **Institutional Reimbursement Unit**

Federal Agency: Department of Health and Human Services  
 Federal Program: 93.778 Medical Assistance Program  
 State Agency: Department of Social Services - Division of Medical Services (DMS)

The Institutional Reimbursement (IR) unit is responsible for determining if the payments to institutional providers are in accordance with state regulations and the state Medicaid plan. During fiscal year 1999, total expenditures (state and federal share) for inpatient hospital services and outpatient hospital services were approximately \$1 billion. State regulation requires hospitals to submit annual cost reports within five months after the close of the hospital's fiscal year. The DMS performs a desk review on the cost report to determine the reimbursement rate for the subsequent year.

A copy of this cost report is also submitted to the Medicare fiscal intermediary to perform an audit of the cost report. When the fiscal intermediary has completed the audit, a copy of the audited cost report is forwarded to the DMS. State regulation requires the DMS to review the audited cost report for each hospital's fiscal year. This cost report is used to perform the final settlement for inpatient and outpatient hospital services. For inpatient services, final settlements are performed to ensure Medicaid payments do not exceed the allowable inpatient Medicaid charges. If payments do not exceed the charges, no adjustment is necessary. For outpatient services, final settlements are performed to determine if there has been an overpayment or underpayment. Overpayments are recouped and underpayments are paid to the hospital.

During our review of the cost reports and final settlements we noted the following concerns:

- A. The IR unit has not completed reviews of hospital cost reports in a timely manner. As of February 2000, the IR unit records indicate the following number of desk reviews had been completed:

| Year | Cost Reports      |                           |
|------|-------------------|---------------------------|
|      | to be<br>Reviewed | Desk Reviews<br>Completed |
| 1998 | 152               | 0                         |
| 1997 | 149               | 6                         |
| 1996 | 154               | 142                       |

Untimely review of cost reports limits the DMS's ability to make timely rate policy decisions.

- B. During the year ended June 30, 1999, the IR unit completed only 18 final cost settlements compared to 63 and 131 completed during the years ended June 30, 1998 and 1997, respectively.

The trend of fewer final cost settlements being completed each year results in delayed potential recoupments and limits the ability for the IR unit to catch up with its workload.

**WE RECOMMEND** the DMS complete hospital cost report reviews and final settlements in a timely manner.

**AUDITEE'S RESPONSE**

*We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.*

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

## STATE OF MISSOURI SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all audit findings in the prior audit for the year ended June 30, 1998, and the findings from the prior audits for the years ended June 30, 1997 and 1996, except those that were listed as corrected, no longer valid, or not warranting further action. This section includes the Summary Schedule of Prior Audit Findings, which is prepared by the state's management.

Circular A-133 requires the auditor to follow-up on these prior audit findings, perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings, and report, as a current year finding, when the auditor concludes that the Summary Schedule of Prior Audit Findings materially misrepresents the status of any prior audit findings.

The disposition of the findings from the year ended June 30, 1997 is as follows:

Findings numbered 1A, 2B, 2C, 3, 5A, 6, 7, 9, 10, 12, 13, 14, 16, 17, 18, 21, and 23A were corrected.

Findings numbered 1B, 2A, 4, 5B, 8, 11, 15, 19, 20, 22, and 23B are included in the Summary Schedule of Prior Audit Findings.

The disposition of the findings from the year ended June 30, 1996 is as follows:

Findings numbered 1, 3, 4, 6, 7, 8, 10, 11, 14, 15 and 16 were corrected.

Findings numbered 2, 5, 9, 12, and 13, are included in the Summary Schedule of Prior Audit Findings.

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998**

98-1.                      Suspension and Debarment Compliance

Federal Agency:        Department of Interior  
State Agency:         Department of Conservation (DOC)

| <u>CFDA Number</u> | <u>Program Name</u>    | <u>Questioned Costs</u> |
|--------------------|------------------------|-------------------------|
| 15.605             | Sport Fish Restoration | \$0                     |

The DOC did not obtain suspension and debarment certifications from applicable contractors.

**Recommendation:**

The DOC obtain certifications from parties awarded contracts of \$100,000 or more that the organization and its principals are not suspended or debarred.

**Status of Finding:**

*A debarment statement has been added to our standard contract form for all federally funded projects. Under Item 9 on the Proposal Form, the bidder certifies that:*

*'the bidder and its principals are not presently debarred or suspended or otherwise excluded from or ineligible for participation in Federal Assistance Programs'.*

Preparer's Signature: *Peggy Salmon*                      Phone number: 573-751-4115 x562

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-2. Expenditures

Federal Agency: Department of Labor  
State Agency: Department of Economic Development - Division of Job Development and Training (DJDT)

| <u>CFDA Number</u> | <u>Program Name</u>                                     | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 17.246             | Employment and Training Assistance - Dislocated Workers | \$0                     |
| 17.250             | Job Training Partnership Act                            | 0                       |

The DJDT's Service Delivery Area (SDA) 4 did not obtain invoices to support four advanced payments made to motels in the amount of \$5,711. We reviewed supporting documentation for some of the motel invoices and noted several overpaid amounts which the SDA personnel obtained after we brought these matters to their attention.

### Recommendation:

The DJDT require the SDA to obtain motel invoices to support the \$5,711 in advance payments made to motels and require the SDA to establish procedures to ensure adequate supporting documentation, such as motel invoices, is obtained and reviewed for all future expenditures.

### Status of Finding:

Fully resolved. The SDA obtained the required motel invoices and established procedures requiring itemized statements from motels for advance payments.

Preparer's Signature: Harry Strumple Phone number: 526-8210

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998**

98-3.A. Fixed Asset Records and Procedures

Federal Agency: Department of Labor

State Agency: Department of Economic Development - Division of Job Development and Training (DJDT)

| <u>CFDA Number</u> | <u>Program Name</u>                                     | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 17.246             | Employment and Training Assistance - Dislocated Workers | \$0                     |
| 17.250             | Job Training Partnership Act                            | 0                       |

The DJDT requires its fifteen Service Delivery Areas (SDA) to submit an annual physical inventory by July 1 of each year. As of October 1998, seven of the fifteen SDAs had not submitted annual physical inventory results to the DJDT.

**Recommendation:**

The DJDT enforce deadlines for receipt of physical inventory results from SDAs.

**Status of Finding:**

Fully resolved. JDT obtained the missing reports, except from one Administrative Entity that failed to conduct the annual inventory. Future Incentive funds will be withheld until inventory requirements are met.

Preparer's Signature: Harry Strumph Phone number: 526-8210

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

### 98-3B. Fixed Asset Records and Procedures

Federal Agency: Department of Labor  
State Agency: Department of Economic Development - Division of Job Development and Training (DJDT)

| <u>CFDA Number</u> | <u>Program Name</u>                                     | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 17.246             | Employment and Training Assistance - Dislocated Workers | \$0                     |
| 17.250             | Job Training Partnership Act                            | 0                       |

The DJDT did not follow up on each of its fifteen Service Delivery Areas (SDAs) physical inventory results on a timely basis. The DJDT Financial Manual indicates that each SDA is responsible for replacing missing items or paying the fair market value of the missing item. Over the two years ended June 30, 1998, SDAs 11 and 13 reported missing items totaling \$4,303 and \$26,258, respectively, which had not been located. Neither SDA was required to replace the missing items or repay the DJDT for the fair market value of the items.

#### Recommendation:

The DJDT establish procedures to enforce the requirement that SDAs replace missing items or pay DJDT the fair market value of the items.

#### Status of Finding:

Partially corrected. The State Auditor's recommendation will be implemented. Future incentive funds will be withheld until inventory requirements are met. This finding should be fully resolved by June 30, 2000.

Preparer's Signature: Harry Stuenkel Phone number: 526-8210

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998**

98-4.A. Subrecipient Monitoring

Federal Agency: Department of Education  
Department of Health and Human Services  
State Agency: Department of Elementary and Secondary Education (DESE)

| <u>CFDA Number</u> | <u>Program Name</u>                           | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 84.010             | Title I Grants to Local Educational Agencies  | \$0                     |
| 84.027             | Special Education - Grants to States          | 0                       |
| 84.048             | Vocational Education - Basic Grants to States | 0                       |
| 84.173             | Special Education - Preschool Grants          | 0                       |
| 93.575             | Child Care and Development Block Grant        | 0                       |

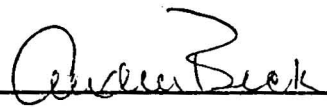

The DESE did not establish procedures to minimize the time elapsing between the transfer of funds from the state and subsequent disbursements by the subrecipients.

Recommendation:

The DESE establish procedures to ensure subrecipients minimize the time elapsing between the transfer of funds from the state and disbursement by the subrecipients.

Status of Finding:

We have established procedures to ensure subrecipients minimize the time elapsing between the transfer of funds from the state and disbursement by the subrecipients, and have notified the subrecipients of the federal Cash Management requirements.

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-4.B Subrecipient Monitoring

Federal Agency: Department of Education  
Department of Health and Human Services

State Agency: Department of Elementary and Secondary Education (DESE)

| <u>CFDA Number</u> | <u>Program Name</u>                           | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 84.010             | Title I Grants to Local Educational Agencies  | \$0                     |
| 84.027             | Special Education - Grants to States          | 0                       |
| 84.048             | Vocational Education - Basic Grants to States | 0                       |
| 84.173             | Special Education - Preschool Grants          | 0                       |
| 93.575             | Child Care and Development Block Grant        | 0                       |

The DESE did not establish procedures to inform subrecipients of grant award information, such as the Catalog of Federal Domestic Assistance (CFDA) title and number, award name and number, and the name of the federal agency.

### Recommendation:

The DESE provide subrecipients grant award information such as CFDA title and number, award name and number, and name of federal agency.

### Status of Finding:

We have established procedures to provide necessary grant information to subrecipients.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-5. Period of Availability of Funds

Federal Agency: Department of Education  
State Agency: Department of Elementary and Secondary Education (DESE)

| <u>CFDA Number</u> | <u>Program Name</u>                  | <u>Questioned Costs</u> |
|--------------------|--------------------------------------|-------------------------|
| 84.027             | Special Education - Grants to States | \$261,149               |

The DESE obligated grant funds totaling \$76,719 after the date when these funds could be obligated. In addition, \$129,037 in grant funding originally obligated in June 1997 to various school districts was unobligated in October 1997 and reobligated to other school districts after the date the funds could be obligated. Also, payments totaling \$55,393 were made from grant funds during January 1998 through April 1998, which was after the date when obligations could be liquidated.

Recommendation:

The DESE resolve the questioned costs with the grantor agency. In addition, the DESE should ensure funds are obligated within the period of availability and that obligations are liquidated not later than 90 days after the end of the funding period.

Status of Finding:

We have established procedures to ensure that funds are obligated within the period of availability and that obligations are liquidated not later than 90 days after the end of the funding period.

Status of Questioned Costs:

Unknown.

Preparer's Signature: Arden Beck

Phone number: 1-4681

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-6.A. Schedule of Expenditures of Federal Awards and Sub-recipient Awards

Federal Agency: Department of Agriculture  
Department of Health and Human Services  
State Agency: Department of Health (DOH)

| <u>CFDA Number</u> | <u>Program Name</u>   | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 10.557             | Special Supplemental Nutrition Program for<br>Women, Infants, and Children        | \$0                     |
| 10.558             | Child and Adult Care Food Program   | 0                       |
| 93.575             | Child Care and Development Block Grant  | 0                       |
| 93.596             | Child Care Mandatory and Matching Funds<br>of the Child Care and Development Fund | 0                       |

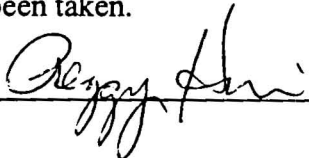

The Schedule of Expenditures of Federal Awards (SEFA) was not accurate and did not comply with OMB Circular A-133.

### Recommendation:

The DOH implements procedures and maintains records to ensure the SEFA is prepared in accordance with OMB Circular A-133.

### Status of Finding:

Corrective action has been taken.

Preparer's Signature:  Phone number: 573-751-6014

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-6.B. Schedule of Expenditures of Federal Awards and Sub-recipient Awards

Federal Agency: Department of Agriculture  
Department of Health and Human Services  
State Agency: Department of Health (DOH)

| <u>CFDA Number</u> | <u>Program Name</u>  | <u>Questioned Costs</u> |
|--------------------|--|-------------------------|
| 10.557             | Special Supplemental Nutrition Program for Women, Infants, and Children        | \$0                     |
| 10.558             | Child and Adult Care Food Program  | 0                       |
| 93.575             | Child Care and Development Block Grant   | 0                       |
| 93.596             | Child Care Mandatory and Matching Funds of the Child Care and Development Fund | 0                       |

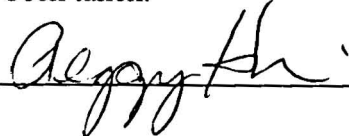

The DOH made several awards to sub-recipients that included state and federal monies and other awards that included monies from various federal programs. The DOH did not inform sub-recipients of the amount of federal monies used from each particular federal program. In addition, DOH rarely provided sub-recipients the CFDA title of the federal award.

### Recommendation:

The DOH implements procedures and maintains records to ensure sub-recipients are provided with the information required by OMB Circular A-133.

### Status of Finding:

Corrective action has been taken.

Preparer's Signature:  Phone number: 573-751-6014

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-7. Reconciliation of Reports

Federal Agency: Department of Education  
State Agency: Department of Higher Education (DHE)

| <u>CFDA Number</u> | <u>Program Name</u>            | <u>Questioned Costs</u> |
|--------------------|--------------------------------|-------------------------|
| 84.032             | Federal Family Education Loans | \$0                     |

The DHE contracts with a loan program servicer to manage aspects of this program. The loan program servicer is responsible for providing data used to compile monthly (1189) and quarterly (1130) reports submitted by the DHE to the United States Department of Education. The DHE did not reconcile applicable sections of the 1130 reports to the 1189 reports.

### Recommendation:

The DHE establish and implement procedures to reconcile the 1189 and 1130 reports and maintain documentation of the reconciliations.

### Status of Finding:

The 1189 and 1130 reports are reconciled quarterly. Documentation of the reconciliation is maintained.

Preparer's Signature: Randy Ann Leun Phone number: (573) 751-236

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-8.A. Subrecipient Monitoring

Federal Agency: Department of Transportation  
State Agency: Department of Transportation (MoDOT)

| <u>CFDA Number</u> | <u>Program Name</u>               | <u>Questioned Costs</u> |
|--------------------|-----------------------------------|-------------------------|
| 20.205             | Highway Planning and Construction | \$0                     |

The MoDOT did not provide adequate information to subrecipients about federal cash management requirements. In addition, the MoDOT did not monitor cash drawdowns by its subrecipients to ensure compliance with federal requirements.

### Recommendation:

The MoDOT inform subrecipients about the cash management requirements and establish procedures to ensure the requirements are met.

### Status of Finding:

The MoDOT's Local Public Agency Manual (LPA) has been updated to address subrecipient's requirement for disbursement of payments received from the MoDOT. The MoDOT requires local agencies to develop cash management procedures to ensure payment is made to the contractor within two (2) days of receipt of funds from the MoDOT. In addition, the local agency must provide certification to the MoDOT indicating the date the contractor was paid.

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998**

98-8.B.                      Subrecipient Monitoring

Federal Agency:        Department of Transportation  
State Agency:         Department of Transportation (MoDOT)

| <u>CFDA Number</u> | <u>Program Name</u>               | <u>Questioned Costs</u> |
|--------------------|-----------------------------------|-------------------------|
| 20.205             | Highway Planning and Construction | \$0                     |

The MoDOT did not have procedures to ensure subrecipients submit a statement of procedures used to evaluate and select engineering consultants or ensure subrecipients consider at least three firms before procuring such services.

Recommendation:

The MoDOT establish procedures to ensure subrecipients submit a statement of procedures used to evaluate and select engineering consultants as required and ensure subrecipients consider at least three firms before procuring such services.

Status of Finding:

The MoDOT has developed procedures that require districts to submit the subrecipient's statement of procedures used to evaluate and select engineering consultants in addition to the information submitted for a preaudit. The statement of procedures is kept on file until updated or changed. Included with each preaudit will be the names of three (3) firms considered by the subrecipient for procuring such services.

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998**

98-8.C.                      Subrecipient Monitoring

Federal Agency:        Department of Transportation  
State Agency:         Department of Transportation (MoDOT)

| <u>CFDA Number</u> | <u>Program Name</u>               | <u>Questioned Costs</u> |
|--------------------|-----------------------------------|-------------------------|
| 20.205             | Highway Planning and Construction | \$0                     |

The MoDOT did not have adequate procedures to ensure findings reported in subrecipient audit reports were properly resolved.

**Recommendation:**

The MoDOT establish procedures to ensure that management decisions are made on subrecipient audit findings within six months after receipt of the audit reports and that the subrecipient takes appropriate and timely corrective action.

**Status of Finding:**

The MoDOT has put in place a process to issue management decisions on subrecipient audit findings within the required time frame and request a written reply regarding the corrective action that will be taken and the time frame in which it will take place.

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-9 Cost Allocation System

Federal Agency: Department of Labor  
State Agency: Department of Labor and Industrial Relations (DLIR)

| <u>CFDA Number</u> | <u>Program Name</u>                               | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 17.207             | Employment Service                                | \$0                     |
| 17.225             | Unemployment Insurance                            | 0                       |
| 17.801             | Disabled Veterans' Outreach Program               | 0                       |
| 17.804             | Local Veterans' Employment Representative Program | 0                       |

The DLIR allocates monthly costs to various grant programs through the use of a computerized Cost Allocation System (CAS). The DLIR did not reconcile monthly reports of costs to be allocated by the CAS to actual allocated expenditures. In addition, the DLIR did not perform periodic tests of the monthly allocations performed by the CAS to ensure expenditures are properly allocated at the project code level.

### Recommendation:

The DLIR establish procedures to reconcile monthly reports of costs to be allocated by the CAS to actual allocated expenditures. In addition, the DLIR should periodically test the CAS, to ensure it is allocating costs properly at the project code level.

### Status of Finding:

The Department's Financial Management and Information Systems Sections have met and planned a complete review and analysis of the monthly accounting process. This review and analysis has not been completed as other higher priority projects surfaced during the year, such as the interface between the state's new accounting system and the Department's Cost Accounting System and the reorganization of the state's Workforce Development Programs. These higher priority projects had to be completed to ensure the continued operation of Department Administrative and Fiscal systems.

Periodic manual reconciliations have been started but not completed as staff had been reassigned to the higher priority projects mentioned previously; however, additional reports currently generated by the system should provide a clearer audit trail of the allocation process. The Department plans to comply with its corrective action plan during state fiscal year 2000.

Preparer's Signature: *Sharon M. Williams* Phone number: 751-1135

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998**

98-10.                      Suspension and Debarment Compliance

Federal Agency:        Department of Health and Human Services

State Agency:         Department of Mental Health (DMH)

| <u>CFDA Number</u> | <u>Program Name</u>                                     | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 93.959             | Substance Abuse Prevention and Treatment<br>Block Grant | \$0                     |

The DMH did not obtain suspension and debarment certifications from subrecipients or applicable contractors.

**Recommendation:**

The DMH obtain appropriate suspension and debarment certifications from subrecipients and applicable contractors.

**Status of Finding:**

Corrective action was taken.

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98- A. Federal Grant Reporting Procedures

Federal Agency: Environmental Protection Agency  
State Agency: Department of Natural Resources (DNR)

| <u>CFDA Number</u> | <u>Program Name</u>                                    | <u>Questioned Costs</u> |
|--------------------|--|-------------------------|
| 66.000             | Environmental Protection Agency - Cross Cutting Issues | \$0                     |

The DNR is required to periodically file financial status reports (FSRs) with the federal grantor to report federal grant activity. OMB Circular A-133 requires the DNR to prepare a Schedule of Expenditures of Federal Awards (SEFA) as part of the state's annual single audit. Information to complete the FSRs and SEFA is obtained from the department's Integrated Administrative System (IAS). Differences existed between the amounts reported on the FSRs, amounts reported on the IAS, and the amounts presented on the SEFA. Documentation of reconciliation of these amounts was not retained.

### Recommendation:

The DNR retain written documentation of the reconciliations between the amounts reported on IAS, FSRs, and SEFA.

### Status of Finding:

We disagree with this finding.

The SEFA schedule reports specific grant information as of one day, 6/30, each fiscal year end. The final FSR, prepared 90 days after the grant expiration date, is a report of all expenditures and adjustments during the life of that grant. Even if a grant were to end on 6/30, it would be 9/30 before the final FSR would be prepared to include lapse period expenditures and any reconciliation adjustments. The SEFA reports only the expenses up to 6/30. The SEFA for the period ended 6/30/99 was prepared based upon information reported from the department's Integrated Administrative System (IAS) month-end reports at 6/30/98 and 6/30/99. Any differences between system reports and the SEFA were documented and retained. We do reconcile the final FSR to IAS. Before any grant is closed within the IAS tracking system it is completely reconciled, with all backup documentation retained in the closed grant files.

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98- B. Federal Grant Reporting Procedures

Federal Agency: Environmental Protection Agency  
State Agency: Department of Natural Resources (DNR)

| <u>CFDA Number</u> | <u>Program Name</u>                                    | <u>Questioned Costs</u> |
|--------------------|--|-------------------------|
| 66.000             | Environmental Protection Agency - Cross Cutting Issues | \$0                     |

The Schedule of Expenditures of Federal Awards (SEFA) prepared was incorrect and incomplete and required several adjustments.

### Recommendation:

The DNR prepare a complete and accurate SEFA. Formal written procedures for preparation of the schedule should be prepared and the individual preparing the schedule should be properly trained and supervised.

### Status of Finding:

We disagree, in part, with this finding. There was a misunderstanding between our staff and the State Auditor's Office on what was expected on the SEFA schedule. We have met with the State Auditor's Office to develop the procedures that will allow us to resolve issues the State Auditor's Office may have with our SEFA schedule

Preparer's Signature: Marla Markway Phone Number: 751-0958

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-13 State Revolving Fund Bank Reconciliations

Federal Agency Environmental Protection Agency  
State Agency Department of Natural Resources (DNR)

| <u>CFDA Number</u> | <u>Program Name</u>                             | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 66.458             | Capitalization Grants for State Revolving Funds | \$0                     |

Reconciliations of the State Revolving Fund reserve account bank balances to the accounting records were not performed properly. In addition, reconciliations performed were not independently reviewed by someone other than the person that prepared the reconciliation.

### Recommendation

The DNR ensure accurate reconciliations of the State Revolving Fund reserve account balances per the accounting records to the amounts recorded on the various bank statements be performed and any difference be investigated and resolved. An independent review of the reconciliations should also be made periodically.

### Status of Finding:

The DNR has implemented a detailed reconciliation process of the State Revolving Fund. The process produced a correct Reserve Account Balance amount for Fiscal Year 1999 according to the State Auditor's Office Representative. DNR is currently automating this process, the Internal Audit Program, DNR, will be available to assist them.

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS – 1998

98-14

### Subrecipient Audits

Federal Agency  
State Agency

Department of Health and Human Services  
Department of Social Services – Division of Child Support Enforcement  
(DCSE)

CFDA Number  
93.563

Program Name  
Child Support Enforcement

Questioned Costs  
\$0

The DCSE's cooperative agreements with county governments incorrectly continued to require audits in compliance with OMB Circular A-128 instead of OMB Circular A-133.

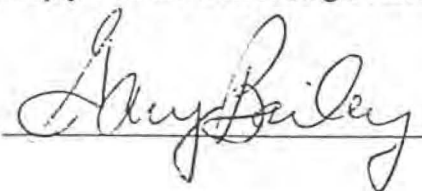

#### Recommendation:

The DCSE provide all subrecipients notice that audits must be in compliance with OMB Circular A-133, and similarly correct all future cooperative agreements.

#### Status of Finding:

DCSE agrees with the auditor's finding. DCSE has revised the Cooperative Agreements for Fiscal Year 2000 to comply with the federal Single Audit Act of 1996 (A-133).

Phone number: 751-4927

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-15.

Federal Agency      Department of Health and Human Services  
State Agency:      Department of Social Services - Division of Family Services (DFS)

| <u>CFDA Number</u> | <u>Program Name</u>        | <u>Questioned Costs</u> |
|--------------------|----------------------------|-------------------------|
| 93.658             | Foster Care - Title IV-E   | \$16,174                |
| 93.778             | Medical Assistance Program | 5,422                   |

Foster care children over the age of nineteen or over the age of eighteen and not expected to graduate before age nineteen are no longer eligible for assistance under the Title IV-E program. Once a foster child reaches either of these two limitations, the state may continue benefits with state funds. At April 30, 1998, there were 111 open foster care cases for which the child was age eighteen or older and still receiving benefits under the Title IV-E program. We tested twenty-eight of these cases and noted eighteen for which the child was ineligible for \$26,655 (\$16,174 federal share) in Title IV-E benefits and at least \$8,935 (\$5,422 federal share) in Medicaid benefits received based on his or her age or anticipated graduation status. For eleven of those cases and five additional cases, the child was not provided assistance from Title IV-E funds after age nineteen; however, it did not appear reasonable the child could have reasonably been expected to graduate by his or her nineteenth birthday based on the child's birth date. If these children were ineligible for Title IV-E benefits at the age of eighteen, the additional amount of ineligible payments would have been \$112,009 (\$67,967 federal share) for the Title IV-E program and \$8,787 (\$5,332 federal share) for the Medicaid program.

### Recommendation:

The DFS resolve the questioned costs with the grantor agency. In addition, the DFS should improve procedures to ensure the high school graduation status for all foster children turning eighteen is obtained, documented in the case file and used to adjust the benefit funding source (including Medicaid benefits) if the child's expected graduation will be after age nineteen. The DFS should also consider computer system changes that would automatically switch to state funding when foster children reach the age of nineteen.

### Status of Finding

Division of Family Services has designated a person in central office to update our automated systems to correctly capture IV-E funding and federal medicaid. We are now changing the funding source to state only funds as soon as the child turns 18 in order to ensure that no federal funds are inappropriately claimed.

### Status of Questioned Costs:

Regarding the issue of reimbursing those agencies incorrectly charged for these expenses, we have already made retroactive adjustments in our automated payment system to ensure that we have reimbursed Title IV-E funds which were incorrectly claimed and have utilized state general revenue instead.

| <u>CFDA Number</u> | <u>Program Name</u>                     | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 10.551             | Food Stamps                             | \$8,068                 |
| 93.558             | Temporary Assistance for Needy Families | 0                       |

The DFS performs a monthly computer match between current benefit recipient and death records provided by the Department of Health - Bureau of Vital Statistics. Local office caseworkers are provided any match results for clients who are active members of a case with other participants to reevaluate the benefit status of that case. We identified at least fourteen clients whose case benefit status had not been reevaluated at least five months after the client's death. Based on the DFS benefit calculation guidelines and the earned income information in the case files, it appears benefits were overpaid \$8,068 on six cases and benefits were underpaid \$3,659 on five cases.

### Recommendation:

The DFS resolve the questioned costs with the grantor agency. In addition, the DFS should establish procedures to follow-up on the status of death match reports submitted to local offices for review to ensure action is appropriately taken to reevaluate the benefits the case is receiving.

### Status of Finding:

DFS/TM Section sent a memo to all area directors informing of the audit findings. The directors were reminded of the death notifications generated to staff as an alert of the need to do a circumstantial investigation of the given client and act on the results accordingly. They were also apprised that we are in the process of modifying the death-match alerts that are regularly issued when data from the DFS client information system matches that associated to a death certification in the data banks of the Bureau of Vital Statistics. The changes to the matches are expected to help ensure a better and more prompt response by staff, as well as to ensure that their supervisors have an effective tool to aide in the monitoring of what happens when staff are alerted to an active client death. The areas were instructed to devise and implement a control system for tracking what actions are effected in responding to the alerts.

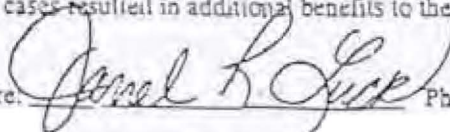

### Status of Questioned Costs:

Of the eleven cases identified as potentially having been overpaid/underpaid where a household member/head-of household had died, claims were established on eight for overpayment with a current outstanding amount totaling \$7,444.00 -- one of those cases no longer has a balance due. The other seven cases (of the eight) are either no longer active, or there are active cases for other previous household members who are not receiving cash benefits.

One of the eleven cases was determined to have been eligible for questioned benefits; the case had been acted upon timely insofar as closing relating to previous issuance eligibility.

The remaining two cases resulted in additional benefits to the active households when the deceased were removed.

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-17. Eligibility - Benefits to Felons

Federal Agency: Department of Agriculture and Department of Health and Human Services  
State Agency: Department of Social Services - Division of Family Services (DFS)

| <u>CFDA Number</u> | <u>Program Name</u>                     | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 10.551             | Food Stamps                             | \$521                   |
| 93.558             | Temporary Assistance for Needy Families | 0                       |

We selected a sample of 386 of the state's approximately 234,000 TANF and Food Stamp recipients over age nineteen at April 1998 and asked the Missouri State Highway Patrol to determine if any of them had outstanding felony warrants. We identified two persons with outstanding felony warrants with active Food Stamp cases who had received at least \$521 in ineligible benefits as of October 1998.

### Recommendation:

The DFS resolve the questioned costs with the grantor agency. In addition, the DFS should establish a cost-effective procedure to determine whether clients have outstanding felony warrants or have committed other violations that would prevent their eligibility.

### Status of Finding:

PRWORA does not mandate computer matching to detect fleeing felons and parole/probation violators. We anticipated that matching might occur in mid - 1999. However, it now appears that computer and other technical problems continue to delay this process. Matching may not occur until the early or mid part of the calendar year 2000.

### Status of Questioned Costs:

Claims have been established for benefits issued for two individuals identified with outstanding felony warrants.

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-18                      Eligibility - Social Security Number

Federal Agency:        Department of Agriculture and Department of Health and Human Services  
State Agency:         Department of Social Services - Division of Family Services (DFS)

| <u>CFDA Number</u> | <u>Program Name</u>                     | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 10.551             | Food Stamps                             | \$0                     |
| 93.558             | Temporary Assistance for Needy Families | 0                       |

During the client application process, caseworkers are required to obtain social security numbers for each person included in the case. If the applicant cannot provide documentation of the social security number of all case members, program rules require the case to be opened and the necessary social security number documentation obtained at the client's next redetermination. If the documentation is not provided at redetermination, the client is to be removed from the case. At April 30, 1998, we determined that the DFS client database had 9,266 Food Stamp and TANF clients that had no social security number reported. We tested 48 of these clients and noted eleven of the forty-eight clients reviewed did not have a social security number entered into the database by November 1998. We reviewed the case files for five of these eleven clients and found that each file contained documentation of the client's social security number.

### Recommendation:

The DFS improve procedures to ensure client social security numbers obtained after the initial application are entered into the DFS database.

### Status of Finding:

The DFS/TM Section sent a memo to all area directors apprising of instance findings where Social Security Numbers have not been entered into the client information data base, and where numbers have been entered but not verified. It was noted that the DFS initiated an extensive internal review that corroborated those findings.

The review group (Quality Assurance) made recommendations to aid in addressing the concerns. It was noted, incidentally, that a large portion of the cases where absent numbers were discovered involved newborns or very young children; numbers were probably applied for but not yet obtained and entered into the system. The SAO commented that many of the cases reviewed did have a verified number in the file but they had not been entered. Thus, the primary issue seems to be ensuring that numbers obtained after case activation are inputted.

The area directors were instructed to reiterate to staff the importance of making sure they follow up on securing and entering verified numbers into the DFS database when numbers could not be supplied at the point of application. For Food Stamp purposes, as a point, applications must be processed promptly in compliance with federal regulations whether or not the number can be verified at the time of application.

The memo informed that we intend to re-introduce regular alerts (matches) that will serve as a

tool to staff and their supervisors for better tracking purposes. The DFS is working with the Division of Data Processing to develop and implement such matches, with copies to go to both caseworker and supervisor. A draft has already been produced, and is being modified incorporating suggestions from the Quality Assurance review team's report.

Preparer's Signature:  Phone number: 751-3124

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

### 98-19.A. Corrective Action on Prior Audit Findings

Federal Agency: Department of Agriculture and Department of Health and Human Services  
State Agency: Department of Social Services - Division of Family Services (DFS)

| <u>CFDA Number</u> | <u>Program Name</u>                     | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 10.551             | Food Stamps                             | \$0                     |
| 93.558             | Temporary Assistance for Needy Families | 0                       |

The DFS responded for audit finding 97-16A in the Summary Schedule of Prior Audit Findings that corrective action had been taken regarding ineligible receipt of TANF benefits by clients due to unreported workers' compensation benefits. Our review indicated that corrective action had been taken for the nine ineligible cases reported; however, a periodic match between the DFS computer records and workers' compensation computer records had not been established to identify workers' compensation benefits unreported by clients.

#### Recommendation:

The DFS establish an interim match between DFS computer records and workers' compensation computer records until the match planned as part of the FAMIS system is implemented and operating effectively.

#### Status of Finding:

The DFS/IM Section is in the process of addressing the issue of verifying Workman's Compensation (WC) awards to public assistance recipients.

In talking with our Research and Evaluation Unit (R & E), it was initially believed that they would be able to extract the data we needed (for confirmation purposes) from a file layout as supplied by the Division of Child Support Enforcement (DCSE). In turn R & E would produce a report of incidences matching common client data routinely for the DFS.

The DCSE/DSS has in place an agreement with the Missouri Division of Workers' Compensation (MODWC) of the Department of Labor and Industrial Relations (DOLIR) to access information pertaining to liens filed against WC benefits. Discussions with DOLIR's legal section indicated that there should not be a problem with the DCSE sharing their data with the DFS to verify information for client assistance eligibility. However, in proceeding with implementation of the plan, DCSE's data processing section determined that they did not have access to the information the DFS requires in their dataset link to MODWC's automated system.

The DFS was compelled to return to the DOLIR to explore another avenue for securing said information. For the DFS to get the information it needs, the current agreement between the DSS and the DOLIR will probably have to be amended to include allowing the DFS to access the MODWC's files.

Meanwhile, the DFS and MODWC's Information Systems section are looking at possible modes for conveying data (when the amended agreement is effected) to the DFS. One thought is that the MODWC can build a unique file for the DFS alerting of Administrative Law Judge claim determinations relating to active clients in the DFS system; a "test" concept has already been discussed. Another possibility is allowing DFS staff to do an inquiry (linking directly to MODWC) on each individual assistance applicant (as is currently done with Employment Security in verifying client work quarters). As is always the case, issues of practicality, cost, effectiveness and efficiency are considerations in the decision.

Preparer's Signature:  Phone number: 751-3124

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-19.B                      Corrective Action on Prior Audit Findings

Federal Agency:            Department of Agriculture and Department of Health and Human Services  
State Agency:              Department of Social Services - Division of Family Services (DFS)

| <u>CFDA Number</u> | <u>Program Name</u>                     | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 10.551             | Food Stamps                             | \$0                     |
| 93.558             | Temporary Assistance for Needy Families | 0                       |

The DFS responded for audit finding 97-16C in the Summary Schedule of Prior Audit Findings that corrective action had been taken regarding clients with invalid social security numbers on the DFS computer system. We determined that all the errors from the last audit were corrected; however, we found an additional eight invalid social security numbers in the population of April 1998 TANF and Food Stamp benefit recipients. None of these invalid numbers had been corrected by November 1998. It appears procedures were not improved to correct invalid social security numbers.

### Recommendation:

The DFS improve procedures to ensure caseworkers review the quarterly social security number exception report and correct any invalid social security numbers in the DFS computer system.

### Status of Finding:

The DFS/TM Section sent a memo to all area directors apprising of instance findings where Social Security Numbers have not been entered into the client information data base, and where numbers have been entered but not verified. It was noted that the DFS initiated an extensive internal review that corroborated those findings.

The review group (Quality Assurance) made recommendations to aid in addressing the concerns. It was noted, incidentally, that a large portion of the cases where absent numbers were discovered involved newborns or very young children; numbers were probably applied for but not yet obtained and entered into the system. The SAO commented that many of the cases reviewed did have a verified number in the file but they had not been entered. Thus, the primary issue seems to be ensuring that numbers obtained after case activation are inputted.

The directors were instructed to reiterate to staff the importance of making sure they follow up on securing verified numbers when numbers could not be supplied at the point of application, and putting them into the data system. For Food Stamp purposes, as a point, applications must be processed promptly in compliance with federal regulations whether or not the number can be verified at the time of application.

The memo informed that we intend to re-introduce regular alerts (matches) that will serve as a tool to staff and their supervisors for better tracking purposes. The DFS is working with the

Division of Data Processing to develop and implement such matches, with copies to go to both caseworker and supervisor. A draft has already been produced, and is being modified incorporating suggestions from the Quality Assurance review team's report.

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998**

98-20. Reporting Compliance

Federal Agency: Department of Health and Human Services  
State Agency: Department of Social Services (DSS)

| <u>CFDA Number</u> | <u>Program Name</u>                | <u>Questioned Costs</u> |
|--------------------|------------------------------------|-------------------------|
| 93.667             | Social Services Block Grant (SSBG) | \$0                     |

For the year ending September 30, 1997, the SSBG annual report of program results did not include all necessary information to comply with federal reporting requirements.

**Recommendation:**

The DSS establish procedures to ensure the SSBG annual report is prepared in accordance with federal requirements.

**Status of Finding:**

The corrective action has been implemented.

Preparer's Signature:

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-21. Suspension and Debarment Compliance

Federal Agency: Department of Education and Department of Health and Human Services  
State Agency: Department of Social Services (DSS)

| CFDA Number | Program Name  | Questioned Costs |
|-------------|---|------------------|
| 84.126      | Rehabilitation Services - Vocational Rehabilitation<br>Grants to States                                   | \$0              |
| 93.044      | Special Programs for the Aging - Title III, Part B -<br>Grants for Supportive Services and Senior Centers | 0                |
| 93.045      | Special Programs for the Aging - Title III, Part C -<br>Nutrition Services                                | 0                |
| 93.563      | Child Support Enforcement   | 0                |
| 93.568      | Low-Income Home Energy Assistance (LIHEAP)  | 0                |
| 93.575      | Child Care and Development Block Grant  | 0                |
| 93.596      | Child Care Mandatory and Matching Funds of the Child Care<br>and Development Fund                         | 0                |
| 93.658      | Foster Care - Title IV-E  | 0                |
| 93.667      | Social Services Block Grant   | 0                |
| 93.778      | Medical Assistance Program  | 0                |

The DSS did not obtain suspension and debarment certifications from subrecipients and applicable contractors.

### Recommendation:

The DSS obtain appropriate suspension and debarment certifications from subrecipients and applicable contractors.

### Status of Finding:

The LIHEAP and Child Support program managers were inadvertently missed in the past corrective plan discussions. These contracts and subrecipient agreements will include the required certifications in the future.

1/26/00

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998**

98-22.                      Schedule of Expenditures of Federal Awards

Federal Agency:        Department of Health and Human Services  
State Agency:         Department of Social Services (DSS)

| <u>CFDA Number</u> | <u>Program Name</u>   | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 93.575             | Child Care and Development Block Grant  | \$0                     |
| 93.596             | Child Care Mandatory and Matching Funds of<br>the Child Care and Development Fund | 0                       |
| 93.658             | Foster Care - Title IV-E  | 0                       |

The Schedule of Expenditures of Federal Awards (SEFA) prepared by the DSS misreported the expenditures for the above noted programs by \$133,578,362. The errors were subsequently corrected when we reported them to DSS management.

Recommendation:

The DSS improve procedures to ensure the correct expenditure amounts are reported on the SEFA.

Status of Finding:

The corrective action plan has been implemented.

Preparer's Signature: 

Phone number: 751-7592

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-23. Cash Management

Federal Agency: Department of Health and Human Services and the Department of the Treasury

State Agency: Department of Social Services (DSS)

| <u>CFDA Number</u> | <u>Program Name</u>                            | <u>Questioned Costs</u> |
|--------------------|--|-------------------------|
| 93.575             | Child Care and Development Block Grant (CCDBG) | \$57,090                |

As the lead agency for this grant program, the DSS draws down all CCDBG funding for the state, subsequently passing part of the funding to the Department of Health (DOH) under an interagency agreement. Under a separate interagency agreement between the DOH and Department of Elementary and Secondary Education (DESE), CCDBG funding is also provided to the DESE. All the DESE funding is requested by the DOH on an advanced basis. For the year ended June 30, 1998, the DESE held an average month end balance of \$1.1 million in CCDBG funding; however, the state did not report any interest liability for this program on the CMIA annual interest liability report for the period. The estimated interest liability was \$57,090.

### Recommendation:

The DSS resolve the questioned costs. In addition, the DSS should work with the DOH and the DESE to ensure future funding provided to these agencies is requested on a reimbursement basis or reflect monies being held at the DESE in future CMIA interest calculations.

### Status of Finding:

The Child Care agreements with the Department of Health and the Department of Education now include a process for specifying cash requirements and procedures for routine adjustment of cash on hand.

### Status of Questioned Costs:

The disposition of interest obligations arising from federal cash on hand are implemented through the procedures prescribed in the State's CMIA agreement.

Phone number: \_\_\_\_\_

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-24. Ineligible Payments

Federal Agency Department of Health and Human Services  
State Agency: Department of Social Services - Division of Medical Services (DMS)

| <u>CFDA Number</u> | <u>Program Name</u>        | <u>Questioned Costs</u> |
|--------------------|----------------------------|-------------------------|
| 93.778             | Medical Assistance Program | \$65,669                |

We matched Medicaid recipient inpatient and nursing home claims paid during the fiscal year ended June 30, 1998, and managed care claims paid in June 1998, with computer records of deaths reported in Missouri since 1980 obtained from the state's Department of Health - Bureau of Vital Statistics. We identified 52 recipients who had claims paid for service periods after their date of death but no recoupment had been made. The total amount of claims paid for these recipients was \$108,221 (\$65,669 federal share). In addition, for 18 of the 52 recipients, the Missouri Medicaid Information System (MMIS) did not indicate a date of death, and recipient records for five of these 18 recipients still showed the individual as being eligible for Medicaid benefits.

### Recommendation:

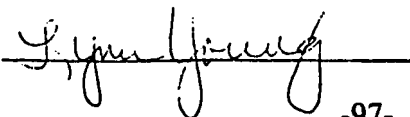

The DMS resolve the questioned costs with the grantor agency. In addition, the DMS should seek reimbursement from providers for the overpayments and establish procedures to ensure the MMIS is updated upon a recipient's death.

### Status of Finding:

No changes have been made in the corrective action plan as previously submitted. The DMS agrees that incorrect payments have been made. This occurs when the date of death has not been entered on file at the time the claims process. We feel that the process for gathering the date of death has much improved in the last year, however, there will still be delays due to timing of the actual death date and updating vital statistics. We have found that in many cases, the overpayment is made for services and equipment that occur on an on-going basis without direct contact with the recipient. (i.e. wheel chair rental). (Repeated from FY 1998 Corrective Action Plan.)

### Status of Questioned Costs:

No changes have been made in the corrective action plan as previously submitted. The examples included with the audit finding will be reviewed and considered immediately. The long term corrective action will be included in an enhancement to the MMIS proposed in the new RFP. (Repeated from FY 1998 Corrective Action Plan.) The DMS has performed two recoupments on the overpayments. On the Remittance Advice dated 06/25/99 a mass adjustment was done to recoup approximately \$48,421.84. Another mass adjustment was done on the 11/05/99 Remittance Advice to recoup approximately \$7,459.67.

Preparer's Signature:  -97-

Phone number: 751-7996

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-25                      Nursing Home and Hospice Claim Overpayments

Federal Agency            Department of Health and Human Services  
State Agency:            Department of Social Services - Division of Medical Services (DMS)

| <u>CFDA Number</u> | <u>Program Name</u>        | <u>Questioned Costs</u> |
|--------------------|----------------------------|-------------------------|
| 93.778             | Medical Assistance Program | \$94,473                |

The DMS pays hospice providers for hospice care furnished to nursing home recipients. The hospice is then responsible for reimbursing the nursing home based on a separate agreement. We noted a total of 1,809 patient days where the nursing home and the hospice provider were paid by the DMS for the same dates of service. These errors resulted in overpayments of \$159,380 (\$94,473 federal share).

### Recommendation:

The DMS resolve the questioned costs with the grantor agency. The DMS should also investigate and resolve similar questioned costs from prior years. In addition, the DMS should establish procedures to ensure nursing home and hospice claims are properly processed and paid.

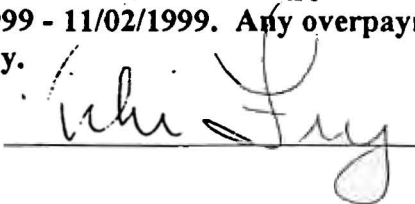

### Status of Finding:

The DMS initiated system changes to correct the problem through System Task Request (STR) S-1539. This change went into production on November 2, 1999. This STR eliminates the need for quarterly reports to manually look for overpayments.

### Status of Questioned Costs:

An ad hoc to determine those nursing home claims that were incorrectly paid was generated on August 30, 1999 and contained paid claims from 07/01/97 - 08/30/1999 (ad hoc run date). A total of 317 claims were adjusted for 160 nursing home providers. Providers received a letter dated October 29, 1999 along with a copy of any adjustment(s) made. One additional ad hoc has been requested which will include any overpayments made from 08/31/1999 - 11/02/1999. Any overpayments identified with this ad hoc will be adjusted accordingly.

2-1760

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-26. Drug Rebate Program

Federal Agency: Department of Health and Human Services  
State Agency: Department of Social Services - Division of Medical Services (DMS)

| <u>CFDA Number</u> | <u>Program Name</u>        | <u>Questioned Costs</u> |
|--------------------|----------------------------|-------------------------|
| 93.778             | Medical Assistance Program | \$257,083               |

As of December 1998, the DMS's Drug Rebate Unit had identified 9,193 claims against pharmacies with estimated overpayments totaling \$423,670 for which recoupments against the pharmacies had not been initiated because the claims were over five years old. The DMS does not initiate recoupment if the claim exceeds five years. Federal law requires that all identified overpayments be returned to the grantor agency. The federal share of these overpayments is \$257,083.

### Recommendation:

The DMS resolve the questioned costs with the grantor agency. In addition, the DMS should ensure the grantor agency is credited for its share of overpayments when identified, attempt to recover the overpayments, and establish procedures to ensure future recoupments of overpayments are performed in a timely manner.

### Status of Finding:

No changes have been made in the corrective action plan as previously submitted. The state agency has no basis upon which to recoup moneys expended. The Code of Federal Regulations states in 45 Subtitle A, § 74.53 that records are to be retained for a period of three years. The state agency requires providers to retain records related to services provided for a period of five years from the date of service as stated in Title XIX Participation Agreement for Prescribed Drugs. It is possible that had records been retained for a longer period of time, providers in instances of alleged overpayments might have been able to produce justification for questionable claims submitted and overturn the resultant recoupment. (Repeated from the FY 1998 Corrective Action Plan.)

### Status of Questioned Costs:

No changes have been made in the corrective action plan as previously submitted. See above explanation.

Preparer's Signature: Susan M'Carra Phone number: 757-6963

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998**

98-27.A. Third Party Liability

Federal Agency: Department of Health and Human Services

State Agency: Department of Social Services - Division of Medical Services (DMS)

| <u>CFDA Number</u> | <u>Program Name</u>        | <u>Questioned Costs</u> |
|--------------------|----------------------------|-------------------------|
| 93.778             | Medical Assistance Program | \$0                     |

The DMS did not maintain an up-to-date Third Party Liability (TPL) action plan and had not submitted any updates to the Health Care Financing Administration (HCFA) since March 1991.

Recommendation:

The DMS ensure that the TPL action plan is maintained on a current basis and updates are submitted to HCFA in accordance with federal regulations.

Status of Finding:

The TPL unit is working with DMS legal counsel to appropriately draft and update the action plan. It is anticipated that this will be completed December 1999.

Preparer's Signature: Chris Reeter Phone number: 1-2005

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-27.B. Third Party Liability

Federal Agency: Department of Health and Human Services  
State Agency: Department of Social Services - Division of Medical Services (DMS)

| <u>CFDA Number</u> | <u>Program Name</u>        | <u>Questioned Costs</u> |
|--------------------|----------------------------|-------------------------|
| 93.778             | Medical Assistance Program | \$0                     |

When the DMS's Third Party Liability (TPL) unit identifies trauma cases involving Medicaid recipients, the cases are recorded on a personal injury log. During the year ended June 30, 1998, 11,344 entries were recorded on this log. We selected 40 TPL claims from the personal injury log and for seven of 27 applicable items, the DMS failed to pursue collection from the third party within required time limits.

### Recommendation:

The DMS establish procedures to ensure collections from third parties are pursued within 60 days of the end of the month in which the potential TPL is identified.

### Status of Finding:

The TPL has redistributed the workload of trauma cases by assigning existing staff to different areas of the program. A System Task Request on the MMIS has been completed which enables automatic update of online recovery statements from each financial cycle's paid claims file. Clerical phone staff have been trained to communicate information from the online system to attorneys and insurance carriers which reduces correspondence and repeated calls.

Preparer's Signature: Chris Reeter Phone number: 1-2005

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-28.A1                      Hospital Overpayments

Federal Agency:            Department of Health and Human Services  
State Agency:              Department of Social Services - Division of Medical Services (DMS)

| <u>CFDA Number</u> | <u>Program Name</u>        | <u>Questioned Costs</u> |
|--------------------|----------------------------|-------------------------|
| 93.778             | Medical Assistance Program | \$0                     |

In March 1998, the DMS identified payments totaling \$4,794,643 made to twenty hospitals which exceeded these hospitals' cost of providing care to Medicaid and uninsured patients. The DMS only reduced the total reported Medicaid expenditures by \$1,568,845, leaving \$3,225,798 which were not netted against Medicaid expenditures. A similar accounting error, totaling \$612,295, occurred during the previous fiscal year ended June 30, 1997. After we brought these matters to their attention, the DMS made the necessary corrections to the federal report for the quarter ending September 30, 1998.

### Recommendation:

The DMS establish procedures to ensure the federal share of overpayments is credited to the grantor agency within 60 days.

### Status of Finding:

The MMIS payment system was programmed to recognize and accurately report this type of transaction. This was accomplished with system task request number S-1324 and placed in production on June 8, 1999.

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998**

98-28.A2.                      Hospital Overpayments

Federal Agency:            Department of Health and Human Services  
State Agency:             Department of Social Services - Division of Medical Services (DMS)

| <u>CFDA Number</u> | <u>Program Name</u>        | <u>Questioned Costs</u> |
|--------------------|----------------------------|-------------------------|
| 93.778             | Medical Assistance Program | \$0                     |

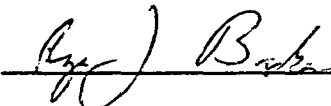

At the time of our review in January 1999, nineteen of the twenty hospitals that received overpayments noted in finding 98-28.A.1 had either repaid the overpayment or were having the overpayment withheld from subsequent payments. The DMS indicated that recoupment had not begun in one case involving an overpayment of \$815,972 due to legal issues regarding the merger of the hospital.

**Recommendation:**

The DMS ensure overpayments are recouped from providers in a timely manner.

**Status of Finding:**

**No changes have been made in the corrective action plan as previously submitted. The Division of Medical Services filed regulations to resolve issues regarding the merger of hospitals on January 15, 1999. The recoupment was completed by 6/30/99.**

Preparer's Signature:                       Phone number: 751- 5663

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1998

98-28.B. Hospital Overpayments

Federal Agency: Department of Health and Human Services  
State Agency: Department of Social Services - Division of Medical Services (DMS)

| <u>CFDA Number</u> | <u>Program Name</u>        | <u>Questioned Costs</u> |
|--------------------|----------------------------|-------------------------|
| 93.778             | Medical Assistance Program | \$183,196               |

The DMS established new inpatient per diem rates for all 147 hospital providers effective April 1, 1998. We reviewed the per diem rate for 20 hospital providers and noted one provider's per diem rate which was apparently inappropriately increased by \$155 in December 1998. The DMS then retroactively adjusted claims with dates of service after April 1, 1998 and the date of the rate change, resulting in an additional payment of \$301,906 (\$183,196 federal share) to this provider. We question the federal share of the retroactive payment.

### Recommendation:

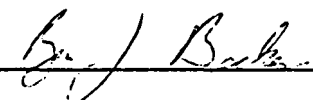

Resolve the questioned costs with the grantor agency. In addition, the DMS should recoup overpayments made to this provider and establish procedures to ensure reimbursement rates comply with state and federal regulations.

### Status of Finding:

No changes have been made in the corrective action plan as previously submitted. We disagree with the auditor's finding that the hospital payment for providing acute treatment services to former residents of a state mental hospital exceeded the OBRA 93 limitation for state fiscal year 1998. The auditor is incorrect in their assertion that the Division of Medical Services has exceeded the limitations of OBRA 93 or its state regulatory authority to define providers meeting specific criteria defined in state regulation that may be more than providers which do not meet those criteria. OBRA 93 does not require a state to pay all providers 100% of the provider specific limitation. (Repeated from FY 1998 Corrective Action Plan.)

### Status of Questioned Costs:

No changes have been made in the corrective action plan as previously submitted. See above explanation.

Phone number: 751-5663

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1997**

97-1.B. Expenditures

Federal Agency: Department of Labor  
State Agency: Department of Economic Development - Division of Job Development and Training (DJDT)

| <u>CFDA Number</u> | <u>Program Name</u>                                     | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 17.246             | Employment and Training Assistance - Dislocated Workers | \$1,909                 |
| 17.250             | Job Training Partnership Act                            | 5,227                   |

Some on-the-job training (OJT) salary reimbursement claim forms paid by administrative entities were not signed by program participants resulting in questioned costs of \$7,136.

**Recommendation:**

The DJDT resolve the questioned costs with the grantor agency and ensure the administrative entities comply with OJT documentation requirements.

**Status of Finding:**

Fully resolved. The Administrative Entities obtained the required signatures or provided other documentation for some of the reimbursement claims. \$2,099.10 of reimbursements were disallowed. The funds were collected and returned to the DOL.

Preparer's Signature: Harry Struempke Phone number: 526-8210

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1997

97-2.A. Fixed Asset Records and Procedures

Federal Agency: Department of Labor  
State Agency: Department of Economic Development - Division of Job Development and Training (DJDT)

| <u>CFDA Number</u> | <u>Program Name</u>                                     | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 17.246             | Employment and Training Assistance - Dislocated Workers | \$0                     |
| 17.250             | Job Training Partnership Act                            | 0                       |

Some Service Delivery Areas (SDAs) did not report physical inventory results to the DJDT on a timely basis.

### Recommendation:

The DJDT enforce deadlines for receipt of physical inventory results from SDAs.

### Status of Finding:

Fully resolved. The missing inventory reports were obtained, except from one Administrative Entity that failed to conduct the annual inventory. Future Incentive funds will be withheld until inventory requirements are met.

Preparer's Signature: Harry Stronach Phone number: 526-8210

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1997

97-4. Special Education Consulting Services

Federal Agency: Department of Education

State Agency: Department of Elementary and Secondary Education (DESE)

| <u>CFDA Number</u> | <u>Program Name</u>  | <u>Questioned Costs</u> |
|--------------------|--|-------------------------|
| 84.027             | Special Education - Grants to States                                     | \$26,363                |
| 84.181             | Special Education - Grants for Infants and Families<br>with Disabilities | 9,637                   |

Department-wide consulting service expenditures were directly charged to the Special Education program grants resulting in questioned costs of \$36,000.

### Recommendation:

The DESE resolve the questioned costs with the grantor agency. In addition, the DESE should ensure only expenditures specifically related to the Special Education program are charged directly to Special Education grants.

### Status of Finding:

The Department has contacted the U.S. Department of Education regarding this finding. They indicated that the finding will be forwarded to the appropriate federal agency and a final judgment would be made at that time.

### Status of Questioned Costs:

Unresolved.

Preparer's Signature: Quentin Beck Phone number: 751-4681

### SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1997

97-5.B.

## Salaries

Federal Agency:

Department of Education

State Agency:

Department of Elementary and Secondary Education (DESE)

CFDA Number

Program Name

### Questioned Costs

84.126

## Rehabilitation Services - Vocational Rehabilitation

## Grants to States

\$6,044

Documentation was not maintained to support the method used to allocate an employee's salary resulting in questioned costs of \$6,044. The employee did not maintain time sheets or personnel activity reports nor was the allocation method approved by the federal agency.

Recommendation:

The DESE resolve the questioned costs with the grantor agency. In addition, the DESE should obtain cognizant federal agency approval of its allocation method for this salary or require the individual to maintain time sheets, personnel activity reports or other documentation as required by OMB Circular A-87.

**Status of Finding:**

The U.S. Department of Education was contacted via written request for a determination on this issue. Guidance was given as to the proper documentation that is to be maintained for this situation. This documentation was maintained for this employee. In addition, in May 1999, we were contacted by a representative of the Department of Education and provided information to resolve this finding.

**Status of Questioned Costs:**

**Resolved.**

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1997

97-8. Funds Held Outside the State Treasury

Federal Agency: Department of Education  
State Agency: Department of Higher Education (DHE)

| <u>CFDA Number</u> | <u>Program Name</u>            | <u>Questioned Costs</u> |
|--------------------|--------------------------------|-------------------------|
| 84.032             | Federal Family Education Loans | \$0                     |

The DHE maintains a bank account for the Automatic Transfer of Money (ATOM) Program. The department does not have statutory authority on the state level to maintain funds outside the State Treasurer's office.

Recommendation:

The DHE move this account to the state treasury or pursue specific authority to establish the ATOM account outside the state treasury.

Status of Finding:

On April 6, 1998 the DHE received a letter from the state Commissioner of Administration acknowledging that he was aware of and had no objections to the existence of the ATOM account.

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1997

97-11. Questionable Payments to Service Providers

Federal Agency: Department of Health and Human Services  
State Agency: Department of Mental Health (DMH)

| <u>CFDA Number</u> | <u>Program Name</u>   | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 93.959             | Block Grant for Prevention and Treatment of Substance Abuse | \$936,811               |

The DMH provided \$936,811 of program funding to three for-profit providers, who are ineligible to receive these block grant funds.

### Recommendation:

The DMH resolve the questioned costs with the grantor agency. In addition, the DMH should discontinue providing block grant funds to for-profit providers.

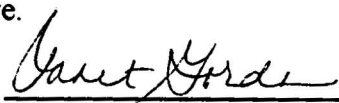

### Status of Finding:

We attempted to correct this situation. Please see the attached two letters. As indicated in the March 17, 1998 letter from the Department of Mental Health's Controller, George Allman, to the Office of Administration's Deputy Director, Jack Dothage, we requested journal voucher transfers be made to correct the situation as cited in the finding. The April 9, 1998 letter from Jack Dothage indicates that a journal voucher could not be submitted, and that "a cash transfer from General Revenue to Federal Funds and Federal Funds to General Revenue for the same amount, results in a wash transaction and is not necessary." Jack Dothage goes on to state in the letter that "we will file the Payment Correction Request you sent to our office to support the Single Audit corrective action taken."

In addition to attempting to correct the situation as noted above, we have corrected the internal funding process to ensure additional payments from the Block Grant have not been disbursed to for-profit entities.

### Status of Questioned Costs:

See explanation above.

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1997

97-15. FAMIS Contract Change Request

Federal Agency: Department of Agriculture and Department of Health and Human Services  
State Agency: Department of Social Services (DSS)

| <u>CFDA Number</u> | <u>Program Name</u>  | <u>Questioned Costs</u> |
|--------------------|--|-------------------------|
| 10.561             | State Administrative Matching Grants for Food Stamp Program                    | \$133,624               |
| 93.558             | Temporary Assistance for Needy Families  | 386,988                 |
| 93.566             | Refugee and Entrant Assistance - State Administered Programs                   | 413                     |
| 93.596             | Child Care Mandatory and Matching Funds of the Child Care and Development Fund | 11,652                  |
| 93.778             | Medical Assistance Program   | 66,234                  |

The contractor for the Family Assistance Management Information System (FAMIS) project was overpaid \$826,368 of which the federal share was \$598,911.

### Recommendation:

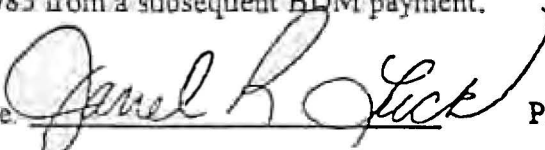

The DSS resolve the questioned costs with the federal grantor agencies.

### Status of Finding:

*(See Status of Questioned Costs)*

### Status of Questioned Costs.

The recommendation of SAO was that we resolve this finding with our federal grantor agencies. Since that time, I have spoken with both the Department of Health and Human Services, Division of Cost Allocation, and the Department of Agriculture, Food and Nutrition Service. Christine Rackers, Director of the Division of Budget and Finance, has signed an agreement regarding this finding with the Division of Cost Allocation. I believe you have already received a copy of that agreement. I have been notified by William Holmes of FNS that the finding has been resolved to their satisfaction, as well. Both agencies have considered the matter resolved once DFS withheld the questioned \$5,985 from a subsequent BDM payment.

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1997

97-19. Fixed Asset Records

Federal Agency: Department of Agriculture  
State Agency: Department of Social Services - Division of Family Services (DFS)

| <u>CFDA Number</u> | <u>Program Name</u>   | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 10.561             | State Administrative Matching Grants for Food Stamp Program | \$0                     |

The DFS fixed asset records were inadequate to ensure compliance with 7 CFR 277.13 regarding transfer or disposal of equipment purchased for the administration of the Food Stamp program.

### Recommendation:

The DFS establish procedures to ensure compliance with 7 CFR 277.13.

### Status of Finding:

The budget, procurement, and financial components of the new statewide system were implemented July 1, 1999. This system will be used to record fixed assets and will indicate the cost allocation between applicable programs.

This conversion to the new system will identify the grant or grants that paid for the purchase of the assets used for the administration of the food stamp program. This conversion will be ongoing through this fiscal year and will be completed prior to June 30, 2000.

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1997

97-20. Claims Accounting Restitution System Units

Federal Agency: Department of Agriculture  
State Agency: Department of Social Services - Division of Family Services (DFS)

| <u>CFDA Number</u> | <u>Program Name</u> | <u>Questioned Costs</u> |
|--------------------|---------------------|-------------------------|
| 10.551             | Food Stamps         | \$0                     |

The Claims Accounting Restitution System (CARS) Units in the St. Louis County and City of St. Louis DFS offices were not entering claims in the CARS on a timely basis.

### Recommendation:

The DFS ensure the local office CARS Units enter claims in the CARS on a timely basis.

### Status of Finding:

Quality Assurance staff analyzed the claim referral process and backlog of claim referrals in both St. Louis City and St. Louis County offices as a part of each county's 1998 Special Initiative (SI) review. Results of this analysis were shared with each county office in early 1999 during the presentation of all findings from the SI review. Both offices were asked to provide a plan to reduce the backlog of claim referrals including a plan to prevent a future backlog of claim referrals.

Progress in both counties is being monitored by Quality Assurance and Program and Policy staff. Monitoring will continue until claim referral backlogs in both counties are reduced to a manageable and stable level.

96-2. Fixed Assets

Federal Agency: Department of Labor

State Agency: Department of Economic Development - Division of Job Development and Training (DJDT)

| <u>CFDA Number</u> | <u>Program Name</u>                                     | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 17.246             | Employment and Training Assistance - Dislocated Workers | \$0                     |
| 17.250             | Job Training Partnership Act                            | 0                       |

Forty-eight fixed asset items with acquisition costs totaling \$67,969 were not located by Service Delivery Area (SDA) 3 and SDA 12. One hundred fifteen fixed asset items with acquisition costs totaling \$153,528 were not located by SDA 13.

**Recommendation:**

The DJDT require the SDAs to locate or replace the missing items or otherwise resolve this issue with the grantor agency.

**Status of Finding:**

Partially corrected. The State Auditor's recommendation will be implemented. Incentive funds will be withheld until inventory requirements are met. This finding should be fully resolved by June 30, 2000.

Preparer's Signature: Harry Struempke Phone number: 526-8210

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1996

96-5. Cost Allocation Procedures

Federal Agency: Department of Education  
State Agency: Department of Higher Education (DHE)

| <u>CFDA Number</u> | <u>Program Name</u>                   | <u>Questioned Costs</u> |
|--------------------|---------------------------------------|-------------------------|
| 84.032             | Federal Family Education Loans (FFEL) | \$9,962                 |

Two expenditures totaling \$19,131 were charged entirely to the Federal Family Education Loans (FFEL) program. It appears these expenditures were joint costs and \$9,565 should not have been charged to the FFEL program. Additionally, one expenditure was not allocated to the FFEL program according to the established allocation percentages and no documentation was retained for the deviation. As a result, \$397 was overcharged to the FFEL program.

### Recommendation:

The DHE resolve the questioned costs with the grantor agency. In addition, the DHE should ensure that all expenditures are properly allocated to the correct program and document the basis for any deviations from the established allocation percentages.

### Status of Finding:

On August 17, 1998 the DHE received a letter from the U. S. Department of Education instructing the DHE to repay the \$9,962 or appeal the finding and questioned costs within forty-five days. On September 29, 1998 the DHE appealed the finding and the related questioned costs. On December 14, 1999 the U. S. Department of Education responded to the appeal and did not require the DHE to repay any funds.

### Status of Questioned Costs:

See above.

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1996

96-9. Cooperative Agreement Compliance

Federal Agency: Department of Defense  
State Agency: Department of Public Safety - Adjutant General

| <u>CFDA Number</u> | <u>Program Name</u>  | <u>Questioned Costs</u> |
|--------------------|--|-------------------------|
| 12.401             | National Guard Military Operations and<br>Maintenance Projects | \$17,351                |

Refunds were not determined and remitted to the U.S. Treasury on a timely basis for unspent cooperative agreement advance payments.

### Recommendation:

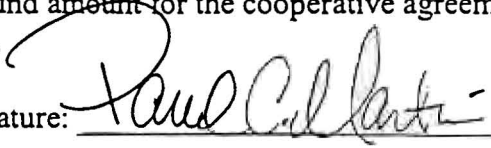

The Department of Public Safety - Adjutant General resolve the questioned costs with the grantor agency. In addition, the Department of Public Safety - Adjutant General should establish procedures to ensure the appropriate refund is determined for each cooperative agreement and remitted to the U.S. Treasury in a timely manner.

Status of Finding: All of the appendices to the master cooperative agreement concerning FY's 95 and 96 that have final closeout have been refunded.

In regards to established procedures to ensure the appropriate refund is determined for each cooperative agreement and remitted to the U.S. Treasury in a timely manner. All programs are required to reconcile internal records with state reports on a monthly basis. No more than 90 days after the end of the federal fiscal year they are required to submit an internal closeout form and include supporting documentation proving deposits and expenditures. Once received by this office (State Resources) the figures are verified using the state reports and internal records. The process has worked well in the closing of FY 99 agreements.

### Status of Questioned Costs:

The unpaid refund amount for the cooperative agreements for which refunds were determined have been paid.

Preparer's Signature:  Phone number: 638-9609

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1996

96-12 A Questionable Assistance Payments

Federal Agency: Department of Health and Human Services

State Agency: Department of Social Services - Division of Family Services (DFS)

| <u>CFDA Number</u> | <u>Program Name</u>                                     | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 93.560             | Family Support Payments to States - Assistance Payments | \$ 9,197                |

Five non-resident clients received \$15,328 in benefits resulting in questioned costs totaling \$9,197.

### Recommendation:

The DFS resolve the questioned costs with the grantor agency. In addition, the DFS should investigate the five cases noted and determine if recoupment claims for inappropriate benefits should be initiated. The DFS should also consider possible enhancements in its fraud prevention and detection efforts.

### Status of Finding:

We have determined that no further action could be taken on 96-12 A.

### Status of Questioned Costs:

In the previous response, the DFS explained the status on each specified client where benefit payments were in question. Only one recipient was determined to be ineligible for benefits based on the issue of residency. The client is not active in our system, so repayment has not been made on the previously established claim of \$1,724.50. It is not known whether the individual is even residing in Missouri at this time.

In a letter issued in July of 1997, the Department of Health & Human Services categorized the questioned costs of this finding as non applicable (N/A). Additionally, in December of 1997, the Office of Inspector General issued a clearance document showing the questioned costs relating to this finding as a non issue.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1996

96-12 B                      Questionable Assistance Payments

Federal Agency:            Department of Health and Human Services  
State Agency:             Department of Social Services - Division of Family Services (DFS)

| <u>CFDA Number</u> | <u>Program Name</u>                                     | <u>Questioned Costs</u> |
|--------------------|---|-------------------------|
| 93.560             | Family Support Payments to States - Assistance Payments | \$ 5,929                |

Nine clients who were ineligible as a result of receiving lottery prize or worker's compensation payments received \$9,882 in benefits resulting in questioned costs totaling \$5,929.

Recommendation:

The DFS resolve the questioned costs with the grantor agency. In addition, the DFS should review the cases noted above and recoup inappropriate assistance payments that were disbursed to ineligible clients. In addition, the DFS should establish adequate procedures to appropriately identify and respond to clients receiving lump sum income.

Status of Finding:

Remains "partially corrected".

Status of Questioned Costs:

In a letter issued in July of 1997, the Department of Health & Human Services categorized the questioned costs of this finding as non applicable (N/A). Additionally, in December of 1997, the Office of Inspector General issued a clearance document showing the questioned costs relating to this finding as a non issue.

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS - 1996

96-13. Food Stamp Duplicate Issuances

Federal Agency: Department of Agriculture

State Agency: Department of Social Services - Division of Family Services (DFS)

| <u>CFDA Number</u> | <u>Program Name</u> | <u>Questioned Costs</u> |
|--------------------|---------------------|-------------------------|
| 10.551             | Food Stamps         | \$0                     |

The local DFS offices did not take appropriate action upon notification of food stamp duplicate issuances for six of twenty-five (24 percent) cases reviewed.

### Recommendation:

The DFS ensure the local DFS offices take timely action to investigate duplicate issuances, establish a Claims Accounting and Restitution System claim on all improper duplicate issuances, and report promptly to the Mail Issuance Unit.

### Status of Finding:

The following corrective action has been taken:

Of the six cases with duplicate issuances, restitution has been make in full for four of the cases.

Of the two remaining cases, partial restitution has been made. Neither of the two cases are in active status, but recoupment can continue when the cases are in active status.

Each of the counties involved in the audit findings has developed a corrective action plan to track duplicate issuances to ensure timely follow up of duplicate issuance reports. Duplicate issuance claims have a priority status.

The Food Assistance Program office reports a significant increase in timely resolution of duplicate issuance reports.

We request that audit finding #96-13 be considered complete. Restitution has been initiated and completed in all but two of the cases involved. The county offices involved in the audit have successfully developed procedures to track duplicate issuance reports. Duplicate issuance claims have priority status.

AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

May 2000

The following audit report presents our findings and recommendations for certain municipal divisions of the Twenty-Fourth Judicial Circuit. During our audit, we identified accounting records, controls, and certain management practices which we believe could be improved. The municipal divisions in which specific findings and recommendations were noted are listed below:

|                                   |                    |
|-----------------------------------|--------------------|
| <b>City of Bismarck</b>           | <i>pages 26-28</i> |
| <b>City of Bonne Terre</b>        | <i>pages 28-30</i> |
| <b>City of Desloge</b>            | <i>pages 30-31</i> |
| <b>City of Farmington</b>         | <i>pages 31-33</i> |
| <b>City of Fredericktown</b>      | <i>pages 33-34</i> |
| <b>City of Iron Mountain Lake</b> | <i>pages 34-39</i> |
| <b>City of Leadington</b>         | <i>pages 39-41</i> |
| <b>City of Leadwood</b>           | <i>pages 41-43</i> |
| <b>City of Park Hills</b>         | <i>page 43</i>     |
| <b>City of Potosi</b>             | <i>pages 43-44</i> |
| <b>City of St. Mary</b>           | <i>pages 44-47</i> |
| <b>City of Ste. Genevieve</b>     | <i>page 48-50</i>  |

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON  
THE FINANCIAL STATEMENTS**

Presiding Judge  
and  
Municipal Judges  
Twenty-Fourth Judicial Circuit

We have audited the accompanying special-purpose financial statements of the various municipal divisions (other than the city of Iron Mountain Lake Municipal Division as of and for the years ended December 31, 1998 and 1997) of the Twenty-Fourth Judicial Circuit as of and for the years ended September 30, 1999 and 1998; June 30, 1999 and 1998; March 31, 1999 and 1998; and December 31, 1998 and 1997, as identified by municipality and fiscal period in the table of contents. These special-purpose financial statements are the responsibility of the municipal divisions' management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

Except as discussed in paragraph four, we conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of the municipal divisions of the Twenty-Fourth Judicial Circuit and are not intended to be a complete presentation of the financial position and results of operations of the municipal divisions.

Internal controls and accounting records of the city of St. Mary Municipal Division were inadequate. Records accounting for the numerical sequence and ultimate disposition of each traffic ticket issued by the police department were not maintained. In addition, receipt slips are not issued for some monies received. As a result, we were unable to satisfy ourselves by appropriate audit tests

or other means as to receipts and disbursements of fines and court costs beyond amounts recorded in the municipal division's records for the years ended September 30, 1999 and 1998.

In our opinion, except for the effects, if any, on the financial statements of the matters discussed in the preceding paragraph, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of the municipal divisions (other than the city of Iron Mountain Lake Municipal Division as of and for the years ended December 31, 1998 and 1997) of the Twenty-Fourth Judicial Circuit as of and for the years ended September 30, 1999 and 1998; June 30, 1999 and 1998; March 31, 1999 and 1998; and December 31, 1998 and 1997, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

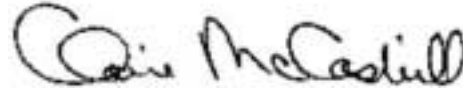

We also had planned to audit the accompanying special-purpose financial statement of the city of Iron Mountain Lake Municipal Division as of and for the years ended December 31, 1998 and 1997. This special-purpose financial statement is the responsibility of the municipal division's management.

Internal controls and accounting records of the city of Iron Mountain Lake Municipal Division were inadequate. Receipt slips were not issued for some bond monies received. In addition, records accounting for the numerical sequence and ultimate disposition of each traffic ticket issued by the police department were not maintained properly. As a result, we were unable to satisfy ourselves by appropriate audit tests or other means as to receipts and disbursements of fines, court costs, and bonds for the years ended December 31, 1998 and 1997. In addition, we were unable to assure ourselves of the amount of cash bonds held in trust at December 31, 1998 and 1997.

Because of the effects of the matters discussed in the preceding paragraph, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on the special-purpose financial statement of the city of Iron Mountain Lake Municipal Division as of and for the years ended December 31, 1998 and 1997.

In accordance with *Government Auditing Standards*, we also have issued our report dated October 28, 1999, on our consideration of the municipal divisions' internal controls over financial reporting and on our tests of their compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the municipal divisions' management and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

October 28, 1999 (fieldwork completion date)

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

Presiding Judge  
and  
Municipal Judges  
Twenty-Fourth Judicial Circuit

We have audited the special-purpose financial statements of the various municipal divisions (other than the city of Iron Mountain Lake Municipal Division as of and for the years ended December 31, 1998 and 1997) of the Twenty-Fourth Judicial Circuit as of and for the years ended September 30, 1999 and 1998; June 30, 1999 and 1998; March 31, 1999 and 1998; and December 31, 1998 and 1997, and have issued our report thereon dated October 28, 1999. That report expressed a qualified opinion on the special-purpose financial statements of the various municipal divisions of the Twenty-Fourth Judicial Circuit for the applicable fiscal periods. Except as discussed in the report on the financial statements of the municipal divisions referred to in the preceding sentence, we conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

We also had planned to audit the special-purpose financial statement of the city of Iron Mountain Lake Municipal Division as of and for the years ended December 31, 1998 and 1997, and have issued our report thereon dated October 28, 1999. In that report we did not express an opinion on the special-purpose financial statement.

Compliance

As part of obtaining reasonable assurance about whether the special-purpose financial statements of the various municipal divisions of the Twenty-Fourth Judicial Circuit are free of material misstatement, we performed tests of the municipal divisions' compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no material instances of noncompliance that are required to be reported under *Government Auditing Standards*. However,

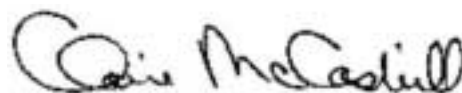

we noted certain other instances of noncompliance which are presented in the accompanying Management Advisory Report.

### Internal Control Over Financial Reporting
